

## Measure C Bond Oversight Committee: Annual Report

April 26, 2006

Dear Citizens of Marin County:

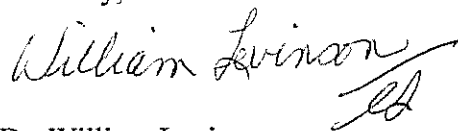

The Marin Community College District's Measure C Bond Citizens' Oversight Committee is pleased to present to the public the 2005 Annual Report on the bond measure. The report reflects what has been done since the citizens of Marin County passed Bond Measure C in November 2004 through June 30, 2005 and indicates the future progress of preparing our campuses for the 21<sup>st</sup> century.

The Citizens' Oversight Committee (COC), currently consisting of thirteen members of the Marin County Public, has met twice during the report period to monitor the implementation of Bond Measure C.

The COC has had numerous discussions with the Vice President of College Operations, Albert J. Harrison, II, the Director of Modernization José Nuñez and the Superintendent/President, Dr. Frances White, regarding the process of organizing the multitude of projects authorized under the Measure C bond. In addition, the COC has toured both colleges to inspect them.

The COC looks forward to being an instrumental part of the long process of preparing our college for the future so that we, our children and their children can continue the American dream of a college education for all citizens.

Cordially,

Dr. William Levinson  
Chair, Bond Measure C Citizens' Oversight Committee
