TO: Chairs and Staff Resources for the Participatory Governance System Committees
CC: Senate Presidents

RE: **Data Dialogue – PGS Committees**

In order to address WASC Recommendation #4 regarding strengthening the role of research through broad institutional dialogue and critical analysis, the Office of Planning Research and Institutional Effectiveness will prepare brief data reports, or "data nuggets", that will be distributed monthly to promote institutional dialogue, assist

college planning efforts and improve institutional effectiveness.

The monthly data nuggets will be discussed in the President's Forums and College Council, announced in the President's Briefing, and sent to governance committee chairs to be used in committee discussions as appropriate.

To Do:
As the Chair of a PGS committee, please "receive, discuss, and record" (RDR) as follows:

(a) Receive the "monthly data nugget" at the end of each month.
(b) If your committee decides that the data is appropriate for the committee's work, please discuss it by:
- Including it on the agenda
- Asking one of the following questions, but not limited to:
  "What does the data tell us?"
  "How can the data inform our committee's work?"
  "What are some solutions we might explore?"

(c) Record the conversation in your minutes.

April Data Nuggets:
Accountability Reporting for Community Colleges (ARCC) 2011 Report.

Thank you very much for your anticipated teamwork/leadership to improve institutional effectiveness by providing a meaningful dialogue.

If I can provide any assistance, please let me know.

Dr. Chialin Hsieh
