The Office of Assessment & Testing administers Math and English placement tests by Accuplacer. Placement tests are needed as proof of eligibility for any Math or English class with pre-requisites. Appointments are required. We only test students who are attending College of Marin. Students must have a College of Marin Student ID# to test. Tests are untimed (except essay) and done on a computer. Students receive their placement score immediately following the test session. Accuplacer tests can be taken only two times within a two-year period. Placement tests are an important first step in the enrollment process. Please stop by the Testing Office for a special test preparation flier. **The Testing Office strongly recommends students conduct a thorough review of Math and English prior to scheduling their placement tests.** Sample tests are available at: <http://www.collegeboard.com/student/testing/accuplacer/index.html> (& for math): www.khanacademy.org
