OUR PHILOSOPHY IS "STUDENTS FIRST!"

1. **KAY RYAN**
   - Basic Skills Professor, Poet Laureate
   - Poet Laureate Kay Ryan has taught basic English skills at College of Marin for more than 30 years. Ryan’s students are often serious, hardworking people in their late twenties or early thirties intent on improving the quality of their lives through learning. Without strong English writing and reading skills, well-paying jobs and promotions elude them.

2. **W. ALLEN TAYLOR**
   - Drama Professor, Award Winning Playwright and Actor
   - “Teach from the heart and the head will follow,” says W. Allen Taylor, an award-winning playwright, director and actor who brings his 29-year-old award-winning acting career to the classroom and the stage at College of Marin. When Taylor is not teaching, he is often acting and directing works throughout the country. Taylor has performed on network television and in regional theaters around the country.

3. **KAZUKO SHIOTA**
   - Japanese Professor
   - College of Marin students, who study Japanese with Kazuko K. Shiota, learn more than words, information and grammar. Learning Japanese is about learning the culture from which the language springs. Shiota says, “Language is culture.” It is one way Americans can begin to understand the diverse ways of people.

4. **JAMIE TIPTON**
   - English Professor, Author
   - The best part of teaching, according to College of Marin English Professor Jamie Tipton, is constantly dealing with a subject that inspires and having the opportunity to share that inspiration. Tipton is the author of numerous works. His most recent historic novel, Annette Vallon (Harper/Collins, 2008), landed on the San Francisco Chronicle’s top ten best seller list of Bay Area books.

5. **POET LAUREATE KAY RYAN**
   - Basic Skills Professor, Poet Laureate
   - Poet Laureate Kay Ryan has taught basic English skills at College of Marin for more than 30 years. Ryan’s students are often serious, hardworking people in their late twenties or early thirties intent on improving the quality of their lives through learning. Without strong English writing and reading skills, well-paying jobs and promotions elude them.

6. **W. ALLEN TAYLOR**
   - Drama Professor, Award Winning Playwright and Actor
   - “Teach from the heart and the head will follow,” says W. Welcome to the College of Marin. Like many of our students, coming here may change your life for the better.

The College of Marin is fully accredited by the Accrediting Commission for Community and Junior Colleges of the Western Association of Schools and Colleges. The majority of our courses are transferable to four-year colleges and universities and many of our students go on to earn their baccalaureate or higher degrees at prestigious universities such as UC Berkeley, Stanford, and UCLA among others. By attending the College of Marin for the first two years of your higher education, you will save thousands of dollars over the cost of attending a four-year university.

Whether your immediate goal is to continue your higher education, career advancement, or a new career, we have programs to help you succeed. At College of Marin, you can choose from a variety of academic transfer courses and workforce training programs. We offer occupational training and workforce preparation in a variety of areas, including nursing, business, multimedia, court reporting, medical assisting, accounting, and more.

College of Marin is committed to helping you achieve your goals. Our rich heritage of academic excellence is due in large part to our outstanding faculty and staff. Our faculty is dedicated to teaching. Our staff is focused on creating the environment and providing the high-quality services that you need to succeed.

Founded in 1926, College of Marin is one of California’s premier community colleges. Each semester thousands of students enroll in more than 1,000 credit classes in a supportive and intimate setting. We know our students by name, and how to help and encourage them. We know how to unlock the door to educational curiosity and success. I hope that you will join us at the College of Marin. We look forward to the opportunity to be part of your journey toward new success and personal rewards.

Frances L. White, Ph.D.
Superintendent/President

COLLEGE OF MARIN
MISSION STATEMENT

College of Marin’s commitment to educational excellence is rooted in our mission to provide excellent educational opportunities for all members of our diverse community by offering:

• preparation for transfer to four-year schools and universities;
• workforce education;
• basic skills improvement;
• intellectual and physical development and lifelong learning; and
• cultural enrichment.

The College of Marin is committed to responding to community needs by offering student-centered programs and services in a supportive, innovative learning environment with a strong foundation of sustainability, which will instill environmental sensitivity in our students.

Approved at April 17, 2007 Board Meeting

GOALS FOR COLLEGE OF MARIN

1. **Institutional Excellence.** The Board believes that superior results originate in high aspirations. Therefore, the Board’s basic and most important goal for the College is to excel in every activity it undertakes. By so doing, it will achieve a position of local, state and perhaps even national prominence.

2. **Academic Excellence.** The College must offer its students rigorous, high-quality curricula including degree and certificate programs in lower division arts and sciences and in vocational and occupational fields; remedial instruction; English as a Second Language instruction; support services which help students succeed at the postsecondary level; adult noncredit education; and community services courses and programs, in keeping with state mandates. Academic excellence in all of the College’s curricula and support services is at the core of the College’s environment. The curricula must remain current and challenging.

3. **Faculty and Staff Excellence.** For the College to excel, it must attract and maintain a faculty and staff of the highest quality, one that functions within an environment of professional development and renewal, and one that focuses on and values the teaching and learning process.

4. **Community Responsiveness.** The College must offer broad curricula to meet the needs of students. It must select areas of special interest and need to the communities it serves.

5. **Diversity.** The community college is a primary opportunity for people of great diversity to come together for growth and development. The College has an absolute obligation to bring together people of different ages, races, and ethnic backgrounds, male and female, at different levels of development, in an atmosphere of equal opportunity and tolerance.

6. **Fiscal Responsibility.** The Board and the Administration must operate the College in a fiscally sound way. Together, they must limit expenditures to those that relate directly to the College’s mission, goals and objectives; maintain a prudent level of reserves; and generate new sources of revenue to supplement state funding allocations.
COLLEGE GOALS AND STRATEGIC INITIATIVES

Goal 1: Institutional Excellence

Strategic Initiative(s):
1. Support program innovation, new technologies and modernization of facilities.
2. Review and revise Board Policies and Administrative Procedures.
3. Demonstrate good stewardship with physical and human resources.
4. Implement, monitor, and revise Strategic Plan so planning drives resource allocation and all College plans are linked to strategic planning.

Goal 2: Academic Excellence

Strategic Initiative(s):
1. Provide annual program reviews for transfer and occupational/workforce programs, student services for data driven planning and budget decision making.
2. Develop Student Learning Outcomes at the institutional, division and department levels of the college.
3. Establish enrollment growth plan.
4. Revitalize curriculum and update all course outlines.

Goal 3: Faculty and Staff Excellence

Strategic Initiative(s):
1. Support professional and staff development initiative and activities.
2. Provide on-going training opportunities for faculty and staff.

Goal 4: Community Responsiveness

Strategic Initiative(s):
1. Create new programs and community partnerships.
2. Participate in community clubs, organizations and events (when possible).

Goal 5: Diversity

Strategic Initiative(s):
1. Support equal opportunity and tolerance.
2. Establish mechanisms to support student and staff diversity.

Goal 6: Fiscal Responsibility

Strategic Initiative(s):
1. Establish a reserve above the 5% state minimum.
2. Create plan to fund the unfunded Retiree Liability.

Credit Program
Fall Semester 2008

We have designed this catalog to give prospective and current students, advisors, faculty, employers, and friends of College of Marin an accurate picture of the curriculum, faculty, environment, and related subjects. Browse through the catalog to get acquainted. The index will often list items by several different names to give you a better chance of finding what you need.

Over the course of the next year when the catalog will be in use, there will be changes in curriculum, faculty, and other important areas. Information about changes will be available in class schedule booklets, which are issued three times each year for fall and spring semesters, and summer sessions. All information is current at the time of publication but is subject to change.

Visitors are welcome to the campuses. Address all mail to College of Marin, 835 College Avenue, Kentfield, CA 94904. College of Marin telephone is (415) 457-8811. Web address: www.marin.edu

Community Education Program
Calendar

Fall Quarter Community Education Classes 2008
Fall 1: Beginning September 2 and Ending October 18
Fall 2: Beginning October 20 and Ending December 6

Winter Quarter Community Education Classes 2009
Beginning February 2 and Ending March 21

Spring Quarter Community Education Classes 2009
Beginning March 23 and Ending May 16

How to Use This Catalog

The amount of information in the catalog may seem overwhelming at first and the details of enrolling at the college may sound complex. Take it step-by-step to make it easy. The following guidelines will be of help in planning a program at College of Marin. Depending upon your reason for attending college, refer to the following:

1. All students attending College of Marin and completing 60 units may seek a degree.
   (a) Refer to page 47 for general education and other graduation requirements.
   (b) Refer to page 51 for a table of Associate in Arts and Science degree programs.
   (c) Make an appointment early with a counselor to learn about prerequisites and testing and to help you plan your program.

2. If you are planning to enroll in one of our two-year occupational programs or want to complete a certificate:
   (a) Suggested programs can be found fully described under each discipline offering an occupational program beginning on page 69. Occupational programs are identified by the word “Occupational” listed in the title of the degree.
   (b) Look up these courses in the class schedule that is published before each semester and plan your time schedule.

3. If you are planning to transfer to a four-year college or university after attending College of Marin:
   (a) Refer to requirements for the majors more fully described under each discipline beginning on page 69.
   (b) Refer to transfer information on page 55.
   (c) Contact the Transfer/Career Center for access to college catalogs from other schools, to investigate career options, and for computerized career and transfer information. Transfer information is available online at ASSIST (www.assist.org).
   (d) Contact the Counseling Department to make an appointment with a counselor who can assist you with selecting courses to meet specific transfer requirements to a four-year college or university.

4. If you are planning to enroll in courses for self-enrichment:
   (a) Refer to the listing of courses in this catalog beginning on page 69.
   (b) Refer to the Community Education schedule published quarterly.

5. If you have never attended College of Marin, file an application for admission in the Office of Admissions and Records. Dates for registration are listed in the class schedule.
Why Enroll at College of Marin?
There are a variety of reasons for attending College of Marin:

- To acquire a general background in the major areas of knowledge: the humanities, social and behavioral sciences, and natural and physical sciences.
- To benefit from the diverse backgrounds and extensive experience of a faculty committed to providing quality education.
- To receive guidance and assistance from instructors and counselors to plan a program that meets your individual needs.
- To prepare for transfer to a four-year college or university by completing lower division requirements in your major.
- To obtain a certificate or occupational degree offered in a variety of fields.
- To upgrade skills through specific courses offered at the College.
- To take courses for self-enrichment.

History of the College
College of Marin has been a tradition in Marin County since 1926. Known as Marin Junior College, it granted its first associate degrees in the spring of 1929. In 1947, the College was renamed College of Marin. In 1971, the Board of Trustees established the second college of the district and named the new institution Indian Valley College. The college operated in temporary facilities at Hamilton Air Force Base and at the Pacheco School while the campus was under construction. Its first associate degrees were awarded in 1972, and the new campus opened in the fall of 1975. In 1985, the two colleges merged and are now known as College of Marin. Classes are offered on the Kentfield Campus in Kentfield and the Indian Valley Campus in Novato.

College of Marin was founded to serve the educational needs of the residents of Marin County. The two campuses serve a county population of approximately 250,000 residents.

Since its beginning, the College has sponsored university-parallel programs that provide opportunities for students to complete the freshman and sophomore years of study toward the baccalaureate degree before transferring to a four-year institution. The College awards associate degrees in many transfer majors. A variety of two-year vocational and career programs leading to the associate degree is also offered to prepare students for entry into specific technical or semi-professional fields. Skills Certificates and Certificates of Achievement are awarded in vocational and technical programs.

The College of Marin faculty is firmly committed to excellence in teaching. There are 117 permanent faculty, 19 educational administrators, five classified administrators, and 200 professional, technical, clerical, and service employees serving the 6,770 students enrolled in credit programs. The faculty, administrators, and staff hold degrees representing colleges and universities in some 26 states and foreign countries. Twenty-two faculty members hold doctorate degrees.

A faculty and staff directory is listed in the back section of this catalog.

Accreditation
College of Marin is accredited by the Accrediting Commission for Community and Junior Colleges of the Western Association of Schools and Colleges, 10 Commercial Blvd., Novato, CA 94949, (415) 506-0234, an institutional accrediting body recognized by the Commission on Recognition of Postsecondary Accreditation and the U.S. Department of Education.

Special programs also are accredited by the California Board of Dental Examiners, American Dental Association, the California State Board of Registered Nursing Examiners, and the National League for Nursing Accreditation Commission.

The College is approved for foreign student education by the United States Immigration Services, and veterans’ education by the California Department of Education, Bureau of School Approvals. The University of California, the California State University, and other four-year colleges and universities accept units of credit in transfer courses completed at College of Marin.

Mission of California Community Colleges
Primary missions of the Colleges are to offer academic and vocational education at the lower division level for both recent high school graduates and those returning to school.

Another primary mission is to advance California’s economic growth and global competitiveness through education, training, and services that contribute to continuous workforce improvement.

Essential and important functions of the colleges include: basic skills instruction, providing English as a Second Language, adult noncredit instruction, and providing support services that help students to succeed.

Fee-based Community Service education is designated as an authorized function.

To the extent funding is provided the Colleges may conduct institutional research concerning student learning and retention as is needed to facilitate their educational missions.

Academic Programs

College of Marin integrates its resources and functions to serve community needs. The academic programs are managed by experienced administrators and staff and taught by qualified faculty. All aspects of the College’s programs are reviewed to assure that they meet community and student needs. Recognizing that education is a lifelong process, the College provides educational opportunities for all age groups, including credit programs leading to the Associate in Arts and Associate in Science degrees, academic programs that prepare students to transfer to a four-year institution, and vocational-technical programs that prepare students for specific fields of employment and enable people to upgrade their work skills.

Courses are also offered to meet the curricular needs of disabled, re-entry, and foreign students. For students who need remedial work, there are special programs in English, mathematics and study skills.

The College’s faculty includes published authors, acknowledged scholars, performing actors, dancers, musicians, talented studio artists, scientists, and professional technicians. They, along with the administrative team and support staff, are committed to providing quality education.

College of Marin’s reputation for instructional innovation and quality is well known and respected statewide. It includes self-paced courses in many disciplines such as English, foreign languages, and math. The Distance Learning Program reaches beyond the traditional classroom by offering televised, videocassette, and web-based courses. Instructional aides and tutors are available for those who need assistance.

Information about courses, programs, institutional requirements, and various services is contained in the College catalog, the College website www.marin.edu, the class schedule, and a variety of special mailings.

Class Schedule

College of Marin offers day and evening credit classes both on the Kentfield Campus and the Indian Valley Campus. These classes are usually semester length, although shorter-term classes are frequently offered. The College also schedules summer sessions.

A schedule of classes is available prior to each semester, which lists intended course offerings, instructor assignments, and rooms.

The College also publishes a Community Education schedule quarterly.

Community Education Department

College of Marin’s Community Education Department offers students access to a variety of noncredit (free) and Community Services (fee-based) classes which can assist in achieving personal, educational and professional goals. These classes provide the Marin community with lifelong learning opportunities, a place to prepare for entering college credit and transfer programs and career development classes designed to serve the working adult.
Noncredit Instruction
Noncredit instruction offers free courses for non-native English speakers, parents, older adults and disabled students. These classes include English as a Second Language classes and classes offered through Emeritus College and the Disabled Students Program. For more information, see below.

Community Services
Community Services courses offer Marin residents of all ages a wealth of opportunities for personal development, skills development, cultural enrichment and recreational enjoyment. Thousands of students enroll each year in Community Services classes, which are taught by some of the finest instructors in the country. Classes cover a broad spectrum of interests and disciplines, including art, writing, literature, dramatic arts, music and much more. In order to make offerings as convenient as possible, classes are held on campus, off campus and online. A variety of business, professional and career development classes and workshops, including introductory classes in graphics, software and marketing, are offered for the working population. Throughout the year, courses meeting the continuing education requirements for health professionals are offered in the areas of Nursing and Dental Assisting.

Community Services classes are self-supporting and not funded by taxpayers’ dollars. Prices vary depending on the actual class.

For a complete listing of Community Services classes, including class fees, please visit the website at www.marincommunityed.org

Department phone: (415) 485-9305

Emeritus Program
Programs for older adult students (Emeritus College)
Designed to meet the needs of the County’s older adult student learner population, Emeritus College is a unique program offered as an integral part of the District’s noncredit and Community Services programs. Courses offered through Emeritus College aim to support the principles of quality of life, lifelong learning and creative retirement.

The Associated Students of Emeritus College (ASEC) was created to support and enhance the Emeritus College program. To achieve this goal, members participate in the identification and development of courses, clubs, forums, concerts, lectures and other activities of interest to older adult students. ASEC is a vital part of the College of Marin and an advisory group to Community Education. Members participate in the college governance system and on other college committees and taskforces.

Basic to ASEC is the concept of democratic decision-making and planning, using the talents and judgment of its members to enrich their own lives and to contribute to the college and the community.

Department phone: (415) 485-9368

English as a Second Language
Intensive English Program
The Intensive English Program is designed for foreign students and residents preparing to enter American colleges or universities. Classes meet 20 hours per week for 16 weeks and provide instruction in all English skills and TOEFL preparation, as well as an introduction to other academic disciplines. The Intensive English Program is fee-based and is offered at the Indian Valley Campus only. Part-time programs (6 or 12 hours) are available for residents, as well as shorter eight-week programs. Students do not receive college credit for the program.

Web address: www.marincommunityed.org
(415)-883-2211, ext. 8579

Noncredit ESL Classes
Noncredit ESL classes are designed for adults in the community who require English to prepare for academic courses, to get or keep a job, or for personal growth to better survive in an English-speaking community. Day, evening and Saturday classes are available for beginning to low-intermediate proficiency levels on both the Kentfield and Indian Valley campuses as well as in San Rafael and Novato. Students take a required noncredit assessment test before registering. There are no fees for these classes.

ESL Office: Harlan Center 101
Web address: www.marin.edu/departments/esl
(415) 485-9642

Credit ESL Classes
Credit ESL classes are offered for college credit to students at intermediate to advanced proficiency levels. Classes at each level focus on grammar, speaking/listening, reading/vocabulary or writing. Early registration is strongly advised.

To enroll in credit ESL classes, students must take a College of Marin ESL Student Success Workshop that includes placement testing, counseling and orientation before enrolling in classes. Students may call the ESL Office or the Counseling Office to sign up for a workshop. Assistance in the application process is available in the Counseling Department. See Section Six of this catalog for course descriptions.

OPORTUNIDADES EDUCATIVAS

College of Marin fue fundado en 1926 y ofrece a los estudiantes la oportunidad de obtener el título de Asociado en Artes (AA), de transferir créditos académicos a las Universidades de California (UC) o a las Universidades Estatales de California (CSU) y también a cualquier otra universidad. El colegio ofrece certificados vocacionales en varios programas. College of Marin está dispuesto a servir a todos los habitantes que viven en el distrito del colegio.

Matrícula abierta para todos

Discriminación positiva

De conformidad con el Título IX de las Enmiendas de Educación de 1972, la Ley de Igualdad de Oportunidades en el Empleo de 1972 (Título VII de la Ley de Derechos Civiles de 1964 como ha sido enmendada), la Ley de Derechos de 1991 y la Apartado 504 de la Ley de Rehabilitación de 1974 y la Ley de Americanos con Discapacidades, es norma del Marin Community College District no discriminar contra ninguna persona basándose en su raza, color, religión, edad, sexo, ascendencia, orientación sexual, nacionalidad de origen, estado civil, afección (cáncer), discapacidad física o mental, o condición de veterano de la era Vietnam en todos sus programas y actividades educativas y de empleo, sus normas, prácticas y procedimientos. Los estudiantes tienen derecho a presentar una queja interna o una queja a la Oficina de Derechos Civiles.

College of Marin de conformidad con la Ley de Igualdad de Revelación en Deportes, ofrece información concerniente el funcionamiento de su programa intercolegial de deportes. En la Oficina de Ingresos y Recursos, la Biblioteca y el Departamento de Deportes está disponible un informe completo para la consideración del público. La norma 5.004 de College of Marin prohíbe el acoso verbal, físico, vis aplicar una discriminación positiva a todos sus programas y a todos los aspectos del empleo para asegurar igualdad de oportunidades y el logro de una presentación proporcional de miembros idóneos de grupos históricamente insuficientemente representados. La falta de dominio del idioma inglés no será obstáculo para la admisión y participación en los programas de orientación educativa.

Pueden producirse cambios sin previo aviso

Las normas, directrices, disposiciones, procedimientos, honorarios, cursos, horarios y servicios de los estudiantes descritos en esta publicación están sujetos a cambio en cualquier momento sin previo aviso. El Colegio se reserva el derecho de modificar los honorarios, declaraciones y procedimientos contenidos en la presente. Los honorarios y procedimientos están sujetos a cambio en cualquier momento por la Legislatura Estatal y el Consejo de Administración. Es responsabilidad de los estudiantes cumplir con los requisitos del Colegio y mantenerse informados de los mismos. Cuando se produzcan cambios, los mismos estarán incluidos en la siguiente publicación habitual del Catálogo u Horario de Clases.

Política de Matrícula Abierta

Es norma del College of Marin que a menos que sea específicamente exento por ley, todos los cursos, parte de un curso o clase, cuya asistencia debe ser comunicada para ayuda estatal, estarán completamente abiertos para matrícula y participación de cualquier persona que haya sido admitida al Colegio y que reúna los requisitos esenciales según se hayan establecido con arreglo al Capítulo II, División 2, Parte VI, Título 5 del Código de California.

ADMISSIONS INFORMATION

The College Serves Students of All Ages

Admissions Policy

(Credit Classes)

College of Marin has an open admissions policy. Eligibility to attend is satisfied if you have met at least one of the following requirements:

- You are eighteen (18) years old on or before the first day of instruction for the term which you are applying.
- You are a high school graduate.
- You are the equivalent of a high school graduate, i.e., you have passed the G.E.D. or a state's high school proficiency examination.

Please note that the above requirements are general; other factors may determine eligibility.

Contact the Office of Admissions and Records at (415) 457-8811 ext. 8822 for more information, or visit our website at http://www.marin.edu.

Admissions as a Special Part Time Student

(Concurrently Enrolled High School Student)

College of Marin welcomes students under the age of 18 years and attending high school to enroll in courses of advanced scholastic and vocational programs. Courses which students have elected to use as high school credit will also be counted, where applicable, toward the Associate Degree or Certificate requirements.

To be considered for admissions as a Concurrently Enrolled High School Student, Section 76011 of the California Code of Regulations requires the recommendation of the high school principal and the consent of the parent or guardian.

For more information please contact the Office of Admissions and Records at (415) 457-8811 ext. 8822.

International Student Admissions

International students seeking admissions to College of Marin must provide the following:

1. If native language is not English, provide evidence of English proficiency.

   - Applicants living outside the San Francisco Bay Area must provide an acceptable score on the TOEFL (Test of English as a Foreign Language) of 500 on written test, 173 for the computer test or 61 on the Internet based test.
   - Students living within the San Francisco Bay Area may take College of Marin's TOEFL Test in lieu of the official TOEFL. Please call (415) 485-9469 for dates and times of testing. (Institutional TOEFLs from other schools will not be accepted).

2. Verify means of adequate financial support by completing the “Official Certification of Personal or Family Funds” form. For the 2008-2009 academic year, verification in the amount of $47,968.00 in U.S. dollars is required.

3. Submit $50.00 Application Processing Fee (non-refundable). The amount must be in U.S. dollars (no cash please). Make check or money order payable to “College of Marin.”

4. Provide an “Enrollment Status Form” completed by the last school attended in the United States.

5. Provide evidence of high school graduation and transcripts from all colleges/universities attended in the United States.

6. Completed International Student Admissions Application.

International students are subject to $188.00 per unit international student tuition fee, an enrollment fee of $20.00 per unit, a $50.00 international student admissions application fee, a health fee of $15.00 for fall and spring semesters or $12.00 for the summer session, and a $3.00 student representation fee. All fees must be paid in full at the time of registration. International student admissions applications and all other required documents will be accepted February 1, 2009 through July 31, 2009. All documents submitted after July 31, 2009 will not be accepted.

Student Identification Number

Students will be assigned a College of Marin Identification Number. Students are requested to supply their Social Security Number for purposes of printing the SSN on their 1098 T tax credit form and their official academic transcript. Please note; students applying for Federal and/or state financial assistance and students employed by the College must report their SSN on their Application for Admissions.

California Residency Requirements

Under the State of California Education Code, to establish California residency, a person must pair his or her physical presence in California with the following provisions:

- Objective proof of physical presence one year and one day prior to the first day of instruction for the term for which he/she has applied as indicated in the Schedule of Important Dates and,

- Intent to make California the home for other than a temporary purpose.

There are other factors to be considered for non-resident students holding various types of visas. These students are advised to contact the Office of Admissions and Records at (415) 457-8811
ext. 8822 for clarification. Evidence of intent to make California their home for other than a temporary purpose could include but is not limited to a minimum of two (2) of the following:
• Voting in California elections.
• Obtaining a California driver’s license.
• Paying state income tax.
• Registering a motor vehicle in California.
• Maintaining continuous residence in California.

Act of intent must be accomplished for one full year.

The College of Marin may determine at the time of admission or at a later date that such students may not have met the aforementioned residence requirements set forth for all California community colleges. Such students will subsequently be assessed and billed the nonresident tuition fee per unit at the current academic year rate.

Students who have not reached the age of 18 years are regarded as minors; their residence is that of one or both parents. Therefore, a student who is a minor is regarded as a resident of California only if one or both parents couple their physical presence in California one year and one day prior to the first day of instruction for the term for which the minor has applied with the objective evidence that physical presence is with the intent to make California the home for other than a temporary purpose.

Special residence regulations are in effect for married minors, for minors whose parents are deceased, for certain military members and their dependents, and for various others.

Continuing nonresident students at the College of Marin (with the exception of International Students), who think that they meet the time and intent requirements necessary to establish California residency must contact the Office of Admissions and Records for residency verification and adjustments.

Residency Adjustments
Residency adjustments are not automatic. It is the student’s responsibility to initiate a residency inquiry and to provide proof of California residency.

Residency Appeals
Students may appeal their residency status as determined by the College of Marin through the following procedures:
• Requests must be addressed, in writing, to the Dean of Enrollment Services, within two weeks of receipt of the notification.
• If further review is required, a meeting with the Dean of Enrollment Services may be requested.
• Students are required to provide ALL documents required to verify their residency status.

Reduced Fees under AB540
As a nonresident, you may be eligible to pay the $20 per unit California resident enrollment fee.

Who is eligible? Students who meet ALL of the following requirements:
1. You attended a California high school for three or more years.
2. You graduated from a California high school or attained the equivalent of a high school diploma from California (e.g., G.E.D. or California Proficiency Exam).
3. You registered in the Spring of 2002 or later.
4. You complete a “California Nonresident Tuition Exemption” form.

If you have been determined to be a nonresident of California and meet all of the above requirements please contact the Office of Admissions and Records and complete the short and easy “California Nonresident Tuition Exemption” form. The Admissions and Records staff is here to assist you.

Prerequisites, Corequisites, and Advisories
College of Marin affirms that students are entitled to pursue intellectual, physical, social, ethical, and career development, and that prerequisites, corequisites, advisories and certain enrollment limits should be established only on a course-by-course basis, only where they are appropriate, and never if they constitute unjustifiable obstacles to student access. Therefore, College of Marin adopts the following policy in order to provide for the establishing, reviewing, and challenging of these course requirements in a manner consistent with law, safety, and good practice.

Definitions
1. **Prerequisite:** A prerequisite is a condition of enrollment that a student is required to meet in order to demonstrate current readiness for enrollment in a particular course or program. Examples of courses that may require prerequisites are:
   • Courses that are part of a closely related lecture-laboratory pairing requiring concurrent enrollment.
   • Courses for which specific prerequisites have been justified by content review, the appropriate level of scrutiny and any other validation procedures required by law (Title 5, 55201 a-f);
   • Sequential courses in a degree-applicable program;
   • Courses requiring a prerequisite to transfer to a four-year college;
   • Courses requiring preparation to protect health and safety;
   • Technical or vocational courses or programs that require special preparation.

2. **Corequisite:** A corequisite is a condition of enrollment consisting of a course that a student is required to take simultaneously in order to enroll in another course. Courses that may require corequisites include:
   • Courses that are part of a closely related lecture-laboratory pairing requiring concurrent enrollment.
3. **Advisory:** An advisory is a condition of enrollment that a student is advised, but not required, to meet before or in conjunction with enrollment in a course or educational program.

4. **Limitations to Enrollment:** Other limitations on enrollment may include:
   - Courses that require public performance or competition; and
   - Blocks of courses for which enrollment is limited in order to create a cohort of students.

The College requires students to complete prerequisites with a grade of “C” or higher prior to registering in the course requiring the prerequisite. Likewise, students are to register in all required corequisites as pre-enrollment preparation.

*Please note: Some prerequisites may be satisfied by equivalent course work from an accredited institution other than College of Marin. Please contact a counselor at (415) 485-9432 for more information.*

Students have the right to challenge prerequisites and corequisites on certain, specified grounds:

1. The prerequisite or corequisite has not been established in accordance with the district’s process for establishing prerequisites and corequisites.
2. The prerequisite or corequisite is in violation of Title 5 regulations.
3. The prerequisite or corequisite is either unlawfully discriminatory or is being applied in an unlawfully discriminatory manner.
4. The student has the knowledge or ability to succeed in the course or program despite not meeting the prerequisite or corequisite.
5. The student will be subject to undue delay in attaining the goal of his or her educational plan because the prerequisite or corequisite course has not been made reasonably available.

Students interested in challenging a prerequisite or corequisite course are advised to contact the Challenge Office at (415) 485-9431 as soon as possible for more information about the challenge procedure and the particular requirements of the course being challenged.

**PREREQUISITE/COREQUISITE CHALLENGES MUST BE INITIATED NO LATER THAN FIVE WORKING DAYS PRIOR TO THE FIRST DAY OF CLASSES EACH SEMESTER.**

---

**REGISTRATION INFORMATION**

**Registration Priority**

The order of priority for registration is as follows:

1. All continuing EOPS and DSPS students.
2. All continuing students who have completed two semesters in the district.
3. All continuing students who have completed one semester in the district.
4. All other new and returning students in the order in which applications are accepted.
5. All new and returning Marin County concurrently enrolled high school students and home school students age 15 and older may register on the second day of new student registration.
6. Students whose Petitions to Repeat have been approved must wait until the week before the semester/session begins.
7. All new and returning Marin County home school students under age 15, elementary and middle school students, and “Open College” students must wait until the first week of the semester/session to register.

**Where to Register**

Students may register online at [http://mycom.marin.edu](http://mycom.marin.edu), in person at the Offices of Admissions and Records at the Kentfield or Indian Valley Campuses regardless of where their classes are held, or by fax at (415) 460-0773. Detailed information is published in each issue of the Schedule of Classes.

**Open Enrollment/Add Period**

Students who did not enroll in a class before the first class meeting may attend the first class meeting to see if space is available. Instructors may admit students by issuing an authorization code. Students may enroll with their add authorization code through the last day of the Open Enrollment/Add Period (see Academic Calendar on p. 10). To complete enrollment go to the Student Portal at mycom.marin.edu.

**Student Success Workshop**

In order to help students reach their educational goal, College of Marin has established an online orientation and on-campus Student Success Workshops. The purpose of the orientation and workshop is to help prepare students to be successful at College of Marin. Students can use the online orientation or attend the on-campus workshop.

After completion of the online orientation or the on-campus Student Success Workshop, students will take placement tests and follow-up with a counseling appointment. Students can then register for classes.
Who Needs to Attend the Student Success Workshop?
All new, returning, or transfer students are required to participate before they can register for classes unless they fall into one of the following categories:

1. Students who have completed 15 or more semester units or 22 or more quarter units at any college.
2. Students who already have an Associate in Arts (AA) or Associate in Science (AS) degree or higher.
3. Students who are planning to enroll in courses that require no reading, writing, or math. (A list of these classes is available from the offices of Counseling or the offices of Admissions and Records on both campuses.)
4. Students who present sufficient evidence demonstrating that their prior learning is equivalent to number 1 or 2 above.

Students not required to participate are welcome to attend.

Fees (Type and Amount)
College of Marin is part of the California Community Colleges system of the State of California. Fees are established by the State Legislature and must be paid at the time of registration.

Registration Fees
Enrollment Fee $20 per unit
Health Fee $15, $12 summer
International Student Application Fee (nonrefundable) $50
Materials Fee (payable when applicable at time of registration) Varies
Nonresident Tuition Fee (U.S. Citizen) $179 per unit
Nonresident Tuition Fee (Non-U.S. Citizen) $188 per unit
Student Representation Fee (optional) $3

Fees for Other Services
Career Assessment Administration Fee $40
Credit By Examination $20 per unit
Document/Verification Fee $6
GED Test Administration $85
GED Retest Fee (per test) $10
Library Replacement Fee $2
Open College Check with instructor
Parking Fee Per Semester $50/Semester, $3 per day
Refund Processing Fee $10
Returned Check/Declined VISA/MasterCard Fee $15
Rush Transcript Fee (next workday) $10
Service Fee (for processing refunds and deferred fees for dropped classes) $10
Transcript Fee (first 2 copies ever ordered are free) $6

Enrollment Fee Payment Policy
Students are entitled to enroll and participate in class(es) throughout the semester, providing that they do not have any outstanding balance on their record. Students must pay all fees in full prior to registering for the subsequent semester. In addition, grades, transcripts, diplomas and certificates will not be released until the student has paid all outstanding debts to the College.

Payment Policy: Nonresident Tuition, International Student Tuition, Community Education Enrollment Fees and Open College Enrollment Fees
All the above tuition and fees and all other applicable fees are due and payable at the time of registration.

Payment Methods
Payments may be made with a MC/VISA credit card or MC/VISA debit card online at http://mycom.marin.edu or by check, cash or cashiers check. Payments over $500.00 must be paid by cash, cashiers check or MC/VISA credit or debit card.

Refunds
Enrollment Fees, Health Fees, Materials Fees, Nonresident Student Tuition and International Student Tuition may be refundable for full-semester courses and short-term courses. The refund policy also applies to Summer Session intervals. Please see the “Schedule of Important Dates “ on pages 10 and 11 for specific deadline dates. A listing of short-term refund deadlines is published in each Schedule of Classes. Provided that no materials have been used, refund of materials fee will be granted through Friday of the second week of classes or, for short-term classes, before completion of ten percent of the class.

The ultimate responsibility for dropping classes in order to receive a refund rests solely upon the student. It is the student’s responsibility to:

1. check if an instructor has initiated a drop by the established deadline dates; and
2. apply for a refund as stated in the next paragraph.

Refund Procedures
Refunds are not automatic. To obtain a refund for courses dropped on or before the published deadline dates, the student must submit a completed refund request form with the Office of Admissions and Records no later than the last day of final examinations. Refund procedures also apply to summer sessions.

Refund Service Fee
A $10.00 per semester Refund Service Fee and any outstanding balance due the College will be deducted from all refunds. No Refund Service Fee is charged if the class is canceled by the College.

Military Withdrawal
Upon verification that a student was a member of an active or reserve military service unit who received orders compelling a withdrawal from courses, withdrawal with no “W” grade will be allowed. Upon petition by the affected student, a refund of the entire enrollment/health fee will be authorized.
Enrollment Fee Waivers

Board of Governors
The California Community Colleges Board of Governors provides a waiver of enrollment and health fees for students who meet the State of California residency requirement and one or more of the following criteria:
1. Student or student's family receives AFDC, SSI or General Assistance benefits.
2. 2007 income was below the following limits (includes taxable and nontaxable income)
   - Family size = 1/income under $15,315.
   - Family size = 2/income under $20,535.
   - Add $5,220 for each additional dependent.

Note: The above information is subject to change in the event of new state regulations.

Financial Aid
College of Marin offers student financial aid assistance to all students who qualify on the basis of financial need. Eligible students receive funds in the form of grants, scholarships, loans and/or work-study programs.

Eligibility
To be eligible for federal financial aid programs, a student must:
1. Be a U.S. citizen, permanent resident, or eligible noncitizen.
2. Be in compliance with U.S. Selective Service registration regulations.
3. Have a high school diploma, G.E.D. certificate, or state equivalency credential, or pass the required Ability to Benefit test.
4. Be enrolled in a program leading to a degree, certificate or transfer to a four-year college or university.
5. Maintain satisfactory academic progress according to the policies of the Office of Admissions and Records and the Financial Aid Office.

Determination of Need
Generally, financial need is determined by calculating the difference between a student's resources and expected expenses. For students who do not meet the criteria to be considered independent, parents' income and assets are included in the calculation of resources. Students with exceptional circumstances should consult with the Financial Aid Office.

Need Equals Expenses Minus Resources
EXPENSES include tuition, books, fees, and standard allowances for transportation, rent, food and some other living expenses. (Standard student budget amounts are available from the Financial Aid Office.)

RESOURCES are defined as expected contributions from income and assets as calculated by the federal need analysis formula.

Application Procedure
The application form is the Free Application for Federal Student Aid (FAFSA) and is available from the Financial Aid Office and high school guidance offices. Follow the directions carefully. The Financial Aid Office often requires additional documents to verify or explain the information submitted on the FAFSA form. When a student's file is complete, it is reviewed for eligibility for financial aid programs and an award letter is sent to the student.

Application forms are available in January for the following fall and spring semesters and must be submitted by March 1 for the following programs for priority consideration:
1. College of Marin Foundation, scholarship application.
2. Cal Grant A, B and C.
3. Priority filing deadline for students transferring to four-year colleges and universities.

Available Programs
Federal Grants
1. Pell Grants: Pell Grant eligibility is based on the Student Aid Report (SAR) the student receives after filing the FAFSA form. Grants range from $200 to $2,375 per semester and are prorated according to the number of credits in which the student is enrolled. (Amounts are subject to changes in federal legislation.)
2. Supplemental Education Opportunity Grant (SEOG): SEOG grants are awarded to Pell Grant recipients with the least amount of financial resources. Grants are generally $500 per semester.

State Grants
1. Extended Opportunity Programs & Services (EOPS) Grants: The EOPS Office offers book grants to qualified students. Students must be full-time and qualify for a BOGW-A or a BOGW-B fee waiver. Information on other criteria can be obtained from the EOPS Office.
2. Board of Governors' Waiver (BOGW): The State of California provides waivers of tuition for students who are recipients of SSI, General Relief or TANF, or meet certain income criteria or qualify on the basis of financial need. (See Enrollment Fee Waivers.)
3. Cal Grants: The State of California provides grants ranging from $300 to $700 per semester for students who qualify. Cal Grant B provides funds to exceptionally needy students. Cal Grant C provides funds to students in certificate vocational programs. Cal Grant A is designed for students who intend to transfer and will cover a portion of tuition and fees once the student transfers to a four-year college or university.
Community Grants
Marin Education Fund Grants (MEF): The Buck Trust established the Marin Education Fund to provide funds for the education of Marin County residents. Grants ranging from $400 to $3000 are awarded to students who meet the Foundation’s county residency requirements and financial need criteria. The MEF application form must be filed by March 1 to be considered for the following fall and spring semesters.

Employment
1. College Work-Study Program: Federally funded part-time jobs are available on campus and off campus for students who have financial need and are awarded a work-study job. Available jobs are posted at the Financial Aid Office. Salaries range according to the requirements of the position.
2. Student Employment: The College Job Placement Office maintains up-to-date listings of jobs within the community. Many jobs are career-related and provide students with excellent work experience. Salaries are determined by the employer.

Student Loans
1. Emergency Loans: The College of Marin Foundation and the Associated Students of the College of Marin provide Emergency Loan funds. This program provides 30-day loans of up to $100. Preference is given to students who have applied for financial aid.
2. Federal Stafford Subsidized Loans (formerly Guaranteed Student Loans) provide deferred-payment, low-interest loans for qualified students. Principal and interest are deferred until six months after the student is no longer enrolled at least half time. Students must apply for financial aid and qualify on the basis of financial need. Federal Unsubsidized Stafford Loans provide low-interest loans for students who do not meet financial need criteria for Federal Stafford Loans. Principal is deferred during enrollment as at least a half-time student. Interest begins accruing when loan is borrowed. Students interested in federal student loans must make a loan counseling appointment with the Financial Aid Office.

Veterans or Dependents of Disabled/Deceased Veterans Educational Benefits
Educational Benefits
The VA toll-free number is 1(800) 827-1000. Education and Benefit Services: http://www.gibill.VA.gov

College of Marin is approved as an educational facility for veterans and their dependents. Eligible veterans and their dependents are certified by the designated school official after the student has completed and returned the “Veteran Application Packet” (available from the Office of Admissions and Records) and have met with the designated College veteran’s counselor.

Dependent of Veterans College Fee Waiver Program (66025.3)
The State of California offers a “College Fee Waiver Program” to children and dependents of service-connected disabled or service-related deceased veterans. This program is administered by the California Department of Veterans Affairs (listed in the Government section of the telephone book under County Government Offices).

Scholarships
Students with outstanding academic records and financial need are awarded scholarships from the College of Marin Foundation and from an increasing number of community groups. Applications are available in January with a deadline of March 1 and are awarded each year in May.

A free computerized scholarship search program is available online at www.FastWeb.com.

The Financial Aid Office maintains information about other scholarship opportunities and helps students make proper and timely applications for such funds. Students should inform their counselors of possible financial need and review bulletin boards for notices of scholarship announcements.

Phone: (415) 485-9409

Student Representation Fee
Money collected for the Student Representation Fee shall be expended to provide support for students or representatives who may be stating their positions and viewpoints before city, county and district governments and before offices and agencies of the state and federal governments. Students have the right to refuse to pay the fee for religious, political, moral or financial reasons. A written statement to this effect must be presented to Admissions and Records staff at the time of registration.

Tax Credit
In accordance with federal tax credit legislation, College of Marin will mail a verification 1098T form at the end of January to each student registered at least half time on census day and who has paid their registration fees.

Please check with your tax preparer to determine if you are eligible to take advantage of this credit.

If you are entitled to this deduction, it is important that the College have your current address. If you have moved, you need to complete a green change form with the Office of Admissions and Records.

The Social Security numbers of students who have chosen an assigned identification number will not be printed on the 1098T. If you wish to change from an assigned identification number to your Social Security number, you may also do this by completing the green change form with the Office of Admissions and Records.

Military Fee Exemption
Dependents of deceased/disabled veterans (with an eligibility letter) will only be charged materials fees.
Procedure for the First Class Meeting
1. Attend classes beginning the first week of the semester (unless otherwise stated in the schedule). Nonattendance does not constitute an automatic drop. If you cannot attend the first class meeting, you may ask if your place can be held in the class by contacting the instructor prior to the first class meeting. Please note that instructors are generally not on campus between sessions.
2. Students who do not wish to continue in a class must drop online at http://mycom.marin.edu or file a Drop Card, in person, with the Office of Admissions and Records to avoid a penalty grade. Please note refund deadline.
3. Students who did not preregister for classes may attend the class of their choice to see if space is available. Instructors may admit these students issuing an “ADD AUTHORIZATION CODE” which may be used to enroll online or in-person.

Adding and Dropping Classes
Students may add a class online at mycom.marin.edu, by fax or by completing an Enrollment Card and filing it in person with the Office of Admissions and Records before classes begin. For late-starting classes students may add online until the business day before the class begins.

Students may drop a class until the drop deadline online.

Instructors may drop students who have not been attending classes regularly by assigning an Instructor Withdrawal at midterm. It is, however, the student’s responsibility to drop or withdraw within the published deadline dates. NOTE: This process may not apply to Community Education courses.

Cancellation of Programs/Classes
Programs of study and/or individual classes are subject to cancellation based on funding considerations or enrollment levels.

Unit Load
Students may not enroll generally in more than 18 units for fall or spring or 7 units (two classes) for summer. Students who wish more units must submit a Petition to Carry Extra Units by the deadline. Students on probation, dismissal or not high school graduates may have lower unit restrictions.

Open College
Open College is a program for students who wish to enroll in a credit course for enrichment purposes only. Open College students do not receive grades, transcripts or proof of attendance for an Open College course. Students must obtain approval from the instructor on an Open College Enrollment form on the first day of instruction for that course. Open College courses are subject to varying fees and do not count toward financial aid eligibility. NOTE: Once a student enrolls in an Open College level, the student is prohibited from changing to the Credit level.

Equal Opportunity
In compliance with Title IX of the 1972 Education Amendments, the Equal Employment Opportunity Act of 1972 (Title VII of the Civil Rights Act of 1964 as amended), the Civil Rights Act of 1991, and Section 504 of the Rehabilitation Act of 1974, and the Americans with Disabilities Act, it is the policy of the Marin Community College District not to discriminate against any person on the basis of race, color, religion, age, sex, ancestry, sexual orientation, national origin, marital status, medical condition (cancer), physical or mental disabilities, or status as a Vietnam-era veteran in all of its educational and employment programs and activities, its policies, practices, and procedures. Students have the right to file an internal complaint or a complaint with the Office of Civil Rights.

College of Marin, under the Equity in Athletics Disclosure Act of 1994, provides information concerning the operation of its intercollegiate athletics program. A completed report is available in the Admissions and Records Office, the Library, and the Athletic Department for public review.

College of Marin policy 5.004 prohibits verbal, physical, visual, and sexual harassment of any applicant, employee, or student by any District employee on the basis of race, color, religion, age, sex, ancestry, sexual orientation, national origin, marital status, medical condition (cancer), physical or mental disabilities, or status as a Vietnam-era veteran. Conduct of non-employees while on District property is also expected to follow these guidelines.

It is further the policy of this College to take affirmative action in all its programs and in all aspects of employment to ensure equal opportunity and the achievement of proportional representation of qualified members of historically underrepresented groups. The lack of English language skills will not be a barrier to admission and participation in vocational educational programs.

EEO/ADA Compliance Officer/Title IX Coordinator:
Linda Beam
 Administrative Center, Rm 107, Kentfield Campus
(415) 485-9504

Section 504 (Disability) Coordinator:

It is the policy of College of Marin that unless specifically exempted by statute, every course, course section or class, the attendance of which is to be reported for state aid, shall be fully open to enrollment and participation by any person who has been admitted to the College and who meets such prerequisites as may be established pursuant to Chapter II, Division 2, Part VI, Title 5 of the California Code.

Classes with Time Conflicts
Students may not register for courses taught at conflicting times.
Changes May Occur Without Notice

Rules, policies, regulations, procedures, fees, courses, schedules and student services described in this publication are subject to change at any time without prior notice. The College reserves the right to alter fees, statements and procedures contained herein. Fees and procedures are subject to change at any time by the State Legislature and the College Board of Trustees. It is the student’s responsibility to meet and remain informed of College requirements. When changes occur, they will be printed in the next regular publication of the Catalog or Class Schedule.

ACADEMIC INFORMATION

Attendance

Regular attendance is necessary for satisfactory progress in college. Failure to attend regularly may result in a failing grade. Students who are late in attending the first class meeting may lose their place to another student on the waiting list. For any absence, the student must make up all work missed. Such work must be completed to the satisfaction of the instructor. It is the student’s responsibility to check on all assignments. Students may be dropped from classes as a result of excessive absences. Nonattendance does not constitute a drop. Students must submit a drop card for any class they do not wish to continue.

Units of Credit

The conventional measurement of college work is called a unit. It represents one lecture hour per week for one semester (together with two hours of preparation outside class) or three hours of laboratory work per week for one semester.

Full-time students are enrolled in at least 12 units in the spring and fall and 4 units in the summer.

Courses Used for High School Credit

College-level course work that students have elected to use for high school credit will also be counted, when applicable, toward the degree or certificate requirements and will be given as both high school and college credit.

Concurrently enrolled students are restricted from physical education classes and remedial classes numbered below 100.

Grade points

Each letter grade has the following point assignment for each unit,

- A = 4.0
- A- = 3.7
- B+ = 3.3
- B = 3.0
- B- = 2.7
- C+ = 2.3
- C = 2.0
- D+ = 1.3
- D = 1.0
- D- = 0.7
- F+ = 0.3
- F = 0.0
- FW = 0.0

Grade Point Average (GPA)

Divide the total grade points earned by the number of units attempted.

Do not include I, IP, W, MW, P or NP. Non-progress Grades (NPG) Grades of I, NC, and W.

Consecutive Semesters

Semesters shall be considered consecutive based on a student’s enrollment pattern.

Probation

A warning that a student’s grades do not meet acceptable standards.
Dismissal
A student is not allowed to continue at the College unless the student receives special permission from the Dean of Enrollment Services or the College Petitions Committee.

Midterm Grade
Midterm grades are available for students online at http://mycom.marin.edu (check calendar).

Final Grade
Enrollment, evaluation and credit for courses shall be entered on a student's official academic record in accordance with College policy and state law. Final grades are only available to students online at http://mycom.marin.edu (check calendar).

Pass (P)/No Pass (NP)
Students who select the Pass/No Pass grading option in those courses which permit a student to be evaluated either on a Pass/No Pass or Letter Grade basis, must select that option on or before 30% of the length of the term for regular and short term course. Check the Academic Calendar. Students may select the Pass/No Pass grading option online at http://mycom.marin.edu, or by submitting a Pass/No Pass Grading Option form to the Offices of Admissions and Records. NOTE: A student may change his/her selection within this 30% time period. Once this time period has expired a student may not change his/her selection. IMPORTANT: The Pass/No Pass grading option is the sole responsibility of the student.

Incomplete Grades
An Incomplete grade may be assigned to a student who cannot complete a small portion of the required academic work because of a justifiable emergency or unforeseeable reason at the end of the semester. The decision to give an Incomplete rests solely with the instructor. A student who receives an Incomplete grade must make arrangements with the instructor and must make up the work by the last day of final examinations in the following semester. In extenuating circumstances, and with the instructor's approval, the student may petition for an extension of not more than one additional semester.

The instructor for the class shall submit a form to the Office of Admissions and Records, with a copy to be mailed to the student, stating the conditions for completing the work and the final grade to be assigned if the work is not completed. The instructor shall submit a change of grade form when the work is completed. If the "I" is not removed by the end of the subsequent semester, and no extension has been granted, it shall be changed to the grade originally assigned by the instructor.

In Progress Grades
The "IP" symbol is used when a class is open-entry or extends beyond the normal end of an academic term. "IP" indicates that work is "in progress." The "IP" symbol shall remain on the student's permanent record. The following semester, the appropriate grade and unit credit shall be assigned by the instructor when the course is completed. An "IP" shall be recorded only once for any given class. It shall not be used in calculating grade point average or determining progress probation. The instructor shall submit an "IP" form that includes a final grade to be posted if the student fails to re-enroll. A student who receives an "IP" must re-enroll for the course the subsequent semester and complete the required work to achieve a grade. If the student does not re-enroll in the next regular semester, the student shall receive the grade submitted on the "IP" form. Students will be charged an enrollment fee when they re-enroll.

Report Delayed Grade
The "RD" symbol may be assigned only by the Office of Admissions and Records and is used when there is a delay by the faculty member in reporting the grade of a student. "RD" shall be a temporary notation to be replaced by a permanent symbol as soon as possible. It shall not be used in calculating grade point average or determining progress probation/dismissal.

Withdrawal
Students may withdraw from classes through the day that marks the completion of 75 percent of the course. Students who do not withdraw by this date will be assigned a grade, other than "W," by the instructor. It is the student's responsibility to withdraw officially from a class. Students should not assume that they will be automatically withdrawn by an instructor.

Students who withdraw before completion of 30 percent of the course shall have no notation made on their permanent records.

Students who withdraw between 30 percent of the course and 75 percent of the course shall have a "W" recorded on their permanent records.

In extenuating circumstances such as illness, accident or other events outside of the student's control, the student may petition the Academic Standards Committee for a "W" grade after completion of 75 percent of the course. After consultation with the appropriate faculty member, the Committee may authorize withdrawal with a "W" grade. Should the Committee deny the petition, the determination of the student's grade by the instructor shall be final. Once a faculty member has submitted a grade, a "W" cannot be assigned. Section 55760 of Title 5 of the California Code of Regulations states that an instructor's grade is final in the absence of mistake, bad faith or incompetency.

Successfully Completed
Successful completion of a course is defined as receiving a grade of Pass (P), C or better.

Repetition of Courses for Line Out
Students may repeat any non-repeatable course taken at College of Marin for which a substandard grade of "D," "F," "NC" or "NP" has been recorded two times. Upon successful repetition of the course at College of Marin, the most recent grade and units completed will be computed in the student's grade point average or nonprogress grade percentage. A "W" grade may not be lined out. Equivalent coursework completed at other accredited colleges and universities may be accepted when approved by the appropriate department chair and the student has successfully completed 12 units at College of Marin. A student with three substandard grades in a non-repeatable class may not, however, line them out with work successfully completed at another college.
Repeatable Courses
Certain courses, as defined in the college catalog, may be taken more than once. Students may enroll up to the maximum number of times allowed but no course may be taken more than four times. Consult the catalog to determine which courses are designated as repeatable.

Additional repetitions of DSPS courses designed for students with disabilities, such as Adaptive PE and Study Skills classes, will be based on measurable progress determined by the DSPS staff. No Petition to Repeat is necessary for DSPS courses. Students should contact the Disabled Students Program & Services for more information.

Nonrepeatable Courses
1) A student may petition to repeat any nonrepeatable course taken at the College of Marin for which a substandard grade of “D,” “F,” or “NC” or “NP” has been recorded two times. When course repetition occurs, the permanent academic record shall be annotated in such a manner that all work remains legible, insuring a true and complete academic history.

2) A course may not be designated as repeatable unless the course content differs each time it is offered, and the student who repeats it is gaining an expanded educational experience for one of the following reasons:
   a) Skills or proficiencies are enhanced by supervised repetition and practice within class periods.
   b) Active participatory experience in individual study or group assignments are the basic means by which learning objectives are obtained.

3) A student may not register for or be placed on a waiting list of a non-repeatable course for more than one section of the same course per semester.

4) A student may petition to repeat a nonrepeatable course based on one of the following circumstances listed below:
   a) Two semesters with a substandard grade of “D,” “F,” or “NC” or “NP” was due at least in part to extenuating circumstances. Extenuating circumstances are verified cases of accidents, illness, or other circumstances beyond the control of the students. If approved, the student must wait until one week before the semester/session begins to register for the course. In addition, the grade received will not be calculated into the student's grade point average, and the student will not receive credit for that enrollment. The grade and units on the student's transcript will be annotated accordingly.
   c) The course is needed to meet a legally mandated training requirement as a condition of continued employment (paid or volunteer). A verification letter is required at the time of registration.
   d) A student who has already enrolled twice in a nonrepeatable course but has a documented disability verified by the DSPS counselor and has been making measurable progress.

5) A student who has received the symbol “W” after withdrawing from a course may re-enroll in the course without a petition. After receiving four “W” grades in a given course, a student may not enroll in that course again.

6) Courses granted Academic Renewal will not be included for course repetition limits. (See Academic Renewal Policy for specific requirements.)

Basic Skills Classes
Students may enroll in a maximum of 30 units of Basic Skills classes (pre-collegiate English and Mathematics) – courses numbered 100 or lower. Students with documented functional limitations associated with learning related disabilities, which have shown significant measurable progress toward appropriate skill development in Basic Skills classes, may receive special approval for additional enrollments but will be limited to a specific period of time or number of units. Students are encouraged to contact the Disabled Students Program for more information.

NOTE: There is no 30 unit limit for ESL courses.

Academic Renewal
Academic Renewal provides students with an opportunity to reverse the negative impact of past academic failures at the College of Marin without course repetition. Academic renewal may only be requested once at any California Community College in accordance with state regulation. Academic renewal is not automatic. Academic renewal actions are irreversible.

All course work granted academic renewal status shall not be computed in the student’s grade point average or non-progress grade percentage and this shall be noted on the student’s permanent record.

All course work shall remain legible to assure a true and complete academic history. The Office of Admissions and Records shall maintain a record of action taken under academic renewal.

NOTE: Academic Renewal does not guarantee that other colleges/universities outside will approve such action. The determination will be made by the respective transfer institution.

Student may file a Petition for Academic Renewal with the Office of Admissions and Records under the following conditions:
1. Students must have achieved a 3.00 grade point average (GPA) in 12 letter graded units or a 2.00 GPA in 24 letter graded units; work from other colleges/universities with recognized accreditation may be considered.

2. A maximum of 24 units of substandard course work may be eliminated from consideration in the cumulative grade point average. Substandard grades are any grades lower than “C,” Credit (“CR”) or Pass (“P”).

3. At least one year must have elapsed from the time the substandard course work to be removed was completed.

4. Students most recent semesters utilized to demonstrate that the substandard work is not a reflection of the student's ability must not include “D,” “F,” “I” or “NC” and “NP” grades. (Semesters with lined out “D,” “F,” “NC” and “NP” grades do not count towards Academic Renewal.) Courses used to demonstrate improved academic ability cannot be all physical activity courses.

Grade Changes
Changes of grade will only be made due to an error, or in accordance with Title V regulations. When an error has been made, the erroneous grade will be obliterated. No grade change will be made more than four years after the original grade was issued.

Credit by Examination
Credit by Examination is optional for the faculty member and for the department. Students must contact each department or individual faculty member for specific requirements and departmental policies.

There is a 12-unit limit per department on the total number of units earned by examination, subject to the conditions outlined below.

1. A student must submit a Petition for Credit by Examination, with the instructor's approval, to the Office of Admissions and Records.

2. Re-examination for credit in a given course will not be allowed.

3. The student may be graded on a Pass/No Pass or letter-graded basis. The grade earned shall be binding and become a permanent part of the student's academic record and will appear with a “Credit by Examination” annotation indicating the grade has been earned through Credit by Examination.

4. If the student fails the Credit by Examination course, the student may re-enroll in the course by Census Date, with the consent of the instructor. The failed grade will appear on the transcript.

5. The course being challenged must be offered in the semester in which the examination is being taken.

6. The student will be eligible for Credit by Examination after successfully completing 12 units at the College of Marin (“C” grade or better).

7. Courses completed through Credit by Examination shall not be used toward the 12 unit residency requirement for the Associate Degree or Certificate.

8. Credit by Examination counts as an enrollment for repeatability purposes.

9. Courses successfully completed through Credit by Examination can be used for course lineout and in determining academic renewal eligibility.

The student's grade shall be reported by the instructor on the final scanner report at the end of the term. Students may not apply these courses toward part or full-time status to receive financial aid, veterans' benefits or other student verifications.

Forged/Altered College of Marin Transcripts
"Furnishing false information, forgery, falsification, alteration or misuse of college documents, records, or identification" is a violation of college policy. When it comes to the attention of college personnel that a forged or altered College of Marin transcript has been submitted to a third party, a hold will be immediately placed on that academic record, if an actual record exists. An attempt will be made to contact, by phone or mail, the individual whose name appears on the forged or altered transcript requiring that individual to meet with the Dean of Enrollment Services/designee within 10 days. If the Dean of Enrollment Services/designee determines, after investigation, that the individual whose name appears on the forged or altered transcript is responsible for preparing/submitting same, the individual will be barred from attending any future credit classes at College of Marin. An appeal of the decision to permanently bar the student from attending any future credit classes may be made in writing to the Academic Standards Committee within 10 days of the decision of the Dean of Enrollment Services/designee. In the event there is no approval of the appeal and the Academic Standards Committee upholds the determination of the Dean of Enrollment Services/designee, the Academic Standards Committee will then recommend a permanent bar from attending credit classes at the College of Marin to the Board of Trustees. The individual will be notified at the last known address, if available, of the decision to bar attendance.

Further, an annotation will be placed on the student's actual academic record, if any, stating, "Not to be Released to Student." In addition, when the individual has actually taken classes at College of Marin, future release of a transcript will be at the sole discretion of the Dean of Enrollment Services/designee. No transcripts will be released directly to the student.

The college reserves the right to take all appropriate legal action.

Forged Signatures
Students who are determined to have filed an official form with a forged faculty member's signature will be subject to disciplinary action including but not limited to at least one full regular semester of nonattendance. The College reserves the right to also take appropriate legal action.

Standards for Probation
A student shall be placed on academic probation if he or she has attempted a minimum of 12 semester units of work and has a grade point average of less than “C” (2.0).
A student shall be placed on progress probation if he or she has enrolled in at least 12 semester units and the percentage of all units in which the student has enrolled, for which entries of “W”, “I”, “NC” and “NP” were recorded reaches or exceeds 50 percent.

A student who is placed on probation may submit an appeal to the Dean of Enrollment Services.

Standards for Removal of Probation
A student who is placed on academic probation shall be removed from probation when the student's cumulative grade point average is 2.0 or better. A student on progress probation shall be removed from probation when the percentage of units in the categories of “W”, “I”, “NC” or “NP” drops below 50 percent.

Standards for Dismissal
A student who is on academic probation shall be subject to dismissal if the student has earned a cumulative grade point average of less than 1.75 in all units attempted in each of three consecutive semesters.

A student who is on progress probation shall be subject to dismissal if the cumulative percentage of units in which the student has been enrolled for which entries of “W”, “I”, “NC” or “NP” are recorded in at least three consecutive semesters reaches or exceeds 50 percent.

A student who is subject to dismissal may submit a written appeal to the Dean of Enrollment Services. Dismissal may be postponed and the student continued on probation if the student completes a petition that provides evidence of extenuating circumstances and/or that shows significant improvement in academic achievement.

Readmission after Dismissal
In order to be considered for readmission, dismissed students must:

a) File a Petition to Return not later than the second week of the semester. (Forms available in the Office of Admissions and Records). Students who fail to petition by this time or fail to show for their appointments will be denied and dropped from their classes.

b) Students seeking re-admission must meet with a counselor and complete or update a Student Educational Plan (SEP) and submit the SEP with their Petition to Return to the Dean of Enrollment Services.

c) Readmitted students may not be enrolled in more than 12 units. (Students may be limited to fewer units and other restrictions may also be imposed.)

Examinations
Final examinations are held at fixed times. Instructors are not to give examinations in advance of the regular schedule. Any student who is needlessly absent from any examination held at any time during a semester thereby forfeits any right to make up the work by re-examination. If a student is unable to be present at an examination at the scheduled time due to illness or some other unavoidable reason, then the student may be permitted to take the examination at a later date by arrangement with the instructor. The examination must be made up by the last day of final examinations the following semester.

Honor List
Students will be placed on a semester honor list when their semester GPA is 3.0 or higher. These students may not be on probation or have any “I,” “NP,” “NC,” or “F” grades, and must be enrolled in 12 units of letter-graded classes at the College.

Military Credit
Students who have completed at least one year of active military service may submit a copy of their DD214 showing an honorable discharge and receive 5 units of PE. These units will appear in the memoranda section of the grade record. Students must have completed 12 units at College of Marin to be eligible.

Advanced Placement (APT)
Please note that the APT scores for purposes of transfer, specifically the IGETC, differ from those used toward College of Marin degree programs.

English: Students will be eligible for English 150 if they earn an APT score of 3 or an SAT score of 600 or more (on the old test) or 680 or more (on the new test). Students with an APT score of 4 are eligible for English 151 or English 155. After successfully completing 12 units at College of Marin, students with an APT score of 4 or 5 may petition for English 150 credit.

Chemistry: Students with an APT score of 3 or more will be eligible for Chemistry 115 and Chemistry 131. Students with an APT score of 4 or more will be eligible for Chemistry 132, 132E, and 199. Students with an APT score of 5 or more will be eligible for Chemistry 215 and 231. After successfully completing 12 units at College of Marin, students with an APT score of 3 may file a student petition for 5 units of Chemistry 114. Students with an APT score of 4 may file a student petition for 5 units of Chemistry 131. Students with an APT score of 5 may file a student petition for 10 units of Chemistry 131/132.

History: Students with APT scores of 3 or higher may file a petition for credit for History 117 and 118 (6 units) after successfully completing 12 units at College of Marin.

Math: Students with an APT score of 3 on the AB test will be placed in either Math 123 or Math 124. Students with an APT score of 4 on the AB test will be placed in Math 124; students with an APT score of 5 on the AB test will be placed in either Math 124 or Math 223. After successfully completing 12 or more units at College of Marin, students with an APT score of 4 on the AB test may file a student petition to receive 5 units of Math 123. Students with an APT score of 2 on the BC test will be placed in Math 124; students with an APT score of 3, 4 or 5 on the BC test will be placed in either Math 223 and/or 116. After successfully completing 12 or more units at College of Marin, students with an APT score of 3, 4 or 5
on the BC test may file a student petition to receive 5 units of Math 123. Students with a score of 5 on the BC test may also file a petition to receive 5 units of Math 124.

Except as outlined above, units attained from Advanced Placement examinations may be used for general education and elective credit only and not for Major course requirements. See a counselor for limitations and recency policies.

**CLEP**

After successfully completing 12 units at College of Marin, a student may file a student petition for 6 units of credit with a minimum score of 500 in each of the CLEP examinations in the areas of Social Science, History and Natural Science. The maximum number of CLEP units that can be awarded is 12. Units credited appear in the memorandum section of the transcripts and are counted towards the 60 units' graduation requirement. Transfer credits vary. See a counselor for additional information.

The English Department does not award CLEP units in English or Humanities to students; however, students will be eligible for English 150 if they score as follows:

a. 540 or more on the CLEP General Examination in English Composition, essay version.

b. 55 or more on the CLEP Subject Examination in Freshman College Composition, essay version.

Except as outlined above, units attained from CLEP examinations may be used for Social Science and Natural Science general education and elective credit only and not for Major course requirements.

**Administration of Justice**

After successful completion of 12 units at College of Marin, students who have completed P.O.S.T. Basic Academy may petition for 6-12 units of Basic Academy Credit (200 hours = 6 units, 400 hours = 8 units, 560 hours = 10 units, and 800 hours = 12 units).

Students may transfer credits for other police academy work only if the academy is fully accredited (as listed in the ACCRAO Guide) or if another fully accredited college or university has granted credit for the work. Courses must closely parallel those in the Major requirements to be substituted.

**Automotive Technology**

After successful completion of 12 units at College of Marin, students may request a waiver of Auto 110 by providing verification, on a Student Petition, of completion of one year of Auto Shop with a “B” or better grade in a course meeting ATTS standards in the Marin County High School Regional Occupations Program (R.O.P.). Upon completion of two years of Auto Shop with a “B” or better grade in a course meeting ATTS standards, a student can receive a waiver of Auto 111 by providing verification on a student petition (includes San Rafael High School, Terra Linda High School, Tamalpais High School, San Marin High School and Novato High School).

**Early Childhood Education**

After successful completion of 12 units at College of Marin, students with a grade of “B” or higher in Marin County Office of Education, Regional Occupations Program (R.O.P) Early Childhood Occupation Program, may either petition for credit or a waiver of ECE 100. Units credited appear in the memorandum section of the transcripts and are counted towards the 60 units' graduation requirement. Transfer credits vary. See a counselor for additional information.

**Business and Information Systems**

The following criteria must be met in order for a student to receive advanced placement (a waiver of BOS 114, 115, 116, 118, 120, 140 or MMST 111) in the Business and Information Systems Department or the student may petition for Credit by Examination. The student shall complete articulated high school courses in the Computer Information Systems Program at San Rafael, Novato, or Tamalpais District high schools with a grade of “B” or better. Credit by Examination requires that the student must first successfully complete 12 units at College of Marin.

**Marin County High School Articulation**

After successful completion of 12 units at College of Marin, students may petition to receive Credit by Examination if they have successfully completed the following classes with a “B” or better grade:

- **San Marin High School**: Multimedia II – MMST 111 – 3 units
- **Sir Francis Drake High School**: Introduction to Computers – BOS 114 – 1.5 units, BOS 120 – 1.5 units, CIS 113 – 1.5 units
- **Sir Francis Drake High School**: Computer Graphics I – MMST 123
- **San Rafael High School**: Computer Applications – BOS 114 – 1.5 units, BOS 120 – 1.5 units, CIS 118 – 1.5 units
- **San Rafael High School**: Computerized Accounting – Bus 114 – 1.5 units
- **San Rafael High School**: Desktop Publishing – CIS 113 – 1.5 units
- **San Marin High School**: Completion of Introduction to Computers and Computer Applications – BOS 114 – 1.5 units, BOS 120 – 1.5 units, CIS 118 – 1.5 units

**Directed Study**

Directed Study is learning undertaken by a student enrolled in a course without the immediate presence of the assigned instructor. A passing grade will be assigned upon satisfactory completion of prescribed objectives. An Application for Directed Study Form must be completed and signed by the student and
a full-time faculty member credentialed in the requested discipline. Students must submit completed signed forms prior to the census date. The completed form must contain the following:

1. Goals and methodology of the course.
2. The number of units and hours of study required.
3. The arrangement for consultation with the faculty member.
5. The College facilities required.

Students are limited to four enrollments of Directed Study (maximum of 12 units).

Transcripts
A student desiring to transfer to another school should complete a Transcript Request Form with the Office of Admissions and Records. Students may request two free transcripts of their records. After the first two, there will be a fee of $6 per copy. Transcripts to other colleges may now be ordered by Fax (415) 884-0429. Please allow 20 working days for processing. Priority service (next working day) is available for $15 per copy. College of Marin does not issue unofficial transcripts.

Student Petitions
Appeals and grievances in the following areas should be submitted on a Student Petition at the Office of Admissions and Records counter: Academic/Progress Dismissal, Admission, Attendance, Graduation, Fee Payment, Refund, Residence Determination, and Student Records. All petitions are reviewed by the Dean of Enrollment Services.

ACADEMIC RECORDS
State and federal legislation permits students to have access to their academic and educational records.

Types of Records and Locations
The Office of Admissions and Records will maintain documents completed by the student, such as applications, petitions and Advanced Placement and CLEP scores, for the period of time required by law. These records, as well as a permanent record of all academic work completed at the College, are maintained by the Dean of Enrollment Services in the Office of Admissions and Records. Students may obtain two free transcripts of their College of Marin permanent academic record by submitting a Transcript Request Form. A $6 charge will be made for each subsequent copy.

Copies of transcripts from other colleges are kept in the Counseling Office. Copies must be requested from the issuing institution and cannot be released from College of Marin.

Student Rights Related to Academic Records
Students shall be afforded all rights and are subject to all requirements set forth in SB 182 (Chapter 816, Statutes of 1975 as amended September 28, 1976 by SB 1493), a copy of which may be obtained in the Office of Admissions and Records. If a violation occurs, students have the right to file a complaint with the Family Compliance Office, United States Department of Education, 600 Independence Avenue S.W., Washington D.C. 20202-4605 concerning an alleged failure by the institution to comply with the provisions of Section 438 of the General Education Provisions Act (20 U.S.C.A. 1232G).

Review, Inspection and Challenge of Records
Any currently enrolled or former student has the right of access to all of the student's College of Marin academic records. Students wishing to inspect their records may obtain forms from staff in the Office of Admissions and Records; access shall be granted no later than 45 days following receipt of the written request to the Dean of Enrollment Services at College of Marin, Kentfield, CA 94904. The Dean of Enrollment Services will make arrangements for access and notify the student of the time and place where records may be inspected. Qualified personnel will assist the students in interpreting their records, if necessary. If the records are not maintained by the Dean of Enrollment Services, the student will be advised of the correct office to which the student's request should be addressed.

The Dean of Enrollment Services will provide forms for any student who wishes to challenge the content of the student's records, excluding grades, if the student believes the information to be (1) inaccurate, (2) misleading, (3) an unverifiable personal conclusion or inference outside of the observer's area of competence, or (4) not based on the personal observation of a named person with the time and place of the observation noted. The student should clearly identify the part of the record the student wants changed and specify why it is inaccurate or misleading. If the student is not satisfied with the results of the challenge procedure, a written request for a formal hearing may be filed with the College President, or designee.

Within 30 days of receipt of such a request, the College President, or designee, shall meet with the student and employee who recorded the information in question, if any, and if such employee is presently employed by the College. The President, or designee, shall then sustain or deny the allegations in writing. If the President, or designee, denies any or all of the allegations and refuses to order the correction or removal of the information, the student will be notified that the student may, within 30 days of the refusal, appeal the decision in writing to the College of Marin Board of Trustees. Within 30 days of receipt of such an appeal, the College of Marin Board of Trustees shall, in closed session with the student and the employee (if presently employed by the College), determine whether to sustain or deny the allegations. If the Board of Trustees sustains the allegations, it shall order the President, or designee, to immediately correct or remove and destroy the information. Additional information regarding the hearing procedure will be provided to the student when notified of the right for hearing.

Directory Information
Directory information includes: the student's name, address, telephone number, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, most recent previous public or private school attended, and any other information authorized
in writing by the student to be released. Students who wish to ensure that no information is released must notify the Dean of Enrollment Services in writing.

Access to Student Records
Access will be permitted to student records pursuant to the written request of the student or in accordance with a legal subpoena or a judicial order. Others entitled to access without notification of the student include:

1. Officials and employees of the College of Marin may inspect records if they have a legitimate educational interest. A school official is a person employed by the College in an administrative, supervisory, academic, research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the College has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting other school officials in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an educational record in order to fulfill his or her professional responsibility. All requests for such access must be approved by the Dean of Enrollment Services.

2. Authorized representatives of the Controller General of the United States, the Department of Health, Education and Welfare, or the United States Office of Civil Rights; the administrative head of an education agency; and state education officials or their respective designees may have access to information necessary to audit or evaluate a state or federally supported education program, or pursuant to a federal or state law. When personally identifiable information is collected, it shall be protected in a manner that will not permit the personal identification of students or their parents by other than those authorized officials. Such personally identifiable data shall be destroyed when no longer needed for such audit, evaluation, and enforcement of federal legal requirements.

3. In response to an exparte order College of Marin will release to the Attorney General (or his/her designee) the educational records requested that are relevant to an authorized investigation or prosecution of an offense as listed in Section 23326 (g) (5) (B) of Title 18 United States Code or an act of domestic or international terrorism as defined in Section 2331 of that title.

4. Other state and local officials or authorities may inspect records in accordance with requirements of state law adopted prior to November 19, 1974.

College of Marin may release information without student consent to the following:

1. Officials of other public or private schools or school systems with legitimate educational interests, including local county or state correctional facilities where educational programs are conducted and/or where the student seeks or intends to enroll or is directed to enroll, subject to the rights of students as provided in Section 54610 of Title 5 regulations on Student Records (Chapter 6, Division 5).

2. Agencies or organizations at which a student has applied for or received financial aid, provided that personally identifiable information is released only as necessary to determine the student's eligibility for aid, to decide on any conditions to be imposed, or to enforce those terms or conditions.

3. Accrediting organizations carrying out their functions.

4. Organizations conducting studies for educational agencies or institutions for the purpose of developing, validating, or administering predictive tests and/or student aid programs, and improving instruction, provided that such studies are conducted in a manner that will not permit the personal identification of students or their parents by anyone except representatives of the organization and that any personally identifiable information be destroyed when no longer needed for the study.

5. Appropriate persons in connection with an emergency, if such information is deemed necessary to protect the health or safety of the student or other person, or subject to such regulations as may be issued by the Secretary of Health, Education and Welfare. No one given access to student records in such an emergency may share information obtained with anyone (except other persons involved and having a legitimate interest in the information) without written consent of the student.

6. Victims of sexual assault at College of Marin shall be provided with information regarding disciplinary action against the assailant within three days of the results of any disciplinary action and of any appeal. The victim shall keep the results confidential.

7. The Internal Revenue Service in accordance with provisions of federal law.

Record of Access
A log is maintained in the Office of Admissions and Records, as specified in Section 76222, California Education Code, for each student's record which lists authorized persons, agencies or organizations requesting or receiving information from a student's record without a judicial order, or a legal subpoena, or the student's consent.

Petition for Substitution of Prerequisite Courses for College of Marin Registered Nursing Program
If prerequisite courses were taken at other colleges, College of Marin must first determine for itself whether those courses are suitable substitutes for the College of Marin prerequisite courses. This process requires the student to petition the College to accept courses taken elsewhere as satisfying College of Marin prerequisites. Additional time is needed for the College to make these assessments. Therefore, students hoping to substitute courses taken at other colleges for College of Marin prerequisite courses must plan for additional time to allow the College to assess their applications.
Petitions for Substitution must be submitted before applying to the Nursing Program. It is the student’s responsibility to request official transcripts and course descriptions for the year the course was completed and attach catalog course descriptions to the Petition. Official transcripts must be mailed directly from the issuing college to College of Marin, Counseling Department, Kentfield, CA 94904 between September 1 and October 31 for admission the following fall. Those who submit the Petition for Substitution after October 31 are not guaranteed a decision in time for the RN application date. The Petition for Substitution will then be submitted and reviewed by Admissions and Records (Academic Standards Committee). The original approved/denied copy will be kept in the student file in the Counseling Office and a copy of the petition will be sent to the student.

Students who successfully petition for substitution must attach a copy of the approval of their petition to their Application for the Nursing Program.

Registered Nursing
Thirty units of credit may be granted to students who have attended unaccredited diploma schools and graduated. The students must have a current California nursing license. These students must have completed 12 units in residence and secure the approval of the Director of Health Sciences.

Transcripts
In order to apply units completed at another institution toward a College of Marin degree, transcripts must be mailed from the issuing institution and arrive in a sealed envelope. Official transcripts have an embossed or water seal. Transcripts should be sent via U.S. Mail to: Counseling Department, College of Marin, Kentfield, CA 94904. Transcripts from other colleges received by the College of Marin will not be copied or released to the student.

Students may only transfer degree applicable units from fully accredited colleges or universities as listed in the AACRAO Transfer Credit Practices of Selected Educational Institutions. Upper division units may not be used toward an Associate degree. Students may, however, petition for a waiver of requirements with relevant upper division work. The student must still have 60 lower division units.

Course Substitution
Substitution for any required course must be approved through student petition to the Academic Standards Committee. An official transcript and catalog description must accompany the petition. For noncomparable courses, Department Chairs will be consulted to determine course acceptability. Students should be encouraged to request substitution in their first semester of attendance.

Foreign Colleges Transcripts
Transcripts from foreign colleges and universities will be accepted only when evaluated by UC, CSU, or an evaluating service recognized by the College of Marin. The service recommended by the College is International Education Research Foundation, Inc., P. O. Box 66940, Los Angeles, CA 90066, telephone (310) 390-6276. Credit will be granted when the academic level of the course work is deemed to be comparable to that of classes taught in fully accredited U.S. colleges and universities.

Military Units
Military units may not be used toward a degree or certificate unless the courses are fully accredited by the University of Maryland or another fully accredited college or university (as listed in the ACCRAO Guide).

STUDENT SERVICES

Services are offered at both campuses. Please refer to class schedule for specific locations and office hours.

Bookstores
The Kentfield Campus Bookstore is located on the ground floor of the Learning Resources Center. The bookstores sell all required texts and supplies that instructors order for their classes. In addition, the bookstores also stock gift items, imprinted shirts, and art supplies.

Refund Policy
1. Please read refund policy (including refund dates) in store for the most current information.
2. Refunds are given only for textbooks purchased for classes of the current semester.
3. A CASH REGISTER RECEIPT IS ABSOLUTELY REQUIRED FOR TEXTBOOK REFUNDS.
4. To be refunded, new texts must be in brand new condition. If damaged or a name is written in the text, only a percentage of the retail value will be refunded.
5. Refunds for supplies given only if defective at time of purchase.

Buy-back Policy
At the end of each semester, students may sell their texts back to the bookstores for up to 50 percent of the price for which the text was purchased provided the store needs the text. The buy-back days and hours will be posted.

Bookstore Hours
The bookstores at both campuses will have hours posted.

CalWORKs
College of Marin, in partnership with the County of Marin, provides education and support services to students who are participants in the CalWORKs program. To participate, one must be identified and referred by the Marin County CalWORKs office. Special educational programs, childcare, and internship opportunities are available to support student success and entry into the workforce.

Kentfield Campus
Learning Resources Center, Room 160
Monday-Friday, 9:00am to 4:30pm
(415) 485-9562

Children's Centers
The Children's Centers are located on both campuses and provide a high quality preschool program. Student teachers are trained in the program, in addition to work-study and psychology students. Admission is based on the California State Department of Educata-
Both Chapters welcome new members who have completed at least 12 graded units of college work with a 3.0 GPA or higher. The Chapters' affiliation with the State organization provides contact with community colleges throughout the State through regional conferences and State conventions. Its members are eligible to apply for State as well as campus scholarships and awards.

The Beta Xi Kappa chapter at College of Marin is affiliated with Phi Theta Kappa, whose purpose shall be to: “recognize and encourage scholarship among two-year college students. To achieve this purpose, Phi Theta Kappa shall provide opportunity for the development of leadership and service, for an intellectual climate for exchange of ideas and ideals, for lively fellowship for scholars, and for stimulation of interest in continuing academic excellence.” Phi Theta Kappa's mission is two-fold: (1) to recognize and encourage the academic achievement of two-year college students and (2) to provide opportunities for individual growth and development through participation in honors, leadership, service and fellowship programs.

Students are encouraged to join Beta Xi Kappa by having completed 12 graded units of transferable college work with a 3.5 GPA or higher. Scholarship opportunities are available for participating members.

**Computer Centers**

**Science Center Computer Labs**
The Science Center Computer Labs provide students with easy, open access to computers. Although there are regularly scheduled classes in the labs, there are plenty of opportunities during the week for individual work. In addition to software for science, math, and engineering classes, the computers are networked to the Internet and have typical word processing, spreadsheet, database, and presentation software.

The center consists of two labs with a total of 37 computers; one lab has an instructor station connected to an overhead projector, and the other lab includes five computers connected to diagnostic physiology equipment.

The labs are open during the week to all students at College of Marin, with extended hours at the end of the fall and spring semesters.

**Kentfield Campus**
Science Center, Rooms 143 and 144

**Multimedia Studies Open Labs**
There are computer labs available for currently enrolled students to access online course materials, email, and limited assignments. Please refer to posted Open Lab hours for each semester.

**Indian Valley Campus**
Ohlone Cluster, Room 120, Macintosh and PC Open Lab
Pomo Building 7, Lobby, Macintosh Open Lab

**Multimedia Studies Audio/Video Lab Suites**
In addition, there are two Individual Lab Suites for independent and advanced student work. Each Lab suite contains both a high-end Macintosh workstation, and an advanced Windows-based workstation. Access to these labs must be pre-arranged with a Multimedia Studies Instructor.

**Indian Valley Campus**
Pomo Building 7, Room 197, Audio Lab Suite
Pomo Building 7, Room 198, Video Lab Suite

**Writing Center**
The Writing Center is open to all students for support and tutoring in writing projects and functions as the English Writing Lab for students enrolled in English Composition and Literature courses. The English Writing Lab supports students by offering one-on-one tutoring on their course assignments and projects.

The Writing Center provides students with tutoring to improve reading and writing skills and also provides access to computers and to the Internet for research and writing in all disciplines. Students have access to word processing, Web browsing, printing, scanning, and, most importantly, tutoring by COM instructors. Tutoring is offered either face-to-face or online, via an online
writing center website. All students working on reading and writing projects in any discipline are welcome. Students enrolled in English courses have priority.

Disabled Students Program
This program offers support services and special classes to students with learning, communication, physical and psychological disabilities.

The program offers services to students on both campuses. These include Adaptive PE, learning disabilities assessment, computer-assisted instruction for special learning needs, and specialized academic, personal and vocational counseling. The College also offers educational and mobility aids, note takers, readers, e-text, and interpreters, as well as liaison with instructors and other campus services and referrals to community agencies. Club events and trips also offer excellent socialization opportunities and personal support while attending school.

Enrollment in the Disabled Students Program requires an initial appointment with a counselor.

Kentfield Campus
Disabled Students Center
(415) 485-9406

Echo Times, Student Newspaper
The College of Marin student newspaper is the product of the journalism classes. It is published regularly throughout the academic year and offers opportunities to develop skills in writing and editing, as well as desktop publishing, advertising, graphics, photography, and newspaper production.

Kentfield Campus
Learning Resources Center
(415) 485-9690

Extended Opportunity Programs and Services (EOPS)/Cooperative Agencies Resources for Education (CARE)
EOPS offers assistance to students who meet the EOPS State guidelines for eligibility. Support services may include counseling, tutoring, book grants, and peer advisement.

CARE is an additional support program for EOPS eligible students who are also CalWORKs parents. For students who qualify for CARE, CARE grants may be available for books, transportation and childcare.

Kentfield Campus
Learning Resources Center, Room 160
(415) 485-9605

Indian Valley Campus
Internet Cafe, Building 17
(415) 883-2211 ext. 8124

G.E.D. Preparation/Basic Skills Programs
The G.E.D. (General Educational Development) Preparation program is a learning lab designed to help those who have not graduated from high school pass the G.E.D. exams. Thorough diagnostic testing identifies strengths and weaknesses. Individual study plans focus on each student’s needs. The open-entry learning lab allows students to start at any time and improve at their own pace. Instructors will guide students through workbooks, computer programs, online exercises, and other materials. Practice testing helps assure readiness.

The Basic Skills Program is a learning lab for community members wishing to improve their reading, writing, and math. This program features open-entry, flexible scheduling, skills assessment, individual study plans, self-paced improvement, and personal guidance.

Check the Community Education schedule for current hours. There is no fee for the labs.

(415) 485-9363 or (415)-485-9445 (instructor Michael Timmel)

Intercollegiate Athletic Eligibility
Eligibility for Intercollegiate Athletic Competition is governed by the State Commission on Athletics. A student must be continuously and actively enrolled in a minimum of 12 credit units
at his/her community college during the season of sport. Of the 12 credit units, at least nine will be in courses counting toward the Associate degree, remediation, transfer, and/or certification as defined by the College Catalog.

A student who has previously participated at another college or university should check with the Director of Athletics to clarify eligibility to further participate at the College of Marin.

See College Health Center regarding athletic injuries.

(415) 485-9580

Job Placement/Career Employment

The Job Placement Office helps students and former students find employment in the community and the larger Bay Area. Employer files are constantly updated, providing students with information on hundreds of current job openings.

The Job Placement Office works with faculty in the Vocational/Occupational programs in assisting graduating students to locate positions in their fields. On-campus career fairs and in-class career workshops are offered in some programs. In addition, employers are regularly invited to the College to provide students with the opportunity to be interviewed by prospective employers. The Job Placement Office is located in the Student Services Center at the Kentfield Campus.

(415) 485-9410

Library

Registered students and community members may apply at the Library Loan Desk for a free library card, enabling holders to check out circulating materials and access databases from off-campus. Students enrolled at either campus may borrow books and other materials from the Kentfield Library. IVC students are encouraged to contact the Kentfield Library Reference Desk with any questions related to their research needs: (415) 485-9475.

The Library has over 100,000 books available for circulation. Some books and course materials are placed behind the Loan Desk “On Reserve” for limited circulation. Hundreds of magazines, newspapers and journals are also available in hard copy, as well as electronically.

Wireless access is available in the Library and in other areas of the Learning Resources Center. There are more than 20 computers in the library for limited use by students and visitors. These computers provide access to the online catalog for books, to databases and the Internet. Library databases make available, even from off-campus, a variety of reference resources as well as full-text articles from magazines, journals and newspapers.

Students interested in learning more effective research methods should consider enrolling in Library 110, a self-directed, research skills course (one UC transferable unit).

Media Center and Media Courses
(Distance Learning)

The College offers a variety of credit courses through television, video, or Web-based environments. The telecourses may be viewed on the community access channels of Marin County’s cable company. Distance learning courses are self-paced and provide an excellent alternative for students who are unable to attend classes during traditional hours, or who would like to take additional units in a time-efficient manner.

Additionally, some courses are offered on videocassette and DVD and are available for viewing at the Kentfield campus. In addition to the video/DVDs, these courses often include some scheduled on-campus meetings, readings, student assignments, and some form of evaluation. The videos for these courses are generally available for checkout.

The Media Center also houses an all-new wireless computer lab with 30 Windows-based personal computers and 2 Intel Macintosh computers. You can access all software associated with your classes, write a paper, research online or even access your foreign language lessons. Staff are available to assist you with computer-related questions.

Kentfield Campus

Learning Resource Center, Room 120
Monday-Thursday 8:00am - 9:00pm, Friday 8:00am - 4:00pm
(415) 485-9645
Web address: http://www.marin.edu/distance/media_center.htm

Performing Arts

The Performing Arts Department (Music, Drama, and Dance) presents many fine concerts, plays, and dance performances every year for the college community and the Marin public. COM students are encouraged to attend. Many events are free, but for those with an admission charge, students are offered discounted ticket rates. Email COMmusic@marin.edu to receive announcements of music department events, or contact the office at (415) 485-9460. For information about drama and dance events, call (415) 485-9555.

Even if you are not majoring in the performing arts, participating in an artistic production is a fun way to express yourself, and to meet new friends. If you have a talent in music, dance or drama, are interested in small paid jobs in concert or stage management or audio/video recording, or would like to volunteer to usher for one of our productions, please call one of the above numbers for additional information.

Puente Program

This year College of Marin has been certified to implement the Puente Project, a highly acclaimed English and mentoring program that supports underserved students’ transferring to four-year universities. The one-year program is a learning community offering instruction in English 120 in the Fall along with a counseling course, and English 150 in the Spring; students are also paired with a mentor, often from the business/professional community in a field of interest to the student. The mission of
the Puente Project is to increase the number of educationally underrepresented students who enroll in four-year colleges and universities, earn degrees, and return to their respective communities as leaders and mentors to future generations. The first Puente Project was initiated at Chabot College in 1981. Since then, the successful program has been replicated at 59 community colleges and 33 high schools in California. The UC Regents oversee the programs. For more information, call (415) 485-9375 or email Arnulfo Cedillo.

Student Affairs Program and Associated Students

Beyond the classroom, the College encourages students to initiate and join in activities and programs that develop leadership ability, interpersonal skills and community involvement.

Through involvement with the Associated Students or College clubs, students may participate in a “hands-on” curriculum designed for personal and professional development. Students may learn how to run effective meetings, work successfully with others to achieve common goals or resolve differences, manage their time and commitments, assume or delegate responsibility, turn conflict into cooperation, and gain in self-confidence. Learning how to build, develop and manage budgets, participating in special projects, and volunteering are often highlights of the college learning experience. This experience is fun and actually helps prepare students for better success in career planning and skill building.

Students who wish to take advantage of this unique aspect of the college should contact the Associated Students or Student Affairs offices to find out more about Associated Students, Student Senate, student appointments to College committees, clubs and organizations, student project funding, and special student forums and events.

For further information about activities and organizations, students should consult the semester credit class schedule.

Kentfield Campus
Student Affairs Office, Student Services, Room 250
(415) 485-9376
Associated Students (ASCOM), Student Services, Room 241
(415) 485-9390
Emeritus College (ASEC), Student Services, Room 146
(415) 485-9652

Student Clubs

Under the sponsorship of the Associated Students (ASCOM, ASEC and ASIVC), and in coordination with Student Affairs, students may promote special interests by joining or forming student clubs on campus. With the Associated Students, student clubs are an important part of campus activities.

Eligibility to become an officer of a student club requires that the student be in good academic standing, meet the requirements outlined in the respective Associated Students constitutions, and any other requirements set by individual student clubs. Each student club is required to have a faculty advisor and to meet operating standards set by the District Business Office in the collection and distribution of club funds.

Testing

The Assessment and Testing Office offers a wide variety of services, including placement testing in Math, English, and ESL. We also offer G.E.D. testing.

Kentfield Campus
Student Services, Room 238
(415) 485-9469
Web address: http://www.marin.edu/student_services/testing

Transfer/Career Center

The Transfer/Career Center provides information and support to students intending to transfer to four-year colleges/universities. The center houses a reference library of catalogs and informational materials on California schools and most national colleges/universities. The center also has computer programs to assist students in educational and career research. No appointment is necessary.

Student Services, Room 202
(415) 415-9671
Web address: http://www.marin.edu/student_services/transfer_center/index.htm

Transportation and Parking

Transportation

Golden Gate Transit provides bus service from all areas of Marin County to the College. Bus schedules are available in the Student Services areas on both campuses and in the Student Services Center at the Kentfield Campus.

Student Parking

Student parking areas are available in various campus locations and are designated “STUDENT PARKING.” Please do not park in areas posted Staff or Faculty Parking. Infractions of parking or traffic regulations may result in an official citation issued by the College Police. Students are requested not to park in adjacent areas that are for patrons of local merchants. These merchants often tow illegally parked vehicles at the violator’s expense.

Motorcycle Parking

Motorcycles do not require a parking permit if they are parked in designated motorcycle parking areas.

Student Parking Permits

A parking permit is required at all times except Saturday, Sunday and holidays. A $50 (subject to change) parking permit may be purchased for the fall or spring semester, or a daily $3 (subject to change) parking permit may be purchased from the parking permit machines located in each student parking lot. Some machines take quarters only. Summer parking permits may be
purchased for $25. For the location to purchase parking permits, please refer to the class schedule. Financial aid recipients may purchase a semester parking permit for half-price. Parking regulations are available when purchasing parking permits, or at the District Police Office located in TB-1.

(415) 485-9455

Disabled Parking
Parking permits are not required on vehicles displaying a disabled placard or license plates issued by the California Department of Motor Vehicles to the physically disabled. College police do not issue disabled parking permits.

(415) 485-9455

Tutoring Center
The Tutoring Center offers free drop-in peer tutoring for currently enrolled College of Marin students in a wide range of academic subjects. All tutors are trained and recommended by a faculty member. This service provides support and encouragement for students to reach their educational goals.

Kentfield Campus
Learning Resources Center, Room 160
(415) 485-9620

Policies on Conduct and Grievances
All members of the College community are subject to State and Federal laws, as well as policies and procedures established by the Board of Trustees.

There are two important policies that all students should be aware of: (1) The Student Conduct Policy and (2) The Student Grievance Policy. These policies are briefly described below. Questions regarding these policies and procedures should be referred to the Dean of Student Development and Special Programs.

Student Conduct
The following conduct will not be tolerated and shall constitute good cause for discipline, including, but not limited to, removal, suspension or expulsion of a student.

• Unlawful possession, use, sale, offer to sell, or furnishing, or being under the influence of any controlled substance listed in Chapter 2 (commencing with Section 11053) of Division 10 of the California Health and Safety Code, an alcoholic beverage, or an intoxicant of any kind; or unlawful possession of, or offering, arranging or negotiating the sale of any drug paraphernalia, as defined in California Health and Safety Code Section 11014.5.

• Committing or attempting to commit robbery or extortion.

• Committing or attempting to cause damage to District property or to private property on campus, or knowingly receiving stolen District property or private property on campus.

• Willful or persistent smoking in any area where smoking has been prohibited by law or by regulation of the District.

• Committing sexual harassment as defined by law or by District policies and procedures.

• Engaging in harassing or discriminatory behavior based on race, sex, (i.e., gender) religion, age, national origin, disability, or any other status protected by law.

• Disruptive behavior, willful disobedience, habitual profanity or vulgarity, or the open and persistent defiance of the authority of, or persistent abuse of, District personnel.

• Cheating, plagiarism (including plagiarism in a student publication), or engaging in other academic dishonesty, including, but not limited to:
  • Copying, in part or whole, another student’s quiz or examination answers.
  • Submitting work previously submitted in another course, if contrary to the rules of either course.
  • Altering or interfering with grading.
  • Using or consulting any sources or materials, including electronic devices, during an examination unless expressly authorized by the instructor or as a permitted accommodation.
  • Misrepresentation or falsification of academic work for purposes of obtaining a higher grade.
  • Submitting a paper purchased from a research or term paper service, or written by another student, and falsely representing it as one’s own work.
  • Purposely allowing another student to copy answers during a test.
  • Knowingly providing homework, a term paper, or other academic work for another student.
  • Having another person submit any work in one’s name, for purposes of deceiving the instructor to obtain a higher grade.
  • Lying to an instructor or District official to obtain a higher grade.
  • Altering graded work after it has been returned and re-submitting the work for grading without the instructor’s permission.
- Removing tests or examinations from the classroom without the permission of the instructor.
- Stealing tests or examinations.
- Dishonesty; forgery; alteration or misuse of college documents, records or identification; or knowingly furnishing false information to the District.
- Unauthorized entry upon or use of District facilities.
- Lewd, indecent or obscene conduct on District-owned or controlled property, or at District-sponsored or supervised functions.
- Engaging in expression which is obscene; libelous or slanderous; or which so incites students as to create a clear and present danger of the commission of unlawful acts on District premises, or the violation of lawful District administrative procedures, or the substantial disruption of the orderly operation of the District.
- Persistent, serious misconduct where other means of correction have failed to bring about proper conduct.
- Unauthorized preparation, giving, selling, transfer, distribution, or publication, for any commercial purpose, of any contemporaneous recording of an academic presentation in a classroom or equivalent site of instruction, including but not limited to handwritten or typewritten class notes, except as permitted by any District policy or administrative procedure.

The College will provide legal defense in any proceeding brought against an employee for any act or omission made within the scope of his or her employment by the College, to the full extent provided by law, including but not limited to Government Code 995, et seq.

Student Grievances
Student grievances fall in different categories. A complaint that involves a student and a member of the faculty can be defined as a student academic grievance. Such a grievance is limited to issues involved in grading assignments and may demonstrate mistreatment.

A complaint may be logged by a student against another student for actions on campus or at a College-sponsored function.

In case of sexual harassment, the student should report the incident immediately and directly to the Executive Dean of Human Resources.

Guidelines on the filing of a grievance are available from the Director of Student Affairs.

Smoking in District Facilities
The Board of Trustees of College of Marin recognizes that smoking presents a health and safety hazard that can have serious consequences. Therefore, the Board and the California Education Code prohibits smoking by staff, students and visitors at all times and in all buildings of the District, and within 10 feet of all buildings, including covered walkways, courtyards, ramps or entrances to buildings. Violation of this policy could lead to disciplinary action under usual disciplinary procedures.

Drug-Free and Alcohol-Free Campus
It is the policy of the District to maintain a drug-free and an alcohol-free awareness program. The program has and will continue to include the distribution of information on the dangers of drug and alcohol abuse, and referral resources for counseling and rehabilitation dealing with drug abuse problems.

The unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited on any of the College of Marin campuses. The term “controlled substance” is defined in the Health and Safety Code 11007.

Students who violate these prohibitions will be subject to disciplinary action up to suspension from College, in addition to criminal prosecution.

Sexual Assault and other Assaults on Campus
Any sexual assault or physical abuse, including, but not limited to, rape, as defined by California law, whether committed by an employee, student or member of the public, that occurs on District property, is a violation of District policies and procedures, and is subject to all applicable punishment, including criminal procedures and employee or student discipline procedures. Students, faculty, and staff who may be victims of sexual and other assaults shall be treated with dignity and provided comprehensive assistance.

The President/Superintendent shall establish administrative procedures that ensure that students, faculty, and staff who are victims of sexual and other assaults receive appropriate information and treatment, and that educational information about preventing sexual violence is provided and publicized as required by law. The procedures shall meet the criteria contained in EC 67385, 67385.7 and 34 C.F.R.§ 668.46.

GRADUATION AND DEGREE REQUIREMENTS

Catalog Rights
Graduation Requirements
General Education Philosophy
General Education Courses
Associate Degree Programs – Associate in Arts and Associate in Science
Interdisciplinary Degree Programs
Certificate of Achievement Programs
Skills Certificates
Table of A.S./A.A. Degree Programs, Transfer, Certificates of Achievement, and Skills Certificates
GRADUATION & DEGREE REQUIREMENTS

CATALOG RIGHTS
The catalog sets forth graduation requirements for achieving an associate degree and these requirements may change from one catalog to the next. Catalog rights are established for any semester that a student is in attendance. The specific catalog employed toward graduation requirements and all implied rights cease after two consecutive semesters of nonattendance. All requirements must be taken from a single catalog and those requirements begin in the fall. State of California and federal law, as well as College of Marin board policy, shall take precedence over catalog rights. Students not enrolled when applying for a degree or Career Certificate must use the current catalog.

GRADUATION REQUIREMENTS
The Associate in Arts (A.A.) degree or Associate in Science (A.S.) degree will be awarded to any student in good standing upon satisfactory completion of all of the following seven requirements:

1. **Units** - The Associate in Arts (A.A.) degree and the Associate in Science (A.S.) degree require a minimum of 60 lower division units to include all the requirements indicated below and any additional elective units needed to satisfy the 60 unit minimum. Courses numbered 0-99 are not applicable to the associate degree.

2. **Major Requirement** - At least 18 units of study must be taken in a single discipline or related disciplines as indicated in the College of Marin Catalog. See the list of approved majors following this section.

3. **Scholarship** - An overall grade point average (G.P.A.) of 2.0 (“C” average) in all degree-applicable courses (numbered 100 and above) taken at College of Marin and in all acceptable lower division courses transferred from other colleges. The student must be in good standing at the College.

4. **Residence** - Successfully complete at least 12 units in the major requirements at the College of Marin.

5. **Mathematics Proficiency** - One of the following options:
   (a) A satisfactory score on the Math Assessment Test, i.e. eligibility for Intermediate Algebra (Math 103) or
   (b) Completion of Elementary Algebra (Math 101 or Math 101A plus 101B or Math 101X plus 101Y) with a grade of “C” or higher.

6. **General Education** - A minimum of 19 units of general education is required for the A.A. or A.S. degree. See general education categories and course listings below.

(Please note that one of the general education courses must be a cross-cultural studies course. Most cross-cultural studies courses will satisfy the Cross-Cultural Studies Requirement and one other general education requirement. If a cross-cultural studies course is not found in another general education category, then additional units of general education are needed to meet the A.A. or A.S. degree. Likewise, courses counted for two general education requirements may not be used to fulfill a major requirement.)

7. **Application for Graduation** - It is the student’s responsibility to submit an “Application for Graduation” by making an appointment with a counselor in the Counseling Department. All official transcripts from other colleges must be available in the Counseling Office by the application deadline date. All petitions and waivers must be attached to the application form by the deadline date. (See “The Schedule” or the College catalog for those dates.)

Awarding a Degree or Certificate of Achievement
Upon completion of all degree or certificate requirements as specified in this catalog, a student may qualify for more than one degree or certificate, provided that 12 of the required units for the major are not applied toward any other major and are completed at the College of Marin.

A student who receives a Certificate of Achievement may subsequently complete requirements and earn a degree in the same discipline, since the degree represents a higher level of accomplishment. A Certificate of Achievement in the same discipline will not be granted after receipt of a degree in the same discipline. A student, who at the time of applying is eligible for a degree, will not be issued a certificate. Degrees and certificates are not awarded retroactively.

GENERAL EDUCATION

General Education Philosophy
Every College of Marin graduate will have a broad education introducing the student to knowledge and the means through which human beings understand their world. General education courses foster this understanding by developing the student’s ability to think and by stressing the interdependency of cultures and disciplines. The courses facilitate analysis, criticism, and synthesis, and require extensive reading, speaking, and writing. They emphasize participation and encourage the student to experiment with modern technology. General education courses are designed to broaden the student’s view of self, society, and the world, and to prepare the student to be an active, ethical participant in life.

Courses in general education will provide the student with the opportunity to:

1. Read, write, and speak competently.
2. Perform proficiently in mathematics, analytical thinking, and abstract logical thinking.
3. Acquire a general background in the major areas of knowledge: humanities, social and behavioral sciences, and natural sciences.

4. Promote an understanding of the diversity and similarity of all groups that comprise contemporary American society.

5. Understand the democratic process.

6. Value physical well being through participation in physical exercise and health education.

7. Develop an awareness of the interrelationship of all living things with their environment and the urgency of directing energies and knowledge to protect the world.

**General Education Courses**

One course from each category required for graduation (19 units minimum).

A. **Natural Sciences**

Select one course from the following. (Three units minimum.)

- Anthropology 101, 101L
- Astronomy 101, 105, 117F, 117L
- Chemistry 105, 105L, 110, 114, 131
- Geography 101, 101L, 109, 112
- Geology 103, 105, 109, 110, 114, 120, 120L, 121
- Physical Education 107
- Physics 108A, 110, 207A

**NOTES**

1. Geography 109 may be used to satisfy Category A or Category B, but not both.

2. Natural Science credit is awarded for only one course in each of the following groups:
   - Astronomy 105, Biology 105, Geology 105
   - Astronomy 117F, Astronomy 117L
   - Biology 107, Physical Education 107
   - Biology 160, Environmental Landscaping 160

B. **Social and Behavioral Sciences**

Select one course from the following. (Three units minimum.)

- Anthropology 102, 103, 110, 204, 215
- Behavioral Science 103, 201
- Biology 251
- Business 101
- Early Childhood Education 110, 112
- Economics 101, 102, 201
- Ethnic Studies 110, 111, 112, 121, 151, 154, 242
- Geography 102, 109
- Health Education 142
- History 100, 101, 102, 103, 109, 110, 111, 112, 117, 118, 206, 214, 215, 216, 238
- Political Science 100, 101, 102, 103, 104, 201, 203, 210, 220
- Psychology 110, 111, 112, 114, 116, 120, 140, 142, 145, 204, 205, 230, 251
- Sociology 110, 112, 114, 140, 205, 230, 250

**NOTES**

1. The following courses may be used to satisfy Category B or Category C, but not both:
   - Ethnic Studies 111, 112, 121, 151
   - History 100, 117, 118
   - Political Science 100, 101

2. Geography 109 may be used to satisfy Category A or Category B, but not both.

3. Psychology 205 and Sociology 205 may be used to satisfy Category B or Category C, but not both.

4. Social and Behavioral Science credit is awarded for only one course in each of the following groups:
   - Behavioral Science 201, Economics 201, Political Science 201
   - Biology 251, Psychology 251
   - Health Education 142, Psychology 142
   - Psychology 111, Psychology 116, Psychology 112, Psychology 114
   - Psychology 140, Sociology 140
   - Psychology 205, Sociology 205
   - Psychology 230, Sociology 230

5. Ethnic Studies 154 may be used to satisfy Category B or Category C, but not both.

C. **Humanities**

Select one course from the following. (Three units minimum.)

- American Sign Language 101, 102, 110, 203, 204
- Architecture 100, 101, 102, 131
- Art 101, 102, 103, 104, 105, 106, 107, 108
- Biology 145
- Chinese 101, 102
- Communications 108 (three units), 109A, 109B, 110, 160
- Dance 108
- Drama 110, 116, 117, 119
- Ethnic Studies 108, 154
- Geology 145
- Italian 101, 102, 108 (three units), 203, 204, 225, 226
- Japanese 101, 102, 108 (three units), 203, 204
- Journalism 110, 160
- Music 101, 102, 105, 106
- Philosophy 110, 111, 117
- Speech 128, 140, 141
NOTES
1. English 151 may be used to satisfy Category C or Category E, but not both.
2. Humanities credit is awarded for only one course in each of the following groups:
   Art 108, Ethnic Studies 108, Humanities 108
   Biology 145, Geology 145
   Communications 109A, Humanities 109A
   Communications 109B, Humanities 109B
   Communications 110, Journalism 110
   Communications 160, Journalism 160
   English 242, Humanities 242
3. Speech 128 may be used to satisfy Category C or Category E, but not both.
4. Ethnic Studies 154 may be used to satisfy Category C or B, but not both.

D. Composition, Written
Select one course from the following. (Three units minimum.)
English 120 or 120SL; or English 150 with a grade of “C” or higher
NOTES
1. English 150 is the first level course in college freshman English that is transferable to the University of California and the California State University. English 120SL transfers as an elective to the University of California and California State University. English 120 transfers as an elective to the California State University.
2. The major determines the English course required for the Associate degree. (See majors for A.A. and A.S. degrees.) If English 150 is not specifically mentioned for the major, then English 120, 120SL or 150 will satisfy the requirement.

E. Communication and Analytical Thinking
Select one course from the following. (Three units minimum.)
Computer Information Systems 215
Computer Science 130, 135, 136, 140, 200, 230, 232
English 130, 151, 155
Mathematics 103, 103A and B, 103X and Y, 104, 104X and Y, 105, 109, 110, 114, 115, 116, 121, 123, 124, 190
Philosophy 112
Psychology 205
Sociology 205
Speech 110, 120, 122, 128, 130, 132
Statistics 115
NOTES
1. English 151 may be used to satisfy Category C or Category E, but not both.
2. Psychology 205 and Sociology 205 may be used to satisfy Category B or Category E, but not both. Credit is awarded for only one course.
3. Speech 128 may be used to satisfy Category C or Category E, but not both.

F. American Institutions
Select one course from the following. (Three units minimum.)
Ethnic Studies 111, 112, 121, 151
History 100, 117, 118
Political Science 100, 101
NOTE
1. All courses listed in Category F may be used to satisfy Category B or Category F, but not both.

G. Cross-Cultural Studies
Select one course from the following. (Three units minimum.)
Cross-cultural studies courses, which are listed in other general education categories, will satisfy both the Cross-Cultural Studies Requirement and the requirement of one other category.
American Sign Language 110
Anthropology 204, 215
Art 108
Communications 160
English 235, 237
Ethnic Studies 108, 110, 111, 112, 121, 151, 154
History 109
Humanities 108
Journalism 160
Music 105
Psychology 120
Speech 128

H. Physical Activity
(One unit minimum.)
This requirement may be satisfied by degree-applicable activity courses in physical education or dance.

ASSOCIATE DEGREE
PROGRAMS-ASSOCIATE IN
ARTS AND ASSOCIATE IN
SCIENCE
The College of Marin offers a variety of associate degree programs. The “Major” is required for either the A.A. or A.S. degree and is comprised of a concentration of courses (a minimum of 18 units). Students receiving an associate degree must complete a major as described under each discipline in Section Six of the catalog. Depending upon the goal, the attainment of the Associate degree may fulfill all of the student’s educational needs.

The associate degree in transfer majors is designed as a college/university parallel program for the first two years of a four-year Bachelor’s program. The purpose of the transfer program is to prepare students for junior standing at a college or university that grants a bachelor’s degree (B.A., B.S.). The transfer major contains general and introductory or basic courses, which will
be followed by advanced courses at the upper division level. Students who wish to follow a transfer pattern should carefully examine the requirements of the receiving institution.

The Associate in Science occupational degree programs, which require a minimum of 60 units, provide instruction in the skills and knowledge needed to enter or progress in an occupation. These programs are developed through the cooperation of advisory committees composed of representatives from specific occupational areas and the College. These advisory committees review course content and make recommendations to assure that the instruction and curriculum provide current skills.

INTERDISCIPLINARY DEGREE PROGRAMS

The following is a list of interdisciplinary majors at College of Marin that require a minimum of 18 degree-applicable units to which, in addition to other graduation requirements, only the Associate in Arts (A.A.) degree is granted.

Please note that for 2008-2009, the following interdisciplinary degrees were removed from the Catalog.

• Liberal Arts and Sciences, General (A.A.)
• Modern Languages (A.A.)
• Natural Science (A.A.)
• Physical Science (A.S.)
• University Transfer (A.A.)

We are working with the faculty to bring several of our interdisciplinary associate degrees into compliance with recent changes to Title 5 regulations and will reinstate approved degrees in the 2008-2009 catalog.

International Studies (A.A.)

(a) Prerequisites for the degree:
- English 150;
- Math 115.

(b) Completion of the following:
- Behavioral Science 201 or Economics 201 or Political Science 201;
- Economics 101;
- Geography 102;
- Political Science 104;
- Speech 128.

(c) In addition, complete ten units in modern languages (Chinese, French, Italian, Japanese, Spanish)

(d) Six units from the following electives:
- Anthropology 102, 103
- Art 102, 104
- Art 108 or Ethnic Studies 108 or Humanities 108
- Biology 138
- Dance 108
- History 101 206, 214, 216, 238

- Humanities 114, 125
- Italian 203, 204, 225, 226
- French 203, 204, 225, 226
- Spanish 203, 204, 225, 226
- Political Science 102, 220

Note: Student can also test out of the modern languages requirement.

CERTIFICATE OF ACHIEVEMENT PROGRAMS

A Certificate of Achievement is attainable in occupational programs. The certificate is widely recognized by employers as verification of job preparedness. Certificates of Achievement prepare students to enter the careers designated on their certificates. These programs generally require a year or more of study and include at least 18 units. At least 12 of the units must be taken at College of Marin.

It is the student's responsibility to submit an "Application for a Certificate of Achievement" by making an appointment with the Counseling Department.

Certificate of Achievement programs and requirements are listed under each discipline in Section Six of the catalog.

Granting of Additional Certificates of Achievement

Upon completion of all Certificates of Achievement requirements as specified in this catalog, a student may qualify for more than one certificate provided that 12 of the required units for a certificate are not applied toward any other certificate.

Basic Skills Courses

Courses numbered below 100 are nondegree applicable but may be used for a Certificate of Achievement when listed as a major requirement. Basic skills courses under 100 do not apply toward the 60 units required for graduation, even though they may be listed as part of a vocational program.

Skills Certificates

Skills certificates may be part of a “ladder” of skills, beginning with job entry skills and leading to a full Certificate of Achievement or may constitute a skill set that enables students to upgrade or advance in an existing career. These programs are shorter in duration and narrower in scope than the Certificates of Achievement and consist of fewer than 18 units.

Generally all required courses must be completed at the College of Marin. The appropriate Department Chair must approve transfer work. All work must be completed within two years.

Skills certificates and requirements are listed under each discipline in Section Six.

TRANSFER INFORMATION

ASSIST (Online Student Transfer Information System)
CSU Transfer Information
CSU General Education Program
CSU Transferable Courses
UC Transfer Information
Guaranteed Admission Transfer Contracts
Intersegmental General Education Transfer Curriculum (IGETC)
UC Transferable Courses
California Articulation Number (CAN)
The Lower-Division Patterns (LDTP) Project
TRANSFER INFORMATION

Students planning to transfer from College of Marin to another college or university should plan their program to include both general education requirements and the specific major requirements of a particular college or university. A transfer student is advised to seek assistance from a counselor. Students should work closely with their counselor in order to make appropriate course choices that will permit transfer with junior standing to a four-year institution after two years at College of Marin. Lower division requirements vary considerably from college to college. Careful planning will ensure students avoid taking classes that do not meet requirements.

A student who intends to transfer should consult the catalog of the institution to which they intend to transfer. Catalogs of the major universities and colleges are available for reference from the Transfer and Career Center located in the Student Services Center. The earlier a student makes a decision regarding a transfer institution, the better the possibility is for meeting all requirements without delay.

ASSIST (Online Student Transfer Information System)

ASSIST is a web-based student transfer information system that can be accessed at www.assist.org. ASSIST is the official statewide repository of articulation for California’s colleges and universities; the site displays reports of how course credits earned at a California community college or university can be applied to transfer to a public California university (CSU, UC). ASSIST is the primary site where students can find specific College of Marin courses that satisfy general education, major preparation requirements and transferable electives at the UCs and CSUs.

CALIFORNIA STATE UNIVERSITY TRANSFER INFORMATION

Lower Division Transfer Admission Requirements

Some campuses restrict enrollment of lower division transfer students due to heavy enrollment pressure. College of Marin students who are California Residents with fewer than 60 transferable semester units are considered lower division transfer students.

You are eligible for admission to California State University if you:
1. Have a college grade point average of 2.00 or higher in all transferable college units attempted.
2. Are in good standing at College of Marin, i.e., you are eligible to re-enroll.
3. Meet the admission requirements for a first-time freshman or have successfully completed necessary courses to make up the deficiencies you had in high school if you did not complete the 15-unit pattern of college preparatory subjects.
4. Meet the eligibility index required of a freshman.

Some campuses may require lower division transfer students to have completed English composition and general education mathematics prior to transfer. Contact your campus of choice to determine whether there are admissions limits on the number of lower division transfer students.

Upper Division Transfer Minimum Eligibility Requirements

College of Marin students with 60 or more transferable semester units are considered upper division transfer students. You are eligible for admission to California State University if you:
1. Have a college grade point average of 2.00 or higher (2.40 for non-California residents) in all transferable college units attempted.
2. Are in good standing at College of Marin, i.e., you are eligible to re-enroll.
3. Have completed or will complete prior to transfer at least 30 semester units of courses equivalent to general education requirements with a grade of “C” or higher. The 30 units must include all of the general education requirements in communication in the English language (English composition, oral communication, and critical thinking) and at least one course of at least three semester units required in college level mathematics.

Required Placement Tests

Upper division transfer students who have completed English composition and college level math courses with a grade of C or higher are exempt from the English Placement Test (EPT) and the Entry Level Mathematics Test (ELM). Upper division transfer students must complete both English composition and college level mathematics prior to enrolling at a CSU campus.

Lower division transfer students will be required to take the tests if they are not exempt based on their SAT or ACT scores or if they have not completed an appropriate English composition course and a college level math course with a grade of C or higher.

Transcripts for California State University

Simultaneous to applying for admission, transfer students to the California State University must submit official transcripts directly from all colleges or universities previously attended even if no coursework was completed. If transferring with fewer than 60 transferable semester units completed, transfer applicants must submit high school transcripts and official test scores. Transcripts
must be received in sealed envelopes directly from each institution attended. The first two copies of student transcripts from College of Marin are free.

**General Education Program for the Bachelor’s Degree at California State University**
In addition to other requirements for graduation with a baccalaureate degree, California State University requires preparation for general education. Proper planning should enable students to satisfy the state university general education breadth requirements concurrently with requirements for either an Associate in Arts (A.A.) or Associate in Science (A.S.) degree from College of Marin.

**CSU General Education Certification**
Approximately 124 semester units are required for a Baccalaureate degree at a California State University of which 48 units must be in general education within a prescribed pattern. Thirty-nine units may be completed and certified in whole or in part at College of Marin. The remaining nine units must be taken as upper division courses after transfer to the four-year university.

Community colleges may certify no more than 30 units of general education from Subject Areas B, C, and D combined. The remaining units may be taken from Areas A and/or E.

Completion of 39 units of general education for the California State University System is not a requirement for admission. However, it is recommended that these units be completed during the first two years of college.

Students must make a request for certification prior to attending California State University by completing two forms:
1. A Request for Transcript,
2. A Request for General Education Certification.

**United States History, Constitution, and American Ideals Requirement**
In addition to general education, state universities and colleges also require United States History, and Constitution and American Ideals for graduation. Courses at the College of Marin that fulfill the two-course requirement are:

1. One course in United States History to be chosen from the following:
   - Ethnic Studies 111 or 112 or 121 or 151
   - History 100 or 117 or 118
2. One course in Constitution and American Ideals to be chosen from the following:
   - Political Science 100 or 101

**2008-2009 CSU General Education Program**

**AREA A - COMMUNICATION IN THE ENGLISH LANGUAGE AND CRITICAL THINKING**
Nine units. Select one course from A-1, A-2, and A-3

**A-1 Oral Communication**
- Speech 110, 120, 122, 130, 132

**A-2 Written Communication**
- English 150

**A-3 Critical Thinking**
- Economics 125
- English 130, 151, 155
- Ethnic Studies 125
- History 125
- Philosophy 112
- Political Science 125
- Social Science 125
- Speech 132

Area Note
(a) Speech 132 may be used for A-I or A-3, but not both
(b) Credit is given for only one course in the following set:
   - Economics 125, Ethnic Studies 125, History 125,
   - Political Science 125 or Social Science 125

**AREA B - NATURAL SCIENCES AND MATHEMATICS**
(Nine units. Select one course from B-1, B-2, B-4. A laboratory course marked by an asterisk (*) in B-1 and B-2 will satisfy B-3)

**B-1 Physical Sciences**
- Astronomy 101, 105, 117F*, 117L*
- Biology 105, 138*, 160
- Geography 101, 110L*, 112
- Geology 103, 105, 109, 110, 120, 120L*, 121*, 138*, 201*

**B-2 Life Science (Biological)**
- Anthropology 101, 101L*
- Astronomy 105
- Biology 105, 107, 109, 110, 110L*, 115*, 116*, 120*, 162*, 224*, 235*, 240*
- Geology 105
- Physical Education 107

**B-3 Laboratory Activity**
Laboratory courses marked with an asterisk (*) are included in B-1 and B-2 and will satisfy B-3.

**B-4 Mathematics/Quantitative Reasoning**
- Computer Science 117
- Math 104 or 104XY, 105, 109, 110, 114, 115, 116, 117, 121, 122, 123, 124, 223, 224
- Statistics 115

Area Notes
(a) Credit is given for only one course in each of the following sets:
   - Astronomy 105, Biology 105, Geology 105
   - Biology 107, Physical Education 107
   - Biology 138, Geology 138
   - Computer Science 117, Math 117
(b) Astronomy 105, Biology 105, or Geology 105 may be used for B-1 or B-2, but not both.
AREA C - ARTS, LITERATURE, PHILOSOPHY, AND FOREIGN LANGUAGES
Nine units. Select three courses to include at least one course each from C-1 and C-2.
Asterisk (*) indicates a performance or activity course. Limit of three units.

C-1 Arts (Art, Dance, Music, Theatre)
- Architecture 100, 101, 102
- Communications 109A, 109B
- Drama 110, 130*, 150, 160*, 161*, 245*, 260*
- Ethnic Studies 108
- Humanities 108, 109A, 109B
- Music 101, 102, 105, 106

C-2 Humanities (Literature, Philosophy, and Foreign Language)
- American Sign Language 101, 102, 110, 203
- Chinese 101, 102
- Drama 116, 117
- Ethnic Studies 154
- Humanities 100A, 100B, 114, 118, 125, 242
- Italian 101, 102, 203, 204, 225, 226
- Japanese 101, 102, 204
- Philosophy 110, 111, 117
- Spanish 101, 102, 203, 203HB, 204, 225, 226, 228A, 230A, 230B
- Speech 140, 141

Area Notes
(a) Credit is given for only one course in each of the following sets:
- Art 108, Ethnic Studies 108, Humanities 108
- Communications 109A, Humanities 109A
- Communications 109B, Humanities 109B
- Humanities 114, Humanities 118
- English 242, Humanities 242
(b) American Sign Language 110 may be used for C-2 or D-1, but not both

AREA D - SOCIAL, POLITICAL, AND ECONOMIC INSTITUTIONS AND BEHAVIOR AND THEIR HISTORICAL BACKGROUND
Nine units. Select three courses from three different groups.

D-0 Sociology and Criminology
- Administration of Justice 204
- Sociology 110, 112, 184, 205, 250

D-1 Anthropology and Archeology
- American Sign Language 110
- Anthropology 102, 103, 110, 204, 208, 215

D-2 Economics
- Economics 101, 102

D-3 Ethnic Studies
- Communications 160
- Ethnic Studies 110, 111, 112, 121, 151
- Journalism 160

D-4 Gender Studies
- Communications 160
- Journalism 160
- Psychology 120

D-5 Geography
- Geography 102, 109

D-6 History
- Ethnic Studies 111, 112, 121, 151
- History 100, 101, 102, 103, 109, 110, 111, 112, 117, 118, 206, 214, 215, 216, 238

D-7 Interdisciplinary Social or Behavioral Science
- Behavioral Science 103, 114, 201
- Biology 108A
- Business 101
- Communications 110
- Early Childhood Education 110, 112
- Economics 201
- History 103
- Journalism 110
- Political Science 201
- Psychology 140, 230
- Sociology 114, 140, 230
- Speech 128

D-8 Political Science, Government, and Legal Institutions
- Political Science 100, 101, 102, 103, 104, 117, 220

D-9 Psychology
- Psychology 110, 111, 112, 114, 116, 120, 145, 204, 205

Area Notes
(a) Credit is given in Area D or Area E, but not both for the following courses:
- Behavioral Science 103, 114
- Biology 108A
- Psychology 110, 111, 112, 114, 140, 145
- Sociology 140
(b) Credit is given for only one course in each of the following sets:
- Administration of Justice 204, Sociology 184
- Behavioral Science 103, Biology 108A
- Behavioral Science 201, Economics 201, and Political Science 201
- Communications 110, Journalism 110
- Communications 160, Journalism 160
- Psychology 111, Psychology 116
- Psychology 140, Sociology 140
- Psychology 205, Sociology 205
- Psychology 230, Sociology 230
(c) See catalog description for Psychology 112 credit limitation
(d) Courses listed in multiple groups in Area D may not be certified in more than one group.
- American Sign Language 110: C-2 or D-1
- Communications 160: D-3 or D-4
- Ethnic Studies 111, 112, 121, 151: D-3 or D-6
- History 103: D-6 or D-7
- Journalism 160: D-3 or D-4
- Psychology 120: D-4 or D-9
AREA E - LIFELONG UNDERSTANDING AND SELF-DEVELOPMENT

Three units. Select one course.

- Behavioral Science 103, 114
- Biology 100, 108A
- Counseling 130
- Health Education 112, 130, 142
- Psychology 110, 111, 112, 114, 140, 142, 145
- Sociology 140

Notes

(a) Credit is given in Area D or Area E, but not both for the following courses:
   - Behavioral Science 103, 114
   - Biology 108A
   - Psychology 110, 111, 112, 114, 140, 145
   - Sociology 140

(b) Credit is given for only one course in each of the following sets:
   - Behavioral Science 103, Biology 108A
   - Health Education 142, Psychology 142
   - Psychology 140, Sociology 140

(c) See catalog description for Psychology 114 credit limitation

College of Marin Courses Transferable Toward Baccalaureate Degree Credit at the California State University

Courses are accepted by California State University for credit toward the baccalaureate degree that College of Marin designates as appropriate for baccalaureate credit. To determine whether a course fulfills a requirement for a major, consult the catalog of the school to which you intend to transfer, the World Wide Web at ASSIST (www.assist.org), and a counselor.

Administration of Justice - all courses except 39
American Sign Language - all courses
Anthropology - all courses except 39
Architecture - all courses except 39
Art - all courses except 39
Astronomy - all courses except 39
Automotive Collision Repair Technology - all courses except 39 and 95
Automotive Technology - all courses except 39 and 95
Behavioral Science - all courses except 39
Biology - all courses except 39 and 99
Business - all courses except 39
Business Office Systems - all courses except 39 through 99
Chemistry - all courses except 39
Chinese - all courses
Communications - all courses except 39
Computer Information Systems - all courses except 39
Computer Science - all courses except 39 and 75
Counseling - all courses except 39, 70, and 154
Court Reporting - all courses except 39, 90
Dance - all courses except 39
Dental Assisting - all courses except 39 and 100
Directed Study - all courses
Drama - all courses except 39 and 90
Early Childhood Education - all courses except 39
Economics - all courses except 39
Education - all courses except 39
Electronics Technology - all courses except 39
Engineering - all courses except 39
English - all courses except 39
English as Second Language - English 120SL only
Environmental Landscaping - all courses except 39
Ethnic Studies - all courses except 39
Film/Video - all communications courses listed under film/video, except 39
Fire Technology - all courses except 39
French - all courses except 39
Geography - all courses except 39
Geology - all courses except 39 and 99
Health Education - all courses except 39 and 100
History - all courses except 39
Humanities - all courses except 39
Italian - all courses except 39
Japanese - all courses except 39
Journalism - all courses except 39
Library - all courses except 39
Machine and Metals Technology - all courses except 39, 90, and 97
Mathematics - all courses except 25 through 103, 103AB, 103S, and 103XY
Medical Assisting - all courses except 39 and 100
Multimedia Studies - all courses except 39 and 90
Music - all courses except 39
Nursing Education - all courses except 39, 90, 95, and 100
Philosophy - all courses except 39
Physical Education - all courses except 39
Physics - all courses except 39
Political Science - all courses except 39
Psychology - all courses except 39
Real Estate - all courses except 39
Social Science - all courses except 39
Sociology - all courses except 39
Spanish - all courses except 39
Speech - all courses except 39
Statistics - all courses except 39
Study Skills - all courses except 39 through 78
Work Experience - all courses

UNIVERSITY OF CALIFORNIA TRANSFER INFORMATION

General Admission Information to the University of California Campuses: Berkeley, Davis, Irvine, Los Angeles, Merced, Riverside, San Diego, San Francisco, Santa Barbara, Santa Cruz

The University considers you a transfer applicant if you graduated from high school and enrolled in a regular session at a college or university. As a transfer applicant, you may not disregard your college record and apply as a freshman.
College of Marin transfer students should take courses that are transferable, that satisfy University and college requirements, and that fulfill prerequisites in the major. Advisors in the Admissions Office at the campus you wish to attend and College of Marin counselors can help you with your planning.

The transfer admission requirements described in this section represent the minimum level of achievement to be eligible for admission to the University.

If the number of applicants exceeds the spaces available for a particular campus or major – as is often the case – the campus uses criteria that exceed the minimum requirements to select students. Meeting the minimum requirements, therefore, is not enough to gain admission to many UC campuses and programs.

Transfer Eligibility Requirements for California Residents

To be eligible for admission to UC as a transfer student, you must fulfill both of the following criteria:

1. Complete 60 semester units of transferable college credit with a grade point average of at least 2.4 and no more than 14 semester units may be taken Pass/No Pass.

2. Complete the following course pattern requirements, earning a grade of C or higher in each course:
   - two transferable college courses (three semester units each) in English composition - English 150 and 151 or 155; and
   - one transferable college course (three semester units) in mathematical concepts and quantitative reasoning; and
   - four transferable college courses (three semester units each) chosen from at least two of the following subject areas: the arts and humanities, the social and behavioral sciences, and the physical and biological sciences. Exception: University of California, Berkeley, College of Letters and Science requires three years of foreign language in high school or two semesters at College of Marin.

If you satisfy the Intersegmental General Education Transfer Curriculum (IGETC) prior to transferring to University of California, you may satisfy Part 2 of the transfer admission requirements. For more information about the IGETC, refer to the Intersegmental General Education Transfer Curriculum in this section of the catalog.

Guaranteed Admission Transfer Contracts

College of Marin has guaranteed admission transfer contracts with universities. To find out specific details, criteria, and participating universities, contact the Transfer Center or Counseling Department.

Concurrent Enrollment Program – University of California, Berkeley

The purpose of this program is to allow community college students the opportunity to experience Berkeley course work and the campus by taking one lower division course (up to two semesters) that is not otherwise available at the community colleges. Consult with the Counseling Department regarding necessary recommendations and restrictions.

Intersegmental General Education Transfer Curriculum (IGETC) For Transfer to the University of California and California State University

The Intersegmental General Education Transfer Curriculum (IGETC) is a program that College of Marin transfer students can use to fulfill lower division general education requirements at both the University of California and the California State University. There are other options that fulfill general education requirements, but none of the options cover both the University of California and California State University.

The IGETC will permit a student to transfer from College of Marin to a campus in either the University of California or the California State University System without the need, after transfer, to take additional courses to satisfy campus lower division general education requirements.

The IGETC is not an admission requirement to the University of California or California State University. Existing campus specific admission requirements for transfer students remain unchanged.

Important: It is not advisable for all transfer students to follow the IGETC. Make an appointment with a College of Marin counselor to clarify which colleges and majors do not approve the use of IGETC. In addition, www.assist.org provides specific admission criteria for transfer students.

IGETC Certification

It is strongly recommended that students complete IGETC prior to transfer. Advantages of completing IGETC include more flexibility in class selection at the university and timely progress to degree completion. All UC and CSU campuses will accept the completed IGETC to satisfy all lower division general education requirements. However, the individual colleges or majors within a CU or UC campus may not accept IGETC for meeting general education. To learn more about specific exceptions or restrictions regarding IGETC, please meet with a counselor.

Certification indicates that all lower division general education requirements for UC or CSU have been met. Courses certified for IGETC must be completed with a grade of “C” or higher.

In addition to the course requirements for each subject area, full certification for California State University must include completion of the Oral Communication Requirement. For the University of California, Oral Communication is not required, but the certification must include satisfactory completion of a Language Other Than English Requirement.
Courses taken at other institutions may be used to fulfill the IGETC. Students should be aware, however, that placement of courses within IGETC subject areas may vary from college to college. Placement of a course will be based on the college of attendance and its IGETC pattern at the time the course was completed. Completion of the IGETC program will be certified by the last community college that the student attends. As a general rule, IGETC can be certified for California community college transfer students who have completed transfer units at a University of California, California State University, or independent college provided that the student has completed most of the transfer units at one or more California community colleges. Please note: It is the student’s responsibility to request IGETC and CSU GE-Breadth certification through the Office of Admissions and Records.

Advanced Placement Test

Advanced Placement Test (APT) scores can be used to satisfy certain areas under IGETC.

A score of 3, 4, or 5 is required to grant credit for IGETC certification. An acceptable AP score for IGETC equates to either 3 semester or 4 quarter units for certification purposes. Each AP exam may be applied to one IGETC area as satisfying one course requirement, with the exception of Language other than English (LOTE). Students who have earned credit from an AP exam should not take a comparable college course because transfer credit will not be granted for both. Students earning scores of 3, 4, or 5 in the physical and biological science AP examinations earn credit toward IGETC Area 5 and meet the IGETC laboratory activity requirement. There is no equivalent AP exam for Area 1B-Critical Thinking/Composition requirement. AP exams in Biology, Chemistry or Physics B allow CCC campuses to apply 4 semester or 5 quarter units to IGETC certification. For Environmental Science, Physics C: Mechanics and Physics C: Electricity/Magnetism, 3 semester or 4 quarter units are applied for IGETC certification. Therefore, students who complete these exams will be required to complete at least 4 semester or 5 quarter units to satisfy the minimum required units for Area 5.

Please refer to the IGETC AP Table below and meet with a counselor to determine how AP credit can be applied to meeting IGETC requirements.

*AP exams may be used in either area regardless of where the certifying CCC’s discipline is located.

2008-2009 IGETC Program

Symbols:

(+) Indicates that either the University of California or the California State University or both will limit transfer credit. Please refer to “Courses from the College of Marin Acceptable at the University of California (All Campuses)” in this section of the catalog or consult a counselor.

(*) Courses listed in multiple areas shall not be certified in more than one area except for courses in Language Other than English, which can be certified in both areas 3B and 6A.

(o) Note: Courses approved for fall 91 may be taken prior to fall 91. Courses approved for fall 92 or later may not be taken prior to fall 92.

AREA 1 – ENGLISH COMMUNICATION

Students transferring to the University of California must complete one course from Group A and one course from Group B. Students transferring to the California State University must complete one course each from Groups A, B, and C.

Group A - English Composition

- English 150

Group B - Critical Thinking/English Composition

- English 151, 155*

Group C - Oral Communication (CSU Requirement Only)

- Speech 110, 120, 122, 130, 132*

AREA 2 - MATHEMATICAL CONCEPTS AND QUANTITATIVE REASONING

Select one course, three semester units.

- Computer Science 117
- Math 105, 109, 114, 115+, 116, 117, 121+, 122+, 123+, 124+, 223, 224
- Statistics 115+
AREA 3 - ARTS AND HUMANITIES
Select three courses, nine semester units. At least one course from Group A and one course from Group B.

Group A - Arts
Architecture 100+, 101+, 102+
Art 101, 102, 103, 104, 105, 106, 107, 108+
Communications 109A, 109B
Dance 108
Drama 110
Ethnic Studies 108+
Humanities 108+, 109A, 109B
Music 101, 102, 105

Group B - Humanities
American Sign Language 102*, 203
Chinese 102*
Drama 116, 117
Ethnic Studies 154
Humans 100A, 100B, 107, 114+, 118+, 125, 242+
Italian 102*, 203*, 204*, 225*, 226*
Japanese 102*, 204*
Philosophy 110, 111, 117
Speech 128

AREA 4 - SOCIAL AND BEHAVIORAL SCIENCES
Select three courses, nine semester units. Courses must be selected from at least two disciplines.

Anthropology 102+, 103+, 110, 204, 208, 215+
Behavioral Science 103+, 201+
Biology 108A+
Communications 110*, 160*
Early Childhood Education 110
Economics 101, 102, 201+
Ethnic Studies 110, 111, 112, 121, 151
Geography 102, 109
Health Education 142+
History 100+, 101, 102, 103, 109, 110, 111, 112, 117+, 118+, 206, 214, 215, 216
Journalism 110*, 160*
Political Science 100+, 101+, 102, 103, 104, 201+, 220
Psychology 110, 111+, 112+, 114+, 116+, 120, 140+, 142+, 204, 205+, 230+
Sociology 110, 112, 114, 140+, 205+, 230+

AREA 5 - PHYSICAL AND BIOLOGICAL SCIENCES
Select one course from Group A and one course from Group B, seven to nine semester units. At least one of the courses selected must include a laboratory. Courses that are labs or have a lab component are underlined.

Group A - Physical Sciences
Astronomy 101, 105+, 117F, 117L
Biology 138+, 160

Group B - Biological Sciences
Anthropology 102+, 103+, 110, 204, 215+
Biology 138+, 110, 203, 204,
Geography 101, 101L, 112
Geology 103, 105+, 109, 110+, 114, 120+, 120L, 121, 138+*, 201
Physics 108A+, 110+, 207A+

AREA 6 - LANGUAGES OTHER THAN ENGLISH (UC Requirement only)
6A - Languages Other Than English
May be met by one of the following:
- Two years of one language other than English in high school with a grade of C or higher
- Completion of one of the following courses:
  American Sign Language 101*, 102*, 203, 204
  Chinese 101*, 102*
  French 101*, 102*, 203*, 204*, 225*, 226*
  Italian 101*, 203*, 204*, 225*, 226*
  Japanese 101*, 102*, 203*, 204*, 225*, 226*
  Spanish 101*, 102*, 203*, 203HB*, 204*, 225*, 226*

Note: Courses listed in multiple areas shall not be certified in more than one area except for courses in Languages Other Than English, which can be certified in both areas 3B and 6A.

California State University Graduation Requirement in United States History, Constitution and American Ideals.
(This is not a part of the IGETC, but may be completed prior to transfer.)
Select one course from Group A and one course from Group B

Group A - United States History
Ethnic Studies 111*, 112*, 121*
History 100+, 117+, 118+

Group B - Constitution and American Ideals
Political Science 100+, 101+

Courses From the College of Marin Acceptable at the University of California (All Campuses)
All of the following courses are transferable with limitations as indicated.
To determine whether a course fulfills a requirement for a major, you must consult the catalog of the University of California campus to which you plan to transfer. Please see a counselor if you have any questions and for specific requirements that must be met prior to transfer.

Honor Course Credit Limitation
Duplicate credit will not be awarded for both the honors and regular versions of a course. Credit will only be awarded to the first course completed with a grade of C or higher.
# indicates new courses or changes for current year

**Administration of Justice**

110, 111, 118, 204 (same as Sociology 184)

**American Sign Language**

101*, 102, 203, 204

* Corresponds to two years of high school study.

**Anthropology**

101, 101L, 102*, 103*, 110, 139 (see Var. Topic), 204, 208, 215+, 249 (see Var. Topic)

*102 and 103 combined: maximum credit, one course.

+May be taken twice for credit (per college)

**Architecture**

100*, 101*, 102*, 110**, 130**

*100, 101, and 102 combined: maximum credit, two courses

**Any or all of these courses combined: maximum credit, 18 semester units per UC Berkeley's College of Environmental Design

**Astronomy**

101, 105 (same as Biology 105, Geology 105), 117F (same as Astronomy 117L), 117L, 139 (see Var. Topic), 249 (see Var. Topic)

**Behavioral Science**

103 (same as Biology 108A), 105, 139 (see Var. Topic), 201 (same as Economics 201, Political Science 201), 249 (see Var. Topic)

**Biology**

100, 105 (same as Astronomy 105, Geology 105), 107 (same as Physical Education 107), 108, 108A (same as Behavioral Science 103), 109, 110o, 110Lo, 115, 116, 120, 138 (same as Geology 138), 139 (see Var. Topic), 142 (same as Geology 142), 145 (same as Geology 145), 147, 160#, 162, 171, 224, 235, 240+, 246, 249 (see Var. Topic), 250 (same as Geology 250)

oNo credit for 110, 110L if taken after 115 or 116

+240 and 244 combined: maximum credit, one course

**Business**

101, 107, 112#, 113

**Chemistry**

105, 105L, 114*, 115+, 131, 132oo, 132Eoo, 139 (see Var. Topic), 231, 232oo, 232Eoo, 249 (see Var. Topic)

*No credit for 114 if taken after 131

+No credit for 115 if taken after 231

oo132 and 132E combined: maximum credit, one course

232 and 232E combined: maximum credit, one course

**Chinese**

101*, 102

*Corresponds to two years of high school study.

**Communications**

109A, 109B (same as Humanities 109A and 109B), 110 (same as Journalism 110), 150, 160 (same as Journalism 160)

**Computer Information Systems**

110, 139 (see Var. Topic), 215, 249 (see Var. Topic)

**Computer Science**

117 (same as Mathematics 117), 130, 135, 139 (see Var. Topic), 140, 150A, 150B (same as Engineering 150B), 160, 190, 200, 220, 230, 232, 235, 249 (see Var. Topic)

**Counseling**

114#

**Dance**

*Any or all of these Physical Education activity courses combined: maximum credit, four units

o 117, 118 and (*) Physical Education activity courses combined: maximum credit, 4 units

**Directed Study**

(See Variable Topics Courses)

**Drama**

*No credit for 124 if taken after 130

**Early Childhood Education**

110

**Economics**

101, 102, 125 (same as Ethnic Studies 125, History 125, Political Science 125, Social Science 125), 139 (see Var. Topic), 201 (same as Behavioral Science 201, 249 (see Var. Topic)

**Education**

110, 111

**Engineering**

110, 110B, 125, 126, 139 (see Var. Topic), 150B, 210, 220, 235, 245, 249 (see Var. Topic)

**English**

120SL*, 130, 139 (see Var. Topic), 150, 151, 155, 202, 203, 208, 212, 214, 218, 219, 220, 221A, 221B, 222, 223, 224, 225, 230, 235, 237, 240, 242 (same as Humanities 242), 249 (see Var. Topic)

*120SL and any other transferable ESL course combined: maximum credit, 8 units
### Environmental Landscaping
- 154A*, 154B*, 157, 254A*, 254B*
  - *154AB and 254AB combined: maximum credit, one series
  - *154A and 154B must both be taken in order to receive transfer credit
  - *254A and 254B must both be taken in order to receive transfer credit

### Ethnic Studies
- 108 (same as Art 108, Humanities 108), 110, 111, 112, 121, 125 (same as Economics 125, History 125, Political Science 125, Social Science 125), 139 (see Var. Topic), 151, 154, 242, 249 (see Var. Topic)

### Film/Video
(Please see Communications)

### French
- 101*, 102, 108A, 108B, 139 (see Var. Topic), 203, 204, 225, 226, 249 (see Var. Topic)
  - *Corresponds to two years of high school study.

### Geography
- 101, 101L, 102, 109, 112, 125, 139 (see Var. Topic), 249 (see Var. Topic)

### Geology
- 103, 105, (same as Astronomy 105, Biology 105), 109, 110+, 114, 116, 120+, 120L, 121, 125o, 126o, 138 (same as Biology 138), 139 (see Var. Topic), 142 (see Biology 142), 145 (same as Biology 145), 201, 249 (see Var. Topic), 250 (same as Biology 250)
  - +110 and 120 combined: maximum credit, one course (per catalog)
  - oo 125 and 126 combined: maximum credit, three units

### Health Education
- 115, 130, 142++ (same as Psychology 142).
  - ++142 and Psychology 112, 114 combined: maximum credit, six units. Deduct credit for duplication of topics.

### History
- 100*, 101, 102, 103, 109, 110, 111, 112, 117*, 118*, 125 (same as Economics 125, Ethnic Studies 125, Political Science 125, Social Science 125), 139 (see Var. Topic), 206, 214, 215, 216, 238, 249 (see Var. Topic)
  - *100, 117 and 118 combined: maximum credit, two courses
  - +119 and 120 combined: maximum credit, one course

### Humanities
- 100AB, 107, 108 (same as Art 108, Ethnic Studies 108), 109A, 109B (same as Communications 109A, 109B), 114o, 118o, 125, 139 (see Var. Topic), 242 (same as English 242), 249 (see Var. Topic)
  - *Must be taken for a letter grade to receive transfer credit.
  - o114 and 118 combined: maximum credit, one course

### Italian
- 101*, 102, 108Ao (same as Dram 139N), 108Bo, 108Co, 108Do, 139 (see Var. Topic), 203, 204, 225, 226, 249 (see Var. Topic)
  - *Media version must be taken for a letter grade to receive transfer credit.

### Japanese
- 101*, 102, 139 (see Var. Topic), 203, 204, 249 (see Var. Topic)
  - *Corresponds to two years of high school study.

### Journalism
- 110 (same as Communications 110), 160 (same as Communications 160)

### Library
- 110*, 115*
  - *110 and 115 combined: maximum credit, one course

### Mathematics
- 105, 114, 115+, 109, 116, 117 (same as Computer Science 117), 121o, 122o, 123o, 124o, 139 (see Var. Topic), 223, 224, 249 (see Var. Topic)
  - +115 and Statistics 115 combined: maximum credit, one course.
  - o121, 122 and 123, 124 combined: maximum credit, one series

### Music

### Philosophy
- 110, 111, 112, 117, 139 (see Var. Topic), 249 (see Var. Topic)

### Physical Education
  - *Any or all courses combined: maximum credit, four units
  - +Any or all courses combined: maximum credit, eight units
  - **Depending on course content, apply appropriate limitation.

### Physics
  - +108A, 108B, and 207ABC combined: maximum credit, one series. Deduct credit for duplication of topics.
  - *No credit for 110 if taken after 108A or 207A

### Political Science
- 100*, 101*, 102, 103, 104, 117, 125 (same as Economics 125, Ethnic Studies 125, History 125, Social Science 125), 139 (see Var. Topic), 201 (same as Behavioral Science 201, Economics 201), 203, 215, 220, 249 (see Var. Topic)
  - *100 and 101 combined: maximum credit, one course

### Psychology
- 110*, 111+, 112o, 114o, 116+, 120, 139 (see Var. Topic), 140 (same as Sociology 140), 142o (same as Health Education 142),
204, 205**, 230 (same as Sociology 230), 249 (see Var. Topic), 251
+111 and 116 combined: maximum credit, one course
a112, 114, and 142 combined: maximum credit, six units. Deduct credit for duplication of topics.
**205 and Sociology 205 combined: maximum credit, one course

Social Science
125 (same as Economics 125, Ethnic Studies 125, History 125, Political Science 125), 139 (see Var. Topic), 249 (see Var. Topic)

Sociology
110, 112, 114#, 139 (see Var. Topic), 140 (same as Psychology 140), 184 (same as Administration of Justice 204), 205, 230 (same as Psychology 230), 249 (see Var. Topic)

Spanish
101*, 102, 139 (see Var. Topic), 203, 203HB, 204, 225, 226, 228, 230A, 230B, 249 (see Var. Topic)
*aCorresponds to two years of high school study.

Speech
110, 120, 122, 128, 130, 132, 139 (see Var. Topic), 140, 141, 249 (see Var. Topic)

Statistics
115* (meets H. S. math)
*115 combined with Math 115: maximum credit, one course.

Variable Topics Courses
(Directed Study, Selected Topics, Internship, Independent Studies, Fieldwork, etc.)
Please note that the granting of transfer credit for courses of this kind is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from faculty. Information about internships may also be presented for review, but credit for internships rarely transfers to UC. UC does not grant credit for variable topics courses in Journalism, Photography, Health, Business Administration, Architecture, Administration of Justice (Criminology) or Library Departments because of credit restrictions in these areas.

California Articulation Number (CAN)
College of Marin participates in the California Articulation Number (CAN) System, a statewide numbering system independent from numbers assigned by local colleges. This system was designed to facilitate the transferring of course credits to other participating California colleges and universities. Students are assured that a CAN course on one participating campus will be accepted in lieu of the comparable CAN course on another participating campus. For example, CAN ENGL 2 on one campus will be accepted for CAN ENGL 2 on another participating campus. At College of Marin, CAN ENGL 2 is English 150. Listed below are the College of Marin courses assigned CAN system numbers. CAN-designated courses may change and students should always check with their counselors to determine how CAN courses fit into their educational plans. Students should consult the ASSIST database at www.assist.org for specific information on course agreements. College of Marin counselors will help students interpret this information.

### Table: College of Marin Courses with a California Articulation Number

The Lower-Division Transfer Patterns (LDTP) Project

The Lower-Division Transfer Patterns (LDTP) Project is another option for transfer to the California State University System. The admissions component of the project is being developed and information is forthcoming. A brief summary of LDTP is provided below:

The Lower-Division Transfer Patterns (LDTP) project, sponsored by the California State University (CSU) and supported by the California Community Colleges, presents potential transfer students with a set of “road maps” to follow that will ensure appropriate academic preparation for studies at CSU and that will decrease time to graduation once these students enter the CSU. The LDTP for each discipline has a statewide as well as campus-specific components. The statewide component of the LDTP is appropriate for any CSU campus that offers the major and is comprised of general education coursework as well as some courses within the discipline. The campus-specific component identifies discipline related coursework relevant to the major at the specific CSU campus. Together these components for an LDTP discipline will total at least 60 units, the number needed to transfer to CSU as an upper-division student.

Please refer to CSUMentor for more information on LDTP at http://www.csumentor.edu/planning/ldtp/
SECTION 6

COURSE DESCRIPTIONS
COURSE DESCRIPTIONS

Information Contained Within Course Descriptions

The first part of the course description contains the course discipline abbreviation, number, title, and the student unit value of the course. Example: ENGL 150. Reading and Composition 1A. (3). It also contains prerequisites, corequisites, advisories, or other limitations followed by the hours required for the course.

The second part of the description is a brief explanation of the material being covered in the course. It also contains information regarding how many times a course may be taken and if it is offered in a distance learning format (television, video, internet or teleconference).

The last part of the description includes Associate degree and transfer information. Courses certified for a California Articulation Number will have the CAN number listed.

For further information regarding transfer or degree requirements, please refer to the Graduation and Degree Requirements Section and the Transfer Information Section of this catalog.

Student Units and Hours

Credit for courses offered at College of Marin is awarded in semester units. The value of the course is computed on the basis of one unit for each lecture hour per week for one semester (together with two hours of preparation outside class) or three hours of laboratory work per week for one semester. Courses meeting for less than the full semester will require an equivalent number of hours prorated on a per week basis.

Prerequisites, Corequisites, and Advisories

Prerequisites

A prerequisite is a condition of enrollment that a student is required to meet in order to demonstrate current readiness for enrollment in a particular course or program. The College requires students to complete prerequisite courses with a grade of “C”, “P”, or higher prior to registering in the course requiring the prerequisites.

Examples of courses that may require prerequisites:

1. Courses for which specific prerequisites have been justified by content review, the appropriate level of scrutiny and any other validation procedures required by law (Title 5, 55201 a-f).
2. Sequential courses in a degree-applicable program.
3. Courses requiring a prerequisite to transfer to a four-year college.
4. Courses requiring preparation to protect health and safety.
5. Technical or vocational courses or programs that require special preparation.

Equivalent Course Work/Prerequisite Challenges

Some prerequisites may be satisfied by equivalent course work from an accredited institution other than College of Marin. Students also have the right to challenge prerequisites on certain, specified grounds and procedures. Please contact a counselor for more information.

Corequisites

A corequisite is a condition of enrollment consisting of a course that a student is required to take simultaneously in order to enroll in another course. Courses that require corequisites include courses that are part of a closely related lecture-laboratory pairing; for example, Biology 101 and Biology 101L. Students may not enroll in one without enrolling in the other.

Advisories

An advisory is a condition that a student is advised, but not required, to meet before or in conjunction with enrollment in a course or educational program.

Other Limitations

Other limitations on enrollment may include:

1. Courses that require public performance or competition.
2. Blocks of courses for which enrollment is limited in order to create a cohort of students.

Grading Systems

Different grading systems are used for different courses. Some will be limited to letter grades, some will be limited to pass/no pass grading and the remainder will be optional letter or pass/no pass grades, upon agreement between the instructor and student. For some disciplines, grading is indicated in the catalog before the discipline’s course descriptions. In general, courses required for a student’s four-year major should be taken on a letter grade basis.

Course Numbering System

Courses in this catalog and in the schedule of classes are numbered in the following sequence:

0-099 Preparatory/remedial courses and courses that do not apply to the major. Courses numbered 0-099 are not applicable to the Associate degree.

100-199 Courses taken during the first year of academic work or the first 30 units of course work. Courses numbered 100-199 are applicable to the Associate degree.

200-299 Courses taken during the second year of academic work or the second 30 units of course work. Courses numbered 200-299 are applicable to the Associate degree.
ADMINISTRATION OF JUSTICE

There are excellent and increasing opportunities for men and women in all areas of the administration of justice field. Education and training is becoming more important for those who seek careers in criminal justice. The program is designed to provide a solid foundation of knowledge that will prepare the student for initial employment, advancement, or transfer to a four-year college or university.

Career Options
Border Patrol Agent, California Highway Patrol, Correctional Counseling, County and State Park Ranger, Court Administration, Deputy Sheriff, Federal Bureau of Investigation, Immigration and Naturalization Service, Law, Paralegal, Police Officer, State Correctional Officer

Faculty
Sandy Boyd

Department Phone: (415) 883-2211, Ext. 8200

Transfer
Students planning to transfer to a four-year institution should complete the lower division major requirements and general education pattern for the appropriate transfer institution and major. Exact major requirements for UC and CSU institutions can be found on www.assist.org. Please see a counselor for more information as curriculum requirements may vary among transfer universities.

A.S. in Administration of Justice, Occupational (Certificate of Achievement also awarded)

An Associate in Science degree is awarded for satisfactory performance in major courses, as well as completion of general education and graduation requirements. A Certificate of Achievement in Administration of Justice is awarded for satisfactory completion of courses required for the major.

Students wishing to earn a degree or Certificate of Achievement in Administration of Justice should be aware that it might take longer than two years. However, courses are offered on a two-year cycle, and with planning, a student can complete a degree and/or Certificate of Achievement in a two-year period.

Please note: Students may choose English 120, 120SL, or 150 to complete the Associate degree. Transfer students, however, are advised to complete English 150. All students should consult a counselor.

Administration of Justice Courses (AJ)

AJ 039 Selected Topics (Nondegree Applicable)
(½–6 units) (Please see Selected Topics category.)

AJ 110 Introduction to Administration of Justice
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
The history and philosophy of justice as it evolved throughout the world; in-depth study of the American system and the various subsystems; roles and role expectations of criminal justice agents in their interrelationships in society; concepts of crime causation, punishments and rehabilitation; ethics, education, and training for professionalism in the social system. (CSU/UC)

AJ 111 Criminal Law
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
Historical development, philosophy of law and constitutional provisions; definitions, classifications of crimes and their applications to the system of administration of justice; legal research, review of case law, methodology, and concepts of law as a social force. Explores crimes against persons, property, and the state as a social, religious, and historical ideology. (CSU/UC)

AJ 113 Criminal Procedures
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
Legal processes from prearrest, arrest through trial, sentencing and correctional procedures; a review of the history of case and common law; conceptual interpretations of law as reflected in court decisions; study of case law methodology and case research as the decisions impact the procedures of the justice system. (CSU)

AJ 116 Juvenile Law and Procedure
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
Techniques of handling juvenile offenders and victims; prevention and repression of delinquency; diagnosis and referral; organization of community resources. Juvenile law and juvenile court procedures. (CSU)

AJ 118 Community and Human Relations
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
The relationship of criminal justice agents and the community; causal and symptomatic aspects of community understanding; lack of cooperation and mistrust; study of behavioral causes; ways to develop and maintain amicable relationships. (CSU/UC)

AJ 139 Selected Topics
(½–6 units) (Please see Selected Topics category.) (CSU w/limit)
AJ 204  Crime and Delinquency
(3.0 Units) (No prerequisite. Can be taken for credit as Administration of Justice 204 or Sociology 184. However, credit will be awarded for only one course. Three lecture hours weekly.)

An introduction to the major theoretical explanations of criminal behavior; social and economic factors which contribute to crime; major typologies of criminal behavior; criminal justice systems and research; courts, probation and parole; police and other institutions. The course will take a sociological perspective and integrate theories from sociology, criminology, and criminal justice. (CSU/UC) CSU Area D-0

AJ 212  Introduction to Evidence
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

Origin, development, philosophy, and constitutional basis of evidence; constitutional and procedural considerations affecting arrest, search and seizures; kinds and degrees of evidence and rules governing admissibility; judicial decisions interpreting individual rights; and case studies viewed from a conceptual level. (CSU)

AJ 215  Introduction to Investigation
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

Fundamentals of investigation; techniques of crime scene search and recording; collection and preservation of physical evidence; modus operandi processes; sources of information; interview and interrogation; follow-up investigation. (CSU)

AJ 220  Vice Narcotics and Organized Crime
(3.0 Units) (No prerequisite. Can be taken for credit as Administration of Justice 220 or Sociology 220. However, credit will be awarded for only one course. Three lecture hours weekly.)

This course examines the relationship between organized crime and the community. It will cover the impact of organized crime, history of organized crime, relationship to the social structure, symptoms of organized crime (i.e., corruption, dysfunctional behavior, violence), attempts to control organized crime, and the role of the legal system. In addition, vice and trade in narcotics will be discussed. Modern organized crime groups both national and international will be highlighted. Exposure to sociological theory and concepts from criminal justice will be integrated into the course. (CSU)

AJ 249  Directed Study
(1-3 units) (No prerequisite.)

This course is designed to provide (at irregular intervals) advanced training and investigation in-depth of topics suggested and required by P.O.S.T. Individual topics will be in lecture format and run from 8 to 80 hours, in one day to ten-week periods. Examples of possible topics: Advanced Officer, Advanced Traffic Investigation, Narcotics, Auto Theft, Explosives and Explosive Devices, Fingerprints, Police Photography, and Domestic Violence. This course may be taken more than once for credit, provided the same topic is not repeated. (CSU w/limit)

AMERICAN SIGN LANGUAGE

American Sign Language courses are designed to meet the needs of the deaf community of Marin County. American Sign Language is a full natural language at the core of a new literary tradition, in both poetry and theatre. It is an alternative language choice for students completing general education humanities requirements at College of Marin.

Policy Statement Regarding Sequence of Enrollment in Modern Language Classes

Although students are advised to enroll in language courses sequentially, they will not be precluded from enrolling in lower level language classes after completion of more advanced courses. Students should be aware, however, that units resulting from the lower level courses may not be accepted at transfer institutions as a part of the required transferring units.

Department Phone: (415) 485-9348

American Sign Language Courses (ASL)

ASL 101  Elementary Sign Language I
(5.0 Units) (No prerequisite. Four lecture and three laboratory hours weekly.)

This is an introductory course that emphasizes visual readiness skills for recognition and expression of appropriate facial expressions and body movements, response to commands, and learning how to visualize the environment. Communicative functions, vocabulary, grammar, and cultural aspects of the deaf community will be introduced and studied. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 6A: UC Language other than English

ASL 102  Elementary Sign Language II
(5.0 Units) (Prerequisite: American Sign Language 101. Four lecture and three laboratory hours weekly.)

This course is a continuation of ASL 101; exchanging information, identifying others, making requests, giving reasons, options, simple directions, and asking for clarification. Discussions revolve around classes, the campus, home, work and transportation, physical descriptions of people and objects, general conversation skills, visual perception and specific specialization skills, and the continuation of the cultural study of the deaf community. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B or 6A: UC Language other than English

ASL 110  History and Culture of Deaf People in America
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This course identifies basic anthropological approaches toward the examination and study of minority groups in general, with specific emphasis on American Deaf culture as a minority group. There will be an introductory comparison of the structures of visual and spoken languages and a presentation of the normative system of laws in America that has developed for deaf Americans. (CSU) AA/AS Areas C and G, CSU Areas C-2 or D-1
ASL 139  Selected Topics
(1½-6 units)(Please see Selected Topics category.) (CSU w/limit)

ASL 203  Intermediate Sign Language III
(5.0 Units) (Prerequisite: American Sign Language 102. Four lecture and three laboratory hours weekly.)

This course is a continuation of American Sign Language 101 and 102, expands upon the conversational and grammar functions, and delves more deeply into Deaf Culture. Skills to be learned include locating things, asking for solutions to everyday problems, telling about life events and personal background, making suggestions and requests, and asking permission. Students will learn how to engage in more sustained communication in American Sign Language, sometimes on philosophical and cultural topics. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B or 6A: UC Language other than English

ASL 204  Intermediate Sign Language IV
(4.0 Units) (Prerequisite: American Sign Language 203. Four lecture hours weekly.)

This course strives for a higher level of conversation and narration skills. Topics include describing problems at home, work and school, expressing opinions and feelings and argumentation; i.e., how to disagree with someone and potentially change that person’s mind. (CSU/UC) AA/AS Area C, IGETC Area 6A: UC Language other than English

ASL 249  Directed Study
(1-3 units)(Please see Directed Study category.) (CSU w/limit)

ANTHROPOLOGY

Anthropology is a scientific discipline concerned with all aspects of humankind: human biology and genetics; ancestral fossils and evolutionary processes; primates; cultures of the world, language and customs; cross-cultural marriage and family processes; prehistory and archaeology; art, healing, religion and technology. Because it is such a diverse discipline, you may find anthropologists uncovering our early ancestors in Africa, excavating a pyramid in Central America, studying peoples in New Guinea or in San Francisco, collecting information on orangutans in Southeast Asia, and advising business and government on customs in India.

Career Options

Department Phone: (415) 485-9630

Transfer
Students planning to transfer to a four-year institution should complete the lower division major requirements and general education pattern for the appropriate transfer institution and major. Exact major requirements for UC and CSU institutions can be found on www.assist.org. Please see a counselor for more information as curriculum requirements may vary among transfer universities.

Anthropology Courses (ANTH)

ANTH 039  Selected Topics (Nondegree Applicable)
(1½-6 units)(Please see Selected Topics category.)

ANTH 101  Introduction to Physical/Biological Anthropology
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This course is the study of evolutionary theory as a unifying theory that encompasses human variation and human evolution. The course covers modern evolutionary theory and its history, genetics, and the human genome. Students will learn about primates, including behavior, anatomy, and features of the skeletal system. Instructors will cover selected topics in forensic analysis, archaeological theory and methodology, scientific method, and an overview of the most significant fossil sites that relate to human evolution. The field is changing on a daily basis, with new information being uncovered pertaining to our distant past and the progress being made in the study of the human genome. Primates in many areas of the world are under threat from human populations and efforts to establish protected areas are meeting with mixed success. The department has an extensive collection of fossil casts that allows students the opportunity to actually see them in person rather than relying solely upon photographs or descriptions. Some instructors may require field trips to local zoos, museums or lectures. (CSU/UC) AA/AS Area A, CSU Area B-2, IGETC Area 5B, CAN ANTH 2

ANTH 101L  Physical/Biological Anthropology Laboratory
(1.0 Unit) (Prerequisite: Anthropology 101 or concurrent enrollment. Three laboratory hours weekly.)

Laboratory and related exercises selected from the fields of: genetics, the human genome, human variability, medical genetics, nonhuman primates, human dental and skeletal anatomy, forensics, primate behavior, reconstruction, fossil hominids, the scientific method including probability and research design. The nature of the course requires students to solve problems, to observe, to take a hands-on approach to the subject matter. This course is supplemental to Anthropology 101. It is designed to cover in greater detail areas which are taught in Physical/Biological Anthropology and which require the active participation of students in learning how to accomplish specific tasks related to the above areas. Field trips may be included. (CSU/UC) AA/AS Area A, CSU Area B-3, IGETC Area 5B
ANTH 102  Introduction to Cultural Anthropology  
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

Cultural anthropology is the study of human behavior from a cross cultural perspective. An emphasis will be placed upon non Western societies. Areas that may be covered are social organization, belief systems and ritual behavior, socialization, psychological anthropology, economic organization, social stratification, theory, and other selected topics. The use of films, slides, and videotapes allows students to become acquainted with cultures and lifestyles that are distinct from contemporary Western society. A goal of the course is to create a greater degree of cross cultural awareness by attempting to promote an understanding of and appreciation for the richness and diversity of human culture. Can also be offered in a distance learning format. (CSU/UC) AA/AS Area B, CSU Area D-1, IGETC Area 4, CAN ANTH 4

ANTH 103  Globalization and Peoples and Cultures of the World  
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This course is designed to explore what is happening to cultural groups from diverse regions around the world. The focus will be upon cultural change, impact of technology, external and regional pressures and how they impact local groups. The role of women, children, ethnic/racial/religious violence, and class conflict will be examined. Poverty, child/female trafficking, slavery, child soldiers, disease, forced migration, famine and genocide will be covered. The use of police, military, torture and death squads are common in many of these areas. The roles of the World Bank, World Trade Organization, multi-national corporations, and local and regional elites will be presented as they relate to the lives of specific ethnic groups. Theory from ethnology and ethnography will be used as a basis for analysis. (CSU/UC) AA/AS Area B, CSU Area D-1, IGETC Area 4

ANTH 110  Introduction to Archaeology and Prehistory  
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This course includes the methods of recovery, analysis and interpretation of material culture, current research questions, current controversies, frauds of the past, ethical problems confronting the archaeologist and some of the spectacular discoveries. Some of the questions to be explored include the origin of art and writing, the evolution of tool making, how and why agriculture began, why civilizations rose and fell, and who settled the Americas. (CSU/UC) AA/AS Area B, CSU Area D-1, IGETC Area 4, CAN ANTH 6

ANTH 139  Selected Topics  
(1/2-6 units)(Please see Selected Topics category.)(CSU/UC w/limit)

ANTH 204  Native American Cultures  
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This survey course of Native Americans will examine early examples of the inhabitation of the western hemisphere. In addition, the historical record will be used to illustrate contact between indigenous peoples and the outside world and the results of that contact. The present conditions of native peoples in the hemisphere will be illustrated. Traditional cultural systems, social organization, religious beliefs, art, and economy will be discussed for selected cultural groups. Contemporary issues of land rights, tribal independence, natural resource rights, and social problems will be examined. (CSU/UC) AA/AS Areas B & G, CSU Area D-1, IGETC Area 4

ANTH 205  Field Anthropology  
(1.5 Units) (No prerequisite. One-half lecture and three laboratory hours weekly, or variable schedule dependent on specific field trip focus.)

Lectures about and field trips to specific locations within the Bay Area, California, out of state, and foreign countries, the cultural and geographical focus to be determined by each instructor. In the past, museums, archeological sites, and cultural settings and events have been the focus of the course. The Bay Area has numerous subcultures with events scheduled year round, along with museums and settings that lend themselves to field trips and observations. Subculture folk festivals, folk arts, and ethnomusicology are examples of places that would be suitable for a course of this nature. Archeological sites and prehistoric art along with Native American subcultures have been visited in prior years. (CSU)

ANTH 206  Archaeological Field and Laboratory Methods  
(3.0 Units) (No prerequisite. Two lecture and three laboratory hours weekly.)

This course is designed to acquaint the student with archaeological field techniques, as well as the laboratory skills necessary for interpreting and preserving the excavated material. Students will perform experiments and exercises using the scientific method. When available, excavation will involve threatened (salvage) sites. Possible topics to be covered will include site survey, flintknapping, and lithic, faunal, shell, and ceramic analysis. May be taken four times for credit. (CSU)

ANTH 208  Magic, Folklore, and Healing  
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This course is a general survey of what anthropologists have learned about belief systems and folklore from a cross cultural perspective. It will ask: What do we know about the origins of belief systems? Why do people in most societies believe in unseen spirits and powers? How do people use supernatural or special powers to gain control over their own lives or the lives of others? What is the subdiscipline of folklore and how does it relate to the subject matter and to anthropology as a whole? The course will use examples drawn from a wide variety of cultural areas. (CSU/UC) CSU Area D-1, IGETC Area 4
ANTH 215  Native Americans of California
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
The study of California Native Americans will include the
prehistoric period (as seen through archaeology), contact with
explorers, the mission period, post mission, and contemporary
issues. Major linguistic groups will be discussed in terms of en-
vironmental setting, subsistence, technology, political organiza-
tion, social structure, religion, ceremonial life, art, and mythol-
gy. May be taken twice for credit. (CSU/UC) AA/AS Areas B & G,
CSU Area D-1, IGETC Area 4

ANTH 249  Directed Study
(1-3 units) (Please see Directed Study category.) (CSU/UC w/limit)

ARCHITECTURE
Mankind has been designing and building permanent structures
for about twelve thousand years, and these structures have come
to dominate the environment that most people inhabit. The ar-
chitect faces an exciting challenge: to understand the sometimes
competing needs of individuals and groups, the need to protect
our natural environment, the technical requirements of build-
ings and structures, the role of economics, and the importance of
designing projects that not only meet these quantifiable needs
but that also inspire and delight us.

In the twenty-first century, the value of green/sustainable
design is becoming more and more obvious and is an important
part of our curriculum. We also offer rich classes in architectural
design, drafting and presentation, architecture as a profession,
computer aided design, and history of architecture.

Courses in the Architecture Department are designed to serve
students who aspire to transfer to other schools of architecture
by giving them a sound basis in critical thinking and fundamental
knowledge of the discipline, to offer a two year degree option for
those who wish to achieve a solid base of knowledge and skills
for work in architecture or related fields, and to present learning
opportunities to those whose interest in architecture is directed
toward more personal rather than career goals.

Career Options
Architect, Architectural Designer, Architectural Illustrator,
Architectural Model Maker, Architectural Product Developer,
Architectural Specification Writer, Construction Manager, Direc-
tor/Administrator of Architectural Firm, Interior Architect, Lands-
cape Designer, Professor of Architecture, Researcher, Structural
Engineer, Theater Set Designer, Urban Planner.

Department Phone: (415) 485-9480

Transfer
Students planning to transfer to a four-year institution should
complete the lower division major requirements and general
education pattern for the appropriate transfer institution and
major. Exact major requirements for UC and CSU institutions can
be found on www.assist.org. Please see a counselor for more in-
formation as curriculum requirements may vary among transfer
universities.

A.S. in Architecture
The associate degree program in Architecture is designed to pre-
pare students for work in architecture, architectural drafting and
illustration, construction, and other fields where knowledge of
architectural history, design, and communication is useful. Some
courses are available online with no on-campus attendance re-
quired.

Architecture Courses (ARCH)

ARCH 039  Selected Topics (Nondegree Applicable)
(½-6 units) (Please see Selected Topics category.)

ARCH 100  History of Architecture I
(3.0 Units) (No prerequisite. Three lecture hours weekly)
This class traces the development of architecture and cities
throughout the world from the earliest permanent settlements
at the end of the Ice Age to the 1100’s C.E. Emphasis is on the
evolution of architectural ideas and the connection between ar-
chitecture and culture. Can also be offered in a distance learning
format. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A
**ARCH 101  History of Architecture II**  
*(3.0 Units) (No prerequisite. Three lecture hours weekly)*  
This class traces the development of architecture and cities throughout the world from the 1100’s C.E. to the end of the nineteenth century. Emphasis is on the evolution of architectural ideas and the connection between architecture and culture. Can also be offered in a distance learning format. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A

**ARCH 102  History of Architecture III**  
*(3.0 Units) (No prerequisite. Three lecture hours weekly)*  
This class traces the development of architecture and cities throughout the world during the twentieth century. Emphasis is on the evolution of architectural ideas and the connection between architecture and culture. Can also be offered in a distance learning format. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A

**ARCH 107  Cutting-Edge Architecture Field Trips**  
*(3.0 Units) (No prerequisite. Seven field days, 48 hours lecture. Based on initial trip of one week per 48 hour lecture. Subsequent trips will vary.)*  
This course is for anyone interested in cutting-edge design, and particularly for architecture, interior, landscape and set design students working in this 21st century. We will visit inspiring examples of the latest in architectural design in various cities such as Los Angeles, Dallas and Berlin. We will also visit the seminal masterpieces that lead up to these works. By actually visiting these sites, students will gain crucial understandings of: 1. how architects approach a site, 2. how they satisfy programmatic requirements in inventive ways, 3. what forms they use and why, 4. how it feels to be in and moving through the created spaces, 5. what are the conceptual underpinnings of projects, and 6. how the totality of design works in such architect designed elements as furniture and landscape design. These intensive field trips will include lectures, visits to architectural sites, drawing, discussion, and personal exploration. (CSU)

**ARCH 110  Beginning Architectural Design**  
*(4.0 Units) (No prerequisite. Three lecture and three laboratory hours weekly.)*  
This design course explores fundamental principles and issues of architectural design through the use of abstract design projects. Students interested in architecture, interior design, landscape design, engineering, building construction, gallery or theatre design, sculpture and other fine arts create their own design solutions, moving from beginning sketches, through development, to final models. Students learn to develop architectural vocabulary and thinking in a group studio environment, and address formal, symbolic and contextual concepts of architecture. (CSU/UC)

**ARCH 111  Intermediate Architectural Design**  
*(4.0 Units) (Prerequisites: Architecture 110 and 120. Three lecture and three laboratory hours weekly.)*  
This design course explores local urban and rural architectural design projects through the use of lectures, design projects, site visits, individual and group critiques, model building and drawings. Human needs, social factors, public/private issues, context, historic precedent, and aesthetic perception will be emphasized. Students will learn about design methodology, site and program analysis and presentation techniques. Students further address formal, symbolic and contextual issues of architecture. (CSU)

**ARCH 120  Beginning Architectural Drafting**  
*(4.0 Units) (No prerequisite. Three lecture and three laboratory hours weekly.)*  
This course will introduce students interested in interior design, architecture, engineering, building construction, landscape architecture, and other design related fields to the fundamentals of architectural and freehand drawing. Students will learn hard line drafting skills and architectural conventions. They will learn the appropriate applications for the following architectural drawings: plan, section, elevation, paraline, and perspective. Emphasis will be placed on the importance of drawings in the communication between designers, clients and builders, and on the relationship between three dimensional form and its two dimensional representation on paper. (CSU)

**ARCH 121  Intermediate Architectural Drafting**  
*(4.0 Units) (Prerequisite: Architecture 120. Advisories: Architecture 110 and 130. May be taken concurrently. Three lecture and three laboratory hours weekly.)*  
A practical intermediate course in architectural drafting. Course involves applying basic drafting and lettering techniques, architectural projections, detail and working drawings, and the basic understanding of wood frame construction to the solution of a variety of practical architectural and construction problems. Portfolio of blueprints required at the end of the semester. (CSU)

**ARCH 127  Architectural Rendering: Techniques of Presentation**  
*(4.0 Units) (No prerequisite. Three lecture and three laboratory hours weekly.)*  
Students in this course learn how to make beautiful and convincing drawings and models of their designs for presentation to clients, design review boards, peers, publications and competitions, among other uses such as their own study needs. Students interested in architecture, interior design, landscape design, engineering, building construction, gallery and theater design and other fine arts will all enjoy and benefit from this course. Working from their own designs or from those of others, students will learn rendering techniques including the use of graphite, ink, watercolor, prismacolor and computer techniques. They will study how to make presentations specifically designed for the projects they are presenting, including where to take perspective views to best show off their projects, appropriate use of graphics, color, layout and scale, and what type of model to present if relevant. Students will learn how to work both individually and in teams, simulating the office environment. (CSU)
ARCH 130  Introduction to Architecture and Environmental Design
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
This course provides a foundation for future architecture, interior design, landscape architecture, and city planning courses. It explores the basic elements of architecture and the built environment including form, organizational principles, context, materials, and the sensory qualities of design. The design process and professional practice are also addressed. Emphasis is placed on the process of developing one’s personal approach to design, the ways in which people experience architecture, and the relationship of architecture to society. (CSU/UC)

ARCH 131  New Architecture on Campus
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
Students in this class will learn the architectural history of the College of Marin campus and of the current Capital Improvement Program. They will also learn the architectural modernization processes involved in carrying out the CIP and will follow the ongoing progress of design and construction. Emphasis will be placed on the sometimes conflicting needs of various stakeholder groups and the impact of these needs on the physical design of the campus. In addition, students will research the impact of the plethora of governmental requirements on the design and construction of new buildings on the College of Marin campus. (CSU/UC)

ARCH 139  Selected Topics
(½-6 units)(Please see Selected Topics category.)(CSU w/limit)

ARCH 140  2-D Computer Graphics for Architecture
(4.0 Units) (No prerequisite. Advisory: Architecture 120. Three lecture and three laboratory hours weekly.)
Students will learn the basic skills needed to produce 2-D presentation and construction drawings for architecture and similar disciplines using the computer. Emphasis will be placed on using software tools to create drawings that effectively communicate the intention of the designer to clients and builders; on organizing information within the drawing environment to simplify the production and revision of drawings; and on building the skills necessary to produce drawings efficiently. The class will be taught using Vectorworks software. (CSU)

ARCH 141  3-D Computer Graphics for Architecture
(4.0 Units) (Prerequisite: Architecture 120. Three lecture and three laboratory hours weekly.)
Students will learn the skills needed to produce three-dimensional design and presentation drawings for architecture and similar disciplines using the computer. Emphasis will be placed on using software tools to create drawings that effectively communicate the intention of the designer to clients and others; on organizing information within the drawing environment to simplify the production and revision of drawings; and on building the skills necessary to produce drawings efficiently. The class will be taught using Vectorworks and other 3-D software; however, the basic concepts and skills apply generally to all 3-D software applications. (CSU)

ARCH 150A  Green/Sustainable Architecture
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
In this course, students will learn the fundamentals of green/sustainable architecture. Through lectures and discussion, the class will consider a wide range of sustainability issues including the history of environmental degradation and the rise of sustainability as a discipline. We will study energy conservation and generation, reuse and recycling, renewable materials, and a range of planning and transportation considerations in terms of their impact on the environment. (CSU)

ARCH 150B  Green/Sustainable Architecture
(1.0 Unit) (Prerequisite: Architecture 150A or concurrent enrollment. Three laboratory hours weekly.)
Intended as a companion course to Architecture 150A, students in Architecture 150B will learn architectural design with an emphasis on environmentally friendly and sustainable principles. The class will emphasize the need to gather, analyze, and prioritize the multiplicity of needs that a successful design must meet. Students will learn techniques for creating original and thoughtful solutions to the design problem they have defined, to refine and complete these designs and to present their work in both written and graphic form. Teaching will include individual and group presentations. (CSU)

ARCH 220  Advanced Architectural Drafting
(4.0 Units) (Prerequisites: Architecture 120 and 121. Advisories: Architecture 110 and 130. May be taken concurrently. Three lecture and three laboratory hours weekly.)
A practical advanced course in architectural drafting. Course involves the design of wood frame structures and development of working drawings. Portfolio of working drawings required at the end of the semester. May be taken four times for credit. (CSU)

ARCH 249  Directed Study
(1-3 units)(Please see Directed Study category.) (CSU w/limit)
ART

The study of art will enrich the student’s experience of the world, and encourage the student to draw upon creative resources. An education in art can lead to professional or vocational careers, as well as enhance abilities in other fields. The Art Department offers a foundation in theoretical and practical skills, and the opportunity to work in a wide variety of specific art media.

Career Options

Faculty
William Abright, Chester Arnold, Richard C. Hall, Emily Lazarre, Deborah H. Loft, Polly Steinmetz, Katherine Wagner

Department Phone: (415) 485-9480

Transfer
Students planning to transfer to a four-year institution should complete the lower division major requirements and general education pattern for the appropriate transfer institution and major. Exact major requirements for UC and CSU institutions can be found on www.assist.org. Please see a counselor for more information as curriculum requirements may vary among transfer universities.

A.A. in Art
The Art Program provides transfer, professional preparation, personal development, general interest, and general education, as well as an Associate in Arts degree. Courses are offered at both campuses. Students may take courses at either campus to fulfill requirements for the major.

Please note: Students are required to complete English 150 for the Associate degree. All students should consult a counselor.

A.S. in Design, Applied, Occupational
Courses in this program are offered at both campuses. Students may take courses at either campus to fulfill requirements for the major. The program offers a problem solving approach to design. The students elect the emphasis area (either two-dimensional or three-dimensional) that is most compatible with their occupational goals.

Please note: Students may choose English 120, 120SL or 150 to complete the Associate degree. Transfer students, however, are advised to complete English 150. All students should consult a counselor.

**A.S. in Design, Applied — Interior, Occupational**

Some courses in this program are offered at both campuses. Students may take courses at either campus to fulfill requirements for the major. Someone wisely said that it requires the knowledge of the historian, the connoisseur, the merchant, the engineer, the psychologist, and the artist to be a good designer. The following program reflects that teaching philosophy and gives the most advantageous sequence for required and recommended classes.

Please note: Students may choose English 120, 120SL, or 150 to complete the Associate degree. Transfer students, however, are advised to complete English 150. All students should consult a counselor.

**In addition:**

One art studio course other than those required for the major | 4 |

**Art Courses (ART)**

Note: There may be field trips, as part of the class curriculum, in any of the art classes that are listed in this catalog.

**ART 039  Selected Topics (Nondegree Applicable)**

(½–6 units) (Please see Selected Topics category.)

**ART 101  History of Ancient Art**

(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This class is a survey of ancient art and visual culture, including: Prehistoric, Near Eastern, Egyptian, Aegean, Greek, Etruscan, Roman, Early Christian, and Byzantine. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A, CAN ART SEQ A = Art 101+102+103

**ART 102  History of European Art**

(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This class surveys the visual creations of a variety of European cultures from 1100 to the mid-nineteenth century. Emphasis will be placed on enhancing the student's ability to observe and describe visual works, and to understand them in their social and historical context. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A, CAN ART SEQ A = Art 101+102+103

**ART 103  History of Modern Art**

(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This class is a survey of art and visual culture from the mid-nineteenth century to the present. (For focus on recent art, see ART 105.) Emphasis will be placed on enhancing the student's ability to observe and describe visual works, and to understand them in their social and historical context. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A, CAN ART SEQ A = Art 101+102+103

**ART 104  History of Asian Art**

(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This course is a comparative study of art and visual culture in the Far East, including India, China, Japan, Korea, and Southeast Asia. Visual expression will be considered in relation to its social and religious contexts. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A

**ART 105  Contemporary Art**

(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This course covers art since 1945, focusing on art of the last 30 years. Emphasis is on new concepts and techniques by a diverse selection of artists. The visual and social issues raised by contemporary art will be considered. There will be several field trips to art galleries or other points of interest. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A
ART 106  History of Women Artists  
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This class introduces visual work by women of diverse ethnic and class backgrounds. A variety of media will be covered, from past art history as well as from contemporary art. Students will become aware of the social circumstances in which the work was produced. The course will include field trips. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A

ART 107  History of American Art  
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This class surveys American art and visual culture, including work by a diverse selection of artists. Material in several media will be presented through slides, discussion, and field trips. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A

ART 108  Arts of the Americas  
(3.0 Units) (No prerequisite. Can be taken for credit as Art 108, Ethnic Studies 108, or Humanities 108. However, credit will be awarded for only one course. Three lecture hours weekly.)

A survey of the arts and architecture of the Americas-- North, Central, Caribbean, and South-- focusing on a selection of works from the major Pre Columbian, Spanish Colonial, and modern cultures. Art of the United States will focus on works from the culturally diverse peoples of the Bay Area. (CSU/UC) AA/AS Area C & G, CSU Area C-1, IGETC Area 3A

ART 109  Gallery Seminar in Art  
(2.0 Units) (No prerequisite. One lecture and three laboratory hours weekly.)

Seminar in art history based on art available in museums, galleries, and collections. This course may be conducted at any site where original art objects are available for study and discussion. It includes assigned reading, lectures, and discussion trips to study art. Seminar discussion and presentations follow field trips. Content and areas of concentration may vary depending on locations and availability of art. (CSU)

ART 112  2-D Art Fundamentals  
(4.0 Units) (No prerequisite. Three lecture and three laboratory hours weekly.)

An introductory level studio course that encourages students to express themselves by using and understanding the elements of 2-D art: line, shape, texture, value, color, perspective, and space. Principles of composition such as balance, repetition, variation, and proportion will be explored using a wide variety of media that may include: ink, pencil, charcoal, painting, collage, printmaking, papier-mache, and found material mixed media. This course is required for art majors and highly recommended for all art students. (CSU/UC) CSU Area C-1, CAN ART 14

ART 113  3-D Art Fundamentals  
(4.0 Units) (No prerequisite. Three lecture and three laboratory hours weekly.)

An introductory level studio course that encourages students to express themselves by using and understanding the elements of 3-D art: line, plane, volume, mass, surface treatment, light and shadow. Principles of composition such as balance, repetition, variation, and proportion will be explored using a wide variety of materials that may include wire, cardboard, plaster, clay, papier-mache, and mixed media. This course is required for art majors and highly recommended for all art students. (CSU) CSU Area C-1, CAN ART 16

ART 114  Interior Design I  
(4.0 Units) (No prerequisite. Three lecture and three laboratory hours weekly.)

An introductory course in the theory and practice of interior design to acquaint the student with contemporary design, architecture, and furniture; color theory and application; basic residential construction methods and materials; surface treatment (walls, floors, windows, etc.); the use of drafting tools and methods; and learning to draw simple plans. Classes may include field trips and guest lecturers that relate to various aspects of interior design. May be taken three times for credit. (CSU) CSU Area C-1

ART 115  Interior Design II  
(4.0 Units) (No prerequisite. Three lecture and three laboratory hours weekly.)

Covers period design and decorations from the styles of antiquity through the Victorian era. Extensive reading is required to cover the historic evolution of interior design in the Western world. A number of tests, as well as oral, visual, and written projects, are given. This course may also include field trips that relate to history and interior design. May be taken three times for credit. (CSU)

ART 116  Jewelry Design I  
(4.0 Units) (No prerequisite. Three lecture and three laboratory hours weekly.)

Design and creation of jewelry utilizing basic construction and casting techniques. Emphasis is on basic skill development. May be taken four times for credit. (CSU) CSU Area C-1

ART 117  Jewelry Design II  
(4.0 Units) (Prerequisite: Art 116. Three lecture and three laboratory hours weekly.)

Advanced design and creation of jewelry. Emphasis is on perfecting skills. Projects include techniques that may include hinges and connections, advanced casting, die forming, and RT stamping. May be taken four times for credit. (CSU)

ART 118  Art Gallery Design and Management I  
(4.0 Units) (No prerequisite. Three lecture and three laboratory hours weekly.)

Introduction to art gallery management to include selection of art works, publicity for art gallery, design of gallery furniture and exhibits, and installation of exhibits. Field trips to other educational and commercial galleries and museums. Preparation of individual portfolios. (CSU) CSU Area C-1
ART 119  Art Gallery Design and Management II  
(4.0 Units) (Prerequisite: Art 118. Three lecture and three laboratory hours weekly.)  
An environmental design class covering materials, techniques, aims, elements and principles of environmental display, spatial and visual interrelationships of displayed materials, and gallery construction. This course will cover both theory and practice at the Kentfield Campus Fine Arts Gallery. (CSU)  

ART 128  Art Field Trips  
(1-4 Units) (No prerequisite. Can be taken for credit as Art 128 or Ethnic Studies 128 or Humanities 128. Credit will be awarded for only one course. Three-quarter lecture and three-quarter laboratory hours weekly for one unit, one and one-half lecture and one and one-half laboratory hours weekly for two units, two and one-quarter lecture and two and one-quarter laboratory hours weekly for three units, and three lecture and three laboratory hours weekly for four units.)  
A complement to art history and studio art courses, this course allows students to experience the art and architecture of sites like New York, Mexico City, and Rome first-hand. Pre-trip lectures will set up background for an intensive field trip(s) that may include visits to museums, galleries, libraries, artists' studios, and to architectural and archeological sites where lecture, discussion, and personal exploration will take place. May be used to bring students to a major media-specific conference. May be taken four times for credit. (CSU)  

ART 129  Materials and Techniques  
(4.0 Units) (Prerequisite: Art 140. Three lecture and three laboratory hours weekly.)  
This course is designed to enrich the painter's means of expression by expanding the potential use of both materials and techniques. Assignments will include work with collage, acrylic, oil, mixed media, encaustic, pastels, oil stick, enamels, impasto, glazes, etc. (CSU/UC)  

ART 130  Drawing and Composition I  
(4.0 Units) (No prerequisite. Three lecture and three laboratory hours weekly.)  
Exercises in line, light and shade, texture, and perspective rendering of objects in space; development of good composition by means of balance, repetition and variation, focal point, economy, etc. A variety of graphic materials (pencil, charcoal, pen and ink, washes, color, etc.) will be used for both realistic and experimental drawings. Lectures, demonstrations, critiques, and supervision of works in progress. A sketchbook and/or portfolio of work done in and out of class may be required. Required of all art majors. (CSU/UC) CSU Area C-1, CAN ART 8  

ART 131  Drawing and Composition II  
(4.0 Units) (Prerequisite: Art 130. Three lecture and three laboratory hours weekly.)  
Prerequisite of Art 130 assumes the student is competent in the use of line, value, texture, composition, and perspective to deal with:  

1. complexity of subject matter;  
2. diversity of materials;  
3. experimental media like collage and painting;  
4. color (pastels, pencil, watercolor, etc.); and  
5. independent projects agreed upon contractually between student and instructor. (CSU/UC)  

ART 134  Life Drawing I  
(4.0 Units) (Prerequisite: Art 130. Three lecture and three laboratory hours weekly.)  
This course is designed to provide the student with a basic understanding of proportion, structure, and superficial anatomy of the human figure, combined with further study of appropriate media and drawing techniques. Required of art majors. May be taken four times for credit. (CSU/UC) CSU Area C-1, CAN ART 24 = Art 134  

ART 135  Life Drawing II  
(4.0 Units) (Prerequisite: Art 134. Three lecture and three laboratory hours weekly.)  
This course is designed to provide the student with a basic understanding of proportion, structure, and superficial anatomy of the human figure, combined with further study of appropriate media and drawing techniques. Required of art majors. May be taken four times for credit. (CSU/UC)  

ART 138  Advanced Critique  
(1.0 Unit) (No prerequisite. One lecture hour weekly.)  
A monthly critique/seminar designed for intermediate to advanced students of painting, drawing, sculpture, ceramics, textiles, photography, jewelry, and mixed media to have their work reviewed and participate in the review from a variety of perspectives. NOTE: “Advanced” means that the student has taken a number of courses in art or is a working artist who wants feedback on his/her work. May be taken four times for credit. (CSU)  

ART 139  Selected Topics  
(1/2-6 units) (Please see Selected Topics category.) (CSU/UC w/limit)  

ART 140  Painting I  
(4.0 Units) (Prerequisite: Art 112 or 130. Three lecture and three laboratory hours weekly.)  
It is especially important that students new to painting learn the process of making paintings--to go through the steps one by one, methodically covering the basics of selecting significant shapes, balancing composition, mixing paints, perfecting techniques, and developing skills. Four paintings are required of all beginning students. Attendance for both instructional (lecture, discussion, demonstration, “critique” sessions) and studio work is essential. Oil, acrylic, and mixed media. (CSU/UC) CSU Area C-1, CAN ART 10
ART 141  Painting II
(4.0 Units) (Prerequisite: Art 140. Three lecture and three laboratory hours weekly.)

The more advanced the student, the more a strong individual approach is encouraged. Because of the varied abilities and experience found at this level, the semester assignments will be self-imposed but reviewed by the instructor on the basis of scope, technical improvement, and development of concept. Attendance is essential for instructional, studio, and “critique” sessions. Oil, acrylic, and mixed media. (CSU/UC)

ART 144  Watercolor I
(4.0 Units) (No prerequisite. Three lecture and three laboratory hours weekly.)

A course designed to acquaint the beginner with the materials, techniques, and experience of painting with watercolor. Frequent “critique” sessions, lectures, and demonstrations will examine paper selection and reaction to the medium, the tendency of watercolor to flow, and its qualities of transparency and evaporation. The aim is to thoroughly familiarize the student with the distinctive qualities of watercolor. (CSU/UC) CSU Area C-1

ART 145  Watercolor II
(4.0 Units) (Prerequisite: Art 144. Three lecture and three laboratory hours weekly.)

To some extent Watercolor II is a continuation of Watercolor I but with emphasis on personal development and expression. Students are encouraged to develop a visual vocabulary and way of using the watercolor medium to express their own ideas and way of seeing things. (CSU/UC)

ART 146  Life Painting I
(4.0 Units) (Prerequisite: Art 140 and either Art 112 or Art 130. Three lecture and three laboratory hours weekly.)

This class offers instruction in painting the human figure. Individualized instruction will allow for emphasis to be placed on either portraiture or painting the entire figure. Concepts of color, design, and style will be included. (CSU/UC) CSU Area C-1

ART 147  Life Painting II
(4.0 Units) (Prerequisite: Art 146. Three lecture and three laboratory hours weekly.)

This class offers instruction in painting the human figure. Individualized instruction will allow for emphasis to be placed on either portraiture or painting the entire figure. Concepts of color, design, and style will be included. (CSU/UC)

ART 148  Color Theory
(4.0 Units) (No prerequisite. Three lecture and three laboratory hours weekly.)

General theory of color covering the objective and subjective aspects. Includes color notations, terminology, visual phenomena, effects of light, symbolism, and psychology of color. (CSU/UC) CSU Area C-1

ART 152  Printmaking I
(4.0 Units) (Prerequisite: Art 130. Three lecture and three laboratory hours weekly.)

An introductory course in the basic concepts and techniques of printmaking. Instruction and studio work include intaglio (etching, drypoint, and engraving), relief (woodcut and linocut) collagraph and monotype methods. Emphasis is on the fine arts approach to printmaking although the relationship of these processes to the graphic arts will be explored. Formal and individual critiques on work. May be taken four times for credit. (CSU/UC) CSU Area C-1, CAN ART 20 = Art 152

ART 153  Printmaking II
(4.0 Units) (Prerequisite: Art 152. Three lecture and three laboratory hours weekly.)

An introductory course in the basic concepts and techniques of printmaking. Instruction and studio work include intaglio (etching, drypoint, and engraving), relief (woodcut and linocut) collagraph and monotype methods. Emphasis is on the fine arts approach to printmaking although the relationship of these processes to the graphic arts will be explored. Formal and individual critiques on work. May be taken four times for credit. (CSU/UC)

ART 154  Surface Design on Fabric
(4.0 Units) (No prerequisite. Three lecture and three laboratory hours weekly.)

This course explores the vast possibilities for dyeing and printing cloth to achieve richly patterned surfaces for apparel, interiors, theater, performance or artistic/conceptual intentions. A variety of fabric manipulations and coloring methods are investigated to develop design composition, repeat patterning, and personally expressive imagery for two- and three-dimensional fabric applications. Techniques include immersion-dyeing, shibori, color removal, painting, paste resist, block printing, burn-out, ink-jet and screen printing. Historical and contemporary examples are examined for technical information, inspiration and personal interpretation. Studio work will be enhanced through slide presentations, field trips, guest artists, individual consultations and group critiques. May be taken four times for credit. (CSU)

ART 165  Fiber Sculpture I
(4.0 Units) (No prerequisite. Three lecture and three laboratory hours weekly.)

Construction processes involved with interworking of flexible elements by such techniques as layering, bonding, plaiting, stitching, and weaving, in a scale that may range from personal object to installation. May be taken four times for credit. (CSU) CSU Area C-1
ART 166  Fiber Sculpture II  
(4.0 Units) (No prerequisite. Advisory: Art 165. Three lecture and three laboratory hours weekly.)

Open to students from all art disciplines including textiles, who seek to integrate construction with sculpture, painting, and crafts, etc. An exploration of flexible, fragile, or fibrous materials such as cloth, paper, plastic, reed, wire, and threads. May be taken four times for credit. (CSU/UC)

ART 170  Ceramics I  
(4.0 Units) (No prerequisite. Three lecture and three laboratory hours weekly.)

A basic general ceramics course for those who want to survey various techniques of wheel throwing and hand building methods, and to become familiar with ceramic glaze materials and kiln firing. It is expected that students will develop an awareness of ceramic design and explore individual solutions to specific technical and conceptual assignments. (CSU/UC) CSU Area C-1, CAN ART 6

ART 171  Ceramics II  
(4.0 Units) (Prerequisite: Art 170. Advisory: Art 112 or concurrent enrollment. Three lecture and three laboratory hours weekly.)

A second semester beginning ceramics course for those who wish to continue developing the basic techniques of wheel throwing and slab building methods with an emphasis on increasingly advanced projects. Direct participation in glaze preparation and kiln firing. It is expected that students will produce work reflecting an intermediate understanding of ceramic design and explore individual project resolutions through drawings and group discussion. Art 171 is a continuation of Art 170. (CSU/UC)

ART 175  Primitive Ceramics  
(4.0 Units) (No prerequisite. Three lecture and three laboratory hours weekly.)

A working, historical overview of forming and firing methods that have been the basis of the African, Asian, American Indian, and Pre-Columbian cultures. Locating clay deposits, preparation of clay and colors, forming and burnishing techniques, pit firing, and Raku. May be taken four times for credit. (CSU/UC)

ART 176  Pottery on the Wheel  
(4.0 Units) (No prerequisite. Advisories: Art 112 or 113; and 130. Three lecture and three laboratory hours weekly.)

This course will concentrate on the use of the potter's wheel in the creation of functional and sculptural ceramic objects. Techniques of wheel throwing and trimming cups, bowls, vases, pitchers, lidded forms, closed forms, tea-pots and plates will be demonstrated as well as handle making. Students will be required to use basic design and drawing skills in the development of their assignments. Emphasis will be on refinement of technique rather than quantity. Covers stoneware glaze development, kiln loading, stoneware and soda firing. Development of post wheel-thrown projects will be demonstrated and encouraged. May be taken four times for credit. (CSU/UC)

ART 177  Hand Built Ceramics  
(4.0 Units) (No prerequisite. Advisories: Art 112 or 113; and 130. Three lecture and three laboratory hours weekly.)

This course will concentrate on the use of handbuilding in the creation of functional ceramic ware and sculptural objects. Techniques of handbuilding cups, bowls, vases, pitchers, lidded forms, teapots and plates will be demonstrated as well as handle making and methods of embellishment. Students will be required to use basic design and drawing skills in the development of their assignments. Emphasis will be on exploration and creative refinement of technique. Covers basic clay bodies, glaze development, kiln loading, stoneware and soda firing. May be taken four times for credit. (CSU/UC)

ART 180  Sculpture I  
(4.0 Units) (No prerequisite. Three lecture and three laboratory hours weekly.)

Study of form structure and its concept in relationship to self-expression. Survey of the history of sculpture as well as contemporary movements. Instruction in basic techniques of stone and woodcarving, modeling, moldmaking, welding, and bronze casting. (CSU/UC) CSU Area C-1, CAN ART 12

ART 181  Sculpture II  
(4.0 Units) (No prerequisite. Three lecture and three laboratory hours weekly.)

Further exploration into materials and techniques. Welding, moldmaking, bronze casting, steel fabrication, current and historical perspectives in sculpture, and visiting lecturers. Emphasis on producing art works and the experience of the artist. (CSU/UC)

ART 185  Life Sculpture I  
(4.0 Units) (No prerequisite. Three lecture and three laboratory hours weekly.)

In this class both a classical and contemporary approach to figure sculpture will be studied. Working from live models, students will learn to interpret the pose, study spatial relationship and proportion, experiment with scale and learn to compose as they examine human form. Materials may include clay, wax, and plaster. Historical and contemporary approaches to the figure will be studied in slide lectures and readings. (CSU/UC) CSU Area C-1

ART 186  Life Sculpture II  
(4.0 Units) (Prerequisite: Art 185. Three lecture and three laboratory hours weekly.)

This course is a continuation of Life Sculpture I. Continued exploration of development and technique with emphasis on individual investigation of content. Students have an opportunity to move toward abstraction to explore basic concepts of modern sculpture. (CSU/UC)
ART 187  Fundamentals of Color Photography
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This course is designed to meet the needs of art students, photography majors, and others who would like an introduction to black and white photography and who want to improve their photographic skills. The basics of camera use, film developing, and darkroom printing are presented with emphasis on balancing technical skills with artistic expression. Introduction to photographic terms will enable students to analyze photographs through discussion of their work. Major historical and contemporary photographers will be presented through slides. (CSU/UC) CSU Area C-1, CAN ART 18

ART 188  Experimental Processes and Photography
(4.0 Units) (Prerequisite: Art 187 or Art 190. Three lecture and three laboratory hours weekly.)

An exploration of photographic media exposing students to the concept of manipulation and interpretation of the original to reveal forms of expression that are unattainable through traditional photography. Introduction to the use of contemporary use of other media. Includes choice and application of surface color, printmaking processes, three-dimensional design, installation, and presentation choices. Emphasis on choosing the appropriate techniques to powerfully express individual content. A good choice for art majors and for those interested in the introduction to, and exploration of, the creative experimentation of photo-based processes. May be taken twice for credit. (CSU)

ART 189  Fundamentals of Lighting
(3.0 Units) (Prerequisite: Art 187 or Art 190. Three lecture hours weekly.)

This course is intended to develop proficiency in the controlled use of light, both “on-location” and in the studio. Ambient, tungsten and flash lighting, mixed lighting techniques as well as the characteristics of different qualities of light are explored. Various camera formats, using black and white film as well as color transparency film can be used. Diverse examples of lighting techniques used in both commercial and fine art will be shown. This is a good choice for art majors to increase their understanding of light, and to learn to photograph their own artwork. Also a good choice for students in fields that require documentation of the creative experimentation of photo-based processes. Requires portfolios. May be taken twice for credit. (Fall only.) (CSU) CSU Area C-1, CAN ART 18

ART 190  Black and White Photography I
(4.0 Units) (No prerequisite. Three lecture and three laboratory hours weekly.)

This course is designed to guide continuing photography students through experimentation of new materials and testing of exposure methods to refine their techniques. This course includes discussion and analysis of students’ work in group and individual critiques. It contains a study of photographer’s concepts, attitudes and philosophies. Fieldtrips and study of traditional and contemporary photography are included. May be taken twice for credit. (CSU/UC) CSU Area C-1, CAN ART 18

ART 191  Black and White Photography II
(4.0 Units) (Prerequisite: Art 190. Three lecture and three laboratory hours weekly.)

This course is designed to guide continuing photography students through experimentation of new materials and testing of exposure methods to refine their techniques. This course includes discussion and analysis of students’ work in group and individual critiques. It contains a study of photographer’s concepts, attitudes and philosophies. Fieldtrips and study of traditional and contemporary photography are included. May be taken twice for credit. (CSU/UC) CSU Area C-1, CAN ART 18

ART 192  Black and White Photography III
(4.0 Units) (Prerequisite: Art 191. Three lecture and three laboratory hours weekly.)

This course seeks to develop the student’s visual skills through the refinement of technique and the study of pertinent photographic work. The course will cover advanced black and white techniques. This course is for third semester (college) black and white photography students. (CSU/UC) CSU Area C-1, CAN ART 18

ART 193  Beginning Digital Imaging for the Photographer
(4.0 Units) (No prerequisite. Advisories: Basic computer skills and Art 112, 187, and 190. Three lecture and three laboratory hours weekly.)

The exploration of digital imaging techniques as applied to the art of photography. Emphasis is placed on the creative process while exploring electronic image making as an effective mode of communication used by photographers, artists, and designers today (Adobe Photoshop). May be taken twice for credit. (CSU) CSU Area C-1, CAN ART 18

ART 196  Portfolio Photography
(1.0 Unit) (Prerequisite: Art 290. Two and six-tenths lecture and two and six-tenths laboratory hours weekly for five weeks.)

This is a practical course that will teach art students how to photograph their work professionally (both two- and three-dimensional) in color slide form for portfolio or publishing needs. The student must have access to a camera. May be taken twice for credit. (CSU) CSU Area C-1, CAN ART 18

ART 214  Interior Design III
(4.0 Units) (Prerequisites: Architecture 120, Art 114 and 115. Advisories: Art 112 and 130. Three lecture and three laboratory hours weekly.)

Emphasis in this advanced class is placed on residential interior design. Students will work with clients toward creative design solutions, project development and communication, and presentation skills. Space planning, furnishings/equipment selection and arrangement, color and materials selection are covered as aspects of the residential interior design process. Portfolios and project notebooks will include floor plans, furnishings/equipment plans, elevations, paraline 45-45 oblique drawings, electrical plans, materials/finish schedules, furnishings/equipment specifications, budgets and concept/sample boards. Fall only. May be taken three times for credit. (CSU) CSU Area C-1, CAN ART 18
ART 215  Interior Design IV  
(4.0 Units) (Prerequisites: Architecture 120, Art 114 and 115. Advisories: Art 112 and 130. Three lecture and three laboratory hours weekly.)  
Emphasis in this advanced class is placed on commercial interior design. Students will work with clients toward creative design solutions, project development and communication, and presentation skills. Space planning, furnishings/equipment selection and arrangement, color and materials selection are covered as aspects of the commercial interior design process. Portfolios and project notebooks will include floor plans, furnishings/equipment plans, elevations, paraline, 45-46 oblique drawings, electrical plans, materials/finish schedules, furnishings/equipment specifications, budgets and concept/sample boards. Spring only. May be taken three times for credit. (CSU/UC)

ART 216  Jewelry Design III  
(4.0 Units) (Prerequisite: Art 215. Three lecture and three laboratory hours weekly.)  
Advanced design and creation of jewelry. Areas explored include techniques such as tool making, advanced hollow forming techniques, including functional, conceptual, and aesthetic aspects of designing. May be taken four times for credit. (CSU)

ART 217  Jewelry Design IV  
(4.0 Units) (Prerequisite: Art 216. Three lecture and three laboratory hours weekly.)  
Advanced design and creation of jewelry. Emphasis is on stone setting, rendering, and individual projects incorporating advanced construction skills and stone setting. May be taken four times for credit. (CSU)

ART 218  Art Gallery Design and Management III  
(4.0 Units) (Prerequisite: Art 119. Three lecture and three laboratory hours weekly.)  
Advanced course to allow students to apply practical application of techniques, materials, aims, and principles covered in the first two semesters. Students to plan and assume responsibilities for various phases of proposed exhibits to be installed in the Kentfield Campus Fine Arts Gallery. (CSU)

ART 219  Art Gallery Design and Management IV  
(4.0 Units) (Prerequisite: Art 218. Three lecture and three laboratory hours weekly.)  
Advanced course to allow students to apply practical application of techniques, materials, aims, and principles covered in the first three semesters. Students will take greater responsibility for all phases of one specific exhibit to be exhibited at the Kentfield Campus Fine Arts Gallery. May be taken four times for credit. (CSU)

ART 234  Life Drawing III  
(4.0 Units) (Prerequisite: Art 135. Three lecture and three laboratory hours weekly.)  
Lectures, demonstrations, and supervision of work in progress. Drawing from undraped models. Classwork stresses the expressive qualities of the figure, and drawing accurately and sensitively with a variety of media. A sketchbook of work done outside of class is required. May be taken four times for credit. (CSU/UC)

ART 235  Life Drawing IV  
(4.0 Units) (Prerequisite: Art 234. Three lecture and three laboratory hours weekly.)  
Lectures, demonstrations, and supervision of work in progress. Drawing from undraped models. Classwork stresses the expressive qualities of the figure, and drawing accurately and sensitively with a variety of media. A sketchbook of work done outside of class is required. May be taken four times for credit. (CSU/UC)

ART 240  Painting III  
(4.0 Units) (Prerequisite: Art 141. Three lecture and three laboratory hours weekly.)  
The more advanced the student, the more a strong individual approach is encouraged. Because of the varied abilities and experience found at this level, the semester assignments will be self-imposed but reviewed by the instructor on the basis of scope, technical improvement, and development of concepts. Attendance is essential for instructional, studio, and “critique” sessions. Oil, acrylic, and mixed media. May be taken four times for credit. (CSU/UC)

ART 241  Painting IV  
(4.0 Units) (Prerequisite: Art 240. Three lecture and three laboratory hours weekly.)  
The more advanced the student, the more a strong individual approach is encouraged. Because of the varied abilities and experience found at this level, the semester assignments will be self-imposed but reviewed by the instructor on the basis of scope, technical improvement, and development of concepts. Attendance is essential for instructional, studio, and “critique” sessions. Oil, acrylic, and mixed media. May be taken four times for credit. (CSU/UC)

ART 242  Advanced Painting  
(4.0 Units) (No prerequisite. Advisory: Art 241. Three lecture and three laboratory hours weekly.)  
This course is designed to broaden the base of opportunity for students to develop and expand their personal artistic direction. Technical and formal instruction will be combined with conceptual and philosophical discussions and critiques to assist and encourage students to better understand visual expression in the context of current culture. Students will be required to visit several galleries and museums in the San Francisco Bay Area and to read current fine arts periodicals and journals as well as local art criticism (e.g. San Francisco Chronicle, Examiner, etc.). In collaboration with the instructor, students will formulate their own direction and be responsible for defining their own studio projects. Evaluation of student work and progress will be ongoing through regular studio contact and through group and individual critique. May be taken four times for credit. (CSU/UC)
ART 243  Painting in the Era of Post Modernism - Concepts and Techniques
(4.0 Units) (Prerequisite: Art 241. Three lecture and three laboratory hours weekly.)

This advanced studio painting course will explore contemporary concepts, materials, and techniques associated with Post Modernism. Appropriation, pop culture and imagery, new collage/assemblage and creative re-use of images, objects, and previously established art styles will be explored in the context of painting. Students will be required to produce a body of work for final critique. May be taken four times for credit. (CSU/UC)

ART 244  Watercolor III
(4.0 Units) (Prerequisite: Art 145. Three lecture and three laboratory hours weekly.)

Lectures, demonstration, and works in progress based on extending students' abilities toward advanced experimentations in the watercolor media. Extension of palette and techniques on a larger scale and with a greater variety. (CSU/UC)

ART 245  Watercolor IV
(4.0 Units) (Prerequisite: Art 244. Three lecture and three laboratory hours weekly.)

Lectures, demonstration, and works in progress based on extending students' abilities toward advanced experimentations in the watercolor media. Extension of palette and techniques on a larger scale and with a greater variety. May be taken four times for credit. (CSU/UC)

ART 246  Life Painting III
(4.0 Units) (Prerequisite: Art 147. Three lecture and three laboratory hours weekly.)

This class offers advanced instruction in painting the human figure. Individualized instruction will allow for emphasis to be placed on either portraiture or painting the entire figure. Concepts of color, design, and style will be included for the advanced student. Experimentation in new techniques and materials will be encouraged. (CSU/UC)

ART 247  Life Painting IV
(4.0 Units) (Prerequisite: Art 246. Three lecture and three laboratory hours weekly.)

This class offers advanced instruction in painting the human figure. Individualized instruction will allow for emphasis to be placed on either portraiture or painting the entire figure. Concepts of color, design, and style will be included for the advanced student. Experimentation in new techniques and materials will be encouraged. May be taken four times for credit. (CSU/UC)

ART 249  Directed Study in Art
(1-3 units) (Limit to Enrollment: For advanced art students. Three, six, or nine laboratory hours weekly.)

This course is for advanced study only with instructor and department chair's approval prior to enrollment in class, plus the filing of the Application for Directed Study form. A project may extend through a second semester with prior approval of the instructor. This course may be taken more than once for credit. (CSU/UC w/limit)

ART 252  Printmaking III
(4.0 Units) (Prerequisite: Art 153. Three lecture and three laboratory hours weekly.)

An in-depth continuation of Art 152-153 including planographic (lithography), photo etching, thermafax screens, advanced monotype/monoprinting and other experimental processes. Emphasis on personal expression and professional presentation of work. May be taken four times for credit. (CSU)

ART 253  Printmaking IV
(4.0 Units) (Prerequisite: Art 252. Three lecture and three laboratory hours weekly.)

An in-depth continuation of Art 152-153 including planographic (lithography), photo etching, thermafax screens, advanced monotype/monoprinting and other experimental processes. Emphasis on personal expression and professional presentation of work. May be taken four times for credit. (CSU)

ART 254  Ceramics III
(4.0 Units) (No prerequisite. Advisory: Art 171. Three lecture and three laboratory hours weekly.)

This advanced studio painting course will explore contemporary concepts, materials, and techniques associated with Post Modernism. Appropriation, pop culture and imagery, new collage/assemblage and creative re-use of images, objects, and previously established art styles will be explored in the context of painting. Students will be required to produce a body of work for final critique. May be taken four times for credit. (CSU/UC)

ART 255  Printmaking III
(4.0 Units) (No prerequisite. Advisory: Art 166. Three lecture and three laboratory hours weekly.)

Experimental media in the textile construction field encourage ideas not bound by a vast history and lend themselves to fresh and spontaneous ways of working with surface and structure. Application of skills and personal direction to advanced level work. Emphasis on developing individual concepts and expression. May be taken four times for credit. (CSU)

ART 256  Fiber Sculpture IV
(4.0 Units) (Prerequisite: Art 252. Three lecture and three laboratory hours weekly.)

Emphasis will be placed on the design process and development of a personal strategy for problem solving. Problems pertaining to perception, use of the imagination, and expanding imagery will be given in areas of construction technique as well as dyeing and surface treatment. Students will be expected to have a body of finished work that demonstrates their explorations and conceptual approach at the end of this class. May be taken four times for credit. (CSU)

ART 257  Fiber Sculpture III
(4.0 Units) (Prerequisite: Art 152-153 including planographic (lithography), photo etching, thermafax screens, advanced monotype/monoprinting and other experimental processes. Emphasis on personal expression and professional presentation of work. May be taken four times for credit. (CSU)

ART 258  Ceramics IV
(4.0 Units) (Prerequisite: Art 252. Three lecture and three laboratory hours weekly.)

Advanced and in-depth interpretation of the common class project with greater expectations of further technical and conceptual development. Mentoring of beginning students, lab assistance in glaze preparation, kiln loading and firing. Advanced proficiency with various types of clay bodies and glaze formulation, including stoneware, porcelain, and low fire techniques. Concentration on individual projects which illustrate more comprehensive aesthetic understanding. (CSU)
ART 271  Ceramics IV  
(4.0 Units) (Prerequisite: Art 270. Three lecture and three laboratory hours weekly.)

Advanced and in-depth interpretation of the common class project with greater expectations of further technical and conceptual development. Mentoring of beginning students, lab assistance in glaze preparation, kiln loading and firing. Advanced proficiency with various types of clay bodies and glaze formulation, including stoneware, porcelain, and low fire techniques. Concentration on individual projects which illustrate more comprehensive aesthetic understanding. Art 271 is a continuation of Art 270. (CSU)

ART 275  Ceramic Sculpture  
(4.0 Units) (Prerequisite: Art 171. Three lecture and three laboratory hours weekly.)

Advanced study of ceramics with a focus on the technical and aesthetic considerations of ceramics as a sculptural medium. It is intended for students already well grounded in forming techniques who would benefit from a more critical assessment of their work. This course includes group discussions that focus on career opportunities, resume development, professional organizations, and showing work in galleries. Development of individual style and refinement of technique will be encouraged. May be taken four times for credit. (CSU/UC)

ART 276  Advanced Wheel Thrown Ceramics  
(4.0 Units) (Prerequisite: Art 171. Three lecture and three laboratory hours weekly.)

Advanced study of ceramics with a focus on the technical and aesthetic considerations of ceramics as a functional medium. Intended for students already well grounded in throwing and handbuilding forming techniques who would benefit from a more critical assessment of their work. May involve field trips to artists' studios, shows, and conferences. Group discussions focusing on career opportunities, resume development, professional organizations, and showings in galleries and art fairs. Development of individual style and refinement of technique will be encouraged. May be taken four times for credit. (CSU/UC)

ART 278F  Large Scale Ceramics: Emphasis on the Figure as Primary Subject  
(4.0 Units) (Prerequisite: Art 171 or two semesters of Art 177. Advisories: Art 112, 113, 130. Three lecture and three laboratory hours weekly.)

This course is intended for the intermediate and advanced ceramics student who is already well grounded in basic clay working skills and glazing methods. This is an opportunity to enlarge the scale of individual work as well as participate in the design, creation and installation of public art. Emphasis on appropriate handbuilding and mold-making techniques to familiarize the student with both freestanding and wall relief construction techniques with various clay types. Each project will require progressive technical ability and will be assigned according to the student's level of experience, areas of interest and skill level. Examples of historical and contemporary architectural and large scale ceramics will be explored through field trips, slide lectures and visits to regional sites. (CSU)

ART 278T  Large Scale Ceramics: Emphasis on the Use of Flat or Relief Tile and/or Murals  
(4.0 Units) (Prerequisite: Art 171 or two semesters of Art 177. Advisories: Art 112, 113, 130. Three lecture and three laboratory hours weekly.)

This course is intended for the intermediate and advanced ceramics student who is already well grounded in basic clay working skills and glazing methods. This is an opportunity to enlarge the scale of individual work as well as participate in the design, creation and installation of public art. Emphasis on appropriate handbuilding and mold-making techniques to familiarize the student with both freestanding and wall relief construction techniques with various clay types. Each project will require progressive technical ability and will be assigned according to the student's level of experience, areas of interest and skill level. Examples of historical and contemporary architectural and large scale ceramics will be explored through field trips, slide lectures and visits to regional sites. (CSU)

ART 280  Sculpture III  
(4.0 Units) (No prerequisite. Three lecture and three laboratory hours weekly.)

Advanced participation in three-dimensional materials and techniques. Casting bronze, iron and stainless steel; sheet metal fabrication; arc, heli-arc, and torch welding techniques; ceramic shell casting; and wood construction. Intended to encourage self-evaluation as it relates to continued expression as an artist. (CSU)

ART 281  Sculpture IV  
(4.0 Units) (No prerequisite. Three lecture and three laboratory hours weekly.)

Advanced participation in three-dimensional materials and techniques. Casting bronze, iron and stainless steel; sheet metal fabrication; arc, heli-arc, and torch welding techniques; ceramic shell casting; and wood construction. Intended to encourage self-evaluation as it relates to continued expression as an artist. May be taken twice for credit. (CSU)

ART 285  Life Sculpture III  
(4.0 Units) (Prerequisite: Art 186. Three lecture and three laboratory hours weekly.)

This is a continuation of Life Sculpture II. Continued exploration of development and technique with emphasis on individual investigation of content. Students have an opportunity to move toward abstraction to explore basic concepts of modern sculpture. (CSU/UC)
ART 286  Life Sculpture IV
(4.0 Units) (Prerequisite: Art 285. Three lecture and three laboratory hours weekly.)
This is a continuation of Life Sculpture III. Continued exploration of development and technique with emphasis on individual investigation of content. Students have an opportunity to move toward abstraction to explore basic concepts of modern sculpture. Art 286 may be taken twice for credit. (CSU/UC)

ART 290  Black and White Photography IV
(4.0 Units) (Prerequisite: Art 192. Three lecture and three laboratory hours weekly.)
Individual or group projects in the field of creative photography. Emphasis on photographic art and trends in contemporary photography. Trips to photographic exhibits encourage analytical discussion. Student art works may be displayed at public showings. May be taken three times for credit. (CSU/UC)

ART 292  Photographic History
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
A chronological, systematic presentation of the photographers and the evolution of photographic materials, processes, and techniques from the Camera Obscura through the earliest chemical investigations in the 1600s to the photographic events of the last quarter of the twentieth century. Critical thinking is encouraged through written assignments and group discussions. (CSU/UC)

ART 293  The Photographic Portfolio
(3.0 Units) (Prerequisites: Art 192 or 290. One lecture and six laboratory hours weekly.)
This course enables the student to focus on the completion of a photographic portfolio. Students will present their work to instructor and peers, and will refine concepts and presentation through these critiques. May be taken twice for credit. (CSU) CSU Area C-1

ASTRONOMY
Will the universe expand forever? Is there life on other planets? How do stars form? These are only a few of the exciting questions confronting astronomers. The development of space observatories, the construction of large telescopes on earth, and the availability of large computers for data analysis and theoretical calculations has been accompanied by a rapid growth in the sophistication of this field.

Career Options
Astronomer/Astrophysicist, Astronomy Instructor, Director of Planetarium/Science Museums, Observatory Staff Member, Technical Staff Member

Faculty
Rob Chavez
Department Phone: (415) 485-9549

Transfer
Students planning to transfer to a four-year institution should complete the lower division major requirements and general education pattern for the appropriate transfer institution and major. Exact major requirements for UC and CSU institutions can be found on www.assist.org. Please see a counselor for more information as curriculum requirements may vary among transfer universities.

Astronomy Courses (ASTR)

ASTR 039  Selected Topics (Nondegree Applicable)
(½-6 units) (Please see Selected Topics category.)

ASTR 101  Introduction to Astronomy
(3.0 Units) (No prerequisite. Two lecture and one discussion hour weekly.)
This course is a non-mathematical description of the universe designed especially for the nonscience student. Topics include the sky and its apparent motion, the law of gravity, the nature of light, the solar system, stars and stellar evolution, galaxies and cosmology, and life in the universe. Can also be offered in a distance learning format. (CSU/UC) AA/AS Area A, CSU Area B-1, IGETC 5A

ASTR 105  Cosmic Evolution
(3.0 Units) (No prerequisite. Can be taken for credit as Astronomy 105, Biology 105, or Geology 105. However, credit will be awarded for only one course. Three lecture hours weekly.)
This is an interdisciplinary course that explores the origins and evolution of the cosmos from the Big Bang and the formation of the universe and Earth, to the development of life. Students will explore basic concepts and principles that bind all scientific disciplines, and the nature of science and scientific inquiry. Through the study of astronomy, chemistry, geology, and biology, students will discover the interrelatedness of all matter, living and nonliving in the cosmos and how physical and chemical processes eventually led to the evolution of living organisms. (CSU/UC) AA/AS Area A, CSU Area B-1 or B-2, IGETC Area 5A

ASTR 117F  Introductory Astronomy Field Lab
(1.0 Unit) (Prerequisite: Astronomy 101 or 105 or Physics 110 or concurrent enrollment. The maximum credit allowed for Astronomy 117F and 117L is one course. A one-week field trip consisting of fifty-two and one-half laboratory hours.)
This course will develop the student's ability to investigate and solve problems in astronomy. Techniques of experimentation, direct observation, data gathering, and interpretation will be employed to solve both classical and contemporary problems in astronomy. The class will include observations using telescopes, astrophotography, and computer acquisition of data. This course will develop the student's awareness of the scientific method and how to apply it to specific problems and their solutions. (CSU/UC) AA/AS Area A, CSU Area B-1 or B-3, IGETC Area 5A
ASTR 117L  Introduction to Astronomy Lab  
(1.0 Unit) (Prerequisite: Astronomy 101 or 105 or Physics 110 or concurrent enrollment. Three laboratory hours weekly.)

This course will develop the student's ability to investigate and solve problems in astronomy. Techniques of experimentation, direct observation, data gathering, and interpretation will be employed to solve both classical and contemporary problems in astronomy. The class will include observations using telescopes, astrophotography, and computer acquisition of data. This course will develop the student's awareness of the scientific method and how to apply it to specific problems and their solutions. (CSU/UC AA/AS Area A, CSU Area B-1 or B-3, IGETC Area 5A)

ASTR 139  Selected Topics  
(½-6 units) (Please see Selected Topics category.) (CSU/UC w/limit)

ASTR 249  Directed Study  
(1-3 units) (Limit to Enrollment: One astronomy or physics course. Prior arrangement with instructor is necessary. Three laboratory hours per unit weekly.)

A course designed to give a student an opportunity to participate in a research program in astronomy. (CSU/UC w/limit)

AUTOMOTIVE COLLISION REPAIR TECHNOLOGY

The Automotive Collision Repair Technology Program is designed to prepare students for entry into one or more of the many service branches of the expanding automotive collision repair and maintenance fields. This program will also meet the needs of those in the adult community interested in acquiring the knowledge and skills necessary to repair and maintain the appearance and value of their personal vehicles.

Career Options
Auto Design Engineer, Insurance Estimator/Adjuster, Owner/Operator/Manager (Independent or Dealer), Specialist in Body Work, Specialist in Painting, Working Foreman

Faculty
Ron Palmer

Department Phone: (415) 883-2211, Ext. 8532

A.S. in Master Collision Repair, Occupational
(Certificate of Achievement also awarded. Skills Certificates available in Mechanical and Electrical Components, Nonstructural Damage Repair, Painting and Refinishing, and Structural Damage Repair.)

The Automotive Collision Repair Technology Program is offered at the Indian Valley Campus. Students who complete the requirements for Master Collision Repair and additional general education and graduation requirements will be awarded an Associate in Science degree. Students who complete only the required courses for the major will receive a Certificate of Achievement. A Skills Certificate is earned by completion of the required courses as listed for the specific Skills Certificate. In addition, students may be credited with up to two years toward their apprenticeship in Marin County’s automotive reconditioning and refinishing market.

Please note: Students may choose English 120, 120SL, or 150 to complete the Associate degree. Transfer students, however, are advised to complete English 150. All students should consult a counselor.

Requirements Units
ACRT 95* Applied Automotive Math 1
ACRT 167 Joining and Fastening Processes I 2
ACRT 168 Joining and Fastening Processes II 2
ACRT 169 Metalworking and Fundamentals I 4
ACRT 170 Metalworking and Fundamentals II 4
ACRT 171 Dent and Damage Repair 2
ACRT 176 Introduction to Plastics for Automotive Body Repair 2
ACRT 177 Maintenance and Detailing 2
ACRT 178 Introduction to Welding for Automotive Body Repair 2
ACRT 180 Panel Replacement 2
ACRT 225 Automotive Careers and Customer Relations 2
ACRT 249B Directed Study 2,2
Or
ACRT 160A Automotive Dent and Damage Repair Workshop 1
And
ACRT 160B Automotive Paint and Refinishing Workshop 1
And
ACRT 160C Automotive Structural Repair Workshop 1
And
ACRT 160D Automotive Mechanical and Electrical Repair Workshop 1
ACRT 273 Painting and Refinishing 4
ACRT 274 Painting and Refinishing–Enamels and Polyurethanes 4
ACRT 279 Frame Straightening and Repair 2
AUTO 111 Automotive Maintenance – Intermediate 3
Or
AUTO 118 Brakes, Alignments and Suspension 6
Or
AUTO 275 Automotive Brake Systems 2
And
AUTO 277 Alignment and Suspension 2
AUTO 113 Specialized Electronic Training 5
AUTO 235 Automotive Air Conditioning 2½

Skills Certificates
Skills Certificates are an acknowledgement that the student has attained a specified set of competencies within an occupational program. Skills Certificates may be part of a “ladder” of skills, beginning with job entry skills and leading to a full Certificate of Achievement program or may constitute a skill set that enables a
student to upgrade or advance in an existing career. Skills Certificates require less than 18 units and are shorter in duration than the Certificate of Achievement.

Mechanical and Electrical Components Skills Certificate
This Skills Certificate demonstrates competency of skills necessary to qualify for an intermediate-level job in automotive collision repair. Students should be prepared to take and pass the ASE Structural Damage Repair Test Certification.

Automotive Collision Repair Technology Courses (ACRT)

ACRT 039 Selected Topics (Nondegree Applicable)
(½-6 units)(Please see Selected Topics category.)

ACRT 095 Applied Automotive Math
(1.0 Unit) (No prerequisite. Three and two-tenths lecture hours weekly. Can be taken for credit as Automotive Collision Repair Technology 095 or Automotive Technology 095. Credit will be awarded for only one course.)

This course will review addition, subtraction, multiplication and division of whole numbers, fractions, decimals and percentages. Also included are ratio and proportion, the metric system, graphs and applications specific to automotive technology. Paint mixing ratios and writing repair orders. May be taken four times for credit.

ACRT 139 Selected Topics
(½-6 units)(Please see Selected Topics category.) (CSU w/limit)
ACRT 160A  Automotive Painting and Refinishing Repair Workshop  
(1.0 Unit) (No prerequisite. Three laboratory hours weekly.)  
This course is designed as a skill-building workshop in the area of automotive refinishing. Students will work on projects of their choice under the direction and supervision of the instructor. Practice will include methods and techniques in basic, intermediate and advanced levels of auto refinishing. Related aspects of the automotive collision repair field will also be reviewed and practiced. May be taken four times for credit. (CSU)

ACRT 160B  Automotive Dent and Damage Repair Workshop  
(1.0 Unit) (No prerequisite. Three laboratory hours weekly.)  
This course is designed as a skill-building workshop in the area of automotive dent and damage repair. Students will work on projects of their choice under the direction and supervision of the instructor. Practice will include methods and techniques in basic, intermediate and advanced levels of auto non-structural repair. Related aspects of the automotive collision repair field will also be reviewed and practiced. May be taken four times for credit. (CSU)

ACRT 160C  Automotive Structural Repair Workshop  
(1.0 Unit) (No prerequisite. Three laboratory hours weekly.)  
This course is designed as a skill-building workshop in the area of automotive structural repair. Students will work on projects of their choice under the direction and supervision of the instructor. Practice will include methods and techniques in basic, intermediate and advanced levels of auto structural repair. Related aspects of the automotive collision repair field will also be reviewed and practiced. May be taken four times for credit. (CSU)

ACRT 160D  Automotive Mechanical and Electrical Repair Workshop  
(1.0 Unit) (No prerequisite. Three laboratory hours weekly.)  
This course is designed as a skill-building workshop in the area of automotive mechanical and electrical repair. Students will work on projects of their choice under the direction and supervision of the instructor. Practice will include methods and techniques in basic, intermediate and advanced levels of auto mechanical and electrical repair. Related aspects of the automotive collision repair field will also be reviewed and practiced. May be taken four times for credit. (CSU)

ACRT 160E  Automotive Plastic Repair Workshop  
(1.0 Unit) (No prerequisite. Three laboratory hours weekly.)  
This course is designed as a skill-building workshop in the area of automotive plastic repair. Students will work on projects of their choice under the direction and supervision of the instructor. Practice will include methods and techniques in basic, intermediate and advanced levels of auto plastic repair. Related aspects of the automotive collision repair field will also be reviewed and practiced. May be taken four times for credit. (CSU)

ACRT 167  Joining and Fastening Processes I  
(2.0 Units) (No prerequisite. One lecture and three laboratory hours weekly.)  
This course will be primarily concerned with advanced methods and techniques of fastening and joining metals and various metal parts as they relate to the vehicle body and frame. This will include plasma arc cutting, electric spot, migwire, gas fusion, brazing, riveting, bolting, clips, retainers, and epoxy. May be taken four times for credit. (CSU)

ACRT 168  Joining and Fastening Processes II  
(2.0 Units) (No prerequisite. One lecture and three laboratory hours weekly.)  
This course will be primarily concerned with advanced methods and techniques of fastening and joining metals and various metal parts as they relate to the vehicle body and frame. This will include plasma arc cutting, electric spot, migwire, gas fusion, brazing, riveting, bolting, clips, retainers, and epoxy. May be taken four times for credit. (CSU)

ACRT 169  Metalworking and Fundamentals I  
(4.0 Units) (No prerequisite. Two lecture and six laboratory hours weekly.)  
This course is designed to assist the student to successfully enter the automotive collision repair field, and to understand metalworking techniques for their usefulness in other applications. It will include basic metal straightening fundamentals and will introduce the beginner to advanced tool techniques and the theory of metalworking. Through the practicum experience, students will have the opportunity to integrate their classroom knowledge in a workplace environment. May be taken four times for credit. (CSU)

ACRT 170  Metalworking and Fundamentals II  
(4.0 Units) (No prerequisite. Two lecture and six laboratory hours weekly.)  
This course is designed to assist the student to successfully enter the automotive collision repair field, and to understand metalworking techniques for their usefulness in other applications. It will include advanced metal straightening fundamentals, and will introduce the beginner to advanced tool techniques and the theory of metalworking. This course provides the laboratory practice necessary for metal bumping and metal finishing required for successful rebuilding of damaged vehicle body panels and parts. In addition, it will introduce the student to many other up-to-date timesaving metalworking techniques. It will cover the proper use of plastic fillers, slide-hammers, pull rods, dozers, and powerposts. May be taken four times for credit. (CSU)
ACRT 171 Dent and Damage Repair  
(2.0 Units) (No prerequisite. One lecture and three laboratory hours weekly.)  
This course is designed for the person whose car has everyday run-of-the-mill dents, scrapes, scratches, and gouges. You can’t remember where they all came from, but these are the ones that are usually left unfixed or you end up paying for them out of your own pocket. Most people simply lack the confidence to attempt their own minor automotive body and fender repairs. Until now, basic do-it-yourself instructions have not been available. With a surprisingly small number of tools, anyone can make small automotive body and fender repairs. No painting will be done in this class. Through the practicum experience, students will have the opportunity to integrate their classroom knowledge in a workplace environment. May be taken four times for credit. (CSU)  
Note: All work done on vehicles must have instructor’s approval.

ACRT 176 Introduction to Plastics for Automotive Body Repair  
(2.0 Units) (No prerequisite. One lecture and three laboratory hours weekly.)  
Because plastic is lighter in weight than metal, it has become an important part of today’s vehicles. Plastic is synthetically compounded from crude oil, coal, natural gas, and other natural substances. Plastic vehicle parts include bumpers, fender extensions, fascias, fender aprons, grille openings, stone shields, instrument panels, trim panels, fuel lines, door panels, and engine parts. In this course students will be able to understand and use plastics of all types in automotive repairs of the parts listed above. Through the practicum experience, students will have the opportunity to integrate their classroom knowledge in a workplace environment. May be taken four times for credit. (CSU)

ACRT 177 Maintenance and Detailing  
(2.0 Units) (No prerequisite. One lecture and three laboratory hours weekly.)  
This course covers complete auto body care and maintenance: buffing, rubbing, polishing, upholstery cleaning and dyeing, carpet and mat cleaning, vinyl and convertible top maintenance and color change, chrome parts and paint upkeep, and engine and chassis cleaning. Through the practicum experience, students will have the opportunity to integrate their classroom knowledge in a workplace environment. May be taken four times for credit. (CSU)

ACRT 178 Introduction to Welding for Automotive Body Repair  
(2.0 Units) (No prerequisite. One lecture and three laboratory hours weekly.)  
With major collision repairs, many of the panels or parts on a vehicle must be replaced and welded into place. The structural integrity of a vehicle depends on how well the technician welds and installs panels and parts. In this course, students will learn how to identify the three classes of welding and the techniques used in the welding and installation of panels. The student will learn various methods of welding, basic welding techniques, grazing and soldering, and plasma arc cutting. Through this practicum experience, students will have the opportunity to integrate their classroom knowledge in a workplace environment. May be taken four times for credit. (CSU)

ACRT 180 Panel Replacement  
(2.0 Units) (No prerequisite. One lecture and three laboratory hours weekly.)  
This course will cover the basic procedures involved in the removal and replacement of quarter panels, rocker panels, door panels, and top panels. It also includes the various methods available for splicing damaged body panels or sections, rocker panels, floor sections, and front and rear body clips. Through this practicum experience, students will have the opportunity to integrate their classroom knowledge in a workplace environment. May be taken four times for credit. (CSU)

ACRT 225 Automotive Careers and Customer Relations  
(2.0 Units) (No prerequisite. May be taken as Automotive Technology 225 or Automotive Collision and Repair Technology 225. Credit will be awarded for only one course. Two and nine-tenths lecture hours weekly for 11 weeks.)  
This course provides training on how to write a resume, fill out a job application, develop a portfolio, and organize and complete a personal tax form. The course will cover work ethics and worker/employer relations. It will address customer relations in the auto repair industry and will include how to improve individual attitudes, productivity, and morale in the workplace. Students will also study methods of work and time-scheduling in independent automotive repair dealerships, service stations and manufactures dealerships. Speakers from the automotive industry will present their personal career experiences. (CSU)

ACRT 249 Directed Study  
(1-3 units) (Please see Directed Study category.) (CSU w/limit)

ACRT 273 Painting and Refinishing  
(4.0 Units) (No prerequisite. Two lecture and six laboratory hours weekly.)  
This course is designed as an introduction to the highly-skilled field of automotive spot painting and refinishing. It will include a comprehensive study of materials, equipment, and techniques necessary for the successful application of automotive refinishing material. Through this practicum experience, students will have the opportunity to integrate their classroom knowledge in a workplace environment. May be taken four times for credit. (CSU)
AUTOMOTIVE TECHNOLOGY

The Automotive Technology Program is offered at the Indian Valley Campus. It is designed to prepare students to enter the automotive service repair industry. The program has been certified by Automotive Technician Training Standards (ATTS) meeting strict industry standards in its specialty areas. While completing the program for the Certificate of Achievement or degree, students are required to work in the service repair industry, as well as provide their own basic tool set. Four Certificates of Achievement are offered.

Career Options

Auto Mechanic - General, Brake Specialist, Computer Systems Specialist, Diagnostician Specialist, Electrical Repair Specialist, Emission Control Systems Specialist, Factory Service Representative, Front End Specialist, Fuel Injection Specialist, Parts Salesperson, Pre-Teacher Training, Private Business Owner, Service Manager, Transmission Specialist, Tune-Up Specialist

Faculty

George Hritz, Ron Palmer

DEPARTMENT PHONE: (415) 883-2211, Ext. 8531

A.S. in Automotive Technology: Chassis Repair Technician (Certificate of Achievement also awarded.)

An Associate of Science degree in Automotive Technology: Chassis Repair Technician is awarded for satisfactory completion of the technical requirements, as well as the general education requirements. A Certificate of Achievement is awarded for satisfactory performance in required technical training.

The Chassis Repair Technician career path is designed to prepare students to enter the automotive service repair industry at the second year apprenticeship level or higher. The goal of this certificate is to provide the student with both theory and manipulative skills training in engine repair, brakes, suspensions, drive trains, and heating and air conditioning areas included in the Automotive Technician Training Standards (ATTS). While completing the program for the Certificate of Achievement or degree, students are required to work 1500 hours in the service repair industry, as well as provide their own basic tool set.

Please note: Students may choose English 120, 120SL, or 150 to complete the Associate degree. Transfer students, however, are advised to complete English 150. All students should consult a counselor.

A.S. in Automotive Technology: Emissions/Performance Technician
(Certificate of Achievement also awarded.)
An Associate of science degree in Automotive Technology: Emission/Performance Technician is awarded for satisfactory completion of the technical requirements, as well as the general education requirements. A Certificate of Achievement is awarded for satisfactory performance in required technical training.

The Emissions/Performance Technician career path is designed to prepare students to enter the automotive service repair industry at the second year apprenticeship level or higher. The goal of this Certificate is to provide the student with both theory and manipulative skills training in Electrical/Performance Systems and Emission Technician areas included in the Automotive Technician Training Standards (ATTS). In addition the courses are required by the Bureau of Automotive Repair to meet the educational requirement to be eligible to take the test to become an Advanced Emission Specialist Smog Technician. While completing the program for the Certificate of Achievement or degree, students are required to work 1000 hours in the service repair industry, as well as provide their own basic tool set.

Please note: Students may choose English 120, 120SL, or 150 to complete the Associate degree. Transfer students, however, are advised to complete English 150. All students should consult a counselor.

* Applied toward the Certificate of Achievement only.

Skills Certificates
Skills Certificates are an acknowledgement that the student has attained a specified set of competencies within an occupational program. Skills Certificates may be part of a “ladder” of skills, beginning with job entry skills and leading to a full Certificate of Achievement program or may constitute a skill set that enables a student to upgrade or advance in an existing career. Skills Certificates require less than 18 units and are shorter in duration than the Certificate of Achievement. A Skills Certificate is earned by completion of the required courses as listed for the specific Skills Certificate.

Automotive Service Advisor Skills Certificate
This Skills Certificate provides the student with the skills necessary to qualify for an entry-level service writer/advisor.
Brakes and Suspension Skills Certificate
This Skills Certificate signifies to employers that the student has completed comprehensive training in the skill area of brake and suspension system repair and will require minimal supervision upon employment.

Automotive Technology Courses (AUTO)

AUTO 039  Selected Topics (Nondegree Applicable)

(1½–6 units)(Please see Selected Topics category.)
AUTO 095  Applied Automotive Math
(1.0 Unit) (No prerequisite. Three and one-fifth lecture hours one day a week for five weeks. Can be taken for credit as Automotive Collision Repair Technology 095 or Automotive Technology 095. Credit will be awarded for only one course.)

This course will review addition, subtraction, multiplication and division of whole numbers, fractions, decimals and percentages. Also included are ratio and proportion; metric system; graphs and applications specific to automotive technology. Paint mixing ratios and writing repair orders. May be taken four times for credit.

AUTO 110  Introduction to Automotive Maintenance
(3.0 Units) (No prerequisite. Two lecture and three laboratory hours weekly.)

An introductory course studying basic lab procedures, safety, service information, oil change service, under hood inspection, under vehicle service and belts, hoses, tubing services, tire and wheel service, and cooling system service. May be taken four times for credit. (CSU)

AUTO 111  Automotive Maintenance - Intermediate
(3.0 Units) (No prerequisite. Two lecture and three laboratory hours weekly.)

This intermediate course provides training in engine testing and repair, engine performance, fuel and emission service, general electrical system repair, battery service, brake service and suspension, and steering and alignment service. May be taken four times for credit. (CSU)

AUTO 112  Automotive Engines
(4.0 Units) (No prerequisite. Two lecture and six laboratory hours weekly.)

This course, designed for students with a desire to become auto technicians, provides training in diagnosing and servicing modern automotive engines used on cars, pickups, light trucks, and utility vehicles. The course covers operation and repair of automotive engines including disassembly, testing, and reassembly. Automotive machine shop skills are not included. This course is a skills-competency based curriculum. In order to pass this class, each student must demonstrate his/her competency to perform skills necessary to qualify for technician positions which require minimum supervision upon employment. May be taken twice for credit. (CSU)

AUTO 113  Specialized Electronic Training
(5.0 Units) (No prerequisite. Four lecture and three laboratory hours weekly.)

This course, designed for students with a desire to become auto technicians, provides training in electrical and electronic systems used on cars, pickups, light trucks, and utility vehicles. The course includes theory and operations of OHMS law, Digital Volt Ohm Meters, electrical circuits, wiring diagrams, schematics, and wire repair. This course is a skills-competency based curriculum. In order to pass this class each student must demonstrate his/her competency to perform skills necessary to qualify for technician positions that require minimum supervision upon employment. May be taken four times for credit. (CSU)

AUTO 114  Automotive Basic Fuel Systems
(4.0 Units) (No prerequisite. Two lecture and six laboratory hours weekly.)

This course, designed for students with a desire to become auto technicians, provides training in diagnosing and servicing modern automotive fuel systems used on cars, pickups, light trucks, and utility vehicles. The course covers operation and repair of fuel systems, carburetors, and electronic fuel injection systems. Modern diagnostic tools and equipment will be used. This class is a skills-competency based curriculum. In order to pass this class each student must demonstrate his/her competency to perform skills necessary to qualify for technician positions which require minimum supervision upon employment. May be taken four times for credit. (CSU)

AUTO 116  Automotive Electrical Systems
(6.0 Units) (No prerequisite. Three lecture and nine laboratory hours weekly.)

This course, designed for students with a desire to become auto technicians, provides training in diagnosing and servicing modern automotive electrical systems used in cars, pickups, light trucks, and utility vehicles. Emphasis is placed on developing a comprehensive understanding of all electrical components, with special emphasis on diagnosis, repair, and testing of electrical systems. This course is a skills-competency based curriculum. In order to successfully pass this class each student must demonstrate his/her competency to perform skills necessary to qualify for technician positions, which require minimum supervision upon employment. May be taken twice for credit. (CSU)

AUTO 118  Brakes, Alignment and Suspension
(6.0 Units) (No prerequisite. Three lecture and nine laboratory hours weekly.)

This course provides training on wheel balance, wheel alignment, brake repair, automotive suspensions, and steering systems. Students will learn to balance wheels; operate wheel aligners including four-wheel computer aligners; repair and service disc, drum and anti-lock brake systems, and service rack, pinion and worm gear steering gears. Diagnosing and troubleshooting all of these systems are included. Health and safety working with asbestos will be stressed. May be taken twice for credit. (CSU)

AUTO 139  Selected Topics
(½-6 units) (Please see Selected Topics category.) (CSU w/limit)
AUTO 225  Automotive Careers and Customer Relations  
(2.0 Units) (No prerequisite. May be taken as Automotive Technology 225 or Automotive Collision and Repair Technology 225. Credit will be awarded for only one course. Two and nine-tenths lecture hours weekly for 11 weeks.)  

This course provides training on how to write a resume, fill out a job application, develop a portfolio, and organize and complete a personal tax form. The course will cover work ethics and worker/employer relations. It will address customer relations in the auto repair industry and will include how to improve individual attitudes, productivity, and morale in the workplace. Students will also study methods of work and time-scheduling in independent automotive repair dealerships, service stations and manufactures dealerships. Speakers from the automotive industry will present their personal career experiences. (CSU)

AUTO 228  Automotive Computer Controls  
(4.0 Units) (No prerequisite. Two lecture and six laboratory hours weekly.)  

This course, designed for students with a desire to become auto technicians, provides training in diagnosing and servicing modern automotive computer control systems used on cars, pickups, light trucks and utility vehicles. The course covers operation of sensors, actuators and control modules, and the use of modern scan tools, Digital Storage Oscilloscopes and diagnostic tools. This class is a skills-competency based curriculum. In order to pass this class each student must demonstrate his/her competency to perform skills necessary to qualify for technician positions, which require minimum supervision upon employment. May be taken four times for credit. (CSU)

AUTO 229  Automotive Systems, Troubleshooting and Diagnosis  
(4.0 Units) (No prerequisite. Two lecture and six laboratory hours weekly.)  

This course, designed for students with a desire to become auto technicians, provides training in diagnosing and servicing modern automotive electronic systems used on cars, pickups, light trucks, and utility vehicles. The course covers operation of sensors, actuators and control modules, and the use of modern scan tools, Digital Storage Oscilloscopes and diagnostic tools. This class is a skills-competency based curriculum. In order to pass this class each student must demonstrate his/her competency to perform skills necessary to qualify for technician positions, which require minimum supervision upon employment. May be taken four times for credit. (CSU)

AUTO 232  Automatic Transmission/Transaxles  
(4.0 Units) (No prerequisite. Two lecture and six laboratory hours weekly.)  

This course, designed for students with a desire to become auto technicians, provides training in diagnosing and servicing modern automotive automatic transmissions and transaxles used on cars, pickups, light trucks, and utility vehicles. The course covers construction, function, and principles of operation including planetary gears, power flow, friction devices, and hydraulic and electrical controls. This class is a skills-competency based curriculum. In order to pass this class each student must demonstrate his/her competency to perform skills necessary to qualify for technician positions, which require minimum supervision upon employment. May be taken four times for credit. (CSU)

AUTO 233  Manual Drive Trains and Axles  
(4.0 Units) (No prerequisite. Two lecture and six laboratory hours weekly.)  

This course, designed for students with a desire to become auto technicians, provides training in diagnosing and servicing modern automotive manual transmissions and transaxles used on cars, pickups, light trucks, and utility vehicles. The course covers construction, function, and principles of operation including clutches, transmissions, transaxles and 4-wheel drive systems. This class is a skills-competency based curriculum. In order to pass this class each student must demonstrate his/her competency to perform skills necessary to qualify for technician positions, which require minimum supervision upon employment. May be taken four times for credit. (CSU)

AUTO 235  Automotive Air Conditioning  
(2.5 Units) (No prerequisite. Two lecture and one and one-half laboratory hours weekly.)  

This course, designed for students with a desire to become auto technicians, provides training in diagnosing and servicing modern automotive heating and air conditioning systems used on cars, pickups, light trucks and utility vehicles. The course covers construction, function and principles of heating and air conditioning systems, components and controls. This class is a skills-competency based curriculum. In order to pass this class each student must demonstrate his/her competency to perform skills necessary to qualify for technician positions, which require minimum supervision upon employment. May be taken four times for credit. (CSU)

AUTO 238  Basic Area Clean Air Car Course  
(3.5 Units) (No prerequisite. Three lecture and one and one-half laboratory hours weekly.)  

This course partially satisfies the educational prerequisite to become a “Basic Area” smog inspection technician of the Bureau of Automotive Repair (BAR). This course provides training on BAR rules and regulations, emission control systems theory and operation, cause and effect of mobile source air pollution, operation of the BAR 97 EIS, OBD II theory, operation, diagnosis and advanced scan tool diagnostics. (CSU)
AUTO 240 Enhanced Area Clean Air Car Course
(1.0 Unit) (No prerequisite. Eighteen lecture hours and ten laboratory hours per semester.)

This course partially satisfies the educational prerequisite to become an “Advanced Emission Specialist” smog inspection technician of the Bureau of Automotive Repair. The course provides training on NOx emission diagnostic repair procedures, the use of Digital Storage Oscilloscopes, catalytic converter operation and testing, emission failure base-lining techniques and the use of the BAR 97 Emission Inspection System. (CSU)

AUTO 242F9 B.A.R. 2009 Smog Check Technician Update Training Course
(1.0 Unit) (No prerequisite. Sixteen lecture hours.)

All licensed Smog Check technicians whose licenses expire after December 31, 2008 must complete the 2009 Update Training Course prior to applying to renew their licenses. Individuals applying for initial licenses (received by BAR) after December 31, 2008 must have completed this course to be eligible for the licensing examination. The course will include information on BAR Updates, Advanced Electrical/Electronic systems diagnostic and repair procedures as they pertain to vehicle emission failures, and practical application of the Internet to obtain automotive and diagnostic and repair information. (CSU)

AUTO 249 Directed Study
(1-3 units) (Please see Directed Study category.) (CSU w/limit)

AUTO 275 Automotive Brake Systems
(2.0 Units) (No prerequisite. One lecture and three laboratory hours weekly.)

This course is designed for students with a desire to become auto technicians, or for those already working in the field who want to update their training and learn new skills. The course provides training in the operation and repair of brake systems used on cars, pickups, light trucks and utility vehicles, and on the use of tools used to diagnose and repair brake systems. In order to pass this class each student must demonstrate his/her competency to perform skills necessary to qualify for technician positions which require minimum supervision upon employment. (CSU)

AUTO 277 Alignment and Suspension
(2.0 Units) (No prerequisite. One lecture and three laboratory hours weekly.)

This course is designed for students with a desire to become auto technicians, automotive collision repair technicians, or for those working in the field who want to update their training and learn new skills. The course provides training in the operation and repair of suspension systems used on cars, pickups, light trucks and utility vehicles, and on the use of modern diagnostic tools used to diagnose, repair and align suspension systems. In order to pass this class each student must demonstrate his/her competency to perform skills necessary to qualify for technician positions which require minimum supervision upon employment. (CSU)

AUTO 281 Electrical and Electronic Systems Training - A6 Alternative
(2.0 Units) (No prerequisite. Two lecture hours and one laboratory hour weekly.)

This course provides training in diagnosing and servicing modern automotive electrical systems used on cars, pickups, light trucks and utility vehicles. Emphasis is placed on developing a comprehensive understanding of all electrical components, with a special emphasis on diagnosis, repair, and testing of vehicles with driveability and emission faults. (CSU)

AUTO 283 Engine Performance Diagnosis and Repair - A8 Alternative
(2.0 Units) (No prerequisite. Two lecture hours and one laboratory hour weekly.)

This course provides training in diagnosing and servicing modern automotive fuel and ignition systems used on cars, pickups, light trucks and utility vehicles. Emphasis is placed on developing a comprehensive understanding of engine mechanical condition, fuel management, ignition systems and computer engine controls, with a special emphasis on diagnosis, repair and testing of vehicles with driveability and emission faults. (CSU)

AUTO 285 Advanced Engine Performance/ Emission Systems Diagnosis Repair L1 Alternative
(2.0 Units) (No prerequisite. Two lecture hours and one laboratory hour weekly.)

This course provides training in diagnosing and servicing modern automotive computerized engine control systems used on cars, pickups, light trucks and utility vehicles. Emphasis is placed on developing a comprehensive understanding of fuel management, ignition systems and computer engine controls, with special emphasis on diagnosis, repair and testing of vehicles with driveability and emission faults. (CSU)

BEHAVIORAL SCIENCE

Behavioral science is an interdisciplinary study of human behavior and encompasses such disciplines as anthropology, psychology, and sociology. The courses offered are intended to be used as a background for general education.

Faculty
Dikran Martin, Victoria Coad
Department Phone: (415) 485-9630

A.A. in Behavioral Science

In addition to other graduation requirements, completion of 18 units from any degree-applicable courses in anthropology, behavioral science, psychology, and sociology.

Please note: Students may choose English 120, 120SL, or 150 to complete the Associate degree. Transfer students, however, are advised to complete English 150. All students should consult a counselor.
Biology

Behavioral Science Courses (BEHS)

BEHS 039  Selected Topics (Nondegree Applicable)
(½-6 units) (Please see Selected Topics category.)

BEHS 103  Human Sexuality
(3.0 Units) (No prerequisite. May be taken for credit as Behavioral Science 103 or Biology 108A. Students will receive credit for only one course. Three lecture hours weekly.)

This is a survey course dealing with aspects of human sexual behavior. Topics will be considered from psychological, social, cultural, and biological perspectives. Topics to be included are sexual anatomy and physiology, hormones, conception and contraception, sex research, sex and the life span, human sexual activities and behaviors, sexual orientation, gender, sex and society, and contemporary sexual issues. (CSU/UC) AA/AS Area B, CSU Area D-7 or E, IGETC Area 4

BEHS 105  Sex Roles in Contemporary Society
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This course examines the ways in which female and male roles and sex role stereotyping influence our lives. Topics will include biological and cultural contributions to sex role-playing in interpersonal relationships, and the impact of sex roles on personal growth. Emphasis on the social and personal implications of moving toward androgyny (role-free human behavior and identity). (CSU/UC)

BEHS 114  Chemical Dependency
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This course examines the behavioral and psychological effects of chemical dependency on the individual. Included is an analysis of the effects of substance abuse on the family and the sociological conditions contributing to substance abuse. The primary focus is on the role of the mental health professional in issues of substance abuse. (CSU) CSU Area D-7 or E

BEHS 139  Selected Topics
(½-6 units) (Please see Selected Topics category.) (CSU/UC w/limit)

BEHS 201  Understanding Globalization: The Impact of Social, Political, and Economic Change
(3.0 Units) (No prerequisite. Can be taken for credit as Behavioral Science 201, Economics 201, or Political Science 201. Credit will be awarded for only one discipline. Three lecture hours weekly.)

The world is becoming more integrated and interdependent, heightening the need for greater understanding of the impact of globalization on the economy, politics, and society. This interdisciplinary team-taught course explores the new wave of global political, economic, and social change and the opportunities and challenges it brings to states, institutions, and individuals. Focus is upon what the individual will need to know and understand to be an effective participant in these rapidly changing global phenomena. (CSU/UC) AA/AS Area B, CSU Area D-7, IGETC Area 4

BEHS 249  Directed Study in Anthropology, Psychology, and Sociology
(1-3 units) (Limit to Enrollment: Successful completion of at least three units in anthropology, behavioral science, psychology, or sociology.) (CSU/UC w/limit)

BEHS 252  Seminar and Fieldwork Experience
(3.0 Units) (No prerequisite. Corequisite: Psychology 110 or 112 or Sociology 110. Behavioral Science 252 and Psychology 252 are equivalent. Credit is given for only one course. One and one-half lecture and four and one-half fieldwork hours weekly.)

This course is designed to give students meaningful participation in a psychologically related community service agency in order to understand the applications of psychological principles, theories, and concepts. With the mutual consent of student and instructor each student is placed in a school, social agency, special education program, mental health agency, or community organization and works under the direct supervision of someone with a degree, credential, or demonstrated expertise in psychology or sociology. The one and one-half hour weekly seminar provides students and instructor the opportunity to present observations, discuss perceptions, and apply relevant theories and concepts to their fieldwork participation. May be taken twice for credit. (CSU)

BIOLOGY

Biology career options include a choice of dozens of intriguing specialties. One can concentrate on microbiology and investigate viruses, bacteria, or molds. One can focus on cytology and study cells or histology and delve into the structure of animal and vegetable tissue. Ichthyology, parasitology, embryology, genetics, ecology, and biochemistry are a few of the other choices in the field. Emerging areas of emphasis include the concern for the environment and allied health professions.

Career Options

Agricultural Biologist, Biochemist, Biologist, Botanist, Chiropractor, Dentist, Entomologist, Environmental Specialist, Fish and Game Technican, Food Technologist, Forester, Genetic Counselor, Horticulturists, Industrial Hygienist, Inhalation Therapist, Laboratory Technician, Marine Biologist, Medical Technologist, Microbiologist, Nuclear Medical Technician, Nutritionist, Occupational Therapist, Orthotist-Prosthetist, Osteopath, Pathologist/Audiologist, Teacher, Technical Writer, Veterinarian, Wildlife Specialist, X-Ray Technician, Zoo Curator, Zoologist

Faculty

Becky Brown, Fernando Agudelo-Silva, Paul da Silva, Jamie Deneris, David Eger, Joseph Mueller

Department Phone: (415) 485-9510
Transfer
Students planning to transfer to a four-year institution should complete the lower division major requirements and general education pattern for the appropriate transfer institution and major. Exact major requirements for UC and CSU institutions can be found on www.assist.org. Please see a counselor for more information as curriculum requirements may vary among transfer universities.

A.S. in Biology
While students may take classes at both campuses, courses required for the major are offered at the Kentfield Campus.

Please note: Students are required to complete English 150 for the Associate degree. All students should consult a counselor.

+ Biol 116 has Biol 110 and 110L prerequisites.

Certificate of Achievement in Natural History
The Natural History Program is a field experience program based on scientific principles and concepts for students who want to develop a comprehensive understanding of the natural world. It is especially designed for elementary school teachers, natural history museum and environmental docents, and environmental educators. For students interested in receiving an Associate in Science degree in Biology, see requirements under that major.

Please note: Students are required to complete English 150 for the Associate degree in Biology. All students should consult a counselor.

Skills Certificate in Environmental Science
This is the starting point for all those interested in pursuing interests in environmental science! The program leading to this certificate introduces students to the major areas of environmental science, provides the basic background necessary for analysis and solution of environmental problems, gives an overview of some of the most important problems in Marin and provides direct contact with people solving them. It is designed to be completed in two years. It can be added to a College of Marin A.A./A.S. degree to improve transferability to bachelor’s programs in environmental science. It can also be earned apart from any degree to show mastery of the basics of the field of environmental science and to increase the diversity of job options in the field.

Biology Courses (BIOL)

BIOL 039 Selected Topics (Nondegree Applicable) (1½-6 units) (Please see Selected Topics category.)
BIOL 099  General Science  
(3.0 Units)  (No prerequisite. Can be taken for credit as Biology 99 or Geology 99. However, credit will be awarded for only one course. Three lecture hours weekly.)

This course is designed for students who have not reached the level of success they desired in high school or college science courses and for individuals returning to school after an extended absence. The course covers basic scientific principles and concepts of the physical and life sciences and prepares students to move into other science classes with the information, understanding, and skills required to succeed. Introductory topics in biology, chemistry, geography, geology, meteorology, and physics are discussed. This course also provides an excellent overview of the most important topics in science today for anyone interested in learning more about the natural world.

BIOL 100  Nutrition  
(3.0 Units)  (No prerequisite. Three lecture hours weekly.)

This course provides an in-depth study of the basic principles of nutrition in health and disease. Topics include: nutrients, vitamins, digestion, metabolism, food safety, diets, eating disorders, and changing nutritional needs throughout life. This is a general education course recommended for anyone curious or concerned about nutrition. (CSU/UC) AA/AS Area A, CSU Area E, CAN FCS 2

BIOL 101  Field Biology  
(3.0 Units)  (No prerequisite. Two lecture and three laboratory hours weekly.)

This outdoor field course is designed to give nonmajors in biology an overview of Marin’s varied plant and animal communities. Most of Marin’s 25 biotic community types are investigated including aquatic and terrestrial. Identification of plants, animals, and ecology are major areas of emphasis. (CSU) AA/AS Area A

BIOL 104  The Ecology of Infectious Diseases  
(3.0 Units)  (No prerequisite. Three lecture hours weekly.)

This course is designed for both science and nonscience majors interested in understanding the distribution and spread of infectious diseases. Emphasis is on the role that specific environments play in determining where and when epidemics will occur. Topics include: the biology and ecology of microorganisms and their hosts, geographic medicine, the impact of human activity on the incidence and transmission of infectious diseases, and epidemics in human history. (CSU)

BIOL 105  Cosmic Evolution  
(3.0 Units)  (No prerequisite. Can be taken for credit as Astronomy 105, Biology 105, or Geology 105. Credit will be awarded for only one course. Three lecture hours weekly.)

This is an interdisciplinary course that explores the origins and evolution of the cosmos from the Big Bang and the formation of the universe and Earth, to the development of life. Students will explore basic concepts and principles that bind all scientific disciplines, and the nature of science and scientific inquiry. Through the study of astronomy, chemistry, geology, and biology, students will discover the interrelatedness of all matter, living and nonliving in the cosmos and how physical and chemical processes eventually led to the evolution of living organisms. (CSU/UC) AA/AS Area A, CSU Area B1 or B2, IGETC Area 5A

BIOL 107  Human Biology  
(3.0 Units)  (No prerequisite. Can be taken for credit as Biology 107 or Physical Education 107. Credit will be awarded for only one course. Three lecture hours weekly.)

This course is designed to provide students with an introduction to the structure, function, and development of the human body. The course will give students the foundational concepts to explore personal and societal issues involving human biology as well as cover anatomy and physiology concepts useful in preparing for careers in wellness related fields such as personal training, group fitness instruction, and massage therapy. Topics include an introduction to scientific methods of investigation and some elementary chemistry (no previous background necessary) as a basis for understanding human functions such as movement, digestion, circulation, reproduction, and other systems. Some diseases and other causes of body malfunction will be discussed. (CSU/UC) CSU Area B-2, IGETC Area 5B

BIOL 108  Animal Behavior  
(3.0 Units)  (No prerequisite. Advisory: Biology 110. Three lecture hours weekly.)

Introduction to the behavior of animals with an emphasis on the evolution and adaptive significance of these behaviors. (CSU/UC)

BIOL 108A  Human Sexuality  
(3.0 Units)  (No prerequisite. May be taken for credit as Biology 108A or Behavioral Science 103. Credit will be awarded for only one course. Three lecture hours weekly.)

This is a survey course covering human sexuality from a cross-disciplinary approach. The course will examine sexuality from physiological, anatomical, behavioral, and cross-cultural perspectives. Among the topics to be discussed are conception, fetal development, labor and birth, puberty, menstruation, sexual intercourse, menopause, sexually transmitted diseases, sexual variations, masturbation, contraception, sexual anatomy, sex hormones, medical disorders, pornography, relationships, and sexuality and the life cycle. A special emphasis will be current trends in sex research and sexual behavior. (CSU/UC) AA/AS Area A, CSU Area D-7 or E, IGETC Area 4

BIOL 109  Heredity and Evolution  
(3.0 Units)  (No prerequisite. Three lecture hours weekly.)

This is an introductory course on the principles of genetics and evolution. The factors that govern inheritance and natural selection are presented, and their impact on physical and cultural evolution discussed. Current issues surrounding genetic counseling, genetic engineering, recombinant DNA technologies, and emerging infectious diseases are introduced. The potential impact of these developments is discussed. (CSU/UC) AA/AS Area A, CSU Area B-2, IGETC Area 5B
BIOL 110  Introduction to Biology
(3.0 Units) (No prerequisite. Advisory: Concurrent enrollment in Biology 110L. Three lecture hours weekly.)
This course is an introduction to the science of biology for nonmajors as well as a prerequisite course for majors in biology. Subjects include ecology, human ecology, evolution, molecular, cell biology, genetics, systematics of monerans, protists, fungi, plants and animals, and human physiology. (CSU/UC) AA/AS Area A, CSU Area B-2, IGETC Area 5B

BIOL 110L  Introduction to Biology Lab
(1.0 Unit) (Prerequisite: Biology 110 or concurrent enrollment. Three laboratory hours weekly.)
This course is an introduction to biology experimentation for nonmajors. Experiments and field studies are selected from ecology, molecular, cell biology, genetics, plant anatomy and identification, and human physiology topics. (CSU/UC) AA/AS Area A, CSU Area B-2 or B-3, IGETC Area 5B

BIOL 115  Principles of Biology
(5.0 Units) (Prerequisites: Biology 110, 110L, and Chemistry 131. Three lecture and six laboratory hours weekly.)
This is an introductory course for biology majors covering the fundamentals of molecular and cell biology, genetics, DNA technology, evolution, and ecology. It is a lecture/laboratory based course in which students incorporate lecture concepts into laboratory experiments that they design, carry out, analyze, and report. Please note that Biology 115 is not a prerequisite for Biology 116. Since Biology 115 has a Chemistry 131 prerequisite and Biology 116 does not, students may wish to register for Biology 116 and Chemistry 131 during the same semester. (CSU/UC) AA/AS Area A, CSU Area B-2 or B-3, IGETC Area 5B, CAN BIOL SEQ A = Biol 115 +116

BIOL 116  Principles of Animal and Plant Diversity
(5.0 Units) (Prerequisite: Biology 110 and 110L. Three lecture and six laboratory hours weekly.)
This is a course for biology majors to study the evolution of organisms from Monera to plants and animals. Emphasis will be placed on taxonomy, comparative morphology, and ecology of plants and animals. Please note that Biology 115 is not a prerequisite for Biology 116. Since Biology 115 has a Chemistry 131 prerequisite and Biology 116 does not, students may wish to register for Biology 116 and Chemistry 131 during the same semester. (CSU/UC) AA/AS Area A, CSU Area B-2 or B-3, IGETC Area 5B, CAN BIOL SEQ A = Biol 115 +116

BIOL 120  Human Anatomy
(5.0 Units) (Prerequisite: Biology 110 and 110L. Advisory: Completion of English 98 or equivalent. Three lecture and six laboratory hours weekly.)
This course is a study of the gross and microscopic structure of the tissues, organs and organ systems of the human body, including major functions. The class will make use of models, slides, projections and dissection (including human cadavers). Includes introduction to related fields such as histology and emb-
BIOL 143  Stewardship of Marin Parks and Open Space  
(3.0 Units) (No prerequisite. Two lecture and three laboratory hours weekly.)

Besides making Marin a desirable place in which to live and travel, its nonurbanized park and open space areas carry with them a great responsibility: preservation and enhancement of their best qualities for present and future generations. Fulfilling this responsibility is a continuing process that began years ago and now involves a diverse mix of philosophical, legislative, biological, sociological, and logistical challenges. The course includes essential background material, interviews with current management personnel, and field visits to parkland and open space areas of special interest. (CSU)

BIOL 145  Ethics in Science  
(3.0 Units) (No prerequisite. Can be taken for credit as Biology 145 or Geology 145. Credit will be awarded for only one course. Three lecture hours weekly.)

This course explores some of the most pressing issues facing our society today. It enables students to investigate and understand the controversies surrounding current and future technologies, and helps them make rational decisions when faced with situations in their own lives and at the voting booth. The approach is an interdisciplinary one, combining basic science, applied research, ethics, and decision making processes. Topics include scientific fraud, recombinant DNA technologies, the human genome project, energy and land use, and toxic waste. This course is appropriate for both science and nonscience majors. (CSU/UC) AA/AS Area C

BIOL 147  Food, People and the Environment  
(3.0 Units) (No prerequisite. Advisory: Biology 110. Two lecture and three laboratory hours weekly.)

This course examines problems and solutions affecting the past, present and future of agriculture, the chief method of securing food from the environment and the basis of human civilization. Patterns of care and use of the major classes of agricultural resources will be surveyed, including domestication and genetic improvement of edible plants and animals, maintenance of soil fertility through manipulation of humus and individual plant nutrients, suppression of pests through chemical, biological and cultural techniques, and attempts to maximize efficiency in utilization of land, water, energy, labor, and capital. Effects of changes in demographics and socioeconomic conditions of producers and consumers of agricultural products will be discussed. Evolution and integration of production methods will be emphasized, through site specific examples of functioning agricultural systems in Marin County, the rest of California, and the world. Special attention will be paid to the concept of sustainability and to the current debate between defenders of modern industrial agriculture and proponents of its alternatives, such as biodynamic, organic, and low input agriculture. Includes field trips to selected agricultural areas of interest in Northern and Central California. (CSU/UC)

BIOL 148  Marin County Agriculture  
(3.0 Units) (No prerequisite. Two lecture and three laboratory hours weekly.)

This course focuses on one of Marin County's most significant human activities in terms of use of land and other natural resources, preservation of a valuable way of life, generation of economic benefits and formation of the unique character of the local environment. The course examines agricultural challenges and accomplishments by production systems and locality. It offers general overview, historical background and explanation of important biological, social and economic processes, as well as contemporary insights provided by those currently involved in the Marin County agricultural scene. Systems studied may include beef and dairy, poultry, shellfish, flowers, fruits and vegetables, from planning and production through marketing and consumption, in both East and West Marin. Includes field trips to notable local farms. (CSU)

BIOL 149  Introduction to Aquatic Biology  
(3.0 Units) (No prerequisite. Two lecture and three laboratory hours weekly.)

A field and hands-on laboratory course on the natural history and ecology of both living and nonliving components of freshwater environments. This course is designed to give the student practical experience in the identification and interrelationships of local plant and animal species found in freshwater ecosystems. Biology majors gain field experience in interpreting basic concepts in ecology, biotic zonation, and survival through adaptation and natural selection. (CSU) AA/AS Area A

BIOL 150  Soil: Ecology and Management  
(3.0 Units) (No prerequisite. May be taken as Biology 160 or Environmental Landscape 160. Credit will be awarded for only one course. Two and one-half lecture and one and one-half laboratory hours weekly.)

This class explores how soil forms and develops, its physical and biological components, and their interrelationships. Topics include: the historical review of soil/human interactions, soil formation from parent material, classification, physical properties such as texture and structure, life forms found in the soil and their interrelationships, relationships between soil properties and soil's ability to support plant growth, and approaches to use soil in a sustainable manner. (CSU/UC) CSU Area B-1, IGETC Area 5A

BIOL 151  Field Botany  
(3.0 Units) (No prerequisite. Two lecture and three laboratory hours weekly.)

Introduction to the identification procedures, systematics, ecology, and natural history of bryophytes and vascular plants. Emphasis is on the identification and natural history of local plants native to Marin's 14 plant communities. Laboratory investigations include hands-on analysis of vascular plant parts useful for identification purposes. Field explorations are used in understanding the ecology of local plant communities. (CSU)
BIOL 162  General Ecology
(3.0 Units) (No prerequisite. Advisory: Biology 110. Two lecture and three laboratory hours weekly.)
Introduction to the ecology of organisms in their environment. Emphasis is on the ecology of global, regional and local environmental sustainability. Field explorations are used in understanding ecological concepts in relation to Marin's biotic communities. (CSU/UC) AA/AS Area A, CSU Area B-2 or B-3, IGETC Area 5B

BIOL 163  Ecology of Estuaries
(3.0 Units) (No prerequisite. Advisory: Biology 110. Two lecture and three laboratory hours weekly.)
Special ecological study of the greater San Francisco Bay estuary system of rivers, Delta, sloughs/marshes, lower bays, and Tomales Bay/Bolinas Lagoon habitats. Dynamics of natural ecology and man’s encroachment/pollution are studied. (CSU)

BIOL 164  Introduction to Mammalogy
(5.0 Units) (No prerequisite. Advisory: Biology 110. Two lecture and three laboratory hours weekly.)
Introduction to the natural history, ecology, and behavior of mammals. Emphasis is on the natural history of California mammals, techniques in studying mammals, tracking, and interpretation of mammal sign. Laboratory investigations include hands-on analysis of mammal anatomy and physiology. Field explorations are used in understanding mammalogy concepts in relation to their survival strategies. (CSU)

BIOL 165  The World of Insects
(2.0 Units) (No prerequisite. Advisory: Biology 110. Two lecture hours weekly.)
Insects are the largest group of organisms on earth today. This course is a general introduction to these diverse and amazing creatures. Topics to be covered include insect structure and function, history and evolution, habitats and adaptations, and ecological relationships with other organisms, including those of major economic importance to humans in the areas of agriculture, architecture, forestry, animal husbandry, medicine and public health. As befits such a hard-to-ignore group, insect roles in literature, folklore, philosophy, painting, sculpture and other arts will not be neglected. (CSU)

BIOL 166  Introduction to Herpetology
(3.0 Units) (No prerequisite. Advisory: Biology 110. Two lecture and three laboratory hours weekly.)
Introduction to the natural history, ecology, and behavior of reptiles and amphibians. Emphasis is on the natural history of reptiles and amphibians of Western North America, techniques in studying reptiles, and field observation. Laboratory investigations include hands-on analysis of reptile and amphibian anatomy and physiology. Field explorations are used in understanding herpetology concepts in relation to survival strategies. (CSU)
Biology

BIOI 224 Human Physiology
(5.0 Units) (Prerequisites: Biology 110 and 110L and Chemistry 110. Students wanting to take Chemistry 110 concurrently, please contact the instructor. Three lecture and six laboratory hours weekly.)

This course is an introduction to the natural history and ecology of the human body. Emphasis will be placed on the physiomechanical and homeostatic mechanisms occurring in the human body. The laboratory will introduce clinical and research techniques for studying and measuring various physiological parameters. (CSU/UC) AA/AS Area A, CSU Area B-2 or B-3, IGETC Area 5B, CAN BIOL 12, CAN BIOL SEQ B = Biol 120 +224

BIOI 234 Fishery Biology
(3.0 Units) (No prerequisite. Advisories: Biology 110, 116, and 162. Two and one half lecture and one and one-half laboratory hours weekly.)

An introduction to the study of invertebrates and vertebrates that constitute the fishery industry of the world. Emphasis on local San Francisco Bay area species. Ichthyology will constitute the major area of study. (CSU)

BIOI 235 General Marine Biology
(4.0 Units) (Prerequisite: Biology 110. Class includes field trips. Field trips may meet earlier and run later than scheduled to take advantage of low tides. Three lecture and three laboratory hours weekly.)

This laboratory and field course is designed to give biology majors as well as nonmajors an overview of marine plant and animal communities. Topics investigated include fundamental physical oceanography, marine ecology, marine zoology, marine botany, and field studies. Emphasis is on the local marine communities comprising protected and unprotected rocky intertidal estuaries, salt marshes, sandflats, mudflats, and floating docks. Laboratory investigations include phytoplankton and zooplankton studies, fish identification, and internal morphology, marine invertebrate identification, and marine algae preservation techniques. (CSU/UC) AA/AS Area A, CSU Area B-2 or B-3, IGETC Area 5B

BIOI 237 Marine Ecology Field Studies
(2.0 Units) (No prerequisite. One lecture and three laboratory hours weekly.)

This course is an introduction to the natural history and ecology of marine plants and animals. Emphasis is on the identification, evolution, life histories, and survival strategies of intertidal and subtidal organisms of the Pacific Northwest coast. Terrestrial systems such as temperate rain forests and redwood plant communities will be investigated to use as comparison with the marine systems. Field investigations include hands-on analysis of marine algae, invertebrate, vertebrate, and nonliving interrelationships. Human disturbances of Pacific Northwest ecosystems will be a central focus of our studies. (CSU)

BIOI 240 Microbiology
(5.0 Units) (Prerequisites: Biology 110 and 110L; plus Chemistry 110 or 114. Three lecture and six laboratory hours weekly.)

This course is primarily for biology and health science majors. It is a lecture/laboratory based course with equal emphasis on both. The fundamentals of microbial taxonomy, ecology, anatomy, physiology, genetics, and biotechnology are covered. Viruses, bacteria, fungi, protozoa, and helminths are discussed. Emphasis is on the role that microorganisms play in human health and disease. (CSU/UC) AA/AS Area A, CSU Area B-2 or B-3, IGETC 5B, CAN BIOL 14

BIOI 242 Geology and Biology of the Basin and Range and the Colorado Plateau
(3.0 Units) (No prerequisite. Can be taken for credit as Biology 242 or Geology 242. However, credit will be awarded for only one course. A two week field trip that includes seventeen and one half lecture hours and thirteen, eight hour field experiences.)

This is a two week field course through the Basin and Range and Colorado Plateau Provinces. It includes a raft trip down the Colorado or Green River. The geological and biological evolutions of the area are explored through observation, experimentation, and study of the diverse abiotic and biotic contributors to the area. Course topics include: stratigraphy and structure; fluvial landforms and processes; species dispersion, radiation and evolution; ecology; and the art of fly-fishing. Through lectures and a broad range of field experiences, students will gain an understanding of the factors that shaped and continue to shape this unique area. May be taken four times for credit. (CSU)

BIOI 243 Natural History of Hawaii
(3.0 Units) (Prerequisite: Biology 110 or Geology 120. Sixteen lecture hours and thirteen, eight-hour field trips.)

A two-week field course on the Islands of Hawaii and Kauai. The geological and biological evolutions of the Hawaiian Islands are explored through observation, experimentation, and study of the diverse biotic and abiotic contributors to the islands. Course topics include formation of the islands; species dispersion, radiation, and evolution; ecology; and human occupation. Through lectures and a broad range of field experiences, students will gain an understanding of the basic tenets of island biogeography as exemplified by the Hawaiian Emperor Chain. May be taken three times for credit. (CSU)

BIOI 245 Field Ecology of Marin
(1.0 Unit) (No prerequisite. Three all day field trips and eight lecture hours to be arranged.)

This course is designed to give the student practical experience in the identification and interrelationships of local plant and animal species. Climatological and geological features of Marin are also explored. May be taken four times for credit. (CSU)
BIOL 246  Field Ecology  
(2.0 Units) (Prerequisites: Biology 101 or 115 or concurrent enrollment. Students must complete forms expressing a desire to participate in the field trip. These forms are available from the Life Science Department in November and must be filed with that department by December 1. A ten-day field trip during the spring break and twelve lecture hours to be arranged.)

Observation of the characteristic plant and animal communities of the coastal redwood forest, the San Francisco Bay salt marsh, the Central Valley, the western slope of the Sierra Nevada, the “rain shadow” of the Western California Cold Desert, Owens Valley, Death Valley, and the Pacific coastal marine environment. This course is designed to give biology majors field experience in interpreting basic concepts of ecology, biotic succession, and survival through adaptation and natural selection. May be taken four times for credit. (CSU/UC)

BIOL 247A  Extended Field Studies  
(1.5 Units) (No prerequisite unless specified in the class schedule. A seven-day field trip and eight lecture hours.)

A one-week investigation of the natural history of various communities in Marin County or in another selected area of the Western hemisphere. May be taken four times for credit. (CSU)

BIOL 247B  Extended Field Studies  
(3.0 Units) (No prerequisite unless specified in the class schedule. A fourteen-day field trip and sixteen lecture hours.)

A two-week investigation of the natural history of various communities in Marin County or in another selected area of the Western hemisphere. May be taken four times for credit. (CSU)

BIOL 249  Directed Study  
(1-3 units) (Limit to Enrollment: Sophomore standing; grade point average of 2.7 or higher in biology. Prior arrangement with the instructor is required. Three laboratory hours per unit weekly.)

BIOL 250  Scientific Research and Reporting  
(1.0 Unit) (No prerequisite. Advisories: Biology 110 and Geology 120. Can be taken for credit as Biology 250 or Geology 250. Credit will be awarded for only one course. One lecture hour weekly.)

Scientific Research and Reporting is a hands-on, individualized course designed to walk learners step by step through a scientific research project of their choice. The final report of their findings will be delivered at a professional meeting. This course is designed for science majors that have completed the first year of their curriculum and desire a hands-on, real world experience in science. May be taken four times for credit. (CSU/UC)

BIOL 251  Biological Psychology  
(3.0 Units) (No prerequisite. May be taken as Biology 251 or Psychology 251. Credit will be awarded for only one course. Three lecture hours weekly.)

This class explores the basic brain processes underlying the functioning of the human mind. Among the topics to be discussed are basic synaptic functioning, psychopharmacology, stress and the immune system, learning and memory, sleep, mood disorders, schizophrenia, language, motor and sensory systems, sexuality, consciousness, endocrine function and interactions. (CSU AA/AS Area B)

BUSINESS

The business curriculum provides the students skills and knowledge for employment in a variety of business related occupations. The program emphasizes the development of skills necessary for entry-level employment including self-employment. The curriculum also provides students with the foundation courses that will help them prepare for transfer to a four-year college or university.

Career Options

Accounting Clerk, Administrative Assistant, Administrator, Analyst, Banking Services, Bookkeeper, Claims Agent, Computer Operations, Employment Counselor, Employment Interviewer, Entrepreneur, Entry-level Financial Services, Franchise Business Owner, Government Service, Insurance Agent, Management Assistant, Management Trainee, Manager, Office Clerk, Office Manager, Public Administration, Purchasing Agent/ Buyer, Real Estate, Retail/Industrial Sales, Sales Representative, Securities Sales Worker, Small Business Manager, Small Business Owner, Stockbroker, Supervisor, Transfer to Bachelor’s Program

Faculty

Sandy Boyd, Robert P. Kennedy, Norman Pacula, Lawrence M. Tjernell, Brian Wilson

Department Phone: (415) 485-9610

Transfer

Students planning to transfer to a four-year institution should complete the lower division major requirements and general education pattern for the appropriate transfer institution and major. Exact major requirements for UC and CSU institutions can be found on www.assist.org. Please see a counselor for more information as curriculum requirements may vary among transfer universities.

A.A. in Business Administration—Transfer

This program provides an opportunity for students to earn an Associate in Arts degree in Business Administration while preparing to transfer as an upper division student to a four-year college or university. For those students considering a career in business, a baccalaureate degree is necessary. However, the attainment of an A.A. degree will demonstrate commitment to the field and the student’s ability to complete an educational goal.

An Associate in Arts degree is awarded for satisfactory performance in major courses, as well as completion of general education and graduation requirements.

Please note: Students may choose English 120, 120SL, or 150 to complete the Associate degree. Transfer students, however, are advised to complete English 150.

All students should consult the counselor assigned to Business and Social Sciences.
The program emphasizes the development of specific skills and professional advancement, retraining, and transfer preparation. It is designed to provide education for business careers including self-employment, as well as individuals with bookkeeping experience who wish to gain a better conceptual background in accounting and finance. An Associate in Science degree is awarded for satisfactory completion of all requirements, as well as completion of general education and graduation requirements. A Certificate of Achievement is awarded for the satisfactory completion of the program.

Please note: Students may choose English 120, 120SL, or 150 to complete the Associate degree. Transfer students, however, are advised to complete English 150. All students should consult a counselor.

**A.S. in Applied Accounting, Occupational (Certificate of Achievement also awarded)**

This program provides training for entry-level bookkeepers, as well as individuals with bookkeeping experience who wish to gain a better conceptual background in accounting and finance. An Associate in Science degree is awarded for satisfactory completion of all requirements, as well as completion of general education and graduation requirements. A Certificate of Achievement is awarded for the satisfactory completion of the program.

Please note: Students may choose English 120, 120SL, or 150 to complete the Associate degree. Transfer students, however, are advised to complete English 150. All students should consult a counselor.

**Suggested Electives**

It is recommended that business transfer students take courses that would be beneficial in their area of specialization (major) and also courses in modern languages and mathematics.

**A.S. in Business, Management (Certificate of Achievement also awarded)**

The Business Management Program equips students with the basic knowledge and skills in entry-level management and supervision, preparing them for employment or professional advancement. It also prepares students to start, operate, and grow new or existing ventures and help those who work in large organizations to become more entrepreneurial in their outlook and performance.

Please note: Students may choose English 120, 120SL, or 150 to complete the Associate degree. Transfer students, however, are advised to complete English 150. All students should consult a counselor.

**A.S. in Business, General (Certificate of Achievement also awarded)**

The General Business Program curriculum is designed to provide education for business careers including self-employment, professional advancement, retraining, and transfer preparation. The program emphasizes the development of specific skills and knowledge for employment. Many courses are hands-on, skill-based, and use current computer technology and student-based projects. The program also provides background for students who plan to transfer to a four-year school.

An Associate in Science degree is awarded for satisfactory completion of all requirements, as well as completion of general education and graduation requirements. A Certificate of Achievement is awarded for the satisfactory completion of the program. A student may qualify for more than one degree or certificate, provided that 12 of the required units for the major are not applied toward any other major and are completed at College of Marin.

Please note: Students may choose English 120, 120SL, or 150 to complete the Associate degree. Transfer students, however, are advised to complete English 150. All students should consult a counselor.

College of Marin 2008/09

Business Courses (BUS)

BUS 039  Selected Topics (Nondegree Applicable)  
(1/2-6 units)(Please see Selected Topics category.)

BUS 101  Introduction to Business  
(3.0 Units) (No prerequisite. Three lecture hours and one laboratory hour weekly.)

This survey course explores the history, environment and functional areas of business, and analyzes the following topics: comparative economic systems focused on capitalism, globalization, ethical behavior and social responsibility, business ownership, entrepreneurship, marketing, accounting, finance, information technology, environmental issues, and productivity. The course includes a management/economic computer simulation component designed to provide students with experience operating a simulated business. Can also be offered in a distance learning format. (CSU/UC) CSU Area D-7

BUS 104  Introduction to Marketing  
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

An introductory course to a vital business area, marketing is open to all students and is especially recommended for business majors. It is required for the general business major. Topics to be included are: marketing's role in society, the market structure, channels of distribution, retail institutions, wholesale institutions, product development, packaging, pricing, and promotion. Can also be offered in a distance learning format. (CSU)

BUS 107  Business Law  
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

Designed to give the student an understanding of the basic principles of business law and applications to typical business situations. Topics include law of contracts, agency and employment, negotiable instruments, personal property, bailments, sales of goods, real property, and partnerships. (CSU/UC)

BUS 108  Introduction to International Business  
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This course provides the basic tools and perspective necessary to understand the international business environment. Explores the changing nature of the primary business, economic, and political institutions. Explains the nature of the transnational, foreign trade, foreign exchange and world capital and money markets. Will attempt to better understand the problems and opportunities created in a world comprised of post-industrial, developing, and less-developed nations. Focus is upon what the individual will need to know and understand to be an effective learner and performer in our rapidly developing world economy. (CSU)

BUS 112  Financial Accounting  
(4.0 Units) (No prerequisite. Four lecture hours weekly.)

An introduction to accounting practice, principles, and analysis. This course is basic for students in accounting, business administration, economics, law, and other professions. Also it should be the first course in accounting theory for vocational bookkeepers, as well as small business people needing basic accounting theory. The course covers the accounting cycle for a service enterprise and for a merchandising enterprise, preparation of financial statements, internal control, valuation of receivables, depreciation and fixed asset disposal, debt structure, corporate capitalization and retained earnings, and finishing with thorough discussion of financial statement analysis. (CSU/UC)
BUS 113  Managerial Accounting  
(5.0 Units) (Prerequisite: Business 112. Five lecture hours weekly.)

This course covers fund flow analysis, basic managerial cost concepts and developments in contemporary managerial accounting, cost accounting systems, cost-volume-profit relationships, budgetary planning and control, responsibility accounting, performance evaluation through standard costs and incremental analysis and capital budgeting. (CSU/UC)

BUS 114  Beginning Computer Accounting  
(1.5 Units) (No prerequisite. Advisory: Business 112. Two lecture and three laboratory hours weekly for eight weeks.)

A first course in the operation of computerized accounting software. This course is designed for business entrepreneurs who will be using a computerized accounting system in their business as well as students training to be professional accountants. Subjects will include an overview of the software, setting up a company, entering, working with lists, setting up inventory, paying bills, payroll, and preparation of reports and graphs. (CSU)

BUS 121  New Venture Creation  
(3.0 Units) (No prerequisite. Three lecture hours and one laboratory hour weekly.)

This is an introductory course in new venture creation/entrepreneurship designed to create knowledge, skills, awareness, and involvement in the process of starting, operating, and managing a small firm. The aim is to guide students in discovering the concepts of entrepreneurship and the competencies, skills, know-how, experience, resources, and techniques that are necessary to achieve success. The course deals with the driving forces of entrepreneurship, the environment and competition, physical, capital and human resources, developing a business plan, accounting and finance for smaller firms, market potential, how to practice marketing, management and legal aspects. Students working in teams are required to develop and write a business plan. (CSU)

BUS 127  Create a Business Plan  
(1.5 Units) (No prerequisite. Two lecture and three laboratory hours weekly for eight weeks.)

This course provides a hands-on approach for actively developing an operational business plan. The process, using computer software, involves opportunity recognition, research, analysis, and completing each section of a business plan including the cover letter, the executive summary, company and industry overviews, market strategy and tactics, financial analysis (profit and cash flow forecasts), location, physical facilities, capital spending, purchasing, and promotion. Students receive individual attention regarding their business plans. (CSU)

BUS 129  The Art of Selling  
(1.5 Units) (No prerequisite. Two lecture and three laboratory hours weekly for eight weeks.)

Through active participation students/entrepreneurs learn how to gain and maintain a competitive edge by developing effective sales strategies and techniques. The course covers all phases of the selling process. Participants learn the “how” as well as the “why” of selling and then have an opportunity to apply these techniques in a critiqued videotaped sales presentation. (CSU)

BUS 131  Supervision and Management  
(1.5 Units) (No prerequisite. Three lecture hours weekly for eight weeks.)

This is an introductory course covering the core concepts and current issues related to supervision and management. Students will learn how to assume supervisory responsibility and how to apply management principles in today’s rapidly changing world of work. (CSU)

BUS 132  Human Resource Management  
(1.5 Units) (No prerequisite. Three lecture hours weekly for eight weeks.)

This is an introductory course designed to give employers and employees an overview of the various functions within the human resource management field. (CSU)

BUS 133  Diversity in the Workplace  
(1.5 Units) (No prerequisite. Three lecture hours weekly for eight weeks.)

This course teaches students how to manage diversity. It broadens their viewpoints, beliefs, and attitudes; promotes an understanding of widely varying and equally valid world views, and prepares future leaders to effectively collaborate with the diverse groups they will encounter in the work and market places. (CSU)

BUS 134  Human Relations  
(1.5 Units) (No prerequisite. Three lecture hours weekly for eight weeks.)

This course is designed to acquaint the student with human relations and motivation in business and the implications of business practices as they apply to individual employees and supervisors. (CSU)

BUS 135  Managing Change and Innovation  
(1.5 Units) (No prerequisite. Three lecture hours weekly for eight weeks.)

This course is designed to develop the skills necessary to manage change and innovation within an organization which is dynamic, complex, and often unpredictable. Students will learn how to help people and how organizations learn and renew themselves continuously. (CSU)

BUS 137  Managing Groups and Teams  
(1.5 Units) (No prerequisite. Three lecture hours weekly for eight weeks.)

This course is designed for anyone who wishes to learn the skills of leading and facilitating both the interpersonal relationships and the tasks of groups and teams. Primarily focused on the workplace, the skills can also be used in other settings, including working with volunteer groups. (CSU)
BUS 139  Selected Topics
(½-6 units)(Please see Selected Topics category.) (CSU w/limit)

BUS 141  Intermediate Business English
(2.0 Units) (Prerequisite: English 98A and 98B. Two lecture hours weekly.)

This course presents grammar, usage, punctuation, sentence
rhetoric, and error recognition and editing on a professional
level to business students who are planning careers that de-
mand precise skills in independent writing, proofreading, and
transcription of oral language. The course emphasizes syntax,
diction, structure, and editing appropriate for business com-
 munications, general and technical report writing, and medical
and court reporting transcriptions. It is a required course in the Court
Reporting Program. (CSU)

BUS 144  Business Communication
(3.0 Units) (No prerequisite. Advisory: English 79. Three lecture hours weekly.)

This course emphasizes the student’s ability to apply effective
writing techniques and strategies to business communication
problems found in organizations. Students will analyze cases,
then organize and prepare various business documents such
as resumes, letters, memoranda, reports, business plans, and
proposals. Electronic communication tools are discussed and oral
presentations are made. Can also be offered in a distance
learning format. (CSU)

BUS 145  Internet Research and Presentation
Skills for Business
(1.5 Units) (No prerequisite. Advisory: Computer Information Sys-
tems 101. Two lecture and three laboratory hours weekly for eight
weeks.)

This course uses the Internet to help students gain the research
and interpretation skills needed for problem solving in business.
Class activities focus on interactive search projects, resulting in
written and oral presentations of project findings using presenta-
tion software. (CSU)

BUS 249  Directed Study
(1-3 units) (Limit to Enrollment: Successful completion of twelve
units in business and/or economics. Hours to be arranged.)

This course is designed to give the student an opportunity for
independent study. The student plans a project under the guid-
ance of a member of the department. Evaluation is through re-
ports and conferences and a final written report of the student’s
findings. This course may be taken more than once for credit.
(CSU w/limit)

BUSINESS OFFICE SYSTEMS

The business office systems curriculum is designed to develop
the knowledge, skills, and attitudes needed by workers in today’s
automated offices. Students can acquire the training and skills
necessary to enter the job market, update knowledge and skills
to reenter the marketplace, or retrain in order to maintain a pres-
ent position or obtain a promotion. The skills developed in this
curriculum are also useful to students who wish to enrich their
business and computer expertise for personal use.

Courses emphasize skill development in business office sys-
tems with specialties available in the medical and office man-
agement areas. Most courses include hands-on computer use so
students learn necessary computer skills as well as the individual
course material.

Career Options
Administrative Assistant, Bank Teller, Clerical Assistant, Executive
Assistant, General Office Worker, Human Resources Assistant,
Medical Office Assistant, Medical Office Manager, Medical Recep-
tionist, Medical Records Clerk, Medical Scheduler, Medical Secret-
tary, Medical Transcriber, Microcomputer User, Office Assistant,
Office Manager, Payroll Assistant, Receptionist, Records Clerk,
Research Assistant, Secretary, Transcribing Machine Operator,
Word Processing Manager, Word Processing Operator

Faculty
Brian Wilson
Department Phone: (415) 485-9610

A.S. in Business Office Systems, Occupational
(Certificates of Achievement in Medical Specialty and Office
Management Specialty are awarded. Skills Certificates in Admin-
istrative Assistant and Medical Transcriber are also awarded.)
The business office systems curriculum develops knowledge,
skills, and attitudes needed by workers who support information
handling in today’s electronic offices.

An Associate in Science degree is awarded for completion of
all requirements in the core program and chosen specialty, as
well as completion of general education and graduation re-
quirements. A Certificate of Achievement is awarded for satisfac-
tory completion of the core program plus the additional course
requirements in each specialty. A Skills Certificate is earned by
satisfactory completion of the required courses as listed for the
specific Skills Certificate.

Please note: Students may choose English 120, 120SL, or 150
to complete the Associate degree. Transfer students, however,
are advised to complete English 150. All students should consult
a counselor.

CORE PROGRAM
The following courses are required of all Business Office Systems
degree students:

<table>
<thead>
<tr>

Also, select two units from:

| BUS 44*  | Skill Building for Keyboarders | 1 |
| BUS 120  | Computer Keyboarding         | 1 |

* Also, select two units from:
CIS 101  Introduction to Personal Computers and Operating Systems 1½
CIS 118  Introduction to Spreadsheet Design 1½
W E 298AB Occupational Work Experience 1-2

The following course is highly recommended for successful completion of the Certificate of Achievement.
BUS 141  Intermediate Business English 2
* Applied toward the Certificate of Achievement only.

SPECIALTIES
In addition to the core program listed above, each Business Office Systems degree student will complete one of the following specialties:

Medical Specialty
BOS 163A  Professional Office Procedures 1
BOS 163B  Records Management 1
BOS 163C  Travel and Conference Arrangements 1
BOS 230AB Medical Terminology 2
BOS 231ABC Medical Transcription ABC 3

Office Management Specialty
BUS 112  Financial Accounting 4
BUS 114  Beginning Computerized Accounting 1½
BUS 116A  Professional Office Procedures 1
BUS 116B  Records Management 1
BUS 116C  Travel and Conference Arrangements 1

Skills Certificates
Skills Certificates are an acknowledgement that the student has attained a specified set of competencies within an occupational program. Skills Certificates may be part of a “ladder” of skills, beginning with job entry skills and leading to a full Certificate of Achievement Program or may constitute a skill set that enables a student to upgrade or advance in an existing career. Skills Certificates require less than 18 units and are shorter in duration than the Certificate of Achievement.

Administrative Assistant Skills Certificate
The Administrative Assistant Certificate indicates that foundation courses needed for entry-level employment in office support have been successfully completed.

Business Office Systems Courses (BOS)

BOS 039:  Selected Topics (Nondegree Applicable)
(½-6 units) (Please see Selected Topics category.)

BOS 035  Web Quest: Beginning Internet Skills
(1.0 Unit) (No prerequisite. Three laboratory hours weekly.)
This class offers an introduction to computer and Internet vocabulary, Internet searches, and the use of e-mail, Web radio, and word processing to enhance basic Internet research projects called Web-quests.

BOS 044  Skill Building for Keyboarders
(1.0 Unit) (No prerequisite. Advisory: Knowledge of keyboard and ability to type by touch method. Three laboratory hours weekly.)
In this course students will concentrate on accuracy and speed drills to improve keyboarding skills. Diagnostic tests are given to determine weaknesses. Timings are taken on a regular basis so progress can be measured. May be taken four times for credit.

BOS 060A  Beginning Computer Keyboarding (ESL)
(1.0 Unit) (No prerequisite. Three laboratory hours weekly.)
This course is recommended for any English as a Second Language student needing to acquire alphabetic and numeric keyboarding techniques for computer work. Students will learn how to keyboard by touch at a minimum speed of 20 words a minute.

BOS 060B  Beginning Computer Keyboarding (ESL)
(1.0 Unit) (No prerequisite. Advisory: Business Office Systems 60A. Three laboratory hours weekly.)
This course is recommended for any English as a Second Language student needing to improve keyboarding speed and accuracy, and wishing to learn basic letter and report formatting. Students will learn how to keyboard by touch at a minimum speed of 25 words-a-minute. Students will also learn how to set up letters and reports in good form. Basic editing skills are practiced.
BOS 060C  Beginning Computer Keyboarding
(ESL)
(1.0 Unit) (No prerequisite. Advisory: Business Office Systems 60B. Three laboratory hours weekly.)
This course is recommended for any English as a Second Language student needing to improve keyboarding speed and accuracy, and wishing to learn additional letter and report formatting skills, plus business memos. Students will learn how to keyboard by touch at a minimum speed of 30 words-a-minute. Students will also learn how to set up and edit letters, reports, and memos.

BOS 070A  Spelling
(1.0 Unit) (No prerequisite. Three laboratory hours weekly.)
A self-paced course designed to help the business student in the improvement of spelling problems. The programmed format allows students to proceed at their own rate with the aid of a diagnostic test and review tests.

BOS 070B  Vocabulary Building
(1.0 Unit) (No prerequisite. Three laboratory hours weekly.)
A self-paced course designed to help the business student achieve a command of the vocabulary needed for business courses. Covers Latin and Greek derivatives, descriptive, and action words.

BOS 070C  Programmed Writing Skills
(1.0 Unit) (No prerequisite. Three laboratory hours weekly.)
This self-paced course, covering writing skills for the business writer, stresses how to write clearly and effectively with correct mechanics.

BOS 076  Electronic 10-Key
(1.0 Unit) (No prerequisite. Three laboratory hours weekly.)
Students learn the basic operation of electronic printing calculators and how to input numbers using the ten-key touch method. Common business problems are used to train students on the efficient use of the electronic calculator.

BOS 114  Beginning Word Processing
(1.5 Units) (No prerequisite. Advisory: Ability to keyboard by touch. Two lecture and three laboratory hours weekly for eight weeks.)
This beginning course in Microsoft Word develops competency in using intermediate to advanced features of Word. Students will create, format, edit, save, and print a variety of business and personal-use documents. Topics covered include formatting with styles, sharing information with other programs, working with and sharing long documents, working with graphics, creating and modifying charts, creating and using forms, and customizing Word with Auto Text and Macros. Students complete several desktop publishing projects, using the Internet to access multimedia resources. (CSU)

BOS 120  Computer Keyboarding
(1.0 Unit) (No prerequisite. Three laboratory hours weekly.)
This course is recommended for any student needing to acquire alphabetic and numeric keyboarding skills for computer work. Students will learn how to keyboard by touch at a minimum speed of 20 words-a-minute. May be taken four times for credit. (CSU)

BOS 122A  Machine Transcription
(1.0 Unit) (No prerequisite. Advisories: Touch typing and limited to the number of transcription machines available. Three laboratory hours weekly.)
This course is designed to prepare students to become efficient operators of transcribing machines and to be able to transcribe mailable business correspondence from pre-dictated material on the computer. Emphasis will be placed on the mechanics of letter styles, grammar, punctuation, spelling, word division, vocabulary, and proofreading. (CSU)

BOS 122B  Machine Transcription
(1.0 Unit) (No prerequisite. Advisory: Business Office Systems 122A and limited to the number of transcription machines available. Three laboratory hours weekly.)
This course is designed to further improve a student’s competency in transcribing documents from transcription tapes while working on the computer. Emphasis will be placed on increased transcription speed and refinement of transcription skills. A thorough review of punctuation rules and practice in applying those rules is included. (CSU)

BOS 139  Selected Topics
(½-6 units)(Please see Selected Topics category.) (CSU w/limit)
**BOS 163A  Professional Office Procedures**
(1.0 Unit) (No prerequisite. Three laboratory hours weekly.)
This is a short course which presents methods and techniques basic to the efficient performance of office services, including interpersonal communications, document preparation, mail processing, meeting arrangements, travel, time management, and telephone communications. This course is offered through a combination of instructor-assisted and self-paced, audiovisual learning methods, including a text CD and Internet access. (CSU)

**BOS 163B  Records Management**
(1.0 Unit) (No prerequisite. Three laboratory hours weekly.)
In addition to learning basic alphabetic, numeric, subject, and geographic filing methods on a microcomputer, students will be introduced to careers in records management. This is a self-paced course. (CSU)

**BOS 163C  Travel and Conference Arrangements**
(1.0 Unit) (No prerequisite. Three laboratory hours weekly.)
This course is designed to enable students to become proficient in planning and arranging business travel, and setting up business conferences. This course develops skills in choosing airline flights, making reservations, arranging hotel accommodations and ground transportation, and maintaining accurate follow-up records. This is a self-paced course. (CSU)

**BOS 213  Internship in Business and Information Systems**
(3.0 Units) (Prerequisite: Business Office Systems 115. Two lecture and three laboratory hours weekly.)
This course bridges the gap between the classroom and the business and information systems industry by providing an on-campus lecture class coupled with a short-term internship in which students may work at a job site such as a medical office, legal office, or general business office. All assignments will be accomplished in a “real-life” context characterized by workgroup activities, multiple projects under deadline, and collaborative effort. Internships are not guaranteed. Projects may be suitable for student portfolios. May be taken four times for credit. (CSU)

**BOS 230A  Medical Terminology**
(1.0 Unit) (No prerequisite. Three laboratory hours weekly.)
Designed for medical secretary or medical assisting students, this course helps students become skillful in mastering word parts to form medical terms used in medical terminology. Students use a computer program to learn and practice applying frequently used medical terms. (CSU)

**BOS 231A  Medical Transcription**
(1.0 Unit) (No prerequisite. Advisory: Business Office Systems 230A. Three laboratory hours weekly.)
This course is designed to train transcriptionists to quickly and accurately transcribe four basic report types: office visit/clinic note, history and physical examination, discharge summary, and consultation. Students will use a transcription machine and a computer for completing their assignments. (CSU)

**BOS 231B  Medical Transcription**
(1.0 Unit) (No prerequisite. Advisory: Business Office Systems 231A and limited to the number of transcription machines available. Three laboratory hours weekly.)
This course is designed to improve the transcriptionist’s speed and accuracy while transcribing medical reports using a transcribing machine and a computer. At an entry level, students will transcribe hospital, physician office, and psychiatric facility reports. In addition, students will continue to transcribe discharge summary reports learned in Business Office Systems 231A. (CSU)

**BOS 231C  Medical Transcription**
(1.0 Unit) (No prerequisite. Advisory: Business Office Systems 231B and limited to the number of transcription machines available. Three laboratory hours weekly.)
A continuation of Business Office Systems 231A and B, this course is designed to bring together the skills the transcriptionist has learned and practiced in the first two units. A variety of reports in challenging formats are presented for the student to experience “real-life” situations. (CSU)

**BOS 249  Directed Study**
(1-3 units) (Please see Directed Study category.) (CSU w/limit)

**CHEMISTRY**
Chemistry is by far the largest field of employment in the sciences. A wide range of opportunities awaits the chemist in business, industry, government, and in the field of education. Approximately three-fourths of all chemists are employed by private industry in such fields as petroleum, primary metals, electrical equipment, aerospace, paper, food, and rubber.

**Career Options**
Biochemist, Chemical Engineer, Dentist, Failure Analyst, Food and Drug Officer, Food Chemist, Forensic Chemist, Hydrologist, Industrial Chemist, Nutritionist, Oceanographer, Patent Agent, Pharmaceutical Salesperson, Physician, Pollution Control Expert, Process Control Worker, Product Developer, Quality Control Worker, Quantitative Analyst, Researcher and Developer, Teacher, Textile Chemist, Toxicologist
Faculty
Erik Dunmire, Patrick Kelly, Jennifer Loeser
Department Phone: (415) 485-9510

Transfer
Students planning to transfer to a four-year institution should complete the lower division major requirements and general education pattern for the appropriate transfer institution and major. Exact major requirements for UC and CSU institutions can be found on www.assist.org. Please see a counselor for more information as curriculum requirements may vary among transfer universities.

A.S. in Chemistry
Please note: Students are required to complete English 150 for the Associate degree. All students should consult a counselor.

Chemistry Courses (CHEM)
Letter grade or pass/no pass option: All other courses.
In general, courses required for a transfer student’s four-year major should be taken on a letter grade basis.
The courses marked with two asterisks (**), Chemistry 110, 114 and 131, require that on the first day of instruction, the students present to the instructor confirmation that the prerequisite of the course has been met.
Chemistry 105, 105L, 110 and 114 are one-semester courses that can satisfy the general education requirements.
Chemistry 114 and 115 represent one year of chemistry for most baccalaureate programs in nursing, health science, laboratory and medical technicians, physical therapy, and non-science majors.
Chemistry 131, 132, 132E represent one year of chemistry for biological science, physical science, engineering and preprofessional (medical, veterinary, and pharmacy) majors.

CHEM 039 Selected Topics (Nondegree Applicable)
(½-6 units)(Please see Selected Topics category.)

CHEM 103 Field Chemistry
(0.5 Unit) (No prerequisite. Corequisite: Geology 126 or Geology 127A or 127B or 127AB. Twenty-six and one-fourth laboratory hours during a two-week period.)
An introductory chemistry course specifically designed to apply chemical concepts and experimental techniques to Geology 126 and 127. Such chemical concepts as bonding, hydrolysis, pH, and thermodynamics will be explored. Chemical techniques, including instrumentation, necessary for geological fieldwork will include qualitative analysis of water-soluble salts. May be taken three times for credit. (CSU)

CHEM 105 Chemistry in the Human Environment
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
A nonmathematical course for liberal arts and nonscience majors, exploring chemistry in relation to society. A general introduction and discussion of the development and manifestations of concepts of chemistry and their applications in our environment including living systems. Special considerations will be given to current topics, environmental issues, energy production, nutrition, medicine, and consumer products. Can also be offered in a distance learning format. (CSU/UC) AA/AS Area A, CSU Area B-1, IGETC Area 5A

CHEM 105L Chemistry in the Human Environment: Laboratory
(1.0 Unit) (Prerequisite: Chemistry 105 or concurrent enrollment. Three laboratory hours weekly.)
An optional laboratory-demonstration course to accompany Chemistry 105. The combination of Chemistry 105 and 105L will meet general elective requirements for a physical science with laboratory. (CSU/UC) AA/AS Area A, CSU Area B-1 or B-3, IGETC Area 5A

CHEM 110 Chemistry for Allied Health Sciences
(5.0 Units) (Prerequisite: Eligibility for Math 101 or completion of Math 95 or Math 95B. Note: On the first day of instruction, students are required to present to the instructor confirmation that the prerequisite of the course has been met. Four lecture and three laboratory hours weekly.)
This is an introductory one-semester survey of the fundamental concepts and laboratory techniques of general, organic, and biochemistry with emphasis on the processes of the human body. This course is designed to meet admission requirements for the A.S. degree in Registered Nursing and other allied health sciences. It also fulfills a general elective requirement in physical sciences. (CSU) AA/AS Area A, CSU Area B-1 or B-3
CHEM 114  Introduction to Chemistry

(5.0 Units) (Prerequisite: Eligibility for Math 103. Note: On the FIRST day of instruction, students are required to present to the instructor confirmation that the prerequisite of the course has been met. Four lecture and three laboratory hours weekly.)

This course covers problem-solving techniques using dimensional analysis, basic principles of inorganic chemistry, and elementary qualitative and quantitative laboratory experiments. This course is designed to prepare students for Chemistry 115 and Chemistry 131. It satisfies a California State University general education requirement in physical sciences as well as a requirement by COM nursing program. Chemistry 114 and Chemistry 115 represent one year of chemistry for most baccalaureate programs in nursing, health sciences, physical therapy, laboratory and medical technology, as well as non-science majors. (CSU/UC) AA/AS Area A, CSU Area B-1 or B-3, IGETC Area 5A, CAN CHEM 6

CHEM 115  Survey of Organic and Biochemistry

(4.0 Units) (Prerequisite: Chemistry 114. Note: On the FIRST day of instruction, students are required to present to the instructor confirmation that the prerequisite of the course has been met. Limit to Enrollment: Not open to those who have had Chemistry 231. Three lecture and three laboratory hours weekly.)

This is a one-semester survey of the classes of organic compounds with emphasis on materials of interest to students of biological sciences. The chemistry and metabolism of proteins, carbohydrates, lipids, and nucleic acids are stressed. The laboratory covers techniques in organic chemistry with applications to biologically interesting compounds. This course is intended for dental hygiene, home economics, nursing (baccalaureate program), health science, laboratory and medical technology, preoptometry, some predental and non-science majors. Chemistry 114 and 115 represent one year of chemistry for most baccalaureate programs in nursing, health science, laboratory and medical technology, and nonscience majors. (CSU/UC) CSU Area B-1 or B-3, IGETC Area 5A

CHEM 131  General Chemistry I

(5.0 Units) (Prerequisites: Chemistry 114 or satisfactory score on chemistry placement test and Math 103 or satisfactory score on math placement test. Note: On the FIRST day of instruction, students are required to present to the instructor confirmation that the prerequisite of the course has been met. Three lecture and six laboratory hours weekly.)

Fundamental principles of chemistry including such topics as atomic theory, nomenclature, thermochemistry, bonding, structure and polarity, stoichiometry, gases, liquids and solids, intermolecular forces, solutions, and a brief introduction to organic chemistry and biochemistry. This is not an introductory course. Students are assumed to have a good grasp of certain chemical and mathematical concepts, as well as prior laboratory experience. (CSU/UC) AA/AS Area A, CSU Area B-1 or B-3, IGETC Area 5A, CAN CHEM 2, CAN CHEM SEQ A = Chem 131 + 132

CHEM 132  General Chemistry II

(5.0 Units) (Prerequisite: Chemistry 131. Four lecture and three laboratory hours weekly.)

This course is a continuation of Chemistry 131, emphasizing kinetics, thermodynamics, aqueous solution equilibriums, electrochemistry, and selected topics from: nuclear chemistry, descriptive inorganic chemistry, materials, metals, and coordination compounds. (CSU/UC) AA/AS Area A, CSU Area B-1 or B-3, IGETC Area 5A, CAN CHEM 2, CAN CHEM SEQ A = Chem 131 + 132

CHEM 132E  General Chemistry II, Lecture Only

(3.0 Units) (Prerequisite: Chemistry 131. Three lecture hours weekly.)

Lecture material of Chemistry 132 for those engineering and science majors who need eight units of general chemistry with lab. Bioengineering and chemical engineering majors should enroll in Chemistry 132. Not open to those who have had Chemistry 132. (CSU/UC) CSU Area B-1, IGETC Area 5A

CHEM 139  Selected Topics

(½-6 units) (Please see Selected Topics category.) (CSU/UC w/limit)

CHEM 231  Organic Chemistry I

(5.0 Units) (Prerequisite: Chemistry 132. Advisory: A college-level English course. Three lecture and six laboratory hours weekly.)

The first semester of the one-year organic chemistry course for chemistry, biology, biochemistry, chemical engineering, environmental and health sciences, premedical, and predental majors. (CSU/UC) CSU Area B-1 or B-3, IGETC Area 5A

CHEM 232  Organic Chemistry II

(5.0 Units) (Prerequisite: Chemistry 231. Three lecture and six laboratory hours weekly.)

The second semester of the one-year organic chemistry course including laboratory for students majoring in chemistry, biochemistry, and most premedical and predental curricula. Students who need only eight units of organic chemistry, see Chemistry 232E. (CSU/UC) CSU Area B-1 or B-3, IGETC Area 5A

CHEM 232E  Organic Chemistry II, Lecture Only

(3.0 Units) (Prerequisite: Chemistry 231. Three lecture hours weekly.)

The second semester of the one-year organic chemistry course without laboratory for those who need a total of eight units, such as some biology, environmental science, health, and chemical engineering majors. (CSU/UC) CSU Area B-1
CHEM 249 Directed Study
(1-3 units) (Limit to Enrollment: Chemistry 131 with a grade of “B” or higher. Prior arrangement with instructor is necessary.)

A course designed to give the student an opportunity to participate in a research project, with emphasis on original work in the investigation and application of principles of chemistry.

The student will prepare a formal written outline of the extent and objectives of study, conferring with instructor to determine appropriate credit and criteria for submission prior to normal registration. During their studies, students must confer weekly with the instructor who may revise terms and will determine final credit and grade. This course may be taken more than once for credit. (CSU/UC w/limit)

CHINESE

A major reason for studying the Chinese language is the enrichment of one’s intellectual growth in the context of the rest of the world. In learning Chinese, one also learns about the culture, philosophy, and civilization of another people, thereby broadening understanding of the world. On the practical side, any field of specialization (journalism, medicine, law, business, teaching) is enhanced if one can speak another language. In California, knowledge of a modern language is now required in many jobs that deal with the public such as Civil Service, social work, nursing, and other service-oriented fields.

Career Options

Department Phone: (415) 485-9348

Policy Statement Regarding Sequence of Enrollment in Modern Language Classes
Although students are advised to enroll in language courses sequentially, they will not be precluded from enrolling in lower level language classes after completion of more advanced courses. Students should be aware, however, that units resulting from the lower level courses may not be accepted at transfer institutions as a part of the required transferring units.

Chinese Courses (CHIN)

All Chinese courses can be taken for a letter grade or pass/no pass. In general, courses required for a transfer student’s four-year major should be taken on a letter grade basis.

CHIN 101: Elementary Chinese Mandarin I
(5.0 Units) (No prerequisite. Four lecture and three laboratory hours weekly.)
The primary goal of Chinese Mandarin I is to help students develop proficiency in listening and speaking skills and a foundation in literacy skills. At the same time, students will also gain knowledge and appreciation of Chinese culture. The acquisition of Chinese/Mandarin language skills and an appreciation of China’s role in the global community are goals of the course. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 6A: UC Language Other than English

CHIN 102 Elementary Chinese Mandarin II
(5.0 Units) (Prerequisite: Chinese 101. Four lecture and three laboratory hours weekly.)

Chinese 102 is a continuation of Chinese 101, a course of elementary Chinese Mandarin for non-native speakers. It aims at helping students develop further communicative skills in Chinese Mandarin. At the same time, students will gain new knowledge and appreciation of Chinese culture, history and China’s new role in global economics and politics. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B or 6A: UC Language other than English

CHIN 110 Conversational Chinese (Mandarin) I
(4.0 Units) (No prerequisite. Three lecture and three laboratory hours weekly.)
This class offers an intensive study of practical Chinese conversation, designed for students who wish to acquire skills of the spoken language in modern colloquial Mandarin for travelers and those doing business dealings in or with China. There will be oral practice in speaking and understanding Chinese through the use of audiovisual packages related to daily working environment and life. Topics will include: everyday conversation among in-group (husband-wife, friend-friend, among the family), everyday conversation between out-groups (superior-inferior, between the unknowns), non-verbal communications and culturally correct Chinese conversation. (CSU)

CHIN 112 Conversational Chinese (Mandarin) II
(6.0 Units) (Prerequisite: Chinese 110.) Three lecture and three laboratory hours weekly.)
This course includes the use of modern colloquial Chinese in conversation and the study of elementary grammar, designed for students who want to learn at a faster pace in the spoken language with a minimum of formal grammar. Use of audio materials improves accuracy and fluency in pronunciation. (CSU)

COMMUNICATIONS

For additional Communications courses, please see Film and Video.
The curriculum is designed to provide theory and skills for those who are interested in mass media, television and films, whether students’ goals be transfer, professional, or self-enrichment. Its production courses are hands-on, with equal emphasis on aesthetic principles and technology.

Career Options
Animator, Announcer, Broadcast Technician, Camera Operator, Community Affairs Director, Disc Jockey, Engineering Technician, Film Director, Film Editor, Freelance Film Maker, Light Technician, News Broadcaster, News Director, Producer, Production Engineer, Program Assistant, Promotion Sales Manager, Public Relations
Transfer
Students planning to transfer to a four-year institution should complete the lower division major requirements and general education pattern for the appropriate transfer institution and major. Exact major requirements for UC and CSU institutions can be found on www.assist.org. Please see a counselor for more information as curriculum requirements may vary among transfer universities.

A.A. in Communications, Mass Communications Option
Please note: Students may choose English 120, 120SL, or 150 to complete the Associate degree. Transfer students, however, are advised to complete English 150. All students should consult a counselor.

Communications Courses (COMM)

COMM 110  Introduction to Mass Communication
(3.0 Units) (No prerequisite. Advisory: Economics 125 or Ethnic Studies 125 or History 125 or Political Science 125 or Social Science 125. Can be taken for credit as Communications 110 or Journalism 110. Credit will be awarded for only one course. Three lecture hours weekly.)
A critical history survey of mass media from a humanities and social science perspective including print (newspapers, magazines, books), broadcast (radio and television), film, audio recording, images, news gathering and reporting, public relations, advertising, media rights and responsibilities, media ethics and impact, audience and feedback, cybermedia, and global media. Students will examine form, content, and consequences of mass media in our society. Designed for general education, career exploration, and consumer understanding of the interaction and influences among and between media and our culture. Can also be offered in a distance learning format. (CSU/UC) AA/AS Area C, CSU Area D-7, IGETC Area 4

COMM 139  Selected Topics
(½-6 units)(Please see Selected Topics category.) (CSU w/limit)

COMM 160  Images of Race, Gender, and Class in the Media
(3.0 Units) (No prerequisite. Can be taken for credit as Communications 160 or Journalism 160. Credit will be awarded for only one course. Three lecture hours weekly.)
This course will address a variety of entertainment and news content in print and electronic media. In studying the social construction of race and gender, we will consider and investigate all sides of issues. The focus of this course is on contemporary media texts examined within their historical context. Students will learn methods of media analysis and apply them to the study of various media texts. Additionally, we will explore the connections among media representations of race and gender and other social constructions, which will include class, ethnicity, sexual orientation, age, and disability. In covering race, the course will address the experiences of African-Americans, Native Americans, Asian-Americans, Arab-Americans, and Latinos in the United States. With regard to gender, this course will address the social construction of femininity as well as masculinity. (CSU/UC) AA/AS Areas C and G, CSU Area D-3 or D-4, IGETC Area 4

COMM 249  Directed Study
(1-3 units)(Please see Directed Study category.) (CSU w/limit)

COMPUTER INFORMATION SYSTEMS
The Computer Information Systems curriculum is designed to provide education for computer-related careers, professional advancement, and transfer preparation. Courses provide “hands-on” computer use that emphasizes the development of the skills nec-
essay for employment and personal use of computers. Program specialties include desktop network, desktop publishing, microcomputer manager, and microcomputer programmer.

Career Options
Computer Sales Representative, Computer Software Specialist, Desktop Publishing Specialist, Hardware and Software Consultant, Help Desk Technician, Microcomputer Applications Specialist, Microcomputer Manager, Microcomputer Software Support Technician, Network Technician, Programmer, Systems Administrator, Systems Integrator

Faculty
John Hinds, Robert P. Kennedy, Michael Ransom, A. Joe Ritchie, Lawrence M. Tjernell

Department Phone: (415) 485-9610

Transfer
Students planning to transfer to a four-year institution should complete the lower division major requirements and general education pattern for the appropriate transfer institution and major. Exact major requirements for UC and CSU institutions can be found on www.assist.org. Please see a counselor for more information as curriculum requirements may vary among transfer universities.

Repeatability Policy Statement for Computer Information Systems Courses
Students must petition to repeat any course in Computer Information Systems for the purpose of meeting the two-year currency requirement for a degree or skills certificate.

A.S. in Computer Information Systems, Occupational

(Certificates of Achievement in Desktop Network Specialty, Desktop Publishing Specialty, Microcomputer Manager Specialty, and Microcomputer Programmer Specialty are awarded. Skills Certificates in Desktop A+ Centered, Microsoft Office Database Specialist, Microsoft Office Specialist, Network Security, Print Production, and Web Programming are also awarded.)

Study in the field of Computer Information Systems is designed to prepare students for entry-level positions. Specialty programs include Desktop Network Specialty, Desktop Publishing Specialty, Microcomputer Manager Specialty, and Microcomputer Programmer Specialty.

The Associate in Science degree is awarded for completion of all requirements in the core program and chosen specialty, as well as completion of general education and graduation requirements. A Certificate of Achievement is awarded for completion of the core program plus the additional course requirements in each specialty. A Skills Certificate is earned by satisfactory completion of the required courses as listed for the specific Skills Certificate.

Please note: Students may choose English 120, 120SL, or 150 to complete the Associate degree. Transfer students, however, are advised to complete English 150. All students should consult a counselor.

CORE PROGRAM

The following courses are required of all Computer Information Systems degree students:

<table>
<thead>
<tr>
<th>Requirements</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>CIS 110</td>
<td>Introduction to Computer Information Systems</td>
</tr>
<tr>
<td>CIS 113</td>

CIS 237 SQL Programming 1½

Skills Certificates
Skills Certificates are an acknowledgement that the student has attained a specified set of competencies within an occupational program. Skills Certificates may be part of a “ladder” of skills, beginning with job entry skills and leading to a full Certificate of Achievement program or may constitute a skill set that enables a student to upgrade or advance in an existing career. Skills Certificates require less than 18 units and are shorter in duration than the Certificate of Achievement.

Computer Information Systems Courses (CIS)

CIS 39 Selected Topics (Nondegree Applicable)
(½–6 units) (Please see Selected Topics category.)

CIS 101 Introduction to Personal Computers and Operating Systems
(1.5 Units) (No prerequisite. Two lecture and three laboratory hours weekly for eight weeks.)

This introductory course in the operation of the personal computer and its operating system is designed for beginning students with very little or no previous exposure to microcomputers. Students will be introduced to the hardware components, systems software, and applications programs of a personal computer. Through both lecture and laboratory experience, students will gain the skills and confidence necessary to succeed in additional application training courses in spreadsheets, database design, word processing, and Web page construction, as well as the transfer level comprehensive computer concepts course, CIS 110—Introduction to Computer Information Systems. (CSU)

CIS 110 Introduction to Computer Information Systems
(3.0 Units) (No prerequisite. Three lecture hours and one laboratory hour to be arranged weekly.)

This is an introductory survey of the needs for and roles of computer information systems within organizations. Emphasis is on computer requirements for organizations, history, hardware, programming, systems development, personal computers, Internet, and networks. Students will work with personal computers using application software for word processing, spreadsheets, and databases. Programs will be written and run in a high level language. This course is of interest to students in social sciences, humanities, vocational technical education, and business. Can also be offered in a distance learning format. (CSU/UC) CAN BUS 6
CIS 113 Presentations and Publications
(1.5 Units) (No prerequisite. Advisory: Computer Information Systems 101. Two lecture and three laboratory hours weekly for eight weeks.)

This course introduces the fundamental design and layout requirements for the creation of effective computer-generated presentations and printed documents for business. The course's lecture component focuses on the operation of software that aids in the creation of color presentations, business graphics, and standard printed documents (e.g., stationery, business cards, flyers, and brochures). The lab component allows students to learn and practice the operation of at least one of three software packages (presentation, business graphics, and page layout). Basic layout, composition, and issues regarding typography, use of color, and choice of various output media are the underlying and unifying topics for the course. (CSU)

CIS 114 Print Design and Layout
(1.5 Units) (Prerequisite: Computer Information Systems 113. Two lecture and three laboratory hours weekly for eight weeks.)

This course introduces the student to the operation of professional-level print design and layout software for the production of documents such as business forms, brochures, newsletters, posters, flyers, business identity materials, and other printed pieces. The course does not present fundamental design concepts per se; rather, it focuses on the functions of the tools of design, such as layout software and complementary graphics editing software. In addition, students will learn about the print publishing cycle, its component parts and its contributing experts. (CSU)

CIS 115 Print Production
(2.0 Units) (Prerequisite: Computer Information Systems 114. Three lecture and three laboratory hours weekly for eight weeks.)

This course follows CIS 114 in a sequence leading to an internship assignment or entry-level work in the digital print publishing industry. In this course, students use software tools (design and layout programs, graphic editing software, text editing software) to design and produce documents ready for the press. Students will work with computers configured in a local area network with shared resources, practice basic operations of vector and bitmapped graphics software, complete production jobs using professional-level layout software, and apply new terms and concepts of the digital publishing industry in planning and spec-ing print production jobs. (CSU)

CIS 117 Introduction to Database Design and Programming
(1.5 Units) (No prerequisite. Advisory: Computer Information Systems 101. Two lecture and three laboratory hours weekly for eight weeks.)

This is a first course in the design and installation of a database for personal computers. Students will use a personal computer database software program to create and program database applications. (CSU)

CIS 118 Introduction to Spreadsheet Design
(1.5 Units) (No prerequisite. Advisory: Computer Information Systems 110 or 101. Two lecture and three laboratory hours weekly for eight weeks.)

In this first course in the design and application of spreadsheets for personal computers, students will use a personal computer spreadsheet software program to design, create, and use spreadsheets for accounting, and other business applications. (CSU)

CIS 122 Networking Essentials
(1.5 Units) (No prerequisite. Advisory: Computer Information Systems 101. Three lecture hours weekly for eight weeks.)

This course will cover the basic concepts of networks, including hardware, planning, implementation, and troubleshooting through the development of a case study. (CSU)

CIS 126 Introduction to Windows
(1.5 Units) (No prerequisite. Advisory: Computer Information Systems 101. Two lecture and three laboratory hours weekly for eight weeks.)

This course provides an introduction to Windows for personal computers. Topics include Windows environment, menus and dialog boxes, folder management, Explorer, disk maintenance, and other Windows tools. (CSU)

CIS 127 Intermediate Database Design
(1.5 Units) (Prerequisite: Computer Information Systems 117. Two lecture and three laboratory hours weekly for eight weeks.)

This is a continuation of CIS 117. Students will use the advanced features of database software to design and implement database applications. Database applications will be created using development tools to integrate information from other applications, analyze data, utilize Internet capabilities, include forms for data input and validation, produce custom reports, and integrate databases for workgroups. (CSU)

CIS 128 Intermediate Spreadsheet Design
(1.5 Units) (No prerequisite. Advisory: Computer Information Systems 118. Two lecture and three laboratory hours weekly for eight weeks.)

This is a course that will further prepare students in their ability to create and to use accurate electronic spreadsheets on a personal computer. Students will learn techniques of designing business-oriented spreadsheets on a personal computer. Students will learn how to plan, write, and execute program codes to manipulate a data management software package to meet management, marketing, and other business needs. (CSU)
CIS 137 Advanced Database Design
(1.5 Units) (No prerequisite. Advisory: Computer Information Systems 127. Two lecture and three laboratory hours weekly for eight weeks.)

This is a course extending students’ database application development knowledge using Access. Students will concentrate on advanced topics and techniques such as designing complex forms and reports, customizing the user interface, action queries and SQL, using Visual Basic for Applications, error handling, ActiveX Controls, security, and connecting to the Web. (CSU)

CIS 139 Selected Topics
(½-6 units) (Please see Selected Topics category.) (CSU/UC w/limit)

CIS 141 Introduction to HTML Programming
(1.5 Units) (No prerequisite. Advisory: Computer Information Systems 110 or 101. Two lecture and three laboratory hours weekly for eight weeks.)

Hypertext Markup Language (HTML) is the language of the World Wide Web. In this class students will learn how to design, code, and implement Web pages using HTML. The focus of this beginning class will be creating pages with textual and limited inline image data and links for both Internet and Local Area Network Intranet applications. (CSU)

CIS 142 Intermediate HTML and Scripting
(1.5 Units) (No prerequisite. Advisory: Computer Information Systems 141. Two lecture and three laboratory hours weekly for eight weeks.)

This class is a continuation of CIS 141. Students will build on their knowledge of HTML and learn elementary client-side programming in JavaScript to add animation and interactive data exchange to Web pages. (CSU)

CIS 143 Designing Web Sites
(1.5 Units) (No prerequisite. Advisory: Computer Information Systems 142. Two lecture and three laboratory hours weekly for eight weeks.)

This course teaches students how to design and implement Web sites using Microsoft FrontPage. Students who understand how to use a simple text editor to develop source documents incorporating HTML, JavaScript, DHTML and server-side form handlers will learn how a Web site editor creates static and dynamic pages. Additionally, FrontPage’s site management features will be fully explored. (CSU)

CIS 150 Personal Computer Server and Workstation Operating Systems
(2.0 Units) (Prerequisite: Computer Information Systems 122. Three lecture and three laboratory hours weekly for eight weeks.)

A course for students who will install, configure, and maintain network server and workstation operating systems. Students will configure client profiles and server roles in a network environment. (CSU)

CIS 151 Implementing and Administering a Network Infrastructure for a Personal Computer Server
(1.5 Units) (Prerequisite: Computer Information Systems 150. Two lecture and three laboratory hours weekly for eight weeks.)

This is a course for students who will install, configure, manage, monitor and troubleshoot a network server operating system infrastructure. This course concentrates on the following network services: DHCP, DNS, remote access, network protocols, IP routing and NetBios naming conventions within a network server-based operating environment. (CSU)

CIS 153 Implementing and Administering a Directory Services Infrastructure for a Personal Computer Server OS
(1.5 Units) (Prerequisite: Computer Information Systems 150. Two lecture and three laboratory hours weekly for eight weeks.)

This is a course for students who will install, configure, manage, monitor and troubleshoot Directory Services for a network server operating system. This course concentrates on the following: Directory Services and DNS, security and Directory Services within a network server-based operating environment. (CSU)

CIS 155 Designing Security for a Personal Computer Server Operating System
(1.5 Units) (Prerequisite: Computer Information Systems 150. Advisories: Business 101 and 112. Two lecture and three laboratory hours weekly for eight weeks.)

This is a course for students who will design and implement a security system to meet the business requirements of a network server operating system infrastructure. This course includes analysis of security system requirements, auditing access to resources, authenticating users, and encryption. (CSU)

CIS 158 Managing a Personal Computer Network Environment
(1.5 Units) (Prerequisite: Computer Information Systems 122. Advisory: Computer Information Systems 150. Two lecture and three laboratory hours weekly for eight weeks.)

This course provides students with experience managing a network which is based on a personal computer server operating system. Students will develop skills necessary to manage, monitor, and troubleshoot a personal computer network environment. Students will develop skills in setting up file, print and Web servers. Students will learn to manage, monitor, and troubleshoot the Active Directory structure in a network as well as explore software deployment and group policy implementation. The process of setting up Remote Access, VPNs and Terminal Services in a network will be developed by hands-on practice with network server operating systems. (CSU)
CIS 159  Computer Network Security Basics (1.5 Units) (Prerequisite: Computer Information Systems 122. Advisory: Computer Information Systems 153. Two lecture and three laboratory hours weekly for eight weeks.)

This course is designed to prepare the student to support, monitor, configure, and test basic security features applied to personal computer networks. The goal of this course is to provide the student with a fundamental understanding of network security. Students explore principles applied in a network. They will learn how to implement a variety of security settings for data and services. (CSU)

CIS 161  Introduction to Computer System Hardware (1.5 Units) (No prerequisite. Two lecture and three laboratory hours weekly for eight weeks.)

This is a course that brings students up-to-date with the latest technology covered by the A+ exams. For the more experienced user, the course provides a fresh review and focus on what is required to meet the objectives of the A+ exams. (CSU)

CIS 162  Computer Operating Systems (1.5 Units) (No prerequisite. Two lecture and three laboratory hours weekly for eight weeks.)

This is a course that brings students up-to-date with the latest operating systems covered by the A+ exams. For the more experienced user, the course provides a fresh review and focus on what is required to meet the objectives of the A+ exams. (CSU)

CIS 163  Computer System Peripherals (1.5 Units) (No prerequisite. Two lecture and three laboratory hours weekly for eight weeks.)

This is a course that brings students up-to-date with the latest system peripherals included in the A+ exams. The course covers the installation, testing, troubleshooting, and maintenance of devices such as printers, disk drives, and monitors. (CSU)

CIS 164  Troubleshooting System Peripherals and Networking (1.5 Units) (No prerequisite. Two lecture and three laboratory hours weekly for eight weeks.)

In this course, students develop the skills necessary to identify and resolve computer system hardware and operating system software problems. Included in this course are the networking concepts relating to system troubleshooting. (CSU)

CIS 200  Software Certification Test Preparation (0.5 Unit) (No prerequisite. Advisories: Business Office Systems 114 or Computer Information Systems 117 or 118. One and one half laboratory hours weekly.)

In this course, students work with computer software to evaluate skill level in selected application software and prepare for software certification tests. May be taken four times for credit. (CSU)

CIS 213N  Internship in Networking (3.0 Units) (Prerequisites: Computer Information Systems 150, 158. Corequisites: Computer Information Systems 151 or 153 or 155. Advisories: Computer Information Systems 161, 162. Two lecture and three laboratory hours weekly.)

This course bridges the gap between the classroom and the networking industry by providing an on-campus lecture class coupled with a short-term internship. Students gain an understanding of real networking work situations and expectations in a “real-life” context characterized by workgroup activities, multiple projects under deadline, and collaborative effort. Internships are not guaranteed. Projects may be suitable for students’ portfolios. (CSU)

CIS 213P  Internship in Print Publishing (3.0 Units) (Prerequisite: Computer Information Systems 115. Two lecture and three laboratory hours weekly.)

This course bridges the gap between the classroom and the printing industry by providing an on-campus lecture class coupled with a short-term internship. Students gain an understanding of real print production work situations and expectations in a “real-life” context characterized by workgroup activities, multiple projects under deadline, and collaborative effort. Internships are not guaranteed. Projects may be suitable for students’ portfolios. (CSU)

CIS 215  Visual BASIC Programming (3.5 Units) (No prerequisite. Advisory: Computer Information Systems 110. Three lecture and two laboratory hours weekly.)

The students will plan and create their own interactive Windows applications using Visual BASIC on a personal computer. Problems will be presented in logic and computation to develop skill in developing interactive BASIC programs. (CSU/UC) AA/AS Area E

CIS 237  Introduction to SQL Programming (1.5 Units) (No prerequisite: Advisory: Computer Information Systems 137. Two lecture and three laboratory hours weekly.)

This is a course extending students’ relational database application development knowledge using SQL. Students will concentrate on learning the SQL programming language including: single and multiple-table queries, updating data, database administration, reports and embedded SQL. (CSU)

CIS 249  Directed Study (1-3 units)(Limit to Enrollment: Successful completion of twelve units in Computer Information Systems.)

This course is designed to give the student an opportunity for independent study in computer information systems. The student plans a project under the guidance of a computer information systems instructor. Evaluation is through reports and conferences and a final written report of the student’s work and findings. This course may be taken more than once for credit. (CSU/UC w/limit)
COMPUTER SCIENCE

Computers play an integral role in many professional fields today: architecture and design, graphics and animation, writing and editing, physical and social sciences, research and medicine, and many more. In computer science classes, students learn skills and applications that prepare them to enter the field as a software or hardware programmer, an application designer, or as an expert end-user.

Career Options

Faculty

Frederick G. Schmitt

Transfer

Students planning to transfer to a four-year institution should complete the lower division major requirements and general education pattern for the appropriate transfer institution and major. Exact major requirements for UC and CSU institutions can be found on www.assist.org. Please see a counselor for more information as curriculum requirements may vary among transfer universities.

A.S. in Computer Science

With the rapid growth of computer and related technologies, preparation for a career in the computer sciences involves a course of study in the areas of basic science, mathematics and electrical engineering. There are two educational programs available to students interested in the computer sciences. The two areas are: (1) electrical engineering and computer science; and, (2) information science and software engineering. The student interested in computer architecture and design, control systems and communication theory, should consider electrical engineering and computer science programs (see A.S. in Engineering description). The information science and software engineering program will prepare those students interested in operating system and compiler design, graphics, and theoretical computer science, as described in the program below. Due to the diversity among degree programs, a student who plans to obtain a degree in computer science from a four-year college or university should examine carefully all relevant transfer information concerning the particular program.

Please note: Students are required to complete English 150 for the Associate degree. All students should consult a counselor.

Computer Science Courses (COMP)

COMP 110 and 112: pass/no pass only
All other courses: Letter grade or pass/no pass.
In general, courses required for a transfer student’s four-year major should be taken on a letter grade basis.

COMP 039 Selected Topics (Nondegree Applicable)

(½-6 units) (Please see Selected Topics category.)

COMP 075 Selected Applications

(1.0 Unit) (Prerequisite: Computer Science 110. Three laboratory hours weekly.)

This course offers experienced students the opportunity to further explore selected application packages running on the UNIX operating system on the Science Center computer. Applications include word processing, typesetting, the writer’s workbench, graphing with Plot2d, the UNIX operating system, databases and others. This is a self-paced, self-directed course. May be taken four times for credit.

COMP 110 Introduction to Computers

(1.0 Unit) (No prerequisite. One-half lecture and one and one-half laboratory hours weekly.)

This course is an introduction to the computing facilities available on the Science Center computers. Students will learn the fundamentals of both the DOS and UNIX operating systems; how to log on, use an editor, manage files and send electronic mail. A brief introduction to graphing, statistics, and programming packages is also included. (CSU)

COMP 112 Introduction to UNIX

(0.5 Unit) (Prerequisite: Competence in any computer language. Two lecture hours weekly for four weeks.)

An accelerated introduction to the UNIX operating system for experienced programmers; how to log on, use an editor, manage files, and send electronic mail. (CSU)
COMP 115  Technical BASIC Programming
(1.5 Units) (No prerequisite. Two lecture and three laboratory hours weekly for eight weeks.)
This course is designed to introduce technical students to computers and computer programming using the BASIC language. (CSU)

COMP 117  Discrete Mathematics
(3.0 Units) (Prerequisite: Math 121 or 123. Also offered as Math 117. Students may receive credit for Computer Science 117 or Math 117, but not for both courses. Three lecture hours weekly.)
This course is a survey of topics including set theory, combinatorics, graph theory, algorithm, logic, Boolean algebra, formal languages, and probability theory. Recommended for mathematics majors and students interested in engineering and applied fields. (CSU/UC) CSU Area B-4, IGETC Area 2

COMP 130  Introduction to Computer Programming
(4.0 Units) (Prerequisites: Math 103 and Computer Science 110. Computer Science 110 may be taken concurrently. Three lecture and three laboratory hours weekly.)
This course offers an introduction to problem solving using a structured, object-oriented programming language like C/C++ for those without prior programming experience. Examples and programming assignments are drawn from many areas, involving both numerical and non-numerical applications. (CSU/UC) AA/AS Area E

COMP 135  Introduction to Programming in Java
(4.0 Units) (Prerequisite: Math 103 or 103XY. Three lecture and three laboratory hours weekly.)
This course teaches students how to use a structured, object-oriented approach to build Java applications that solve real-world problems, and applets that can be deployed on a Web page. Principles of structured programming are illustrated with primitive data types and operations, control statements, arrays, and strings. Object-oriented programming discusses methods, objects, and classes, and continues with inheritance, polymorphism, abstract classes, and interfaces. Graphics programming and graphical user interfaces are emphasized along with event-driven programming and exception handling. Topics from multimedia and simple file input/output are also discussed. (CSU/UC) AA/AS Area E

COMP 136  Advanced Java
(4.0 Units) (Prerequisite: Computer Science 135 or equivalent. Three lecture and three laboratory hours weekly.)
This course will cover Java methods for exception processing and input/output; concurrency, networking and internationalization in Java; advanced graphical user interfaces; topics from Java database programming and servlets; and JavaServer pages and remote method invocation. (CSU) AA/AS Area E

COMP 139  Selected Topics
(½-6 units)(Please see Selected Topics category.) (CSU/UC w/limit)

COMP 140  Fundamentals of Programming in FORTRAN
(4.0 Units) (Prerequisites: Math 121 or 123 and Computer Science 110. Both Math 121 or 123 and Computer Science 110 may be taken concurrently. Three lecture and three laboratory hours weekly.)
The complete standard FORTRAN 77 programming language. Emphasis is on problem solving and numerical methods, with applications to physical sciences, mathematics, engineering, and economics. (CSU/UC) AA/AS Area E

COMP 150A  Introduction to Computers for Scientists and Engineers
(2.0 Units) (Prerequisites: Math 104 and 105. Two lecture hours weekly.)
This course is an introduction to computer tools and techniques useful for scientific data analysis and problem solving. The course makes use of spreadsheet software (such as Microsoft Excel) and the MATLAB programming language. Students learn to perform routine data analysis, including use of mathematical equations, statistical analysis, graphing, and curve fitting, as well as basic programming structures and a variety of problem-solving techniques involving algebraic and trigonometric equations. (CSU/UC)

COMP 150B  Programming in MATLAB for Engineers
(2.0 Units) (Prerequisites: Computer Science 150A and Math 123. Two lecture hours weekly.)
Designed to meet computer programming requirements for engineering transfer students, when combined with the prerequisite COMP 150A course. Students outline, write, test, and debug computer programs to solve problems and display results, with emphasis on proper documentation of computer code and reports. Common examples and applications of physics and engineering are used throughout the course. (CSU/UC)

COMP 160  Computer Organization: An Assembly Language Perspective
(3.0 Units) (Prerequisite: Computer Science 130 or 140 or 230. Three lecture hours weekly.)
Description of a digital computer from a hardware point of view including organization of memory, registers, the central processing unit, peripheral devices, and control and data paths. (CSU/UC)
COMP 190 Prolog: Logic Programming and Artificial Intelligence
(3.0 Units) (Prerequisite: Competence in a programming language. Three lecture hours weekly.)
This course is an introduction to Prolog, a declarative, procedural programming language. Applications to problems in logic, expert systems, and artificial intelligence. Examples of windowing, graphics, and sound using Turbo Prolog. (CSU/UC)

COMP 200 Programming in LISP
(3.0 Units) (Prerequisite: Computer Science 130 or 190 or 230. Three lecture hours weekly.)
Fundamentals of symbolic computation using the LISP programming language, with special emphasis on the widely implemented Franz LISP dialect. Introduction to some of the principles and programming techniques used in artificial intelligence, with elementary applications to a wide variety of problems and areas such as heuristic problem solving, game playing, natural language processing, knowledge representation, pattern recognition, and associative database systems. (CSU/UC) AA/AS Area E

COMP 220 Data Structures and Algorithms
(3.0 Units) (Prerequisite: Computer Science 130 or 230. Three lecture hours weekly.)
This is a second programming course emphasizing the systematic design and implementation of larger programs, often using recursion. Topics include fundamental and self-adjusting dynamic data structures, specifically lists, stacks, queues, trees, graphs, and hash tables, with methods for their construction and maintenance; efficient algorithms for searching and sorting; string and file processing; and elementary principles of software engineering, object-oriented methods, and abstract data types. (CSU/UC)

COMP 230 Programming in C
(3.0 Units) (Prerequisite: Computer Science 130 or 140. Students without UNIX experience may take Computer Science 110 concurrently. Three lecture hours weekly.)
An introduction to the C programming language and to some of the advanced programming techniques it makes possible. (CSU/UC) AA/AS Area E

COMP 232 Programming in JAVA
(3.0 Units) (Prerequisite: Computer Science 230. Three lecture hours weekly.)
This course explains how to use a structured, object-oriented approach to build Java applications and applets. Principles of structured programming are illustrated with primitive data types and operations, control statements, arrays, and strings. Object-oriented programming begins with a discussion of methods, objects, and classes, and continues with class inheritance, polymorphism, abstract classes, and interfaces. Graphics programming and graphical user interfaces are introduced along with event-driven programming and exception handling. Some topics from internationalization, multithreading, multimedia, file input/output, and networking may also be covered. (CSU/UC)

COMP 235 Programming in C++
(3.0 Units) (Prerequisite: Computer Science 230. Three lecture hours weekly.)
An introduction to the C++ programming language and to object-oriented programming concepts such as data abstraction, encapsulation, polymorphism, user-defined types, and inheritance. (CSU/UC)

COMP 249 Directed Study in Computer Science
(1-3 units) (Limit to Enrollment: A grade of "B" or higher in introductory computer courses such as Computer Science 140 or Computer Information Systems 110. Prior arrangement with the instructor is necessary.)
This offering is designed to encourage individual students to pursue studies in computer science not provided either in the program or in their foreseeable formal study elsewhere. (CSU/UC w/limit)

COUNSELING
Counseling courses are designed to provide an in-depth exploration into the process of self-knowledge. The courses are specifically intended to enhance student study habits, provide insights into career possibilities, and establish suitable educational planning. Courses are taught both informally and experientially in order to arrive at a realistic view of oneself and to enable students to better assess their potential for making informed decisions. In addition to the established offerings, special topics are offered periodically in response to student interest.

Faculty
Rinetta Early, Robert E. Flynn, Theodora F. Fung, Bruce Furuya, Letta Hlavachek, Alexandra Magallanes, Bessie Ng-Jung, Karen Robinson, Joetta S. Tenison-Scott, Rose Thompson, Wendy Ullman, Charles E. Williams, Toni Wittenmeier

Department Phone: (415) 485-9431
Disabled Students: (415) 485-9406

Counseling Courses (COUN)

COUN 039 Selected Topics (Nondegree Applicable)
(½-6 units) (Please see Selected Topics category.)
COUN 070  Interpersonal Skills and Guidance  
(0.5-1 Unit) (Prerequisite: Disabled student. One and one-half laboratory hours weekly for one-half unit and three laboratory hours weekly for one unit.)  
This course is designed to help disabled students discover avenues for realizing their best qualities in interpersonal communication and in life situations. Offers special guidance in learning confidence and ways to achieve best potential. Students are encouraged to share backgrounds, problems, and achievements with instructor and group. May be repeated for credit.

COUN 114  College Success Investigations  
(3.0 Units) (No prerequisite. Three lecture hours weekly.)  
This course is designed to introduce individuals to the role of higher education in society and understanding their role as students within the academic community. The course focuses on academic and career planning, study skills, team development and self-understanding. Students will function as an interdependent group, supporting each other in a broad range of educational and personal issues. Faculty from a variety of disciplines will do presentations designed to assist students in their academic and career planning. (CSU/UC)

COUN 115A  Planning for Success in College A  
(0.5 Unit) (No prerequisite. One-half lecture hour weekly for one-half unit.)  
This course will focus on how to successfully prepare to transfer to UC, CSU, and private universities and colleges. Topics will include developing an educational plan and selecting courses for transfer, admission criteria and the review process, choosing a college major, developing an effective personal statement, completing applications, and use of Internet resources. (CSU)

COUN 115B  Planning for Success in College B  
(1.0 Unit) (No prerequisite. One lecture hour weekly for one unit.)  
This course will focus on how to successfully prepare to transfer to UC, CSU, and private universities and colleges. Topics will include developing an educational plan and selecting courses for transfer, admission criteria and the review process, choosing a college major, developing an effective personal statement, completing applications, and use of Internet resources. (CSU)

COUN 120  Educational Planning  
(0.5 Unit) (No prerequisite. One hour weekly for eight weeks.)  
This course is designed to assist students to select their major and to plan their educational programs. Can also be offered in a distance learning format. (CSU)

COUN 125  How to Study Effectively  
(1.0 Unit) (No prerequisite. Sixteen lecture hours per semester.)  
This course is designed to introduce the student to proven study techniques including assessing learning styles, time management, stress reduction, listening and lecture note taking, efficient textbook reading, preparing for exams, improving memory, and critical thinking and writing. (CSU)

COUN 125L  Effective Study Skills Lab  
(0.5 Unit) (No prerequisite. Two laboratory hours weekly.)  
This course provides students the opportunity to assess their current study skills, and in the lab setting develop and practice proven study techniques in effective textbook reading, active listening, lecture note taking, exam preparation, memory and concentration improvement, and time budgeting. May be taken four times for credit. (CSU)

COUN 130  Career Life Skills Planning  
(3.0 Units) (No prerequisite. Three lecture hours weekly.)  
This course focuses on the determination of personal and professional life goals using a reflective model of decision-making that integrates theory and practice that is applicable in a variety of situations over an individual's lifespan. Through a study of career decision making, students explore the impact of psycho-social, physical and affective factors on their own cognitive processes. This comprehensive approach to career planning will include exploration of interests, personality traits, values, and motivations. Self-knowledge and understanding of the globalization of the workforce will address understanding workplace cultural pluralism, technological awareness, and one's role and impact in the workforce on the environment. Career planning will address linkages to choosing a college major, educational planning, changing jobs and career fields. (CSU) CSU Area E

COUN 132  Computerized Career Planning  
(0.5 Unit) (No prerequisite. One and one-half independent study hours weekly.)  
A self-directed study focusing on one's vocational interests and career utilizing a computerized guidance system, Eureka. Various assessment inventories will be used in conjunction with the Eureka Guidance System, counseling services, and current literature topics in vocational guidance. This course is designed to aid the student in making more effective career decisions. (CSU)

COUN 133A  Career Exploration A  
(0.5 Unit) (No prerequisite. One and one-half lecture hours weekly.)  
This is a short course introducing self-assessment including interests, skills, values, and personality style, as it relates to career transition and choosing a major. (CSU)

COUN 133B  Career Exploration B  
(1.0 Unit) (No prerequisite. One lecture hour weekly.)  
This course provides the student with a practical approach to making career and educational decisions. Self-assessment inventories and assignments will help students discover their interests, values, skills, and personality style. Students will learn to make career decisions that are compatible with their unique personality and interests. (CSU)
COUN 135  Effective Job Search Strategies  
(0.5 Unit) (No prerequisite. Eight lecture hours per semester.)  
This course provides practical step-by-step instructions for the 
job search process. Emphasis will be on career testing, job hunt-
ing methods and techniques, resume and cover letter prepara-
tion, and interviewing and follow-up procedures. (CSU)

COUN 139  Selected Topics  
(½-6 units) (Please see Selected Topics category.) (CSU w/limit)

COUN 140  Effective Communication for Peer 
Counselors  
(2.0 Units) (No prerequisite. One lecture and three laboratory hours 
weekly for one-half semester.)  
A course designed to train students who will work with peo-
ple to be more effective in their interpersonal communication. 
(CSU)

COUN 141  Peer Counseling  
(1.0 Unit) (Prerequisite: Counseling 140. One lecture and three labo-
ratory hours weekly for one-half semester.)  
A course designed to train students to be effective peer coun-
selors. (CSU)

COUN 142  Peer Counseling Seminar and Field 
Experience  
(2.0 Units) (Prerequisite: Counseling 141. One lecture and three 
laboratory hours weekly.)  
During the lecture/seminar hour, emphasis will be on topics 
pertaining to fieldwork experience. In addition, students will 
work three hours per week as peer counselors. (CSU)

COUN 153A  Group Process A  
(0.5 Unit) (No prerequisite. One-quarter lecture and three-quarter 
laboratory hour weekly.)  
This course is designed to provide students an opportunity 
to participate in a small group experience for the purpose of ex-
amining their behavior and the concepts of group behavior. The 
group will function as a mini-laboratory to improve self-aware-
ness and communication with others according to individual 
needs and interests. (CSU)

COUN 153B  Group Process B  
(1.0 Unit) (No prerequisite. One-half lecture and one and one-half 
laboratory hours weekly.)  
This course is designed to provide students an opportunity 
to participate in a small group experience for the purpose of ex-
amining their behavior and the concepts of group behavior. The 
group will function as a mini-laboratory to improve self-aware-
ness and communication with others according to individual 
needs and interests. May be taken four times for credit. (CSU)

COURT REPORTING  
The Court Reporting Program is designed for students interested 
in acquiring the skill necessary to secure employment as a verba-
tim reporter in our courts of law and legal and business offices.

Career Options  
Convention Reporter, Court Reporter, Deposition Reporter, Free-
lance Reporter, Hearing Reporter

Faculty

A.S. in Court Reporting, Occupational, 
Machine Shorthand Option in Legal or Medical 
Secretary, Scopist, Medical Transcriptionist, or 
Text Entry Specialist  
(Certificate of Achievement also awarded)

The Machine Shorthand Option is offered only at the Indian Val-
ley Campus. This curriculum offers the student an opportunity 
to prepare for careers as a legal or medical secretary, scopist for 
court reporters, medical transcriptionist, or text entry special-
ist. The courses will also partially fulfill the Certified Shorthand 
Reporters Board requirements to “qualify” to take the State 
Certified Shorthand Reporters Examination. An Associate in Sci-
dence degree in Court Reporting, Machine Shorthand Option is 
earned by completing the courses listed below and the College 
of Marin graduation requirements. A Certificate of Achievement 
is awarded for satisfactory completion of all courses required for
the major. Arrangements must be made by the student for the rental or purchase of a shorthand machine. The total length of time it takes to complete the machine shorthand skill requirements varies with each student.

Please note: Students may choose English 120, 120SL, or 150 to complete the Associate degree. Transfer students, however, are advised to complete English 150. English 95, 96, 97, 98A, and 98B are required in order to “qualify” to take the state licensing examination. All students should consult a counselor.

A.S. in Court Reporting, Occupational, Certified Shorthand Reporter Option

(Certificate of Achievement also awarded)

The Certified Shorthand Reporter Option is offered only at the Indian Valley Campus. This program in conjunction with the academic courses required for the Machine Shorthand Option will fulfill the Certified Shorthand Reporters Board requirements to “qualify” to take the State Certified Shorthand Reporters Examination. An Associate in Science degree in Court Reporting, Certified Shorthand Reporters Option, is earned by completing the courses listed below, the academic courses required for the Machine Shorthand Option, and the College of Marin graduation requirements. A Certificate of Achievement is awarded for satisfactory completion of all required courses for the major. The total length of time it takes to complete the machine shorthand skill requirements varies with each student.

Please note: Students may choose English 120, 120SL, or 150 to complete the Associate degree. Transfer students, however, are advised to complete English 150. English 95, 96, 97, 98A, and 98B are required in order to “qualify” to take the state licensing examination. All students should consult a counselor.

PREREQUISITES

Completion of:

Court Reporting 110, 112, 115FJST, 125FJST, 150JT, 165, 166, 167, 169A, 169B, 169C, 170; English 95*, 96*, 97*; 98AB*; Medical Assisting 120, 121.

* Applied toward the Certificate of Achievement only.

Court Reporting Courses (COUR)

Students must earn a letter grade in order to progress to the next skill level. Students must also register for eight units of skill-building classes each semester to satisfy a Court Reporters Board of California regulation.

COUR 039 Selected Topics (Nondegree Applicable)
(½-6 units)(Please see Selected Topics category.)

COUR 090 Legal Careers
(1.0 Unit) (No prerequisite. One lecture hour weekly.)

The student will explore the profession of law and related career opportunities including the practice of law, court reporting, paralegal, sales and marketing to the legal profession, administration of justice (police work, etc.), fiduciary administration (estates, trusts), and legal technology. Can also be offered in a distance learning format.

COUR 110 Theory of Machine Shorthand
(8.0 Units) (Prerequisite: Ability to type 30 words-a-minute. Five lecture and nine laboratory [four unsupervised] hours weekly.)

The student will study the theory and operation of the stenotype machine. This course is designed to develop knowledge of stenotype theory, machine dexterity, fluent reading of stenotype notes, and the ability to take dictation between 60 and 80 wpm for three minutes with better than 98% accuracy. Students will arrange for the rental or purchase of a stenotype machine at the student's expense prior to the first class meeting. Can also be offered in a distance learning format. (CSU)

COUR 112 Beginning Machine Shorthand Workshop: Level I
(4.0 Units) (Prerequisite: Court Reporting 110. Corequisites: Court Reporting 115J and 115T. Two and one-half lecture and four and one-half laboratory [two unsupervised] hours weekly.)

The student will complete the machine shorthand theory textbook. This course is designed to conclude the new stenotype theory principles; develop stenotype machine dexterity, improve fluent reading of stenotype notes; and the ability to take dictation at 75 wpm on 2-minute "Mandatory, Brief, and Phrase" tests and 3-minute unfamiliar Literary material with at least 90% accuracy; and continue the development of technical, medical, legal, and general vocabulary, as well as familiarization with current events. The student will simulate the role of court reporter in a variety of situations. May be taken four times for credit. (CSU)

COUR 115F Beginning Machine Shorthand Four-Voice: Level II-F
(2.0 Units) (Prerequisite: Court Reporting 112. Total of eight units of machine shorthand required. One and one-quarter lecture and two and one-quarter laboratory [one unsupervised] hours weekly.)

This course is designed to develop stenotype machine dexterity; improve fluent reading of stenotype notes; the ability to take dictation at 100 wpm on 4-minute 4-Voice tests with at least 90% accuracy; and continue the development of technical, medical, legal, and general vocabulary, as well as familiarization with current events. The student will simulate the role of court reporter in a variety of situations. May be taken four times for credit. (CSU)

COUR 115J Beginning Machine Shorthand Jury Charge: Level II-J
(2.0 Units) (Prerequisite: Court Reporting 110. Total of eight units of machine shorthand required. One and one-quarter lecture and two and one-quarter laboratory [one unsupervised] hours weekly.)

This course is designed to develop stenotype machine dexterity; improve fluent reading of stenotype notes; the ability to take dictation at 100 wpm on 3-minute Jury Charge tests with at least 90% accuracy; and continue the development of technical, medical, legal, and general vocabulary, as well as familiarization with current events. The student will simulate the role of court reporter in a variety of situations. May be taken four times for credit. (CSU)

COUR 115S Beginning Machine Shorthand Literary: Level II-S
(2.0 Units) (Prerequisite: Court Reporting 112. Total of eight units of machine shorthand required. One and one-quarter lecture and two and one-quarter laboratory [one unsupervised] hours weekly.)

This course is designed to develop stenotype machine dexterity; improve fluent reading of stenotype notes; the ability to take dictation at 100 wpm on 4-minute Literary tests at least 92.5% accuracy; and continue the development of technical, medical, legal, and general vocabulary, as well as familiarization with current events. The student will simulate the role of court reporter in a variety of situations. May be taken four times for credit. (CSU)
**COUR 115T  Beginning Machine Shorthand Two-Voice: Level II-T**

(2.0 Units) (Prerequisites: Court Reporting 110. Total of eight units of machine shorthand required. One and one-quarter lecture and two and one-quarter laboratory [one unsupervised] hours weekly.)

This course is designed to develop stenotype machine dexterity; improve fluent reading of stenotype notes; the ability to take dictation at 100 wpm on 3-minute 2-Voice tests with at least 90% accuracy; and continue the development of technical, medical, legal, and general vocabulary, as well as familiarization with current events. The student will simulate the role of court reporter in a variety of situations. May be taken four times for credit. (CSU)

**COUR 125F  Intermediate Machine Shorthand Four-Voice: Level III-F**

(2.0 Units) (Prerequisite: Court Reporting 115F. Total of eight units of machine shorthand required. One and one-quarter lecture and two and one-quarter laboratory [one unsupervised] hours weekly.)

This course is designed to develop stenotype machine dexterity; improve fluent reading of stenotype notes; the ability to take dictation at 125 wpm on 5-minute 4-Voice tests with at least 97.5% accuracy; and continue the development of technical, medical, legal, and general vocabulary, as well as familiarization with current events. The student will simulate the role of court reporter in a variety of situations. May be taken four times for credit. (CSU)

**COUR 125J  Intermediate Machine Shorthand Jury Charge: Level III-J**

(2.0 Units) (Prerequisite: Court Reporting 115J. Total of eight units of machine shorthand required. One and one-quarter lecture and two and one-quarter laboratory [one unsupervised] hours weekly.)

This course is designed to develop stenotype machine dexterity; improve fluent reading of stenotype notes; the ability to take dictation at 125 wpm on 5-minute Jury Charge tests with at least 95% accuracy; and continue the development of technical, medical, legal, and general vocabulary, as well as familiarization with current events. The student will simulate the role of court reporter in a variety of situations. May be taken four times for credit. (CSU)

**COUR 125S  Intermediate Machine Shorthand Literary: Level III-S**

(2.0 Units) (Prerequisite: Court Reporting 115S. Total of eight units of machine shorthand required. One and one-quarter lecture and two and one-quarter laboratory [one unsupervised] hours weekly.)

This course is designed to develop stenotype machine dexterity; improve fluent reading of stenotype notes; the ability to take dictation at 125 wpm on 5-minute Literary tests with at least 95% accuracy; and continue the development of technical, medical, legal, and general vocabulary, as well as familiarization with current events. The student will simulate the role of court reporter in a variety of situations. May be taken four times for credit. (CSU)

**COUR 125T  Intermediate Machine Shorthand Two-Voice: Level III-T**

(2.0 Units) (Prerequisite: Court Reporting 115T. Total of eight units of machine shorthand required. One and one-quarter lecture and two and one-quarter laboratory [one unsupervised] hours weekly.)

This course is designed to develop stenotype machine dexterity; improve fluent reading of stenotype notes; the ability to take dictation at 125 wpm on 5-minute 2-Voice tests with at least 95% accuracy; and continue the development of technical, medical, legal, and general vocabulary, as well as familiarization with current events. The student will simulate the role of court reporter in a variety of situations. May be taken four times for credit. (CSU)

**COUR 139  Selected Topics**

(½-6 units)(Please see Selected Topics category.) (CSU w/limit)

**COUR 150F  Intermediate Machine Shorthand Four-Voice: Level IV-F**

(2.0 Units) (Prerequisite: Court Reporting 125F. Total of eight units of machine shorthand required. One and one-quarter lecture and two and one-quarter laboratory [one unsupervised] hours weekly.)

This course is designed to develop stenotype machine dexterity; improve fluent reading of stenotype notes; the ability to take dictation at 150 wpm on 7.5-minute 4-Voice tests with at least 97.5% accuracy; and continue the development of technical, medical, legal, and general vocabulary, as well as familiarization with current events. The student will simulate the role of court reporter in a variety of situations. May be taken four times for credit. (CSU)

**COUR 150J  Intermediate Machine Shorthand Jury Charge: Level IV-J**

(2.0 Units) (Prerequisite: Court Reporting 125J. Total of eight units of machine shorthand required. One and one-quarter lecture and two and one-quarter laboratory [one unsupervised] hours weekly.)

This course is designed to develop stenotype machine dexterity; improve fluent reading of stenotype notes; the ability to take dictation at 150 wpm on 7.5-minute Jury Charge tests with at least 98.2% accuracy; and continue the development of technical, medical, legal, and general vocabulary, as well as familiarization with current events. The student will simulate the role of court reporter in a variety of situations. May be taken four times for credit. (CSU)
COUR 150S  Intermediate Machine Shorthand
Literary: Level IV-S
(2.0 Units) (Prerequisite: Court Reporting 125S. Total of eight units of
machine shorthand required. One and one-quarter lecture and two
and one-quarter laboratory [one unsupervised] hours weekly.)

This course is designed to develop stenotype machine dexterity; improve fluent reading of stenotype notes; the ability to take
dictation at 150 wpm on 5-minute Literary tests with at least 95% accuracy; and continue the development of technical, medical, legal, and general vocabulary, as well as familiarization with current events. The student will simulate the role of court reporter in
a variety of situations. May be taken four times for credit. (CSU)

COUR 150T  Intermediate Shorthand Two-Voice:
Level IV-T
(2.0 Units) (Prerequisite: Court Reporting 125T. Total of eight units of
machine shorthand required. One and one-quarter lecture and two
and one-quarter laboratory [one unsupervised] hours weekly.)

This course is designed to develop stenotype machine dexterity; improve fluent reading of stenotype notes; the ability to take
dictation at 150 wpm on 5-minute 2-Voice tests with at least 98.2% accuracy; and continue the development of technical, medical, legal, and general vocabulary, as well as familiarization with current events. The student will simulate the role of court reporter in
a variety of situations. May be taken four times for credit. (CSU)

COUR 150S  Intermediate Machine Shorthand
Literary: Level IV-S
(2.0 Units) (Prerequisite: Court Reporting 125S. Total of eight units of
machine shorthand required. One and one-quarter lecture and two
and one-quarter laboratory [one unsupervised] hours weekly.)

This course is designed to develop stenotype machine dexterity; improve fluent reading of stenotype notes; the ability to take
dictation at 150 wpm on 5-minute Literary tests with at least 95% accuracy; and continue the development of technical, medical, legal, and general vocabulary, as well as familiarization with current events. The student will simulate the role of court reporter in
a variety of situations. May be taken four times for credit. (CSU)

COUR 150T  Intermediate Shorthand Two-Voice:
Level IV-T
(2.0 Units) (Prerequisite: Court Reporting 125T. Total of eight units of
machine shorthand required. One and one-quarter lecture and two
and one-quarter laboratory [one unsupervised] hours weekly.)

This course is designed to develop stenotype machine dexterity; improve fluent reading of stenotype notes; the ability to take
dictation at 150 wpm on 5-minute 2-Voice tests with at least 98.2% accuracy; and continue the development of technical, medical, legal, and general vocabulary, as well as familiarization with current events. The student will simulate the role of court reporter in
a variety of situations. May be taken four times for credit. (CSU)

COUR 165  Legal Terminology
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

The instructor will cover the following areas: (a) the general
concepts of the law to include real and personal property, negligence and personal injury, contracts, wills, probate and domestic relations, corporate law, insurance, criminal law and equity; (b) procedural law including trial procedures; subpoenas, depositions, appellate procedures, and the structure of the judicial system. Designed for either the legal secretary or the verbatim reporter. Field trips may include the courthouse, law library, jails and prisons. (CSU)

COUR 166  Law Library Skills
(1.5 Units) (No prerequisite. Three lecture hours weekly for eight weeks.)

This course is designed primarily for court reporting and pre-law students and legal secretaries, but is open to all. It introduces students to law libraries as a unique resource of our legal system. Students will explore the basic organization and tools of a law library in the forms of court case reports and other judicial and administrative decisions; state, federal, and local legislation; legal encyclopedias, periodicals and summaries; and citations, abbreviations, and terms used in relation to these tools. The course will include field trips to the law library, and may include field trips to courthouses, jails and prisons. (CSU)

COUR 167  Procedures and Ethics for the Court/
Deposition/CART Reporter
(1.0 Unit) (No prerequisite. Two lecture hours weekly for eight weeks.)

This course explores the career opportunities in court, deposition, and CART reporting, concentrating on the ethics and procedures inherent to these careers. Field trips may include courthouses and deposition agencies. (CSU)

COUR 169A  Computer-Aided Transcription
(2.0 Units) (Prerequisite: Court Reporting 110. Corequisite: Court Reporting 170. Two lecture hours weekly.)

The student will develop knowledge and skill in the use of a computer-aided transcription system. Introduction of the computerized stenotype machine, computer editing, printing, real-time reporting, and multimedia technology in the court reporting industry will be emphasized. Instruction is a combination of lecture/demonstration/simulation on the computer, and class discussion. (CSU)

COUR 169B  Transcript Preparation/Formatting
(1.0 Unit) (No prerequisite. Corequisite: Court Reporting 170. One lecture hour weekly.)

This course emphasizes the transcription of the verbatim record of depositions, hearings, and judicial proceedings with word processing and/or court reporting software. (CSU)

COUR 169C  Rapid Data Entry
(0.5 Unit) (Prerequisites: Court Reporting 110 and Court Reporting 169A. Corequisite: Court Reporting 170. One lecture hour weekly for eight weeks.)

Prepares the students to do computer data entry at 140 plus words-a-minute. The student will develop proficiency in the use of rapid-data-entry software, using the stenotype keyboard as the input and editing device. Instruction is a combination of lecture, demonstration on the computer, and class discussion. (CSU)

COUR 169D  Stenocaptioning I
(1.0 Unit) (Prerequisites: Court Reporting 169A or 169C. Three laboratory hours weekly.)

This course will concentrate on developing the skill and knowledge necessary to write a conflict-free stenographic reporting method to provide instantaneous translation with at least 95% accuracy. May be taken four times for credit. (CSU)

COUR 170  Microtranscription
(1.0 Unit) (No prerequisite. Corequisite: Court Reporting 169A or 169B or 169C. Three laboratory hours weekly.)

Open lab: students will complete assignments to develop their personal stenotype-to-English translation dictionaries. Jury charge, four-voice, question and answer, technical, and medical material will be emphasized during the entire semester. May be taken four times for credit. (CSU)
COUR 171  Four-Voice Speed and Accuracy
Building
(1.0 Unit) (Prerequisite: Court Reporting 110. Three laboratory hours weekly.)
These courses concentrate on developing speed and accuracy on four-voice material through repetitive use of the videocassettes in the Learning Center. Court Reporting 171, 172, and 173 may each be taken a total of four times for credit, but combinations may not exceed 12 units. (CSU)

COUR 172  Four-Voice Speed and Accuracy
Building
(2.0 Units) (Prerequisite: Court Reporting 110. Six laboratory hours weekly.)
These courses concentrate on developing speed and accuracy on four-voice material through repetitive use of the videocassettes in the Learning Center. Court Reporting 171, 172, and 173 may each be taken a total of four times for credit, but combinations may not exceed 12 units. (CSU)

COUR 173  Four-Voice Speed and Accuracy
Building
(3.0 Units) (Prerequisite: Court Reporting 110. Nine laboratory hours weekly.)
These courses concentrate on developing speed and accuracy on four-voice material through repetitive use of the videocassettes in the Learning Center. Court Reporting 171, 172, and 173 may each be taken a total of four times for credit, but combinations may not exceed 12 units. (CSU)

COUR 175F  Intermediate Machine Shorthand
Four-Voice: Level V-F
(2.0 Units) (Prerequisite: Court Reporting 150F. Total of eight units of machine shorthand required. One and one-quarter lecture and two and one-quarter laboratory [one unsupervised] hours weekly.)
This course is designed to develop stenotype machine dexterity; improve fluent reading of stenotype notes; the ability to take dictation at 175 wpm on 10-minute 4-Voice tests with at least 97.5% accuracy; and continue the development of technical, medical, legal, and general vocabulary, as well as familiarization with current events. The student will simulate the role of court reporter in a variety of situations. May be taken four times for credit. (CSU)

COUR 175J  Intermediate Machine Shorthand
Jury Charge: Level V-J
(2.0 Units) (Prerequisite: Court Reporting 175J. Total of eight units of machine shorthand required. One and one-quarter lecture and two and one-quarter laboratory [one unsupervised] hours weekly.)
This course is designed to develop stenotype machine dexterity; improve fluent reading of stenotype notes; the ability to take dictation at 175 wpm on 5-minute Jury Charge tests with at least 95% accuracy; and continue the development of technical, medical, legal, and general vocabulary, as well as familiarization with current events. The student will simulate the role of court reporter in a variety of situations. May be taken four times for credit. (CSU)

COUR 175S  Intermediate Machine Shorthand
Literary: Level V-S
(2.0 Units) (Prerequisite: Court Reporting 150S. Total of eight units of machine shorthand required. One and one-quarter lecture and two and one-quarter laboratory [one unsupervised] hours weekly.)
This course is designed to develop stenotype machine dexterity; improve fluent reading of stenotype notes; the ability to take dictation at 175 wpm on 5-minute Literary tests with at least 95% accuracy; and continue the development of technical, medical, legal, and general vocabulary, as well as familiarization with current events. The student will simulate the role of court reporter in a variety of situations. May be taken four times for credit. (CSU)

COUR 175T  Intermediate Machine Shorthand
Two-Voice: Level V-T
(2.0 Units) (Prerequisite: Court Reporting 150T. Total of eight units of machine shorthand required. One and one-quarter lecture and two and one-quarter laboratory [one unsupervised] hours weekly.)
This course is designed to develop stenotype machine dexterity; improve fluent reading of stenotype notes; the ability to take dictation at 175 wpm on 5-minute 2-Voice tests with at least 98.2% accuracy; and continue the development of technical, medical, legal, and general vocabulary, as well as familiarization with current events. The student will simulate the role of court reporter in a variety of situations. May be taken four times for credit. (CSU)

COUR 200J  Advanced Machine Shorthand
Jury Charge: Level VI-J
(2.0 Units) (Prerequisite: Court Reporting 175J. Total of eight units of machine shorthand required. One and one-quarter lecture and two and one-quarter laboratory [one unsupervised] hours weekly.)
This course is designed to develop stenotype machine dexterity; improve fluent reading of stenotype notes; the ability to take dictation at 200 wpm on 10-minute unfamiliar Jury Charge tests with at least 95% accuracy; and continue the development of technical, medical, legal, and general vocabulary, as well as familiarization with current events. The student will simulate the role of court reporter in a variety of situations. May be taken four times for credit. (CSU)
COUR 200T  Advanced Machine Shorthand Two-
Voice: Level VI-T
(2.0 Units) (Prerequisite: Court Reporting 175T. Total of eight units of
machine shorthand required. One and one-quarter lecture and two
and one-quarter laboratory [one unsupervised] hours weekly.)

This course is designed to develop stenotype machine dexterity; improve fluent reading of stenotype notes; the ability to
take dictation at 200 wpm on 5-minute unfamiliar 2-Voice tests
with at least 98.2% accuracy; and continue the development of
technical, medical, legal, and general vocabulary, as well as fa-
miliarization with current events. The student will simulate the
role of court reporter in a variety of situations. May be taken four
times for credit. (CSU)

COUR 210A  Advanced Machine Shorthand Five
Minute Four-Voice: Level VII-A
(8.0 Units) (Prerequisite: Court Reporting 210A. Total of eight units of
machine shorthand required. Five lecture and nine laboratory [four
unsupervised] hours weekly.)

This course is designed to develop stenotype machine dexterity; improve fluent reading of stenotype notes; the ability to
take dictation at 200 wpm on 5-minute unfamiliar 4-Voice tests
with at least 97.5% accuracy; and continue the development of
technical, medical, legal, and general vocabulary, as well as fa-
miliarization with current events. The student will simulate the
role of court reporter in a variety of situations. May be taken four
times for credit. (CSU)

COUR 210B  Advanced Machine Shorthand Seven
and One-Half Minute Four-Voice: Level VII-B
(8.0 Units) (Prerequisite: Court Reporting 210A. Total of eight units of
machine shorthand required. Five lecture and nine laboratory [four
unsupervised] hours weekly.)

This course is designed to develop stenotype machine dexterity; improve fluent reading of stenotype notes; the ability to
take dictation at 200 wpm on 7.5-minute unfamiliar 4-Voice tests
with at least 97.5% accuracy; and continue the development of
technical, medical, legal, and general vocabulary, as well as fa-
miliarization with current events. The student will simulate the
role of court reporter in a variety of situations. May be taken four
times for credit. (CSU)

COUR 210C  Advanced Machine Shorthand Ten
Minute Four-Voice: Level VII-C
(8.0 Units) (Prerequisite: Court Reporting 210B. Total of eight units of
machine shorthand required. Five lecture and nine laboratory [four
unsupervised] hours weekly.)

This course is designed to develop stenotype machine dexterity; improve fluent reading of stenotype notes; the ability to
take dictation at 200 wpm on 10-minute unfamiliar 4-Voice tests
with at least 97.5% accuracy; and continue the development of
technical, medical, legal, and general vocabulary, as well as fa-
miliarization with current events. The student will simulate the
role of court reporter in a variety of situations. May be taken four
times for credit. (CSU)

COUR 225J  Advanced Machine Shorthand Five
Minute Jury Charge: Level VIII-J
(8.0 Units) (Prerequisite: Court Reporting 200J. Total of eight units of
machine shorthand required. Five lecture and nine laboratory [four
unsupervised] hours weekly.)

This course is designed to develop stenotype machine dexterity; improve fluent reading of stenotype notes; the ability to
take dictation at 225 wpm on 5-minute unfamiliar Jury Charge
tests with at least 95% accuracy; and continue the development of
technical, medical, legal, and general vocabulary, as well as fa-
miliarization with current events. The student will simulate the
role of court reporter in a variety of situations. May be taken four
times for credit. (CSU)

COUR 225S  Advanced Machine Shorthand Five
Minute Literary: Level VIII-S
(8.0 Units) (Prerequisite: Court Reporting 200T. Total of eight units of
machine shorthand required. Five lecture and nine laboratory [four
unsupervised] hours weekly.)

This course is designed to develop stenotype machine dexterity; improve fluent reading of stenotype notes; the ability to
take dictation at 225 wpm on 5-minute unfamiliar Literary tests with
at least 95% accuracy; and continue the development of technical,
medical, legal, and general vocabulary, as well as familiarization
with current events. The student will simulate the role of court
reporter in a variety of situations. May be taken four times for credit. (CSU)

COUR 225T  Advanced Machine Shorthand Five
Minute Two-Voice: Level VIII-T
(8.0 Units) (Prerequisite: Court Reporting 200J. Total of eight units of
machine shorthand required. Five lecture and nine laboratory [four
unsupervised] hours weekly.)

This course is designed to develop stenotype machine dexterity; improve fluent reading of stenotype notes; the ability to
take dictation at 225 wpm on 5-minute unfamiliar 2-Voice tests with
at least 95% accuracy; and continue the development of technical,
medical, legal, and general vocabulary, as well as familiarization
with current events. The student will simulate the role of court
reporter in a variety of situations. May be taken four times for credit. (CSU)

COUR 249  Directed Study
(1-3 units) (Please see Directed Study category.) (CSU w/limit)

COUR 282A  Certified Shorthand Reporter/
Registered Professional Reporter Exam Preparation
- Legal
(1.0 Unit) (No prerequisite. Two lecture hours weekly for eight
weeks.)

This course is a comprehensive review of legal terminology,
court structure, basic legal principles, and applicable code sec-
tions in preparation for the Certified Shorthand Reporter and the
Registered Professional Reporter examinations. Field trips may
include the courthouse, law library, jails and prisons. (CSU)
COUR 282B  Certified Shorthand Reporter/Registered Professional Reporter Exam Preparation - Test Strategy and Specialized Terminologies (1.0 Unit) (No prerequisite. Two lecture hours weekly for eight weeks.)

This course is a comprehensive review of test strategy and specialized terminologies in preparation for the Certified Shorthand Reporter and the Registered Professional Reporter examinations. (CSU)

DANCE

As well as developing high levels of physical and mental skills, dance provides a means to express creatively the personal side of our nature. Through its study students gain an understanding and appreciation of dance as an art form whether their goal be a career in dance or the sheer pleasure of movement.

Career Options
Choreographer, Commercial Theater Dancer, Composer, Concert Dancer, Costumer, Dance Critic, Dance Teacher, Dance Therapist, Night Club Entertainer, Notator, Reconstructor, Recreation Leader, Stage/Theater Designer, Studio Worker, Television Producer

Faculty
David Jones, Kristi Kuhn, Sandi Weldon

Department Phone: (415) 485-9460

Repeatability Policy for Dance Courses
All dance courses may be taken four times for credit not to exceed a total of 40 dance units. Exception: Dance 108 is not repeatable. Repeatable lettered courses may be taken a total of four times, regardless of the letter: Dance 127AB, 130AB, 131AB, 228AB, 229AB, 241ABCD, and 260ABC.

A.A. in Dance
The A.A. degree prepares students for transfer into a four-year dance major or performing arts program. It serves as basic preparation for professional performance and/or teaching careers, as well as being a springboard into further study of other dance-related areas.

Please note: Students may choose English 120, 120SL, or 150 to complete the Associate degree. Transfer students, however, are advised to complete English 150. All students should consult a counselor.

Technique Courses
The following requirements are the minimum. The student is advised to take as many technique courses as possible in order to develop the highest skill level in any of the styles.

Requirements  Units
Nine technique courses are required for the major, distributed as follows (minimum of 14 units).

Ballet, two courses from:

<table>

Workshop and Theory Courses

Requirements Units
One course from each of the following categories:

Category A: Dance History
DANC 108 Dance History: Dancing - The Pleasure, Power, and Art of Movement 3

Category B: Improvisation and Choreography
DANC 135 The Art of Choreography I 2½
DANC 136 The Art of Choreography II 2½

Category C: Acting
DRAM 124 Acting for Anybody: Basic Acting 3
DRAM 130 Theory and Practice in Acting I 3

Category D: Music
MUS 101 Introduction to Classical Music 3
MUS 105 Rock, Pop and Jazz 3
MUS 106 Music Fundamentals 3

Strongly suggested:
HED 115 Weight Control, Exercise, and Nutrition 3
HUM 107 Humanities through the Arts (video course) 3
HUM 125 Myth, Symbol and the Arts 3

Dance Courses (DANC)

DANC 039 Selected Topics (Nondegree Applicable)
(½-6 units) Please see Selected Topics category.

DANC 108 Dance History: Dancing - The Pleasure, Power, and Art of Movement
(3.0 Units) (No prerequisite. Three hours weekly.)
This videocassette course probes the traditions of dance in communities around the world from the waltz to the eloquent gestures of an Asante court dancer in Ghana; from the latest Hip-Hop in Morocco to a ballet class in Russia; from a church procession in Seville to a modern dance rehearsal in New York, in an attempt to understand the oldest and most compelling family of languages: the art of communication called dance. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A

DANC 115 Modern Ballet I
(1.5 Units) (No prerequisite. One lecture and two laboratory hours weekly.)
Introduces the basics of classical ballet and how they may be integrated with modern dance techniques to form the idiom called modern ballet. Floor exercises, ballet barre, and center work using the two styles. Emphasis on proper body alignment, strength, flexibility and endurance. Please refer to the dance repeatability policy for requirements and limitations to repeat this course. May be taken four times for credit. (CSU/UC) AA/AS Area H

DANC 116 Modern Ballet II
(1.5 Units) (No prerequisite. Advisory: Dance 115. One lecture and two laboratory hours weekly.)
Furthers the student's knowledge of the synthesis of ballet and contemporary dance techniques at the intermediate level. Performance techniques will be introduced. Please refer to the dance repeatability policy for requirements and limitations to repeat this course. May be taken four times for credit. (CSU/UC) AA/AS Area H

DANC 117 Dancercise
(1.5 Units) (No prerequisite. One lecture and two laboratory hours weekly.)
This is a dance course designed to promote total fitness through the use of a variety of styles of dance, rhythmic movement, aerobics, strengthening and relaxation exercises, Yoga and Pilates. This pulse monitored program is structured to produce metabolic efficiency and increase energy, endurance, strength and flexibility through an introduction of a variety of dance styles including Latin, hip hop, swing, jazz, modern and disco. Instructor supervised demonstrations and performances are designed to assist the student in reaching a satisfactory level of skill through repeated practice. May be taken four times for credit. (CSU/UC) AA/AS Area H

DANC 118 Dancercise II
(1.5 Units) (No prerequisite. Advisory: Dance 117. One lecture and two laboratory hours weekly.)
This is a dance course designed to promote total fitness through the use of a variety of dance styles, aerobics principles, strengthening, flexibility and relaxation exercises, Yoga and Pilates. This pulse monitored program is structured to produce greater metabolic efficiency, increased energy, endurance, strength, flexibility and stress relief through an introduction of a variety of dance styles including Latin, hip hop, swing, jazz, modern and disco. Instructor supervised demonstrations and performances are designed to assist the student in reaching a satisfactory level of skill through repeated practice. May be taken four times for credit. (CSU/UC) AA/AS Area H
DANC 119 African-Haitian Dance
(1.5 Units) (No prerequisite. One lecture and two laboratory hours weekly.)
This course will include skills in African-Haitian dance based upon the technique of Katherine Dunham. Emphasis will be placed upon the development of rhythmic awareness through barre and floor progressions. Movement phases will be based upon authentic dances from Africa and the Caribbean Islands. Participants will learn to use their body parts polyrhythmically and in isolation. The history and the culture of the people will also be studied. May be taken four times for credit. (CSU/UC) AA/AS Area H, CSU Area C-1

DANC 121 Popular Dance Styles
(1.5 Units) (No prerequisite. One lecture hour and two laboratory hours weekly.)
This class will enhance the beginning student's skill in mastering popular dance styles of the twentieth century. By exploring the technical basis of these styles, it is hoped that insights will be gained necessary for understanding and appreciating the emergence of popular dance in the last century. May be taken four times for credit. (CSU/UC) AA/AS Area H, CSU Area C-1

DANC 122 Jazz Dance I
(1.5 Units) (No prerequisite. One lecture and two laboratory hours weekly.)
This class is primarily designed for students to develop a proficiency in beginning jazz dance technique. Rhythmic exercises and sequences, turns, walks, combinations, and polyrhythmic movement will be covered. Jazz choreography will also be explored. In addition, students will be given an opportunity to learn about the historical development of America's self-created dance form. May be taken four times for credit. (CSU/UC) AA/AS Area H, CSU Area C-1

DANC 123 Jazz Dance II
(1.5 Units) (No prerequisite. Advisory: Dance 122. One lecture and two laboratory hours weekly.)
Emphasis in this class will be on the development of intermediate level jazz dance technique. Continued emphasis on rhythmic exercises and sequences, turns, walks, isolations, and polyrhythmic movement. Further exploration of jazz choreography will be covered, as well as aspects of the historical development of jazz dance. May be taken four times for credit. (CSU/UC) AA/AS Area H

DANC 126 Ballet I
(1.5 Units) (No prerequisite. One lecture and two laboratory hours weekly.)
Beginning ballet with exercises for body awareness and alignment, flexibility, balance, strength, and stamina. Center floor work with basic adagio and allegro movements, jumps and turns. References to different national styles and ballet history. Please refer to the dance repeatability policy for requirements and limitations to repeat this course. May be taken four times for credit. (CSU/UC) AA/AS Area H, CSU Area C-1

DANC 127A Ballet II A
(1.5 Units) (No prerequisite. Advisory: Dance 126. One lecture and two laboratory hours weekly.)
Intermediate ballet technique. Emphasis on body alignment and placement, foot articulation, leg rotation, port de bras. Attention to the linkage of steps and the quality of individual movements. Introduction to principles of artistic expression. Combinations of Dance 127AB may be taken a total of four times for credit. (CSU/UC) AA/AS Area H

DANC 127B Ballet II B
(2.0 Units) (No prerequisite. Advisory: Dance 126. One lecture and three laboratory hours weekly.)
More intensive treatment of the material covered in Dance 127A. Includes exploration 1) of the dancer as artist and 2) of the elements of theatrical performance. Combinations of Dance 127AB may be taken a total of four times for credit. (CSU/UC) AA/AS Area H

DANC 130A Modern Dance I A
(1.5 Units) (No prerequisite. One lecture and two laboratory hours weekly.)
Beginning modern dance technique. Explores positioning, alignment, and centering as they apply to balance, turns, elevations, and movement in and through space. Examines a variety of movement qualities, rhythms, and phrasing as well as space-time energy concepts. Combinations of Dance 130AB may be taken a total of four times for credit. (CSU/UC) AA/AS Area H, CSU Area C-1

DANC 130B Modern Dance I B
(2.0 Units) (No prerequisite. Advisory: Dance 126. One lecture and three laboratory hours weekly.)
Beginning modern dance technique. Explores positioning, alignment, and centering as they apply to balance, turns, elevations, and movement in and through space. Examines a variety of movement qualities, rhythms, and phrasing as well as space-time energy concepts. The extended hours provide the opportunity to explore and practice the materials in greater depth and progress at a faster rate. Combinations of Dance 130AB may be taken a total of four times for credit. (CSU/UC) AA/AS Area H, CSU Area C-1

DANC 131A Modern Dance II A
(1.5 Units) (No prerequisite. Advisory: Dance 130A or 130B. One lecture and two laboratory hours weekly.)
Intermediate technique, adding falls and the sight reading of simple movement phrases to skills developed in Modern I. Continued emphasis on alignment, centering, balance and sensitivity to space time energy in movement. Combinations of Dance 131AB may be taken a total of four times for credit. (CSU/UC) AA/AS Area H
DANC 131B  Modern Dance II B  
(2.0 Units) (No prerequisite. Advisory: Dance 130A or 130B. One lecture and three laboratory hours weekly.)
Intermediate technique, adding falls and the sight reading of simple movement phrases to skills developed in Modern I. Continued emphasis on alignment, centering, balance and sensitivity to space time energy in movement. The extended hours provide the opportunity to explore and practice the materials in greater depth and progress at a faster rate. Combinations of Dance 131AB may be taken a total of four times for credit. (CSU/UC) AA/AS Area H

DANC 132  Musical Theatre I  
(1.5 Units) (No prerequisite. One lecture and two laboratory hours weekly.)
The study and practice of a variety of dance styles from musical theatre such as jazz, soft shoe, vaudeville, chorus line, ethnic dance, and ballroom dance. Explores the integration of music, dance and acting that is characteristic of musical theatre. Students will study Broadway musicals in groups, duets, or solos. Acting, vocal training, audition techniques, basic dance steps and terminology, and learning choreography are part of the study. Instructor supervised demonstrations and performances are designed to assist the student in reaching a satisfactory level of skill through repeated practice. May be taken four times for credit. Please refer to the dance repeatability policy for requirements and limitations to repeat this course. (CSU/UC) AA/AS Area H, CSU Area C-1

DANC 133  Musical Theatre II  
(1.5 Units) (No prerequisite. Advisory: Dance 132. One lecture and two laboratory hours weekly.)
Designed for the actor/dancer/musician with an eye to creating and strengthening a performer versatile in the many movement styles found in musical theatre. Surveys the major dance styles of each decade in the history of the American Musical Theatre: vaudeville, tap, soft shoe of the 1930s, story ballet of the 1940s etc., as well as ethnic and character dance. Includes acting, vocal training, choreographic and audition techniques. Students may work on original choreography and/or solos, duets, quartets and chorus patterns. Culminates in a final musical theatre Cabaret performance. Instructor supervised demonstrations and performances are designed to assist the student in reaching a satisfactory level of skill through repeated practice. May be taken four times for credit. Please refer to dance repeatability policy for requirements and limitations to repeat this course. (CSU/UC) AA/AS Area H, CSU Area C-1

DANC 135  The Art of Choreography I  
(2.5 Units) (No prerequisite. Two lecture and two laboratory hours weekly.)
The craft of choreography, its ingredients and tools. Discussion and exploration of form, content, design and the elements of time, space, and energy. Examination of shapes, texture, focus, dynamics, rhythm, and phrasing. May be taken four times for credit. (CSU/UC) AA/AS Area H, CSU Area C-1

DANC 136  The Art of Choreography II  
(2.5 Units) (No prerequisite. Advisory: Dance 135. Two lecture and two laboratory hours weekly.)
A continuation of skills developed in Dance 135. Choreography of solo, small, and large group pieces using traditional and avant-garde compositional forms. May be taken four times for credit. (CSU/UC) AA/AS Area H, CSU Area C-1

DANC 139  Selected Topics  
(½-6 units) (Please see Selected Topics category.) (CSU/UC w/limit)

DANC 142  Tap Dance  
(1.5 Units) (No prerequisite. One lecture and two laboratory hours weekly.)
This course will familiarize the student with the theory, terminology, history and technique of tap dancing as well as tap notation. The course includes footwork, progressions, patterns, and movement combination across the floor which will be developed into dances using a variety of tap dance styles including Latin, Rhythm Tap, Irish, Soft Shoe, American, Buck and Wing. The history of the art of tap dancing, significant dancers and choreographers and performances, both live and on tape, will be examined and compared for their stylistic contributions to the art form. The students will study the place of tap dance in our historical, social and cultural background in American theatre, film and dance. May be taken four times for credit. (CSU/UC) AA/AS Area H

DANC 143  Tap Workshop  
(0.5 Unit) (No prerequisite. Advisory: Dance 142. One-half lecture and one-half laboratory hour weekly.)
This course will present an intensified focus and application of one specific style of tap dancing to be chosen based on student interest and skill level. The focus of the study will be on a class-by-class basis. The course will familiarize the student with the theory, terminology, history and technique of tap dancing with a focus on one particular style to be chosen from the five styles taught in the survey course Dance 142. The course includes footwork, progressions, patterns and movement combinations that will be developed into dances using one tap dance style to be determined by the instructor. The history of the art of tap dancing, significant dancers and choreographers and performances, both live and on tape will be examined and compared for their stylistic contributions to the specific form of tap dancing being studied each semester. The students will also study the place of tap dance in our historical, social and cultural background in American theater, film and dance. (CSU/UC) AA/AS Area H
DANC 154  Dance Production  
(1.0 Unit) (No prerequisite. One-half lecture and two laboratory hours weekly.)  

The production aspect of dance performance. Students participate in the technical and dress rehearsals for a performance, as well as completing tasks assigned by the director in the following areas: assistant to director, set design/construction, lighting, costuming, makeup, sound, special effects, budget and publicity. Instructor supervised demonstrations and performances are designed to assist the student in reaching a satisfactory level of skill through repeated practice. May be taken four times for credit. Please refer to dance repeatability policy for requirements and limitations to repeat this course. (CSU/UC) AA/AS Area H

DANC 160  Introduction to Dance Performance Skills  
(1.0 Unit) (No prerequisite. One-half lecture and two laboratory hours weekly.)  

Basic skills of rehearsal and performance. Development of projection, stage presence, mastering stage space and artistic expression. Students perform in and/or choreograph for group, small groups, duet or solo pieces that are presented in a studio venue. Please refer to the dance repeatability policy for requirements and limitations to repeat this course. May be taken four times for credit. (CSU/UC) AA/AS Area H

DANC 161  Beginning Ballroom Dance  
(1.5 Units) (No prerequisite. One lecture and two laboratory hours weekly.)  

Fundamentals of ballroom dance. Students learn the basics of such dances as the cha cha, fox-trot, waltz, salsa, and swing. Includes discussion of the origins and development of these dances, and their contribution to the dance world. May be taken four times for credit. (CSU/UC) AA/AS Area H

DANC 162  Continuing Ballroom Dance  
(1.5 Units) (No prerequisite. One lecture and two laboratory hours weekly.)  

Continuing fundamentals of ballroom dance. Students will add new step patterns, new dances, and more detailed styling to their basic knowledge of ballroom dances. Includes discussion of the history of the dances. May be taken four times for credit. (CSU/UC) AA/AS Area H

DANC 170  Summer Intensive: Workshop in Broadway Dance I  
(1.5 Units) (No prerequisite. Three lecture and six laboratory hours weekly for six weeks during the summer.)  

An intensive workshop focusing on a comparative analysis of the styles of Broadway dances from the past to the present. May be taken four times for credit. (CSU/UC) AA/AS Area H
DANC 222  Musical Theatre III
(1.5 Units) (No prerequisite. Advisory: Dance 133. One lecture and two laboratory hours weekly.)

A continuation of the skills developed in Dance 133, designed to strengthen the intermediate student’s proficiency in the dance, vocal music and acting of musical theatre. Exploration of acting and audition techniques, methods of choreographing musicals and creating character through dance as a means to develop a versatile performer. Students have the opportunity to contribute original choreography and ideas. Includes discussion of the significant choreographic styles of various periods in American Musical Theatre and their socioeconomic and historical background. Culminates in a final musical theatre Cabaret performance. May be taken four times for credit. (CSU/UC) AA/AS Area H

DANC 224  Jazz Dance III
(1.5 Units) (No prerequisite. Advisory: Dance 123. One lecture and two laboratory hours weekly.)

Emphasis in this class will be on the development of advanced level jazz dance technique. Continued emphasis on rhythmic exercises and sequences, turns, walks, isolations, and polyrhythmic movement. Further exploration of jazz choreography will be covered, as well as aspects of the historical development of jazz dance. May be taken four times for credit. (CSU/UC) AA/AS Area H

DANC 225  Jazz Dance IV
(1.5 Units) (No prerequisite. Advisory: Dance 224. One lecture and two laboratory hours weekly.)

Emphasis in this class will be on the development of high level advanced jazz dance technique. Continued emphasis on rhythmic exercises and sequences, turns, walks, isolations, and polyrhythmic movement. Further exploration of jazz choreography will be covered, as well as aspects of the historical development of jazz dance. May be taken four times for credit. (CSU/UC) AA/AS Area H

DANC 228A  Ballet III A
(1.5 Units) (No prerequisite. Advisory: Dance 127A or B. One lecture and two laboratory hours weekly.)

Principles of ballet movement covered in Dance 127 are carried into advanced technique and vocabulary. Emphasis on fluidity of movement and on integration of the physical, mental, and emotional skills that create the total dancer. Combinations of Dance 228AB may be taken a total of four times for credit. Please refer to the dance repeatability policy for requirements and limitations to repeat this course. (CSU/UC) AA/AS Area H

DANC 228B  Ballet III B
(2.0 Units) (No prerequisite. Advisory: Dance 127A or B. One lecture and three laboratory hours weekly.)

Additional technical work, as well as exploration of major ballet styles (romantic, classical, contemporary), will be covered through videotape, discussion, and practice of ballet variations. Combinations of Dance 228AB may be taken a total of four times for credit. Please refer to the dance repeatability policy for requirements and limitations to repeat this course. (CSU/UC) AA/AS Area H

DANC 229A  Ballet IV A
(1.5 Units) (No prerequisite. Advisory: Dance 228A or 228B. One lecture and two laboratory hours weekly.)

A continuation of skills developed in Dance 228AB. Emphasis on integrating the dancer’s physical skills of equilibrium, extension, elevation, and endurance with the intellectual and emotional skills that create the artistry of the advanced dancer. Combinations of Dance 229AB may be taken a total of four times for credit. Please refer to the dance repeatability policy for requirements and limitations to repeat this course. (CSU/UC) AA/AS Area H

DANC 229B  Ballet IV B
(2.0 Units) (No prerequisite. Advisory: Dance 228A or 228B. One lecture and three laboratory hours weekly.)

A continuation of skills developed in Dance 228AB. Emphasis on integrating the dancer’s physical skills of equilibrium, extension, elevation, and endurance with the intellectual and emotional skills that create the artistry of the advanced dancer. Combinations of Dance 229AB may be taken a total of four times for credit. Please refer to the dance repeatability policy for requirements and limitations to repeat this course. (CSU/UC) AA/AS Area H

DANC 232  Modern Dance III
(1.5 Units) (No prerequisite. Advisory: Dance 133. One lecture and three laboratory hours weekly.)

Advanced modern dance technique. Focuses on centering and energy flow as they function in alignment, turns, falls, extensions, elevations, and movements through space. Emphasizes learning to trust in the uniqueness of one’s own movement expression. May be taken four times for credit. (CSU/UC) AA/AS Area H

DANC 240  Modern Dance IV
(2.0 Units) (No prerequisite. Advisory: Dance 232. One lecture and three laboratory hours weekly.)

A continuation of skills developed in Dance 232 with emphasis on technical control as it relates to individual anatomical structure, and on the student as performer. May be taken four times for credit. (CSU/UC)

DANC 241A  Dance Company A
(3.0 Units) (Prerequisite: Audition required. One and one-third lecture and five laboratory hours weekly.)

Students rehearse and perform faculty choreography in a formal concert (Predetermined number of scheduled performances). Focus on technique, choreographic phrasing, artistry, and performance presence. Combinations of Dance 241ABCD may be taken a total of four times for credit. Please refer to the dance repeatability policy for requirements and limitations to repeat this course. (CSU/UC) AA/AS Area H
DANC 241B  Dance Company B
(4.0 Units) (Prerequisite: Audition required. One and three-quarters lecture and six and two-thirds laboratory hours weekly.)

Students rehearse and perform faculty choreography in a formal concert (Predetermined number of scheduled performances). Focus on technique, choreographic phrasing, artistry, and performance presence. Combinations of Dance 241ABCD may be taken a total of four times for credit. Please refer to the dance repeatability policy at the beginning of the dance section for requirements and limitations to repeat this course. (CSU/UC) AA/AS Area H

DANC 241C  Dance Company C
(5.0 Units) (Prerequisite: Audition required. Two and one-quarter lecture and eight and one-third laboratory hours weekly.)

Students rehearse and perform faculty choreography in a formal concert (Predetermined number of scheduled performances). Focus on technique, choreographic phrasing, artistry, and performance presence. Combinations of Dance 241ABCD may be taken a total of four times for credit. Please refer to the dance repeatability policy for requirements and limitations to repeat this course. (CSU/UC) AA/AS Area H

DANC 241D  Dance Company D
(6.0 Units) (Prerequisite: Audition required. Two and two-thirds lecture and ten laboratory hours weekly.)

Students rehearse and perform faculty choreography in a formal concert (Predetermined number of scheduled performances). Focus on technique, choreographic phrasing, artistry, and performance presence. Combinations of Dance 241ABCD may be taken a total of four times for credit. Please refer to the dance repeatability policy at the beginning of the dance section for requirements and limitations to repeat this course. (CSU/UC) AA/AS Area H

DANC 249  Directed Study
(1-3 units)(Please see Directed Study category.) (CSU/UC w/limit)

DANC 260A  Musical Production: Dance
(1.0 Unit) (Prerequisite: Audition. One-sixth lecture and two and one-half laboratory hours weekly.)

Participation in a musical production presented by the Performing Arts Department. Emphasis on the utilization of a synthesis of dance techniques incorporating ballet, modern, and jazz; on learning and memorizing choreography; on developing an aesthetic sense of how the dance interfaces with other elements of a musical production, and on taking direction from the choreographer, stage and musical directors. Each may be taken a total of four times for credit, but combinations of Dance 260ABC may not exceed 12 units. (CSU/UC) AA/AS Area H

DANC 260B  Musical Production: Dance B
(2.0 Units) (Prerequisite: Audition. One-third lecture and five laboratory hours weekly.)

Participation in a musical production presented by the Performing Arts Department. Emphasis on the utilization of a synthesis of dance techniques incorporating ballet, modern, and jazz; on learning and memorizing choreography; on developing an aesthetic sense of how the dance interfaces with other elements of a musical production, and on taking direction from the choreographer, stage and musical directors. Each may be taken a total of four times for credit, but combinations of Dance 260ABC may not exceed 12 units. (CSU/UC) AA/AS Area H

DANC 260C  Musical Production: Dance C
(3.0 Units) (Prerequisite: Audition. One half lecture and two and seven and one-half laboratory hours weekly.)

Participation in a musical production presented by the Performing Arts Department. Emphasis on the utilization of a synthesis of dance techniques incorporating ballet, modern, and jazz; on learning and memorizing choreography; on developing an aesthetic sense of how the dance interfaces with other elements of a musical production, and on taking direction from the choreographer, stage and musical directors. Each may be taken a total of four times for credit, but combinations of Dance 260ABC may not exceed 12 units. (CSU/UC) AA/AS Area H

DENTAL ASSISTING: REGISTERED

This program combines the technical knowledge of skills required to function successfully as a chairside dental assistant with the essential aspects of office procedures. The expanded functions that are required for state licensure are taught to clinical proficiency.

Career Options
Dental Assisting in Dental Clinics, Dental Assisting in Hospitals or Correctional Facilities, Dental Assisting in Private Dental Offices, Dental Office Management, Dental Receptionist, Dental Insurance Auditor, Dental Product Sales, Dental Assisting Instructor

Faculty
Grace Hom, CDA, RDAEF, MA – Program Coordinator
Department Phone: (415) 485-9319
FAX: (415) 485-9328 E-mail: grace.hom@marin.edu

Certificate of Achievement in Dental Assisting: Registered
The Registered Dental Assisting Program is offered only at the Kentfield Campus. It is a sequential program leading to a Certificate of Achievement.

Graduates are eligible to sit for the State Registered Dental Assistant Licensure Examinations, which requires mandatory live-scan finger printing. Graduates are also eligible for the Dental Assisting National Board Examination.

Students must maintain a “C” grade or higher in all courses to earn their Certificate of Completion, a requirement of the Commission on Accreditation.

College of Marin’s courses in Registered Dental Assisting in addition to fulfilling the College of Marin graduation requirements will award an Associate in Science degree.
These courses will transfer toward a Bachelor's degree in Health Science at California State Universities. (See a counselor or Director of Dental Assisting for more details.)

**Required:**
1. A minimum proof of course completion of English 98 or English 98SL or completion of College-level English.
2. High School diploma or equivalent
3. Applicants must be 18 years or older, which is a state requirement to operate dental radiation equipment.

**Advisory:**
1. English 116 or higher*  
   *May be taken concurrently during the program.

College of Marin's courses in Registered Dental Assisting plus the College of Marin graduation requirements will award an Associate in Science degree. These courses will transfer toward a Bachelor's degree in Health Science at California State University, San Francisco. (See a counselor or the Director of Dental Assisting for more details.)

Please note: Students may choose English 120, 120SL, or 150 to complete the Associate degree. Transfer students, however, are advised to complete English 150. All students should consult a counselor.

**Program Application Procedure:**
1. Applicants must complete English Requirement (see above).
2. Applicants must contact the Dental Assisting Department for availability and assistance in the selection of classes to be admitted to the program.
3. Applicants must file an application for admission with the College of Marin Office of Admissions and Records.

**NOTE:** The above courses may be taken in two years. Only those students completing all dental assisting requirements of a semester may advance to the following semester.

**NOTE:** Courses must be taken in the semester as indicated in the career program section above.

**NOTE:** Current CPR (cardiopulmonary resuscitation). Two out of the three Hepatitis B vaccinations, Tetanus vaccinations, and TB testing must be completed by the end of the Fall semester prior to student participation in internships at dental Clinics or externships in dental offices.

**Skills Certificates**
Skills certificates are an acknowledgement that the student has attained a specified set of competencies within an occupational program. Skills certificates may be part of a “ladder” of skills, beginning with job entry skills and leading to a full Certificate of Achievement program. Skills Certificates require less than 18 units and are shorter in duration than the Certificate of Achievement.

The Skills Certificate provides the student with knowledge of the fundamental language/skill necessary for dental courses.

**Radiology Safety Skills Certificate**
Successful completion of Dental 182, 182 L, 186 and 186 L will earn the student a Radiology Certificate approved by the Board of Dental Examiners under the Department of Consumer Affairs administered by the Committee of Dental Auxiliaries. This certificate is a prerequisite to be eligible to sit for the State Registered Dental Assistant licensure examination and a copy of the certificate is issued to the Committee on Dental Auxiliaries. Records of participants must be maintained for five years.

This certificate allows the individual to expose dental radiographs on patients within the private dental office or dental clinic. No individual is allowed to expose dental radiographs without this certificate in the State of California.

**Coronal Polish Skills Certificates**
Successful completion of the Coronal Polish Unit in Dental 183 and 183L will earn the student a certificate in coronal polish. This course is approved by the Board of Dental Examiners under the
Department of Consumer Affairs administered by the Committee on Dental Auxiliaries and is a pre requisite to be eligible to sit for the State Registered Dental Assistant licensure examination. The original certificate is issued to the Committee on Dental Auxiliaries. Records of participants must be maintained for five years.

This certificate allows the individual to polish dentition under the direct supervision of a dentist in the private dental office or dental clinic.

**Ultrasonic Scaling Skills Certificate**

Successful completion of the Ultrasonic Scaling Unit in Dental 183 and 183L will earn the student a certificate in ultrasonic scaler usage in an orthodontic setting.

This course is approved by the Board of Dental Examiners under the Department of Consumer Affairs administered through the Committee on Dental Auxiliaries. The original certificate is issued to the Committee on Dental Auxiliaries. Records of participants must be maintained for five years.

This certificate allows the individual to use an ultrasonic scaler to remove excess supragingival cement around orthodontic bands in a private dental office or dental clinic under direct supervision of a dentist.

**Pit and Fissure Sealants Skills Certificate**

Successful completion of Dental 192A and 192A Lab will earn the student a certificate in Pit and Fissure Sealants. This course is approved by the Board of Dental Examiners under the Department of Consumer Affairs administered by the Committee on Dental Auxiliaries. A copy of the certificate is sent to the Committee on Dental Auxiliaries. Records of participants must be maintained for five years.

This certificate allows the individual to prepare the teeth by etching and apply the sealant that protects the dentition from dental decay in a private dental office or dental clinic under direct supervision of a dentist.

**Infection Control Skills Certificate**

Successful completion of Dental 101 and 101 Lab will earn the student a certificate in Dental Sterilization. This course will train the student to decontaminate, sterilize or process dental instruments and dental equipment to meet OSHA standards and EPA on Infection Control. Students who complete this course can become employed in a private dental office or clinic as a Sterilization Assistant.

**Dental Assisting Courses (DENT)**

**DENT 039  Selected Topics (Nondegree Applicable)**

(½-6 units) (Please see Selected Topics category.)

**DENT 101  Introduction to Dental Sterilization**

(0.5 Unit) (No prerequisite. Corequisite: Dental Assisting 101L. Advisory: English 98 or 98SL. Two lecture hours daily for four days.)

Community dentists require sterilization assistants to be trained in disinfection and sterilization procedures in compliance with strict State OSHA Standards for infection control, hazardous communication and waste management. This course provides the student with entry-level knowledge of these standards, and also covers basic dental terminology and dental charting. (CSU)

**DENT 101L  Introduction to Dental Sterilization Lab**

(0.5 Unit) (No prerequisite. Corequisite: Dental Assisting 101. Six laboratory hours daily for four days.)

Community dentists require sterilization assistants to be trained in disinfection and sterilization procedures in compliance with strict State OSHA Standards for infection control, hazardous communication and waste management. This lab course provides the opportunity for the student to demonstrate and practice disinfection, sterilization procedures and dental charting. (CSU)

**DENT 139  Selected Topics (Nondegree Applicable)**

(1.5-6.0 Units) (Please see Selected Topics category.)

**DENT 172  Dental Science I**

(4.0 Units) (Prerequisite: Eligibility for English 98 or English 98SL. Four lecture hours weekly.)

This course will instruct the student in human anatomy, histology and physiology as these relate to the head, neck and body systems in dentistry. The student will study microbiology as it relates to the control of infection and disease to include methods of sterilization and disinfection within the dental environment. (CSU)

**DENT 174  Dental Materials Application**

(2.0 Units) (Prerequisite: Eligibility for English 98 or English 98SL; Dental Assisting 176 may be taken concurrently. Corequisite: Dental Assisting 174L. Two lecture hours weekly.)

An introduction to the physical and chemical properties of dental materials such as dental gypsums, alginates, cements, waxes, and acrylic materials. The preparation, placement and removal of provisional restorations as allowed by the State Dental Practice Act is included. The course also covers the assistant’s role in the preparation, manipulation and delivery during composite/bonding and fixed prosthodontic procedures. (CSU)
DENT 174L  Dental Materials Application Lab  
(1.0 Unit) (Prerequisite: Eligibility for English 98 or 98SL; Dental Assisting 176 may be taken concurrently. Corequisite: Dental Assisting 174. Three laboratory hours weekly.)

This lab covers the applications of dental materials to include placement of temporary sedative restorations and placements of cement bases and liners. Taking, pouring, and trimming of preliminary impression materials; fabricating temporary crowns and restorations; preparing final impression materials; and assisting in composite/bonding and crown/bridge dental procedures. (CSU)

DENT 176  Dental Morphology, Histology, and Recordings  
(2.0 Units) (Prerequisite: Eligibility for English 98 or 98SL. Corequisite: Dental Assisting 176L. See Application Procedure. Two lecture hours weekly.)

This course will instruct the student in dental terminology as it relates to tooth morphology and histology, charting, tooth nomenclature systems, cavity classifications, patient's vital signs, oral examination, diagnosis and treatment planning. (CSU)

DENT 176L  Dental Morphology, Histology and Recordings Lab  
(1.0 Unit) (Prerequisite: Eligibility for English 98 or 98SL. Corequisite: Dental Assisting 176. Three laboratory hours weekly.)

The student will identify permanent and primary dentition and indicate their nomenclature, location and function. The student will differentiate normal tooth anatomy from oral lesions and demonstrate the ability to record dental charting, perform oral examinations and take vital signs as part of the patient's dental record. (CSU)

DENT 178  Dental Science II  
(3.0 Units) (Prerequisite: English 92 or 92SL. Advisory: English 98 or 98SL. Three lecture hours weekly.)

Students will study oral pathology, preventive dentistry, nutrition, medical emergencies, pharmacology and the special needs patient as they relate to dentistry. Applied psychology and communication skills with dental patients and coworkers will be explored. (CSU)

DENT 180  Chairside I Lecture  
(2.0 Units) (Prerequisites: Eligibility for English 98 or 98SL; Dental Assisting 176 may be taken concurrently. Corequisite: Dental Assisting 180L. See Application Procedure. Two lecture hours weekly.)

This course covers the use and care of dental equipment; identification, application, and distribution of dental hand instruments and rotary instruments; pre set tray set-ups and their sequence of use; four-handed dentistry techniques; and preparation for chairside assisting in a clinical setting. (CSU)

DENT 180L  Chairside I Lab  
(1.0 Unit) (Prerequisites: Eligibility for English 98 or 98SL; Dental Assisting 176 may be taken concurrently. Corequisite: Dental Assisting 180. Three laboratory hours weekly.)

Under the direct supervision of an instructor, students will prepare the dental operatory, prepare the pre set tray, and identify hand and rotary instruments for given procedures. In addition, students will demonstrate the application of rubber dams, matrix retainers, topical anesthetic, and provisional restorations as allowed and listed in the California State Practice Act for dental assistants and registered dental assistants. The student will also demonstrate knowledge of the assistant's role in amalgam, composite, and endodontic procedures. (CSU)

DENT 182  Dental Radiology  
(1.0 Unit) (Prerequisite: Eligibility for English 98 or 98SL; Dental Assisting 176 may be taken concurrently. Corequisite: Dental Assisting 182L. See Application Procedure. One lecture hour weekly.)

This introductory course presents information and background on the production and projection of dental radiographs. Lectures will cover the properties and principles of dental radiation and techniques, including bisecting the angle, paralleling, occlusal, disto-oblique and distal buccal object rules. The course covers identification of normal dental anatomy, patient management, radiation biology, protection and quality assurance. (CSU)

DENT 182L  Dental Radiology Lab  
(1.0 Unit) (Prerequisite: Eligibility for English 98 or 98SL; Dental Assisting 176 may be taken concurrently. Corequisite: Dental Assisting 182. Three laboratory hours weekly.)

This course provides hands-on experience to expose, process, mount and evaluate dental radiographs for diagnostic purposes. Students will learn the use of dental radiology equipment, darkroom techniques, patient management, and radiographic exposure techniques such as bisecting the angle, paralleling, occlusal, disto-oblique and buccal-object rule. Students will employ radiographic safety measures and proper disposal of radiographic solutions according to EPA standards. (CSU)

DENT 183  Advanced Dental Procedures  
(1.0 Unit) (Prerequisite: Dental Assisting 180. Corequisite: Dental Assisting 183L. One lecture hour weekly.)

This course covers basic knowledge for coronal polishing, topical fluorides, bleaching tray fabrication and ultrasonic scaler cement removal. Upon successful completion of this course the student will earn their State Certificate for coronal polish and ultrasonic scaler for cement removal. (CSU)

DENT 183L  Advanced Dental Procedures Lab  
(0.5 Unit) (No prerequisite. Corequisite: Dental Assisting 183. Three laboratory hours weekly.)

Students will perform and evaluate a coronal polish procedure on a teaching manikin before performing the procedure on three patients. The final clinical patient will be evaluated by a licensed dentist or dental hygienist. The student will apply topical fluoride on patients and fabricate a custom bleaching tray. The course also covers the use of ultrasonic scaler cement removal. (CSU)
DENT 184  Chairside Procedures II  
(4.0 Units) (Prerequisite: Dental Assisting 180. Corequisite: Dental Assisting 184L. Four lecture hours weekly.)  
This course provides entry-level knowledge of dental specialties such as surgical endodontics, orthodontics, periodontics, oral surgery and implants, removable prosthetics, and pediatric dentistry. This course also covers the role of the dental assistant with nitrous oxide conscious sedation. Registered dental assisting legal functions according to the State Dental Practice Act are also covered. (CSU)

DENT 184L  Chairside Procedures II Lab  
(1.0 Unit) (Prerequisites: Dental Assisting 176 and 180. Corequisite: Dental Assisting 184. Three laboratory hours weekly.)  
This lab provides students with pre-clinical, hands-on practice of legal registered dental assisting functions in the field of surgical endodontics, orthodontics, periodontics, oral surgery, removable prosthetics and pediatric dentistry. The course also covers the role of the dental assistant in nitrous oxide sedation. (CSU)

DENT 186  Clinical Dental Radiology  
(1.0 Unit) (Prerequisite: Dental Assisting 182. Students must be at least 18 years old. Corequisite: Dental Assisting 186L. One lecture hour weekly for 4 weeks.)  
This course provides instruction in the method of exposure and evaluation of diagnostic quality dental x-rays on patients. The course provides students with the ability to recognize normal dental anatomy and dental anomalies. The instruction includes methodology for exposing intra-oral digital and extra-oral panoramic dental radiographs. Upon completion of this course and the lab, students will earn their Radiation Safety Certificate for the State of California. (CSU)

DENT 186L  Clinical Dental Radiology Lab  
(0.5 Unit) (Prerequisite: Dental Assisting 182. Must be at least 18 years old. Corequisite: Dental Assisting 186. Six hours weekly for 4 weeks.)  
This course provides hands-on instruction for exposing intra- and extra-oral dental radiographs on patients. It also covers the legal parameters with regard to the patient’s records according to HIPAA standards. Upon completion of Dental Assisting 186 and 186L, the student will earn their Radiation Safety Certificate for the State of California. (CSU)

DENT 187  Dental Assisting Clinical/Technique Practicum  
(1.0 Unit) (Prerequisite: Dental Assisting 174, 180, and 182. Three laboratory hours weekly.)  
A clinical practicum to provide individual self-study practice for specific dental assisting skills such as exposing, processing and mounting dental radiographs, taking study model impressions, pouring models, trimming models, taking bite registration, fabricating provisional crowns, placing temporary restorations, fabricating bleaching trays, and fabricating mouth guards under the supervision of an instructor. (CSU)

DENT 188  Clinical Applications: Chairside Functions and Operative Procedures  
(6.0 Units) (Prerequisite: Dental Assisting 174 and 180. Dental assisting students must have CPR, Hepatitis B, tetanus vaccinations and TB testing before going to the dental school. One weekly lecture/seminar and 448 off-campus hours.)  
Clinical practice utilizing Four-Handed Dentistry at chairside, including extended functions in general dentistry delegated to the dental assistant and Registered Dental Assistant by the State Dental Practice Act in private dental offices and clinics. Weekly seminars are held to discuss student progress and provide instruction and suggestions for student improvement. (CSU)

DENT 190  Dental Practice Management and Economics  
(1.0 Unit) (Prerequisite: High School diploma or equivalency. Corequisite: Dental Assisting 190L. Advisory: Eligibility for English 98 or English 98SL. One lecture hour weekly.)  
A dental office management course designed to develop basic skills and background in all phases of dental reception functions and office management procedures to include: computer management, oral and written communication, bookkeeping skills, case presentation and financial arrangements, collection techniques, insurance processing, banking procedures, computing salaries and small business tax records, inventory control and job seeking skills. The course will also cover legal parameters of the State Dental Practice Act with regard to dental auxiliaries and HIPAA Patient Privacy Regulations. (CSU)

DENT 190L  Dental Practice Management and Economics Lab  
(1.0 Unit) (Prerequisite: High School diploma or equivalency. Corequisite: Dental Assisting 190. Advisory: Eligibility for English 98 or English 98SL. Three laboratory hours weekly.)  
This lab course, designed to develop basic skills and background in all phases of dental reception and office management, includes computer management, oral and written communication, bookkeeping skills, case presentation and financial arrangements, collection techniques, insurance processing, banking procedures, computing payroll, small business tax records, inventory control and job seeking skills. The course will also cover legal parameters of the State Dental Practice Act with regard to dental auxiliaries and HIPAA Patient Privacy Regulations. (CSU)

DENT 192  Dental Assisting Clinical Applications in Dental Offices  
(2.3 Units) (Prerequisite: Dental Assisting 183 and 186. Corequisite: Dental Assisting 192A. Advisory: English 98 or English 98SL. Four lecture and twenty four laboratory hours weekly for four weeks during the summer session.)  
This course is designed to give students meaningful participation in a dental office or clinic in order to understand and apply the Dental Assisting chairside skills needed in the dental industry under the direct supervision of the dental staff. The one-hour weekly seminar provides the students the opportunity to pres-
ent dental office case management journals and observations, discuss perceptions and apply or improve assisting skills to their internship. (CSU)

**DENT 192A  Pit and Fissure Sealants**  
(0.5 Unit) (Prerequisite: Dental Assisting 176. Corequisite: Dental Assisting 192 and 192AL. Advisory: English 98 or English 98SL. Two lecture hours weekly for four weeks during the summer session.)

This course is designed to give students knowledge in the application of Pit and Fissure sealants on patients. This course partially satisfies the State Dental Board to earn a Certificate in Pit and Fissure Sealants. (CSU)

**DENT 192AL  Pit and Fissure Sealants Lab**  
(0.5 Unit) (Prerequisite: Dental Assisting 183 and current CPR Certificate. Corequisite: Dental Assisting 192 and 192A. Advisory: English 98 or English 98SL. Six laboratory hours weekly for four weeks during the summer session.)

This course is designed to give students knowledge and meaningful participation in the application of Pit and Fissure sealants on patients. This Lab course partially satisfies the State Dental Board to earn a Certificate in Pit and Fissure Sealants. (CSU)

**DIRECTED STUDY**

The following information is the course description for all directed study courses that are offered in many disciplines throughout this catalog:

**Directed Study Courses**

**249ABC  Directed Study**  
(1-3 units)(Limit to Enrollment: One course in the discipline and/or prerequisite(s) determined by the appropriate discipline. Three laboratory hours weekly per unit.)

Directed study courses are offered in most disciplines and are designed to give students an opportunity to participate in independent study and in enriched academic experiences not covered within the scope of available curriculum offerings. Students plan and execute a project under an instructor’s direction. Students interested in registering for directed study should contact the discipline instructor to obtain an Application for Directed Study (instructor contract). The completed Application for Directed Study and an Add Card must then be submitted to the Office of Admissions and Records.

Students are limited to 4 enrollments (maximum of 12 units) of directed study. Directed study courses may be taken more than once for credit provided the same topic is not repeated.

**DRAMA**

The Drama Program offers a variety of major productions on the main stage and in the studio theater. Students receive college-level credit for participating in all aspects of production including acting as well as the various facets of technical theater such as sets, costumes, properties, lighting and sound. Additionally, there is a thriving Drama Club that sponsors student productions and events as well as an active Brown Bag Theater series that offers lunch hour programming including student-directed productions.

**Career Options**

Actor/Actress, Advertising Representative, Broadcast Technician, Business Agent, Casting Director, Choreographer, Comedian, Community Cultural Program Director, Costume Designer, Critic, Director, Dramatic Coach, Extra, Fundraiser, Hair Stylist, Lighting Operator, Makeup Artist, Mime, Playwright, Press Agent, Producer, Prop Maker, Public Affairs Director, Radio/TV Announcer, Recreation Specialist, Sales Representative, Set Builder, Set Carpenter, Set Designer, Set Painter, Sound Technician, Stage Manager, Stage Technician, Stunt Performer, Teacher, Theater Business Manager

**Faculty**

William Allen Taylor  
**Department Phone:** (415) 485-9555

**Transfer**

Students planning to transfer to a four-year institution should complete the lower division major requirements and general education pattern for the appropriate transfer institution and major. Exact major requirements for UC and CSU institutions can be found on www.assist.org. Please see a counselor for more information as curriculum requirements may vary among transfer universities.

**A.A. in Drama**

The drama major is offered only at the Kentfield Campus. The Drama Department gives students experience in writing, performing, designing and constructing sets, as well as in costume and makeup. It is an interdisciplinary program involving dance, art, music, and the English disciplines. Students in the program may transfer to four-year institutions or go into television and professional theatre groups.

Please note: Students may choose English 120, 120SL, or 150 to complete the Associate degree. Transfer students, however, are advised to complete English 150. All students should consult a counselor.

Drama Courses (DRAM)

DRAM 119 Theatre Criticism 3

Six units to be selected from the following:

DRAM 90 Careers in Performing Arts 1
DRAM 160 Stage Production 1
DRAM 161 Production Preparation and Crew – Sets and Properties 1-2
DRAM 162 Production Preparation and Crew – Costumes 1-2
DRAM 163 Production Preparation and Crew – Lights and Sound 1-2
DRAM 168 Theatre Management 1½

Eight units to be selected from the following:

DRAM 126 Improvisation for the Theatre 3
DRAM 130 Theory and Practice in Acting I 3
DRAM 134 Acting for Director’s Workshop 1
DRAM 237 Techniques of Audition ½
DRAM 240 Stage Direction 3

Three units to be selected from the following:

DRAM 125 Stage Movement 2
DANC 132 Musical Theatre Dance I 1½
MUS 181 Voice I 2

DRAM 110 Introduction to the Theatre 3

A survey course designed to create an appreciation of the theatre by the student not majoring in drama and an orientation course for the drama major. Areas to be covered include the purpose of theatre, significant milestones in theatre history, a behind-the-scenes look at play production, and trends in contemporary theatre. Lectures are combined with viewing of live and videotaped scenes representing different types of theatre. Required for drama majors. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A

DRAM 116 Survey of Dramatic Literature: Ancient Greek to the Present 3

A course for actors and nonactors alike, this course is designed to help students communicate with one another, overcome shyness and improve acting skills through the creation and performance of original scenes. May be taken twice for credit. (CSU/UC)

DRAM 117 Survey of Dramatic Literature: Shakespeare and His Theatre 3

Students will learn the art of criticism through attending plays and reading theatrical literature as well as conducting an in-depth study of theatre critics and aestheticians. After gaining a foundation in criticism, students will go out to plays and critique them. (CSU/UC) AA/AS Area C

DRAM 119 Theatre Criticism 3

Students will learn the art of criticism through attending plays and reading theatrical literature as well as conducting an in-depth study of theatre critics and aestheticians. After gaining a foundation in criticism, students will go out to plays and critique them. (CSU/UC) AA/AS Area C

DRAM 122 Summer Theatre Outreach 6

This course is an intensive drama workshop involving music, dance, and theatre, in which students create and perform an original show. May be taken four times for credit. (CSU)

DRAM 124 Acting for Anybody: Basic Acting 3

A course for actors and nonactors alike, this course is designed to help students communicate with one another, overcome shyness and improve acting skills through the creation and performance of original scenes. May be taken twice for credit. (CSU/UC)

DRAM 125 Stage Movement 2

This course is the study and practice of the art of physical theatre. Laban, Grotowski, Suzuki and others will be explored in this movement intensive. Actors are rarely in control of their bodies even though they are the essential tools of the actors. This class addresses the need for mastery over the physical realm in theatre. Recommended for all actors and required for all theatre majors. (CSU/UC)

DRAM 126 Improvisation for the Theatre 3

Improvisation is a participatory class in which students will practice skills necessary to support improvised performances. Students will be engaged in activities that will draw upon their ability to relax, to concentrate, and to respond spontaneously and honestly. This class will call upon and extend students’ imagination and will provide opportunities to practice narrative skills. The class will culminate in a series of public performances. May be taken four times for credit. (CSU/UC)
DRAM 127 Improvisation Performance
(2.0 Units) (No prerequisite. Advisory: Drama 126. One lecture and four laboratory hours weekly.)
This course is designed for students to rehearse as an ensemble, develop performance skills, and perform on a bi-weekly or weekly basis. May be taken four times for credit. (CSU/UC)

DRAM 128 Improvisation II
(3.0 Units) (No prerequisite. Advisory: Drama 126. Three lecture hours weekly.)
This course is an intermediate improv class for students with prior improv experience. We will explore ensemble performance and become adept at different improv genres: narrative, long form, social commentary, and dramatic improv. May be taken four times for credit. (CSU/UC)

DRAM 129 Voice for the Stage
(1.0 Unit) (Prerequisite: Drama 131. Two lecture hours weekly for eight weeks.)
This class teaches students how to control the instrument that is their voice. Students will explore various vocal techniques and look at differences in the British and American systems of voice acting. This class is recommended for all actors and required for all drama majors. (CSU)

DRAM 130 Theory and Practice in Acting I
(3.0 Units) (No prerequisite. Corequisite: Drama 134. Three lecture hours and one laboratory hour weekly.)
Beginning class in acting techniques. Exercises in characterization, pantomime, improvisation, voice projection, and body movement. Required for drama majors. Combinations of Drama 130, 131, and 230 may be taken a total of four times for credit. (CSU/UC) CSU Area C-1

DRAM 131 Theory and Practice in Acting II
(3.0 Units) (No prerequisite. Advisory: Drama 130 and 134. Three lecture hours and one laboratory hour weekly.)
Emphasis is on the creation and analysis of a character through intensive rehearsal of scenes. Recommended for drama majors. Combinations of Drama 130, 131, and 230 may be taken a total of four times for credit. (CSU/UC)

DRAM 134 Acting for the Director’s Workshop
(1.0 Unit) (No prerequisite. Approximately fifty-two laboratory hours of rehearsal and performances.)
Acting in student-directed scenes from Drama 240: Stage Direction. Audition, rehearsal and performance in student-directed scenes. Audition and performance time to be arranged. May be taken four times for credit. (CSU/UC)

DRAM 136 Acting for Television
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
This course examines the fundamentals of performing for video and includes exercises in the acting of scenes or short plays in a workshop situation. The student will gain experience in the writing, adaptation, directing, and acting of scenes and/or short plays in a workshop situation. The final project will be a videotaped performance of the student works. (CSU/UC)

DRAM 137 Stage Combat
(0.5 Unit) (No prerequisite. One and one-half laboratory hours weekly.)
This class covers the history, theory and practice of recreating fights for the stage. Students will learn about a controlled simulated approach to performing punches, slaps, falls and choreographed sword work. The history of personal combat will also be covered. Recommended for drama majors. (CSU)

DRAM 139 Selected Topics
(½-6 units) (Please see Selected Topics category.) (CSU/UC w/limit)

DRAM 140 Theatre Workshop
(3.0 Units) (No prerequisite. Two lecture and three laboratory hours weekly.)
This course offers students experience in preparing for a theatrical production. Costuming, makeup, lighting, and simple stagecraft will be incorporated into an open-ended experimental workshop. Students are encouraged to direct, design, produce, and perform showcase productions. May be taken four times for credit. (CSU/UC)

DRAM 142 Children’s Theatre Workshop
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
This course offers students methods for organizing, selecting, and producing plays for children. Techniques for acting and directing children’s theatre will be analyzed. A production will be rehearsed and performed. The goals of this course are to give students the opportunity to perform in theatre for children. May be taken four times for credit. (CSU)

DRAM 143 Storytelling and Personal Narratives
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
This class gives students an opportunity to conceive and perform original stories in a workshop setting. Good for all levels, from early childhood educators to potential performing artists and monologists. May be taken four times for credit. (CSU)

DRAM 144 Comedy Theory and Technique: Comedy 101
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
This course is a practical study of comedy from pratfalls to stand-up. A hands-on class designed to help actors and nonactors develop their funny bone. May be taken twice for credit. (CSU/UC)
DRAM 150  Introduction to Technical Theatre  
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

History, theory, and practice of theatre production. Basic principles in scenic design and construction, lighting design and equipment, and costume design and construction. Required for drama majors. May be taken four times for credit. (CSU/UC) CSU Area C-1

DRAM 151  Scenic Construction Techniques  
(3.0 Units) (Prerequisite: Drama 150. Corequisite: Drama 161. Two lecture and three laboratory hours weekly.)

Theory and practice in scenic production techniques. Basic principles of design and construction. Practical experience in lab on departmental productions. Required for drama majors. May be taken four times for credit. (CSU/UC)

DRAM 152  Costume Construction Techniques  
(3.0 Units) (Prerequisite: Drama 150. Corequisite: Drama 162. Two lecture and three laboratory hours weekly.)

A history of costume for stage use. Design and construction of costumes for production. May be taken four times for credit. (CSU/UC)

DRAM 153  Theatrical Lighting and Sound  
(3.0 Units) (Prerequisite: Drama 150. Corequisite: Drama 163. Three lecture hours weekly.)

The natures of light, color, electricity, and stage lighting equipment, and their application to planning lighting for productions. The elements and use of sound for theatrical productions. May be taken four times for credit. (CSU/UC)

DRAM 160  Stage Production  
(1.0 Unit) (No prerequisite. Fifty-two and one-half laboratory hours per semester.)

This is a general course in the practical aspects of stagecraft. Areas covered will be set construction, properties construction, costume construction, stage lighting, stage rigging, and sound operation. This course is open to all students, but must be taken by the actors cast in the semester’s production. May be taken four times for credit. (CSU/UC) CSU Area C-1

DRAM 161  Production Preparation and Crew - Sets and Properties  
(1-2 Units) (No prerequisite. Approximately fifty-two and one-half laboratory hours required per unit.)

Practical participation in the construction of scenery and properties for a production, and involvement in a backstage crew assignment during performances of departmental productions. May be taken four times for credit. (CSU/UC) CSU Area C-1

DRAM 162  Production Preparation and Crew - Costumes  
(1-2 Units) (No prerequisite. Approximately fifty-two and one-half laboratory hours required per unit.)

Practical participation in the construction of costumes for a production, and involvement in a backstage costume crew assignment during performances of departmental productions. May be taken four times for credit. (CSU/UC)

DRAM 163  Production Preparation and Crew - Lights and Sound  
(1-2 Units) (No prerequisite. Approximately fifty-two and one-half laboratory hours required per unit.)

Practical application of lights and sound for a production, and involvement in a light or sound crew assignment during performances of departmental productions. May be taken four times for credit. (CSU/UC)

DRAM 166  Stage Makeup: Theory and Practice  
(1.0 Unit) (No prerequisite. Three laboratory hours weekly.)

Designed for students and members of the community interested in the art of makeup for the theatre. Course will include beards, character, ethnic, old age, animals, and stylized makeup. Students are encouraged to experiment and form their own designs. Students are required to purchase their own materials. May be taken four times for credit. (CSU/UC)

DRAM 167  Theatrical Design: Lights, Costumes, Scenery  
(3.0 Units) (Prerequisites: Drama 150 and either Drama 151 or 152 or 153. Corequisite: Drama 160 or 161 or 162 or 163. Two lecture and three laboratory hours weekly.)

An approach to theatrical design for all students of drama with a comprehensive study of composition, texture, line, balance, and color. May be taken four times for credit. (CSU/UC)

DRAM 168  Theatre Management  
(1.5 Units) (No prerequisite. One lecture and one and one-half laboratory hours weekly.)

This course is an introduction to the principles and practice of stage and theatrical management. This course covers theatre financing, box office operations, stage and house management procedures, promotion and publicity. Strongly recommended for all theatre majors and required for theatre internship students. (CSU)

DRAM 217  Shakespearean Text Analysis for the Actor  
(2.0 Units) (No prerequisite. Corequisite: Drama 245. One lecture and three laboratory hours weekly.)

This class will cover the techniques necessary for the actor to analyze the text of a play by William Shakespeare in order to prepare for the performance of a role in a Drama Department production. The focus will be on verse and prose speaking, discovery of character through the language and historical stylistic approach to the performance of Shakespeare on stage. May be taken four times for credit. (CSU/UC)
Drama

Dramatic Works

(4.0 Units) (Prerequisite: Audition based upon a standardized level of performance for roles in College productions. One lecture and nine laboratory hours weekly.)

A concentrated laboratory workshop for the advanced acting student in advanced techniques of rehearsal and performance of the more demanding and less well-known works of the contemporary and classic theatre. Students in this class will also assume the necessary technical duties required for production. May be taken four times for credit. (CSU/UC)

Dramatic Works

(4.0 Units) (Prerequisite: Audition based upon a standardized level of performance for College productions. Corequisite: Drama 160. Total of 210 laboratory hours over nine weeks.)

Supervised activity in acting in the regularly scheduled production of plays. Minimum of three weekly lab hours and Drama 160 are required during preproduction in one of the technical areas. May be taken four times for credit. (CSU/UC) CSU Area C-1

Directed Study

(1-3 units) (Limit to Enrollment: Prior arrangement with instructor.)

Directed study in drama is offered to give students experience in planning a course of study of a technical project on their own initiative under departmental supervision. The directed study should deal with a special interest not covered in a regular course or with the exploration in greater depth of a subject presented in a regular course. Evaluation will be through conferences and written report(s) as determined by the student and instructor. May be taken more than once for credit. (CSU/UC w/limit)

Seminar and Fieldwork Experience

(2.0, 3.0 or 4.0 Units) (Prerequisite: Drama 150 or 168. One lecture and four fieldwork hours weekly for two units; one lecture and eight fieldwork hours weekly for three units; one lecture and twelve fieldwork hours weekly for four units.)

This course is designed to give theater students meaningful work experience in the areas of technical theater, theater management and acting. Each student will work in a theater, theater company or production company under the supervision of someone employed there. In the one-hour weekly seminar, students will evaluate their work in the field and share their experiences of the professional world with their peers. May be taken additional semesters, up to a course total of eight units. (CSU)

Musical Theatre Production Workshop

(4.0 Units) (Prerequisite: Audition based upon a standardized level of performance for College productions. Corequisite: Drama 160. Total of 210 laboratory hours over nine weeks.)

Supervised activity in acting in the regularly scheduled production of musical plays. A minimum of three weekly lab hours and Drama 160 are required during preproduction in one of the technical areas. This course will cover acting, musicianship, dance and movement, voice production, and stagecraft. It culminates with the public performance of a full-stage musical. May be taken four times for credit. (CSU/UC) CSU Area C-1
EARLY CHILDHOOD EDUCATION

The Early Childhood Education Program is designed to prepare students to become teachers or directors in children's centers, nursery and preschools, prekindergartens, infant-toddler programs, employer-supported children's centers, extended day-care or family day-care programs.

Career Options
Teacher, Head Teacher, or Director of: Children's Centers, Employer-Supported Children's Centers, Extended Day Programs, Family Day-Care Programs, Infant-Toddler Programs, Nursery and Preschools, Parent Cooperative Nursery Schools, Prekindergarten Programs

Faculty
Margaret (Peggy) Dodge - ECE Coordinator, Shaquam Edwards
Department Phone: (415) 485-9319

Transfer
Students planning to transfer to a four-year institution should complete the lower division major requirements and general education pattern for the appropriate transfer institution and major. Exact major requirements for UC and CSU institutions can be found on www.assist.org. Please see a counselor for more information as curriculum requirements may vary among transfer universities.

A.S. in Early Childhood Education, Occupational (Certificate of Achievement awarded. Skills Certificate in Early Childhood Education Core also awarded.)

To obtain an Associate in Science degree with a major in Early Childhood Education, students need to complete the required courses, as well as general education courses and graduation requirements. A Certificate of Achievement is also awarded (see “Early Childhood Education Certificate of Achievement Requirements”). In addition, a Skills Certificate is earned by satisfactory completion of the required courses. (See “Early Childhood Education Core Skills Certificate Requirements”)

Students who wish to enter the Early Childhood Education Program are advised to call or contact the program coordinator. The coordinator will discuss options for beginning the program and for tailoring individual scheduling needs to the structure of the program. Students who are enrolling in the student teaching practicum courses must meet with the Early Childhood Education Program coordinator, fill out an application, and complete all forms required by the Early Childhood Education Student Teaching Program prior to beginning their student teaching placements.

Please note: Students may take English 120, 120SL, or 150 to complete the Associate degree. Transfer students, however, are advised to complete English 150 and 151 or 155. All students should consult a counselor.

* Early Childhood Education 114 may be waived and one elective taken instead if the student can show proof of recent early childhood classroom experience.

Skills Certificate

Skills Certificates are an acknowledgement that the student has attained a specified set of competencies within an occupational program. Skills Certificates may be part of a “ladder” of skills, beginning with job entry skills and leading to a full Certificate of Achievement program or may constitute a skill set that enables a student to upgrade or advance in an existing career. Skills Certificates require less than 18 units and are shorter in duration than the Certificate of Achievement.

Early Childhood Education Core Skills Certificate

A student who has an Early Childhood Education Core Skills Certificate has completed 9-12 of the units required for the next level of certificate, the Certificate of Achievement in Early Childhood Education. A student who has completed the required courses for the Early Childhood Education Core Skills Certificate has met the coursework requirements of the Department of Social Services to be a teacher in a Title 22 preschool or children's center. Upon completion of the Early Childhood Education Core Skills Certificate a student would be eligible to apply for the Associate Teacher level of the Child Development permit, issued by the Commission on Teacher Credentialing.

Requirements | Units
---|---
ECE 101 Introduction to Child Development | 3
Or ECE 110 Child Development I | 3

Licensing Coursework Requirements:

The Department of Social Services requires that anyone working in a children’s program as a teacher have at least 12 semester units of coursework in early childhood education, with at least one course in each of the following three subject areas:

1. Child or Human Growth and Development (ECE 101 or 110)
2. Child, Family and Community, or Child-Family Relations (ECE 112)
3. Programs and Curriculum (ECE 114, 115, 120, 132, 133, 134, 135, 137, 205, 208, 217, 218, 219, 221, 222, 223, 224, 225)

Child Development Permit Requirements:

The California Department of Education requires that anyone working in a children's program subsidized by the Child Development Division obtain the appropriate permit from the California Commission on Teacher Credentialing.

1. For Child Development Assistant Teacher Permit: Six units of early childhood education courses.
2. For Child Development Associate Teacher Permit: Twelve units in early childhood education including the core *** courses.
3. For Child Development Teacher Permit: Twenty-four units in early childhood education including the core *** courses, and 16 units in general education ****.
4. For Child Development Master Teacher Permit: Twenty-four units in early childhood education including the core *** courses, and 16 units in general education ****. Two units in adult supervision (ECE 295), and 6 units of specialization in an early childhood education subject area. Alternatives exist for teachers who already have a Bachelor's degree.
5. For Child Development Site Supervisor Permit: Associate degree with at least 24 units in early childhood education including the core *** courses, 6 units in early childhood education administration (ECE 220A, 220B), 2 units in adult supervision (ECE 295). Alternatives exist for teachers who already have a Bachelor's degree.
6. For Child Development Program Director Permit: Bachelor's degree with at least 24 units in early childhood education including the core *** courses, 6 units in early childhood education administration (ECE 220A, 220B), 2 units in adult supervision (ECE 295).

*** Core courses for the Child Development permit include at least one course in each of the following three subject areas:

1. Child or Human Growth and Development (ECE 101 or 110)
2. Child, Family and Community, or Child-Family Relations (ECE 112)
3. Programs and Curriculum (ECE 114, 115, 120, 132, 133, 134, 135, 137, 205, 208, 217, 218, 219, 221, 222, 223, 224, 225)

**** One course in each of the four general education categories, which are degree applicable: English/Language Arts; Math or Science; Social Sciences; Humanities and/or Fine Arts.
Early Childhood Education Courses (ECE)

ECE 039  Selected Topics (Nondegree Applicable)
(½-6 units) (Please see Selected Topics category.)

ECE 100  Licensing and Permits: Introduction to Childcare Programs
(0.5 Unit) (No prerequisite. One-half lecture hour weekly.)
This course provides information regarding state requirements for being a teacher in a licensed children’s program and for obtaining a Child Development Permit. Coursework requirements for the Associate of Science degree and Certificate of Achievement in Early Childhood Education are reviewed. Information about setting up a family childcare program is also included. This course is required for both the Associate of Science degree and the Certificate of Achievement in Early Childhood Education. It is also recommended for people wishing to learn about career options in Early Childhood Education and for providers already working in the field. Can also be offered in a distance learning format. (CSU)

ECE 101  Introduction to Child Development
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
This introductory course explains the ages and stages of development from birth through adolescence, describing physical, intellectual, social and emotional growth. Emphasis is on the practical application of principles and the adult role in supporting optimal growth. This course meets the Department of Social Services licensing requirements for coursework in early childhood education. It also meets requirements for all levels of the Child Development Permits. (CSU)

ECE 110  Child Development
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
This course is the study of the growth and development of children from the prenatal stage through adolescence. For each stage of development, the physical, cognitive, social and emotional aspects of development are discussed, with attention to both typical and atypical development. Included are the influences of culture, family, and the environment. Implications of developmental understanding for care-giving strategies are included, with emphasis on practices in early childhood and early elementary education and child rearing. This course meets Department of Social Services licensure requirements for coursework in ECE. It is also required for all levels of the Child Development Permit. (CSU/UC) AA/AS Area B, CSU Area D-7, IGETC Area 4

ECE 114  Introduction to Early Childhood Education
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
Introduction to the best and promising teaching and care practices as defined within the field of early care and education, including an historic overview, range of delivery systems, program philosophies, and ethical standards. Evaluating quality of programs, role of play, guidance strategies and the observation-planning-evaluation sequence are included. (CSU)

ECE 115  Introduction to Early Childhood Curriculum
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
In this course, students will learn how to design and evaluate foundational curriculum in areas such as literacy, mathematics, science, social and emotional development, and artistic expression. Techniques for working with children individually as well as in small and large groups are included. Approaches for setting up classrooms, developing anti-bias materials, and resolving conflicts. (CSU)

ECE 116  Observation and Assessment
(3.0 Units) (Prerequisite: Early Childhood Education 101 or 110. Three lecture hours weekly.)
This course explores an array of child observation and study methods, providing a theoretical framework for understanding the connection between effective observations, curriculum planning and child guidance in early childhood education and care settings. Advantages and disadvantages of observation techniques, observer bias and cultural considerations are discussed. (CSU)

ECE 120  Planning and Teaching an After School Program
(3.0 Units) (No prerequisite. Sixteen lecture hours per semester.)
This course includes age-appropriate activities for after school programs, aspects of after school care, and strategies for working with and understanding children in after school settings. (CSU)
ECE 131 Health, Safety and Nutrition Practices for Young Children
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
In this course students will learn about universal health precautions, OSHA guidelines and licensing regulations, planning nutrition programs and other current health and safety practices to use when working with young children. Other topics include injury prevention, emergency planning, recognizing and reporting suspected child abuse. Certificates will be issued upon successful completion of Pediatric CPR and First Aid training components. (CSU)

ECE 132 Planning and Leading Circle Times with Young Children
(1.0 Unit) (No prerequisite. One lecture hour weekly.)
Includes approaches for planning and leading circle times for preschoolers, toddlers, school-agers and mixed age groups. Features ideas for materials, songs and activities for circle times and strategies for managing groups and guiding young children during circle times. This course can be applied towards licensing and Child Development Permit coursework requirements in the subject area of Programs and Curriculum. (CSU)

ECE 133 Creative Art Curriculum for Young Children
(2.0 Units) (No prerequisite. Two lecture hours weekly.)
In this course students will learn how to plan, design and present a process-oriented art curriculum for young children. Through in-class hands-on art activities students will sample a variety of media for children. An overview of current trends in early art education is also included. (CSU)

ECE 134 Understanding Young Children's Temperaments
(1.0 Unit) (No prerequisite. One lecture hour weekly.)
How to work with children of different temperament types; examination of the different temperament types; overview of research on temperament and children; how to recognize the different temperamental traits, strategies and approaches for working successfully with young children of different temperamental types in group care and classroom settings. (CSU)

ECE 135 Working With Children's Challenging Behavior
(2.0 Units) (No prerequisite. Two lecture hours weekly.)
In this course students will be provided with descriptors and characteristics of challenging behavior in young children in early childhood classroom settings. Strategies and approaches for managing children's challenging behavior are featured. In addition methods for working with parents when their child displays challenging behavior and for locating outside help are also included. (CSU)

ECE 137 Emergent Literacy in the Early Childhood Classroom
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
This course introduces students to the early literacy curriculum. It includes methods for setting up a classroom and planning curriculum to foster the development of pre-reading and pre-writing skills. Strategies for working with children who speak languages other than English are also included. Approaches for involving families in supporting language and literacy development in children are covered. Students will also learn about methods for assessing children's skills in speaking, pre-reading, and pre-writing. The curriculum for this course is based on NAEYC's "Heads Up! Reading" Early Literacy Program and features videos and/or broadcasts from the NAEYC's "Heads Up! Reading" satellite course. (CSU)

ECE 139 Selected Topics
(½-6 units) (Please see Selected Topics category.) (CSU w/limit)

ECE 205 Continuing Experiences in Early Childhood Curriculum
(3.0 Units) (Prerequisite: Early Childhood Education 115; Advisory: Early Childhood Education 114. Three lecture hours weekly.)
This course provides information, ideas, and hands-on experience in exploring a variety of innovative curriculum models such as the "emergent curriculum," the "Project Approach," and the "Reggio Emilia Approach." Students will explore strategies and approaches for developing long-term projects with your children. Approaches for documenting and recording children's experiences in long-term projects are also included. (CSU)

ECE 208 Exploring Cultural Diversity in the Early Childhood Classroom
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
This course examines societal and personal attitudes, beliefs, values, assumptions and biases about culture, language, identity, family structures, ability and socioeconomic status. It focuses on the concepts of cultural competency in the early childhood classroom, and culturally sensitive/competent approaches to working with diverse populations of children and their families. Ideas and examples for creating culturally diverse and anti-bias curricula, materials and environments are featured. (CSU)

ECE 217 Fostering Creativity in the Classroom
(2.0 Units) (No prerequisite. Two lecture hours weekly.)
This course offers a variety of strategies and hands on ideas for fostering creativity in young children. It examines aspects of creative thinking and provides methods for planning creative activities in all curriculum areas. This course satisfies the "Programs and Curriculum" requirement for licensing and can be applied toward coursework for a Child Development Permit. (CSU)
ECE 218  Caring for the Infant and Toddler
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
This course covers approaches, techniques, and materials to use in caring for infants and toddlers in a program setting. Methods for developing age-appropriate curricula and setting up environments are included. This course can be applied toward credit in infant-toddler care required by the Department of Social Services and toward credit for the Child Development Permits. (CSU)

ECE 220A  Early Childhood Education Administration A
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
This course covers information and methods for developing, teaching, and administering a preschool program. Topics include a survey of types of preschool programs, how to staff and plan a budget for a preschool program, the role of an administrator, setting up preschool environments, and planning for children. This course can be applied toward the administration course requirement for the Site Supervisor and Program Director Child Development Permits. This course is recommended in particular to directors and head teachers seeking credit in early childhood education administration. (CSU)

ECE 220B  Early Childhood Education Administration B
(3.0 Units) (Prerequisite: Early Childhood Education 220A or concurrent enrollment. Three lecture hours weekly.)
This course provides in-depth examination of such aspects of early childhood program administration as parent involvement, obtaining child and family histories, implementing regulation requirements, program evaluation procedures, child assessments, staff supervision, and nutrition programs. Administration of Title 5 childcare programs is also examined. This course can be applied toward credit needed for Site Supervisor and Program Director Child Development Permits. This course is recommended in particular for directors, head teachers, and teachers seeking an advanced early childhood administration course. (CSU)

ECE 221  Teaching Science to Young Children
(2.0 Units) (No prerequisite. Two lecture hours weekly.)
In this course students learn how to design and present developmentally appropriate science curricula for young children. Included are hands-on science activities with recommended materials. Young children’s thinking and other cognitive processes are also examined. This course can be applied toward state licensing and Children’s Center Permit requirements for coursework in “Programs and Curriculum.” (CSU)

ECE 222  Working with Special Needs Children in Early Childhood Classrooms
(2.0 Units) (No prerequisite. Two lecture hours weekly.)
This course prepares students to work with infants, toddlers, and preschoolers with special needs in a classroom setting. It includes approaches for assisting special needs children in classroom routines; assessing and identifying special needs; writing an Individual Education Plan, and working with parents of special needs infants, toddlers, and preschoolers. (CSU)

ECE 223  Music Activities for Young Children
(1.0 Unit) (No prerequisite. Sixteen and one-half lecture hours per semester.)
Through a survey of teaching methods and hands-on music activities, this course enables students to develop a rich and enjoyable music program for young children, understand basic musical concepts, present culturally diverse music activities, and foster reading and math readiness through music. This course meets the Department of Social Services’ requirement for coursework in the area of “Programs and Curriculum.” (CSU)

ECE 224  Working with Parents in Early Childhood Programs
(2.0 Units) (No prerequisite. Two lecture hours weekly.)
In this course students learn approaches and techniques for working with parents in infant/toddler, preschool and extended day programs. It includes strategies for planning and leading parent-teacher conferences, effective techniques for communicating with parents, and ideas for parent involvement in early childhood programs. (CSU)

ECE 225  Guidance and Limit-Setting in the Early Childhood Classroom
(2.0 Units) (No prerequisite. Two lecture hours weekly.)
Strategies and approaches for guiding and setting limits with young children in classroom settings are presented and explored in this course. Guidance and limit-setting techniques for working with toddlers, preschoolers, and school-age children are included. Also featured are methods for assisting young children in conflict resolution. (CSU)

ECE 239  Current Issues in Early Childhood Education
(3.0 Units) (No prerequisite. Hours will vary with selected topic.)
Specialized and contemporary topics in the area of early childhood education are the focus of this course. The subject matter will vary with the needs and interests of the students. The course content will also be designed to meet educational requirements for Department of Social Services licensing and Child Development Permit attainment. The specific topic for each semester will be announced in the class schedule. The class may be taken more than once, provided that the topic of the course is not the same. (CSU)
ECE 260  Marin Childcare Conference and Follow-up One-Day Workshop D

(1.0 Unit) (No prerequisite. Sixteen hours per semester.)

Part I of this course is a day conference (eight hours) for childcare providers and any other interested parties. Participants may choose from mid-morning and afternoon workshops on current issues, trends, and policies in early childhood education. A keynote presentation is also included. This conference is held off-campus. Part II consists of a one-day workshop (eight hours) in which instructor reviews and expands on topics that have been presented in conference workshops (i.e., implementing new curriculum ideas or new licensing policies utilizing new approaches for special education at early childhood level). Part II of this course is held on the Kentfield campus. May be taken four times for credit. (CSU)

ECE 261  ECE Conference Course

(0.5 Unit) (No prerequisite. Eight and one-half lecture hours for one day.)

This is a conference-format course. Topics and content will vary. The course can also be used to meet “Professional Growth” requirements for renewal of the Teacher, Master Teacher, Site Supervisor, or Director level of Child Development Permit issued by the California Commission on Teacher Credentialing. May be taken four times for credit. (CSU)

ECE 280  Early Childhood Education Fieldwork and Seminar I: Beginning Practicum

(3 Units) (Prerequisite: Early Childhood Education 115. Advisory: Early Childhood Education 116. Other limitations on enrollment: evidence of physical exam and TB test within past 6 months and up-to-date immunization records; also must complete Criminal Record Clearance statement prior to fieldwork placement. One seminar and six fieldwork hours weekly.)

This course is designed to provide the opportunity for the student to plan, prepare, implement and evaluate various curriculum activities and techniques with young children in an early education and care setting, including developing effective classroom management and child guidance techniques. The course also includes six hours weekly working directly with children in the campus Children’s Centers or in California Early Childhood Mentor Program classrooms. In cases of extreme hardship, students can petition for placement at their early childhood workplace. Contact ECE Program Coordinator or Health Sciences Department Administrative Assistant for placement request, physical, Criminal Record Clearance, and petition forms. (CSU)

ECE 281  Early Childhood Education Fieldwork and Seminar II: Advanced Practicum

(3 Units) (Prerequisite: Early Childhood Education 280. Other limitations on enrollment: student must provide evidence of physical exam and TB test from within the past 6 months and up-to-date immunization records; also must complete Criminal Record Clearance statement prior to fieldwork placement. One seminar and six fieldwork hours weekly.)

This course is designed to provide advanced training in planning, preparing, implementing and evaluating various curriculum activities and techniques with young children in an early education and care setting. Integration of curriculum and documentation of individual children’s competencies is emphasized. A seminar is included in this course, in which students will discuss teaching strategies and curriculum development techniques. The course also includes six hours weekly working directly with children in the campus Children’s Centers or in California Early Childhood Mentor program classrooms. In cases of extreme hardship, students can petition for placement at their early childhood workplace. Contact ECE Program Coordinator or Health Sciences Department Administrative Assistant for placement request, physical, Criminal Record Clearance or petition forms. (CSU)

ECE 295  Supervising Adults in Early Childhood Programs

(2.0 Units) (No prerequisite. Two lecture hours weekly.)

This course offers methods for working with, supervising, and training staff and student teachers in a childcare setting. Topics include an examination of effective supervisory styles, approaches for motivating staff, perspectives on staff members as adult learners, methods for evaluating and conferring with staff, and strategies for assisting staff in assessing their classroom, curriculum, and interactions with children. This course is recommended for teachers, head teachers, directors, and site supervisors who are currently supervising or wish to supervise staff or student teachers in their programs. It is a requirement for anyone who wishes to obtain a Site Supervisor or Program Director Child Development Permit. (CSU)

ECONOMICS

Courses in economics provide students with a foundation to prepare them for careers in business and government. Economists who work in business are expected to help their firms adapt to the changing environment. This typically involves short- and long-term economic forecasts of how changes in the economic environment will affect various aspects of business, such as marketing, purchasing, industrial relations, and finance. Most economists employed by the government are specialists in such fields as agriculture, labor, business, and international trade.

Faculty

Robert P. Kennedy, Norman Pacula
Department Phone: (415) 485-9630
Transfer
Students planning to transfer to a four-year institution should complete the lower division major requirements and general education pattern for the appropriate transfer institution and major. Exact major requirements for UC and CSU institutions can be found on www.assist.org. Please see a counselor for more information as curriculum requirements may vary among transfer universities.

Economics Courses (ECON)

ECON 039  Selected Topics (Nondegree Applicable)
(½-6 units)(Please see Selected Topics category.)

ECON 101  Principles of Macroeconomics
(3.0 Units) (No prerequisite. Advisories: Eligibility for English 120 and eligibility for Math 103. Economics 102 may be taken before Economics 101. Three lecture hours weekly.)

This course is an introduction to macroeconomic analysis, the economy as a whole. The student will study the determinants of GDP (gross domestic product), employment, income, savings, and investment. Emphasis is placed upon the study of government intervention in the economy through fiscal policy and monetary policy aimed at reducing economic fluctuations. Includes a brief history of economic theory and an introduction to monetarism. (CSU/UC) AA/AS Area B, CSU Area D-2, IGETC Area 4, CAN ECON 2

ECON 102  Principles of Microeconomics
(3.0 Units) (No prerequisite. Advisories: Eligibility for English 120 and eligibility for Math 103. Economics 101 and Economics 102 may be taken in either order. Three lecture hours weekly.)

This course is an introduction to microeconomic analysis, how the various units in the economy make decisions. The student will study scarcity, demand, supply, equilibrium price and the allocation of resources in market structures of pure competition, monopolistic competition, oligopoly, and monopoly. This course includes introductory information on international economics and globalization. (CSU/UC) AA/AS Area B, CSU Area D-2, IGETC Area 4, CAN ECON 4

ECON 125  Research Methods and Term Papers in Economics
(3.0 Units) (No prerequisite. Advisory: Competence in written language skills comparable to eligibility for English 150. Students may receive credit for this course as Economics 125, Ethnic Studies 125, History 125, Political Science 125, or Social Science 125. Credit will be awarded for only one discipline. Three lecture hours weekly.)

This course focuses on the elements of critical thinking and methods of research in the social sciences and develops skills required to organize such thought and research into effective, college level presentations. Various social science faculty members will offer their expertise to students on an individual basis as they develop their presentations. Students are encouraged to select areas of research from other courses taken during the semester or from areas of special interest including politics, history, economics, education, women's studies, ethnic studies, current issues, and issues of community concern. (CSU/UC) CSU Area A-3

ECON 139  Selected Topics
(½-6 units)(Please see Selected Topics category.) (CSU/UC w/limit)

ECON 201  Understanding Globalization: The Impact of Social, Political, and Economic Change
(3.0 Units) (No prerequisite. Can be taken for credit as Economics 201 or Behavioral Science 201 or Political Science 201. Credit will be awarded for only one discipline. Three lecture hours weekly.)

The world is becoming more integrated and interdependent, heightening the need for greater understanding of the impact of globalization on the economy, politics, and society. This interdisciplinary team-taught course explores the new wave of global political, economic, and social change and the opportunities and challenges it brings to states, institutions, and individuals. Focus is upon what the individual will need to know and understand to be an effective participant in these rapidly changing global phenomena. (CSU/UC) AA/AS Area B, CSU Area D-7, IGETC Area 4

ECON 215  Survey of Current Issues
(3.0 Units) (No prerequisite. Can be taken for credit as Economics 215 or Political Science 215 or Social Science 215. Credit will be awarded for only one discipline. Three lecture hours weekly.)

This course is an opportunity to critically examine and discuss significant world developments and to attempt to understand the sources of those developments. Each student will have an opportunity to focus on issues of particular interest and to share that information with the group. When possible, informed participants in world and national events will meet with the class to share insights. (CSU)

ECON 249  Directed Study
(1-3 units)(Please see Directed Study category.) (CSU/UC w/limit)

EDUCATION
Courses in this area provide students with an introduction to the field of public education and practical experience in literacy, curriculum planning, and classroom assessment. Courses include field placement in classrooms under the supervision of an experienced mentor teacher.

Faculty
Sandy Boyd
Department Phone: (415) 485-9630

Skills Certificates
Skills Certificates are an acknowledgement that the student has attained a specified set of competencies within an occupational program. Skills Certificates may be part of a “ladder” of skills, beginning with job entry skills and leading to a full Certificate of Achievement program or may constitute a skill set that enables a
student to upgrade or advance in an existing career. Skills Certificates require less than 18 units and are shorter in duration than the Certificates of Achievement.

**Education Skills Certificate**
The Education Certificate indicates that the student has successfully completed foundation coursework in education, teaching and learning, and has gained experience working as a volunteer in a K-12 classroom.

**Education Courses (EDUC)**

EDUC 039  Selected Topics (Nondegree Applicable)
(½-6 units) (Please see Selected Topics category.)

EDUC 110  Introduction to Education
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
This course is an introduction to the field of public education for those interested in teaching and learning. This course includes information about school governance, the nature of teaching as a profession, and the philosophies of education. (CSU/UC)

EDUC 111  Foundations of Teaching
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
This course explores what it means to be a professional teacher in today’s high-stakes environment of education. Building upon a strong mentoring approach, this course helps students make decisions about their teaching future by fostering an awareness of the realities of teaching in America today. This approach provides student with the tools and information necessary to explore what it takes to become a professional teacher and choosing teaching as a career. Also included are practical perspectives for meeting the challenges of teaching as well as practical and foundational topics that provide students with a well-rounded view of the teaching profession. (CSU/UC)

EDUC 119  Effective Teaching Strategies in Wellness and Fitness
(3.0 Units) (No prerequisite. Advisory: Physical Education 116. Three lecture hours weekly.)
This course is designed to help students become more effective wellness and fitness professionals. Students will develop a toolbox of practical teaching, learning, and evaluation methods to increase their ability to convey their knowledge to others in this field and more successfully impact their future clients, students, or athletes. (CSU)

EDUC 139  Selected Topics
(½-6 units) (Please see Selected Topics category.) (CSU w/limit)

**ELECTRONICS TECHNOLOGY**
Courses in this area provide a limited introduction to electronics and telecommunication technology. They are designed to equip the student with basic terminology, concepts, and some measurement and diagnostic skills.

**Career Options**

**Department Phone:** (415) 883-2211, Ext. 8200

**Electronics Technology Courses (ELEC)**

ELEC 039  Selected Topics (Nondegree Applicable)
(½-6 units) (Please see Selected Topics category.)

ELEC 100  Fundamentals of Electronics
(2.0 Units) (No prerequisite. Thirty-four hours per semester.)
Introduction to principles, terminology, and measurements of electrical circuits and electronic systems. Behavior of DC and AC circuits and electronic devices with their applications in automotive, computer, communications, power distribution, and entertainment systems. (CSU)

ELEC 139  Selected Topics
(½-6 units) (Please see Selected Topics category.) (CSU w/limit)

ELEC 249  Directed Study
(1-3 units) (Please see Directed Study category.) (CSU w/limit)

**ENGINEERING**
No profession has as many diverse specialties and applications as engineering. Few other professions offer the challenge, financial rewards, and opportunity to make a contribution to the betterment of our environment and standard of living as engineering. There are many specialties in engineering and within each area there are countless subdivisions. Our technology has grown so pervasive and complex that each facet of an engineering problem demands a specific type of training and expertise.

**Career Options**
Aerodynamicist, Agricultural Engineer, Ceramic Engineer, Chemical Engineer, Civil Engineer, Customer Service Representative, Designer, Drafter, Electrical Engineer, Electronics Engineer, Field Service Engineer, Industrial Engineer, Management Analyst,
Marine Engineer, Materials Scheduler, Mechanical Engineer, Metallographer, Metallurgical Engineer, Mining Engineer, Nuclear Engineer, Operations Analyst, Petroleum Engineer, Production Manager, Project Director, Research Scientist, Safety Engineer, Sales Engineer, Surveyor, Systems Analyst, Technical Illustrator, Tester, Welding Technician

Faculty

Transfer
Students planning to transfer to a four-year institution should complete the lower division major requirements and general education pattern for the appropriate transfer institution and major. Exact major requirements for UC and CSU institutions can be found on www.assist.org. Please see a counselor for more information as curriculum requirements may vary among transfer universities.

A.S. in Engineering
The Kentfield Campus offers a two-year, lower division Engineering Core Program which, when satisfactorily completed, allows the student to transfer to an engineering program at the four-year college or university. To provide an effective and economical program for lower division engineering education, the State of California has adopted the curriculum developed by the Engineering Liaison Committee of the Articulation Counsel of California. This agreement coordinates the transferable course offerings between community colleges and the four-year colleges and universities in California.

After completing the lower division engineering curriculum, it is common to complete a Bachelor’s degree in two years at the four-year school. Due to the diverse nature of availability among engineering programs, students are strongly advised to enroll in Engineering 110 as soon as possible.

Please note: Students are required to complete English 150 for the Associate degree. All students should consult a counselor.

A.S. in Engineering Technology, Occupational
The engineering technician is a valuable part of the team working together in every branch of modern industry. The work of the technician is “practical,” typically involving surveying, drafting, laboratory testing, and equipment operation and maintenance. At the Kentfield Campus, a core program is suggested for the student who is interested in engineering technology. The student will elect additional courses to further prepare for some specialty such as draftsman, surveyor, engineering maintenance specialist, salesman, shop, or laboratory technician.

Upon completion of this program, the student may elect to continue studies at a four-year college that will lead to a Bachelor’s degree in engineering technology. Schools that offer such programs include: California State Polytechnic University, Sacramento State University, Fresno State University, Northrup Technical Institute, and Cogswell Technical Institute.

Upon entering this program the student should seek the advice of an instructor in engineering regarding electives, possible employment, and current demands of industry.

Please note: Students may choose English 120 or 150 to complete the Associate degree. Transfer students, however, are advised to complete English 150. All students should consult a counselor.

Engineering Courses (ENGG)

ENGG 039  Selected Topics (Nondegree Applicable)  
(½-6 units)(Please see Selected Topics category.)

ENGG 110  Careers in Engineering and Technology  
(1.0 Unit) (No prerequisite. One lecture hour weekly.)
This course introduces students to the different branches of engineering, emphasizing the educational requirements and the employment expectations upon completion of a four-year degree program. The course outlines basic lower-division transfer plans in detail and provides an overview of the course work required after transfer. This course helps students select from possible transfer options those that best fit personal needs and career objectives. Engineering 110 is intended for students considering careers in engineering, computer science, or related engineering technologies. (CSU/UC)

ENGG 110B  Introduction to Engineering Design  
(2.0 Units) (No prerequisite. Corequisite: Computer Science 150A. Advisories: Engineering 110 and 125. One lecture and three laboratory hours weekly.)
This course introduces the student to team-oriented engineering design and problem-solving processes, as well as the use of computers in the solution of a wide variety of engineering problems. Students engage in hands-on design activities, covering all stages of the design process from initial need identification through finished product evaluation, including experimental design and data analysis to support design efforts. Throughout the course, emphasis will be given to technical communications, teamwork, engineering design and problem-solving methodologies. Specific assignments and activities within the course represent a broad range of engineering disciplines. (CSU/UC)

ENGG 125  Introductory Engineering Graphics  
(4.0 Units) (No prerequisite. Two lecture and six laboratory hours weekly.)
This course helps students develop the functional skills required for engineering graphical communication, geometric construction, and dimensioning in accordance with ANSI standards. It presents engineering sketching and drawing with an introduction to CAD systems. It also covers the fundamentals of orthographic projection and descriptive geometry, providing applications to engineering design. The course helps students develop their spatial reasoning skills. This course is designed to serve a diversity of disciplines, but with an emphasis on engineering applications. (CSU/UC)

ENGG 126  Intermediate Engineering Graphics  
(2.0 Units) (Prerequisite: Engineering 125. One lecture and three laboratory hours weekly.)

ENGG 139  Selected Topics  
(½-6 units)(Please see Selected Topics category.) (CSU/UC w/limit)

ENGG 150  Construction Engineering: Materials and Methods I  
(3.0 Units) (Prerequisite: Enrollment in engineering or Engineering Technology Programs for at least one year, or equivalent study and/or employment. Three lecture hours weekly.)
Evaluation and effects of loads on structures, earthwork construction, pipeline and utility construction, tunneling, pavement construction, concrete and concrete construction, masonry construction, and discussion of conversion to metric system throughout the course. (CSU)

ENGG 151  Construction Engineering: Materials and Methods II  
(3.0 Units) (Prerequisite: Engineering 150. Three lecture hours weekly.)
Steel construction, timber construction, construction surveying, interpretation and administration of contracts, review of contract drawings for a real project constructed for BARTD, and development in class of step-by-step construction procedure. (CSU)

ENGG 156  Intermediate Technical Drawing, with Introduction to CADD  
(2.0 Units) (Prerequisite: Engineering 125. Corequisite: Computer Science 110. One lecture and three laboratory hours weekly.)
Continuation of Engineering 125 for technology majors. Conducted simultaneously with Engineering 126, it includes most of the same topics listed below with increased emphasis on drafting skills and more detailed applications in place of topics omitted. A seven-week introduction to computer-assisted design and drafting on the ComputerVision MicroCADD System. Manual drafting topics include limit dimensions, geometric tolerances, threads and fasteners, working drawings, shop processes, intersections and developments, sheet metal drafting, structural drawings, and machine drawings. Both customary and metric units used. (CSU)
ENGG 210  Engineering Surveying
(3.0 Units) (Prerequisites: Math 121 or 123 and Engineering 125. Two lecture and three laboratory hours weekly.)

This course covers basic concepts and methods of surveying fieldwork and computations for engineering and related fields. Topics include chaining, leveling, traverses, horizontal and vertical curves, stadia, topography, and earthwork. Machine computations, note keeping, adjustment of instruments, and analysis and control of random and systematic errors including least squares methods are integral parts of the course. (CSU/UC) CAN ENGR 10

ENGG 220  Electric Circuit Analysis
(3.0 Units) (Prerequisites: Physics 207B, Math 223 and 224. Math 224 may be taken concurrently. Three lecture hours weekly.)

This course is an introduction to the theory and analysis of electric circuits. Natural and forced responses of circuits, solutions by use of differential equations, and steady-state solutions of circuits to which sinusoidal forcing functions have been applied. Consideration of basic circuit elements and concepts of impedance, admittance, energy, power, and signal processing. (CSU/UC) CAN ENGR 12

ENGG 220L  Electric Circuits Lab
(1.0 Unit) (No prerequisite. Three laboratory hours weekly.)

This optional lab to accompany Engineering 220 provides students with an introduction to electric measurements and laboratory instrumentation, as well as a practical verification of electrical circuit theory. Students will build and analyze a variety of circuits, including Operational Amplifiers, and will investigate first and second order transient response and AC steady state behavior. Students will learn how to use oscilloscopes, multimeters, function generators, power supplies, and computer simulation tools to study electric circuits. (CSU)

ENGG 235  Engineering Mechanics: Statics
(3.0 Units) (Prerequisites: Engineering 125 and Math 124 [either or both may be taken concurrently] and Physics 207A. Three lecture hours weekly.)

Principles of statics of particles and rigid bodies and their application to the solution of structure, frame, and machine problems; shear and bending moments in beams; distributed forces; friction, virtual work; and products of inertia. (CSU/UC) CAN ENGR 8

ENGG 245  Engineering Materials Science
(3.0 Units) (Prerequisites: Chemistry 131 and Physics 207A. Two lecture and three laboratory hours weekly.)

The internal structures and resulting behaviors of materials used in engineering applications, including metals, ceramics, polymers, and composites, are studied with emphasis on the effects of heat, stress, imperfections, and chemical environments. Laboratories provide direct observations of the structures and behaviors discussed in the course, experience with the operation of testing equipment, and the preparation of experimental reports. (CSU/UC) CAN ENGR 4

ENGG 249  Directed Study
(1-3 units)(Please see Directed Study category.) (CSU/UC w/limit)

ENGG 256  Practical Materials Science
(3.0 Units) (No prerequisite. Advisories: Physics, chemistry, and metal shop helpful. Two lecture and three laboratory hours weekly.)

Mechanical properties of metals (with emphasis on steels) and some plastics resulting from their internal structures, methods of production and fabrication, heat treatments, deformations, and chemical environments. Weekly labs include treatments, preparations, standard tests, and examinations of specimens to show clearly how properties such as strength and hardness vary between different materials, and between specimens of the same material that have had different treatments. Brief coverage of composites (concrete and/or wood) may be included, depending on class composition. (CSU)

ENGG 257  Practical Plane Surveying
(3.0 Units) (Prerequisite: Math 101 or 102. Corequisite: Math 102G or Math 95K and 95L. Two lecture and three laboratory hours weekly.)

This course is a practical introduction for those not requiring the more professionally oriented Engineering 210. This course presents essential surveying concepts and training in widely used computational and fieldwork procedures. Proper use of tapes, compasses, rods, levels, alidades, and transits is explained for measurement of the distances, directions, and elevations of existing features and staking out control for new construction designs including simple curves and earthwork. Tables, scientific calculators, and computers are used to minimize hand computations and prerequisite mathematics. (CSU)

ENGLISH

The essence of the English major involves the development of skills and techniques such as looking at language development and literature in-depth. This elicits the ability to analyze, to ascertain assumptions, to determine values, and to make intelligent judgments and decisions. For the reasons cited, a major in English would be appropriate for the professions of law, medicine, or industry.

Career Options

Advertising Copy Writer, Bookstore Manager/Staff, Continuity Writer, Editor, Foreign Service Officer, Freelance Writer, Fundraiser, Grant Writer, Interviewer, Journalist, Lawyer, Legislative Assistant, Librarian, Management Trainee, Media Specialist, News Analyst, Newspaper Reporter, Personnel Specialist, Public Information Officer, Publicity Director, Publishing Agent, Radio/TV Announcer, Reader, Research Assistant, Sales Representative, Scriptwriter, Speech Pathologist, Teacher, Technical Writer, Training Specialist
english Courses (ENGL)

English 98 and 120: Instructor retains option of assigning letter or pass/no pass grade.
English 130, 150, 151, 155: Letter grade only.
All other courses: Letter grade or pass/no pass.

In general, courses required for a transfer student’s four-year major should be taken on a letter grade basis.

The College of Marin offers an English assessment testing service to provide prospective students with information with which to make informed decisions when enrolling in English courses. Students are provided with their test scores. Students registering for English courses who need help in interpreting their individual placement test scores and/or in deciding whether to register for or remain enrolled in an English course can seek assistance from a counselor or their English instructor.

For information about the English Assessment Test, students can call the Testing Office at (415) 485-9469 (located in the Student Services Building, Room 18, Kentfield Campus); or (415) 883-2211, ext. 8326 (located at Indian Valley Campus).

BASIC SKILLS COURSES

ENGL 010  College Skills: Assessment and Improvement Strategies
(1.0 Unit) (No prerequisite. One lecture hour weekly.)

This course will help students develop a comprehensive understanding of their current strengths and weaknesses in the language skills necessary for college success. Included will be complete diagnostic testing in reading, vocabulary, and writing. In addition, various techniques and strategies will be introduced so that each student knows what kind of work is necessary for improvement. Students will have, upon completion, a list of specific skills for further study, a realistic idea of current academic level, an understanding of campus resources available for in-depth skills development, and a set of strategies for continued language improvement.

ENGL 011  College Skills: Essential English for Exams
(1.0 Unit) (No prerequisite. One lecture hour weekly.)

This course will focus on the reading, thinking, and writing skills that are necessary to pass standardized English tests like the General Educational Development (GED) high school equivalency exam. Students will receive instruction and practice in the four levels of thinking skills normally tested on these exams. Also, students will learn how to spot grammar and organizational errors in written text and how to plan and organize a 250-word essay from a given topic in order to pass the essay exams. Practice exams will be given for the final. (Non-GED candidates are welcome.)

ENGL 012  College Skills: Reading and Thinking in Math
(1.0 Unit) (No prerequisite. One lecture hour weekly.)

This course is designed for those students who desire their GED diploma or to satisfy College of Marin graduation requirements but who have trouble in math. In this course students will focus on the concepts behind math and begin to analyze the language and symbols of math, the thinking style that is required to do well in math, the benefits of mental calculations and estimating, and start to develop the habit of making math make sense in real life situations.

ENGL 013  College Skills: Participating in Class
(1.0 Unit) (No prerequisite. One lecture hour weekly.)

This course will give students confidence in reading aloud, understanding lectures, asking and answering questions, and expressing themselves clearly in class.
ENGL 014  College Skills: Shaping Sentences  
(1.0 Unit) (No prerequisite. One lecture hour weekly.)  
This six-week course will provide extensive instruction and practice in composing interesting, alive, and correct sentences for college papers and other writing. Students will learn how to add color, variety, and specific detail to their sentences while applying the techniques of sentence and idea combining. In addition, students will explore word choice for appropriateness and punctuation for effect.

ENGL 015  College Skills: Exploring English  
(1.0 Unit) (No prerequisite. One lecture hour weekly.)  
Each time this course is offered, it will explore a different cultural theme (for example, famous cheaters in sports). Based on the readings, students will apply spelling rules, build their vocabulary, comprehend ideas, and write outlines, summaries, and responses.

ENGL 016  College Skills: Perfect Punctuation  
(1.0 Unit) (No prerequisite. One lecture hour weekly.)  
This course will give students confidence in using punctuation correctly in their writing. They will master the rules relating to commas, semicolons, quotes, apostrophes, hyphens, dashes, colons and parentheses, when to put them in and when to leave them out.

ENGL 017  College Skills: Reading Textbooks  
(1.0 Unit) (No prerequisite. One lecture hour weekly.)  
This course will help students become more skillful and efficient learners. The course takes an integrated approach to understanding texts and will include active reading strategies, note-taking, memory techniques, and test-taking tips.

ENGL 018  College Skills: Taking Essay Tests  
(1.0 Unit) (No prerequisite. One lecture hour weekly.)  
This short course will provide instruction and practice in taking essay tests. Students will learn the various types of questions along with appropriate responses for each type. The process of writing a short outline and draft which is edited and proofread quickly will be modeled and practiced.

ENGL 062  Developmental Reading and Writing  
(5.0 Units) (No prerequisite. Corequisite: English 62L. Five lecture hours weekly.)  
This course introduces the related ideas required for academic reading and writing: main ideas, logical support, implied meanings, relationships, patterns of organization, and vocabulary building. Students will learn how to write complete sentences of various types, plan before writing, and construct well-organized paragraphs.

ENGL 062L  Developmental Reading and Writing Lab  
(1.0 Unit) (No prerequisite. Corequisite: English 62. Three laboratory hours weekly.)

ENGL 070-079  Basic Skills Open Lab  
(1.0 Unit per module) (No prerequisite. Students are advised to meet with the instructor to determine appropriate courses to take.)  
A series of minicourses designed to develop basic English language skills. Offered on an individualized basis, each module may be entered and completed at any time during the semester. Each module requires approximately 48 classroom hours and may be taken four times for credit.

ENGL 070: Phonics  
ENGL 071: Spelling I  
ENGL 072: Spelling II  
ENGL 073: Vocabulary I  
ENGL 074: Vocabulary II  
ENGL 075: Reading Improvement  
ENGL 076: Reading Comprehension  
ENGL 077: Independent Reading  
ENGL 078: Special Interest Workshop  
ENGL 079: Grammar Review

ENGL 092  Reading and Writing Skills  
(5.0 Units) (No prerequisite. Corequisite: English 92L. Five lecture hours weekly.)  
Students develop their abilities to analyze and respond to reading material in a variety of disciplines. At the same time, they learn to construct well-organized and developed paragraphs using correct grammar and sentence structure.

ENGL 092L  Reading and Writing Skills Lab  
(1.0 Unit) (No prerequisite. Corequisite: English 92. Three laboratory hours weekly.)  
In this course, students will practice and extend the reading, grammar, and writing skills introduced in English 92. They receive personal help with their assignments from a professional staff. May be taken twice for credit.

ENGL 094  Reasoning and Logic  
(1.0 Unit) (No prerequisite. Three laboratory hours weekly.)  
This course will significantly increase students’ verbal and mathematical reasoning skills. It is an excellent preparation for courses that meet the California State University critical thinking requirement.
ENGL 095   Advanced Spelling  
(1.0 Unit) (No prerequisite. Advisory: English 71 or English 72 or 75th percentile on pretest. Three laboratory hours weekly.)  
Designed primarily for students in the Court Reporting Program, this course provides students with the skills to master English spelling at an advanced level. Students build their visual memory, study phonetic and structural patterns, and study frequently misspelled and misused words.

ENGL 096   Advanced Vocabulary  
(1.0 Unit) (No prerequisite. Advisory: English 73 or English 74 or 75th percentile on pretest. Three laboratory hours weekly.)  
Designed primarily for students in the Court Reporting Program, this course presents strategies for building an extensive vocabulary. Topics include the history and etymology of English, dictionary skills, using context clues, word parts, and other word analysis skills.

ENGL 097   Critical Reading  
(1.0 Unit) (No prerequisite. Advisory: English 76 or 75th percentile on pretest. Three laboratory hours weekly.)  
Designed primarily for students in the Court Reporting Program, this course significantly increases students’ reading comprehension and critical thinking abilities. Topics include vocabulary in context, structural analysis of difficult material, inference, and conclusion and judgment skills.

ENGL 098   Introduction to College Reading and Composition I  
(3.0 Units) (Prerequisite: English as a Second Language 83 or English 92 or English placement test. Three lecture hours and one laboratory hour weekly.)  
Students practice reading, writing, and critical thinking to improve reading comprehension and to develop composing techniques for effective academic writing. This course is designed to prepare students for success in college level reading and writing. Focus is on writing fluency and familiarity with the conventions of standard written English. Assignments show the interconnection among readings, personal experience, observation, and class discussion. Requires one hour weekly of guided practice in the Writing Center. This course can be offered in a distance learning, online or hybrid format.

English 98 may be offered as three separate self-paced classes:

ENGL 098A: Grammar and Usage  
(1.0 Unit) (One lecture and one-third laboratory hour weekly.)

ENGL 098B: Sentence Structure and Punctuation  
(1.0 Unit) (One lecture and one-third laboratory hour weekly.)

ENGL 098C: The Paragraph and Short Essay  
(1.0 Unit) (One lecture and one-third laboratory hour weekly.)

ENGL 098SL   Introduction to College Reading and Composition I - for Non-Native English Speakers  
(3.0 Units) (Prerequisite: English as a Second Language 83 or English 92 or English placement test. Three lecture hours and one laboratory hour weekly.)  
This course is for non-native English speakers. Students will practice reading, writing and critical thinking to improve reading comprehension and develop their academic writing skills. The course is designed to prepare students for success in college level reading and writing. The focus is on writing fluency and familiarity with the conventions of standard written English. Assignments show the interconnection among readings, personal experience, observation, and class discussion. Requires one hour weekly of guided practice in the ESL Lab and/or Writing Center Lab.

ENGL 099   Intensive Grammar Review  
(0.5 Unit) (No prerequisite. One and one-half laboratory hours weekly.)  
This is an intensive, self-paced course that reviews common problems in grammar, punctuation, and usage. It is not intended to be an exhaustive study of the subject, but rather a focused review of such typical mistakes as run-ons, fragments, agreement errors, faulty parallelism, and inappropriate punctuation. This course is designed for students in English 150, 151, and 155, but may be taken by anyone wanting to improve basic grammar skills. May be taken twice for credit.

COLLEGE LEVEL COURSES

ENGL 116   College Reading  
(3.0 Units) (No prerequisite. Three lecture hours weekly.)  
A course designed to strengthen students’ ability to understand and respond to college-level readings in all disciplines. Emphasis is on critically evaluating purpose, support, conclusions, tone, and language. Vocabulary enhancement is included. (CSU)

ENGL 117   Speed Reading  
(1.0 Unit) (No prerequisite. One lecture hour weekly.)  
In this individualized course students will learn efficient reading techniques that will help them double or triple their present reading rate with increased concentration, comprehension, and retention. Developing reading flexibility will be emphasized as students learn to vary their reading rate to suit their purpose. Skimming, scanning, and textbook reading will also be covered. Can also be offered in a distance learning format. (CSU)
ENGL 120  Introduction to College Reading and Composition II
(3.0 Units) (Prerequisite: English 98 or 98SL or English Placement Test. Three lecture hours and one laboratory hour weekly.)

Students sharpen their skills in reading, writing, and critical thinking to improve reading comprehension and to develop composing techniques for effective academic writing. This course is designed to prepare students for success in college-level academic reading and writing, emphasis being placed upon thinking clearly and logically and upon the construction of cogent arguments. Students also review standard usage, appropriate diction, punctuation, grammar, and ways to achieve variety in sentence structure within the context of the essay. Assignments show the interconnection among readings, personal experience, observation, and class discussion. Requires one hour weekly of guided practice in the Writing Center. This course can be offered in a distance learning, online, or hybrid format. (CSU/UC) AA/AS Area D

ENGL 120SL  Introduction to College Reading and Composition II - for Non-Native English Speakers
(3.0 Units) (Prerequisite: English 98 or 98SL or English Placement Test. Three lecture hours and one laboratory hour weekly.)

This course is for non-native English speakers. Students sharpen their skills in reading, writing, and critical thinking to improve reading comprehension and to develop composing techniques for effective academic writing. This course is designed to prepare students for success in college-level academic reading and writing, emphasis being placed upon the construction of cogent arguments. Students also review standard usage, appropriate diction, punctuation, grammar, and ways to achieve variety in sentence structure. Assignments show the interconnection among readings, personal experience, observation, and class discussion. Requires one hour weekly of guided practice in the ESL Lab and/or Writing Center Lab. (CSU/UC)

ENGL 130  Critical Thinking
(3.0 Units) (Prerequisite: Eligibility for English 150. Three lecture hours weekly.)

This course is designed to sharpen students’ abilities to reason clearly. It is an introductory level course in the arts of rhetoric and logic. Students will learn to recognize and analyze common fallacies found in political statements, magazine commentary, news coverage, editorials, advertisements, and classical persuasive works. They will develop ways to organize their ideas and express them rationally, as well as ways to judge the quality of ideas and the purposes of various examples ranging from propaganda to persuasion to philosophy. This course satisfies the CSU critical thinking requirement and offers students a chance to refine and continue developing their writing and reading skills before transferring. (CSU/UC) AA/AS Area E, CSU Area A-3

ENGL 139  Selected Topics
(½-6 units) (Please see Selected Topics category.) (CSU/UC w/limit)

ENGL 150  Reading and Composition (1A)
(3.0 Units) (Prerequisite: English 120 or 120SL. Three lecture hours weekly.)

This course is intended to develop and refine students’ writing, reading, and critical thinking abilities. Students read and discuss various works and write expository and argumentative prose. Additionally, English 150 emphasizes gathering, evaluating and documenting evidence. A research paper will be required. During the course of the semester, students are required to write numerous essays for a total of between 8,000-10,000 words. May also be offered in a distance learning format. (CSU/UC) AA/AS Area D, CSU Area A-2, IGETC Area 1A, CAN ENGL 2, CAN ENGL SEQ A = Engl 150 + 151

ENGL 151  Reading and Composition (1B)
(4.0 Units) (Prerequisite: English 150. Four lecture hours weekly.)

This is a critical thinking/composition course that highlights literary texts as material from which students will derive samples of the critical exercises of their thinkers and evidence to use in critical constructions of their own. The term “literary evidence” is broadly defined here to include critical and argumentative essays, biographical or historical discussions, belletristic writing, and texture analysis, as well as poetry, drama, short stories, and novels. Students will develop skills in analysis, interpretation, informal logic, and expository and persuasive essay writing. They will learn to identify arguments, both in persuasive polemical discourse where arguments are presented and defended, and in subtler, more emotional texts where arguments are implied or masked. They will develop skills in recognizing and distinguishing fallacious reasoning from cogent reasoning in a variety of formats. Student essays will be expected to demonstrate a capacity for presenting complex ideas (problems with ambiguous or multiple solutions, for example) in a clear, coherent, convincing manner, with particular attention to matters of organization and style. A minimum of eight thousand words of writing (including two revisions) will be required. May also be offered in a distance learning format. (CSU/UC) AA/AS Areas C or E, CSU Area A-3, IGETC Area 1B, CAN ENGL 4, CAN ENGL SEQ A = Engl 150 + 151

ENGL 155  Critical Thinking/Composition
(4.0 Units) (Prerequisite: English 150. Four lecture hours weekly.)

This course is intended to develop rhetorical, critical, argumentative, and organizational skills in written composition and heightened perceptive sensitivity in analytical reading. Extensive analysis of texts will exercise the students’ faculties of critical and logical thinking. The investigation and analysis of writing models will focus on deductive, inductive and inferential reasoning, on assumptions and inferences embedded in argument, on the informal logical fallacies, on divergent world views, and on incoherences and biases in presentation. Student essays will be expected to demonstrate a capacity for presenting complex ideas in a clear, coherent, and convincing manner, with particular attention shown to matters of organization and style. A minimum of eight thousand words of writing will be required of each student. (CSU/UC) AA/AS Area E, CSU Area A-3, IGETC Area 1B
ENGL 202  Creative Writing I
(3.0 Units) (Prerequisite: Eligibility for English 150. Three lecture hours weekly.)

This course is designed to familiarize qualified students with the discipline and craft of fiction, poetry, or drama. Writing samples are to be submitted within the first week of class. English 202 and English 203 may each be taken twice for credit. (CSU/UC) CAN ENGL 6 = Engl 202

ENGL 203  Creative Writing II
(3.0 Units) (Prerequisite: Eligibility for English 150. Three lecture hours weekly.)

This course is designed to familiarize qualified students with the discipline and craft of fiction, poetry, or drama. Writing samples are to be submitted within the first week of class. English 202 and English 203 may each be taken twice for credit. (CSU/UC)

ENGL 208  Short Fiction
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

In this course students examine short stories and novellas as literary forms. Readings include representative works by mainstream and multicultural writers as well as classical masters. Lectures provide historical and cultural background helpful in appreciating the literature; class discussions focus on interpretation and on the analysis of traditional literary devices such as plot, character, point of view, and theme. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

ENGL 212  Introduction to Poetry
(3.0 Units) (Prerequisite: Eligibility for English 150. Three lecture hours weekly.)

This course examines poetry as a major literary genre. Students are introduced to the special uses of language and form found in poetry, and to the historical and cultural factors that have influenced poetry’s stylistic developments. (CSU/UC)AA/AS Area C, CSU Area C-2, IGETC Area 3B

ENGL 214  The Popular Novel
(3.0 Units) (No prerequisite. Three hours weekly.)

This videocassette course includes twentieth-century American literature that has been very successful in the marketplace. Some novels, like “The Great Gatsby” and “The Old Man and the Sea”, are now considered classics; others are minor, but well-crafted works. Students study the novel as a literary genre and as a reflection of the dynamics and diversity of American life. In addition to reading the novels, students view corresponding videotapes from an outstanding selection of films and write analytic papers. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

ENGL 218  The American Short Story
(3.0 Units) (No prerequisite. Three hours weekly.)

This videocassette course is based on The American Short Story film series from PBS. It introduces students to the American literary tradition through reading of selected short stories and related criticism, plus the viewing of the PBS film production of each story. Students will analyze short works of fiction for thematic content and to express their understanding through competent writing. Authors include Hemingway, Twain, James, O’Connor, Fitzgerald, and others. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

ENGL 219  Voices and Visions
(3.0 Units) (No prerequisite. Advisory: Eligibility for English 120. Three hours weekly.)

Based on the acclaimed PBS series, this course offers a close look at the creative lives of 13 American poets. Beginning with precursors Whitman and Dickinson, the programs cover the entire range of twentieth century verse. Each writer’s work is considered within a broad context involving literary tradition and cultural developments, with attention to geographical locale, family background, and individual preoccupations as well. While exploring the varieties of poetic inspiration, students gain experience in reading for comprehension and pleasure. Programs may be viewed by cassette. Writers include Frost, Eliot, Pound, Moore, Williams, Plath, and others. (CSU/UC) AA/AS Area C, CSU Area C-2

ENGL 220  Detective Fiction
(3.0 Units) (No prerequisite. Three hours weekly.)

Detective fiction has undergone considerable change since its inception in the 1840s by Edgar Allan Poe. This videocassette course will trace the development of the genre from classic mysteries to hard-boiled detective stories to police procedurals. Students will read representative works by such authors as Poe, Doyle, Christie, Hammett, Chandler, and MacDonald; and they will view corresponding videotapes from an outstanding selection of film classics. Emphasis will be on the conventions of the form, the elements of fiction, the methods of critical thinking used in solving crimes, and the ethical problems raised in the works under discussion. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

ENGL 221A  Survey of American Literature I
(3.0 Units) (Prerequisite: Eligibility for English 150. Three lecture hours weekly.)

In this course, the student will examine representative American writings, with emphasis shared between the canonized “major” authors and works from America’s “other” voices, including Native American, Chicano and Hispanic American, and African-American authors. Lectures, discussions and media presentations will relate the literature to the developing social and philosophical attitudes that characterize American civilization. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B
ENGL 221B  Survey of American Literature II
(3.0 Units) (Prerequisite: Eligibility for English 150. Three lecture hours weekly.)
In this course, the student will examine representative American writings, with emphasis shared between the canonized “major” authors and works from America’s “other” voices, including Native American, Chicano and Hispanic American, and African-American authors. Lectures, discussions and media presentations will relate the literature to the developing social and philosophical attitudes that characterize American civilization. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

ENGL 222-223  Survey of English Literature I and II
(3.0 Units each part) (Prerequisite: Eligibility for English 150. Three lecture hours weekly.)
English 222-223 is a survey course in the language and literature of England and includes the reading of typical works from each of the important periods of literary development beginning with Beowulf and ending with twentieth-century literature. Lectures supply the background necessary for appreciation of the works that are read and suggest the wealth of literary material that is available to the intellectually curious reader or to the student of literature. The course is divided into two parts: English 222 being given in the first semester and English 223 in the second. Either part may be taken separately, but the student who plans to continue a study of literature is encouraged to take both in chronological order. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B, CAN ENGL 8 = Engl 222, CAN ENGL 10 = Engl 223, CAN ENGL SEQ B = Engl 222 + 223

ENGL 224  Survey of World Literature I
(3.0 Units) (Prerequisite: Eligibility for English 150. Three lecture hours weekly.)
This course surveys the imaginative literature of the world (excluding English and American literature) from antiquity through the Renaissance, e.g., from Homer and Sophocles to Cervantes and Rabelais. Lectures supply the background necessary for appreciation of the works that are read. Each is viewed both as an integral work of art and as a reflection of the values central to the narrative modes that have evolved through the centuries. Lyric and dramatic forms are also considered. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

ENGL 225  Survey of World Literature II
(3.0 Units) (Prerequisite: Eligibility for English 150. Three lecture hours weekly.)
This course surveys the imaginative literature of the world (excluding English and American literature) from early modern to post modern times, for example from Voltaire and Goethe to Sartre and Kafka. Lectures supply the background necessary for appreciation of the works that are read. Each is viewed both as an integral work of art and as a reflection of the values central to the narrative modes that have evolved through the centuries. Lyric and dramatic forms are also considered. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

ENGL 230  Survey of Shakespeare
(3.0 Units) (Prerequisite: Eligibility for English 150. Three lecture hours weekly.)
This survey will examine representative plays from each period in Shakespeare's career. It will focus on the main genres—romance, tragedy, comedy, and history play—and locate the plays in their historical context. Lectures will define critical approaches that open discussion of the dramatic and literary qualities of Shakespeare's work. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

ENGL 235  Women in Literature
(3.0 Units) (Prerequisite: Eligibility for English 150. Three lecture hours weekly.)
The representation of the character and role of women in Western culture from Greek tragedy through contemporary literature, with a particular emphasis on American literature, will be examined through the analysis of selected texts. Lectures and discussions will concentrate on such issues as the conception of the female character, elements of women's language, the development of female writers, and the relations between literary representation and social reality. The primary focus will be on women in American literature by both male and female authors, on the writing of minority women, and on the political and cultural context of literature. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

ENGL 237  The Literature of American Cultures
(3.0 Units) (Prerequisite: Eligibility for English 120. Three lecture hours weekly.)
This class will explore the richness and diversity of American culture by studying the literature of several social and ethnic groups. It will focus on themes of identity and community in works by Afro-American, Native American, Jewish American, Latino, and Asian American writers. Close reading of representative texts will be placed in the context of twentieth century cultural history. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

ENGL 240  Classic Children's Literature
(3.0 Units) (Prerequisite: Eligibility for English 150. Three lecture hours weekly.)
An inquiry into the basic nature of children's literature: what are its social, philosophical, spiritual, and esthetic values? The course will consider techniques and modern critical theories, but the focus will be on practical criticism for the nonspecialist. Specific works studied will be representative of several genres, cultures, and periods of children's literature. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B
ENGL 242  Global Writings
(3.0 Units) (Prerequisite: English 120. Can be taken for credit as English 242 or Humanities 242. Credit will be awarded for only one course. Three lecture hours weekly.)

The cultural diversity and complex histories of the nations composing the contemporary international world are revealed in a variety of forms of writings from the twentieth century. Discussion and analysis of representative texts focus on colonial exploitation, political domination, liberation, formations of racism, gender inequality, expressions of cultural power, ethnic conflict and division, immigration and migrancy, and processes of globalization. It is recommended for majors in International Relations. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

ENGL 249  Directed Study
(1-3 units)(Limit to Enrollment: English 150.)

A tutorial allowing a student to explore, through individual research, some intellectual problem or some academic area that the student wants to investigate in-depth. The student will plan and execute a project under the direction of a faculty member willing to act as tutor and qualified to supervise within the academic area relevant to the student's project. Evaluation is made through conferences and written reports; hours and numbers of reports are determined by the instructor in consultation with the student. May be taken more than once for credit. (CSU/UC w/limit)

ENGLISH AS A SECOND LANGUAGE

This program is recommended for non-native speakers of English. It offers students the opportunity to develop and practice basic English grammar, writing, and reading skills. Courses are also designed to help students improve communication by developing their listening and speaking skills. Courses are offered from intermediate to advanced levels.

Faculty
Carol Adair, Barbara Bonander, Wendy L. Walsh, Blaze Woodlief

English as a Second Language Courses
(ESL)
The College of Marin offers an English as a Second Language placement testing service to provide prospective students with information with which to make informed decisions when enrolling in English as a Second Language courses. Students are provided with their test scores. Students registering for English as a Second Language courses, who need help in interpreting their individual placement test scores and/or in deciding whether to register for or remain in an English as a Second Language course, can seek assistance from a counselor or their instructor.

For information about the English as a Second Language Placement Test, students can call the Testing Office at (415) 485-9469 (located in the Student Services building, Room 18, Kentfield Campus).

ESL 039  Selected Topics (Nondegree Applicable)
(½-6 units)(Please see Selected Topics category.)

ESL 040L  Low Intermediate English as a Second Language Skills Lab
(0.5-1 Unit) (No prerequisite. One and one-half laboratory hours weekly for one half student unit, and three laboratory hours weekly for one student unit.)

English as a Second Language students will improve their English in this interactive computer-based multimedia course. This lab offers low intermediate students the opportunity to practice their listening, pronunciation, speaking, vocabulary, and grammar skills in a self-paced laboratory environment. American culture and English as a Second Language life skills will be included. May be taken four times for credit.

ESL 050  Review of Low Intermediate English as a Second Language
(3.0 Units) (No prerequisite. Advisory: English as a Second Language Placement Test. Three lecture hours weekly.)

This review course is designed for English as a Second Language students at the low intermediate level. The course will review the major points covered in English as a Second Language 54, 55, and 56. May be taken four times for credit.

ESL 053  Intermediate English as a Second Language: Writing and Grammar
(4.0 Units) (No prerequisite. Advisory: English as a Second Language Placement Test. Four lecture hours and one laboratory hour weekly.)

This course introduces the conventions of standard written English to intermediate nonnative English speakers and reviews basic grammar structures. Emphasis is placed on sentence structure and the correct use of tenses.

ESL 054  Intermediate English as a Second Language: Grammar
(3.0 Units) (No prerequisite. Advisory: English as a Second Language Placement Test. Three lecture hours and one laboratory hour weekly.)

This course will review basic grammar structures for non-native speakers of English. Emphasis will be placed on the verb tenses.
ESL 056  Intermediate English as a Second Language: Words I (Vocabulary, Spelling, Reading, and Discussion)
(4.0 Units) (No prerequisite. Advisory: English as a Second Language Placement Test. Four lecture hours weekly.)
This course is designed to improve the reading comprehension and vocabulary usage of non-native speakers of English. This course will include reading skills, study skills, short stories and the reading of short novels.

ESL 058A  Pronunciation for Non-Native Speaker I
(2.0 Units) (No prerequisite. Four lecture hours weekly for eight weeks or two lecture hours weekly.)
This course will provide English as a Second Language students the opportunity to improve their production of standard American English. Students will practice the sound system and the rhythm of the language to become more intelligible and to gain understanding of spoken English.

ESL 058B  Pronunciation for Non-Native English Speaker II
(2.0 Units) (No prerequisite. Four lecture hours weekly for eight weeks or two lecture hours weekly.)
This course will provide English as a Second Language students the opportunity to improve their production of standard American English. Students will practice stress and intonation patterns, linking, assimilation, and prominence to become more intelligible and to gain understanding of spoken English.

ESL 060  Intermediate English as a Second Language: Listening and Speaking
(3.0 Units) (No prerequisite. Advisory: English as a Second Language Placement Test; open to students in ESL 50- or 60-levels. Three lecture hours weekly.)
This is an intermediate course in listening and speaking communication skills recommended for non-native speakers taking English as a Second Language 50-level or 60-level courses. Students will be introduced to formal and informal speaking and listening skills to provide a bridge to educational and career opportunities.

ESL 063  High Intermediate English as a Second Language: Writing and Grammar
(4.0 Units) (No prerequisite. Advisory: English as a Second Language Placement Test. Completion of all 50-level ESL courses is recommended. Four lecture hours and one laboratory hour weekly.)
This course is suitable for the high intermediate student with a good foundation in English grammar and writing. There is an emphasis on grammatical accuracy and on writing a logical sequence of sentences in organized paragraphs.

ESL 064  High Intermediate English as a Second Language: Grammar
(3.0 Units) (No prerequisite. Advisory: English as a Second Language Placement Test or completion of all ESL 50-level courses. Three lecture hours and one laboratory hour weekly.)
This high intermediate course is designed to improve language and grammar skills for non-native English speakers.

ESL 066  High Intermediate English as a Second Language: Words II (Vocabulary/Spelling/Reading/Discussion)
(4.0 Units) (No prerequisite. Advisory: English as a Second Language Placement Test or completion of ESL 56. Completion of all 50-level English as a Second Language classes is recommended. Four lecture hours weekly.)
This course will provide high intermediate English as a Second Language students with practice reading stories and short novels, newspapers and other non-fiction materials. Students will be introduced to academic reading and study skills. Students will learn to use various resources available at the COM library.

ESL 068  American Topics
(2.0 Units) (No prerequisite. Two lecture hours weekly.)
This course will help students understand important American topics, past and present, through lecture, reading, and discussion. Examples of topics include the education system, the American Dream, drugs and drug treatment. May be taken four times for credit.

ESL 070  Review of Intermediate English as a Second Language
(3.0 Units) (No prerequisite. Advisory: English as a Second Language Placement Test. Three lecture hours weekly.)
This review course is designed for English as a Second Language students at the intermediate level. The course will review the major points covered in English as a Second Language 64, 65, and 66. May be taken four times for credit.

ESL 072  Practical Writing and Reading Skills for Intermediate to Advanced ESL Students
(4.0 Units) (No prerequisite. Advisory: English as a Second Language Placement Test or completion of ESL 60-level courses. Four lecture hours weekly.)
This course is designed to help English as a Second Language students improve their reading and writing skills in their daily and working lives. Coursework will include information gathering, exposure to business language and idioms, and consumer information.
ESL 073  Low Advanced English as a Second Language: Writing and Grammar
(4.0 Units) (No prerequisite. Advisory: English as a Second Language Placement Test or completion of ESL 63 or 64. Completion of all 60-level ESL courses is recommended. Four lecture hours and one laboratory hour weekly.)

In this course, students improve their writing skills including writing effective paragraphs and short compositions. Intermediate and advanced grammar structures and punctuation are reviewed.

ESL 074  Low Advanced English as a Second Language: Grammar
(3.0 Units) (No prerequisite. Advisory: English as a Second Language Placement Test or completion of ESL 64; completion of all 60-level English as a Second Language courses is recommended. Three lecture hours and one laboratory hour weekly.)

This course is designed for low advanced English as a Second Language students who need to refine their understanding of grammar.

ESL 076  Low Advanced English as a Second Language: Words III
(4.0 Units) (No prerequisite. Advisory: English as a Second Language Placement Test or completion of ESL 66. Completion of all 60-level English as a Second Language courses is recommended. Four lecture hours weekly.)

This course is designed to improve the reading comprehension and academic vocabulary of low advanced non-native speakers of English. This course will include reading skills, study skills, novel reading, and library research projects.

ESL 078  English as a Second Language for CIS 101
(1.0 Unit) (No prerequisite. One lecture hour weekly.)

This class is an ESL course emphasizing development of English speaking, listening, reading and writing skills needed for students studying Computer Information Systems.

ESL 080  Advanced ESL: Listening and Speaking for Social, Academic and Workplace Situations
(3.0 Units) (No prerequisite. Advisory: English as a Second Language Placement Test or completion of all English as a Second Language 70-level courses. Three lecture hours weekly.)

This course in listening and speaking skills is recommended for low-advanced to advanced English as a Second Language students. It will help students improve their listening and speaking skills necessary to participate in college, workplace and everyday life situations. Students will practice listening and note taking skills, conduct interviews, give presentations and lead discussion sessions.

ESL 083  Advanced English as a Second Language: Writing and Grammar
(4.0 Units) (No prerequisite. Advisory: English as a Second Language Placement Test; completion of all 70-level ESL courses is recommended. Four lecture hours and one laboratory hour weekly.)

This course is suitable for the advanced student with a strong foundation in English grammar and writing. This course is designed to review and build upon grammar and writing skills, enabling the student to function in academic courses and write short papers with a controlling idea.

ESL 084AV  Advanced English as a Second Language: Grammar
(3.0 Units) (No prerequisite. Advisory: English as a Second Language Placement Test; completion of all 70-level ESL classes is recommended. Three lecture hours and one laboratory hour weekly.)

This course is designed for advanced English as a Second Language students who need to refine their understanding of grammar for academic writing.

ESL 086  Advanced English as a Second Language: Vocabulary and Reading Skills
(4.0 Units) (No prerequisite. Advisory: English as a Second Language Placement Test or completion of ESL 76. Four lecture hours weekly.)

This course is designed to help advanced English as a Second Language students improve reading comprehension and to develop academic vocabulary. It will also improve study skills for more effective reading of textbooks and other material, including short fiction.

ESL 087A  Advanced English as a Second Language: Academic Listening and Speaking
(3.0 Units) (No prerequisite. Advisory: ESL Placement Test; completion of all 70-level English as a Second Language classes is recommended. Three lecture hours weekly.)

This course in listening and speaking is recommended for advanced English learners. It will help students improve their listening and speaking with skills necessary for academic success.

ESL 088A  Introduction to Editing for English as a Second Language Students
(1.0 Unit) (No prerequisite. Advisory: Concurrent enrollment in English as a Second Language 83 or other composition courses. One and one-third lecture hours weekly for twelve weeks.)

This course is designed for English as a Second Language students enrolled in advanced writing courses. Students will learn to identify and correct errors in syntax, logic and structure in their own writings at the final draft stage. Areas of concentration include common errors in tenses, sentence structure and punctuation.
ESL 088B  Advanced Editing for English as a Second Language Students
(1.0 Unit) (No prerequisite. One and one-third lecture hours weekly for twelve weeks.)

This course is designed for English as a Second Language students enrolled in advanced writing courses. Students will learn to identify and correct errors in syntax, logic and structure in their own writings at the final draft stage. Areas of concentration include common errors in shifting tenses, punctuation, complex sentences, and use of the passive voice.

ENGL 098SL  Introduction to College Reading and Composition I - for Non-Native English Speakers
(3.0 Units) (Prerequisite: English as a Second Language 83 or English 92 or English placement test. Three lecture hours and one laboratory hour weekly.)

This course is for non-native English speakers. Students will practice reading, writing and critical thinking to improve reading comprehension and develop their academic writing skills. The course is designed to prepare students for success in college-level reading and writing. The focus is on writing fluency and familiarity with the conventions of standard written English. Assignments show the interconnection among readings, personal experience, observation, and class discussion. Requires one hour weekly of guided practice in the ESL Lab and/or Writing Center Lab.

ENGL 120SL  Introduction to College Reading and Composition II - for Non-Native English Speakers
(3.0 Units) (Prerequisite: English 98 or 98SL or English Placement Test. Three lecture hours and one laboratory hour weekly.)

This course is for non-native English speakers. Students sharpen their skills in reading, writing, and critical thinking to improve reading comprehension and to develop composing techniques for effective academic writing. This course is designed to prepare students for success in college-level academic reading and writing, emphasis being placed upon the construction of cogent arguments. Students also review standard usage, appropriate diction, punctuation, grammar, and ways to achieve variety in sentence structure. Assignments show the interconnection among readings, personal experience, observation, and class discussion. Requires one hour weekly of guided practice in the ESL Lab and/or Writing Center Lab. (CSU/UC)

ENVIRONMENTAL LANDSCAPING

Environmental landscaping is more than making the world around us a beautiful place. It’s about creating environments that function practically and in harmony with nature. It’s growing plants, designing the spaces, and installing the landscapes. The courses are designed to meet the needs of both the home gardener and the professional gardener wanting to gain more knowledge in environmental landscaping. The field is appealing to those wanting to work in outdoor occupations, as well as those who like to work with high-tech equipment. This curriculum is designed so that graduates, depending on their interest, abilities, and achievement, may qualify for employment in a wide variety of capacities.

Career Options
Arboriculture (Tree Care), Commercial Landscape Management, Environmental Planning, Interiorscape Design and Maintenance, Landscape Design and Installation, Landscape Irrigation, Landscape Salesperson, Nursery Specialist/Propagator, Park Supervision, Residential and Estate Maintenance, Retail Nursery Sales, Wholesale Nursery Production

Faculty
Fernando Agudelo-Silva
Department Phone: (415) 883-2211 Ext. 8200

Transfer
Students planning to transfer to a four-year institution should complete the lower division major requirements and general education pattern for the appropriate transfer institution and major. Exact major requirements for UC and CSU institutions can be found on www.assist.org. Please see a counselor for more information as curriculum requirements may vary among transfer universities.

A.S. in Environmental Landscaping, Occupational
(Certificate of Achievement in Landscape Construction and Design Concepts Specialty, Landscape Maintenance Specialty, and Nursery Management Specialty also awarded)

This curriculum is designed so that graduates, depending on their interests, abilities, and achievement, may qualify for employment in a wide variety of capacities.

A Certificate of Achievement is awarded for completion of the core program plus the additional course requirements in each specialty. The Associate in Science degree is awarded for completion of all requirements in the core program and chosen specialty, as well as completion of general education and graduation requirements.

Please note: Students may choose English 120, 120SL, or 150 to complete the Associate degree. Transfer students, however, are advised to complete English 150. All students should consult a counselor. (An additional specialty degree or certificate can be awarded only if twelve of the required units have not been used for any other degree or certificate.)

CORE PROGRAM
The following courses are required of all Environmental Landscaping degree and/or Certificate of Achievement students.

Requirements | Units
--- | ---
ELND 110A Introduction to Environmental Landscaping | 1½
ELND 110B Introduction to Environmental Landscaping | 1½
ELND 120A Landscape Ecology | 1½
ELND 120B Landscape Ecology | 1½
ELND 154A Plant Materials I 1½
ELND 154B Plant Materials I 1½
ELND 210A Integrated Pest Management 1
ELND 210B Insect Identification and Control 1
ELND 210C Integrated Pest Management of Plant Diseases and Weeds 1
ELND 254A Plant Materials II 1½
ELND 254B Plant Materials II 1½

SPECIALTIES
In addition to the core program listed above, each Environmental Landscaping degree and/or Certificate of Achievement student will complete one of the following specialties:

Landscape Construction and Design Concepts Specialty
ELND 157 Principles of Landscape Design 3
ELND 158 Landscape Materials and Construction 3
ELND 201 Special Topics in Landscape Design 3
ELND 253 Landscape Irrigation Systems 3
ELND 260 Landscape Estimating and Management 3

Landscape Maintenance Specialty
ELND 253 Landscape Irrigation Systems 3
ELND 262A Environmental Maintenance Practices 1½
ELND 262B Environmental Maintenance Practices 1½

Nursery Management Specialty
ELND 157 Principles of Landscape Design 3
ELND 262A Environmental Maintenance Practices 1½
ELND 262B Environmental Maintenance Practices 1½
ELND 264 Landscape Nursery Practices 3

Environmental landscaping students working toward a degree may wish to consider the following courses as electives to enhance job skills.

ARCH 120 Beginning Architectural Drafting 4
ARCH 130 Introduction to Architecture and Environmental Design 3
ART 112 2-D Art Fundamentals 4
COMP 110 Introduction to Computers 1
ENGG 125 Introductory Engineering Graphics 4
ENGG 126 Intermediate Engineering Graphics 2

* Please note: To fulfill the Natural Sciences Requirement for graduation, environmental landscaping students must take Biology 162, General Ecology.

Skills Certificate
Skills Certificates are an acknowledgement that the student has attained a specified set of competencies within an occupational program. Skills Certificates may be part of a “ladder“ of skills, beginning with job entry skills and leading to a full Certificate of Achievement program or may constitute a skill set that enables a student to upgrade or advance in an existing career. Skills Certificates require less than 18 units and are shorter in duration than the Certificate of Achievement.

Design Skills Certificate

Environmental Landscaping Courses (ELND)

ELND 039 Selected Topics (Nondegree Applicable)
(½-6 units) (Please see Selected Topics category.)

ELND 100 Introductory Design Principles for Sustainable Gardening and Landscaping
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

An introductory foundation for the practices of sustainable gardening and landscaping and ecologically sound use of resources. The course covers key concepts for designing and installing gardens or landscapes according to principles of ecological sustainability. It addresses design principles including site analysis, plant selection, soils, and economic and social considerations. (CSU)

ELND 110A Introduction to Environmental Landscaping
(1.5 Units) (No prerequisite. Three lecture hours weekly for eight weeks.)

This foundation class, essential for anyone interested in plants either as a career or a hobby, introduces students to key concepts necessary for gardening or landscaping following environmentally sound techniques. It covers information about career paths, plant systems, basic plant structure, physiology and identification, principles of soil structure and function. This short class is the first half of an introductory course in environmental landscaping. (CSU)

ELND 110B Introduction to Environmental Landscaping
(1.5 Units) (No prerequisite. Three lecture hours weekly for eight weeks.)

This short class is the second half of an introductory course in environmental landscaping and is essential for anyone interested in plants either as a career or a hobby. This class introduces students to concepts necessary for gardening or landscaping following environmentally sound techniques. It covers information about: establishment of gardens and landscapes, irrigation, integrated management of insects, mites, plant diseases and weeds, pruning and design. (CSU)
ELND 120A  Landscape Ecology
(1.5 Units) (No prerequisite. Three lecture hours weekly for eight weeks.)
This class is essential for anyone interested in ecologically sound gardening and landscaping. The class covers evolution of ecological concepts, structure and function of plant ecosystems, and factors that regulate plant communities. It covers the effects of climate on plant communities and their relevance for gardening and landscaping. This short class is the first half of a two-class sequence on plant ecology. May be taken twice for credit. (CSU)

ELND 120B  Landscape Ecology
(1.5 Units) (No prerequisite. Three lecture hours weekly for eight weeks.)
This class is essential for anyone interested in ecologically sound gardening and landscaping. The class covers ecological interactions that regulate plant communities such as biogeochemical cycles, predation, parasitism, disease, competitions, and their relevance for gardening and landscaping and ecological studies. This short class is the second half of a two-class sequence on plant ecology. May be taken twice for credit. (CSU)

ELND 139  Selected Topics
(0.5-6 Units) (Please see Selected Topics category.)
(CSU w/limit)

ELND 154A  Plant Materials I
(1.5 Units) (No prerequisite. Two and one-half lecture and one and one-half laboratory hours weekly for eight weeks.)
Identification, habits of growth, cultural and environmental requirements, and use of woody and herbaceous plants grown in the landscape. Plants will be studied during that time of year when they are of significant interest in the landscape. (Covers plants that are attractive in the winter and spring.) This is a short course of eight weeks and the first part of the spring plant identification course. (CSU/UC)

ELND 154B  Plant Materials I
(1.5 Units) (No prerequisite. Two and one-half lecture and one and one-half laboratory hours weekly for eight weeks.)
Identification, habits of growth, cultural and environmental requirements, and the use of woody and herbaceous plants grown in the landscape. Plants will be studied during that time of year when they are of significant interest in the landscape. (Covers plants that are attractive in the winter and spring.) This is a short course of eight weeks and the second part of the spring plant identification course. (CSU/UC)

ELND 157  Principles of Landscape Design
(3.0 Units) (Prerequisite: Architecture 120. Two lecture and three laboratory hours weekly.)
An introduction to the general concepts of landscape design, including the history and fundamentals of the development of a landscape design and basic site analysis. Also studied will be the principles of implementation in relationship to landscape construction and maintenance. (CSU/UC)

ELND 158  Landscape Materials and Construction
(3.0 Units) (No prerequisite. Two lecture and three laboratory hours weekly.)
This course is a survey of materials and techniques used in the construction of landscapes. Materials included will be wood, masonry, irrigation, drainage, soil amendments and outdoor lighting. Also covered will be the reading and interpretation of plans and specifications as well as elementary surveying and grade interpretation. This course is designed to aid in the successful completion of the California Landscape Contractors examination. (CSU)

ELND 160  Soils: Ecology and Management
(3.0 Units) (No prerequisite. May be taken as Environmental Landscaping 160 or Biology 160. Credit will be awarded of only one course. Two and one-half lecture and one and one-half laboratory hours weekly.)
This class explores how soil forms and develops, its physical and biological components and their interrelationships. Topics include: historical review of soil/human interactions, soil formation from parent material, classification, physical properties such as texture and structure, life forms found in soil and their interrelationships, relationships between soil properties and soil’s ability to support plant growth, and approaches to use soil in a sustainable manner. (CSU)

ELND 201  Special Topics in Landscape Design
(3.0 Units) (No prerequisite. Advisory: A drafting course or an introductory course in landscape design. Two lecture and three laboratory hours weekly.)
This class explores current and specialized landscape design aspects. Topics include current design trends in light of ecological, social, economic and technology circumstances. Subjects covered may include new materials (plants, lights, structures, embellishments) and techniques (hardware, software) and connections between landscape design, ecological sustainability and health. May be taken three times for credit. (CSU)

ELND 202  Specialized Landscape Construction Projects
(3.0 Units) (No prerequisite. Two lecture and three laboratory hours weekly.)
This class explores special aspects of landscape materials and construction. Topics include tools, techniques, materials and processes necessary to build a wide variety of structures in landscapes. The class includes projects such as working with various types of wood, stone, brick, tile and concrete. Students will participate in class projects to build diverse structures utilized in gardens and landscapes. May be taken three times for credit. (CSU)
**ELND 210A  Integrated Pest Management**
(1.0 Unit) (No prerequisite. Three and one-half lecture hours weekly for five weeks.)

This class addresses principles to establish and implement Integrated Pest Management (IPM) strategies and tactics in gardens and landscapes. It covers approaches for ecologically sound management of organisms associated with plants in landscapes. Information presented includes the ecological basis for IPM, the process to establish an IPM plan and IPM strategies and practices. This short class is the first third of a three-class sequence of IPM classes. (CSU)

**ELND 210B  Insect Identification and Management**
(1.0 Unit) (No prerequisite. Three and one-half lecture hours weekly for five weeks.)

This class addresses identification of common arthropods found in gardens and landscapes. It also addresses ecologically sound strategies and tactics to manage arthropods on plants following Integrated Pest Management (IPM) principles. The class covers biological, microbiological, chemical and cultural arthropod management methods. This short class is the second third of a three-class sequence in IPM. (CSU)

**ELND 210C  Integrated Pest Management of Plant Diseases and Weeds**
(1.0 Unit) (No prerequisite. Three and one-half lecture hours weekly for five weeks.)

This class addresses strategies for ecologically sound management of plant diseases and weeds in gardens and landscapes. It also addresses approaches to identify common plant pathogens and the selection and use of management options. The class covers biology and ecology of plant pathogens and weeds, and nature and function of chemical, biological and cultural management methods. This class is the last third of a three-class sequence in IPM. (CSU)

**ELND 249  Directed Study**
(1-3 units) (Limit to Enrollment: Landscape Management 110.)

Individual study in a subject of interest in landscape management that goes beyond regular course offerings. The student plans and executes an individual project under the direction of a member of the department. Evaluation is through a detailed written report or examination of the study undertaken. May be taken more than once for credit. (CSU w/limit)

**ELND 253  Landscape Irrigation Systems**
(3.0 Units) (No prerequisite. Two lecture and three laboratory hours weekly.)

This class covers topics essential to provide water, in an ecologically sensitive manner, to plants in gardens and landscapes. Concepts covered include: soil /water/ plant /weather relationships, basic hydraulics, site information, irrigation requirements, design and installation of diverse types of irrigation systems. (CSU)

**ELND 254A  Plant Materials II**
(1.5 Units) (No prerequisite. Two and one-half lecture and one and one-half laboratory hours weekly for eight weeks.)

Identification, habits of growth, culture, environmental requirements, and use of woody and herbaceous plants grown in the landscape. Plants will be studied that exhibit late summer features such as flowers, fruit and foliage color. This is a short course of eight weeks to highlight late summer interest in the garden. (CSU/UC)

**ELND 254B  Plant Materials II**
(1.5 Units) (No prerequisite. Two and one-half lecture and one and one-half laboratory hours weekly for eight weeks.)

Identification, habits of growth, culture, environmental requirements, and use of woody and herbaceous plants grown in the landscape. Plants will be studied that exhibit autumn features such as flowers, fruit, foliage coloration and deciduous appearance. This is a short course of eight weeks to highlight autumn interest in the garden. (CSU/UC)

**ELND 260  Landscape Estimating and Management**
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

A study of business practices related to the construction of ornamental landscapes. Includes publications for new jobs, site evaluation, landscape plans (design), and specifications. Office and business practices for the landscape contracting industry. Bid document breakdowns, price comparisons, capital expenditures, preparation of bid documents, subcontracting, certificates of insurance, lien notices, and as-built drawings. (CSU)

**ELND 262A  Environmental Maintenance Practices**
(1.5 Units) (No prerequisite. Two and one-half lecture and one and one-half laboratory hours weekly for eight weeks.)

This class covers strategies and practices for ecologically sound garden and landscape maintenance, and the relationships between landscape/garden design and maintenance practices. Topics include soil management and water/weed/green waste management. This is the first half of a two-course sequence in Landscape Maintenance. (CSU)

**ELND 262B  Environmental Maintenance Practices**
(1.5 Units) (No prerequisite. Two and one-half lecture and one and one-half laboratory hours weekly for eight weeks.)

This class covers strategies and practices for ecologically sound garden and landscape maintenance with emphasis on efficient use of resources. It addresses maintenance practices such as insect, plant disease and weed management, following Integrated Pest Management (IPM) principles. This is the second half of a two-course sequence in Landscape Maintenance. (CSU)
ELND 264  Landscape Nursery Practices  
(3.0 Units) (No prerequisite. Two lecture and three laboratory hours weekly.)

A course that covers the practices used in the operation of a commercial nursery including nursery structures and layout, seeding, transplanting, balling, potting, canning, fertilizing, pest control, and plant diseases. Propagation of plants, planting soil mixtures, their preparation and use. Legal aspects of operating a commercial retail nursery. Advertising and merchandising of nursery products. (CSU)

ETHNIC STUDIES

The Ethnic Studies course offerings are intended for those who desire a deeper understanding of American minority peoples and their communities. Students will receive a unique, interdisciplinary educational experience with courses emphasizing the historical and philosophical impact of the cultures of African American, Hispanic American, Asian American, and American Indian peoples, and their contributions to the culture of the United States.

Career Options
Curriculum Developer, Education Administrator, Historian, International Affairs, Journalist, Librarian, Market Research Analyst, News Analyst, Research Specialist, Teacher, Writer

Faculty
Walter B. Turner

Department Phone: (415) 485-9630

A.A. in Ethnic Studies

The Ethnic Studies Program provides transfer, general education, general interest courses, as well as an Associate in Arts degree. The Associate in Arts degree in Ethnic Studies is designed for those who desire to gain insight into the historical and philosophical impact of cultures and their contribution to the culture of the United States.

Please note: Students may take English 120, 120SL, or 150 to complete the Associate degree. Transfer students, however, are advised to complete English 150. All students should consult a counselor.

Ethnic Studies Courses (ETST)

ETST 039  Selected Topics (Nondegree Applicable)  
(½-6 units) (Please see Selected Topics category.)

ETST 108  Arts of the Americas  
(3.0 Units) (No prerequisite. Can be taken for credit as Ethnic Studies 108, Art 108, or Humanities 108. Credit will be awarded for only one course. Three lecture hours weekly.)

A survey of the arts and architecture of the Americas—North, Central, Caribbean and South Americas—focusing on a selection of works from the major pre Columbian, Spanish Colonial, and modern cultures. Art of the United States will focus on works from the culturally diverse peoples of the Bay Area. (CSU/UC) AA/AS Area C & G, CSU Area C-1, IGETC Area 3A

ETST 110  Introduction to Ethnic Studies  
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

A survey course designed to promote academic and professional knowledge of, and sensitivity to, historical and cultural developments important to ethnic groups in the United States. This is a foundation course in which students will develop an understanding of the social, economic, political, and cultural experiences of ethnic minorities in America. (CSU/UC) AA/AS Area B & G, CSU Area D-3, IGETC Area 4
ETST 111  History of African Americans (A)  
(3.0 Units)  (No prerequisite. Ethnic Studies 111 is not a prerequisite for Ethnic Studies 112. Three lecture hours weekly.)

This course is a historical survey of the African/African American experience from developments on the African continent to the beginning of the twentieth century in American history. The course is designed to explore the role of African beginnings, the African Diaspora, and Black Nationalism in the growth of a distinctive African American culture in the United States. Course emphasis will include the early development of the African continent, Nile Valley cultures, the influences of trade and Islam, European-African interactions, Caribbean and South American developments, slavery in North America, the expansion, the Civil War, and the era of Reconstruction. (CSU/UC) AA/AS Areas B or F & G, CSU Area D-3 or D-6, IGETC Area 4, CSU US History, Constitution, and American Ideals

ETST 112  History of African Americans (B)  
(3.0 Units)  (No prerequisite. Ethnic Studies 111 is not a prerequisite for Ethnic Studies 112. Three lecture hours weekly.)

This is a historical survey of the African American experience in the United States from the American Revolution to the twenty-first century. The course will focus on the history, social movements, and political aspirations of African Americans in the context of American history. Course emphasis will include the African Diaspora, Black Nationalism, the development of independent separate institutions, and the historical background to the civil rights movement. (CSU/UC) AA/AS Areas B or F & G, CSU Area D-3 or D-6, IGETC Area 4, CSU US History, Constitution, and American Ideals

ETST 121  History of Latinos in the United States  
(3.0 Units)  (No prerequisite. Three lecture hours weekly.)

This course is a historical survey of the Latino/Latina experience in North America from pre-Columbian experiences through the contemporary era. The course will focus on the development of a distinctive Latino culture and its political, social, and economic manifestations in the United States. The key goal is to provide students with an understanding of the diversity of the Latino experience in the context of American history. (CSU/UC) AA/AS Areas B or F & G, CSU Area D-3 or D-6, IGETC Area 4, CSU US History, Constitution, and American Ideals

ETST 125  Research Methods and Term Papers in Ethnic Studies  
(3.0 Units)  (No prerequisite. Advisory: Competence in written language skills comparable to eligibility for English 150. Students may receive credit for this course as Economics 125, Ethnic Studies 125, History 125, Political Science 125, or Social Science 125. Credit will be awarded for only one discipline. Three lecture hours weekly.)

This course focuses on the elements of critical thinking and methods of research in the social sciences and develops skills required to organize such thought and research into effective, college-level presentations. Various social science faculty members will offer their expertise to students on an individual basis as they develop their presentations. Students are encouraged to select areas of research from other courses taken during the semester or from areas of special interest including politics, history, economics, education, women's studies, ethnic studies, current issues, and issues of community concern. (CSU/UC) CSU Area A-3

ETST 128  Art Field Trips  
(1-4 Units)  (No prerequisite. Can be taken for credit as Ethnic Studies 128 or Art 128 or Humanities 128. Credit will be awarded for only one course. Three quarter lecture and three quarter laboratory hours weekly for one unit, one and one half lecture and one and one half laboratory hours weekly for two units, two and one quarter lecture and two and one quarter laboratory hours weekly for three units, and three lecture and three laboratory hours weekly for four units.)

A complement to art history and studio art courses, this course allows students to experience the art and architecture of sites like New York, Mexico City, and Rome firsthand. Pretrip lectures will set up background for an intensive field trip(s) that may include visits to museums, galleries, libraries, artists' studios, and to architectural and archeological sites where lecture, discussion, and personal exploration will take place. May be used to bring students to a major media specific conference. May be taken four times for credit. (CSU)

ETST 139  Selected Topics  
(½-6 units)(Please see Selected Topics category.)  (CSU/UC w/limit)

ETST 151  Native American History  
(3.0 Units)  (No prerequisite. Three lecture hours weekly.)

An introductory historical survey to Native American cultures of North America from the pre-colonial period to the present. The course will emphasize the diversity of North American Native cultures and their social and political evolution. A key theme of the course will be the issues of land, political and social interactions with European cultures, and late twentieth century political and economic developments. (CSU/UC) AA/AS Areas B or F & G, CSU Area D-3 or D-6, IGETC Area 4, CSU US History, Constitution, and American Ideals

ETST 154  Native American Literature  
(3.0 Units)  (No prerequisite. Three lecture hours weekly.)

This course is a survey of Native American literature and culture. The course will focus on the work of selected Native American authors, both poets and fiction writers, with an emphasis on Native American cultures and the social issues facing Native Americans. The course will also develop students' creative writing skills and their cultural sensitivity. The goal of the class is to understand the Native American experience in the context of Native American literature and the history of this American hemisphere. (CSU/UC) AA/AS Areas B or C & G, CSU Area C-2, IGETC Area 3B
ETST 242 History and Politics of Contemporary Africa

(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This one-semester course analyzes the politics of modern African states. The course utilizes political and historical analysis to understand the growth and development of the modern African nation state. Literature, film, periodicals, and primary source materials are used to understand the relationships between contemporary African challenges and longstanding economic and political relations with Europe, Asia, and the United States. Key themes of the course include the legacy of colonialism, nationalism, globalization, and the growth of independence movements.

(CSU/UC) AA/AS Area B

ETST 249 Directed Study

(1-3 units) (No prerequisite.)

(CSU/UC)

FILM/VIDEO

The curriculum is designed to provide theory and skills for those who are interested in films, television and broadcast studio, whether students’ goals be transfer, professional, or self-enrichment. The production courses are hands-on, with equal emphasis on aesthetic principles and technology.

Career Options

Animator, Announcer, Broadcast Technician, Camera Operator, Disc Jockey, Engineering Technician, Film Director, Film Editor, Freelance Film Maker, Light Technician, News Broadcaster, News Director, Producer, Production Engineer, Program Assistant, Reporter, Screenwriter, Sound Editor, Sound Recorder, Sportscaster, Studio Technician, Teacher, Videotape Photographer, Writer

Faculty

Frank Crosby

Department Phone: (415) 485-9348

Transfer

Students planning to transfer to a four-year institution should complete the lower division major requirements and general education pattern for the appropriate transfer institution and major. Exact major requirements for UC and CSU institutions can be found on www.assist.org. Please see a counselor for more information as curriculum requirements may vary among transfer universities.

A.A. in Communications, Screenwriting Option

Please note: Students are required to complete English 150 for the Associate degree. All students should consult a counselor.

Film/Video Courses (COMM)

COMM 039  Selected Topics (Nondegree Applicable)  
(½-6 units)(Please see Selected Topics category.)

COMM 108  Film Studies/Selected Topics  
(1.0 Unit) (No prerequisite. Either one evening a week for six weeks,  
or six three-hour classes [two weeks], or seventeen and one-half  
hours on one weekend.)

This class offers an intensive survey of a single subject of film  
study such as influential director, screenwriter, cinematographer,  
or an influential movement in film history. Subjects of study  
change, but will include such topics as the following: the Direc-  
tor (Hitchcock, Fellini, Truffaut, Nicholas Ray, Frank Capra); the  
Screenwriter (Waldo Salt, John Sayles, David Mamet, John Patrick  
Shanley); Animation (classic, Disney, Fleisher); and Focus on Film  
Noir, Focus on the Western, Focus on French New Wave, Focus  
on Italian Neo-Realism, Japanese Cinema, Focus on Third World.  
Check current schedule for particular focus offered. Communications 108 may be taken more than once for credit provided the  
same topic is not repeated. (CSU) AA/AS Area C (three units)

COMM 109A  History of Film: Beginning to 1950  
(4.0 Units) (No prerequisite. Can be taken for credit as Communications 109A or Humanities 109A. Credit will be awarded for only one course. Four lecture hours weekly.)

This course offers a chronological survey of narrative film as  
art, business, technology, and politics from the beginning of the  
movies in the 1890s to post World War II. Periods and movements  
covered will include the Silent Era, German Expressionism, Soviet  
Avant Garde and editing of the 1920s, French classicism, Ameri-  
can Studio Period and sound, as well as the history of censorship  
in the United States. Classroom screenings of representative  
films. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A

COMM 109B  History of Film: 1950 to the Present  
(4.0 Units) (No prerequisite. Can be taken for credit as Communications 109B or Humanities 109B. Credit will be awarded for only one course. Four lecture hours weekly.)

This course offers a chronological survey of narrative film as  
art, business, technology, and politics from 1950 to the present.  
Periods and movements covered will include the American Studio  
Period, 1950s Film Noir and subversive movements, Italian  
Neorealism, French Nouvelle Vague, National Cinemas of Swed-  
en, England, Czech Golden Age, Poland, Hungary, Japan, India,  
China, Iran, The New German Film, Third World Cinemas; Austra-  
lia, the Hollywood Renaissance of the 1960s and 1970s, Dogma  
95, and independent film movements. (CSU/UC) AA/AS Area C,  
CSU Area C-1, IGETC Area 3A

COMM 139  Selected Topics  
(½-6 units)(Please see Selected Topics category.)(CSU w/limit)

COMM 140  Film Direction  
(3.0 Units) (No prerequisite. Two lecture and three laboratory hours weekly.)

Functions of the director in relation to cast and crew; process of casting, script breakdown, blocking, dramatic and cinematic  
interpretation of scripted material, and practice in crew func- 
tions following the professional model. We will explore how the  
director and crew operate in a variety of genres, i.e., theatrical,  
documentary, commercial, training, etc. (CSU)

COMM 145  Developing Ideas for Film, Multimedia and Video Projects  
(2.0 Units) (No prerequisite. Two lecture hours weekly.)

This class is appropriate for anyone who needs to learn how to  
develop a concept, idea or story for short film, multimedia and  
video projects. The focus of the course is to give students the  
skills and practical experience necessary to create a script for a  
short documentary, multimedia, narrative, music, experimental,  
interview, personal and promotional film and video projects.  
(CSU)

COMM 146  Film/Video Production  
(1.0 Unit) (No prerequisite. Other limitations: Basic English Skills.  
One lecture hour weekly.)

This hands-on class is appropriate for anyone who needs to  
learn how to complete preproduction tasks for film and video.  
The focus of the course is to give students the skills and practical  
experience necessary to carry out preproduction duties for docu- 
mentary, narrative, music, experimental, interview, personal and  
promotional film and video projects. (CSU)

COMM 150  Introduction to Filmmaking  
(4.0 Units) (No prerequisite. Three lecture and three laboratory hours weekly.)

This hands-on class is appropriate for anyone who is consider- 
ing a career in cinema or who wants to take a filmmaking class  
for fun and personal enrichment. The focus of the course is to  
give students a basic set of filmmaking and visual communica-  
tion skills. Using digital video, 16mm film and computers, students,  
working in groups and individually, learn and practice the  
fundamentals of filmmaking without having to incur the cost of  
producing a complete film. (CSU/UC)
COMM 151  Video Production: Shooting on Location  
(3.0 Units) (No prerequisite. Two and one-half lecture and one and one-half laboratory hours weekly.)

This hands-on class is appropriate for anyone who needs to gain basic video field production skills or who wants to take a video production class for fun and personal enrichment. The focus of the course is to give students a basic set of video production and visual communication skills. Using small and lightweight digital video equipment, students, working in groups and individually, learn how to shoot video on location for documentary, narrative, music, experimental, interview, personal and promotional projects. (CSU)

COMM 161  Film and Television Writing  
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This course is designed to teach students the basics of dramatic writing so that they can learn the functions of each act of a drama in drawing sympathy for characters, creating interesting conflict, and unifying the message. The student will analyze completed feature films, screenplays, and television programs for their structure, pacing, and characterization. They will create their own original stories, both for television and for film; write several scenes in correct format; and complete a treatment for feature film or television. (CSU)

COMM 162  Advanced Film and Television Writing  
(3.0 Units) (Prerequisite: Communications 161. Three lecture hours weekly.)

This course assumes students have some experience writing in screenplay or teleplay format and are familiar with basic structure, dramatic conflict, and character development. Class is a workshop/seminar format; students present original works-in-progress for rewrite suggestions. Lessons in issues of subtext, dialogue, plot motivation, development of characters’ psychological needs, and plot tightening for pacing will be given. May be taken four times for credit. (CSU)

COMM 163  Screenplay Projects  
(3.0 Units) (Prerequisite: Communications 162. Three lecture hours weekly.)

This course assumes the student has already taken five semesters of Writing for TV and Film and is working on either a continuing screenplay or teleplay project or is starting a new project. Class is a workshop seminar format; students present original works in progress for rewrite suggestions. May be taken four times for credit. (CSU)

COMM 166  Writing Short Film and Television Productions  
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

Exercises to develop fluency in the language of the motion picture. Creation of shooting scripts and/or story-boarding for short documentary, animated, or narrative films and videos. Viewing and analysis of representative works to examine structure and style. May be used to develop projects for production courses. (CSU)

COMM 170  Workshop in Cinematography  
(3.0 Units) (Prerequisite: Communications 150. Two lecture and three laboratory hours weekly.)

This is an intermediate level class that teaches intermediate techniques of cinematography and lighting through classroom instruction, exercises, and studio and location shooting. In addition, students will learn how to maintain camera and lighting equipment and develop advanced skills in visual communication and the art and craft of cinematography. May be taken twice for credit. (CSU)

COMM 175  Avid Nonlinear Editing Workshop  
(3.0 Units) (Prerequisite: Communications 150. Two lecture and three laboratory hours weekly.)

This course provides basic instruction in the theory and practical application of nonlinear editing for film and video using the Avid editing workstation. The emphasis is on developing students’ skills through hands-on work and practice on the Avid system. May be taken three times for credit. (CSU)

COMM 176  Advanced Avid Nonlinear Editing  
(1.0 Unit) (Prerequisite: Communications 175. One lecture hour weekly.)

Using lecture, demonstration, and hands-on practice this workshop explores advanced Avid nonlinear editing techniques. It introduces horizontal and vertical effects, nesting, keying, key frames, and media and project management. May be taken twice for credit. (CSU)

COMM 177  Protools Nonlinear Audio Editing  
(3.0 Units) (No prerequisite. Advisory: Basic computer skills. Two lecture and three laboratory hours weekly.)

Using lecture, demonstration, and hands-on practice, this workshop explores basic audio nonlinear editing techniques. It introduces digital audio workstations, digital multitrack recording, and midi and digital signal processing. May be taken twice for credit. (CSU)

COMM 181  Film and Video Audio Recording Workshop  
(1.0 Unit) (No prerequisite. One lecture hour weekly.)

This workshop helps students develop basic skills in location sound recording for film and video. Topics include basic use of microphones, introduction to analog and digital sound recording, and techniques for recording good quality sound on location. May be taken twice for credit. (CSU)
COMM 182  Sync-Sound Production Workshop  
(1.0 Unit) (Prerequisite: Communications 150. One lecture hour weekly.)
This workshop is designed to teach students the basics of sync-sound preproduction planning and production and prep for editing a sync-sound film. Using film, cameras, and computers students working in small groups shoot and sync a short dialogue scene. May be taken twice for credit. (CSU)

COMM 183  Microphone Use and Technique for Film and Video  
(2.0 Units) (No prerequisite. Other limitations: Basic English Skills. Two lecture hours weekly.)
This class is appropriate for anyone who needs to learn how microphones work, how to select the correct microphone for a project, how and where to set up the microphone to capture the best sound and ways to change a location or studio into a sound-friendly environment. The focus of the course is to give students the knowledge and skills to design and create effective sound for documentary, multimedia, narrative, experimental, and promotional film and video projects. (CSU)

COMM 240  Advanced Production Projects  
(3.0 Units) (Prerequisites: Communications 140, 150, 166, and 170. Three lecture hours weekly.)
This class is an advanced level seminar that allows students to work on their second-year film projects. The seminar includes a critical and analytical evaluation of students' films, working as crew on other advanced level students' projects, and completing postproduction work. May be taken four times for credit. (CSU)

COMM 249  Directed Study  
(1-3 units) (Please see Directed Study category.) (CSU w/limit)

FIRE TECHNOLOGY
These courses provide occupational education and training for men and women who wish to pursue coursework in fire technology.

Department Phone: (415) 457-88111, Ext. 7667

Skills Certificates
Skills Certificates are an acknowledgement that the student has attained a specified set of competencies within an occupational program. Skills Certificates may be part of a “ladder” of skills, beginning with job entry skills and leading to a full Certificate of Achievement program or may constitute a skill set that enables a student to upgrade or advance in an existing career. Skills Certificates require less than 18 units and are shorter in duration than the Certificate of Achievement.

Emergency Medical Technician Training Course Skills Certificate
The Emergency Medical Technician Training Course certificate meets the requirements of the California Health and Safety Code for basic EMT-1 training. The approving authority is the Marin County Emergency Medical Service Agency. This course completion is valid for two years from the completion date and shall be recognized statewide. Note: This is not an EMT-1 Certificate.

Requirements Units
| FIRE 112 | Emergency Medical Technician-1 | 6 |

FIRE Technology Courses (FIRE)

FIRE 039  Selected Topics (Nondegree Applicable)  
(½-6 units) (Please see Selected Topics category.)

FIRE 112  Emergency Medical Technician I  
(6.0 Units) (Prerequisite: First Aid for Public Safety Personnel or equivalent and CPR for Health Care Providers. Previous EMT-1, EMT-2, EMT-P accepted. Five lecture and three laboratory hours weekly. Plus ten additional hours to be arranged and four hours testing.)
This course provides instruction in the skills and knowledge required for the Emergency Medical Technician (EMT1) scope of practice. Supervised clinical experience with emergency ambulance providers and/or hospital emergency room is included. Enrollment limited to 30. A health clearance and a criminal background clearance are required by clinical agencies. (CSU) For more information, please refer to the department website: www.marin.edu/departments/fire_technology.

FIRE 255  Wildland Fire Fighting  
(1.5 Units) (No prerequisite. Sixteen lecture and twenty-four laboratory hours.)
A basic course designed to give the student a fundamental understanding of wildland fire behavior, safety equipment, dozer safety, construction of handlines, and fire control. May be taken four times for credit. (CSU)

FIRE 139  Selected Topics  
(½-6 units) (Please see Selected Topics category.) (CSU w/limit)

FRENCH

A major reason for studying the French language is the enrichment of one's intellectual growth in the context of the rest of the world. In learning French one also learns about the culture, philosophy, and civilization of another people, thereby broadening understanding of the world. On the practical side, any field of specialization (journalism, medicine, law, business, teaching) is enhanced if one can speak another language. In California, knowledge of a modern language is now required in many jobs that deal with the public such as Civil Service, social work, nursing, and other service-oriented fields.

Career Options

Department Phone: (415) 485-9348
Transfer
Students planning to transfer to a four-year institution should complete the lower division major requirements and general education pattern for the appropriate transfer institution and major. Exact major requirements for UC and CSU institutions can be found on www.assist.org. Please see a counselor for more information as curriculum requirements may vary among transfer universities.

Policy Statement Regarding Sequence of Enrollment in Modern Language Classes
Although students are advised to enroll in language courses sequentially, they will not be precluded from enrolling in lower level language classes after completion of more advanced courses. Students should be aware, however, that units resulting from the lower level courses may not be accepted at transfer institutions as a part of the required transferring units.

A.A. in French
Students may take classes at either campus to fulfill requirements for the major.

Please note: Students may choose English 120, 120SL, or 150 to complete the Associate degree. Transfer students, however, are advised to complete English 150. All students should consult a counselor.

French Courses (FREN)
All French courses can be taken for a letter grade or credit/no credit. In general, courses required for a transfer student’s four-year major should be taken on a letter grade basis.

FREN 039 Selected Topics (Nondegree Applicable)
(½-6 units) (Please see Selected Topics category.)

FREN 101 Elementary French I
(5.0 Units) (No prerequisite. Four lecture and three laboratory hours weekly.)

A beginning course which offers study and practice in speaking, understanding, reading, and writing French, along with an exploration of cultural aspects of the French-speaking world. The three-hour weekly laboratory requirement enhances the student’s verbal and comprehension skills through the use of audiovisual materials. May also be offered in a distance learning format. (CSU/UC) AA/AS Area C, CSU Area C-2, CAN FREN 2, CAN FREN SEQ A = Fren 101 + 102, IGETC Area 6A: UC Language other than English

FREN 102 Elementary French II
(5.0 Units) (Prerequisite: French 101. Four lecture and 3 laboratory hours weekly.)

Further emphasis is placed on the structure of the language, verbal communication, and understanding of French culture. Continued use of the language laboratory for further mastery of the language. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B or 6A: UC Language other than English, CAN FREN 4, CAN FREN SEQ A = Fren 101 + 102

FREN 108A French Culture and Literature Go to the Cinema
(3.0 Units) (Prerequisite: French 101 or equivalent. Three lecture hours weekly.)

This course is designed to introduce students to films that were inspired by classic, significant and, in many instances, famous literary pieces. The emphasis will be on the connection between the novel/story and its artistic expression in the film. This course will teach the students about traditional and modern trends in French literature and film. It will establish a connection between literature and socio-cultural and political changes in French-speaking countries, through these two artistic and expressive means. (CSU/UC) CSU Area C-2, IGETC Area 3B

FREN 108B French Culture and Literature Go to the Cinema
(3.0 Units) (Prerequisite: French 101 or equivalent. Three lecture hours weekly.)

This course is designed to introduce students to the films that were inspired by famous cultural aspects of the twentieth century in French society. The emphasis will be on the connection between the French era and its artistic expression in the film. This course will also teach the student about traditional and modern trends in French literature. It will establish a connection between socio-cultural and political changes in French-speaking countries, through these two artistic and expressive means. (CSU/UC) CSU Area C-2, IGETC Area 3B

FREN 110 Conversational French I
(4.0 Units) (No prerequisite. Three lecture and three laboratory hours weekly.)

Use of modern colloquial French in conversation with elementary grammar. Designed for students who wish to acquire skills of the spoken language with a minimum of formal grammar. Oral practice in speaking, understanding, and correct pronunciation of French, using audiovisual materials depicting everyday situations. Can also be offered in a distance learning format. (CSU)
FREN 112  Conversational French II
(4.0 Units) (Prerequisite: French 110. Three lecture and three laboratory hours weekly.)
Continued use of modern colloquial French in conversation with elementary grammar. Designed for students who wish to acquire skills of the spoken language with a minimum of formal grammar. Continued oral practice in speaking, understanding, and correct pronunciation of French, using audiovisual materials depicting everyday situations. (CSU)

FREN 114  Conversational French III
(4.0 Units) (Prerequisite: French 112. Three lecture and three laboratory hours weekly.)
Continued use of modern colloquial French in conversation with elementary grammar. Designed for students wishing to acquire skills of the spoken language with a minimum of formal grammar. Continued oral practice in speaking, understanding, and correct pronunciation of French, using audiovisual materials depicting everyday situations. (CSU)

FREN 203  Intermediate French III
(5.0 Units) (Prerequisite: French 102. Advisory: Concurrent enrollment in French 114. Four lecture and three laboratory hours weekly.)
Review and expansion of grammatical concepts with continued emphasis on verbal communication. Introduction to literary and journalistic readings for vocabulary and idiom expansion as well as cultural enrichment. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B or 6A: UC Language other than English

FREN 204  Intermediate French IV
(4.0 Units) (Prerequisite: French 203. Four lecture hours weekly.)
A further study of the French language with a review of the grammar and extensive readings from the literature and press with emphasis on verbal communication. An exploration of the use of French and the impact of French culture outside of France. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B or 6A: UC Language other than English

FREN 225  Advanced French I
(3.0 Units) (Prerequisite: French 204. Three lecture hours weekly.)
This course aims to expand the student's knowledge of the French language and civilization through the study of grammar, literature, and the French press, with particular emphasis on present-day France. Additional emphasis is placed on an advanced level of verbal communication. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B or 6A: UC Language other than English

FREN 226  Advanced French II
(3.0 Units) (Prerequisite: French 225. Three lecture hours weekly.)
This course aims to expand the student's knowledge of the French language and civilization through the study of grammar, literature, and the French press, with particular emphasis on present-day France. Additional emphasis is placed on an advanced level of verbal communication. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B or 6A: UC Language other than English

FREN 249  Directed Study
(1-3 units) (Limit to Enrollment: French 225 and 226.)
Hours and content to be arranged by consultation with the instructor. This course may be taken four times for credit. (CSU/UC w/limit)

GEOGRAPHY
There is a wide diversity of careers that geography offers. Possible avenues for specialization include business, government, teaching, cartography, conservation, land use, photogrammetry, climatology, soil and agriculture, urban and regional planning, resource evaluation, industrial location sites, and marketing research.

Career Options
Cartographer, City Planner, Computer Mapper, Geographic Analyst, International Economist, Land Officer, Location Analyst, Map Curator, Market Researcher, News and Travel Magazine Editor, Soil Conservationist, Teacher, Transportation Planner

Faculty
Donald J. Foss, Victor V. Minasian
Department Phone: (415) 485-9510

Transfer
Students planning to transfer to a four-year institution should complete the lower division major requirements and general education pattern for the appropriate transfer institution and major. Exact major requirements for UC and CSU institutions can be found on www.assist.org. Please see a counselor for more information as curriculum requirements may vary among transfer universities

A.S. in Geography
The Geography Program provides transfer, general education, general interest courses, as well as an Associate in Science degree.

Please note: Students may take English 120, 120SL, or 150 to complete the Associate degree. Transfer students, however, are advised to complete English 150. All students should consult a counselor.

**GEOG 039  Selected Topics (Nondegree Applicable)**
(½-6 units) (Please see Selected Topics category.)

**GEOG 101  The Physical Environment**
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
Description, explanation and world distribution of the natural phenomena that constitute man's physical environment. The phenomena surveyed include earth-sun relationships, weather, climate, soils, and landforms. Principles of map construction and interpretation are also studied. (CSU/UC) AA/AS Area A, CSU Area B-1, IGETC Area 5A, CAN GEOG 2

**GEOG 101L  Physical Environment Laboratory**
(1.0 Unit) (Prerequisite: Geography 101 or concurrent enrollment. Three laboratory hours weekly.)
Practical observations and applications of the geographic grid, atlases and topographic maps; rocks and tectonic activity, weather and climate, and natural vegetation and soils. Exercises are designed to supplement Geography 101. Classes will meet periodically at off-campus locations within Marin County and students are expected to provide their own transportation. (CSU/UC) AA/AS Area A, CSU Area B-1 or B-3, IGETC Area 5A

**GEOG 102  The Human Environment**
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
This course is designed to offer students an overview of the interrelationships between human societies and the environment. It includes an examination of population distribution and growth, migrations, environmental modifications, and the spatial distribution of phenomena such as language, religion, economic systems, and urbanization. (CSU/UC) AA/AS Area B, CSU Area D-5, IGETC Area 4, CAN GEOG 4

**GEOG 109  Geography of California**
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
An introduction to the tools of geography, to the systems approach to the study of the physical and biological elements of California's landscape, to the distribution patterns of these elements, and to the significance of such patterns. (CSU/UC) AA/AS Area B, CSU Area D-5, IGETC Area 4, CAN GEOG 4

**GEOG 112  Meteorology and Climatology**
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
This survey course in climatology and meteorology introduces the student to the studies of atmospheric sciences and the consequences that face the floral and faunal assemblage of the earth as man and nature continue to alter the atmosphere and subsequent climate. (CSU/UC) AA/AS Area A, CSU Area B-1, IGETC Area 5A

**GEOG 116  Field Geography, Marin County**
(1.0 Unit) (No prerequisite. Three lecture and three laboratory hours weekly for five weeks.)
Each offering includes field exposure and experience with data collection techniques related to Marin's bio-geographic zones, geologic bedrock and soils characteristics, hydrological, atmospheric, and cultural geographic characteristics. May be taken four times for credit. (CSU)

**GEOG 125  Introduction to Geographic Information Systems**
(1.5 Units) (No prerequisite. Advisories: Familiarity with Windows operating system and software is highly recommended. Suggested completion of Computer Science 110 or Computer Information Systems 110 or 101. Two lecture and three laboratory hours weekly for eight weeks.)
An interdisciplinary course that explores Geographic Information Systems (GIS) used for acquisition, storage, management, analysis, and communication of spatial data. The course addresses how GIS can be used as a tool for diverse academic disciplines. The course will introduce the student to GIS through the use of ArcGIS software. The subsequent course (Geography 126) is a project-oriented course that stresses access and application of data in the student's chosen academic area of interest. (CSU/UC)

**GEOG 126  Application of Geographic Information Systems in Research**
(1.5 Units) (Prerequisite: Geography 125. Two lecture and three laboratory hours weekly for eight weeks.)
Geographic Information Systems use has become essential to the effective operation of both public and private organizations. Students will be taught how to retrieve and apply data from their area of interest using ArcGIS software. Students will develop a project related to their area of academic interest and submit written and oral presentations of their project using GIS software and other skills developed in this course and the prerequisite course. (CSU)

**GEOG 139  Selected Topics**
(½-6 units) (Please see Selected Topics category.) (CSU/UC w/limit)

**GEOG 249  Directed Study**
(1-3 Units) (Limit to Enrollment: Completion of at least two courses in geography with a grade point average of 3.0 or higher in those courses.)
Directed study may consist of readings, research, or projects which are to be arranged with a geography instructor the semester prior to that in which the directed study is to be done. This course may be taken more than once for credit. Please see Directed Study category. (CSU/UC w/limit)
GEOLOGY

Geologists are curious about the world in which they live. The earth is their laboratory. Geology is the fundamental discipline used to explain the natural earth systems that shape our changing planet. Today the majority of geoscientists are employed in the environmental fields, but many are also employed in the exploration for and production of natural resources.

Career Options
Aerial Photo Interpreter, Earth Historian, Environmental Geologist, Exploration Geophysicist, Field Geologist, Geochemist, Geological Engineer, Geological Technician, Geology Drafter, Hydrologist, Laboratory Research Worker, Map Editor, Meteorologist, Mining Geologist, Oceanographer, Paleontological Assistant, Paleontologist, Park Naturalist, Petroleum Geologist, Petrologist, Prospector, Research Scientist, Scientific Illustrator, Sedimentologist, Seismologist, Soils Engineer, Teacher, Technical Writer, Tester, Weather Observer

Transfer
Students planning to transfer to a four-year institution should complete the lower division major requirements and general education pattern for the appropriate transfer institution and major. Exact major requirements for UC and CSU institutions can be found on www.assist.org. Please see a counselor for more information as curriculum requirements may vary among transfer universities.

A.S. in Geology
While students may take classes at both campuses, the majority of courses required for the major are offered at the Kentfield Campus.

Please note: Students are required to complete English 150 for the Associate degree. All students should consult a counselor.

Geology Courses (GEOL)

GEOL 039 Selected Topics (Nondegree Applicable)
(½-6 units) (Please see Selected Topics category.)

GEOL 099 General Science
(3.0 Units) (No prerequisite. Can be taken for credit as Geology 99 or Biology 99. Credit will be awarded for only one course. Three lecture hours weekly.)

This course is designed for students who have not reached the level of success they desired in high school or college science courses and for individuals returning to school after an extended absence. The course covers basic scientific principles and concepts of the physical and life sciences and prepares students to move into other science classes with the information, understanding, and skills required to succeed. Introductory topics in biology, chemistry, geography, geology, meteorology, and physics are discussed. This course also provides an excellent overview of the most important topics in science today for anyone interested in learning more about the natural world.

GEOL 101 Geological Field Excursions to National Parks
(1.0 Unit) (Corequisite: Geology 102. There will be three, two-day field trips.)

This course provides the opportunity to see and understand more fully the geology, landforms, and natural environment of national parks. Three, two-day field trips will be required. This course will normally be offered in the spring semester. Students should be aware that minimal expenses would be incurred during the field trips. This course is repeatable if different national parks are studied. (CSU)

GEOL 102 Geologic Setting of the National Parks
(2.0 Units) (No prerequisite. Two lecture hours weekly.)

Designed for the student’s enrichment of the natural environment of National Parks, with emphasis on parks of the western hemisphere. (CSU)

GEOL 103 Environmental Geology
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

Environmental geology is the fascinating study of the interactions of the human race and the physical environment. The course centers on how mankind alters the physical environment in order to better suit our immediate needs and how these alterations in turn dictate the course of our future. The emphasis is always on the balance between short term reward and long-term consequence. Field trips may be offered. (CSU/UC)AA/AS Area A, CSU Area B-1, IGETC Area 5A
GEOL 105 Cosmic Evolution  
(3.0 Units) (No prerequisite. Can be taken for credit as Astronomy 105, Biology 105, or Geology 105. Credit will be awarded for only one course. Three lecture hours weekly.)

This is an interdisciplinary course that explores the origins and evolution of the cosmos from the Big Bang and the formation of the universe and Earth, to the development of life. Students will explore basic concepts and principles that bind all scientific disciplines, and the nature of science and scientific inquiry. Through the study of astronomy, chemistry, geology, and biology, students will discover the interrelatedness of all matter, living and nonliving in the cosmos and how physical and chemical processes eventually led to the evolution of living organisms. (CSU/UC) AA/AS Area A, CSU Area B-1 or B-2, IGETC Area 5A

GEOL 107 Introduction to Rocks and Minerals  
(1-3 Units) (No prerequisite. One-half lecture hour and one and one-half laboratory hours weekly per unit.)

A beginning course in the study and identification of common rocks and minerals. (CSU)

GEOL 109 General Oceanography  
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

A general survey course in ocean science for any interested student. Particularly important for students considering a career in marine science or technology. (CSU/UC) AA/AS Area A, CSU Area B-1, IGETC Area 5A

GEOL 110 Earth Science  
(3.0 Units) (No prerequisite. Three lecture hours weekly. Not open to students who have taken or are taking Geology 120.)

Introduction to the basic principles of geology. A nonlaboratory general education course. (CSU/UC) AA/AS Area A, CSU Area B-1, IGETC Area 5A

GEOL 114 Geology of California  
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

A study of California's scenic landscape and geologic environments. (CSU/UC) AA/AS Area A, IGETC Area 5A

GEOL 115 Volcanoes  
(1.0 Unit) (No prerequisite. One lecture hour weekly.)

A study of the nature and power of the major active volcanoes of the world. (CSU/UC)

GEOL 116 Volcanoes and Earthquakes  
(2.0 Units) (No prerequisite. Two lecture hours weekly.)

An introduction to the geological workings of Earth, focusing on the study of the causes, processes, and products of volcanoes and earthquakes. Great natural disasters and scientific efforts to predict such disasters are studied. (CSU/UC)

GEOL 120 Physical Geology  
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This course is the study of the basic principles of geology and the processes responsible for the formation of rocks, minerals, and the natural landforms of the earth. (CSU/UC) AA/AS Area A, CSU Area B-1, IGETC Area 5A, CAN GEOL 2 = Geol 120 + 120L

GEOL 120L Physical Geology Laboratory  
(1.0 Unit) (Prerequisite: Geology 120 or concurrent enrollment. Three laboratory hours weekly.)

This course is a hands-on study of minerals, rocks, maps, and geologic field problems. Students will emerge with life skills that will enable them to interpret the geologic conditions of their surroundings. This laboratory class is field-oriented. (CSU/UC) AA/AS Area A, CSU Area B-1 or B-3, IGETC Area 5A, CAN GEOL 2 = Geol 120 + 120L

GEOL 121 Historical Geology  
(4.0 Units) (Prerequisites: Geology 120 and 120L. Three lecture and three laboratory hours weekly.)

A study of Earth's past and the evolution of landscapes and living organisms throughout geologic time. (CSU/UC) AA/AS Area A, CSU Area B-1 or B-3, IGETC Area 5A

GEOL 125 Field Geology I  
(2.5 Units) (Prerequisite: Geology 110 or 120 or concurrent enrollment. Seventy-eight and three-fourths hours of field investigation to be arranged over three weekends, and sixteen lecture hours to be arranged.)

Lecture and field trips designed to introduce geologic field studies, and to acquaint students with the geology and geologic history of Northern California. May be taken four times for credit. (CSU/UC)

GEOL 126 Field Geology II  
(2.0 Units) (Prerequisite: Geology 120. Contact instructor before enrolling. A ten-day field trip during the spring break and twelve lecture hours to be arranged.)

The study of geologic phenomena in selected areas of the Western United States. May be taken four times for credit. (CSU/UC)

GEOL 127A Extended Field Studies  
(1.5 Units) (Prerequisite: Geology 120. A seven-day field trip and eight lecture hours to be arranged.)

A one-week field investigation of a selected area. May be taken four times for credit. (CSU)

GEOL 127B Extended Field Studies  
(3.0 Units) (Prerequisite: Geology 120. A fourteen-day field trip and sixteen lecture hours to be arranged.)

A two-week field investigation of a selected area. May be taken four times for credit. (CSU)
GEOL 128  Geologic Studies of Point Reyes and the San Andreas Fault
(2.0 Units) (No prerequisite. A three-hour meeting is required at the beginning for logistics. Five eight-hour sessions.)

Marin County is blessed with an extraordinary geology. This course focuses on the Point Reyes Peninsula and its relationship to the San Andreas Fault System. The course meets for a total of 40 hours at geologically unique locations chosen to illustrate the geological features and geological history of this portion of the county through field lecture, direct observation and geological exercises. May be taken twice for credit. (CSU)

GEOL 129  Field Studies of Marin East of the San Andreas Fault
(2.0 Units) (No prerequisite. A three-hour meeting is required at the beginning for logistics. Five eight-hour sessions.)

Marin County is blessed with an extraordinary geology. This course focuses on the area east of the San Andreas Fault. The course meets for a total of 40 hours at geologically unique locations chosen to illustrate the geological features and geological history of this portion of the county through field lecture, direct observation and geological exercises. (CSU)

GEOL 138  Introduction to Environmental Sciences
(4.0 Units) (No prerequisite. Can be taken for credit as Biology 138 or Geology 138. Credit will be awarded for only one course. Three lecture and three laboratory hours weekly.)

This science-based course takes an interdisciplinary approach to understanding the environmental crisis that confronts us all. Our studies combine ideas and information from natural sciences (such as biology, chemistry and geology) and social sciences (such as economics, politics, and ethics) to present a general idea of how nature works and how things are interconnected. It is a study of connections in nature. Discussions will focus on understanding ecosystem services, how humans interfere with earth's life support systems and how to deal with the environmental problems we face. Emphasis is placed on understanding various world views and how they affect our values. Our field studies will include visits to restoration projects, local ecosystem field studies and local environmental conferences. (CSU/UC) CSU Area B-1 and B-3, IGEC Areas 5A & 5B

GEOL 139  Selected Topics
(½-6 units) (Please see Selected Topics category.) (CSU/UC w/limit)

GEOL 140  Environmental Field Techniques
(1.0 Unit) (No prerequisite. Can be taken for credit as Geology 140 or Biology 140. Credit will be awarded for only one course. Three laboratory hours weekly.)

This course is designed to teach the fundamentals of environmental sampling and monitoring. Topics include surveying and mapping; data collection and management; and hydrological, geological, and biological assessment methods. This course is field based, and emphasizes the mastery of practical field techniques. May be taken four times for credit. (CSU)

GEOL 142  Environmental Policy and Planning
(3.0 Units) (No prerequisite. Can be taken for credit as Geology 142 or Biology 142. Credit will be awarded for only one course. Three lecture hours weekly.)

This course is a study of federal, state, and local environmental legislation. It is a chronology of America's awakening to environmental issues and a study of our efforts to resolve these issues through the planning process. An understanding of the content of this course is vital for environmental scientists, planners, and developers. (CSU/UC)

GEOL 145  Ethics in Science
(3.0 Units) (No prerequisite. Can be taken for credit as Geology 145 or Biology 145. Credit will be awarded for only one course. Three lecture hours weekly.)

This course explores some of the most pressing issues facing our society today. It enables students to investigate and understand the controversies surrounding current and future technologies, and helps them make rational decisions when faced with situations in their own lives and at the voting booth. The approach is an interdisciplinary one, combining basic science, applied research, ethics, and decision-making processes. Topics include scientific fraud, recombinant DNA technologies, the human genome project, energy and land use, and toxic waste. This course is appropriate for both science and nonscience majors. (CSU/UC) AA/AS Area C

GEOL 201  Elementary Mineralogy
(4.0 Units) (Prerequisite: Geology 120. Three lecture and three laboratory hours weekly.)

An introduction to the basic principles of mineralogy including crystallography; the basic concepts of physical, chemical, and optical mineralogy; and the formation and occurrence of mineral deposits. Laboratory work includes the determination of minerals by physical properties, chemical tests with the use of the blowpipe, crystal morphology, and the study of minerals in thin section under the polarizing microscope. (CSU/UC) CSU Area B-1 or B-3, IGEC Area 5A

GEOL 242  Geology and Biology of the Basin and Range and the Colorado Plateau
(3.0 Units) (No prerequisite. Can be taken for credit as Geology 242 or Biology 242. Credit will be awarded for only one course. A two-week field trip that includes seventeen and one-half lecture hours and thirteen, eight-hour field experiences.)

This two-week field course on the Basin and Range and Colorado Plateau Provinces includes a raft trip down the Colorado or Green River. The geological and biological evolutions of the area are explored through observation, experimentation, and study of the diverse abiotic and biotic contributors to the area. Course topics include: stratigraphy and structure; fluvial landforms and processes; species dispersion, radiation and evolution; ecology;
and the art of fly fishing. Through lectures and a broad range of field experiences, students will gain an understanding of the factors that shaped and continue to shape this unique area. May be taken four times for credit. (CSU)

GEOL 249 Directed Study

(1-3 units) (Limit to Enrollment: Prior arrangement with the instructor is necessary. At least ten units of geology work completed with a grade point average of 2.7 or higher.)

A course designed to give the student an opportunity to participate in a research program. May be taken more than once for credit. (CSU/UC w/limit)

GEOL 250 Scientific Research and Reporting

(1.0 Unit) (No prerequisite. Advisories: Biology 110 and Geology 120. Can be taken for credit as Geology 250 or Biology 250. Credit will be awarded for only one course. One lecture hour weekly.)

This hands-on, individualized course is designed to walk students step-by-step through a scientific research project of their choice. The final report of their findings will be delivered at a professional meeting. This course is designed for science majors that have completed the first year of their curriculum and desire a hands-on, real world experience in science. May be taken four times for credit. (CSU/UC)

HEALTH EDUCATION

Department Phone: (415) 485-9580

Skills Certificate in Personal Fitness Trainer

The Personal Fitness Trainer Skills Certificate constitutes a skill and knowledge set that enables students to either begin as an entry-level Personal Fitness Trainer (PFT) or advance in their already existing PFT careers.

Advised for the Certificate:
PE 116 - Career Opportunities in Wellness and Fitness (3 units)

| And One Physical Activity course (1 unit) | 1 |
| Or Any 2 Physical Activity courses (must be two different courses) | 1, 1 |

Health Education Courses (HED)

HED 039 Selected Topics (Nondegree Applicable)

(1½-6 units) (Please see Selected Topics category.)

HED 112 Drugs and Society

(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This course will cover the historical, sociological, physiological, pharmacological, and legal aspects of drugs. Emphasis will be placed on the effects of tobacco, alcohol, narcotics, restricted drugs, and other substances. Nutrition, genetics, environment, and poly-drug factors concerning drug actions will be discussed. The various education, prevention, treatment, and rehabilitation approaches to the problem of drug abuse will be covered. (CSU) CSU Area E

HED 115 Weight Control, Exercise and Nutrition

(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This course is designed to act as an educational support program and resource center for individuals who desire to develop or desire to help others develop a new healthier lifestyle, including weight management, exercise, and proper nutritional behaviors. The latest research in the wellness and fitness field will be emphasized. Can also be offered in a distance learning format. (CSU/UC)

HED 119 Effective Teaching Strategies in Wellness and Fitness

(3.0 Units) (No prerequisite. Advisory: Physical Education 116. Can be taken for credit as Health Education 119 or Physical Education 119. Credit will be awarded for only one course. Three lecture hours weekly.)

This course is designed to help students become more effective wellness and fitness professionals. Students will develop a toolbox of practical teaching, learning and evaluation methods to increase their ability to convey their knowledge to others in this field and more successfully impact their future clients, students or athletes. Can also be offered in a distance learning format. (CSU)
HED 130  Web Based Course - Contemporary Health Issues  
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
This Web based course will include, but not be limited to, the study of physical and psychological health, creating healthy relationships, avoiding and overcoming harmful habits, prevention of disease and developing healthy lifestyles. Specific topics may include managing stress, birth control, pregnancy, childbirth, sexually transmitted diseases including AIDS, drug, alcohol and tobacco use and abuse, nutrition and fitness, aging, environmental health and consumerism. (CSU/UC) CSU Area E

HED 139  Selected Topics  
(½-6 units)(Please see Selected Topics category.) (CSU w/limit)

HED 142  Growing Older: Physical, Psychological, and Social Aspects of Aging  
(3.0 Units) (No prerequisite. Can be taken for credit as Health Education 142 or Psychology 142. Credit will be awarded for only one course. Three lecture hours weekly.)
This course will examine the aging process in the contemporary world. Topics explored will include physical changes, psychological changes, and social changes occurring as people age; theories regarding why these changes occur; and how to maximize potential in these areas. Other topics will be work and retirement, death and bereavement, local and national resources for aging individuals, and myths associated with aging. (CSU/UC) AA/AS Area B, CSU Area E, IGETC Area 4

HED 249  Directed Study  
(1-3 units)(Please see Directed Study category.) (CSU w/limit)

HISTORY
History is an evolving record of human emotions, human aspirations, and human successes and failures. Historians deal with goals, fears, interests, and prejudices of people in the past and the impact of their thoughts and actions on the people of today and tomorrow. The study of history is a valuable adjunct for many careers both inside and outside of the social sciences.

And six additional units of degree-applicable social science courses identified as: Economics, Ethnic Studies, Geography, History, Political Science, and Social Science.

History Courses (HIST)

HIST 039  Selected Topics (Nondegree Applicable).  
(½-6 units)(Please see Selected Topics category.)

HIST 100  Major Trends and Selected Topics in American History  
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
History of the United States from its Native American and colonial background to the present. Social, economic, and political institutions and developments are examined. History 100 may fulfill the transfer requirement for those majoring in non-social science fields. Can also be offered in a distance learning format. (CSU/UC) AA/AS Area B or F, CSU Area D-6, IGETC Area 4, CSU US History, Constitution, and American Ideals
HIST 101 World History I: Origins of the Major Traditions
(4.0 Units) (No prerequisite. Four lecture hours weekly.)

Beginning with the earliest transitions of human societies to sedentary communities, this course investigates the original river-based civilizations of Mesopotamia, Egypt, India, and China; the evolution of early societies in Sub-Saharan Africa and the pre-Columbian Americas; major Eurasian states and empires of antiquity (Hellenic, Persian, Chinese, Indian, Roman); major pre-Columbian civilizations including Inca, Maya, and the Valley of Mexico; and the transformations of the post-classical world, with emphasis on the impacts of the universalizing traditions of Christianity, Islam and Buddhism. (CSU/UC) AA/AS Area B, CSU Area D-6, IGETC Area 4

HIST 102 World History II: Evolution of the Modern World
(4.0 Units) (No prerequisite. Four lecture hours weekly.)

Beginning with the overseas voyages of discovery during the 15th century C.E., this course traces the growing complexity of global interaction associated with early modern societies in their pre-industrial phases. The focus includes demographic, institutional, cultural, material, and epidemiological aspects of trans-continental and trans-oceanic exchanges. The second half of the course examines societies from a global perspective as they come to be transformed from the mid-18th century C.E. by the revolutionary forces of industrialization and secular ideologies (e.g. liberalism, conservatism, socialism, nationalism, fascism, terrorism), producing the rise and fall of states and empires, the unleashing of world wars and countless regional conflicts, and redefining the nature of a contemporary world increasingly globalized and interdependent, as well as fraught with perils and challenges. (CSU/UC) AA/AS Area B, CSU Area D-6, IGETC Area 4

HIST 103 Science, Technology, and Civilization
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This course is a nontechnical introduction to the history of science and technology, examining their impact on civilization, including significant social, political, religious, ethical, artistic and intellectual repercussions resulting from scientific and technological advances. Themes and topics include (but are not limited to) the Neolithic Revolution, ancient Greek mathematics and cosmology, Islamic civilization, Chinese alchemy, the Copernican Revolution and Newtonian synthesis, the industrial and biological revolutions of the eighteenth and nineteenth centuries, and twentieth century transformations (relativity, the atom, genes and DNA, cyberspace, string theory). (CSU/UC) AA/AS Area B, CSU Area D-6 or D-7, IGETC Area 4

HIST 109 History of California
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

A survey of California’s past through the Native American, Spanish, Mexican, and American periods. Among the topics covered are the California missions, the Gold Rush era, San Francisco’s “Victorian” era, and recent political, economic, and social developments. (CSU/UC) AA/AS Areas B & G, CSU Area D-6, IGETC Area 4

HIST 110 Western Civilization I: to 1350
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This course examines Western Civilization from its Middle Eastern origins through the classical Greek and Roman civilizations and the Middle Ages. Note: History 110, 111, and 112 may be taken in any sequence and require no prerequisites. They are especially recommended for students who intend to pursue their education toward a Bachelor’s degree. (CSU/UC) AA/AS Area B, CSU Area D-6, IGETC Area 4, CAN HIST SEQ A = Hist 110 + 111 + 112

HIST 111 Western Civilization II: 1350 to 1815
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This course examines Western Civilization during the Renaissance, the Enlightenment, through the French Revolution and the Napoleonic era, concluding with the Congress of Vienna. Note: History 110, 111, and 112 may be taken in any sequence and require no prerequisites. They are especially recommended for students who intend to pursue their education toward a Bachelor’s degree. (CSU/UC) AA/AS Area B, CSU Area D-6, IGETC Area 4, CAN HIST SEQ A = Hist 110 + 111 + 112

HIST 112 Western Civilization III: the 19th and 20th Centuries
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

A study of Western Civilization during the nineteenth and twentieth centuries beginning with the Congress of Vienna and concluding with the contemporary world. This course will examine issues such as the growth of an industrial civilization, nationalism and imperialism, the interaction of the West with the non-Western world, and idealism and realism while using the experience of Western Civilization. Analysis will involve the search for artifacts such as continuity and change in patterns of development and motivation. Note: History 110, 111, and 112 may be taken in any sequence and require no prerequisites. They are especially recommended for students who intend to pursue their education toward a Bachelor’s degree. (CSU/UC) AA/AS Area B, CSU Area D-6, IGETC Area 4, CAN HIST SEQ A = Hist 110 + 111 + 112

HIST 117 History of the United States I
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

A survey of the economic, political, social, and cultural evolution of the United States from its pre-Columbian beginnings through the Civil War. History 117 and 118 are recommended (instead of History 100) or required for majors and minors in history, teaching, social science, pre-legal, and certain other areas. (CSU/UC) AA/AS Area B or F, CSU Area D-6, IGETC Area 4, CAN HIST 8, CAN HIST SEQ B = Hist 117 + 118, CSU US History, Constitution, and American Ideals
HIST 118 History of the United States II
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
A survey of the economic, political, social, and cultural evolution of the United States from 1865 to the present. History 117 and 118 are recommended (instead of History 100) or required for majors and minors in history, teaching, social science, prelegal, and certain other areas. (CSU/UC) AA/AS Area B or F, CSU Area D-6, IGETC Area 4, CAN HIST 10, CAN HIST SEQ B = Hist 117 + 118, CSU US History, Constitution, and American Ideals

HIST 125 Research Methods and Term Papers in History
(3.0 Units) (No prerequisite. Advisory: Competence in written language skills comparable to eligibility for English 150. Students may receive credit for this course as Economics 125, Ethnic Studies 125, History 125, Political Science 125 or Social Science 125. Credit will be awarded for only one discipline. Three lecture hours weekly.)

This course focuses on the elements of critical thinking and methods of research in the social sciences and develops skills required to organize such thought and research into effective, college-level presentations. Various social science faculty members will offer their expertise to students on an individual basis as they develop their presentations. Students are encouraged to select areas of research from other courses taken during the semester or from areas of special interest including politics, history, economics, education, women's studies, ethnic studies, current issues, and issues of community concern. (CSU/UC) CSU Area A-3

HIST 139 Selected Topics
(1/6 units) (Please see Selected Topics category.) (CSU/UC w/limit)

HIST 206 History of Russia
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
This course surveys Russian history from the earliest times through the collapse of the Soviet Union and the emergence of its successor states. Emphasis is on both the unique features of Russia's past and on the commonalities Russian history shares with the histories of other societies and traditions. Continuities and the discontinuities in social, political, economic, cultural, and intellectual heritage are examined, as well as “East-West” relations. Special attention is given to the nature and demise of the Soviet Union, and to the transitional and successor states of the late twentieth and early twenty-first centuries. (CSU/UC) AA/AS Area B, CSU Area D-6, IGETC Area 4

HIST 214 History of Latin America
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
A historical survey of Latin America beginning with pre-Columbian societies. The survey investigates European colonization, colonial culture combined with native culture and national emergence in the nineteenth century. It also covers the economic maturity of the twentieth century, the emergence of indigenous culture, and Latin America's striving for independent identity. (CSU/UC) AA/AS Area B, CSU Area D-6, IGETC Area 4

HIST 215 History of England
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
This survey course covers the full sweep of English political, economic, cultural, and social history from pre-Roman times to the present and its powerful influence on the English-speaking world. Among the primary themes addressed are the evolution of parliamentary democracy and constitutional monarchy, the role and significance of religious strife, the development of the industrial revolution, and the advent of imperial expansion and decline. (CSU/UC) AA/AS Area B, CSU Area D-6, IGETC Area 4

HIST 216 History of Mexico
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
A study of Mexico beginning with the pre-Columbian societies. This course studies the social, cultural, and political changes under Spanish colonization that led to the independence movements and a search for national identity. The revolutionary events leading to the Constitution of 1917 opened a new era. In the later twentieth century, the industrialization of the country accelerated and complicated Mexican development. (CSU/UC) AA/AS Area B, CSU Area D-6, IGETC Area 4

HIST 238 History of Africa
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
A historical and political survey course of the African continent from the early geographical and anthropological background to contemporary African developments in the twenty-first century. The course is designed to provide a basis for understanding the historical background, cultural continuity, and political developments that have shaped the various peoples, countries, and regions of Africa. The course will focus on key themes of unity with diversity, the influences of geography and trade, Nile Valley cultures, Africa's contacts with Europe and Asia, the influences of colonialism and independence, and the global realities of twenty-first century Africa. (CSU/UC) AA/AS Area B, CSU Area D-6, IGETC Area 4

HIST 249 Directed Study
(1-3 units) (No prerequisite. Please see Directed Study category.) (CSU/UC w/limit)

HUMANITIES
Courses in humanities enable students to seek an understanding of a broad cross section of cultural experience through such disciplines as literature, art, and other visual forms.

Career Options
Classict, Journalist, Minister, Peace Corps Worker, Teacher

Faculty

Transfer
Students planning to transfer to a four-year institution should complete the lower division major requirements and general
education pattern for the appropriate transfer institution and major. Exact major requirements for UC and CSU institutions can be found on www.assist.org. Please see a counselor for more information as curriculum requirements may vary among transfer universities.

**A.A. in Humanities**

The Humanities Program creates a broad base for the humanities major. The program also allows liberal arts students the opportunity to create an interdisciplinary major based on a particular interest.

Please note: Students are required to complete English 150 for the Associate degree. All students should consult a counselor.

### Requirements

#### Nine units in humanities to be chosen from the following:

- **HUM 100A** Introduction to Humanities: Ancient Greece to the Medieval Period 3
- **HUM 100B** Introduction to Humanities: Renaissance to the Modern Period 3
- **HUM 114** The Long Search: An Introduction to the World's Religions 3

Or

- **HUM 118** Introduction to World Religion 3
- **HUM 125** Myth, Symbol, and the Arts 3

**In addition, nine units to be chosen from the following:**

(Please note: Students may not repeat courses chosen from the humanities courses listed above.)

#### Architectural History

- **ARCH 100** History of Architecture I 3
- **ARCH 101** History of Architecture II 3
- **ARCH 102** History of Architecture III 3

#### Art History

- **ART 101** History of Ancient Art 3
- **ART 102** History of European Art 3
- **ART 103** History of Modern Art 3
- **ART 104** History of Asian Art 3
- **ART 105** History of Recent American Art 3
- **ART 106** History of Women Artists 3
- **ART 107** History of American Art 3
- **ART 108** Arts of the Americas 3

Or

- **ETST 108** Arts of the Americas 3

Or

- **HUM 108** Arts of the Americas 3

#### Dance History

- **DANC 108** Dance History: Dancing – The Pleasure, Power, and Art of Movement 3

#### Film History and Criticism

- **HUM 109A** History of Film: Beginning to 1950 4
- **COMM 109A** History of Film: Beginning to 1950 4
- **HUM 109B** History of Film: 1950 to Present 4
- **COMM 109B** History of Film: 1950 to Present 4

#### History of Theatre

- **DRAM 110** Introduction to the Theatre 3
- **DRAM 112** Drama: Play, Performance Perception 3
- **DRAM 116** Survey of Dramatic Literature: Ancient Greek to the Present 3
- **DRAM 117** Survey of Dramatic Literature: Shakespeare and His Theatre 3

#### Humanities

- **HUM 100A** Introduction to Humanities: Ancient Greece to Medieval Period 3
- **HUM 100B** Introduction to Humanities: Renaissance to the Modern Period 3
- **HUM 107** Humanities through the Arts 3
- **HUM 114** The Long Search: An Introduction to the World’s Religions 3

Or

- **HUM 118** Introduction to World Religion 3
- **HUM 125** Myth, Symbol, and the Arts 3

#### Literature

- **ENGL 212** Introduction to Poetry 3
- **ENGL 218** The American Short Story 3
- **ENGL 219** Voices and Visions 3
- **ENGL 220** Detective Fiction 3
- **ENGL 221** Survey of American Literature 3
- **ENGL 222** Survey of English Literature I 3
- **ENGL 223** Survey of English Literature II 3
- **ENGL 224** Survey of World Literature I 3
- **ENGL 225** Survey of World Literature II 3
- **ENGL 230** Survey of Shakespeare 3
- **ENGL 235** Women in Literature 3

#### Music History

- **MUS 101** Introduction to Classical Music 3

#### Philosophy

- **PHIL 110** Introduction to Philosophy 3
- **PHIL 111** Introduction to Philosophy 3
- **PHIL 117** History of Philosophy: Late Modern to Contemporary 3

#### Humanities Courses (HUM)

**HUM 039** Selected Topics (Nondegree Applicable)

(½–6 units) (Please see Selected Topics category.)

**HUM 100A** Introduction to Humanities: Ancient Greece to the Medieval Period

(3.0 Units) (Prerequisite: Eligibility for English 120. Three lecture hours weekly.)

This humanities sequence is designed to introduce students to Western culture. The course focuses on Greek and Roman culture: the epics, philosophy, and architecture of these periods. Students will study the themes and conflicts that the modern world has inherited. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B
HUM 100B Introduction to Humanities: Renaissance to the Modern Period
(3.0 Units) (Prerequisite: Eligibility for English 120. Three lecture hours weekly.)

This humanities sequence is designed to introduce students to Western culture. This course begins in the late medieval period, focusing on the developing Renaissance and the impact on Europe’s “rebirth” of Asian and Arabic ideas. The scientific revolution of Shakespeare’s England and the political revolutions of the seventeenth and eighteenth centuries constitute the next third of the class. The last section includes Romanticism, the new paradigms of Freud, Marx, and Darwin, and concludes with the Age of Anxiety. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

HUM 107 Humanities Through the Arts
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This course surveys the full range of artistic expression from ancient times to the present, examining the relation between human creativity and the larger cultural setting. Through 15 hours of videotaped programs hosted by poet Maya Angelou, students can observe how various art forms—painting and music, sculpture and architecture, drama and film—all reflect humankind’s continuing quest for dignity and meaning. This self-paced course offers the non art specialist an accessible introduction to the interplay of art forms evolving over the centuries. (CSU/UC) AA/AS Area C, IGETC Area 3B

HUM 108 Arts of the Americas
(3.0 Units) (No prerequisite. Can be taken for credit as Humanities 108, Art 108 or Ethnic Studies 108. Credit will be awarded for only one course. Three lecture hours weekly.)

A survey of the arts and architecture of the Americas—North, Central, Caribbean, and South America—focusing on a selection of works from the major pre-Columbian, Spanish Colonial, and modern cultures. Art of the United States will focus on works from the culturally diverse peoples of the Bay Area. (CSU/UC) AA/AS Areas C & G, CSU Area C-1, IGETC Area 3A

HUM 109A History of Film: Beginning to 1950
(4.0 Units) (No prerequisite. Can be taken for credit as Humanities 109A or Communications 109A. Credit will be awarded for only one course. Four lecture hours weekly.)

This course offers a chronological survey of narrative film as art, business, technology, and politics from the beginning of the movies in the 1890s to post World War II. Periods and movements covered will include the Silent Era, German Expressionism, Soviet Avant Garde and editing of the 1920s, French classicism, American Studio Period and sound, as well as the history of censorship in the United States. Classroom screenings of representative films. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A

HUM 109B History of Film: 1950 to the Present
(4.0 Units) (No prerequisite. Can be taken for credit as Humanities 109B or Communications 109B. Credit will be awarded for only one course. Four lecture hours weekly.)

This course offers a chronological survey of narrative film as art, business, technology, and politics from 1950 to the present. Periods and movements covered will include the American Studio Period, 1950s Film Noir and subversive movements, Italian Neorealism, French Nouvelle Vague, National Cinemas of Sweden, England, Czech Golden Age, Poland, Hungary, Japan, India, China, Iran, The New German Film, Third World Cinemas; Australia, the Hollywood Renaissance of the 1960s and 1970s, Dogma 95, and independent film movements. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3B

HUM 114 The Long Search: An Introduction to the World’s Religions
(3.0 Units) (Prerequisite: Eligibility for English 120. Students may receive credit for Humanities 114 or 118, but not for both courses. Three hours weekly.)

Thirteen one-hour cassettes in this series trace the journey of a lone traveling host on his global search for religious understanding. Along the way he witnesses the modern interpretation of new and ancient religions, studying each religion’s history as well as its relationship to the host society. The 12 major religions are presented in a unique and imaginative documentary style. Class meetings with the instructor will augment the videocassette tapes with lecture and discussion. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

HUM 118 Introduction to World Religions
(3.0 Units) (Prerequisite: Eligibility for English 120. Students may receive credit for Humanities 118 or 114, but not for both courses. Three lecture hours weekly.)

This course is an introduction to the major religious traditions of the world and the spiritual practices of preliterate or primal religions. The course will focus equally on East and West, principles and practice, history and psychology. Examples of the art, music and literature of Hinduism, Buddhism, Islam, Chinese Religion, Judaism, Christianity and primal religions will be presented to enhance the experience and understanding of the religions. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

HUM 125 Myth, Symbol, and the Arts
(3.0 Units) (Prerequisite: Eligibility for English 150. Three lecture hours weekly.)

Study of myth and folklore from a variety of cultures in order to see:
1) the function and role of myth in culture;
2) how mythic symbols work in literature and the arts; and,
3) how these symbols have a psychological and cultural relevance to people today.

(CSU/UC) AA/AS Area C, CSU Area C-2
HUM 128  Art Field Trips  
(1-4 Units) (No prerequisite. Can be taken for credit as Humanities 128 or Art 128 or Ethnic Studies 128. Credit will be awarded for only one course. Three quarter lecture and three quarter laboratory hours weekly for one unit, one and one half lecture and one and one half laboratory hours weekly for two units, two and one quarter lecture and two and one quarter laboratory hours weekly for three units, and three lecture and three laboratory hours weekly for four units.)

A complement to art history and studio art courses, this course allows students to experience the art and architecture of sites like New York, Mexico City, and Rome firsthand. Pretrip lectures will set up background for an intensive field trip(s) that may include visits to museums, galleries, libraries, artists’ studios, and to architectural and archeological sites where lecture, discussion, and personal exploration will take place. May be used to bring students to a major media specific conference. May be taken four times for credit. (CSU)

HUM 242  Global Writings  
(3.0 Units) (Prerequisite: English 120. Can be taken for credit as Humanities 242 or English 242. Credit will be awarded for only one course. Three lecture hours weekly.)

The cultural diversity and complex histories of the nations composing the contemporary international world are revealed in a variety of forms of writings from the twentieth century. Discussion and analysis of representative texts focus on colonial exploitation, political domination, liberation, formations of racism, gender inequality, expressions of cultural power, ethnic conflict and division, immigration and migrancy, and processes of globalization. It is recommended for majors in International Relations. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

HUM 139  Selected Topics  
(½-6 units)(Please see Selected Topics category.) (CSU/UC w/limit)

HUM 249  Directed Study  
(1-3 units)(Limit to Enrollment: Successful completion of at least three units in humanities.)

A tutorial allowing the student to explore, through individual research, some intellectual problem or some academic area to be investigated in-depth. The student plans and executes a project under the direction of a faculty member willing to act as tutor and qualified to supervise within the academic area relevant to the student’s project. Evaluation is made through conferences and written reports; hours and number of reports are determined by the instructor in consultation with the student. May be taken more than once for credit. (CSU/UC w/limit)

ITALIAN  
A major reason for studying the Italian language is the enrichment of one’s intellectual growth in the context of the rest of the world. In learning Italian one also learns about the culture, philosophy, and civilization of another people, thereby broadening understanding of the world. On the practical side, any field of specialization (journalism, medicine, law, business, teaching) is enhanced if one can speak another language. In California, knowledge of a modern language is now required in many jobs that deal with the public such as Civil Service, social work, nursing, and other service-oriented fields.

Career Options

Policy Statement Regarding Sequence of Enrollment in Modern Language Classes  
Although students are advised to enroll in language courses sequentially, they will not be precluded from enrolling in lower level language classes after completion of more advanced courses. Students should be aware, however, that units resulting from the lower level courses may not be accepted at transfer institutions as a part of the required transferring units.

Transfer  
Students planning to transfer to a four-year institution should complete the lower division major requirements and general education pattern for the appropriate transfer institution and major. Exact major requirements for UC and CSU institutions can be found on www.assist.org. Please see a counselor for more information as curriculum requirements may vary among transfer universities.

Italian Courses (ITAL)  
All Italian courses can be taken for a letter grade or credit/no credit. In general, courses required for a transfer student’s four-year major should be taken on a letter grade basis.

ITAL 039  Selected Topics (Nondegree Applicable)  
(½-6 units)(Please see Selected Topics category.)
ITAL 101  Elementary Italian I  
(5.0 Units) (No prerequisite. Four lecture and three laboratory hours weekly.)  
For beginners and for those who have had only one year of high school Italian. A beginning course which offers study and practice in speaking, understanding, reading, and writing Italian. Exploration of cultural aspects of the Italian people. The three-hour weekly laboratory requirement enhances the student's verbal and comprehension skills through the use of audiovisual materials. Can also be offered in a distance learning format. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 6A: UC Language other than English

ITAL 102  Elementary Italian II  
(5.0 Units) (Prerequisite: Italian 101. Four lecture and three laboratory hours weekly.)  
Further emphasis on the structure of the language, verbal communication, and understanding the Italian culture. Continued use of the language laboratory for further mastery of the language. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B or 6A: UC Language other than English

ITAL 108  Italian Literature in Translation/Selected Topics  
(1.0 Unit) (No prerequisite. One lecture hour weekly.)  
This class offers an intensive study of one literary era or selected work within Italian literature in any given semester or summer session. The class will be offered in English translation. Subjects of study change, but will include such topics as the following:  
- “The Divine Comedy” by Dante Alighieri, and the Middle Ages;  
- The Literature of the Italian Resistance 1945-60;  
- The Literature of Italian Feminism; and  
- The Literary Theater of Nobel Prize Winner Dario Fo.  
Check current schedules for particular topic offered. Italian 108 may be taken more than once for credit provided the same topic is not repeated. (CSU/UC) AA/AS Area C (three units)

ITAL 110  Conversational Italian I  
(4.0 Units) (No prerequisite. Three lecture and three laboratory hours weekly.)  
Use of modern colloquial Italian in conversation and the study of elementary grammar. Designed for students who wish to acquire skills of the spoken language with a minimum of formal grammar. Continued oral practice in speaking, understanding, and correct pronunciation of Italian, using audiovisual materials depicting everyday situations. (CSU)

ITAL 114  Conversational Italian III  
(4.0 Units) (Prerequisite: Italian 102 or 112. Three lecture and three laboratory hours weekly.)  
Continued use of modern colloquial Italian in conversation and the study of elementary grammar. Designed for students who wish to acquire skills of the spoken language with a minimum of formal grammar. Continued oral practice in speaking, understanding, and correct pronunciation of Italian, using audiovisual materials depicting everyday situations. (CSU)

ITAL 139  Selected Topics  
(½-6 units) (Please see Selected Topics category.) (CSU/UC w limit)

ITAL 203  Intermediate Italian III  
(5.0 Units) (Prerequisite: Italian 102. Four lecture and three laboratory hours weekly.)  
In-depth study of the language with grammar review, composition, and introduction to literature. The language laboratory offers the use of audiovisual materials for improved fluency and accuracy in pronunciation as well as the presentation of cultural and literary topics. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B or 6A: UC Language other than English

ITAL 204  Intermediate Italian IV  
(4.0 Units) (Prerequisite: Italian 203. Four lecture hours weekly.)  
Continuation of study and practice in speaking, understanding, reading, and writing Italian. Completion of in-depth review of Italian grammar, as well as readings in literature, history, and culture of the Italian people. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B or 6A: UC Language other than English

ITAL 225  Advanced Italian I  
(3.0 Units) (Prerequisite: Italian 204. Three lecture hours weekly for each course.)  
Courses aimed at expanding the student's knowledge of the Italian language and civilization through the study of grammar and literature. Emphasis is placed on acquiring an advanced level of verbal expression in conversation, reading, and writing. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B or 6A: UC Language other than English

ITAL 226  Advanced Italian II  
(3.0 Units) (Prerequisite: Italian 204. Three lecture hours weekly for each course.)  
Courses aimed at expanding the student's knowledge of the Italian language and civilization through the study of grammar and literature. Emphasis is placed on acquiring an advanced level of verbal expression in conversation, reading, and writing. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B or 6A: UC Language other than English
ITAL 249  Directed Study
(1-3 units) (Please see Directed Study category.) (CSU/UC w/limit)

JAPANESE

A major reason for studying the Japanese language is the enrichment of one’s intellectual growth in the context of the rest of the world. In learning Japanese, one also learns about the culture, philosophy, and civilization of another people, thereby broadening understanding of the world. On the practical side, any field of specialization (journalism, medicine, law, business, teaching) is enhanced if one can speak another language. In California, knowledge of a modern language is now required in many jobs that deal with the public such as Civil Service, social work, nursing, and other service-oriented fields.

Exact major requirements for UC and CSU institutions can be found on www.assist.org. Please see a counselor for more information as curriculum requirements may vary among transfer universities.

Japanese Courses (JPNS)
All Japanese courses can be taken for a letter grade or credit/no credit.

In general, courses required for a transfer student’s four-year major should be taken on a letter grade basis.

JPNS 039  Selected Topics (Nondegree Applicable)
(½-6 units) (Please see Selected Topics category.)

JPNS 101  Elementary Japanese I
(5.0 Units) (No prerequisite. Four lecture and three laboratory hours weekly.)
A beginning course offering study and practice in speaking, understanding, reading and writing Japanese, along with an exploration of the cultural aspects of Japan and the Japanese. The weekly laboratory requirement enhances students’ verbal and listening comprehension skills through use of the audiovisual materials. Can also be offered in a distance learning format. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 6A: UC Language other than English

JPNS 102  Elementary Japanese II
(5.0 Units) (Prerequisite: Japanese 101. Four lecture and three laboratory hours weekly.)
Further emphasis is placed on the structure of the language, verbal communication, and understanding of Japanese culture. Continued use of the language laboratory for further mastery of the language. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B or 6A: UC Language other than English

JPNS 105A  Japanese Kanji
(1.0 Unit) (Advisory: Japanese 101. Twenty lecture hours per semester.)
Intensive study of Kanji characters to increase competence in reading and writing Japanese and understanding authentic materials. (CSU)

JPNS 108  Japanese Conversation through the Movies
(1.0 Unit) (Prerequisite: Japanese 101. Two and one-quarter lecture hours for eight weeks.)
This class offers an intensive study of practical Japanese conversation in any given semester or summer session. The class is offered in English and Japanese. Subjects of study will change, but will include such topics as the following: Everyday conversation among in-groups (husband-wife, friend-friend, among the family), everyday conversation among out-groups (superior-inferior, among the unknowns), nonverbal communications, and culturally correct Japanese conversation. Check current schedule for particular focus offered. May be taken more than once for credit provided the same topic is not repeated. (CSU) AA/AS Area C (three units)

JPNS 110  Conversational Japanese
(4.0 Units) (No prerequisite. Three lecture and three laboratory hours weekly.)
Use of modern colloquial Japanese in conversation and the study of elementary grammar. Designed for students who wish to acquire skills of the spoken language with a minimum of formal grammar. Oral practice in speaking, understanding and correct pronunciation of Japanese using audiovisual materials depicting everyday situations. May also be offered in a distance learning format. (CSU)

JPNS 112  Conversational Japanese II
(4.0 Units) (Prerequisite: Japanese 101 or 110. Three lecture and three laboratory hours weekly.)
Use of modern colloquial Japanese in conversation and the study of elementary grammar. Designed for students who want to learn at a faster pace in the spoken language with a minimum of formal grammar. Use of audio materials improves accuracy and fluency in pronunciation. (CSU)
JPNS 139  Selected Topics
(0.5-6 Units) (Please see Selected Topics category.)
(CSU/UC w/limit)

JPNS 203  Intermediate Japanese III
(5.0 Units) (Prerequisite: Japanese 102. Four lecture and three laboratory hours weekly.)
In-depth study of the language with grammar review, composition, and introduction to literature. The language laboratory offers the use of audiovisual materials for improved fluency and accuracy in pronunciation as well as the presentation of cultural and literary topics. (CSU/UC) AA/AS Area C, IGETC Area 6A: UC Language other than English

JPNS 204  Intermediate Japanese IV
(4.0 Units) (Prerequisite: Japanese 203. Four lecture hours weekly.)
In-depth study of the language with grammar review, composition, and introduction to literature. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

JPNS 249  Directed Study
(1-3 units) (Please see Directed Study category.) (CSU/UC w/limit)

JOURNALISM
The main goals of journalism courses are to prepare students to become accurate and thorough researchers and precise writers. The discipline emphasizes the need to think and write clearly and has a two-fold purpose: to prepare students for careers in newspaper work, television, and radio news or public relations, and to provide a study of mass media communications for students who desire to enhance their liberal education.

Career Options
Advertising Copywriter, Broadcaster, Feature Writer, Newspaper Writer, Photojournalist, Print Journalist, Public Relations Worker, Publications Editor, Publicist: Trade/Business/Labor, Writer/Editor

Transfer
Students planning to transfer to a four-year institution should complete the lower division major requirements and general education pattern for the appropriate transfer institution and major. Exact major requirements for UC and CSU institutions can be found on www.assist.org. Please see a counselor for more information as curriculum requirements may vary among transfer universities.

Journalism Courses (JOUN)

JOUN 039  Selected Topics (Nondegree Applicable)
(½-6 units) (Please see Selected Topics category.)

JOUN 110  Introduction to Mass Communication
(3.0 Units) (No prerequisite. Advisory: Economics 125 or Ethnic Studies 125 or History 125 or Political Science 125 or Social Science 125. Students may receive credit for Journalism 110 or Communications 110, but not for both courses. Three lecture hours weekly.)
A critical, historical survey of mass media from a humanities and social science perspective including print (newspapers, magazines, books), broadcast (radio and television), film, audio recording, images, news gathering and reporting, public relations, advertising, media rights and responsibilities, media ethics and impact, audience and feedback, cybermedia, and global media. Students will examine form, content, and consequences of mass media in our society. Designed for general education, career exploration, and consumer understanding of the interaction and influences among and between media and our culture. Can also be offered in a distance learning format. (CSU/UC) AA/AS Area C, CSU Area D-7, IGETC Area 4, CAN JOUR 4

JOUN 115  News Reporting/Writing
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
This lecture/discussion course introduces students to the modern media, including newspapers, wire services, television, radio, magazines, public relations, advertising, and photojournalism. The principal focus is on writing and reporting for newspapers. Major topics include information about the newsroom, ingredients of news, qualities of good writing, summary and special leads, organizing a news story, quotations and attribution, interviewing, gathering information, features, press releases, obituaries, weather, disaster and developing stories, press conferences and speeches, beats, advanced assignments, and legal and ethical ramifications of reporting. Skills in news writing and reporting are developed through writing stories for the student newspaper or other media. The goals of the course are to provide students with opportunities to develop knowledge and skills in news writing and reporting, and attitudes appropriate to news writers and reporters as well as consumers of mass media. (CSU)

JOUN 122  Newspaper Production, Writing
(2.5 Units) (No prerequisite. Seven and one-half laboratory hours weekly.)
This laboratory course gives students an opportunity to apply their knowledge in news writing and reporting, including qualities of good writing, summary and special leads, organizing a news story, quotations and attribution, interviewing, and gathering information. It also allows students to develop their knowledge and skills in the fundamentals of headlines, text, photos, and cutlines; story design; page design for a tabloid format; photos and art; packaging, including flags, standing heads, logos and signs, lift-out quotes, decks, bylines, credit lines, etc.; special effects; and infographics. Students in this course serve as the editorial board of the student newspaper. Together with students in Newspaper Production, they produce the student newspaper. Combinations of Journalism 122 and 123 may be taken a total of four times for credit. (CSU)
JOUN 123  Newspaper Production  
(2.5 Units) (No prerequisite. Seven and one-half laboratory hours weekly.)  
This laboratory course gives students who wish to help produce the student newspaper, but who do not wish to be writers for the paper, an opportunity to develop their knowledge and skills in a variety of newspaper-related functions. These functions include: advertising, circulation, graphics, photography, desktop publishing, and word processing. Students may select a specialty or specialties each semester, either gaining enhanced skills in one specialty or gaining skills in different specialties. In addition, students will acquire knowledge and skills in newspaper design, including fundamentals of headlines, text, photos, and cutlines; story design; page design for a tabloid format; photos and art; packaging; special effects; and infographics. Together with students in Newspaper Production, Writing, they produce the student newspaper. Combinations of Journalism 122 and 123 may be taken a total of four times for credit. (CSU)

JOUN 125  Broadcast Journalism  
(3.0 Units) (No prerequisite. Three lecture hours weekly.)  
This course is designed to introduce beginning broadcasters to writing news for broadcast and to refresh the skills of experienced news broadcasters who want to improve their styles. It is designed to give students an overview of news broadcasting and to encourage them to hone their skills and discover where they can adapt best to the process. The course covers the skills of writing, reporting, recording, photographing, editing, producing, and performing for broadcast. It also covers knowledge of the laws that affect broadcast news, and the cultivation of a sense of journalism ethics. (CSU)

JOUN 139  Selected Topics  
(0.5-6 Units) (Please see Selected Topics category.) (CSU w/limit)

JOUN 160  Images of Women and Minorities in American Media  
(3.0 Units) (No prerequisite. Can be taken for credit as Journalism 160 or Communications 160. Credit will be awarded for only one course. Three lecture hours weekly.)  
This course will address a variety of entertainment and news content in print and electronic media. In studying the social construction of race and gender, we will consider and investigate all sides of issues. The focus of this course is on contemporary media texts examined within their historical context. Students will learn methods of media analysis and apply them to the study of various media texts. Additionally, we will explore the connections among media representations of race and gender and other social constructions, which will include class, ethnicity, sexual orientation, age, and disability. In coversing race, the course will address the experiences of African-Americans, Native Americans, Asian-Americans, Arab-Americans, and Latinos in the United States. With regard to gender, this course will address the social construction of femininity as well as masculinity. (CSU/UC) AA/AS Areas C & G, CSU Area C-2, IGETC Area 4

JOUN 249  Directed Study  
(1-3 units)(Please see Directed Study category.) (CSU w/limit)

LIBRARY

Learning the techniques of library research will enable students to make use of this resource with confidence and efficiency. Library Skills courses enable students to manage information in an era of information explosion, whether their interests are academic, professional, or personal.

Faculty  
Carl Cox, John Matthew Priewe, Joan C. Risch  
Department Phone: (415) 485-9475

Library Courses (LIBR)

LIBR 039  Selected Topics (Nondegree Applicable)  
(½-6 units)(Please see Selected Topics category.)

LIBR 110  Introduction to Library Resources: A Self-Directed Approach  
(1.0 Unit) (No prerequisite. Self-paced. No regularly scheduled class meetings. Completion of the course represents approximately eighteen to thirty-six hours of academic work.)  
A self-paced course that facilitates the use of the library and teaches the basic skills needed for library research. The resources studied and the skills learned are applicable to any library - academic, public or special. Information sources covered in this course include the card catalog; important reference works such as encyclopedias, dictionaries, and almanacs; periodicals, periodical indexes, and book reviews. Students may work on assignments whenever the college library is open, consulting with the instructor and other library faculty as needed. Enrollment is open through the first half of the semester. Recommended especially for students working on research projects for other classes. (CSU/UC)

LIBR 115  Library Research Methods  
(1.0 Unit) (No prerequisite. Advisory: Library 110. Self-paced. Completion of the course represents approximately eighteen to thirty-six hours of academic work.)  
A self-paced course in research methods and techniques for students who have already taken the introductory library course. Practice in the use of the more specialized reference books and periodical indexes. Concentrates on a methodology of research and on timesaving techniques. Students may work on assignments whenever the college library is open, consulting with the instructor and other library faculty as needed. Enrollment is open through the first half of the semester. (CSU/UC)

LIBR 139  Selected Topics  
(½-6 units)(Please see Selected Topics category.) (CSU w/limit)

LIBR 249  Directed Study  
(1-3 units)(Please see Directed Study category.) (CSU w/limit)
Machine and Metals Technology Courses (MACH)

MACH 039  Selected Topics (Nondegree Applicable)
(½-6 units)(Please see Selected Topics category.)

MACH 090  Machine and Metals Careers: A Hands-On Workshop
(1.0 Unit) (No prerequisite. Two and one half lecture hours and one laboratory hour weekly for six weeks.)

A lecture/demonstration and lab workshop course designed to acquaint students with the possibilities of the machine and metals trade as a career choice. Students will see demonstrations of lathes, milling machines, and assorted shop equipment, and will engage in hands-on machining. There will be welding and computer machining demonstrations and a visit to a local manufacturing plant. Women are especially encouraged to enroll.

MACH 097  Machine Trades Math
(2.0 Units) (No prerequisite. Two lecture hours weekly.)

A course designed to present the mathematical principles and operations necessary for successful involvement in the machine tool trades. Examples and exercises are taken directly from shop practices. May be taken three times for credit.

MACH 110  Machine Tool Technology I
(6.0 Units) (No prerequisite. Two lecture and twelve laboratorv hours weekly.)

This course covers fundamental theory and application of machine shop tools and industrial power equipment. Students are introduced to bench work, floor work, assembly, precision measurement, and the properties of metallic materials. Technical study and practice in the use of lathes, drilling machines, grinders, saws, and milling machines are an integral part of this course. May be taken three times for credit. (CSU)

MACH 111  Machine Tool Technology II
(6.0 Units) (Prerequisite: Machine and Metals Technology 110. Two lecture and twelve laboratorv hours weekly.)

This course includes study and practice in the technology of metal machining, introduction to the design of machines and cutting tools, manufacture of machine parts requiring increased skills, theory of basic metallurgy, introduction to production processes and production machines. May be taken three times for credit. (CSU)

MACH 120  Machine Technology I
(3.0 Units) (No prerequisite. Two lecture and three laboratorv hours weekly.)

A survey course in the principles of general machine shop processes utilizing lathes, milling machines, surface grinders and drilling machines; practice in general bench operations and the use of precision measuring and machining instruments. May be taken three times for credit. (CSU)
MACH 121  Machine Technology II  
(2.0 Units) (Prerequisite: Machine and Metals Technology 120. One lecture and three laboratory hours weekly.)

This course builds upon the fundamentals established in Machine and Metals Technology 120. Emphasizes the development of advanced machining techniques utilizing lathes, milling machines, grinders, and drilling machines. Perfecting manipulative skill, competency, and machine tool theory is stressed. May be taken three times for credit. (CSU)

MACH 130  Welding I  
(2.0 Units) (No prerequisite. One lecture and three laboratory hours weekly.)

Fundamental theory and application of welding shop tools and power equipment. Introduction to oxy-fuel welding and cutting, manual shielded arc (stick), and welding in the flat and horizontal positions. Technical study and practice in the safe use of gases, grinders, torches, and arc welders. May be taken three times for credit. (CSU)

MACH 131  Welding II  
(2.0 Units) (Prerequisite: Machine and Metals Technology 130. One lecture and three laboratory hours weekly.)

Introductory theory and application of the MIG, TIG, and Plasma processes. Advanced stick welding on plate in all positions. May be taken three times for credit. (CSU)

MACH 139  Selected Topics  
(0.5-6 Units) (Please see Selected Topics category.) (CSU w/limit)

MACH 140  Intermediate Machine Tool Processes  
(4.0 Units) (No prerequisite. Advisory: Machine and Metals Technology 120. Two lecture and six laboratory hours weekly.)

This course is an intermediate level practice and theory of metal removal and fabrication, emphasizing the use of lathes, milling machines, grinders, and drills. Theoretical considerations include measurement, layout and planning, cutting tool theory, feeds and speeds, tooling, heat treatment, and numerical control overview. May be taken twice for credit. (CSU)

MACH 145  Computer Numerical Control Machining/Mill  
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

A course in the theoretical principles and practical applications of computer numerical control with CAD-CAM applied to the milling machine and machine centers. May be taken twice for credit. (CSU)

MACH 155  Computer Numerical Control Machining/Lathe  
(3.0 Units) (No prerequisite. Advisory: Machine and Metals Technology 145. Three lecture hours weekly.)

A lecture and demonstration course presenting the principles of modern computer numerical control practice on lathes and horizontal machining centers. Students learn to program, edit, and set up equipment. CAD-CAM software use will be covered. May be taken three times for credit. (CSU)

MACH 165  Blueprint Reading for the Machine  
(2.0 Units) (No prerequisite. Two lecture hours weekly.)

This course provides instruction in blueprint reading for machinists and for related mechanical trades. Course material covered will include view visualization, dimensioning methods, terminology and standards, and geometric tolerancing. Metrics and welding symbology will be included. (CSU)

MACH 220  Machine Tool Technology III  
(7.0 Units) (Prerequisite: Machine and Metals Technology 111. Three lecture and twelve laboratory hours weekly.)

Manufacture, assembly, testing and design of machine parts and mechanisms requiring advanced skills in machining technology; machine tool repair and maintenance; precision grinding on the cylindrical grinder and advanced production processes. May be taken three times for credit. (CSU)

MACH 221  Machine Tool Technology IV  
(7.0 Units) (Prerequisites: Machine and Metals Technology 220. Three lecture and twelve laboratory hours weekly.)

Advanced practice and theory with special emphasis on planning, organization, production, assembly and quality control of machine parts and mechanisms. Special problems in heat treatment and properties of materials will be addressed. Cylindrical grinding, tool and die making, incorporating advanced production processes with CAD-CAM capabilities. May be taken three times for credit. (CSU)

MACH 230  Advanced Welding  
(2.0 Units) (Prerequisite: Machine and Metals Technology 131. One lecture and three laboratory hours weekly.)

Advanced theory and application of the MIG, TIG and Plasma processes. Preparation for plate certifications with the MIG and stick processes. May be taken three times for credit. (CSU)

MACH 240  Advanced Machine Tool Processes  
(4.0 Units) (No prerequisite. Advisory: Machine and Metals Technology 140. Two lecture and six laboratory hours weekly.)

An advanced level theory and practice of metal removal and fabrication course emphasizing advanced level practice on lathes, milling machines, surface grinders, and heat treating equipment. Theoretical considerations include precision measurement techniques, cutting tool technology, gearing, and nontraditional machining methods. Computer numerical control and CAD-CAM techniques will be discussed. May be taken four times for credit. (CSU)
MACH 249  Directed Study  
(1-3 units)  (Limit to Enrollment: Completion of Machine and Metals Technology 111 and/or 116. Prior arrangement with the instructor is necessary.)  
This course is designed to provide machine tool majors with an opportunity for independent study. The student plans a project or program (APT) under the guidance of a machine tool instructor and completes it in the laboratory. Evaluation is through conference and joint critique of the entire independent study process. May be taken more than once for credit. (CSU w/limit)

MACH 250  Applications of Machine Tool Technology  
(2.0 Units)  (No prerequisite. Six laboratory hours weekly.)  
Advanced laboratory practice for students pursuing certification in machine and metals technology. Projects involve state-of-the-industry techniques. May be taken four times for credit. (CSU)

MATHeMATICs  
The courses in mathematics provide training in both pure and applied mathematics leading to careers in business, research, and government. Many majors (such as physical and biological sciences, engineering, and business) are dependent upon the use of applied mathematics.

Career Options  

Faculty  
Maula Allen, Joaquin Armendariz, George Golitzin, John P. Jacob, Ira Lansing, Anthony Monteith, Laurie Ordin, Irina Roderick, Frederick G. Schmitt

Department Phones:  
Kentfield Campus:  (415) 485-9510  
Indian Valley Campus:  (415) 883-2211, Ext. 8510

Transfer  
Students planning to transfer to a four-year institution should complete the lower division major requirements and general education pattern for the appropriate transfer institution and major. Exact major requirements for UC and CSU institutions can be found on www.assist.org. Please see a counselor for more information as curriculum requirements may vary among transfer universities

A.A. in Mathematics  
The Mathematics Program at the College of Marin is designed to provide students with an excellent base for a Bachelor’s degree in mathematics.

Please note: Students are required to complete English 150 for the Associate degree. All students should consult a counselor.

Mathematics Courses (MATH)  
College of Marin offers a mathematics assessment testing service to help students make informed decisions when enrolling in mathematics courses. The students are provided with their test scores. Students registering for mathematics courses who need help in interpreting their placement test scores, and/or in deciding whether to register for or remain enrolled in a mathematics course, can seek assistance from a counselor or their mathematics instructor.

For information about the Mathematics Assessment Test, students can call the Testing Office at (415) 485-9469 (located in the Student Services Center, Room 238, Kentfield Campus) or (415) 883-2211, ext. 8510 (Indian Valley Campus).
Letter grade or pass/no pass — All courses
In general, courses required for a transfer student’s four-year major should be taken on a letter grade basis.

BASIC SKILLS COURSES  

MATH 025  Coping with Math Anxiety  
(0.5 Unit)  (No prerequisite. Two lecture hours weekly for four weeks.)  
A four-week course designed to help all students from all areas confront and deal with their fears and anxieties with mathematics.

MATH 039  Selected Topics (Nondegree Applicable)  
(½-6 units)  (Please see Selected Topics category.)

MATH 090  Math Skills Open Lab  
(0.5-2 Units)  (No prerequisite. Corequisite: Concurrent enrollment in any math course. One and one-half to three laboratory hours weekly.)  
A course in which students develop skills for completing assignments from lecture or laboratory portions of such courses as Math 95, 95AB, 101, 101AB, 101XY, 102G, 103, 103XY, 115. This
course develops number sense, mental arithmetic skills, emphasizing arithmetic manipulations with fractions, and solving problems. May be taken four times for credit.

**MATH 095 Basic and Intermediate Math Skills**  
*(2.0 Units) (No prerequisite. Three lecture hours weekly.)*

This course covers addition, subtraction, multiplication, and division of whole numbers, fractions, and decimals; square roots, percents, and applications of arithmetic to include ratio and proportion; some pre-algebra topics; and measurement to include area and volume. Can also be offered in a distance learning format.

**MATH 095A-095B BASIC AND INTERMEDIATE MATH SKILLS**

A sequence of two one-unit modules equivalent to Math 095. The instructional method for this sequence is individualized and self-paced, and consists of small group lectures, in-class tutoring, and repeatable mastery testing. Each module may be entered at any time during the semester. A diagnostic test may determine placement into the sequence. Each one-unit course is considered to take an average of eight weeks or until the course is completed. Attendance for an average of four hours per week in the Math Lab is required.

**MATH 095A Basic Math Skills**  
*(1.0 Unit) (No prerequisite. An average of four hours weekly in the Math Lab for eight weeks or until the course is completed.)*

Addition, subtraction, multiplication, division, square roots, prime numbers, greatest common divisors, and least common multiples; the arithmetic of whole numbers, fractions and decimals will be used in applied problems. Ratio and proportion to include applications.

**MATH 095B Intermediate Math Skills**  
*(1.0 Unit) (Prerequisite: Math 95A or satisfactory score on Math Assessment Test. An average of four hours weekly in the Math Lab for eight weeks or until the course is completed.)*

This course will cover percent; elementary statistics to include averages and graphs; measurement to include length, area and volume; pre-algebra and applied problems.

**MATH 095E, G, K, L APPLIED MATHEMATICS**

A set of modular courses designed to refresh or develop arithmetic and calculation skills to prepare students for science, business, or vocational training programs. Each module may be entered at any time during the semester and consists of small group lectures, individualized and self-paced study, in-class tutoring, and repeatable mastery level testing. Any number of these courses may be taken in any semester, depending on each student’s choice and pace. Each one-unit course is considered to take approximately eight weeks or until the course is completed. Attendance for an average of four hours per week in the Math Lab is required.

**MATH 095E Automotive Technician Applications**  
*(1.0 Unit) (Prerequisite: Math 95B or satisfactory score on Math Assessment Test. An average of four hours weekly in the Math Lab for eight weeks or until the course is completed.)*

Fractions and decimals applied to revolutions per minute, piston displacement, tolerance, clearance, wear, and expansion problems. Ratio and proportion applied to compression ratio, gear ratio, rear axle ratio, and air-fuel mixture ratio problems. Percent applied to engine efficiency. Graphs. The metric system.

**MATH 095G Medical Assisting Applications**  
*(1.0 Unit) (No prerequisite. An average of four hours weekly in the Math Lab for eight weeks or until the course is completed.)*

The apothecary system of units, the household system, the metric system, conversions from one system to another in the preparation of dosages. Ratio, proportion, and percent in the preparation of solutions. Applied problems.

**MATH 095K Investigative Geometry I**  
*(1.0 Unit) (Prerequisite: Math 95B or satisfactory score on Math Assessment Test. May be enrolled concurrently with Math 95L. An average of four hours weekly in the Math Lab for eight weeks or until the course is completed.)*

An exploration of the basic ideas and relationships of plane geometry. Some abstract concepts are investigated by use of manipulative materials such as geoboards, mirrors, rulers, compasses, and models. Topics include lines, planes, angles, polygons, perimeter, area, and Pythagorean Theorem.

**MATH 095L Investigative Geometry II**  
*(1.0 Unit) (Prerequisite: Math 95K or concurrent enrollment. An average of four hours weekly in the Math Lab for eight weeks or until the course is completed.)*

Further exploration of the basic ideas and relationships of plane and solid geometry. Some abstract concepts are investigated by use of manipulative materials such as geoboards, mirrors, rulers, compasses, and models. Topics include symmetry, congruence, similar polygons, circles, polyhedra, circumference, area, volume, and surface area.

**MATH 097 Basic Math Skills for Automotive Technology**  
*(3.0 Units) (No prerequisite. Three lecture hours weekly.)*

This course will include addition, subtraction, multiplication and division of whole numbers, fractions, decimals and percent. Also included are ratio and proportion, metric system, graphs and applications specific to automotive technology. Offered only in the spring semester of every other year.
COLLEGE LEVEL COURSES
NONTRANSFERABLE

MATH 101 Elementary Algebra
(3.0 Units) Prerequisite: Math 95 or 95B. Five lecture hours weekly.
An introduction to elementary algebra. Topics will include linear equations, inequalities, systems with applications, polynomials, rational expressions, exponents, roots, radicals, and quadratic equations. Can also be offered in a distance learning format. AA/AS Math Proficiency = Math 101X + 101Y

MATH 101A Elementary Algebra I
(1.5 Units) (Prerequisite: Math 95 or 95B. Five lecture hours weekly.)
An introduction to elementary algebra. Topics include linear equations and inequalities, slope of lines, linear graphs, and systems of equations. Taken with Math 101B, this course is equivalent to Math 101. It is designed for the student who wishes to take more time to learn elementary algebra. AA/AS Math Proficiency = Math 101A + 101B

MATH 101B Elementary Algebra II
(1.5 Units) (Prerequisite: Math 101A. Five lecture hours weekly.)
A continuation of elementary algebra. Topics will include polynomials, rational expressions, exponents, roots, radicals and quadratic equations. Taken with Math 101A, this course is equivalent to Math 101. It is designed for the student who wishes to take more time to learn elementary algebra. AA/AS Math Proficiency = Math 101A + 101B

MATH 101P Elementary Algebra Practicum
(1.0 Unit) (Prerequisite: Math 95 or 95AB or satisfactory score on Math Assessment Test. Corequisite: Math 101A or 101B. Two laboratory hours weekly.)
An introduction to elementary algebra. Topics will include linear equations, inequalities, systems with applications, polynomials, rational expressions, exponents, roots, radicals and quadratic equations. May be taken four times for credit.

MATH 101XY ELEMENTARY ALGEBRA I AND II
A sequence of two 1 ½-unit modules equivalent to Math 101.

MATH 101Y Elementary Algebra
(1.5 Units) (Prerequisite: Math 101X or concurrent enrollment. An average of six hours weekly in the Math Lab for eight weeks or until the course is completed.)
Solving equations containing fractional expressions, systems of equations and graphs, inequalities, operations with radicals, quadratic equations, and applied problems. AA/AS Math Proficiency = Math 101X + 101Y

MATH 102G Geometry
(3.0 Units) (Prerequisite: Math 101 or 101XY. Three lecture hours weekly.)
Methods of deductive reasoning. A study of lines, planes, triangles, circles, polygons and polyhedrons. Includes investigation of the Pythagorean theorem, similar triangles, and geometric solids. This course is strongly recommended for math, science, and engineering students planning to take trigonometry or calculus.

MATH 103 Intermediate Algebra Part I
(5.0 Units) (Prerequisite: Math 101 or 101XY. Five lecture hours weekly.)
This course is an extension of many of the concepts introduced in elementary algebra. The real number properties, polynomials, rational expressions, first degree equations, inequalities and applications, exponents, radicals, quadratic equations and complex numbers are treated in greater detail. In addition, functions and their graphs, systems of equations and inequalities, matrices, linear programming, exponential and logarithmic functions will be covered. This course will satisfy the prerequisite for Math 121. This course will be offered in the Math Lab (individualized mode) as well as the lecture/discussion mode. Can also be offered in a distance learning format. AA/AS Area E

MATH 103G Intermediate Algebra
(2.5 Units) (Prerequisite: Math 101 or 101AB or Math 101XY or satisfactory score on Math Assessment Test. Five lecture hours weekly.)
This course is the first part of a 2-part sequence, Math 103AB. This two-semester sequence includes all the topics from the one-semester course, Math 103. Math 103A topics include real number properties, polynomials, rational expressions, first degree equations, inequalities and applications, systems of linear equations with matrix elimination methods, linear programming, functions and graphs. AA/AS Area E

MATH 103A Intermediate Algebra
(2.5 Units) (Prerequisite: Math 101 or 101AB or Math 101XY or satisfactory score on Math Assessment Test. Five lecture hours weekly.)
This course is the second part of a 2-part sequence, Math 103AB. Quadratic, radical and quadratic form equations; relation, functions, inverses and their graphs; graphs and equations of lines and circles; systems of equations and inequalities; matrices and linear programming; exponential and logarithmic functions; applications. AA/AS Area E
MATH 103S  Intermediate Algebra  
(4.0 Units) (Prerequisite: Math 101 or 101XY or satisfactory score on Math Assessment Test. Four lecture hours weekly.)

Math 103S is designed for nonmathematics students who need only Math 115 to fulfill their mathematics transfer requirement. Physical science students planning on taking Math 104, 105 and one of the calculus sequences should not take Math 103S; they must take Math 103. This course is an extension of many of the concepts introduced in elementary algebra. The real number properties, polynomials, rational expressions, first degree equations, inequalities and applications, exponents, radicals and quadratic equations. Functions and their graphs (linear and quadratic), systems of equations and a light treatment of exponential and logarithmic functions. Emphasis is on verbal problem solving. Students who have completed Math 103 or Math 103XY are not eligible for credit in Math 103S. This course satisfies the prerequisite for Math 110 and Math 115.

MATH 103XY  INTERMEDIATE ALGEBRA
A sequence of two modules equivalent to Math 103. The instructional method for this sequence is individualized and self-paced. In-class tutors will be available to assist students.

MATH 103X  Intermediate Algebra  
(2.0 Units) (Prerequisite: Math 101 or 101XY or satisfactory score on Math Assessment Test. May be enrolled concurrently with Math 103Y. An average of six hours weekly in the Math Lab for eight weeks or until the course is completed.)

Properties of the real number system, linear equations, inequalities, polynomials, factoring, rational expressions, exponents, radicals, equations and applications, and complex numbers. AA/AS Area E

MATH 103Y  Intermediate Algebra  
(3.0 Units) (Prerequisite: Math 103X or concurrent enrollment. An average of six hours weekly in the Math Lab for eight weeks or until the course is completed.)

Quadratic, radical and quadratic form equations; relations, functions, inverses and their graphs; graphs and equations of lines and circles; systems of equations and inequalities; matrices and linear programming; exponential and logarithmic functions; applications. AA/AS Area E

COLLEGE LEVEL COURSES  
TRANSFERABLE

MATH 104  Plane Trigonometry  
(3.0 Units) (Prerequisite: Math 103 or 103XY or satisfactory score on Math Assessment Test. Condition for enrollment: Calculator with trigonometric function keys required. Three lecture hours weekly.)

Trigonometric and inverse trigonometric functions; graphs, equations and identities involving the trigonometric functions; triangle solutions, vector applications, and DeMoivre's Theorem. Can also be offered in a distance learning format. (CSU) AA/AS Area E, CSU Area B-4, CAN MATH 8

MATH 104XY  PLANE TRIGONOMETRY
A sequence of two 1 ½-unit modules equivalent to Math 104. The instructional method for this sequence is individualized and self-paced.

MATH 104X  Plane Trigonometry  
(1.5 Units) (Prerequisite: Math 103 or 103XY or satisfactory score on Math Assessment Test. An average of four hours weekly in the Math Lab for eight weeks or until the course is completed.)

Trigonometric and inverse trigonometric functions; graphs and identities involving the trigonometric functions; right triangle solutions. (CSU) AA/AS Area E, CSU Area B-4

MATH 104Y  Plane Trigonometry  
(1.5 Units) (Prerequisite: Math 104X or concurrent enrollment. An average of four hours weekly in the Math Lab for eight weeks or until the course is completed.)

Solving trigonometric equations, Law of Sines and Cosines to solve triangles, vector applications, DeMoivre’s Theorem, and polar coordinates. (CSU) AA/AS Area E, CSU Area B-4

MATH 105  College Algebra  
(4.0 Units) (Prerequisite: Math 103 or 103XY. May be taken concurrently with Math 104 or 104XY. Four lecture hours weekly.)

This course includes an introduction to the elementary logic necessary for understanding mathematical proofs; emphasis on functions and graphs (both algebraic and transcendental); polynomial equations and their roots; solutions of inequalities (including absolute values); introduction to sequences, series, and conic sections. (CSU/UC) AA/AS Area E, CSU Area B-4, IGETC Area 2

MATH 109  Pre-Calculus College Algebra and Trigonometry  
(5.0 Units) (Prerequisite: Satisfactory score on Math Assessment Test or a grade of C or higher in Math 103 or Math 103XY. Five lecture hours weekly.)

This class is an intensive combined course in pre-calculus algebra and trigonometry intended to prepare students for calculus. Topics include: polynomial, rational, exponential, logarithmic and trigonometric functions. Also, the binomial theorem, arithmetic and geometric sequences and series, mathematical induction, trigonometric identities, polar coordinates, the conic sections, vectors and applications of right angle trigonometry. Calculator with trig function keys required. (CSU/UC) AA/AS Area E, CSU Area B-4, IGETC Area 2
MATH 110 Introduction to Mathematical Reasoning
(3.0 Units) (Prerequisite: Math 103 or 103S or 103XY. Three lecture hours weekly.)

An elementary introduction to mathematics based on work in intermediate algebra and emphasizing the deductive process in concepts of contemporary mathematics. This course is primarily for liberal arts students. Topics may include logic, set theory, mathematics of finance, linear programming, combinatorial modeling, graph theory, exponential functions, logarithmic functions, group theory, and game theory. An introduction to the computer using BASIC or Logo computer languages may also be used. This course is designed to fulfill the intermediate algebra-based mathematics requirement for the California State University system. (CSU) AA/AS Area E, CSU Area B-4, CAN MATH 2

MATH 114 Finite Mathematics
(3.0 Units) (Prerequisite: Math 103 or 103XY or satisfactory score on Math Assessment Test. Three lecture hours weekly.)

An introduction to various mathematical models and techniques used in business, management, and the social sciences. Topics include matrix methods for solving systems of linear equations, matrix algebra, linear programming, the simplex method, sets and counting techniques, and probability theory. Applications include the Leontief input output model, Markov chains, game theory, and the mathematics of finance. (CSU/UC) AA/AS Area E, CSU Area B-4, IGETC Area 2

MATH 115 Probability and Statistics
(4.0 Units) (Prerequisite: Math 103 or 103G or 103XY or satisfactory score on Math Assessment Test. Credit will be awarded for either Math 115 or Statistics 115, but not both courses. Four lecture hours weekly.)

This course is an in-depth introduction to probability and statistics, and is especially appropriate for students in the math and life/earth science disciplines. Descriptive statistics, introduction to probability theory, probability distributions, data sampling, estimation, correlation, hypothesis testing. Can also be offered in a distance learning format. (CSU/UC) AA/AS Area E, CSU Area B-4, IGETC Area 2

MATH 116 Linear Algebra
(3.0 Units) (Prerequisite: Math 123. Three lecture hours weekly.)

The study of systems of linear equations, matrix algebra, vector spaces, inner product spaces, linear transformations, eigenvalues and eigenvectors, and applications. Recommended for mathematics majors or students who plan to study mathematics in-depth in association with other majors. (CSU/UC) AA/AS Area E, CSU Area B-4, IGETC Area 2, CAN MATH 26

MATH 117 Discrete Mathematics
(3.0 Units) (Prerequisite: Math 121 or 123. Also offered as Computer Science 117. Students may receive credit for Computer Science 117 or Math 117 but not for both courses. Three lecture hours weekly.)

A survey of topics including set theory, combinatorics, graph theory, algorithms, logic, Boolean algebra, formal languages, and probability theory. Recommended for mathematics majors and students interested in engineering and applied fields. (CSU/UC) CSU Area B-4, IGETC Area 2

MATH 121-122 Calculus I and II with Applications

This two-course sequence is designed to satisfy the calculus requirement for agriculture, architecture, business administration, botany, economics, forestry, physical geography, premedicine, optometry, pharmacy, and physiology majors. It is not designed for students majoring in chemistry, engineering, mathematics, or physics. Biology majors should check with transfer college for calculus requirement (Math 121-122 or Math 123-124).

MATH 121 Calculus I with Applications
(3.0 Units) (Prerequisite: Math 103 or 103XY or satisfactory score on Pre-Calculus Placement Test. Three lecture hours weekly.)

Topics will include limits, continuity, derivatives, integrals, exponential, and logarithmic functions. Standard applications of the derivative to drawing graphs of functions of one real variable and to optimization problems will be included. Business applications of profit maximization and consumer/producer surplus will be covered. (CSU/UC) AA/AS Area E, CSU Area B-4, IGETC Area 2, CAN MATH 30, CAN MATH SEQ D = Math 121 + 122

MATH 122 Calculus II with Applications
(3.0 Units) (Prerequisites: Math 104 or 104XY and Math 121 or satisfactory score on Trigonometry Placement Test. Three lecture hours weekly.)

Topics will include multivariable calculus, partial derivatives, double integrals, methods of integration, the calculus of trigonometric functions, first order ordinary differential equations, calculus applied to probability and statistics, infinite series, and applications. (CSU/UC) AA/AS Area E, CSU Area B-4, IGETC Area 2, CAN MATH SEQ D = Math 121 + 122

MATH 123 Analytic Geometry and Calculus I
(5.0 Units) (Prerequisites: Math 104 or 104XY and Math 105 or satisfactory score on Pre-Calculus Placement Test and Trigonometry Placement Test. Five lecture hours weekly.)

Introduction to differential and integral calculus of functions of one real variable. Continuous functions, limit of a function at a point, the derivative. The differentiation formulas and rules for one variable functions, implicit differentiation. The mean value theorem and its application to optimization and curve sketching, linear approximation and differential notation. Introduction to the Riemann integral and the fundamental theorem of calculus. Applications of the Riemann integral to finding areas, volumes of solids of revolutions, work, centroids, and total force on a plane submerged in a fluid. (CSU/UC) AA/AS Area E, CSU AREA B-4, IGETC Area 2, CAN MATH 18, CAN MATH SEQ B = Math 123 + 124, CAN MATH SEQ C = Math 123 + 124 + 223
MATH 124 Analytic Geometry and Calculus II
(5.0 Units) (Prerequisite: Math 123. Five lecture hours weekly.)
A continuation of Math 123 to include the inverse function theorem for functions of one real variable, derivatives of inverse trigonometric, exponential, logarithmic, hyperbolic and inverse hyperbolic functions. Introduction to first order ordinary differential equations, techniques of integration, improper integrals, indeterminate forms, sequences, series, power series functions, and the calculus of parameterized plane curves. (CSU/UC) AA/AS Area E, CSU Area B-4, IGETC Area 2, CAN MATH 20, CAN MATH SEQ B = Math 123 + 124, CAN MATH SEQ C = Math 123 + 124 + 223

MATH 139 Selected Topics
(½-6 units)(Please see Selected Topics category.) (CSU/UC w/limit)

MATH 190 Mathematics for Teachers
(3.0 Units) (Prerequisite. Math 103 or Math 103XY. Three lecture hours weekly.)
This is a course appropriate for students who may be considering teaching K-12 mathematics, and anyone who may wish to benefit from a deeper understanding of foundational topics in mathematics and explore methods of delivery. The course content will include topics in number sense (numeral systems, history, place value, number sets), arithmetic (focus on operation models, and order of operations with integers and rational numbers), geometry (focus on vocabulary, construction, Euclidean/Non-Euclidean, concept of perimeter/area/volume as comparisons, unit conversions, properties of similar triangles), and foundations to algebra (focus on algebraic symbols, operations on integers, rational and complex numbers and how they relate to algebra, history, order of operations in algebra, solving equations and word problems, radicals, group axioms.) In addition to exploring content depth, students will have opportunities to explore content delivery in an English as a Second Language environment, participate in lesson study/scripting, apply course content in developing lesson plans, and participate in cross-grade level discussions. (CSU) AA/AS Area E

MATH 199 Seminar for Tutors
(2.0 Units) (No prerequisite. One lecture hour and three laboratory hours weekly.)
This course is designed to help student tutors develop their understanding of the principles of effective mathematics tutoring. Students will learn how to recognize different learning styles so that they may better help others analyze their study habits and problem solving skills. Students will learn how to communicate more effectively and to provide an encouraging tutoring environment. (CSU)

MATH 223 Analytic Geometry, Vector Analysis and Calculus III
(5.0 Units) (Prerequisite: Math 124. Five lecture hours weekly.)
A continuation of Math 124 to include solid analytic geometry, vector-valued functions, partial derivatives, multiple integrals, and vector analysis including Green's, Stoke's, and divergence theorems. (CSU/UC) CSU Area B-4, IGETC Area 2, CAN MATH 22, CAN MATH SEQ C = Math 123 + 124 + 223

MATH 224 Elementary Differential Equations
(4.0 Units) (Prerequisite: Math 124. Advisory: Concurrent enrollment in Math 223 recommended. Four lecture hours weekly.)
Elementary theory of differential equations including first order equations, second and higher order linear equations, the methods of power series, and Laplace transforms; first order linear systems, numerical methods, partial differential equations, Fourier series, and boundary value problems. (CSU/UC) CSU Area B-4, IGETC Area 2, CAN MATH 24

MATH 249 Directed Study
(1-3 units)(No prerequisite. One to three hours weekly.)
This course is designed to give the student an opportunity for directed study. Prior arrangement with the instructor is necessary. May be taken more than once for credit. (CSU/UC w limit)

MEDICAL ASSISTING
This program provides the opportunity for the development of basic entry-level skills necessary for employment in a clinical/medical office environment. In a rapidly growing profession, medical assistants work directly with physicians and other health care personnel as team members in providing patient services. Medical assistants perform a variety of clinical, laboratory, and administrative functions in physicians' offices, medical clinics, laboratories, and specific hospital departments.

The program is offered only at the Indian Valley Campus. Students may elect to complete an Associate in Science degree, or a Certificate of Achievement: Administrative and Clinical, Administrative, or Clinical. Students may elect to complete a Skills Certificate for Medical Terminology Skills, MediSoft Skills, or Phlebotomy Skills. The Certificate of Achievement options require a minimum of two semesters to complete. Students may take courses on a part-time basis.

Career Options
Administrative and/or Clinical Medical Office Assistant, Clinical/Advisory Research Assistant, Insurance Coder/Biller, Medical Lab Assistant (Clinics, Hospitals, Private Labs), Medical Office Manager, Phlebotomist, Veterinary Hospital Front Office Assistant

Faculty
Carol Lacy - Coordinator
Department Phone: (415) 485-9319
Medical Assisting Program Coordinator Phone: (415) 883-2211, Ext. 8536

Receency Statement
Medical Assisting courses must be completed no longer than five years before departmental certification is awarded. Courses taken greater than five years before certification award must be repeated, or the student can pursue credit by examination.
A.S. in Medical Assisting: Administrative and Clinical Option Occupational
(Certificates of Achievement also awarded. Skills Certificates in Medical Terminology, MediSoft, and Phlebotomy are available.)

The Associate in Science degree is awarded for completion of all requirements, as well as the completion of general education and graduation requirements. The Certificate of Achievement is awarded for completion of the program requirements as shown in the following list.

No program application procedure is required, however it is advisable to see a counselor. Students may enter in the fall or spring semester. Those currently working in the health care field may receive consent to enroll in selected courses on a pass/no pass basis.

Please note: Students may choose English 120, 120SL, or 150 to complete the Associate degree. Transfer students, however, are advised to complete English 150. All students should consult a counselor.

+ Applied toward the Certificate of Achievement only.

Skills Certificates
Skills Certificates are an acknowledgement that the student has attained a specified set of competencies within an occupational program. Skills Certificates may be part of a “ladder” of skills, beginning with job entry skills and leading to a full Certificate of Achievement program or may constitute a skill set that enables a student to upgrade or advance in an existing career. Skills Certificates require less than 18 units and are shorter in duration than the Certificates of Achievement.

Medical Terminology Skills Certificate
The certificate provides the student with knowledge of the fundamental language necessary for health courses.

Requirements Units
MEDA 120    Medical Terminology I  3
MEDA 121    Medical Terminology II  3

MediSoft Skills Certificate
The certificate is awarded to the student upon successful completion of the three courses. The courses provide a working knowledge of and practice with using medical office software.

Requirements Units
CIS 110    Introduction to Computer Information Systems  3
MEDA 126    Medical Office Computers-MediSoft  2
MEDA 126L    Medical Office Computers-MediSoft Laboratory  ½

Phlebotomy Skills Certificate
The phlebotomy certificate awarded upon successful completion of MEDA 141 and MEDA 141L provides the required hours, knowledge and skills for phlebotomy training and practice.

Requirements Units
MEDA 141    Phlebotomy Techniques  3
MEDA 141L    Phlebotomy Techniques Clinical Laboratory  1

Medical Assisting Courses (MEDA)

MEDA 039    Selected Topics (Nondegree Applicable)
(½-6 units) (Please see Selected Topics category.)

MEDA 100    Introduction to Health Careers
(2.0 Units) (No prerequisite. Can be taken for credit as Dental Assisting 100, Medical Assisting 100, or Nursing Education 100. Credit will be awarded for only one course. Two lecture hours weekly.)

This course is designed for students interested in pursuing a career in a health profession. It provides an overview of the current health care delivery system, the physical, mental, and emotional demands of the workplace and the skills needed by the healthcare worker today and in the future. Students will learn about qualifications and professional preparation needed for various careers and analyze the roles and responsibilities in today’s health care environment. This course is designed to help students develop realistic career goals as well as to give an appreciation of how the current health care delivery system is influencing individual health professional roles and responsibilities.
MEDA 110  Administrative Medical Office Procedures  
(2.0 Units) (No prerequisite. Corequisite: Medical Assisting 110L. Two lecture hours weekly.)
This course is an introduction to the medical front office with an emphasis on front office procedures. Topics for examination include medical practice settings, medical law and ethics, reception, telephone, appointments, patient records, etc. (CSU)

MEDA 110L  Administrative Medical Office Procedures Laboratory  
(1.0 Unit) (No prerequisite. Corequisite: Medical Assisting 110. Three laboratory hours weekly.)
The student will apply theoretical concepts to practice administrative skills commonly performed in the medical office such as telephone techniques, appointment scheduling, office reception, etc. (CSU)

MEDA 112  Medical Transcription  
(2.0 Units) (Prerequisites: Business Office Systems 120 and Medical Assisting 120 or 121. One lecture and three laboratory hours weekly.)
This course includes the fundamentals of medical transcription using electric typewriters and selected types of transcription machines; ethical/legal responsibilities of the medical transcriber; continued study and application of medical terminology; transcription of medical forms, reports, and correspondence common to various medical/surgical specialties. (CSU)

MEDA 120  Medical Terminology I  
(3.0 Units) (No prerequisite. May be taken before or after Medical Assisting 121. Three lecture hours weekly.)
This course introduces the student to the fundamentals of medical word building, as well as terms related to specific body systems: Skin, musculoskeletal, respiratory, gastrointestinal, cardiovascular, and nervous. Emphasis is placed upon spelling, and anatomical, pathological, surgical, and diagnostic terminology. (CSU)

MEDA 121  Medical Terminology II  
(3.0 Units) (No prerequisite. May be taken before or after Medical Assisting 120. Three lecture hours weekly.)
This is a course in medical word building and analysis of terminology relating to the female and male reproductive systems, maternal, urogenital, eye, ear, neurological, and endocrine systems. In addition there are supplementary terms with special emphasis upon spelling and anatomical, diagnostic, surgical, and pathological terminology. (CSU)

MEDA 125  Medical Financial Procedures  
(1.0 Unit) (No prerequisite. Corequisite: Medical Assisting 125L. One lecture hour weekly.)
This theory course examines the basic financial operations and procedures of a medical office. Topics for examination include accounting, banking, bookkeeping, current procedural terminology, international classification of diseases, health insurance claims, managed care and government sponsored health insurance programs. (CSU)

MEDA 125L  Medical Financial Procedures Laboratory  
(1.0 Unit) (No prerequisite. Corequisite: Medical Assisting 125. Three laboratory hours weekly.)
The student will develop skills in managing patient financial accounts in a medical office. Practice will be given to posting financial information to a patient's medical record, coding procedures and diagnoses, and completing medical insurance forms. (CSU)

MEDA 126  Medical Office Computers - MediSoft  
(2.0 Units) (No prerequisite. Corequisite: Medical Assisting 126L. Two lecture hours weekly.)
This theory course will introduce the student to the use of computers in the medical office. The course will focus on the basic functions of the MediSoft program such as recording patient information, entering transactions, scheduling appointments, and completing insurance claims. (CSU)

MEDA 126L  Medical Office Computers - MediSoft Laboratory  
(0.5 Unit) (No prerequisite. Corequisite: Medical Assisting 126. One and one-half laboratory hours weekly.)
This laboratory course will provide hands-on computer experience with the MediSoft software program. The student will apply theory learned in Medical Assisting 126. (CSU)

MEDA 127  Medical Office Computers - Medical Manager  
(1.0 Unit) (No prerequisite. Corequisite: Medical Assisting 127L. One lecture hour weekly.)
This theory course will introduce the student to the use of computers in the medical office. The course will focus on the basic functions of the Medical Manager software program such as recording patient information, entering transactions, and completing insurance claims. (CSU)

MEDA 127L  Medical Office Computers Laboratory - Medical Manager  
(0.5 Unit) (No prerequisite. Corequisite: Medical Assisting 127. One and one half laboratory hours weekly.)
This laboratory course will provide hands-on computer experience with the Medical Manager software program. The student will apply theory learned in Medical Assisting 127. (CSU)
MEDA 135  Clinical Procedures I
(2.0 Units) (No prerequisite. Corequisite: Medical Assisting 127L. One lecture hour weekly.)

This theory course will introduce the student to the use of computers in the medical office. The course will focus on the basic functions of the Medical Manager software program such as recording patient information, entering transactions, and completing insurance claims. (CSU)

MEDA 135L  Clinical Procedures I Laboratory
(1.5 Units) (No prerequisite. Corequisite: Medical Assisting 135. Four and one-half laboratory hours weekly.)

This performance-based course prepares the student to perform selected, clinical skills required of an entry-level, clinical medical assistant by a medical family practitioner. Procedures covered are hand washing, taking vital signs, positioning and draping, testing visual acuity, preparing articles for autoclaving, autoclaving, aseptic technique, opening sterile pack and other sterile items, pouring solutions, applying sterile gloves, identification of instruments, application of dressings and bandages, assisting with a gynecological exam and Pap smear. (CSU)

MEDA 136  Medical Laboratory Procedures
(2.5 Units) (No prerequisite. Corequisite: Medical Assisting 136L. Two and one-half lecture hours weekly.)

This theory course includes examination of selected, common screening laboratory and clinical procedures performed in medical offices. Topics for examination include EKGs, hematology, urinalysis, collection of specimens, assisting with prenatal exams and radiology, and diagnostic imaging. Asepsis and universal precautions will be stressed. (CSU)

MEDA 136L  Medical Laboratory Procedures Laboratory
(1.0 Unit) (No prerequisite. Corequisite: Medical Assisting 136. Three laboratory hours weekly.)

The student will develop skills in performing common laboratory procedures and diagnostic tests required of medical assistants as performed in a medical office or clinic (i.e. hemoglobin, hematocrit, EKGs, urinalysis). Lab safety and universal precautions will be stressed. (CSU)

MEDA 139  Selected Topics
(½-6 units)(Please see Selected Topics category.) (CSU w/limit)

MEDA 141  Phlebotomy Techniques
(3.0 Units) (No prerequisite. Corequisite: Medical Assisting 141L. Advisory: Medical Assisting 136. Other limitations on enrollment: High School graduation or GED or equivalent. Five lecture hours weekly for ten weeks.)

This course is designed to provide students with specific knowledge of the role of the phlebotomist, blood collection procedures, the proper use of equipment, and techniques necessary to perform capillary (skin) punctures and venipunctures. Basic anatomy and physiology, safety, legal, and ethical issues are discussed in detail. Students are eligible for State and National certification as phlebotomists upon successful completion of Meda 141 and Meda 141L. (CSU)

MEDA 141L  Phlebotomy Techniques Practicum
(1.0 Unit) (No prerequisite. Corequisite: Medical Assisting 141. Advisory: Medical Assisting 136L. Other limitations on enrollment: High School graduation or GED or equivalent. Five laboratory hours weekly for ten weeks.)

This course is designed to fulfill CCR requirements for the practical component of phlebotomy certification as a CPT 1. Students will perform capillary punctures and venipunctures in a clinical setting under direct supervision of instructor and laboratory/clinic personnel. Successful completion of Medical Assisting 141 and 141L will qualify the student for certification as a phlebotomist (CPT 1). Clinical facilities require background checks, liability insurance, lab coat, name tag and patch, completed health clearance form, and negative TB test. Students must purchase malpractice insurance through the department during the first week of class, and submit a completed Health Clearance form. (CSU)

MEDA 145  Holistic Health, Disease, and Research
(2.0 Units) (No prerequisite. Two lecture hours weekly.)

Technology has made major advances in modern medicine. Primary care providers admit that the most sophisticated medical care may fail if the patient, as well as the disease, is not part of the treatment protocol. The course focuses on human disease and illnesses frequently diagnosed and treated in the medical office, the likely consequences for the person experiencing it, and the related research. Holistic medicine looks at the relationship between the mind-body connection and its influence upon health. May be taken twice for credit. (CSU)

MEDA 150  Pharmacology for Medical Assistants
(1.5 Units) (No prerequisite. One and one-half lecture hours weekly.)

This course introduces the student to common drugs and medication, specific mathematical computations, drug indications and contraindications, anaphylactic and other allergic responses, care of emergencies due to drug reactions, and responsibilities of the medical assistant. May be taken twice for credit. (CSU)

MEDA 210L  Clinical Externship
(2.5 Units) (Prerequisites: Medical Assisting 110, 110L, 120 or 121, 135, and 135L are prerequisites for the Clinical and Administrative Option. Medical Assisting 120 or 121, 135, and 135L are prerequisites for the Clinical Option. Medical Assisting 110, 110L, 120 or 121 are prerequisites for the Administrative Option. One hundred and twenty hours of externship to be arranged.)

This experience extends the student's education and preparation from the classroom to the community clinic, office or hospital under the direct supervision of the instructor and clinical supervisors. Students are required to have had a physical exami-
nation and received a health clearance in addition to the required immunizations. First Aid and CPR certificates, liability insurance, and uniform are required. (CSU)

MEDA 249 Directed Study
(1-3 units) (Please see Directed Study category.) (CSU w/limit)

MULTIMEDIA STUDIES
This program is designed to provide a link between content, technology and creative vision for emerging technologies. Each course provides hands-on experience for professional advancement, career related training, and transfer preparation for university degrees. Each course develops the creative process through project-based learning that prepares students to be resourceful and independent, and to meet the expectations of multimedia careers.

Career Options
Animator, Art Director, Game Designer, Illustrator/Artist, Interface Designer, Production Artist, Project Manager, Sound Designer, Video Producer, Visual Designer, Web Developer

Faculty
James Gonzalez, Derek Wilson
Department Phone: (415) 485-9480

A.S. in Multimedia Studies
This curriculum is designed to provide education for digital and new media-related careers, professional advancement and transfer preparation.

A Skills Certificate is earned by satisfactory completion of the required courses as outlined for the specific Skill Certificate.

A Certificate of Achievement is awarded for completion of the core program plus course requirements for each intended specialty.

An Associate in Science (A.S.) degree is awarded for completion of all requirements in the core program and chosen specialty as well as completion of general education and graduation requirements.

Repetition Policy
Students may petition to repeat MMST courses if two years has lapsed since they last attended said course. College of Marin petition procedures are located in the Admissions and Records section of the catalog.

CORE REQUIREMENTS
The following courses are required of all Multimedia Studies degree and Certificate of Achievement students:

Requirements | Units
--- | ---
MMST 101 Orientation to Multimedia | ½
MMST 110 Introduction to Multimedia | 3
MMST 111 Multimedia Production | 3
MMST 112 Interactive Design for Multimedia | 3
MMST 123 Introduction to Multimedia Design | 3
MMST 200 Portfolio Development | 3
MMST 213 Multimedia Internship | 3

SPECIALTIES
In addition to the core requirements listed above, each Multimedia Studies degree and Certificate of Achievement student will complete one of the following specialties:

Authoring Specialty
Provides training and experience of digital media as it applies to website design, development and promotion with an emphasis on skills related to the production of interactive content for delivery over the web.

Requirements | Units
--- | ---
CIS 142 Intermediate HTML and Scripting | 1½
MMST 131 Introduction to Web Design | 3
MMST 132 Introduction to Web Development | 3
MMST 133 Search Engine Optimization and Web Promotion | 3
MMST 155 Software Applications for Multimedia: Web Authoring | 1½
MMST 231 Scripting and Interactive Multimedia Production | 3

Sound and Video Design Specialty
Provides training and experience of digital sound and digital video as it applies to multimedia design with emphasis on the development of skills related to the post-production of sound and video for all interactive, time-based and popular media.

Requirements | Units
--- | ---
MMST 143 Video Production for Multimedia | 3
MMST 144 Audio Production for Multimedia | 3
MMST 166 Digital Video Editing and Motion Graphics | 3
MMST 158 Audio Design: Interactive | 3
MMST 240 Advanced Sound and Video Design | 3

Visual Design Specialty
Provides training and experience of illustration, layout, modeling, and photo imaging, as it applies to visual content design, with an emphasis on the development of skills for producing strong concepts of dynamic, interactive and printed materials.

Requirements | Units
--- | ---
MMST 124 3-D Modeling and Animation | 3
MMST 150 Digital Imaging Techniques with Photoshop | 3
MMST 151 Digital Illustration and Animation | 3
MMST 163 3-D Character Animation: Complex Lighting and Materials | 3
MMST 223 Print and Packaging Design | 3

Multimedia Studies Skill Certificates
Each Multimedia Studies Skill Certificate student must complete the required courses as outlined for the specific Skill Certificate(s):

Multimedia Animation Skills Certificate
Requirements | Units
--- | ---
MMST 124 3-D Modeling and Animation | 3
MMST 151 Digital Illustration and Animation | 3
MMST 163 3-D Character Animation: Complex Lighting and Materials | 3

Multimedia Audio Production Skills Certificate
Requirements | Units
--- | ---
MMST 144 Audio Production for Multimedia | 3
MMST 158 Audio Design: Interactive | 3
MMST 240 Advanced Sound and Video Design | 3
Multimedia Design Skills Certificate

MMST 123 Introduction to Multimedia Design 3
MMST 200 Portfolio Development 3
MMST 223 Print and Packaging Design 3

Multimedia Production Skills Certificate

MMST 110 Introduction to Multimedia 3
MMST 111 Multimedia Production 3
MMST 112 Interactive Design for Multimedia 3

Multimedia Video Production Skills Certificate

MMST 143 Video Production for Multimedia 3
MMST 166 Digital Video Editing and Motion Graphics 3
MMST 240 Advanced Sound and Video Design 3

Multimedia Authoring Skills Certificate

MMST 131 Introduction to Web Design 3
MMST 132 Introduction to Web Development 3
MMST 133 Search Engine Optimization and Web Promotion 3

Multimedia Digital Printing Skills Certificate

MMST 123 Introduction to Multimedia Design 3
MMST 150 Digital Imaging Techniques with Photoshop 3
MMST 160 Digital Image Calibration and Printing 3
(Prerequisite: MMST 150) 3

Multimedia Studies Courses (MMST)

MMST 039 Selected Topics (Nondegree Applicable)
(½-6 units)(Please see Selected Topics category.)

MMST 090 Multimedia Studies Program Orientation/Multimedia Careers
(0.5 Unit) (No prerequisite. Two lecture hours and one laboratory hour weekly for four weeks.)

This course will provide a general introduction and familiarization of the COM Multimedia Studies Program and the local media industry. Lecture and lab components will cover basic computer skills required for entry into the Career Certificate program, an orientation to the lab facilities and other program resources. It will also cover career information including industry salaries, job titles and requisite skills, employment trends, and other relevant occupational information about this dynamic field.

MMST 101 Orientation to Multimedia
(0.5 Unit) (No prerequisite. Three practicum hours weekly for eight weeks.)

Digital media is becoming the predominant method for receiving news and entertainment. This course will cover the tools and techniques needed to become literate in this new digital media universe. Armed with the knowledge and skills learned in the course, students will be able to safely and effectively find and consume the tremendous amount of digital media now available in many formats and delivery platforms. This course is offered as a self-paced Web-based course. (CSU)

MMST 110 Introduction to Multimedia
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This course will provide an overview of the burgeoning new field of multimedia. Through lecture and demonstration, students will learn about basic multimedia production as well as topics that include design, development, and marketing. Students will survey basic concepts and applications of multimedia production. Providing an aesthetic and historical framework, this course is the logical first step on the path to a career in multimedia. (CSU)

MMST 111 Multimedia Production
(3.0 Units) (No prerequisite. Advisory: Computer Information Systems 110. Two lecture and three laboratory hours weekly.)

This course is an opportunity for students to explore the different aspects and content of multimedia projects. Students will be introduced to team development and production schedules as they learn the basic tools and methods for developing graphics, sound, video and authored environments that simulate real-life projects and deadlines. Can also be offered in a distance learning format as a Web based course. (CSU)

MMST 112 Interactive Design for Multimedia
(3.0 Units) (No prerequisite. Two and one-half lecture and one and one-half laboratory hours weekly.)

This course provides knowledge and experience to create effective designs required for navigation, access, and other methods of interaction within the user interface of websites, games, and other interactive designs. Strategies and techniques to plan a skillful and artistic interface design are covered. This course is ideal for students interested in website or game design. Can also be offered in a distance learning format as a Web based course. (CSU)

MMST 114 Introduction to Game Design
(3.0 Units) (No prerequisite. Three lecture hours per week.)

This course will introduce students to the basics of game design and theory using analysis, research, critiques and group based projects. Students will learn about the game industry and what is expected to develop an interactive/video game through assignments that simulate employment by a game developer. (CSU)

MMST 123 Introduction to Multimedia Design
(3.0 Units) (No prerequisite. Advisory: Art 112. Two and one-half lecture and two and one-half laboratory hours weekly.)

This course will provide a basic knowledge of design as it applies to multimedia. Assignments involve the creation of original work using current digital tools. Design skills will be developed through projects using analysis, research, and critiques. Can also be offered in a distance learning format as a Web based course. (CSU)
MMST 124  3-D Modeling and Animation  
(3.0 Units) (No prerequisite. Two lecture and three laboratory hours weekly.)

This course will provide introductory knowledge and experience with modeling and animation as it applies to multimedia. Modeling is the computer generation of a wide range of object types from machine components to organic forms. Animation is the creation of three-dimensional objects and environments from the imagination of the creator. (CSU)

MMST 131  Introduction to Web Design  
(3.0 Units) (No prerequisite. Advisory: Multimedia Studies 101. Two and one-half lecture and two and one-half laboratory hours weekly.)

This course provides an introduction to the tools and practices of modern Web site development. Students will learn the tools and methods for creating and maintaining a small media-rich Web site. Production skills will be developed through the research, design, and development and testing of their own small Web site. Can also be offered in a distance learning format as a Web based course. (CSU)

MMST 132  Introduction to Web Development  
(3.0 Units) (No prerequisite. Advisory: Multimedia Studies 131. Two and one-half lecture and two and one-half laboratory hours weekly.)

This course will provide basic knowledge for creating and publishing small sites to the World Wide Web. Assignments involve creating and publishing small working web sites containing a variety of rich media such as animation, audio and video. Web pages will be designed and developed using current professional-level tools. Design skills will be developed through projects using analysis, research, and critiques. Offered as a Web based course. (CSU)

MMST 133  Search Engine Optimization and Web Promotion  
(3.0 Units) (No prerequisite. Advisory: Multimedia Studies 131. Two and one-half lecture and two and one-half laboratory hours weekly.)

Designing and building a Web page is only part of the required effort behind all successful Web sites. Successful sites attract and maintain a regular flow of visitors by successfully promoting themselves through the major search engines and directories. This course will cover how to promote Web sites using the rapidly changing world of Web search engines and directories. Students will learn how the Web’s popular search systems and Directories work so they can use them to better promote and market Web sites of all sizes, complexity, and purpose. In this class, students will learn both how to set up cost effective and successful paid search engine marketing campaigns and how to design attractive sites that place well in the free search listings. Offered as a Web based course. (CSU)

MMST 139  Selected Topics  
(½-6 units) (Please see Selected Topics category.) (CSU w/limit)

MMST 143  Video Production for Multimedia  
(3.0 Units) (No prerequisite. Two lecture and three laboratory hours weekly.)

This course will provide basic knowledge of video production as it applies to multimedia including Internet and Web based applications. Emphasis will be on developing a foundation of skills covering beginning-to-end design and production processes for video-intensive multimedia. There will be broad exposure to good and bad examples of video integration formats. (CSU)

MMST 144  Audio Production for Multimedia  
(3.0 Units) (No prerequisite. Two lecture and three laboratory hours weekly.)

This course will provide basic knowledge of sound production from beginning to end. Emphasis will be on developing a foundation of skills and broad exposure to good and bad examples of sound integration formats. (CSU)

MMST 150  Digital Imaging Techniques with Photoshop  
(3.0 Units) (No prerequisite. Advisory: Multimedia Studies 123. Two lecture and three laboratory hours weekly.)

This course covers intermediate techniques for images to create professional artwork for games, portfolios, and websites. Course includes both creative and production techniques to prepare students for professional projects using Photoshop and other current imaging software. Design skills will be developed through hands-on exercises and projects using analysis, research, and critiques. Can also be offered in a distance learning format as a Web based course. (CSU)

MMST 151  Digital Illustration and Animation  
(3.0 Units) (No prerequisite. Advisory: Multimedia Studies 123. Two lecture and three laboratory hours weekly.)

This course will provide an increased knowledge of drawing, illustrating and animating for printed and interactive content. Advanced production techniques, theories and methods for enhanced interactivity and design. Assignments involve the creation of original illustrations and animated shorts using current digital tools. Design skills will be developed through projects using research, practice and applied knowledge. Can also be offered in a distance learning format as a Web based course. (CSU)

MMST 154  Software Applications for Multimedia: Digital Media Authoring  
(1.5 Units) (Prerequisite: Multimedia Studies 131 or concurrent enrollment. Two lecture and three laboratory hours weekly for eight weeks.)

These variable software specific courses will provide basic knowledge and hands-on experience with the leading commercial authoring applications for multimedia. Emphasis will be on developing skills for producing CD ROM, intranet, DVD ROM or other high bandwidth based media applications. Examples of software include Macromedia Director, and Authorware Attain. (CSU)
MMST 155  Software Applications for Multimedia: Web Authoring
(1.5 Units) (Prerequisite: Multimedia Studies 131. Two lecture and three laboratory hours weekly for eight weeks.)

These variable software specific courses will provide basic knowledge and hands-on experience with the latest commercial authoring applications for the Web. Emphasis will be on developing solid skills building Web sites with a variety of commercial software applications including Go Live, Microsoft Front Page, and Macromedia Dreamweaver. Offered in a distance learning format. (CSU)

MMST 158  Audio Design for Interactive Media and Games
(3.0 Units) (No prerequisite. Advisory: Multimedia Studies 144. Two and one-half lecture and two and one-half laboratory hours weekly.)

This course will provide intermediate knowledge of generating digital audio, editing, design and effects using current digital software, hardware and techniques. Focus is on how to make good editorial decisions as well as the efficient use of a variety of programs. Assignments involve practice tutorials and the creation of original projects using current digital tools. (CSU)

MMST 160  Digital Image Calibration and Printing
(3.0 Units) (Prerequisite: Multimedia Studies 150. Two lecture and three laboratory hours weekly.)

This course will provide advanced knowledge of techniques and practices for successful printing of digital images and artwork for design and visual art. Course includes advanced creative and production techniques to prepare students for successful, professional level projects for portfolios and displays. Design and technical skills will be developed through hands-on exercises and projects using analysis, research, and critiques. Can also be offered in a distance learning format as a Web based course. (CSU)

MMST 163  3-D Character Animation: Complex Lighting and Materials
(3.0 Units) (No prerequisite. Two and one-half lecture and two and one-half laboratory hours weekly.)

This class will focus on the intended purpose of 3-D lighting and materials and how to dress it for believability, including atmospheres and particle systems, as well as special effects such as glows, flares, and blurs. This course will also review and extend your skills in setting up lights, atmospheres, particle systems and cameras, in building believable textures, and in creating environments for 3-D animation or game play. (CSU)

MMST 166  Digital Video Editing and Motion Graphics
(3.0 Units) (No prerequisite. Advisory: Multimedia Studies 143. Two lecture and three laboratory hours weekly.)

This course will provide intermediate knowledge of video editing and effects using current digital software, hardware and techniques. Focus is on how to make good editorial decisions as well as the efficient use of a variety of programs. Assignments involve practice tutorials and the creation of original projects using current digital tools. (CSU)

MMST 168  Small Recording Studio Theory and Design
(3.0 Units) (No prerequisite. Advisory: Multimedia Studies 144. Two and one-half lecture and two and one-half laboratory hours weekly.)

This course will provide intermediate knowledge of how to build and maintain a working, competitive home or small studio in an efficient and economical way. With the ever-increasing variety of digital audio software available, this course can help guide students towards a standardization of home audio studio design as well as a standardization of basic audio production terms. (CSU)

MMST 200  Portfolio Development
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

Through lecture, research and critiques, students will develop a professional portfolio that reflects their interests, skills, and career goals. This course is for students that have accomplished multimedia skills and wish to develop strategies of self-promotion for their area of expertise. (CSU)

MMST 210  Advanced Project
(0.5 Unit) (No prerequisite. One and one-half laboratory hours weekly.)

This course will provide students with the opportunity to design and implement group or individual creative projects containing graphics, animation, audio, video or authoring components. This course will provide a forum for exploring and testing potential project ideas that students will take from concept to final product. Students will receive guidance and support in critiquing work, forming creative alliances, and polishing existing work. This course is for students who are ready to plan, design and implement independent advanced multimedia projects such as CD-ROMs, DVDs, Web sites and more. Lab activities will involve taking a project idea, either individually or as a group, through the following production stages: design, preproduction, prototyping, production, testing, and delivery. May be taken twice for credit. (CSU)

MMST 213  Internship in Multimedia
(3.0 Units) (Prerequisite: Multimedia Studies 200. Two lecture and three laboratory hours weekly.)

This course bridges the gap between the classroom and the multimedia systems industry. By providing an on-campus lecture class coupled with a short term internship, students gain an understanding of real multimedia work situations and expectations in a “real life” context characterized by workgroup activities, multiple projects under deadline, and collaborative effort. Internships are not guaranteed. Projects may be suitable for student portfolios. (CSU)
MMST 223  Print and Packaging Design
(3.0 Units) (No prerequisite. Advisories: Multimedia Studies 150 and 151. Two lecture and three laboratory hours weekly.)
This course will provide a basic knowledge of design as it applies to printed media (2D), products and packaging (3D). Assignments involve the creation of original designs using current digital tools. Design and visualization skills will be developed through projects using analysis, research, and critiques. Can also be offered in a distance learning format as a Web based course. (CSU)

MMST 231  Scripting and Interactive Multimedia Production
(3.0 Units) (No prerequisite. Advisories: Computer Information Systems 141 and Multimedia Studies 131. Two lecture and three practicum hours weekly.)
This course covers how to use scripting technologies in conjunction with authoring tools to develop interactive, data-driven multimedia products. This course is for both designers and developers desiring to create more sophisticated, professional caliber multimedia products made possible by the application of scripting languages working within modern popular authoring applications. These scripting languages include, but are not limited to, Lingo, ActionScript, and JavaScript working within authoring packages such as Dreamweaver, Flash or Director. May be taken once for credit. May also be offered online as a Web Based Course. (There are no on-campus attendance requirements for online sections. Two hours of online, technology mediated live lectures per week and three practicum hours, TBA per week.) (CSU)

MMST 240  Advanced Sound and Video Design
(3.0 Units) (No prerequisite: Advisories: Multimedia Studies 143 and 144. Two lecture and three laboratory hours weekly.)
This course will provide advanced knowledge of time-based material as it relates to sound and video design. Collaborative and crossover skills will be developed through the creation of individual or group projects using current digital tools in audio and video. (CSU)

MMST 249  Directed Study
(1-3 units) (Please see Directed Study category.) (CSU w/limit)

MUSIC

A career in music today demands from all performers and participants a sophisticated knowledge of theory, history, performance standards, and practices in all fields whether classical, jazz, rock, or popular. Whatever branch of the music career you may find yourself pursuing, academic music experience is valuable in your background.

Career Options
Agent, Arranger, Arts Administrator, Band Director, Business Manager, Choral Leader, Composer, Concert Hall Manager, Conductor, Copyist, Disc Jockey, Electronic Writer and Computer Specialist, Instrument Maker, Instrument Repair Technician, Instrumental Musician, Lyricist, Music Coach, Music Critic, Music Director, Music Editor, Music Librarian, Music Publishing Editor, Music Store Owner/Staff, Music Therapist, Musicologist, Performer, Piano Tuner-Technician, Private Instructor, Recreation Therapist, Singer, Teacher

Faculty
Douglas Delaney, Tara B. Flandreau, Paul Smith
Department Phone: (415) 485-9460

Transfer
Students planning to transfer to a four-year institution should complete the lower division major requirements and general education pattern for the appropriate transfer institution and major. Exact major requirements for UC and CSU institutions can be found on www.assist.org. Please see a counselor for more information as curriculum requirements may vary among transfer universities.

A.A. in Music
The Music Department has several performing groups that serve the various interests and abilities of students and the community: an orchestra, bands, choruses, instrumental and choral ensembles, instrumental and vocal jazz ensembles. These groups present scheduled concerts as well as perform on special occasions during the school year. The Music Program is offered at the Kentfield Campus.

Please note: Students may choose English 120, 120SL, or 150 to complete the Associate degree. Transfer students, however, are advised to complete English 150. All students should consult a counselor.

**Music Courses (MUS)**

**General Information:**

Students enter college with various experience and backgrounds in music. Furthermore, they take music courses with a variety of goals in mind. Consequently, while several of our offerings are open to everyone, passing our Music Placement Test (MPT) or a standardized audition is required for more advanced classes. Most music classes require that a student have some skill with music notation. Music 106 is designed to provide this theoretical background. In addition, a potential music major or minor must be able to listen analytically to classical music. Music 101 serves this purpose. The Music Placement Test is advised for those who feel they have sufficient background and therefore don't need to take preliminary courses.

There are a variety of skills and abilities required of the music major who transfers from College of Marin to complete upper division work elsewhere. Consequently, coursework at the Kentfield Campus has been divided into as many component parts as possible to enable students to work at their level in each area. The following chart illustrates each component part of the music major package at various levels. It is not necessary for students to be at the same level in each area. In fact, it is to students' advantage to be ahead a semester or two in piano and ear training. However, since it is to students' disadvantage to get ahead in theory without developing the listening, physical, and analytical skills, it is urged that the theory components be taken after all other components at the same level, if not taken concurrently.

**Performing Ensemble: One of the following**

EACH SEMESTER: Mus 162, 163, 165, 166, 167, 168, 169

**Major Performing Ensemble**

Our large ensembles provide students the opportunity for musical growth at all stages of their development. Participation in a major performing ensemble is just as essential, if not more so, to those just learning the basic music vocabulary as to those who have the opportunity to perform solos with the ensemble. The College of Marin's major performing ensemble requirement must be satisfied in the following manner: Those whose major performing medium is a band or orchestra instrument must be in either Music 162, 167, or 168. Those whose performance medium is voice, or whose instrument is one not usually associated with ensemble work (piano, guitar, etc.), must be in either Music 163 or 169. Pianists may partly fulfill this requirement as noted in the Music 165 and Music 166 course descriptions, however.

**Standardized Auditions**

Several music courses require an audition based upon a standardized level of performance. Every student who participates in one of these courses is expected to meet the musical requirements of the particular audition. Auditions will vary from course to course.

**MUS 039 Selected Topics (Nondegree Applicable)**

(½-6 units) (Please see Selected Topics category.)

**MUS 101 Introduction to Classical Music**

(3.0 Units) (No prerequisite. Two lecture and three laboratory hours weekly.)

The appreciation and enjoyment of classical music through analytical listening. The study of musical elements; the development of musical forms and styles, vocal and instrumental media, the lives of the great composers, and analyses of their works. Illustrated by recordings. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A

**MUS 102 Music Masterworks**

(3.0 Units) (Prerequisite: Music 106 or Music 111. Three lecture hours and one laboratory hour weekly.)

This course includes guided listening and discussions, examples in hand, of music masterworks from the beginning of written history to the present. Prerequisite skills required: ability to read treble and bass clef and easy basic rhythms; understanding tonic and dominant relationship, intervals, triads, 7th chords, major and minor scales and key signatures. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A

**MUS 105 Rock, Pop and Jazz**

(3.0 Units) (No prerequisite. Three lecture hours weekly.)

A multicultural study of the evolution of American musical styles including blues, salsa, samba, rock, jazz, pop, rhythm and blues, country and folk, with emphasis on the African American, Euro American, and Latin American origins of these contemporary styles, and their historical contexts. (CSU/UC) AA/AS Areas C&G, CSU Area C-1, IGETC Area 3A

**MUS 106 Music Fundamentals**

(3.0 Units) (No prerequisite. Advisory: Music 163. Three lecture hours weekly.)

Designed for anyone interested in acquiring basic music skills for performance, teaching or composition included. Music reading, notation, terminology, piano keyboard, sight singing, ear training, etc. Not open to students who have completed Music 111, 112, 211, or 212. Can also be offered in a distance learning format. (CSU/UC) AA/AS Area C, CSU Area C-1
MUS 111 Theory I
(4.0 Units) (Prerequisite: Music 106. Corequisites: Music 121, 122, 221, or 222 as determined by standardized placement examination; one major performing ensemble: Music 162, 163, 167, 168, or 169 and class piano: Music 171, 172, 271, or 272. Three lecture and three laboratory hours weekly.)

Beginning music theory. Review of scales, key signatures, time signatures, intervals, triads, and seventh chords. Intensive study of four part harmonic progressions including cadences, voice leading and doubling rules, and some nonharmonic tones. (CSU/UC)

MUS 112 Theory II
(4.0 Units) (Prerequisite: Music 111. Corequisites: Music 122, and 172, unless previously completed, and one major performing ensemble. See Music 111 for details of these corequisites. Three lecture and three laboratory hours weekly.)

Continued study of harmonic progressions, focusing on secondary triads, dominant and supertonic sevenths with inversions, modes, counterpoints, etc. (CSU/UC)

MUS 113 Jazz Improvisation
(3.0 Units) (Prerequisite: Ability to play or sing all major scales from memory. Corequisite: Enrollment in any performance ensemble. Three lecture hours weekly.)

An introduction to jazz improvisation for instrumentalists and vocalists who wish to develop their ability to perform jazz solos. The ability to play or sing all major scales from memory is a prerequisite for this course. Students will learn contemporary harmonic theory, including scales, modes, extended and altered chords and will apply this knowledge to the craft of improvisation. Classroom experience will include playing with a rhythm section and the transcription of representative jazz solos. May be taken twice for credit. (CSU/UC)

MUS 116 Desktop Musician I
(3.0 Units) (No prerequisite. Two lecture and three laboratory hours weekly.)

Basic concepts of acoustics, techniques of electronic music synthesis, digital audio, and MIDI. Emphasis on performance/application of these techniques to portable synthesizers and computers. Course includes fundamentals of acoustics, multichannel recording, and editing techniques. Introduction to MIDI digital audio and its computer usage. Supervised “hands-on” practice sessions in addition to required individual lab time. (CSU/UC)

MUS 117 Desktop Musician II
(3.0 Units) (Prerequisite: Music 116. Two lecture and three laboratory hours weekly.)

Detailed study of digital recording via MIDI with emphasis on editing, looping, generating sequences, shifting, and quantizing. Continued study of acoustics as related to recording and synthesizer programming included. Performance/application is a requirement. Introduction to composer software. (CSU)

MUS 119 Media Music Composition
(3.0 Units) (Prerequisite: Music 111. Three lecture hours weekly.)

This course includes composing and arranging music for use in media (films, videos, commercials). Four composing projects will include woodwinds, brass, strings, and percussion. All compositions will be played and recorded. May be taken twice for credit. (CSU)

MUS 121 Ear Training I
(2.0 Units) (Prerequisite: Music 106. One lecture and three laboratory hours weekly.)

The ear training component of the music major package. Instruction includes rhythmic and melodic sight reading; rhythmic, melodic, and harmonic aural perception. Both Music 121 and 122 may be taken twice for credit. (CSU/UC)

MUS 122 Ear Training II
(2.0 Units) (Prerequisite: Music 121. One lecture and three laboratory hours weekly.)

The ear training component of the music major package. Instruction includes rhythmic and melodic sight reading; rhythmic, melodic, and harmonic aural perception. Both Music 121 and 122 may be taken twice for credit. (CSU/UC)

MUS 139 Selected Topics
(½-6 units)(Please see Selected Topics category.) (CSU/UC w/limit)

MUS 161 Youth Orchestra
(1.0 Unit) (No prerequisite. Three laboratory hours weekly.)

This orchestra is suited to the needs of the young performer, primarily at the high school level. It includes rehearsal and performance of standard orchestra literature from the Baroque, Classical, Romantic, and Contemporary periods. May be taken four times for credit. (CSU)

MUS 162 Band
(1.0 Unit) (Prerequisite: Music 176. Three laboratory hours weekly.)

A daytime instrumental music group for people with some skills with traditional band instruments. Players with limited skills as well as those with considerable experience are accepted. This course satisfies the major performing ensemble requirement for music majors and minors. Participation in public performance is required. May be taken four times for credit. (CSU/UC)

MUS 163 College Chorus
(1.0 Unit) (No prerequisite. Three laboratory hours weekly.)

Chorus of mixed voices for the general college student. The rehearsal and performance of choral music of a moderate degree of difficulty. Techniques of choral singing are emphasized. Participation in public performances is required. May be taken four times for credit. (CSU/UC)
MUS 165  Piano Ensemble
(2.0 Units) (Prerequisite: Standardized audition. Six laboratory hours weekly.)

The study, rehearsal, and performance of music for piano ensemble (one piano/four hands, two pianos/four hands, etc). Music majors who are pianists may satisfy two semesters of the major performing ensemble requirement with this course. May be taken four times for credit. (CSU/UC)

MUS 166  Piano Repertoire and Interpretation
(2.0 Units) (Prerequisite: Music 272 and standardized audition. Six laboratory hours weekly.)

A chronological survey of piano literature, stressing stylistic features. Students will perform in class and at a final recital. Music majors who are pianists may satisfy two semesters of the major performing ensemble requirement with this course. May be taken four times for credit. (CSU/UC)

MUS 167  Community Symphony Orchestra
(1.0 Unit) (Prerequisite: Standardized audition. Three laboratory hours weekly.)

The study, rehearsal, and performance of music composed for chamber orchestra and full symphony orchestra from Baroque, Classical, Romantic, and contemporary periods. Participation in public performances is required. May be taken four times for credit. (CSU/UC)

MUS 168  Community Symphonic Band
(1.0 Unit) (Prerequisite: Standardized audition. Three laboratory hours weekly.)

An advanced ensemble for wind and percussion players meeting in the evening. The study, rehearsal, and performance of band literature. Participation in public performances is required. May be taken four times for credit. (CSU/UC)

MUS 169  Community Chorus
(1.0 Unit) (Prerequisite: Standardized audition. Three laboratory hours weekly.)

A chorus of mixed voices for the College and the community. The study, rehearsal, and performance of masterpieces of choral literature, usually with orchestral accompaniment. Techniques of choral singing are emphasized. Participation in public performances is required. May be taken four times for credit. (CSU/UC)

MUS 170  Piano I
(2.0 Units) (Prerequisite: Music 106. Six laboratory hours weekly.)

Designed to help students develop mental and physical habits that lead to keyboard competence. Develops musicianship and sense of musical style and provides foundation for materials being studied in other components of the music program. May be taken twice for credit. (CSU/UC)

MUS 171  Piano II
(2.0 Units) (Prerequisite: Music 171. Six laboratory hours weekly.)

Designed to help students develop mental and physical habits that lead to keyboard competence. Develops musicianship and sense of musical style and provides foundation for materials being studied in other components of the music program. May be taken twice for credit. (CSU/UC)

MUS 172  Beginning Band
(1.0 Unit) (No prerequisite. Three laboratory hours weekly.)

A beginning study of a woodwind, brass, or percussion instrument. This course is designed for students who wish to learn a band or orchestral instrument other than a string instrument. It is strongly recommended for those planning to teach in the public schools and for those who plan to arrange or compose music. May be taken four times for credit, provided a different instrument is studied each semester. (CSU/UC)

MUS 173  Class Instrument Instruction: Brass
(1.0 Unit) (Prerequisite: Ability to read simple music. Advisory: Music 106. One-half lecture and one and one-half laboratory hours weekly.)

Beginning study of brass designed to introduce students to standard brass instruments as partial preparation for teaching in the public schools and for those who desire to learn a second instrument. Also, this class is appropriate for composers desiring a first-hand knowledge of these instruments. May be taken four times for credit, provided a different instrument is studied each semester. (CSU/UC)

MUS 174  Class Instrument Instruction: Percussion Technique
(1.0 Unit) (Prerequisite: Ability to read simple music. Advisory: Music 106. One-half lecture and one and one-half laboratory hours weekly.)

Beginning study of percussion designed to introduce students to standard percussion instruments as partial preparation for teaching in the public schools and for those who desire to learn a second instrument. Also, this class is appropriate for composers desiring a first-hand knowledge of these instruments. May be taken twice for credit. (CSU/UC)

MUS 175  Intermediate Band
(1.0 Unit) (Prerequisite: Music 173 or 174 or 175. Three laboratory hours weekly.)

A band of woodwinds, brass, and percussion to meet the requirements of players not yet advanced enough for concert band, but more advanced than the beginning classes. This course will prepare players for concert band. Ensemble techniques will be taught. May be taken four times for credit. (CSU/UC)
MUS 177  Jazz Ensemble  
(1.0 Unit) (Prerequisite: Standardized audition. Corequisite: Concurrent enrollment in major performing ensemble most appropriate to the individual’s performance medium. Three laboratory hours weekly.)

This course is for instrumentalists who desire both ensemble and solo training in the jazz idiom. Various styles of jazz and instrumental techniques are emphasized. Participation in public performances is required. May be taken four times for credit. (CSU/UC)

MUS 178  Class Instrument Instruction: Strings  
(1.0 Unit) (Prerequisite: Ability to read simple music. Advisory: Music 106. Three laboratory hours weekly.)

Beginning study of string instruments. May be taken four times for credit, provided a different instrument is studied each semester. (CSU/UC)

MUS 179  Intermediate Orchestra  
(1.0 Unit) (Prerequisite: Music 178. Three laboratory hours weekly.)

An orchestra primarily of string instruments designed to: (1) meet the requirements of players not yet ready for community orchestra, but more advanced than beginning strings, and (2) to prepare players for community symphony orchestra. Individual and ensemble techniques will be taught. May be taken four times for credit. (CSU/UC)

MUS 180A  Chamber Music Ensemble I  
(1.0 Unit) (Prerequisite: Standardized audition. Corequisite: Major performing ensemble most appropriate to the individual’s performing medium. Three laboratory hours weekly.)

The study, rehearsal, and performance of repertoire for small instrumental ensembles (may include voice). Choice of literature. Combinations of Music 180A and 180B may be taken a total of four times for credit. (CSU/UC)

MUS 180B  Chamber Music Ensemble II  
(2.0 Units) (Prerequisite: Standardized audition. Corequisite: Major performing ensemble most appropriate to the individual’s performing medium. Six laboratory hours weekly.)

The study, rehearsal, and performance of repertoire for small instrumental ensembles (may include voice). Choice of literature. Combinations of Music 180A and 180B may be taken a total of four times for credit. (CSU/UC)

MUS 181  Voice I  
(2.0 Units) (Prerequisite: Music 106 and standardized audition. Six laboratory hours weekly.)

Elementary class instruction in the fundamentals of singing, principles of tone production, and voice development. May be taken twice for credit. (CSU/UC)

MUS 182  Voice II  
(2.0 Units) (Prerequisite: Music 181. Six laboratory hours weekly.)

Elementary class instruction in the fundamentals of singing, principles of tone production, and voice development. May be taken twice for credit. (CSU/UC)

MUS 183  Chamber Singers  
(2.0 Units) (Prerequisite: Standardized audition. Corequisite: Music 163. Six laboratory hours weekly.)

A small select choir of mixed voices performing music written for small choral ensembles. Participation in public performances is required. May be taken four times for credit. (CSU/UC)

MUS 186A  World Music Workshop: Taiko Drumming Techniques and Rhythms  
(0.5 Unit) (No prerequisite. Each module is approximately thirteen hours per semester.)

This course provides the student the opportunity to focus on one aspect of world music—Taiko drumming—in an introductory short course, lecture/lab experience. Students will not only examine historical underpinnings of the topic but will have the opportunity to physically experience drumming using specific techniques and rhythms. May be taken four times for credit. (CSU/UC)

MUS 186B  World Music Workshop: African Drumming Techniques and Rhythms  
(0.5 Unit) (No prerequisite. Each module is approximately thirteen hours per semester.)

This course provides the student the opportunity to focus on one aspect of world music—African drumming—in an introductory short course, lecture/lab experience. Students will not only examine historical underpinnings of the topic but will have the opportunity to physically experience drumming using specific techniques and rhythms. May be taken four times for credit. (CSU/UC)

MUS 186C  World Music Workshop: Latin Drumming Techniques and Rhythms  
(0.5 Unit) (No prerequisite. Each module is approximately thirteen hours per semester.)

This course provides the student the opportunity to focus on one aspect of world music—Latin drumming—in an introductory short course, lecture/lab experience. Students will not only examine historical underpinnings of the topic but will have the opportunity to physically experience drumming using specific techniques and rhythms. May be taken four times for credit. (CSU/UC)
MUS 187  Chamber Orchestra
(1.0 Unit) (Prerequisite: Music 179. Three laboratory hours weekly.)
An orchestra primarily of stringed instruments designed to meet
the requirements of players not yet ready for Community
Symphony Orchestra, but more advanced than Beginning Strings
and Intermediate Orchestra. To prepare players for Community
Symphony Orchestra, individual and ensemble techniques will
be taught. May be taken four times for credit. (CSU/UC)

MUS 191  Musical Production: Orchestra
(1-3 Units) (Prerequisite: Standardized audition. Instructor will de-
cide the number of units to be given, with fifty hours of rehearsal and
performance required for each unit.)
Rehearsal and performance of orchestral accompaniment to
staged musical productions. Participation in public performances
is required and is the final exam for this course. May be taken four
times for credit. (CSU/UC)

MUS 193  Musical Production: Cast
(1-3 Units) (Prerequisite: Standardized audition. Instructor will de-
cide the number of units to be given, with fifty hours of rehearsal and
performance required for each unit.)
Rehearsal and performance of all vocal music aspects of
staged musical production. Participation in public performances
is required and is the final exam for this course. May be taken four
times for credit. (CSU/UC)

MUS 194  Applied Music
(1-2 Units) (Prerequisite: Instrumental or vocal ability. Corequisite:
Enrollment in any of the following performance ensembles: Music
163, 167, 168, 169, 177, 179, or 191. Advisory: Private instruction
is strongly advised but not required. For one unit, three laboratory
hours weekly. For two units, six laboratory hours weekly.)
Credit for supervised practice room use. In addition, attend-
ance at four noon recitals is required. All hours are verified by
sign-up procedure. May be taken four times for credit. (CSU)

MUS 211  Theory III
(4.0 Units) (Prerequisites: Music 112 and 122. Corequisite: Major
performing ensemble. Three lecture and three laboratory hours
weekly.)
Chromatic harmony is introduced through secondary dominants,
diminished sevenths and other secondary seventh chords, modal
borrowing, etc. Analysis and composition are included in discus-
sion and assignments. Some keyboard applications. (CSU/UC)

MUS 212  Theory IV
(4.0 Units) (Prerequisites: Music 211 and 221, unless previously
completed major performance ensemble. Three lecture and three
laboratory hours weekly.)
Additional chromatic harmonies, including Neapolitan sixths,
augmented sixth chords, and expanded tertial harmonies, are
examined, followed by an overview of impressionism and twen-
thieth-century harmony. Analysis and composition are included
in discussion and assignments. Some keyboard applications. (CSU/UC)

MUS 214  Music Composition Seminar
(3.0 Units) (Prerequisite: Music 212 or concurrent enrollment in Mu-
sic 211. Three lecture hours weekly.)
Individualized instruction in art music composition. Students
will work at their own pace on assignments of their choice. The
class will meet as a group to listen to compositions by students
as well as other composers. Students are expected to complete
several small or one large composition during the semester. May
be taken four times for credit. (CSU/UC)

MUS 221  Ear Training III
(2.0 Units) (Prerequisite: Music 122. One lecture and three labora-
tory hours weekly.)
A continuation of Music 121 and Music 122. May be taken
two times for credit. (CSU/UC)

MUS 222  Ear Training IV
(2.0 Units) (Prerequisite: Music 221. One lecture and three labora-
tory hours weekly.)
A continuation of Music 121 and Music 122. May be taken four
times for credit. (CSU/UC)

MUS 249  Directed Study
(1-3 units) (Limit to Enrollment Music 112, 122, and 172 with at least
a B minus grade average in all music major courses. Prior arrange-
ment with the instructor is necessary.)
A course designed to give the student the opportunity to
class will meet as a group to listen to compositions by students
as well as other composers. Students are expected to complete
several small or one large composition during the semester. May
be taken four times for credit. (CSU/UC)

MUS 261A  Small Ensemble Techniques
(1.0 Unit) (Prerequisite: Standardized audition. Three laboratory
hours weekly for one unit.)
This class focuses on improving the skills of the musician in
an ensemble. Recommended for students who already have had
chamber ensemble experience. Music 261A and Music 261B may
be taken for a total of eight units. (CSU/UC)

MUS 261B  Small Ensemble Techniques
(2.0 Units) (Prerequisite: Standardized audition. Six laboratory
hours weekly.)
This class focuses on improving the skills of the musician in
an ensemble. Recommended for students who already have had
chamber ensemble experience. Music 261A and Music 261B may
be taken for a total of eight units. (CSU/UC)
MUS 262A Large Ensemble Techniques
(1.0 Unit) (Prerequisite: Standardized audition. Three laboratory hours weekly.)

This class focuses on improving the skills of a musician in a large ensemble. Recommended for students who already have large ensemble experience. May be taken for a total of eight units. (CSU/UC)

MUS 262B Large Ensemble Techniques
(2.0 Units) (Prerequisite: Standardized audition. Six laboratory hours weekly.)

This class focuses on improving the skills of a musician in a large ensemble. Recommended for students who already have large ensemble experience. Music 262A and Music 262B may be taken for a total of eight units. (CSU/UC)

MUS 271 Piano III
(2.0 Units) (Prerequisite: Music 172. Six laboratory hours weekly.)

A continuation of Music 171 and 172, with more emphasis on the development of a functional knowledge of musical structure, melody, rhythm, harmony, and form. Attention is given to individual levels of achievement. May be taken twice for credit. (CSU/UC)

MUS 272 Piano IV
(2.0 Units) (Prerequisite: Music 271. Six laboratory hours weekly.)

A continuation of Music 171 and 172, with more emphasis on the development of a functional knowledge of musical structure, melody, rhythm, harmony, and form. Attention is given to individual levels of achievement. May be taken four times for credit. (CSU/UC)

MUS 281 Voice III
(2.0 Units) (Prerequisite: Music 182. Six laboratory hours weekly.)

Intermediate class instruction in the fundamentals of singing, principles of tone production, and voice development with emphasis on vocal literature. May be taken twice for credit. (CSU/UC)

MUS 282 Voice IV
(2.0 Units) (Prerequisite: Music 281. Six laboratory hours weekly.)

Intermediate class instruction in the fundamentals of singing, principles of tone production, and voice development with emphasis on vocal literature, particularly in Music 282. May be taken four times for credit. (CSU/UC)

NURSING EDUCATION: REGISTERED

The Registered Nursing Education Program at College of Marin prepares students for entry into the nursing profession and serves as a foundation for advanced nursing studies. The Program faculty view Nursing Education as an individualized, collaborative endeavor that assists students in acquiring the knowledge, skills, and values necessary for entry-level nursing practice. Emphasizing critical thinking, effective communication, and cultural and clinical competence, the Program aims to prepare graduates for roles as care providers across the health care continuum, as managers of care, and as active members of the nursing profession. The Program affirms the dignity and worth of each individual, and strives to educate students who are adaptable, responsible, politically aware, and committed to lifelong learning.

The Registered Nursing Program is guided and approved by the Board of Registered Nursing and accredited by the National League for Nursing Accrediting Commission. Graduates are prepared to take the National Council Licensure Examination for Registered Nurses.

Career Options

Member of a health care team in Acute Care, Home Care, Long-term Care, Physicians’ Offices, Public and Private Facilities, specialty units such as Dialysis, Geriatrics, Operating Room, etc., transfer to Bachelor's Program

Faculty

Carmen Carrouche-Rivers, Jeannie Langinger, Sara Lefkowitz, Diane Ridley, Joanna Ruddle
Rosalind Hartman, Director of Health Sciences

Department Phone: (415) 485-9319
http://www.marin.edu/departments/nursing

Transfer

Students planning to transfer to a four-year institution should complete the lower division major requirements and general education pattern for the appropriate transfer institution and major. Exact major requirements for UC and CSU institutions can be found on www.assist.org. Please see a counselor for more information as curriculum requirements may vary among transfer universities.

Graduates of the Registered Nursing Education Program may transfer to a number of colleges and universities to study for a Bachelor of Science degree in Nursing. Contact the Registered Nursing Education Department for information regarding the following schools:

Sonoma State University
San Francisco State University
Dominican University of California
A.S. in Nursing: Registered (R.N.), Occupational or Transfer

(IV Insertion Skills Certificate also awarded to Registered Nursing Students.)

The Registered Nursing Education Program, in preparation for licensure as a registered nurse, is offered only at the Kentfield Campus and requires two academic years of prescribed courses, including acquisition of the Associate in Science degree. The curriculum is offered in four semesters. Clinical placements require day and evening scheduling Monday through Saturday. Because the clinical rotations are scheduled on both days and evenings, it is strongly recommended that all course requirements for registered nursing licensure and the Associate of Science degree be taken prior to entry into the program.

The program offers opportunities for advanced placement for returning, challenge, and transfer students. Please see information in the next section regarding advanced standing.

Please note: In accordance with the California Code of Regulations, Title 16, Section 1426, all nursing students must comply with the requirements of the “California Board of Registered Nursing – Content Required for Licensure” in effect when the student is accepted into the College of Marin Registered Nursing Program. Current requirements are found under prerequisites and degree requirements located in this section of the catalog.

It is very important to make an appointment with a College of Marin counselor to review and clarify the current nursing program requirements for graduation and licensure. Students must fulfill the most current content for licensure requirements to qualify for the Registered Nursing Licensure Examination (NCLEX-RN).

Graduation Requirements for Students with a prior Bachelor’s Degree

In compliance with SB 139 (October 12, 2007), students applying for an Associate of Science Degree in Nursing who already possess a bachelor’s degree or higher degree from a regionally accredited institution of higher education in the United States may be awarded an associate degree upon completion of all of the coursework necessary for licensing as a registered nurse. This includes all of the prerequisites to the program and the degree requirements for nursing.

Degree Requirements
(Program is offered only at the Kentfield Campus.)

Completion of the following:
(a) Human Anatomy (Biology 120)
(b) Human Physiology (Biology 224)
(c) Microbiology (Biology 240)
(d) Chemistry 110
(e) English (English 120, 120SL, or 150)
(g) Psychology 110; and 112 or 114;
(h) One course to be selected from: Anthropology 102, 103, 208 or Sociology 110, 140;
(i) One course to be selected from: Speech 110, 120, or 128.

Registered Nursing Education Program

Enrollment Procedures for First Semester Students

The following information has been prepared to assist you in the planning and enrollment process. Please read and follow the directions carefully. We recommend that all students meet with a college counselor prior to applying to the program to plan their course of study.

I. Program Capacity:

Each year, the Nursing Program receives more requests for enrollment than the Program is able to accommodate. Enrollment in the Registered Nursing Program is limited because of facility constraints, an ongoing shortage of highly qualified nursing faculty, and the need to maintain a safe student/teacher ratio in the clinical setting. In order to maintain the highest quality instructional program possible, the Program can enroll only thirty-six students in the first year of the Nursing Program (which begins each Fall).

The best way to enhance your opportunity for enrollment is to review the enrollment requirements carefully, to ensure that you satisfy all requirements, and to provide timely application materials verifying that you meet all enrollment requirements. The Program is committed to providing equal educational opportunities for all qualified Program applicants.

II. Application Dates:

Students seeking enrollment in the first semester of the Program (i.e., the Fall term) must submit their completed application materials by February 1st. Applications are accepted January 2nd through February 1st. Applications will NOT be accepted for consideration either before January 2nd or after February 1st. It is the applicant’s responsibility to provide complete and accurate materials by the closing dates. Applications that are incomplete on the closing dates cannot be considered for review.

A description of what constitutes a complete application package for new students is discussed in Section IV below.

III. Course Prerequisites and Assessment Scores:

In order to be eligible for enrollment in the Program, students must complete course prerequisites and achieve required minimum assessment scores.

A. Course Prerequisite Completion: No student may enroll in the Program unless he/she has successfully completed certain courses. It is premature for a student to submit an application package if he/she cannot complete all prerequisites BY THE END OF THE FALL SEMESTER prior to submission of the application for admission to the Program the following Fall.

B. Course Grades: Students must successfully complete all prerequisite courses. This means the student must receive a letter grade of “C” or higher in all prerequisite courses for entry into the Program. Grades of “C minus,” “credit/no credit,” or “pass/no pass” are not accepted. All Nursing courses
required for licensure which have been completed prior to admission must also be successfully completed with a grade of “C” or higher.

C. Seven Prerequisite Courses: The Program has established seven prerequisite courses, listed below, that MUST be taken before a student can begin instruction in the Program. These courses are designed to assure that students accepted into the Program have the necessary skills, concepts, and/or information to pass the Registered Nursing courses and achieve academic success in the Program.

1. **Nursing Education 90**, Introduction to Nursing Education and Practice.

2. *Chemistry:* One semester of college chemistry (Chemistry 110 or Chemistry 114 or Chemistry 115) or one year high school chemistry are approved as equivalent courses. Must be taken for a letter grade.

3. *Anatomy:* One four- or five- (semester) unit college human anatomy course with laboratory (Biology 120). Must be taken for a letter grade.

4. *Physiology:* One four- or five- (semester) unit college human physiology course (Biology 224), with laboratory. Must be taken for a letter grade.

5. *Math:* Math 101 or Math 101AB or Math 101XY or College of Marin assessment test qualifying for Math 103 (challenge option).

6. *English:* English 120, 120SL, or 150. Must be taken for a letter grade. Effective Fall 2009, eligible program applicants will be required to have taken English 150.

7. *Microbiology:* One four- or five- (semester) unit college microbiology course (Biology 240), with laboratory. Must be taken for a letter grade.

* Note: If you are considering transfer of these courses, see Academic Transfer Program information at the front of this catalog.

Some of these prerequisite courses have their own prerequisites. Please refer to the individual course in this catalog for complete information on prerequisites.

D. Courses completed at other institutions: It is not necessary to take all the prerequisites at College of Marin. If you took some or all of the prerequisite courses at another college, and you are considering transferring these courses to College of Marin, please see Item 5, “Petition for Substitution for RN Students” under Section IV below. Prerequisite courses taken at institutions other than the College of Marin must be evaluated prior to acceptance into the Nursing Program.

E. Prerequisite and Corequisite Challenge: If you believe coursework you took at other institutions (or prior workplace experience) is equivalent to what you would learn in a prerequisite course, you can “challenge” a course prerequisite or corequisite. The “challenge” process is a rigorous assessment that requires you to demonstrate that you already have the knowledge or ability to succeed in the course or Program, despite not having taken a particular prerequisite course.

Contact the Nursing Department (or visit the Department website: http://www.marin.edu/departments/nursing) for RN challenge information. Like prerequisite courses themselves, challenges to prerequisite courses must be successfully completed prior to acceptance into the Nursing Program.

F. Course Recency: Courses in nursing education that were taken by returning students three or more years prior to a return to a nursing program will not be accepted. Three or more years reflects a significant lapse in time and the student must repeat all such courses.

G. Course Planning: Because clinical placements require day and evening scheduling, it is strongly recommended that all course requirements for RN licensure and AS degree requirements be taken prior to entry into the Nursing Program. Once a student starts the Nursing Program, it may be difficult to schedule other courses that are needed for RN licensure or the AS degree.

H. Course Advisories: In addition to completing required prerequisite courses, the Nursing Program strongly recommends that prospective students take two additional courses that will help them prepare for Nursing Instruction. These “advisory” courses are:

1. NE 95: Effective Strategies for Success in the Registered Nursing Program
2. CIS 101: Introduction to Personal Computers and Operating Systems

I. Assessment Scores:

1. Students who have successfully completed all course prerequisites must also achieve an assessment score of at least 72% to be admitted to the Program. The assessment score is determined by a formula which takes into account: (a) overall college GPA in the last five years, (b) the grade received in English 120 or 150, (c) the GPA in core biology courses (Anatomy, Physiology, and Microbiology prerequisites), and (d) course repetition in core biology courses. Course repetition is often necessary when a student received a substandard grade of “C minus,” “D,” “F,” “FW,” “no credit,” or “no pass,” or withdrew from a course with a “W” without completing it. This formula generates a score which is used to determine eligibility. Students will be required to have a score of at least 72%.

In determining the overall college GPA, a letter grade of “C” will be assigned to any with a grade of “Credit” or “Pass” for calculating that composite score.

2. Applicants who have satisfactorily completed all course prerequisites and received an assessment score of at least 72% (as described above) will then also be required to successfully complete the Test of Essential Skills (TEAS) prior to entry into the Program. Those applicants who do not meet the composite cutoff score of 67 on the TEAS will have one year to remediate and demonstrate readiness before retesting. Demonstra-
tion of readiness to enter the Program includes both successful completion of the remediation plan and successful retaking of the TEAS. Any student not meeting the remediation requirements within one year will be required to restart the application process as a new student. See Assessment Readiness Test Guidelines, available from the Nursing Department (or visit the Department website: http://www.marin.edu/departments/nursing.)

J. Registration Priority for Marin County residents: Because the Program is an impacted program, meaning it has limited space and cannot enroll all students who have been admitted to the College, registration priority is given to Marin County residents. Applicants who claim Marin County resident status must provide proof of Marin County residency with their application packages (please see Item 8 under Section IV below).

K. Random selection: In the event that there are more eligible candidates than openings, actual enrollment will be based on a computerized random selection method. Each qualified applicant will receive a number for the current application period.

IV. Requirements for a Complete Application:
All the forms referred to below can be obtained on the College of Marin Registered Nursing Program website: http://www.marin.edu/departments/nursing.

It is the applicant’s responsibility to provide complete and accurate application materials. The College has no responsibility to notify applicants of items missing from their application packages. All materials submitted as part of the application process are the property of College of Marin and will not be returned to applicants.

Application forms and supportive documents will be kept on file for one year following the selection process unless the student has agreed to complete the TEAS remediation. Materials on file past this time period will be destroyed. Applicants who were not accepted may reactivate their file with a new application form. A new application form with all necessary supportive documents must be submitted for each re-application to the Program.

Submit the following in a sealed envelope to:
Admission and Records
College of Marin
835 College Avenue
Kentfield, CA 94904-2590

1. College of Marin Registered Nursing Program Application (Typed or printed in ink). Be sure to document your required health care experience on this form. The form allows students to list all prerequisites completed at College of Marin.

2. Completed Health Clearance Form upon enrollment in the program. Due date will be announced in acceptance letter.

3. College of Marin Courses Required for RN Licensure/Graduation evaluation form. These courses include the prerequisite courses for Program enrollment as well as Speech 110, or 120, or 128, Psychology 110 and either 112 or 114, and three semester units from any of the following: Anthropology 102, 103, 208 or Sociology 110 or 140, and college graduation requirements.

4. Challenge Examination forms. (if a student has not completed prerequisite courses and plans to pursue the challenge option). The applicant must request that these scores be forwarded to the Registered Nursing Program.

5. Petition for Substitution of Prerequisite Courses for College of Marin Registered Nursing Program. If prerequisite courses were taken at other colleges, College of Marin must first determine for itself whether those courses are suitable substitutes for the College of Marin prerequisite courses. This process requires the student to petition the College to accept courses taken elsewhere as satisfying College of Marin prerequisites. Additional time is needed for the College to make these assessments. Therefore, students hoping to substitute courses taken at other colleges for College of Marin prerequisite courses must plan for additional time to allow the College to assess their applications.

Petitions for Substitution must be submitted before applying to the Nursing Program. It is the student’s responsibility to request official transcripts and course descriptions for the year the course was completed and attach catalog course descriptions to the Petition. Official transcripts must be mailed directly from the issuing college to College of Marin, Counseling Department, Kentfield, CA 94904 between September 1 and October 31 for admission the following fall. Those who submit the Petition for Substitution after October 31 are not guaranteed a decision in time for the RN application date. The Petition for Substitution will then be submitted and reviewed by Admissions and Records (Academic Standards Committee). The original approved/denied copy will be kept in the student file in the Counseling Office and a copy of the petition will be sent to the student.

Students who successfully petition for substitution must attach a copy of the approval of their petition to their Application for the Nursing Program.

6. Official Transcripts. The applicant is responsible for insuring that high schools and/or colleges that can verify successful completion of requirements or of requirements in progress mail official transcripts directly to the Nursing Department. The Nursing Department cannot accept transcripts that applicants submit directly. If the applicant is submitting the petition for evaluation as part of the application process, two sets of college transcripts must be submitted to the Nursing Department. Transcripts for courses taken at the College of Marin are not required.

7. Self-addressed stamped envelope. Include a self-addressed stamped envelope with your application.

8. Marin County Registration Priority Claim. California residents who provide proof of residency in Marin are given registration priority when the number of applicants exceeds available openings. To prove that you qualify for the Marin County registration priority, please provide documentation of proof of residency in Marin County for one (1) year prior

College of Marin Courses Required for RN Licensure/Graduation:

- Anthropology 102, 103, 208 or Sociology 110 or 140, and college graduation requirements.

- Challenge Examination forms for those students who plan to pursue the challenge option.

- Petition for Substitution of Prerequisite Courses for College of Marin.

- Official Transcripts from high schools and/or colleges that can verify successful completion of requirements.

- Self-addressed stamped envelope for mailing your official transcripts.
to application date: photocopy of California driver’s license or other state-issued identification and one of the following: income tax form from previous year, PG & E bill, Marin Municipal Water district or North Marin Water District bill.

9. Returning Students/Transfer Students/Students Previously Enrolled in Other Nursing Programs: Please provide a letter of reference from a nursing faculty member or the nursing program director if you are a student who was previously failing during the clinical phase of the curriculum. The letter must address whether the student posed a threat to the health and safety of patients in the clinical setting.

10. Criminal Background Clearance. Prospective Program students must provide a criminal record clearance prior to enrollment in the Program. Prospective students must sign and submit a release form and pay a fee of $43 to the Background Check Company.

(A) Notice Concerning Eligibility for the Nursing Program

Background checks are commonly completed on health care personnel, including students and volunteers. Current and prospective nursing students must at all times meet applicable hospital security standards for placement in mandatory clinical rotations at selected hospitals. Every student offered space in the program will be required to submit to a background screening prior to beginning clinical rotations as part of their clinical requirements for admission. A history of felony conviction(s) or any bar, exclusion or other ineligibility for federal program participation could render a student ineligible for clinical placement, as determined by the clinical agencies.

If a student cannot obtain background clearance from the clinical agencies, it will not be possible to place the student in the clinical area, which is a required component of the program. In the event that a student cannot obtain a background clearance, the space will be forfeited.

Students who are found to be ineligible for clinical placement by the clinical agency after admission to the nursing program shall be subject to dismissal from the program, as they will be unable to complete mandatory clinical rotations.

Note that the student is given an opportunity to receive a copy of the screening report. The student has the right to dispute the accuracy of the report.

(B) Notice Concerning Board of Registered Nursing Licensure

Prior to obtaining a license to practice as a Registered Nurse, all graduates must report felony and misdemeanor convictions along with submission of fingerprints. The Board of Registered Nursing may deny licensure based on prior convictions. For a list of convictions substantially related to the practice of nursing, please contact the Nursing Department or the Board of Registered Nursing Web page: www.rn.ca.gov.

If students have any questions about the background screening, nursing program eligibility, or the Board of Registered Nursing requirements, they should contact the Nursing Program Director.

Please note: If you know that you will be unable to pass a background check that discloses prior criminal convictions, you may wish to schedule time with an academic counselor to explore other important and fulfilling programs that do not require a criminal background clearance.

11. Test of Essential Skills (TEAS) test results: Applicants who have taken the TEAS test prior to application to the program must request that an official score report be mailed directly from the vendor (Assessment Technology Institute) to the Nursing Department.

12. Proof of Remediation: Students who do not score at least 67 on the TEAS may take a retest after remediation. For information on the remediation, please refer to Enrollment Procedures/Assessment Readiness Test for detailed information. Applicants have one year to remediate. Reapplication must include demonstration of successful completion of a remediation plan and successful retaking of the TEAS test with a passing composite score.

Any student not meeting the remediation requirements by the following application period (one year) will be required to restart the application process as a new student.

V. Screening Procedure for Enrollment in the Program:

Each application received is reviewed by a Nursing Department Committee to determine that the basic enrollment prerequisites and requirements have been met. Applications which are not complete by the application due date or which do not verify completion of the listed prerequisites are not eligible for enrollment and will not be considered further. The Committee ensures that:

1. The student completed all prerequisite courses with a “C” or better (grades of “C minus,” “no credit,” or “no pass” are not accepted) prior to submission of the application for enrollment in the Program. Students who wish to challenge a prerequisite must demonstrate that they have completed the challenge process prior to enrollment. Students who wish to substitute courses not taken at the College of Marin for prerequisite courses must demonstrate that their substituted courses have been approved by the College of Marin.

2. The student submitted all required application materials as described in Section IV above, “Requirements for a Completed Application” to the Office of Admissions and Records by the closing deadline.

3. Students documented evidence of work or volunteer history in a health related environment or field or equivalent.

4. The application materials are complete and timely.
5. The student scored 72% or higher using the composite formula.

6. The student scored at least 67 on the Test of Essential Academic Skills (TEAS). The TEAS test will be administered to applicants who have met all prerequisites and selection criteria and are eligible for selection for the program. Please be patient, it will take time for the Nursing Department to complete this procedure.

7. The student who did not pass the TEAS test submitted evidence of successful remediation and a score of 67 on the retest.

8. Registration priorities are applied.

It is not necessary to contact the Nursing Department regarding your application status. You will be notified by mail or email no later than June 1 concerning your enrollment status and the assigned test dates for the assessment test.

Final enrollment is contingent on achieving a composite score of 67 on the TEAS test. Spaces, should they occur, will be filled by the next qualified applicant until the Fall Semester begins.

Reapplication

All students who were determined eligible (met all eligibility requirements and passed TEAS test) but not selected due to a lack of sufficient openings or inability to meet the TEAS composite score must resubmit the application form and any new supportive documents to be considered for the next year’s Program openings.

Readmission

Students who drop out of the Program prior to completion of the first semester must reapply for subsequent admission and are given the same consideration as first time applicants. All applicants are bound by any new admission requirements and should contact a College counselor or the Nursing Department to determine such requirements.

Waiting List

The top ten eligible applicants with registration priorities, including those who successfully completed the remediation plan and successfully passed the TEAS test, are offered space in the next year’s first semester (i.e., the fall term). The remaining eligible applicants from the prior year will be included with the current year’s applicants (first time applicants) and assigned numbers as described above if the number of eligible applicants exceeds openings.

Enrollment Procedures for Returning, Transfer, or Challenge Students

Definitions:

Returning student: A student who left College of Marin Registered Nursing Education Program in the second, third, or fourth semester after successfully completing the first semester.

Transfer student: A student who successfully completed one or more semesters of nursing education courses in another program.

Challenge student: A student who had prior nursing education (LVN or PT) or other health care education or experience who wishes to enter the Registered Nursing Education Program with advanced standing and receive credit for previous education or prior work experience.

I. Program Capacity:

Each year, the Nursing Program receives more requests for enrollment than the Program is able to accommodate. Enrollment in the Registered Nursing Program is limited because of facility constraints, the ongoing shortage of highly qualified nursing faculty, and the need to maintain a safe student/teacher ratio in the clinical setting. Enrollment for advanced placement, transfer, and challenge students occurs on the basis of available clinical spaces.

The best way to enhance your opportunity for enrollment is to review the enrollment requirements carefully, to ensure that you satisfy all requirements, and to provide timely application materials verifying that you meet all enrollment requirements. The Program is committed to providing equal educational opportunities for all qualified Program applicants.

II. Application Dates:

Students seeking enrollment in the third semester of the Program (i.e., the Fall term) must submit their completed application materials by February 1st. Applications are accepted January 2nd through February 1st. Applications will NOT be accepted for consideration either before January 2 or after February 1st. Applications for enrollment in the second or fourth semesters are accepted September 1 through October 1 for the spring semester. It is the applicant’s responsibility to provide complete and accurate materials by the closing dates. Applications that are incomplete on the closing dates cannot be considered for review.

A description of what constitutes a complete application package for returning, transfer, or challenge students is discussed in section IV below.

III. Course Prerequisites and Assessment Scores:

In order to be eligible for enrollment in the Program, students must complete course prerequisites and achieve required minimum assessment scores.

A. Course Prerequisites Completion: No student may enroll in the Program unless he/she has successfully completed certain courses. It is premature for a student to submit an application package if he/she cannot complete all course prerequisites BY THE END OF THE FALL SEMESTER prior to submission of the application to the Program for the following Fall admission, or BY THE END OF THE SPRING SEMESTER prior to submission of the application to the program for the following spring admission.

B. Course Grades: Students must successfully complete all prerequisite courses. This means the student must receive a letter grade of “C” or higher in all prerequisite courses for entry into the Program. Grades of “C minus,” “credit/no credit,” or “pass/no pass” are not accepted. All Nursing courses
required for licensure which have been completed prior to admission must also be successfully completed with a grade of “C” or higher.

C. Seven Prerequisite Courses: The Program has established seven prerequisite courses, listed below, that MUST be taken before a student can begin instruction in the Program. These courses are designed to assure that students who are accepted into the Program have the necessary skills, concepts, and/or information to pass the Registered Nursing courses and achieve academic success in the Program.

1. **Nursing Education 90**, Introduction to Nursing Education and Practice.
2. **Chemistry**: One semester of college chemistry (Chemistry 110 or Chemistry 114 or Chemistry 115) or one year high school chemistry are approved as equivalent courses. Must be taken for a letter grade.
3. **Anatomy**: One four- or five- (semester) unit college human anatomy course with laboratory (Biology 120). Must be taken for a letter grade.
4. **Physiology**: One four- or five- (semester) unit college human physiology course (Biology 224), with laboratory. Must be taken for a letter grade.
5. **Math**: Math 101 or Math 101AB or Math 101XY or College of Marin assessment test qualifying for Math 103 (challenge option).
6. **English**: English 120, 120SL, or 150. Must be taken for a letter grade. Effective Fall 2009, eligible program applicants will be required to have taken English 150.
7. **Microbiology**: One four- or five- (semester) unit college microbiology course (Biology 240), with laboratory. Must be taken for a letter grade.

* Note: If you are considering transfer of these courses, see Academic Transfer Program information in the front of this catalog.

Some of these prerequisite courses have their own prerequisites. Please refer to the individual course in this catalog for complete information on prerequisites.

Thirty-Unit Option LVN prerequisites include physiology and microbiology.

D. Courses completed at other institutions: It is not necessary to take all the prerequisites at College of Marin. If you took some or all of the prerequisite courses at another college and you are considering transferring these courses to College of Marin, please see Item 5, “Petition for Substitution for RN Students” under Section IV above. Prerequisite courses taken at institutions other than College of Marin must be evaluated prior to acceptance into the Nursing Program.

E. Prerequisite and Corequisite Challenge: If you believe coursework you took at other institutions (or prior workplace experience) is equivalent to what you would learn in a prerequisite course, you can “challenge” a course prerequisite. The “challenge” process is a rigorous assessment that requires you to demonstrate that you already have the knowledge or ability to succeed in the course or Program despite not having taken a particular prerequisite course. Contact the Nursing Department for the RN challenge information. Like prerequisite courses themselves, challenges to prerequisite courses must be successfully completed prior to acceptance into the Nursing Program.

F. Course Recency: Courses in nursing education that were taken by returning students three or more years prior to a return to a nursing program will not be accepted. Three or more years reflects a significant lapse in time and the student must repeat all such courses.

G. Course Planning: Because clinical placements require day and evening scheduling, it is strongly recommended that all course requirements for RN licensure and AS degree requirements be taken prior to entry into the Nursing Program. Once a student starts the Nursing Program, it may be difficult to schedule other courses that are needed for RN licensure or the AS degree.

H. Course Advisories: In addition to completing required prerequisite courses, the Nursing Program strongly recommends that prospective students take two additional courses that will help them prepare for Nursing instruction. These “advisory” courses are:

1. NE 95: Effective Strategies for Success in the Registered Nursing Program
2. CIS 101: Introduction to Personal Computers and Operating Systems

I. Assessment Scores:

1. Students who have successfully completed all course prerequisites must also achieve an assessment score of at least 72% to be admitted to the Program. The assessment score is determined by a formula which takes into account: (a) overall college GPA in the last five years, (b) the grade received in English 120 or 150, (c) the GPA in core biology courses (Anatomy, Physiology, and Microbiology prerequisites), and (d) course repetition in core biology courses. Course repetition is often necessary when a student received a substandard grade of “C minus,” “D,” “F,” “FW,” “no credit,” or “no pass,” or withdrew from a course with a “W” without completing it. This formula generates a score which is used to determine eligibility. Students will be required to have a score of at least 72%.

In determining the overall college GPA, a letter grade of “C” will be assigned to any with a grade of “Credit” for calculating that composite score.

2. Applicants who have satisfactorily completed all course prerequisites and received an assessment score of at least 72% as described above, will then also be required to successfully complete the Test of Essential Skills (TEAS) prior to entry into the Program. Those applicants who do not meet the composite cut off score of 67 on the TEAS will have one year to remediate and demonstrate readiness before retesting. Demonstration of
J. Registration Priority for Marin County residents: Because the Program is an impacted program, meaning it has limited space and cannot enroll all students who have been admitted to the College, registration priority is given to Marin County residents. Applicants who claim Marin County resident status must provide proof of Marin County residency with their application packages.

K. Random selection: In the event that there are more eligible candidates than openings, actual enrollment will be based on a computerized random selection method. Each qualified applicant will receive a number for the current application period

L. High School education or equivalent: High school diploma, GED, high school equivalency (waived with a college degree). Please note that Title 16, Section 1412 of the California Code of Regulations states that proof of high school education or the equivalent (high school diploma, GED, high school equivalency, college degree) is required by the person applying for a license as a registered nurse. The nursing department requires this proof for licensure application if you are not pursuing the degree option.

M. Challenge Degree Option Procedures:
1. **LVN Challenge Degree Option Procedures.** To receive advanced placement for Nursing Education 135, 135L, 138, 140, 140L, 210, 210L, submit:
   a. Transcript from state-accredited LVN/LPN Program, showing coursework completed with 72% or above. LVNs who challenged boards must have their portfolio evaluated for the degree option.
   b. Current California LVN license.
   c. Evidence of current experience as an LVN within the last three years.

2. **LVN Thirty-unit Option/Nondegree Option.** MUST COMPLETE prerequisite #4, Human Physiology, and #5, Microbiology.

3. **Challenge Procedures for Psychiatric Technician.** To receive advanced placement for Nursing Education 135, 135L, 138 submit:
   a. Evidence of current experience within the last three years in a mental health facility, and:
   b. Current California Psychiatric Technician license, and:
   c. Transcript showing completion of coursework from Psychiatric Technician Program, with a grade of 72% or above.

IV. Requirements for a Completed Application:
All students please follow Section IV for new students, above. Additional application requirements include the following:

1. **License:** Submit a copy of a valid California LVN or LPT license, if applicable.

2. **Work Experience:** Submit proof (a written statement from your employer) of one year of continuous employment in an acute hospital or mental health facility in the last three years as an LPT or LVN.

3. **Nondegree Option LVN:** Submit #1, #2, #3, #4, #5, #6, #7, #8, and #9, listed in Section IV for new students, above.

V. Screening Procedure for Enrollment in the Program:
Each application received is reviewed by a Nursing Department Committee to determine that the basic enrollment prerequisites and requirements have been met. Applications which are not complete by the application due date or which do not verify completion of the listed prerequisites are not be eligible for enrollment will not be considered further. The Committee ensures that:

1. The student completed all prerequisite courses with a “C” or better (grades of “C minus,” “no credit,” or “no pass” are not accepted) prior to submission of the application for enrollment in the Program. Students who wish to challenge a prerequisite must demonstrate that they have completed the challenge process prior to enrollment. Students who wish to substitute courses not taken at the College of Marin for prerequisite courses must demonstrate that their substituted courses have been approved by the College of Marin.

2. The student submitted all required application materials as described in Section IV for new students (above), “Requirements for a Completed Application” to the Office of Admissions and Records by the closing deadline.

3. Students documented evidence of work or volunteer history in a health related environment or field or equivalent.

4. The application materials are complete and timely.

5. The student scored 72% or higher using the composite formula.

6. The student scored at least 67 on the Test of Essential Academic Skills (TEAS). The TEAS test will be administered to applicants who have met all prerequisites and selection criteria and are eligible for selection for the program. Please be patient, it will take time for the Nursing Department to complete this procedure.

7. The student who did not pass the TEAS test submitted evidence of successful remediation and a score of 67 on the retest.

8. Registration priorities are applied.
Vacancies which occur in the RN Program in the second, third, or fourth semester, are filled according to the following priority:

1. Returning students who left the College of Marin Nursing Program in good standing.
2. Successful challenge students (LVN or LPT).
3. Transfer students or other returning students.
4. LVN 30-unit option student.

It is not necessary to contact the Nursing Department regarding your application status. You will be notified by mail or email no later that June 1 or January 2 concerning your enrollment status and the assigned test dates for the assessment test.

Final enrollment is contingent on achieving a composite score of 67 on the TEAS test. Spaces, should they occur, will be filled by the next qualified applicant until the Fall Semester begins.

Reapplication
All students who were determined eligible (met all eligibility requirements and passed TEAS test) but not selected due to a lack of sufficient openings or inability to meet the TEAS composite score must resubmit the application form and any new supportive documents to be considered for the next year’s Program openings.

Readmission
Students who drop out of the Program prior to completion of the first semester must reapply for subsequent admission and are given the same consideration as first time applicants. All applicants are bound by any new admission requirements and should contact a College counselor or the Nursing Department to determine such requirements.

Waiting List
The top ten eligible applicants with registration priorities including those who successfully completed the remediation plan and successfully passed the TEAS test are offered space in the next year’s first semester (i.e., the fall term). The remaining eligible applicants from the prior year will be included with the current year’s applicants (first time applicants) and assigned numbers as described above if the number of eligible applicants exceeds openings.

Degree Requirements
Please note: Students may choose English 120, 120SL, or 150 to complete the Associate degree. Transfer students, however, are advised to complete English 150. All students should consult a counselor.

Board of Registered Nursing Content Required for Licensure

Suggested Sequence of Courses for Students

Requirements Units
Freshman Year — First Semester
NE 101 Level I Nursing Skills Laboratory 1
NE 135 Nursing I: Fundamentals of Nursing 4
NE 135L Nursing I: Fundamentals Clinical Laboratory 2½
NE 138 Introduction to Pharmacology and Medication Administration for Nurses 1
PSY 110 Introduction to Psychology 3
Communication Skills Requirement (See Note 3a and b following)

Freshman Year — Second Semester
NE 102 Nursing Skills Laboratory ½
NE 140 Nursing II: Medical-Surgical Nursing 3
NE 140L Nursing II: Medical-Surgical Clinical Laboratory 2½
NE 210 Nursing Care of the Childbearing Family 2
NE 210L Nursing Care of the Childbearing Family Clinical Laboratory 2
NE 220A Pharmacology in Nursing-A 1
PSY 112 Child and Adolescent Psychology 3
Or
PSY 114 The Psychology of Human Development: Lifespan 3

Freshman Year — Second Semester
NE 203 Level III: Nursing Skills Laboratory ½
NE 212 Nursing in Mental Health and Nursing of the Older Adult 2
NE 212L Nursing in Mental Health and Nursing of the Older Adult Clinical Laboratory 2
NE 214 Nursing III: Advanced Concepts in Mobility, Sensation and Cognition 2
NE 214L Nursing III: Advanced Concepts in Mobility, Sensation and Cognition Clinical Laboratory 2½
NE 220B Pharmacology in Nursing 1
Behavioral and/or Social Sciences Requirement (See note 3b following)
Sophomore Year — Third Semester
NE 216 Nursing III: Advanced Concepts in Cardiovascular Oxygenation and Renal Function 2
NE 216L Nursing III: Advanced Concepts in Cardiovascular Oxygenation and Renal Function Clinical Laboratory 2½
NE 225 Nursing Leadership and Management 2
NE 225L Clinical Transitions: Clinical Laboratory 2½
Communication Skills 3

Additional Courses Required for General Education Degree
American Institutions 3
Humanities 3
Physical Education 1
Cross Cultural Studies 3
Communication and Analytical Thinking 3

Notes:
1. Only those completing all of the nursing requirements of a semester may advance to the following semester.
2. Equivalent classes will be accepted on a class-by-class evaluation basis. Acceptable classes at the College of Marin are listed in the Counseling Department.
3. The following list of classes will be accepted to meet communication skills and related behavioral and social science requirements.
4. Grading in the Registered Nursing Education Program: A final grade of "C" (72%) in any theory course and a credit in the practicum or skills lab courses are required in the nursing major. Students must achieve a grade of 72% or higher in the theory courses and a "Pass" in the clinical courses in order to pass each course.

5. Dismissal from the Registered Nursing Education Program: A student who receives a grade lower than "C" (72%) in any of the nursing education theory courses or a "No Pass" in practicum or skills lab courses required for the nursing major may not continue in the program. While some courses are not sequential, students who receive a grade lower than "C" in any nursing course may NOT progress to the next rotation in the program. Students who withdraw from or fail a course during or in a rotation must withdraw from all nursing courses as theory, lab, and clinical courses are designed for concurrent enrollment.

If, at any time, a student's conduct displays potential harm to the well-being of patients, as determined by the nursing faculty, the student will be withdrawn from the nursing major; this includes academic honesty. If, at any time, the physical or emotional health of a student appears such that he or she cannot withstand the program in nursing, the student will be withdrawn. The amount of time that can be lost in any nursing course, for any reason, will be determined by the instructor teaching the course.

6. Repeatability of Registered Nursing Education Courses: Students may not repeat any nursing education courses unless they are re-enrolled into the Registered Nursing Education Program. Students who fail any nursing course, academically or clinically, two times, or fail a second course after readmission, or withdraw from the program two times will not be eligible for re-enrollment in the program.

Licensure: Eligibility requirements for Registered Nursing Licensure Examination (NCLEX - RN) may be met by any one of the following:

(a) Communication Skills Requirement: (six units) English 120, or English 120SL, or English 150, for three units, must be completed to fulfill the general education written composition requirement for graduation.

The remaining three units may be selected from one of the following courses: Speech 110 or 120 or 128

(b) Related Behavioral and Social Sciences Requirement: (nine units)

Required: Psychology 110 and 112 or 114, (three units each)

The remaining three units may be selected from one of the following courses:

Anthropology 102, 103, 208, Sociology 110, 140

Upon completion of requirements for licensure, the student must apply to take the licensing exam for registered nurses, and may not function as a registered nurse until notice has been received that the examination has been passed.

First-time examination candidates may apply for an Interim Permit to work in a limited capacity while awaiting the results of their examination. Contact the Registered Nursing Education Program Director or the Board of Registered Nursing Website at: www.rm.ca.gov for further information about Interim Permits.

Advanced Standing, LVN Challenge, LVN Thirty-Unit Option, Psychiatric Technicians and Other Health Care Workers: Licensed vocational nurses (LVN), licensed psychiatric technicians (LPT), and other health care workers may receive credit for previous nursing education and/or work experience through a challenge program or equivalency determination to enter the Registered Nursing Education Program with advanced standing. Upon completion of the requirements for graduation, students will receive an Associate degree and be eligible to sit for the licensing examination.

Licensed vocational nurses (LVN) may gain eligibility to sit for the State licensing examination by completing the 30-unit option. The required course sequence for the 30-unit option includes two prerequisite courses (physiology and microbiology), and the following courses: Nursing Education 212, 212L, 214, 214L, 216, 216L, 225 and 225L.

An informational meeting is held each year.

Transfer students, individuals who have had formal nursing education (other Registered Nursing Programs), may also enter the Registered Nursing Education Program with advanced standing. Provision will be made to exempt these students from selected nursing courses and placement will be made based upon individual review of records for equivalent experiences.

Details regarding procedures for enrollment and general information regarding all of the above may be obtained by contacting the Registered Nursing Education Office.

TRANSFER UNITS: In order to apply units completed at another institution toward a degree, students must present official transcripts (with an embossed seal). Transcripts must be in a sealed envelope.

Skills Certificates

Skills Certificates are an acknowledgement that the student has attained a specified set of competencies within an occupational program. Skills Certificates may be part of a “ladder” of skills, beginning with job entry skills and leading to a full Certificate of Achievement or may constitute a skill set that enables a student to upgrade or advance in an existing career. Skills Certificates require less than 18 units and are shorter in duration than the Certificates of Achievement.

IV Insertion Skills Certificate: This Skills Certificate is awarded to the RN student upon successful completion of Nursing Education 203 skills lab training classes in IV insertion. The student must demonstrate competency in the knowledge and skill of IV policy and procedure in a return demonstration in skills lab and three successful IV insertions on patients in the hospital in Nursing Education 225L.
Nursing Education Courses (NE)

NE 039  Selected Topics (Nondegree Applicable)
(½-6 units) Please see Selected Topics category.)

NE 090  Introduction to Nursing Education and Practice
(1.0 Unit) (No prerequisite. Two lecture hours weekly for eight weeks.)
This course is required for applicants to the Registered Nursing Program, as well as persons seeking information about nursing education. The role of nursing within the context of the health care delivery system is explored. Vital information about college resources, planning, and admission requirements to the nursing program are included. Professional communication, coping strategies, time management skills, and test taking strategies are outlined. The functions of the Board of Registered Nursing are summarized. Students will learn what reading, writing, speaking, and math competencies are needed in nursing school. Diagnostic tests in reading, writing, verbal and math skills will be given to help students identify and to meet academic factors which will promote successful completion of the nursing program.

NE 095  Effective Strategies for Success in the Registered Nursing Program
(1.0 Unit) (No prerequisite. Seventeen and one-half lecture hours for one week.)
This course is designed to introduce the nursing student to the College of Marin Registered Nursing Critical Thinking Model, explore test taking strategies, and identify techniques to navigate the nursing program successfully. Classroom learning exercises and collaborative learning projects are used to apply the information.

NE 100  Introduction to Health Careers
(2.0 Units) (No prerequisite. Can be taken for credit as Dental Assisting 100, Medical Assisting 100, or Nursing Education 100. Credit will be awarded for only one course. Two lecture hours weekly.)
This course is designed for students interested in pursuing a career in a health profession. It provides an overview of the current health care delivery system, the physical, mental, and emotional demands of the workplace and the skills needed by the healthcare worker today and in the future. Students will learn about qualifications and professional preparation needed for various careers and analyze the roles and responsibilities in today's health care environment. This course is designed to help students develop realistic career goals as well as to give an appreciation of how the current health care delivery system is influencing individual health professional roles and responsibilities.

NE 101  Level I Nursing Skills Laboratory
(1.0 Unit) (No prerequisite. Corequisites: Nursing Education 138 and 135, and enrollment in the Registered Nursing Program. Three laboratory hours weekly.)
This course provides opportunities for first-year registered nursing students (Level I) to learn and practice basic assessment and technical skills fundamental to professional nursing across the lifespan in the safety of a simulated clinical environment. Instruction includes presentation of evidence-based practice and scientific rationales for performance of technical skills, skill demonstrations, and the opportunity for guided/supervised student practice. In addition to the achievement of technical skill competency, emphasis is placed on integrating the use of the nursing process, communication and documentation skills, client care management skills, and critical thinking and problem solving skills through the use of clinical simulations and case scenarios. (CSU)

NE 102  Level II Nursing Skills Laboratory
(0.5 Unit) (No prerequisite. Corequisite: Nursing Education 140. Two laboratory hours weekly for twelve weeks.)
This course provides opportunities for first-year registered nursing students (Level II) to learn and practice intermediate assessment and technical skills fundamental to professional nursing across the lifespan in the safety of a simulated clinical environment. Instruction includes presentation of evidence-based practice and scientific rationales for performance of technical skills, skill demonstrations, and the opportunity for guided/supervised student practice. In addition to the achievement of technical skill competency, emphasis is placed on integrating the use of the nursing process, communication and documentation skills, client care management skills, and critical thinking and problem solving skills through the use of clinical simulations and case scenarios. (CSU)

NE 103  Open Skills Lab
(0.5 Unit) (No prerequisite. Corequisites: Nursing Education 101, 102, or 138. One and one-half laboratory hours weekly.)
This course provides opportunities for first-year registered nursing students concurrently enrolled in a nursing skills lab course (Nursing Education 101, 102 or 138) to have additional supervised practice performing clinical skills that are required for the profession of registered nursing. Students may enroll in Nursing Education 103 concurrent with other nursing skills labs during the fall and spring semesters of the first year of the nursing program. (CSU)

NE 110  Role Transition: LVN to RN
(1.0 Unit) (Prerequisite: Admission to LVN to RN Transition. Seventeen and one-half lecture hours over three days.)
This course is designed to assist the LVN students to adapt to change and transition as they pursue education to become a registered nurse. Discussion topics will include the role of the registered nurse, change theory, a critical thinking model, nursing care planning, leadership and legal responsibilities, and intravenous therapy management and medication administration. This course is designed to meet the National League of Nursing Accrediting Commission standards. (CSU)
NE 135  Nursing I: Fundamentals of Nursing
(4.0 Units) (Prerequisites: English 120; Biology 120, 224, 240; Chemistry 110; Nursing Education 90. Advisory: Computer Information Systems 101. Corequisite: Nursing Education 138. Four lecture hours weekly.)

This is a foundation course for nursing practice. The course presents concepts related to clients within the context of their environments, including growth and development, culture, and health–illness, and to the health care delivery system and the political, economic, and social factors that affect it. The course introduces caring in nursing, critical thinking in applying the nursing process and managing client care, communication, client education, and legal and ethical practice. Students learn how to perform an age-specific health assessment and basic physical examination, to recognize alterations in these assessments, and to engage in therapeutic interventions that promote and maintain clients’ health. Students learn fundamental nursing concepts related to care of immobilized clients, surgical clients, clients with alterations in skin/tissue integrity, and clients with sensory alterations. (CSU)

NE 135L  Nursing I: Fundamentals Clinical Laboratory
(2.5 Units) (No prerequisites. Corequisite: Nursing Education 101 and Nursing Education 135. Seven and one-half laboratory hours weekly.)

This course is the clinical laboratory for Nursing Education 135. Students learn to perform an age-specific health assessment and a basic physical examination, to recognize alterations in these assessments, and to engage in activities that promote and maintain clients’ health. Students apply the nursing process to the care of the immobilized client, the surgical client, the client with an alteration in skin/tissue integrity, and the client with a sensory alteration. (CSU)

NE 138  Introduction to Pharmacology and Medication Administration for Nurses
(1.0 Unit) (Prerequisite: Math 101. Corequisite: Nursing Education 135. One lecture hour weekly.)

This course focuses on the registered nurse’s role in drug therapy. It introduces principles of pharmacology, explores legal, ethical, cultural, psychological and educational aspects of medication administration, and provides a framework based on the nursing process for the safe preparation and administration of medications to all age groups. The course focuses on principles for the safe preparation and administration of medications by the following routes: enteral (e.g., oral and via gastric tubes), topical (including skin and mucous membranes, e.g., eye, ear, buccal, sublingual, vaginal, rectal), inhalation, and parenteral (e.g., intradermal, subcutaneous, intramuscular, intra-venous). Drug dosage calculation is emphasized. (CSU)

NE 139  Selected Topics
(½-6 units) (Please see Selected Topics category.) (CSU w/limit)

NE 140  Nursing II: Medical-Surgical Nursing
(3.0 Units) (Prerequisites: Nursing Education 135 and 138. Six lecture hours weekly for eight weeks.)

This course builds on nursing concepts presented in Nursing I and prepares students to apply the nursing process to pediatric and adult clients with non-critical/moderately complex medical-surgical conditions. The selected medical-surgical conditions involve alterations in fluid/electrolytes and acid/base balance, oxygenation, nutrition, elimination, and endocrine regulation. Included are concepts of pathophysiology, medical/surgical management, and collaborative care. There is an emphasis on the nurse’s role in preventing health problems, reducing complications, and maintaining physiological and psychological integrity. (CSU)

NE 140L  Nursing II: Medical-Surgical Clinical Laboratory
(2.5 Units) (No prerequisites. Corequisites: Nursing Education 102 and 140. Fifteen laboratory hours weekly for eight weeks.)

This course is the clinical laboratory for Nursing Education 140. Students apply the nursing process to the care of pediatric and adult clients with non-critical/moderately complex medical-surgical conditions, involving alterations in fluid/electrolytes and acid/base balance, oxygenation, nutrition, elimination and endocrine regulation. Students learn to conduct a comprehensive nursing assessment and to intervene to prevent health problems and reduce complications. Students learn to manage care for two moderately complex clients and to apply risk reduction strategies to protect the client and maintain legal and ethical nursing practice. (CSU)

NE 203  Level III: Nursing Skills Laboratory
(0.5 Unit) (No prerequisite. Corequisites: Nursing Education 210, 212, 214, and 216. Other Limitation on Enrollment: Enrollment in College of Marin Registered Nursing Program. Two laboratory hours weekly for twelve weeks.)

This course provides opportunities for second-year registered nursing students (Level III) to engage in critical thinking and problem solving while learning and practicing advanced assessment and technical skills fundamental to professional nursing across the lifespan in the safety of a simulated clinical environment. Includes instruction to provide and reinforce theory and explain the context of the skill, skill demonstrations, and the opportunity for guided student practice. In addition to the achievement of technical skill competency, emphasis is placed on integrating the use of the nursing process, communication and documentation skills, client care management skills, and critical thinking and problem solving skills through the use of clinical simulations and case scenarios. (CSU)
NE 205  Open Skills Lab  
(0.5 Unit) (No prerequisite. Corequisite: Nursing Education 203. One and one-half laboratory hours weekly.)

This course provides opportunities for registered nursing students who have completed the required first-year skills labs (Nursing Education 101 and 102) to have additional supervised practice performing clinical skills that are required for the profession of registered nursing. Students may enroll in Nursing Education 205 to review and practice skills during the third and fourth semesters of the registered nursing program. (CSU)

NE 210  Nursing Care of the Childbearing Family  
(2.0 Units) (Prerequisite: Nursing Education 140. Corequisites: Nursing Education 210L and enrollment in the Registered Nursing Program. Four lecture hours weekly for eight weeks.)

This course presents nursing care for the childbearing family during the prenatal, labor and delivery, postpartum, and neonatal periods. An emphasis is placed on the nurse's role in promotion of wellness and prevention of complications through health education. Students learn to recognize maternal and fetal high-risk conditions during pregnancy, birth, and after delivery that require collaborative care. Nursing management for childbearing women planning a pregnancy, including contraception and abortion, and some common women's health disorders are discussed. Included are concepts related to evidence-based practice, to effective management of resources, and to legal and ethical issues within reproductive health. (CSU)

NE 210L  Nursing Care of the Childbearing Family Clinical Laboratory  
(2.0 Units) (No prerequisite. Corequisites: Nursing Education 102 and 210 or 203 and enrollment in the Registered Nursing Program. Twelve laboratory hours weekly for eight weeks.)

This is the clinical laboratory that accompanies the Childbearing Family course. Students apply nursing concepts to the care of the family during the prenatal, labor and delivery, postpartum, neonatal, and women's health periods in hospital and community settings. Students further develop clinical reasoning and technical skills to promote maternal and newborn health and to recognize and prevent complications. Students collaborate with other professionals in health care management, client education, and resolution of legal and ethical issues in reproductive health. (CSU)

NE 212  Nursing in Mental Health and Nursing of the Older Adult  
(2.0 Units) (Prerequisite: Nursing Education 140. No corequisites. Four lecture hours weekly for eight weeks.)

This course has two components: nursing in mental health, and nursing of the older adult. Nursing in mental health focuses on the application of the nursing process and principles of therapeutic communication to the care of pediatric and adult clients with selected mental disorders. Included are concepts of psychology, treatment modalities, collaborative care, and legal and ethical issues within mental health. Nursing of the older adult focuses on nursing interventions for health promotion, the management of common geriatric syndromes, and care of the older adult with multi-system problems. Included are the effects of a large aging population on health care; legal, ethical and public policy issues affecting care of older adults; and end-of-life care for clients across the lifespan and their families. (CSU)

NE 212L  Nursing in Mental Health and Nursing of the Older Adult Clinical Laboratory  
(2.0 Units) (Prerequisite: Nursing Education 140. Corequisites: Nursing Education 212 and 102 or 103. Twelve laboratory hours weekly for eight weeks.)

This course is the clinical laboratory for Nursing Education 212. Students apply the nursing process to the care of pediatric and adult clients with selected mental disorders and to the care of older adults in acute and community settings. Students collaborate with other health care professionals in health care management, health education, and resolution of legal and ethical issues in mental and geriatric health. Students further develop therapeutic communication techniques and approaches for care of clients and families in crisis, individuals demonstrating challenging behaviors, and clients at end-of-life and their families. (CSU)

NE 214  Nursing III: Advanced Concepts in Mobility, Sensation, and Cognition  
(2.0 Units) (Prerequisite: Nursing Education 140. Corequisite: enrollment in the Registered Nursing Program. Four lecture hours weekly for eight weeks.)

This course builds on concepts presented in Nursing I and Nursing II. The course takes a holistic approach and emphasizes nursing management of clients across the lifespan with acute and chronic diseases involving the neurological, musculoskeletal, sensory and immunological systems. Approaches to nursing and medical management during each phase of the disease process, starting with the onset of symptoms and diagnosis, through acute hospitalization and into post hospitalization care are presented. The student learns to apply the nursing process to the care of clients who are experiencing chronic pain and grief and loss. Students collaborate with the interdisciplinary health care team in all aspects of care. Students compare and contrast the role of the nurse in hospital care, home health care, rehabilitative care, and long term care. (CSU)
NE 214L  Nursing III: Clinical Laboratory - Advanced Concepts in Mobility, Sensation, and Cognition
(2.5 Units) (No prerequisite. Corequisite: Nursing Education 214 and 102 or 203 and enrollment in the Registered Nursing Program. Fifteen laboratory hours weekly for eight weeks.)

This is the clinical laboratory that accompanies the Nursing III: Advanced Concepts in Mobility, Sensation, and Cognition course. Students apply nursing concepts to the care of the client and family who are experiencing acute or chronic neurological, orthopedic or immunological problems in the hospital, community and rehabilitative settings. Students further develop clinical reasoning and technical skills to promote health and to recognize and prevent complications. Students collaborate with other professionals in health care management, client education, and resolution of legal and ethical issues in medical surgical nursing. (CSU)

NE 216  Nursing III: Advanced Concepts in Cardiovascular Oxygenation and Renal Function
(2.0 Units) (Prerequisites: Nursing Education 210, 212, or 214. Other Limitation on Enrollment: Enrollment in the Registered Nursing Program. Four lecture hours weekly for eight weeks.)

This course builds on nursing concepts presented in Nursing II and focuses on clients with complex alterations in physiologic and psychological integrity and the resulting health consequences. The course presents advanced concepts related to the nursing management and collaborative care of clients across the lifespan with select critical and/or complex cardiovascular, respiratory, and renal problems. Critical care during select life-threatening and emergency situations, including shock, sepsis, and multiple organ dysfunction syndrome, are addressed. This course prepares students within complex client health situations to prioritize and organize care; identify emerging health patterns or complications that require prompt attention; and compare feasible options to resolve clinical problems. (CSU)

NE 216L  Nursing III: Advanced Concepts in Cardiovascular Oxygenation and Renal Function
(2.5 Units) (No prerequisite. Corequisite: Nursing Education 216; 203 for students enrolled in Nursing Education 216L during fall (third semester of program). Students enrolled in Nursing Education 216L during spring (fourth semester of program) will have completed Nursing Education 203. Fifteen laboratory hours weekly for eight weeks.)

This course is the clinical laboratory that accompanies Nursing Education 216. Students apply the nursing process to the care of adult and pediatric clients with select critical and/or complex cardiovascular, respiratory, and renal problems. Students collaborate with other health care professionals in health care management, health education, and resolution of legal and ethical issues of clients across the lifespan. Students further develop skill in prioritizing and organizing care, identifying emerging health problems, and resolving clinical problems within complex client health situations. (CSU)

NE 220A  Pharmacology for Nursing
(1.0 Unit) (Prerequisite: Nursing Education 138. Other Limitation on Enrollment: Enrollment in the Registered Nursing Program. One and one-half lecture hours weekly for twelve weeks.)

The purpose of this course is to provide students with a sound understanding of the pharmacologic properties of drug classes, with special emphasis on the clinical application of drug therapy through the nursing process and clinical case studies. This course focuses on the mechanism of action, indications, dosage, and adverse effects of major drug classes and individual (prototype) drugs. A special emphasis is placed on the nursing responsibilities and the educational needs of persons receiving medication therapy. Classifications of medications covered include: analgesics, anti-inflammatory drugs, anesthetics including drugs used in conscious sedation, sedatives, hypnotic drugs, anti-anxiety, antibiotics and miscellaneous drugs; anti-fungal and antiviral drugs, anti-asthmatic and glucocorticoid. Drugs affecting the gastrointestinal tract, insulin, oral hypoglycemic agents, and thyroid replacement. Vaccines, drugs affecting reproductive system, including female sex hormones and contraceptives. (CSU)

NE 220B  Pharmacology for Nursing
(1.0 Unit) (Prerequisite: Nursing Education 138. Other Limitation on Enrollment: Enrollment in the Registered Nursing Program. One and one-half lecture hours weekly for twelve weeks.)

The purpose of this course is to provide students with a sound understanding of the pharmacologic properties of drug classes, with special emphasis on the clinical application of drug therapy through the nursing process and clinical case studies. This course focuses on the mechanism of action, indications, dosage, and adverse effects of major drug classes and individual (prototype) drugs. A special emphasis is placed on the nursing responsibilities and the educational needs of persons receiving medication therapy. Classifications of medications covered include: cardiac glycosides, calcium channel blockers, ace inhibitors, and antidysethymics, antihypertensives, diuretics, vasodilators, anticoagulants, thrombolytics, antihyperlipidemias, psychotherapeutics, immunosuppressants and immunomodulators, chemotherapy agents, anticonvulsants. Drugs affecting Parkinson's myasthenia gravis, dementia, Alzheimer's disease, and substances of abuse. (CSU)

NE 225  Nursing Leadership and Management
(2.0 Units) (Prerequisites: Nursing Education 210, 212, 214, 216. Other Limitation on Enrollment: Enrollment in the Registered Nursing Program. Four lecture hours weekly for eight weeks.)

This course provides the theoretical foundation for understanding organizational behavior and developing nursing leadership and management skills in order to assist the student to make the transition from nursing student to graduate Registered Nurse. Knowledge, skills and attitudes are developed to prepare the student to work efficiently and effectively, whether independently or as a member of a team, and provide quality care to individual and groups of patients. Focus is on decision making, prioritization, time and stress management, staffing, delegation, team work, conflict management, and cost containment. Legal,
ethical, economic, and sociopolitical issues that effect health care delivery and the nursing profession are explored. Professional issues discussed include membership in professional organizations, nurse's rights, workplace safety, advocacy and political activism, licensure and guidelines for obtaining employment, and strategies for successful transition into practice for the new graduate RN. (CSU)

NE 225L Clinical Transition: Clinical Laboratory
(2.5 Units) (No prerequisite. Corequisite: Nursing Education 225. One hundred twenty laboratory hours over eight weeks.)
This course is the clinical laboratory that accompanies Nursing Education 225. The course provides opportunities for students to integrate cumulative nursing knowledge and experience into clinical practice; to organize and manage care for a group of clients; to actively collaborate with clients, families, and health care team members; and to further develop technical skill competencies under the direct supervision of a preceptor and the indirect supervision of a faculty liaison. Particular emphasis is given to the development of leadership/management skills required of a nurse in an entry level position. The course is designed to provide realistic experiences that facilitate the transition from student to graduate nurse. (CSU)

NE 249 Directed Study
(1-3 units)(No prerequisite. One to three lecture hours weekly.)
This course provides individual study in an area of nursing that is of special interest to the student. Study is under the guidance of a Registered Nursing instructor and evaluation is through conference and joint critique of the study process. May be taken more than once for credit. (CSU w/limit)

PHILOsoPHy

The aim of philosophy courses is to understand how the great minds of the past and present have perceived and answered the most challenging questions about knowledge and reality and then to develop one's own philosophy. This discipline encourages the acquisition and development of creative thought processes.

Career Options
Attorney, Communicator, Computer Scientist, Counselor, Educator, Journalist, Minister, Politician, Social Worker, Teacher

Faculty

Transfer
Students planning to transfer to a four-year institution should complete the lower division major requirements and general education pattern for the appropriate transfer institution and major. Exact major requirements for UC and CSU institutions can be found on www.assist.org. Please see a counselor for more information as curriculum requirements may vary among transfer universities.

Philosophy Courses (PHIL)

PHIL 039 Selected Topics (Nondegree Applicable)
(½-6 units)(Please see Selected Topics category.)

PHIL 110 Introduction to Philosophy
(3.0 Units) (Prerequisite: English 98. Philosophy 110 is not a prerequisite for Philosophy 111. Three lecture hours weekly.)
This course is an introduction to major thinkers, movements and ideas in the western philosophical tradition. May be taught as a distance learning course on the internet. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B, CAN PHIL 2

PHIL 111 Introduction to Ethics
(3.0 Units) (Prerequisite: English 98 or English 120. Philosophy 110 is not a prerequisite for Philosophy 111. Three lecture hours weekly.)
This course introduces students to the major philosophical ethical theories and encourages them to apply these theories to situations in the contemporary culture. Students gain an increased understanding of the role that ethical reasoning plays in the maintenance of culture. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B, CAN PHIL 2

PHIL 112 Introduction to Logic
(3.0 Units) (Prerequisite: Eligibility for English 150. Three lecture hours weekly.)
The purpose of this course is to introduce students to a discipline which provides the necessary tools for distinguishing correct from incorrect reasoning. The focus of the course is upon evaluating arguments. The concept of language use, meaning, definition, inductive and deductive argument, and informal fallacies are explored during the first half of the course. The second half of the course concentrates on using the methods of symbolic logic to evaluate arguments, their validity, invalidity, and soundness. (CSU/UC) AA/AS Area E, CSU Area A-3, CAN PHIL 6

PHIL 117 History of Philosophy: Late Modern to Contemporary
(3.0 Units) (Prerequisite: Eligibility for English 120. Three lecture hours weekly.)
This course deals with the history of philosophy from the end of the eighteenth century to the contemporary period. It treats the continental metaphysicians (Kant, the German Idealists, and reactions against them, Marxism and Existentialism), American Pragmatism, Anglo American philosophy, and Deconstruction. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

PHIL 139 Selected Topics
(½-6 units)(Please see Selected Topics category.) (CSU/UC w/limit)

PHIL 249 Directed Study
(1-3 units)(Please see Directed Study category.) (CSU/UC w/limit)
PHYSICAL EDUCATION

A career in physical education offers many job possibilities. One may be a director or a counselor or instructor in a program of physical activity at a camp or youth agency. Other possibilities are playground supervisor or coach of a team or officiating at sports events. There are also opportunities for teaching children with special problems such as physical or mental disabilities.

Career Options
Activity Specialist, Adaptive Physical Education Specialist, Athletic Club Manager, Athletic Equipment Salesperson, Athletic Trainer, Camp Director, Coach, Correctional Officer, Corrective Therapist, Emergency Medical Technician, Fire Fighter, Health Club Staff Member, Athletic Manager, Massage Therapist, Park Director, Physical Therapist, Police Officer, Professional Athlete, Public Health Educator, Recreation Leader/ Director, Recreation Therapist, Recruiter, Scout, Sports Official, Sports Shop Owner/Operator, Sportswriter/Announcer, Stunt Performer, Teacher/Instructor

Faculty
George Adams, Cheryl Goldman, Warren Lager, Jessica Naythons, Kathleen Smyth

Department Phone: (415) 485-9580

Repeatability Policy for Physical Education Courses
All physical education activity courses are coeducational. A physical education course in a given activity may be taken for credit four times only, regardless of the level (beginning, intermediate, advanced).

A.A. in Physical Education and Health
In addition to other graduation requirements, complete 18 degree-applicable units in physical education and health.

Please note: Students may choose English 120, 120SL, or 150 to complete the Associate degree. Transfer students, however, are advised to complete English 150. All students should consult a counselor.

Skills Certificate in Personal Fitness Training
The Personal Fitness Trainer Skills Certificate constitutes a skill and knowledge set that enables students to either begin as an entry-level Personal Fitness Trainer (PFT) or advance in their already existing PFT careers.

Advised for the Certificate:
PE 116 - Career Opportunities in Wellness and Fitness (3 units)

Physical Education Courses (PE)

PE 039 Selected Topics (Nondegree Applicable)
(½-6 units)(Please see Selected Topics category.)

PE 70-80 Rehabilitation Fitness
These courses are designed to meet the physical education needs of physically disabled persons. A fitness program is developed for each student based upon the recommendation of physician. Emphasis is on the development of physical fitness, body tone, coordination; mental, emotional, and social attitudes necessary for improving and maintaining healthy, independent, daily living functions. Courses are repeatable for credit.

AA/AS Area H

Courses offered are:

PE 70: Adapted Aquatics
(½ unit)(Prerequisite: Recommendation of student’s physician and completed medical form. Thirty-five laboratory hours per semester.)

A class for any student who will benefit from a program of therapeutic aquatic exercise. Students enjoy the positive effects of the aquatic environment in a group exercise program. Swimming skills are not necessary. Includes aqua aerobic activities, cardiovascular training, water walk/jog programs, and lap swimming. This course is repeatable for credit. (CSU/UC)

PE 71: Adapted Aerobics
(½ unit)(Prerequisite: Recommendation of student’s physician and completed medical form. Thirty-five laboratory hours per semester.)

An aerobics class designed to meet the needs of students with physical disabilities. Students participate in a group exercise class (sitting or standing). Designed to improve cardiovascular endurance, strength, and flexibility. This course is repeatable for credit. (CSU/UC)
PE 72: Adapted General Conditioning
(½ unit) (Prerequisite: Recommendation of student’s physician and completed medical form. Thirty-five laboratory hours per semester.)

A course designed for students with physical disability. Students will be provided with a personalized fitness program based on individual needs. It will include the use of stationary bicycles, treadmill, weight equipment, and other adapted equipment. This course is repeatable for credit. (CSU/UC)

PE 74: Adapted Yoga
(½ unit) (Prerequisite: Recommendation of student’s physician and completed medical form. Thirty-five laboratory hours per semester.)

This is a safe yoga, breathing, and relaxation course designed for the physically disabled adult. Instruction includes safe total body stretches, diaphragmatic breathing, and deep relaxation training. Emphasis is on proper alignment, mind/body connection, and techniques to relieve stress and reduce pain. This course is repeatable for credit. (CSU/UC)

PE 75: Adapted Tai Chi
(½ unit) (Prerequisite: Recommendation of student’s physician and completed medical form. Thirty-five laboratory hours per semester.)

This class will introduce the art of Tai Chi, specifically the Yang Style Short Form and Long Form. Designed for the physically disabled adult, movements will be adapted to the needs of each student, so that all may participate successfully at their appropriate level. This course is repeatable for credit. (CSU/UC)

PE 79: Adapted Awareness through Movement
(½ unit) (Prerequisite: Recommendation of student’s physician and completed medical form. Thirty-five laboratory hours per semester.)

This class provides group lessons in the Feldenkrais group movement method. The class will focus on learning to move with awareness to improve functioning, balance, coordination, posture and well being. These lessons increase the capacity for easier and more effective movement in everyday activities. This course is repeatable for credit. (CSU/UC)

PE 80: Feldenkrais Functional Integration
(½ unit) (Prerequisite: Recommendation of student’s physician and completed medical form. Twenty-six and one-quarter laboratory hours per semester.)

This class provides individual sessions in the Feldenkrais Method of Functional Integration. It is a gentle noninvasive hands-on modality that helps provide the student with new ways of moving, thinking, sensing themselves, and overcoming limitations. This method helps one learn better balance, helps relieve pain, and improves everyday functioning. May be taken four times for credit. (CSU/UC)

PE 107 Human Biology
(3.0 Units) (No prerequisite. Can be taken for credit as Physical Education 107 or Biology 107. Credit will be awarded for only one course. Three lecture hours weekly.)

Introduction to the structure, function, and development of the human body. The course will give students the foundational concepts to explore personal and societal issues involving human biology as well as cover anatomy and physiology concepts useful in preparing for careers in wellness-related fields such as personal training, group fitness instruction, and massage therapy. Topics include an introduction to scientific methods of investigation and some elementary chemistry (no previous background necessary) as a basis for understanding human functions such as movement, digestion, circulation, reproduction and other systems. Some diseases and other causes of body malfunction will be discussed. (CSU/UC) AA/AS Area A, CSU Area B-2, IGETC Area 5B

PE 110 Mat Pilates
(1-2 Units) (No prerequisite. Three to six activity hours weekly.)

This course is designed to introduce the student to the beginning Pilates method of body conditioning. Pilates mat work emphasizes core musculature as it applies to everyday movement. The course focuses on developing core strength, posture, breath control, body alignment and flexibility. Benefits include balance, body awareness, relaxation, injury prevention, stress reduction and increased self-confidence. May be taken four times for credit. (CSU/UC)

PE 116 Career Opportunities in Wellness and Fitness
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This course is designed to increase awareness of the various career opportunities available in the field of wellness and fitness. Students will learn about the different academic pathways and certifications necessary to become a qualified professional in this field. Emphasis will be placed on formulating a realistic career goal in wellness and fitness. Current wellness and fitness professionals will be interactive guest speakers to aid students in this goal process. (CSU)

PE 117 Basketball
(1-2 Units) (No prerequisite. Three or six activity hours weekly.)

This course is designed for all students interested in playing basketball. Emphasis will be on fundamental basketball skills, one-on-one and zone defense. Team play will be emphasized. (CSU/UC)

PE 119 Effective Teaching Strategies in Wellness and Fitness
(3.0 Units) (No prerequisite. Advisory: Physical Education 116. Three lecture hours weekly.)

This course is designed to help students become more effective wellness and fitness professionals. Students will develop a toolbox of practical teaching, learning, and evaluation methods
to increase their ability to convey their knowledge to others in this field and more successfully impact their future clients, students, or athletes. (CSU)

PE 120  Introduction to Sport and Exercise Psychology  
(3.0 Units)  (No prerequisite. Can be taken for credit as Physical Education 120 or Psychology 130. Credit will be awarded for only one course. Three lecture hours weekly.)

This course will examine the psychological theories and techniques that are applied to sport, exercise and other achievement-related situations. This course will emphasize the enhancement of performance and personal growth of athletes, coaches, and exercise participants. Students will also learn mental skills that they will be able to transfer from sport and exercise settings to their everyday lives. Can also be offered in a distance learning format. (CSU)

PE 121  Personal Trainer Certification Course  
(3.5 Units)  (No prerequisite. Advisory: Biology 107 or Physical Education 107. Three lecture and one and one-half laboratory hours weekly.)

This course is designed to prepare students to meet the stringent certification standards set forth by the American Council on Exercise (ACE). Through a variety of health and fitness training and evaluation techniques, students engage in an assortment of practical experiences, while developing a thorough understanding of core exercise concepts and principles. Practical scientific theory as well as hands-on application skills, which are necessary for the delivery of safe and effective health and fitness within the general population base, will be emphasized. Optional ACE certification exam will be administered at the completion of the course. (CSU)

PE 122  Exercise for Adults with Special Needs  
- Instructor Certification Training  
(2.5 Units)  (No prerequisite. Two lecture and one and one-half laboratory hours weekly.)

This course is designed to train students and certified personal fitness trainers interested in becoming a qualified fitness leader specializing in exercise with the frail elderly and adults with special needs. Special needs include the frail elderly, individuals diagnosed with Parkinson’s disease and diabetes, the physically challenged, etc. Upon completion of this class, students have the opportunity to become certified trainers for Exercise Leader for Adults with Special Needs with the Senior Fitness Association for an additional fee of $35. Current CPR and First Aid are needed for certification. (CSU)

PE 123  Group Fitness Instructor Certification Training  
(2.5 units.)  (No prerequisite. Advisory: Physical Education 121 and/or Biology 107/Physical Education 107. Two lecture and one and one-half practicum hours weekly.)

This course is designed to deliver a comprehensive and practical group training program, providing the teaching tools and creative routine building skills necessary to ensure the development of dynamic group exercise classes. Students will be able to design safe and exciting group classes, and choreograph and create their own routines. Current, valid CPR certification from an approved provider is required. (CSU)

PE 124  Athletic Coaching Education: A Positive Coaching Alliance Certification  
(2.0 Units)  (No prerequisite. Two lecture hours weekly.)

This course is designed to prepare to meet certification standards set forth by the Positive Coaching Alliance (PCA). Students will build professional and career coaching capabilities, better leadership skills, better functioning teams, and more change-capable organizations. The most up-to-date, research-based strategies, tools and techniques in Positive Coaching will be taught. A deeper, more focused evolution of sportsmanship, termed by PCA as “Honoring the Game,” is the foundation upon which this course and Double-Goal Coaching is built. Students will learn to become Double-Goal Coaches (TM) that strive to win and, even more importantly, use sports to teach life lessons through Positive Coaching. Can also be offered in a distance learning format. (CSU)

PE 125A  Fitness  
(0.5-2 Units)  (No prerequisite. Two, three or six activity hours weekly.)

This course will introduce principles and guidelines for developing physical fitness. Students will participate in exercises and activities designed to improve their cardiovascular system and muscular strength. The course will include jogging, hiking, power walking and strength and flexibility routines. Exercise routines may also be performed with cardio machines, free weights, and physio balls. May be taken four times for credit. (CSU/UC) AA/AS Area H

PE 125C  Aerobic Fitness  
(1-2 Units)  (No prerequisite. Three or six activity hours weekly.)

This class will combine different aerobic techniques derived from various dances and sports to help the student increase her/his level of cardiovascular fitness, flexibility, muscular strength and muscular endurance. The format of each class will include a warm-up, a flexibility segment, a cardiovascular segment, a strength section, a cool-down, and a final stretching component. May be taken four times for credit. (CSU/UC) AA/AS Area H

PE 125D  Fitness, Intercollegiate Sports  
(1-2 Units)  (No prerequisite. Three or six activity hours weekly.)

This course is designed for the intercollegiate student-athlete who wants to learn specific fitness training regimens needed for her/his particular sport. Sport specific strength training, flexibility, plyometrics, injury prevention, injury rehabilitation, aerobic training, and nutrition will be emphasized. May be taken four times for credit. (CSU/UC) AA/AS Area H
PE 125F  Fitness, Aquatic Calisthenics  
(0.5-2 Units) (No prerequisite. Three or six activity hours weekly.)  
This course is designed to show students the methods of improving fitness through water resistance. Students will participate in exercises and activities designed to improve cardiovascular fitness and increase their muscular strength. (CSU/UC) AA/AS Area H

PE 125H  Fitness, Cross Training  
(0.5-2 Units) (No prerequisite. Two, three or six activity hours weekly.)  
This course is designed to introduce principles and guidelines for improving fitness through a multi-sport approach. Students will participate in a variety of activities designed to improve their endurance, strength, speed, balance and flexibility. Activities may include jogging, power walking, interval training, swimming, deep water running, weight lifting, calisthenics, stretching, core exercise routines, Pilates and yoga. May be taken four times for credit. (CSU/UC) AA/AS Area H

PE 125K  Fitness, Walking  
(0.5-2 Units) (No prerequisite. Two, three or six activity hours weekly.)  
This course is designed for students to learn proper walking technique, goal setting and motivation strategies while participating in a walking program for a lifetime of better health. Students will develop cardiovascular fitness, reduce stress and lower body fat composition. May be taken four times for credit. (CSU/UC) AA/AS Area H

PE 129  Golf  
(1-2 Units) (No prerequisite. Three or six activity hours weekly.)  
This course will focus on skill development and acquiring the knowledge to participate in and enjoy the sport of golf. Demonstration, audio-visual aids, lecture, and active participation will be utilized to achieve improvement and enjoyment of golf. May be taken four times for credit. (CSU/UC)

PE 132  Directed Activities  
(1-3 Units) (No prerequisite. Three, six or nine activity hours weekly.)  
Offered for the enjoyment of the student interested in furthering physical and mental well-being through meaningful experiences in physical activities. Activities offered will vary according to facilities available. All activities shall carry-over values beneficial beyond the time element of this course. (CSU/UC) AA/AS Area H

PE 139  Selected Topics  
(½-6 units) (Please see Selected Topics category.) (CSU/UC w/limit)

PE 143  Basic Athletic Injuries  
(3.0 Units) (No prerequisite. Corequisite: Physical Education 107 or Biology 107. Three lecture hours weekly.)  
This course is designed to show students the methods of prevention, recognition, evaluation, rehabilitation, reconditioning, taping, and immediate care of athletic injuries to the upper and lower extremities. This course will benefit coaches from all sports, students interested in the athletic training profession, and the physically active individual. Comprehension of anatomy, mechanism-of-injury, and pathology are stressed. (CSU/UC)

PE 146  Triathlon Training  
(0.5-2 Units) (No prerequisite. Two, three or six activity hours weekly.)  
This course will introduce the skills, equipment, rules and fitness requirements for the sport of triathlon. Students will participate in a variety of activities designed to improve their swimming, running and cycling. Students will prepare to complete a sprint distance triathlon consisting of a 400 meter swim, 20 kilometer bike ride and a 5 kilometer run. May be taken four times for credit. (CSU/UC)

PE 147  Soccer  
(0.5-2 Units) (No prerequisite. Two, three or six activity hours weekly.)  
This course emphasizes the development of soccer technical skills, knowledge of game rules, indoor and outdoor soccer team tactics, and systems of play. This course teaches and builds upon the fundamentals of soccer in order to enhance the future soccer performance of all students. May be taken four times for credit. (CSU/UC)

PE 150  Softball  
(1-2 Units) (No prerequisite. Three or six activity hours weekly.)  
This course is designed to familiarize the student with the game of softball by introducing the rules, fundamental technical and tactical skills. Focusing on offensive and defensive strategies will emphasize team play. This course is for the student who needs skill development in all areas of softball. May be taken four times for credit. (CSU/UC)

PE 155  Swimming  
(1-2 Units) (No prerequisite. Three or six activity hours weekly.)  
The course will present a variety of strokes and skills necessary to be competent in the aquatic environment. An emphasis will be placed on stroke and endurance development. May be taken four times for credit. (CSU/UC)

PE 156  Instructional Lap Swimming  
(0.5-2 Units) (Prerequisite: Knowledge and demonstration of efficient swimming skill. Two, three or six activity hours weekly.)  
This course is designed to provide the student with the opportunity to develop and maintain cardiovascular fitness through swimming at all skill levels. Instruction in competitive swim strokes starts and turns, interval, sprint and distance training. Individualized workouts will be available. Information on competing in the U.S. Master's Swim Meets will be available for those interested in the competitive aspects of swimming. May be taken four times for credit. (CSU/UC) AA/AS Area H
PE 160  Tennis  
(1-2 Units) (No prerequisite. Three or six activity hours weekly.)  
This course is designed to familiarize the student with the game of tennis. The course offers the student an experience in learning the skills of tennis emphasizing fundamental skills and strategy for all skill levels. May be taken four times for credit. (CSU/UC)

PE 164  Sports Conditioning  
(0.5-2 Units) (No prerequisite. Two, three or six activity hours weekly.)  
This course is designed to instruct students in the various forms of conditioning and training techniques used in different sports. Basic to the course are instruction in muscle balance, breath control, aerobic training, anaerobic training, flexibility, nutrition, time management, injury prevention, and strength training. May be taken four times for credit. (CSU/UC)

PE 167  Volleyball  
(0.5-1 Unit) (No prerequisite. Two or three activity hours weekly.)  
This course is designed to instruct in the fundamentals of volleyball including passing, serving, hitting, and setting. This course will focus on promoting team play by emphasizing rules and strategies. May be taken four times for credit. (CSU/UC) AA/AS Area H

PE 169  Weight Training  
(0.5-2 Units) (No prerequisite. Two, three or six activity hours weekly.)  
This course is designed to introduce the student to the basic principles of fitness using a variety of modalities including weight machines and free weights. The emphasis will be on creating an individual fitness program with a focus on proper technique and injury prevention. May be taken four times for credit. (CSU/UC) AA/AS Area H

PE 173A  Yoga, Beginning  
(0.5-2 Units) (No prerequisite. Two, three or six activity hours weekly.)  
This introductory yoga class will focus on the physical aspects of yoga. The emphasis will be on proper alignment to maximize the benefits of the practice. Students will develop strength, flexibility, endurance and grace in the poses. May be taken four times for credit. (CSU/UC) AA/AS Area H

Intercollegiate Athletic Program:  
An extensive intercollegiate athletic program for both men and women is available. This program includes the following sports that may be taken four times for credit. (CSU/UC) AA/AS Area H

PE 175  Intercollegiate Athletics Baseball  
(2 units) (Prerequisite: Team member. Ten to fifteen activity hours weekly)

PE 176  Intercollegiate Athletics Basketball (Men and Women)  
(2 units) (Prerequisite: Team member. Ten to fifteen activity hours weekly)

PE 178  Intercollegiate Athletics Football  
(2 units) (Prerequisite: Team member. Ten to fifteen activity hours weekly)

PE 180  Intercollegiate Athletics Soccer (Men and Women)  
(2 units) (Prerequisite: Team member. Ten to fifteen activity hours weekly)

PE 181  Intercollegiate Athletics Softball (Women)  
(2 units) (Prerequisite: Team member. Ten to fifteen activity hours weekly)

PE 183  Intercollegiate Athletics Swimming and Diving (Men and Women)  
(2 units) (Prerequisite: Team member. Ten to fifteen activity hours weekly)

PE 185  Intercollegiate Athletics Track and Field (Men and Women)  
(2 units) (Prerequisites: Team member. Ten to fifteen activity hours weekly)

PE 187  Intercollegiate Athletics Water Polo (Men and Women)  
(2 units) (Prerequisites: Team member. Ten to fifteen activity hours weekly)

Other Limitation on Enrollment: Those students who wish to try out for college athletics must enroll in the physical education activity class of their sport. If a student plans on participating in an intercollegiate sport, he/she must be actively and continuously enrolled in a minimum of 12 units during his/her season of sport, including 2 units for his/her intercollegiate sport. Of the 12 units, at least 9 shall be attempted in courses counting toward the Associate degree, remediation, transfer, and/or certification as defined by the College catalog. Additionally, a student athlete must have on file with the Athletic Counselor an educational plan by his/her second semester of attendance.

A student who is not sure of any of the requirements mentioned above, or who has previously participated in any intercollegiate athletics at another college, should check with the Athletic Director to clarify eligibility to further participate at College of Marin.

PE 190A  Baseball Theory  
(2-3 Units) (No prerequisite. One lecture and three laboratory hours weekly for two units; and one lecture and six laboratory hours weekly for three units.)  
An intensive course designed to train persons in the development of a baseball program at any level. (CSU/UC)
PE 191A  Soccer Theory
(2-3 Units) (No prerequisite. One lecture and three laboratory hours weekly for two units; and one lecture and six laboratory hours weekly for three units.)
This course is designed for the intermediate/advanced soccer player who is looking to further his or her knowledge of the sport. The primary focus of the class will be the history of the game of soccer, the game’s evolution, defensive tactics, offensive tactics, training methods, current trends and rules of the game. The course will also include participation in strength training, speed and agility and various soccer training session themes. (CSU/UC)

PE 192A  Basketball Theory
(2-3 Units) (No prerequisite. One lecture and three laboratory hours weekly for two units; and one lecture and six laboratory hours weekly for three units.)
An intensive course designed to help each student understand the basic fundamentals of playing and coaching basketball. Individual and team skills development will be stressed. (CSU/UC)

PE 193A  Swimming Theory
(2-3 Units) (No prerequisite. One lecture and three laboratory hours weekly for two units; and one lecture and six laboratory hours weekly for three units.)
This course is designed to develop an understanding of the fundamentals and theory of training and competing in the sport of swimming. The emphasis of the class is the development of individual technique and skills. (CSU/UC)

PE 194A  Water Polo Theory
(2-3 Units) (No prerequisite. One lecture and three or six activity hours weekly.)
An intensive course designed to help each student understand and utilize the fundamentals and theory of training for and competing in the sport of water polo. The emphasis of the class is development of team and individual technique and skills. May be taken four times for credit. (CSU/UC)

PE 195A  Football Theory, Offensive
(2-3 Units) (No prerequisite. One lecture and three laboratory hours weekly for two units; and one lecture and six laboratory hours weekly for three units.)
This course is designed to develop an understanding of offensive football and the kicking game. It will give students the opportunity to learn and practice some of the fundamental skills involved in the game of football. (CSU/UC)

PE 195B  Football Theory, Defensive
(2-3 Units) (No prerequisite. One lecture and three laboratory hours weekly for two units; and one lecture and six laboratory hours weekly for three units.)
This course is designed to develop an understanding of defensive football and the punting game. It will give students the opportunity to learn and practice some of the fundamental skills involved in the game of football. (CSU/UC)

PE 196A  American Red Cross Lifeguarding
(1.5 Units) (Prerequisites: Student must be able to perform the following pretest: [1] Tread water continuously in the diving pool for two minutes using legs only; [2] Swim 500 yards continuously with no time limit using the following strokes [craw stroke, breast stroke, side stroke] for at least 100 yards each; [3] Submerge to a minimum depth of seven feet and retrieve a ten pound object and return to the surface with the object at no time limit. One lecture and two laboratory hours weekly.)
This course is designed for those desiring to fulfill the requirements for the American Red Cross Lifeguarding Certification. This course is repeatable for credit. (CSU/UC)

PE 197A  Water Polo Theory
(2-3 Units) (No prerequisite. One lecture and three or six activity hours weekly.)
An intensive course designed to help each student understand and utilize the fundamentals and theory of training for and competing in the sport of water polo. The emphasis of the class is development of team and individual technique and skills. May be taken four times for credit. (CSU/UC)

PE 197B  Water Polo Theory
(2-3 Units) (No prerequisite. One lecture and three or six activity hours weekly.)
An intensive course designed to help each student understand and utilize the fundamentals and theory of training for and competing in the sport of water polo. The emphasis of the class is development of team and individual technique and skills. May be taken four times for credit. (CSU/UC)

PE 198A  Football Theory, Defensive
(2-3 Units) (No prerequisite. One lecture and three laboratory hours weekly for two units; and one lecture and six laboratory hours weekly for three units.)
This course is designed to develop an understanding of offensive football and the kicking game. It will give students the opportunity to learn and practice some of the fundamental skills involved in the game of football. (CSU/UC)

PE 201A  Swimming Theory
(2-3 Units) (No prerequisite. One lecture and three laboratory hours weekly for two units; and one lecture and six laboratory hours weekly for three units.)
This course is designed to develop an understanding of training and competing in the sport of swimming. The emphasis of the class is the development of individual technique and skills. (CSU/UC)

PE 202A  Water Polo Theory
(2-3 Units) (No prerequisite. One lecture and three or six activity hours weekly.)
An intensive course designed to help each student understand and utilize the fundamentals and theory of training for and competing in the sport of water polo. The emphasis of the class is development of team and individual technique and skills. May be taken four times for credit. (CSU/UC)

PE 205A  Soccer Theory
(2-3 Units) (No prerequisite. One lecture and three laboratory hours weekly for two units; and one lecture and six laboratory hours weekly for three units.)
This course is designed for the intermediate/advanced soccer player who is looking to further his or her knowledge of the sport. The primary focus of the class will be the history of the game of soccer, the game’s evolution, defensive tactics, offensive tactics, training methods, current trends and rules of the game. The course will also include participation in strength training, speed and agility and various soccer training session themes. (CSU/UC)

PE 206A  American Red Cross Lifeguarding
(1.5 Units) (Prerequisites: Student must be able to perform the following pretest: [1] Tread water continuously in the diving pool for two minutes using legs only; [2] Swim 500 yards continuously with no time limit using the following strokes [craw stroke, breast stroke, side stroke] for at least 100 yards each; [3] Submerge to a minimum depth of seven feet and retrieve a ten pound object and return to the surface with the object at no time limit. One lecture and two laboratory hours weekly.)
This course is designed for those desiring to fulfill the requirements for the American Red Cross Lifeguarding Certification. This course is repeatable for credit. (CSU/UC)

PE 207A  Water Polo Theory
(2-3 Units) (No prerequisite. One lecture and three or six activity hours weekly.)
An intensive course designed to help each student understand and utilize the fundamentals and theory of training for and competing in the sport of water polo. The emphasis of the class is development of team and individual technique and skills. May be taken four times for credit. (CSU/UC)

PE 208A  Football Theory, Offensive
(2-3 Units) (No prerequisite. One lecture and three laboratory hours weekly for two units; and one lecture and six laboratory hours weekly for three units.)
This course is designed to develop an understanding of offensive football and the kicking game. It will give students the opportunity to learn and practice some of the fundamental skills involved in the game of football. (CSU/UC)

PE 213A  Swimming Theory
(2-3 Units) (No prerequisite. One lecture and three laboratory hours weekly for two units; and one lecture and six laboratory hours weekly for three units.)
This course is designed to develop an understanding of training and competing in the sport of swimming. The emphasis of the class is the development of individual technique and skills. (CSU/UC)

PE 214A  Water Polo Theory
(2-3 Units) (No prerequisite. One lecture and three or six activity hours weekly.)
An intensive course designed to help each student understand and utilize the fundamentals and theory of training for and competing in the sport of water polo. The emphasis of the class is development of team and individual technique and skills. May be taken four times for credit. (CSU/UC)

PE 215A  Advanced First Aid/First Responder
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
This first responder course will teach the basics of good patient care and the skills needed to deliver appropriate care to the victim of an accident or a sudden illness until more highly trained emergency personnel arrive. Upon successful completion of the course, certificates will be awarded for the First Responder and CPR for the Professional Rescuer. This course is a prerequisite for the Emergency Medical Technician Program. May be taken four times for credit. Can also be offered in a distance learning format. (CSU/UC)

PE 216A  American Red Cross Lifeguarding
(1.5 Units) (Prerequisites: Student must be able to perform the following pretest: [1] Tread water continuously in the diving pool for two minutes using legs only; [2] Swim 500 yards continuously with no time limit using the following strokes [craw stroke, breast stroke, side stroke] for at least 100 yards each; [3] Submerge to a minimum depth of seven feet and retrieve a ten pound object and return to the surface with the object at no time limit. One lecture and two laboratory hours weekly.)
This course is designed for those desiring to fulfill the requirements for the American Red Cross Lifeguarding Certification. This course is repeatable for credit. (CSU/UC)

PE 249  Directed Study
(1-3 units) (Please see Directed Study category.) (CSU/UC w/limit)

PE 267  Advanced Volleyball
(0.5-1 Unit) (Prerequisite: Students must be competent in all the fundamentals such as serving, passing, setting, and hitting. Two to three activity hours weekly.)
This course is for experienced volleyball players interested in competing at a high level. The focus of the course will be on advanced instruction in offensive and defensive strategies while emphasizing team competitions. (CSU/UC) AA/AS Area H

PHYSICS
The study of physics is extensive. It includes such fields as astronomy, optics, nuclear and high-energy physics, acoustics, solid state physics, biophysics, and geophysics. The career physicist may stand on a missile-launching pad, go beneath the sea or ascend into the upper atmosphere. Today, however, nuclear physicists represent the largest single group of full-time employed physicists.

Career Options
Acoustic Physicist, Air Pollution Specialist, Astronomer, Astrophysicist, Atomic Physicist, Biophysicist, Chemical Engineer, Civil Engineer, Consumer Safety Officer, Electrical Engineer, Electronic and Molecular Physicist, Electro-Optical Engineer, Environmental Studies Specialist, Food and Drug Inspector, Geophysicist, Industrial Research and Development Specialist, Instrument Designer, Inventor, Laboratory Assistant, Material Researcher, Mechanical Engineer, Metallurgist, Nuclear Physicist, Operations Researcher,

Faculty
Robert Chavez

Department Phone: (415) 485-9510

Transfer
Students planning to transfer to a four-year institution should complete the lower division major requirements and general education pattern for the appropriate transfer institution and major. Exact major requirements for UC and CSU institutions can be found on www.assist.org. Please see a counselor for more information as curriculum requirements may vary among transfer universities.

A.S. in Physics
The physics major is offered only at the Kentfield Campus.

Please note: Students are required to complete English 150 for the Associate degree. All students should consult a counselor.

Requirements Units
CHEM 131 General Chemistry I 5
CHEM 132 General Chemistry II 5
MATH 115 Probability and Statistics 4
MATH 116 Linear Algebra 3
MATH 123 Analytic Geometry and Calculus I 5
MATH 124 Analytic Geometry and Calculus II 5
MATH 223 Analytic Geometry, Vector Analysis, and Calculus III 5
MATH 224 Elementary Differential Equations 4
PHYS 207A Mechanics and Properties of Matter 5
PHYS 207B Electricity and Magnetism 5
PHYS 207C Heat, Light, Sound, and Modern Physics 5

Physics Courses (PHYS)
There are three levels of general physics offered which usually cover the same topics. The major differences in these levels are the mathematical prerequisites and the number of semesters of the sequence. The three levels are:

Physics 108ABC — A sequence of courses designed for majors such as biology, pre-med, and architecture.

Physics 110 — A nonmathematical general education course for nonscience majors.

Physics 207ABC — A sequence of courses designed for majors such as engineering, physics, and chemistry.

PHYS 039 Selected Topics (Nondegree Applicable)
(½-6 units)(Please see Selected Topics category.)

PHYS 108A General Physics I
(5.0 Units) (Prerequisite: Math 104. Advisory: Math 121. Four lecture and three laboratory hours weekly.)

This course presents the basic laws and concepts of mechanics, heat, sound, and the properties of matter. Coursework emphasizes problem solving and laboratory investigations. (CSU/UC) AA/AS Area A, CSU Area B-1 or B-3, IGETC Area 5A, CAN PHYS 2, CAN PHYS SEQ A = Phys 108A + 108B

PHYS 108AC General Physics I (Calculus Supplement)
(1.0 Unit) (Prerequisite: Physics 108A or concurrent enrollment and completion of Math 121. One lecture hour weekly.)

Covers basic concepts of kinematics, forces, rotational motion, fluids, oscillations, and waves, heat, and thermodynamics with a calculus-based set of problem assignments. (CSU/UC) CSU Area B-1

PHYS 108B General Physics II
(5.0 Units) (Prerequisite: Physics 108A. Four lecture and three laboratory hours weekly.)

This course presents the basic laws and concepts of electricity and magnetism including simple AC and DC circuits, light and its geometrical and physical properties, and atomic and nuclear physics. Course work emphasizes problem-solving and laboratory investigations. (CSU/UC) CSU Area B-1 or B-3, IGETC Area 5A, CAN PHYS 2, CAN PHYS SEQ A = Phys 108A + 108B

PHYS 108BC General Physics II (Calculus Supplement)
(1.0 Unit) (Prerequisite: Physics 108B or concurrent enrollment and completion of Math 122. One lecture hour weekly.)

An introduction to the fundamental concepts of electricity, magnetism, light, and modern physics with a calculus-based set of problem assignments. (CSU/UC) CSU Area B-1

PHYS 110 Introductory Physics
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

An introduction to the development and manifestation of the basic physical laws, the process of scientific inquiry and discovery, and the relationship and responsibilities of science to society. (CSU/UC) AA/AS Area A, CSU Area B-1, IGETC Area 5A

PHYS 139 Selected Topics
(½-6 units)(Please see Selected Topics category.) (CSU/UC w/limit)

PHYS 207A Mechanics and Properties of Matter
(5.0 Units) (Prerequisites: Math 123 and 124. Math 124 may be taken concurrently. Four lecture and three laboratory hours weekly.)

This course develops the physical laws, concepts, and mathematical tools needed to describe motion and the action of forces. Central ideas include Newton's laws of motion, conservation of energy, and conservation of linear and angular momentum. Coursework emphasizes problem solving. (CSU/UC) AA/AS Area A, CSU Area B-1 or B-3, IGETC Area 5A, CAN PHYS 8, CAN PHYS SEQ B = 207A + 207B + 207C
PHYS 207B  Electricity and Magnetism  
(5.0 Units) (Prerequisites: Physics 207A, and Math 223 or concurrent enrollment. Four lecture and three laboratory hours weekly.)

This course develops both microscopic and macroscopic descriptions of electricity and magnetism. The microscopic viewpoint is described by Maxwell's four equations, which relate electric and magnetic fields to electric charges and currents, and by Coulomb's law. The macroscopic description involves simple AC and DC circuit analysis, which includes Ohm's law and the concepts of resistance, capacitance, inductance, impedance, and electrical resonance. (CSU/UC) CSU Area B-1 or B-3, CAN PHYS 12, CAN PHYS SEQ B = 207A + 207B + 207C

PHYS 207C  Heat, Light, Sound, and Modern Physics  
(5.0 Units) (Prerequisites: Physics 207A, and Math 223 or concurrent enrollment. Four lecture and three laboratory hours weekly.)

This course develops the concepts and laws describing four different but related topics. The major ideas include the first and second laws of thermodynamics, kinetic theory of gases, interference and diffraction of light and sound waves, optical instruments, atomic structure of matter, nuclear physics, and a brief introduction to quantum theory. (CSU/UC) CSU Area B-1 or B-3, CAN PHYS 14, CAN PHYS SEQ B = 207A + 207B + 207C

PHYS 249  Directed Study  
(1-3 units) (Limit to Enrollment: One physics or astronomy course with a grade point average of 3.0 or higher. Prior arrangement with instructor is necessary.)

A course designed to give the student an opportunity to participate in a research program. (CSU/UC w/limit)

POLITICAL SCIENCE

Political science is the study of government and politics. The major in political science is primarily designed for the student who desires a liberal arts education with a political science emphasis and who plans to enter a career in government service or public administration, seeks training for positions in the overseas agencies of the United States government, intends to pursue the study of law, or who wants to specialize in journalism or writing with an emphasis on government.

Career Options
Administrative Assistant, Attorney, Campaign Aide/Manager, City/County Manager, Claims Examiner, Congressional Staff Member, Consumer Protection Specialist, Contract Administrator, Customs Inspector, Diplomat, Equal Opportunity Specialist, FBI/CIA Agent, Foreign Service Officer, International Relations Specialist, Labor Organizer, Labor Relations Manager, Law Clerk, Legislative Aide, Lobbyist, Manpower Program Specialist, Paralegal Assistant, Patent Examiner, Polling Specialist, Private Investigator, Public Administrator, Public Information Officer, Research Specialist, Secret Service Agent, Teacher, Union Representative, Urban/Regional Planner, Writer/Journalist

Faculty
Henry D. Fearnley, Yolanda Bellisimo
Department Phone: (415) 485-9630

Transfer
Students planning to transfer to a four-year institution should complete the lower division major requirements and general education pattern for the appropriate transfer institution and major. Exact major requirements for UC and CSU institutions can be found on www.assist.org. Please see a counselor for more information as curriculum requirements may vary among transfer universities.

A.A. in Political Science
The Political Science Program provides transfer, general education, general interest courses, as well as an Associate in Arts degree. The Associate degree in Political Science is primarily designed for the student who desires a liberal arts education with a political science emphasis. Courses are offered at either campus to fulfill requirements for the major.

Please note: Students may choose English 120, 120SL, or 150 to complete the Associate degree. Transfer students, however, are advised to complete English 150. All students should consult a counselor.

Requirements  Units
POLS 101  Introduction to the Government of the United States 3
POLS 102  Comparative Political Systems 3
POLS 103  Political Theory 3
POLS 104  International Relations 3

And six additional units of degree-applicable social science courses identified as: Economics, Ethnic Studies, Geography, History, Political Science, or Social Science 6

Political Science Courses (POLS)

POLS 039  Selected Topics (Nondegree Applicable)  
(½-6 units) (Please see Selected Topics category.)

POLS 100  American Political Institutions  
(3.0 Units) (No prerequisite. Three lecture/discussion hours weekly.)

This course surveys American political institutions, roles, processes and problems at the national, state, and local level. Emphasis is on the political values of our society and how these values are reflected in institutions, processes, and policies. Students learn to question, analyze, and interpret public policy and current events and discover how they, as citizens, can help shape and influence government policy. (CSU/UC) AA/AS Area B or F, CSU Area D-8, IGETC Area 4, CSU U.S. History, Constitution, and American Ideals
POLS 101  Introduction to the Government of the United States
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
This course is an introduction to political science as a survey of American government. Students learn methods of political analysis and the application of these methods to the study of American government. It is an introduction to the principles and problems of government in the United States, emphasizing the national government but providing an understanding of government at the state and local level as well. Particular attention is paid to the dynamics, which make the principles meaningful, and the machinery move. Students will develop insights into the clash of ideas in American politics and how they can influence political outcomes. Political Science 101 is recommended over Political Science 100 for majors in prelegal, social sciences, liberal arts, and teaching. Can also be offered in a distance learning format. (CSU/UC) AA/AS Area B or F, CSU Area D-8, IGETC Area 4, CAN GOVT 2, CSU U.S. History, Constitution, and American Ideals

POLS 102  Comparative Political Systems
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
This course is designed to help students gain knowledge of the world's diverse political structures and practices. It focuses on specific countries and general concepts used to interpret the key political relationships found in virtually all national politics. (CSU/UC) AA/AS Area B, CSU Area D-8, IGETC Area 4

POLS 103  Political Theory
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
An introduction to the history of political thought from Plato to the present. Present examples of the theory and practice of politics and the description and analysis of political behavior will be related to great political thinkers of the past. New approaches to solve political and social problems will be discussed. (CSU/UC) AA/AS Area B, CSU Area D-8, IGETC Area 4

POLS 104  International Relations
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
This course is designed to introduce students to the theory and practice of international relations. The course identifies the various players in global politics and describes and explains their behavior and the structure of the international system in which they operate. Included is an examination of not only the traditional subjects of international relations, such as power, nationalism, diplomacy, and war, but also those transnational factors that have come to play a critical role in an increasingly interdependent world, such as immigration, trade and economic/financial activities, the environment, human rights, and terrorism. (CSU/UC) AA/AS Area B, CSU Area D-8, IGETC Area 4

POLS 117  The Middle East: A Political Perspective
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
A survey of the major political developments in the Middle East in their historical and cultural context from the rise of Islam to the present, emphasizing the developments of the twentieth century. (CSU/UC) CSU Area D-8

POLS 125  Research Methods and Term Papers in Political Science
(3.0 Units) (No prerequisite. Advisory: Competence in written language skills comparable to eligibility for English 150. Students may receive credit for this course as Economics 125, Ethnic Studies 125, History 125, Political Science 125 or Social Science 125. Credit will be awarded for only one discipline. Three lecture hours weekly.)
This course focuses on the elements of critical thinking and methods of research in the social sciences and develops skills required to organize such thought and research into effective, college level presentations. Various social science faculty members will offer their expertise to students on an individual basis as they develop their presentations. Students are encouraged to select areas of research from other courses taken during the semester or from areas of special interest including politics, history, economics, education, women's studies, ethnic studies, current issues, and issues of community concern. (CSU/UC) CSU Area A-3

POLS 139  Selected Topics
(½-6 units) (Please see Selected Topics category) (CSU/UC w/limit)

POLS 201  Understanding Globalization: The Impact of Social, Political, and Economic Change
(3.0 Units) (No prerequisite. Can be taken for credit as Political Science 201 or Behavioral Science 201 or Economics 201. Credit will be awarded for only one discipline. Three lecture hours weekly.)
The world is becoming more integrated and interdependent, heightening the need for greater understanding of the impact of globalization on the economy, politics, and society. This interdisciplinary team-taught course explores the new wave of global political, economic, and social change and the opportunities and challenges it brings to states, institutions, and individuals. Focus is upon what the individual will need to know and understand to be an effective participant in these rapidly changing global phenomena. (CSU/UC) AA/AS Area B, CSU Area D-7, IGETC Area 4

POLS 203  Understanding Terrorism
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
Using lecture, discussion, and video, this course will provide students with an understanding of terrorism from historical, political, ideological, and religious perspectives. The course examines the motivational and organizational aspects of modern terrorism, as well as the strategic and tactical responses to the terrorist threat, and the impact of terrorism on the political, economic and legal/constitutional integrity of the sovereign state. The course will employ the expertise of specialists in the fields of psychology, philosophy, sociology, and law. This course is available to both credit and adult education students. (CSU/UC) AA/AS Area B
POLS 210  War, Peace, and the United Nations
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
This course is an introduction to the study of diplomacy in international crises. Emphasis is on the role of the United Nations and other international organizations in processes and politics that could prevent war and preserve peace. Students learn to question, analyze, and interpret international news and events to understand the role of negotiation and mediation in international relations. The course also prepares students for participation in the Model United Nations which is included in Political Science 104. (CSU) AA/AS Area B

POLS 215  Survey of Current Issues
(3.0 Units) (No prerequisite. Can be taken for credit as Political Science 215, Economics 215, or Social Science 215. Credit will be awarded for only one discipline. Three lecture hours weekly.)
This course is an opportunity to critically examine and discuss significant world developments and to attempt to understand the sources of those developments. Each student will have an opportunity to focus on issues of particular interest and to share that information with the group. When possible, informed participants in world and national events will meet with the class to share their insights. (CSU)

POLS 220  American Foreign Policy
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
A survey of the forces involved in the formation of United States foreign policy since World War II. Within the context of both the Cold War and post Cold War periods, the course explores our relations with other major global centers of power. Particular attention is given to contemporary problems, including globalization and terrorism. (CSU/UC) AA/AS Area B, CSU Area D-8, IGETC Area 4

POLS 249  Directed Study
(1-3 units) (No prerequisite.)
Directed Study may consist of readings, research, or projects under the supervision of a full-time Social Science Department instructor. May be taken more than once for credit. (CSU/UC w/ limit)

PSYCHOLOGY
The course offerings are designed to familiarize students with the facts, theories, and contemporary trends in psychology and human development and how these principles can be incorporated into a meaningful understanding of oneself. For students intending to major in psychology, there are several areas of concentration and career options.

Career Options
Activities Director, Administrator, Advertising Account Executive, Art Therapist, Child Psychologist, Clinical Psychologist, Community Mental Health Worker, Correctional Officer, Counselor, Customer Service Representative, Drug/Alcohol Counselor, Employee Relations Specialist, Employment Interviewer/Counselor, Experimental Psychologist, Industrial Psychologist, Manpower Development Specialist, Market Research Analyst, Marriage, Family and Child Counselor, Minister, Personnel Specialist, Probation/Parole Officer, Program Director, Psychiatric Social Worker, Psychiatric Technician, Psychiatrist, Psychometrist, Public Health Educator, Public Relations Representative, Recreation Specialist/Therapist, Rehabilitation Counselor, Research Assistant, Residential Counselor, Sales Representative, School Psychologist, Special Education, Speech Pathologist/Therapist, Statistician, Training Specialist, Welfare Worker, Youth Organization Leader

Faculty
Michael E. Brailoff, Paul Christensen, Dikran J. Martin
Department Phone: (415) 485-9630

Transfer
Students planning to transfer to a four-year institution should complete the lower division major requirements and general education pattern for the appropriate transfer institution and major. Exact major requirements for UC and CSU institutions can be found on www.assist.org. Please see a counselor for more information as curriculum requirements may vary among transfer universities.

Psychology Courses (PSY)

PSY 039  Selected Topics (Nondegree Applicable)
(½-6 units) (Please see Selected Topics category.)

PSY 110  Introduction to Psychology
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
This course will examine traditional areas of psychological investigation from a scientific perspective. Topics include scientific methodology, human development, personality, psychological measurement, psychopathology, psychotherapy, motivation, perception, and social influences on behavior, cognitive processes, learning, and biological basis of behavior. Instructor may recommend a community assignment of students to schools, social agencies, or other settings where psychological principles and skills are being applied. Can also be offered in a distance learning format. (CSU/UC) AA/AS Area B, CSU Area D-9 or E, IGETC Area 4, CAN PSY 2

PSY 111  Personality Dynamics and Effective Behavior
(3.0 Units) (No prerequisite. Students may not receive credit for both Psychology 111 and 116. Three lecture hours weekly.)
This course will present the major theoretical and research perspectives on personality description, development, dynamics, and change. A major focus of the course is how these theories and research findings can be effectively applied in our own lives. The topics of personality description include the dimensions of personality traits, and the development of tests to measure these traits in individuals. The topics of personality dynamics include the factors that influence the day-to-day functioning of individuals, including conscious and unconscious motivations, self-concept, self-esteem, and coping mechanisms. The topics
of personality development focus on how personality is formed, including biological factors as well as childhood and adult experiences within families, work, and relationships. Developmental factors also include considerations of gender, and social and cultural influences. The topics of personality change consider such factors as therapy, growth, and maturational perspectives on personality. The content is presented through a combination of lecture, discussion, and activities. (CSU/UC) AA/AS Area B, CSU Area D-9 or E, IGETC Area 4

PSY 112  Child and Adolescent Psychology
(3.0 Units) (No prerequisite. Students may not receive credit for both Psychology 112 and 114. Three lecture hours weekly.)

This course emphasizes the understanding of children and adolescents through the study of the psychological and developmental changes they undergo. Course content will include an examination of physiological, social/emotional, cognitive, and personality development from birth through adolescence. Individual and normative views of child and adolescent psychology will be utilized. Class topics usually include but will not be limited to: theories of social change and child development, learning and conditioning processes, moral growth and conscience development, the effects of various family environments, education, child abuse, infant development, peer relations, puberty, and methods of studying children. (CSU/UC) AA/AS Area B, CSU Area D-9 or E, IGETC Area 4

PSY 114  The Psychology of Human Development: Lifespan
(3.0 Units) (No prerequisite. Students may not receive credit for both Psychology 112 and 114. Three lecture hours weekly.)

This course will examine human development from conception through old age. Physical, intellectual, social, and personality development will be included. Emphasis will be placed on the continuity of development as well as on individual differences. (CSU/UC) AA/AS Area B, CSU Area D-9 or E, IGETC Area 4

PSY 116  Theories of Personality
(3.0 Units) (No prerequisite. Students may not receive credit for both Psychology 111 and 116. Three lecture hours weekly.)

A survey of the major theories of personality. Psychoanalytic, interpersonal, humanistic, behavioral, social-cognitive, and trait theories will be covered. (CSU/UC) AA/AS Area B, CSU Area D-9, IGETC Area 4

PSY 120  Psychology of Women
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

A study of the psychology of contemporary women focusing upon the identifying factors which influence their roles, e.g., the socialization process and sex role expectations; contrasting sex roles in American culture with sex roles in other cultures, and reviewing the major studies of psychological sex differences. This class is open to all students. (CSU/UC) AA/AS Areas B & G, CSU Area D-4 or D-9, IGETC Area 4

PSY 125  Psychology of Violence
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This course will examine the psychological bases of violence against self, intimates, associates, and strangers in such diverse settings as the home, workplace, school, streets, and other public places. Theories explaining violent behavior as the result of biology, of shame and low self-esteem, of failures of attachment, empathy, and guilt, of media violence, and of prejudice and hatred will be examined. The roles of prisons, drugs, guns, poverty, racism, sexism, homophobia, and mental illness in precipitating violence will be assessed. A major emphasis will be placed on possible prevention and treatment strategies, including childrearing practices, biomedical interventions, psychotherapy, education, and public policy decisions. (CSU)

PSY 130  Introduction to Sport and Exercise Psychology
(3.0 Units) (No prerequisite. Can be taken for credit as Psychology 130 or Physical Education 120. Credit will be awarded for only one course. Three lecture hours weekly.)

This course will examine the psychological theories and techniques that are applied to sport, exercise and other achievement-related situations. This course will emphasize the enhancement of performance and personal growth of athletes, coaches, and exercise participants. Students will also learn mental skills that they will be able to transfer from sport and exercise settings to their everyday lives. Can also be offered in a distance learning format. (CSU)

PSY 139  Selected Topics
(½-6 units) (Please see Selected Topics category.) (CSU/UC w/limit)

PSY 140  Marriage, Family, and Intimate Relationships
(3.0 Units) (No prerequisite. Can be taken for credit as Psychology 140 or Sociology 140. Credit will be awarded for only one course. Three lecture hours weekly.)

This course is designed to give the student a theoretical and practical understanding of the variety of intimate social and family relationships existing in contemporary society. While the course will cover traditional marriage and nuclear family relationships, emphasis will also be placed upon other life-styles, e.g., singles, gay, blended families, etc. Within the context of each life-style, topics such as communication, social roles, sexual behavior, decision making, child rearing, and everyday life interaction will be covered. (CSU/UC) AA/AS Area B, CSU Area D-7 or E, IGETC Area 4
PSY 142  Growing Older: Physical, Psychological, and Social Aspects of Aging
(3.0 Units) (No prerequisite. Can be taken for credit as Psychology 142 or Health Education 142. Credit will be awarded for only one course. Three lecture hours weekly.)

This course will examine the aging process in the contemporary world. Topics explored will include physical changes, psychological changes, and social changes occurring as people age; theories regarding why these changes occur, and how to maximize potential in these areas. Other topics will be work and retirement, death and bereavement, local and national resources for aging individuals, and myths associated with aging. (CSU/UC) AA/AS Area B, CSU Area E, IGETC Area 4

PSY 145  Psychology in Modern Life
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This course examines the psychological, physiological, and socio-cultural factors involved in personality development, interpersonal relationships, and social processes. The course will teach students important psychological principles, concepts, skills, and research, with the goals of improving the quality of our own lives and relationships. The course is intended to be a useful course for students who want a general understanding of psychology and its applications to living in the twenty-first century. The emphasis will be on helping students acquire knowledge, insights, and skills that they can apply to their own lives, particularly in areas such as life satisfaction, personal satisfaction, careers, relationships, health, and stress management. The course will provide an opportunity for students to develop an awareness, understanding, and appreciation of human diversity. (CSU) AA/AS Area B, CSU Area D-9 or E

PSY 204  Abnormal Psychology
(3.0 Units) (No prerequisite. Advisory: Psychology 110. Three lecture hours weekly.)

Principles of general psychology applied to the field of psychopathology. A survey of the major diagnostic disorders together with the theories of the cause of mental illness. A survey of the major psychotherapeutic methods in relation to their practical and theoretical value. This course is designed as an introduction to abnormal psychology and is directed toward those with an interest in applied psychology. (CSU/UC) AA/AS Area B, CSU Area D-9, IGETC Area 4

PSY 205  Introduction to Research Methods and Data Analysis in Psychology
(3.0 Units) (Prerequisite: Psychology 110. Advisory: Mathematics 115 or Statistics 115. Course may be taken as Psychology 205 or Sociology 205, but credit will be given for only one course. Three lecture hours weekly.)

This course prepares students for upper-level division work in the psychology and sociology majors. The course examines the following topics: conducting Internet and library research; formulating testable hypotheses; methods of examining processes (qualitative and descriptive research methods); methods of examining causality (simple, complex, and factorial experimental research designs); methods of examining the power of social events (quasi experimental and time series research designs); and methods of examining the associations between phenomena (simple and complex forms of correlational analysis). In addition the course trains students in the appropriate selection and use of nonparametric and parametric statistics. (CSU/UC) AA/AS Area B or E, CSU Area D-9, IGETC Area 4

PSY 230  Social Psychology
(3.0 Units) (No prerequisite. Can be taken for credit as Psychology 230 or Sociology 230. Credit will be awarded for only one course. Three lecture hours weekly.)

This is an interdisciplinary course covering sociological and psychological approaches to important social phenomena. The diverse topics covered will be selected from the following: altruism; attitude formation and attitude change; conformity; person perception and social labeling; reference groups; social conflict and conflict resolution; human aggression; intergroup processes; intragroup processes; interpersonal attraction; social networks, statuses and roles; and the social development of the self. The course also covers the research methods and theoretical orientations found in sociological and psychological social psychology. (CSU/UC) AA/AS Area B, CSU Area D-7, IGETC Area 4

PSY 249  Directed Study
(1-3 units) (Please see Directed Study category.) (CSU/UC w/limit)

PSY 251  Biological Psychology
(3.0 Units) (No prerequisite. May be taken as Psychology 251 or Biology 251. Credit will be awarded for only one course. Three lecture hours weekly.)

This class explores the basic brain processes underlying the functioning of the human mind. Among the topics to be discussed are basic synaptic functioning, psychopharmacology, stress and the immune system, learning and memory, sleep, mood disorders, schizophrenia, language, motor and sensory systems, sexuality, consciousness, endocrine function and interactions. (CSU/UC)

PSY 252  Seminar and Fieldwork Experience
(3.0 Units) (No prerequisite. Corequisite: Psychology 110 or 112 or Sociology 110. Psychology 252 and Behavioral Science 252 are equivalent. Credit is given for only one course. One and one-half lecture and four and one-half fieldwork hours weekly.)

This course is designed to give students meaningful participation in a psychologically related community service agency in order to understand the applications of psychological principles, theories, and concepts. With the mutual consent of student and instructor each student is placed in a school, social agency, special education program, mental health agency, or community organization and works under the direct supervision of someone with a degree, credential, or demonstrated expertise in psychology or sociology. The one and one-half hour weekly seminar provides students and instructor the opportunity to present ob-
servations, discuss perceptions, and apply relevant theories and concepts to their fieldwork participation. May be taken twice for credit. (CSU)

REAL ESTATE

The Real Estate Program is designed to serve the individual planning to enter the real estate profession, the person who wishes to improve skills and qualify for the real estate sales and broker’s license, and active professionals working on license renewal. Upon completing the Real Estate Program, students are eligible for positions in real estate sales offices, banks, savings and loan corporations, title companies, escrow companies, organizations, and as independent real estate brokers.

Career Options
Appraiser, Escrow Officer, Loan Officer, Mortgage Lender, Property Developer, Property Manager, Real Estate Agent, Real Estate Broker, Real Estate Counselor, Sales Agent

Department Phone: (415) 485-9610

A.S. in Real Estate, Occupational (Certificate of Achievement also awarded)
Courses are offered at both campuses. Students may take classes at either campus and complete requirements for the major. Real estate brokers and sales persons must also pass an examination given by the State of California, Department of Real Estate. Students who complete the six real estate courses required for the major are eligible for the Certificate of Achievement. An Associate in Science degree is awarded for satisfactory performance in major courses as well as completion of general education and graduation requirements.

Please note: Students may choose English 120, 120SL, or 150 to complete the Associate degree. Transfer students, however, are advised to complete English 150. All students should consult a counselor.

Skills Certificates
Skills Certificates are an acknowledgement that the student has attained a specified set of competencies within an occupational program. Skills Certificates may be part of a “ladder” of skills, beginning with job entry skills and leading to a full Certificate of Achievement program or may constitute a skill set that enables a student to upgrade or advance in an existing career. Skills Certificates require less than 18 units and are shorter in duration than the Certificates of Achievement.

Selected Topics
Following are the general course descriptions for selected topics courses, which are offered in many disciplines. Specific topics are announced each semester in the class schedule.

Real Estate Courses (REAL)

REAL 039 Selected Topics (Nondegree Applicable)
(⅓-6 units) (Please see Selected Topics category.)

REAL 115 Real Estate Principles
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This fundamental real estate course emphasizes the basic concepts and terminology necessary for understanding the complexities of the real estate profession. The Department of Real Estate requires this course and Real Estate Practice (Real Estate 116), plus one other elective course to be taken prior to sitting for the Real Estate Salesperson’s Exam. This course is also one of the eight courses required to sit for the Real Estate Broker’s Exam. Specific course content is applicable towards Real Estate Appraiser Licensing (check with real estate instructors for content and subject categories based on Office of Real Estate Appraiser’s requirements). (CSU)
REAL 116  Real Estate Practice
(3.0 Units) (No prerequisite. Advisory: Real Estate 115. Three lecture hours weekly.)
This course introduces students to the day-to-day practice in a real estate office. It includes understanding agency obligations inherent in real estate practice and provides practice in the basic skills necessary to succeed in a real estate career. The Department of Real Estate requires this course and Real Estate Principles (Real Estate 115), plus one other elective course to be taken prior to sitting for the Real Estate Salesperson's Exam. This course is also one of the eight courses required to sit for the Real Estate Broker's Exam. Specific course content is applicable towards Real Estate Appraiser Licensing (check with real estate instructors for content and subject categories based on Office of Real Estate Appraiser's requirements). (CSU)

REAL 117  Legal Aspects of Real Estate
(3.0 Units) (No prerequisite. Advisory: Real Estate 115. Three lecture hours weekly.)
A study of California real estate law covering agency, contracts, disclosures, landlord/tenant disputes, development and the environment, property taxes, common interest subdivisions, escrow and title insurance boundary disputes, and the effects of trusts and bankruptcy on property transactions. The Department of Real Estate requires Real Estate Principles and Real Estate Practice plus one other elective course to be taken prior to sitting for the Real Estate Salesperson's Exam. This course is one of the acceptable electives and is also one of the eight courses required to sit for the Real Estate Broker's Exam. Specific course content is applicable towards Real Estate Appraiser Licensing (check with real estate instructors for content and subject categories based on Office of Real Estate Appraiser's requirements). (CSU)

REAL 139  Selected Topics
(½-6 units) (Please see Selected Topics category.) (CSU w/limit)

REAL 210  Real Estate Finance
(3.0 Units) (No prerequisite. Advisory: Real Estate 115. Three lecture hours weekly.)
A study of real estate finance includes lending policies and problems, financing residential and commercial properties, and the Federal and State entities that oversee lending practices. This course is one of the acceptable electives for obtaining a Real Estate Sales license and is also one of the eight courses required to sit for the Real Estate Broker’s Exam. Specific course content is applicable towards Real Estate Appraiser Licensing (check with real estate instructors for content and subject categories based on Office of Real Estate Appraiser’s requirements). (CSU)

REAL 212  Real Estate Appraisal I
(3.0 Units) (No prerequisite. Advisory: Real Estate 115. Three lecture hours weekly.)
This introductory course covers the purposes of appraisals, the appraisal process, and the different approaches, methods, and techniques used to determine the value of various property types. This course is one of the acceptable electives for obtaining a Real Estate Sales license and is also one of the eight courses required to sit for the Real Estate Broker’s Exam. Specific course content is applicable towards Real Estate Appraiser Licensing (check with real estate instructors for content and subject categories based on Office of Real Estate Appraiser’s requirements. (CSU)

REAL 215  Real Estate Economics
(3.0 Units) (No prerequisite. Advisory: Real Estate 115. Three lecture hours weekly.)
This course provides the means to interpret economic activities for the mutual benefit of property owners, investors, and real estate professionals. It includes relating business and real estate cycles to forecasting land use and capital growth patterns, the clash of land use controls, and the dynamics of community demographics and property investment alternatives. This course is one of the acceptable electives for obtaining a Real Estate Sales license and is also one of the eight courses required to sit for the Real Estate Broker’s Exam. Specific course content is applicable towards Real Estate Appraiser Licensing (check with real estate instructors for content and subject categories based on Office of Real Estate Appraiser’s requirements). (CSU)

REAL 217  Advanced Real Estate Appraisal II
(3.0 Units) (No prerequisite. Advisory: Real Estate 212. Three lecture hours weekly.)
This course addresses the appraisal of income producing properties and the techniques and methodology used by appraisers to convert cash flows into indicators of value. This course is one of the acceptable electives for obtaining a Real Estate Broker’s License. Specific course content is applicable towards Real Estate Appraiser Licensing (check with real estate instructors for content and subject categories based on Office of Real Estate Appraiser’s requirements). (CSU)

REAL 218  Property Management
(3.0 Units) (No prerequisite. Advisory: Real Estate 115. Three lecture hours weekly.)
This course identifies the tools and methods of managing income properties, emphasizing owner/tenant relations, evictions, contracts, cash flows, and employment regulations. It is one of the acceptable electives for obtaining a Real Estate Sales license and is also one of the eight courses required to sit for the Real Estate Broker’s Exam. Specific course content is applicable towards Real Estate Appraiser Licensing (check with real estate instructors for content and subject categories based on Office of Real Estate Appraiser’s requirements). (CSU)
REAL 219  Escrows
(3.0 Units) (Prerequisite: Real Estate 115. Three lecture hours weekly.)
This course emphasizes the methods and techniques of escrow procedures with an additional focus on the title industry and the complex considerations that can affect title. This course can enhance a student's ability to seek employment in not just real estate sales or appraisal, but also opens up employment opportunities in the escrow and title industries. This course is one of the acceptable electives for obtaining a Real Estate Sales license or a Real Estate Broker's License. Specific course content is applicable towards Real Estate Appraiser Licensing (check with real estate instructors for content and subject categories based on Office of Real Estate Appraiser's requirements). (CSU)

REAL 220  California Loan Brokering
(3.0 Units) (No prerequisite. Advisory: Real Estate 115. Three lecture hours weekly.)
This course introduces the student to the complex laws affecting the loan brokering business. It is designed for those already involved in a real estate career and for those considering a career in the real estate loan marketplace. It is also a valuable course for borrowers so that they can understand the loan process. This course is one of the acceptable electives for obtaining a Real Estate Sales license or a Real Estate Broker's License. Specific course content is applicable towards Real Estate Appraiser Licensing (check with real estate instructors for content and subject categories based on Office of Real Estate Appraiser's requirements). (CSU)

REAL 249  Directed Study
(1-3 units)(Please see Directed Study category.) (CSU w/limit)

SOCIAL SCIENCE
The social science field is interdisciplinary and designed for students who wish to gain a broader understanding of the social sciences than is possible in a major offered by a single discipline. The aim of the social science major is to provide an opportunity for students who wish to build on the foundation of their general education and become familiar with more than one area of social science.

Career Options
Civil Service Worker, Educator, Foreign Service Worker, Journalist, Management Trainer, Public Administrator, Social Worker, Statistician, Urban Planner

Faculty
Yolanda Bellisimo, Sandy Boyd, Henry Fearnley, Victor Minasian, Walter Turner

Department Phone: (415) 485-9630

A.A. in Social Science
The Social Science Program provides transfer, general education, and general interest courses, as well as an Associate in Arts degree.

Please note: Students may choose English 120, 120SL, or 150 to complete the Associate degree. Transfer students, however, are advised to complete English 150. All students should consult a counselor.

Social Science Courses (SSC)

SSC 039  Selected Topics (Nondegree Applicable)
(½-6 units)(Please see Selected Topics category.)

SSC 115  Leadership and Governance
(1.0 Unit) (No prerequisite. One lecture hour weekly.)
This course defines leadership and the development of leadership skills, including communication, facilitation, problem solving, and conflict resolution. Critical review of governance structure of the college and the district and comparison to other college governance structures. Emphasis is placed upon understanding organizational structures, developing an ability to effectively implement and evaluate these structures. (CSU)

SSC 115AL  Leadership and Governance Learning Lab
(1.0 Unit) (Prerequisite: Social Science 115 or concurrent enrollment. For one unit, three independent study hours weekly; for two units, six independent study hours weekly.)
This course includes appropriate laboratory assignments regarding service on governance committees. This laboratory will provide students the opportunity to apply critical thought to work experience situations in leadership and governance positions. Laboratory assignments will direct the students to focus upon planning, implementing, and evaluating their work in college/student organizations and governance committees. Combinations of Social Science 115AL and 115BL may be taken a total of four times for credit. (CSU)

SSC 115BL  Leadership and Governance Learning Lab
(2.0 Units) (Prerequisite: Social Science 115 or concurrent enrollment. For one unit, three independent study hours weekly; for two units, six independent study hours weekly.)
This course includes appropriate laboratory assignments regarding service on governance committees. This laboratory will provide students the opportunity to apply critical thought to work experience situations in leadership and governance positions. Laboratory assignments will direct the students to focus upon planning, implementing, and evaluating their work in college/student organizations and governance committees. Combinations of Social Science 115AL and 115BL may be taken a total of four times for credit. (CSU)
SSC 125  Research Methods and Term Papers in Social Science
(3.0 Units) (No prerequisite. Advisory: Competence in written language skills comparable to eligibility for English 150. Students may receive credit for this course as Economics 125, Ethnic Studies 125, History 125, Political Science 125 or Social Science 125. Credit will be awarded for only one discipline. Three lecture hours weekly.)

This course focuses on the elements of critical thinking and methods of research in the social sciences and develops skills required to organize such thought and research into effective, college level presentations. Various social science faculty members will offer their expertise to students on an individual basis as they develop their presentations. Students are encouraged to select areas of research from other courses taken during the semester or from areas of special interest including politics, history, economics, education, women's studies, ethnic studies, current issues, and issues of community concern. (CSU/UC) CSU Area A-3

SSC 139  Selected Topics
(½-6 units) (Please see Selected Topics category.) (CSU/UC w/limit)

SSC 215  Survey of Current Issues
(3.0 Units) (No prerequisite. Can be taken for credit as Social Science 215, Economics 215, or Political Science 215. Credit will be awarded for only one discipline. Three lecture hours weekly.)

This course is an opportunity to critically examine and discuss significant world developments and to attempt to understand the sources of those developments. Each student will have an opportunity to focus on issues of particular interest and to share that information with the group. When possible, informed participants in world and national events will meet with the class to share their insights. (CSU)

SSC 249  Directed Study
(1-3 units) (No prerequisite. One to three hours weekly.) (CSU/UC w/limit)

SOCILOGY

Sociology explores the patterns in human behavior and tries to make sense out of the many forces in society that shape individual lives. Courses in sociology provide the tools and intellectual frameworks students can use to better understand the society in which they live.

Career Options
Administrator, Adoptions Worker, Affirmative Action Officer, Camp Counselor, Community Outreach Worker, Consumer Research Assistant, Corrections Officer, Criminologist, Crisis Counselor, Demographer, Drug/Alcohol Counselor, Eligibility Worker, Employee Relations Assistant, Employment Interviewer, FBI Agent, Geriatric Specialist, Intake Interviewer, Marriage, Family, and Child Counselor, Penologist, Police Officer, Probation/Parole Officer, Program Director, Psychiatric Social Worker, Recreation Therapist, Rehabilitation Counselor, Research Worker, Residential Counselor, Social Ecologist, Social Service Aide, Social Statistician, Social Worker, Sociologist, Teacher, Volunteer Coordinator, Welfare Worker, Youth Organization Leader

Faculty
Michael E. Brailoff, Paul Christensen
Department Phone: (415) 485-9630

Transfer
Students planning to transfer to a four-year institution should complete the lower division major requirements and general education pattern for the appropriate transfer institution and major. Exact major requirements for UC and CSU institutions can be found on www.assist.org. Please see a counselor for more information as curriculum requirements may vary among transfer universities.

Sociology Courses (SOC)

SOC 039  Selected Topics (Nondegree Applicable)
(½-6 units) (Please see Selected Topics category.)

SOC 110  Introductory Sociology, Individual and Society
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

A course designed to develop a sociological perspective; it will explore the relationship between individual and group behavior and the nature of societal and institutional influences upon individuals and groups, and the resulting patterns of behavior. Exposure to the core areas of sociology will be covered. May also be offered in a distance learning format. (CSU/UC) AA/AS Area B, CSU Area D-0, IGETC Area 4, CAN SOC 2

SOC 112  Social Deviance and Problems
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

Identification and analysis of contemporary forms of deviant behavior generally defined as social problems by members of society. The course includes theoretical considerations of these problems, observations and descriptive interpretations, and field application of the sociological knowledge required in the classroom. (CSU/UC) AA/AS Area B, CSU Area D-0, IGETC Area 4, CAN SOC 4

SOC 114  Global Social Problems
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This course offers an opportunity to review and analyze some of the most important social problems of the current age from a global perspective. The course will center upon contemporary descriptions of major social conflicts, international disputes, and natural disasters. The course will also provide sociological models for theoretical consideration and analysis. Topics may include resource war, religious and political terrorism, nuclear proliferation, poverty, population growth and migrations, sexual exploitation, drug smuggling, ecological pollution, and global warming. (CSU/UC) AA/AS Area B, CSU Area D-7, IGETC Area 4
SOC 139  Selected Topics
(½-6 units) (Please see Selected Topics category.) (CSU/UC w/limit)

SOC 140  Marriage, Family, and Intimate Relationships
(3.0 Units) (No prerequisite. Can be taken for credit as Sociology 140 or Psychology 140. Credit will be awarded for only one course. Three lecture hours weekly.)

This course is designed to give the student a theoretical and practical understanding of the variety of intimate social and family relationships existing in contemporary society. While the course will cover traditional marriage and nuclear family relationships, emphasis will also be placed upon other lifestyles, e.g., singles, gay, blended families, etc. Within the context of each lifestyle, topics such as communication, social roles, sexual behavior, decision making, child rearing, and everyday life interaction will be covered. (CSU/UC) AA/AS Area B, CSU Area D-7 or E, IGETC Area 4

SOC 184  Criminology
(3.0 Units) (No prerequisite. Can be taken for credit as Sociology 184 or Administration of Justice 204. Credit will be awarded for only one course. Three lecture hours weekly.)

An introduction to the major theoretical explanations of criminal behavior; social and economic factors which contribute to crime; major typologies of criminal behavior; criminal justice systems and research; courts, probation and parole; police; and other institutions. The course will take a sociological perspective and integrate theories from sociology, criminology, and criminal justice. (CSU/UC) CSU Area D-0

SOC 205  Introduction to Research Methods and Data Analysis in Sociology
(3.0 Units) (Prerequisite: Sociology 110. Advisory: Mathematics 115 or Statistics 115. Course may be taken as Psychology 205 or Sociology 205, but credit will be given for only one course. Three lecture hours weekly.)

This course prepares students for upper division work in the sociology major. The course examines the following topics: conducting Internet and library research; formulating testable research hypotheses; methods of qualitative analysis (case studies, interview techniques, panel analysis, content analysis, questionnaire construction); descriptive research methods (participant observation, nonparticipant observation, path analysis); methods of examining the social power of critical events (quasi experimental and time series research designs); and methods of conducting archival analyses (meta analysis, statistical analysis of archival data). In addition, the course trains students in the appropriate selection and use of nonparametric and parametric statistics. (CSU/UC) AA/AS Areas B & E, CSU Area D-0, IGETC Area 4

SOC 220  Vice, Narcotics, and Organized Crime
(3.0 Units) (No prerequisite. Can be taken for credit as Sociology 220 or Administration of Justice 220. Credit will be awarded for only one course. Three lecture hours weekly.)

This course examines the relationship between organized crime and the community. It will cover the impact of organized crime, history of organized crime, relationship to the social structure, symptoms of organized crime, i.e. corruption, dysfunctional behavior, violence, and attempts to control organized crime and the role of the legal system. In addition, vice and trade in narcotics will be discussed. Modern organized crime groups both national and international will be highlighted. Exposure to sociological theory and concepts from criminal justice will be integrated into the course. (CSU)

SOC 230  Social Psychology
(3.0 Units) (No prerequisite. Can be taken for credit as Sociology 230 or Psychology 230. Credit will be awarded for only one course. Three lecture hours weekly.)

This is an interdisciplinary course covering sociological and psychological approaches to important social phenomena. The diverse topics covered will be selected from the following: altruism; attitude formation and attitude change; conformity; person perception and social labeling; reference groups; social conflict and conflict resolution; human aggression; intergroup processes; intragroup processes; interpersonal attraction; social networks, statuses and roles; and the social development of the self. The course also covers the research methods and theoretical orientations found in sociological and psychological social psychology. (CSU/UC) AA/AS Area B, CSU Area D-7, IGETC Area 4

SOC 250  Organizational Sociology
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This course is for sociology students, citizens, elected officials, managers and all others who are concerned about the role of government, private sector, and nonprofit organizations in contemporary society. Among the many topics to be covered are the following: the origins of organizational society, dynamics of organizational survival, methods of organizational research, forms of citizen influence on organizations, societal consequences of organizational practices, individual/psychological consequences of organizational practices, relationships between organizations and local communities, and relationships between organizations and nation states. (CSU) AA/AS Area B, CSU Area D-0

SOC 249  Directed Study
(1-3 units) (Please see Directed Study category.) (CSU/UC w/limit)
SPANISH
A major reason for studying the Spanish language is the enrichment of one's intellectual growth in the context of the rest of the world. In learning Spanish, one also learns about the culture, philosophy, and civilization of another people, thereby broadening understanding of the world. On the practical side, any field of specialization (journalism, medicine, law, business, teaching) is enhanced if one can speak another language. In California, knowledge of a modern language is now required in many jobs that deal with the public such as Civil Service, social work, nursing, and other service-oriented fields.

Transfer
Students planning to transfer to a four-year institution should complete the lower division major requirements and general education pattern for the appropriate transfer institution and major. Exact major requirements for UC and CSU institutions can be found on www.assist.org. Please see a counselor for more information as curriculum requirements may vary among transfer universities.

Policy Statement Regarding Sequence of Enrollment in Modern Language Classes
Although students are advised to enroll in language courses sequentially, they will not be precluded from enrolling in lower level language classes after completion of more advanced courses. Students should be aware, however, that units resulting from the lower level courses may not be accepted at transfer institutions as a part of the required transferring units.

A.A. in Spanish
Spanish language courses serve a dual purpose, which is to acquire structural and verbal skills, which satisfy both academic and cultural needs. The program serves both transfer students and those seeking self-enrichment. Students may take classes at either campus to fulfill requirements for the major.

Please note: Students may choose English 120, 120SL, or 150 to complete the Associate degree. Transfer students, however, are advised to complete English 150. All students should consult a counselor.

Spanish Courses (SPAN)
All Spanish courses can be taken for a letter grade or pass/no pass.
In general, courses required for a transfer student's four-year major should be taken on a letter grade basis.

SPAN 039 Selected Topics (Nondegree Applicable)
(½-6 units) (Please see Selected Topics category.)

SPAN 101 Elementary Spanish I
(5.0 Units) (No prerequisite. Four lecture and three laboratory hours weekly.)
A beginning course which offers study and practice in speaking, understanding, reading, and writing Spanish, along with exploration of the cultural aspects of the Spanish-speaking world. The three-hour weekly laboratory requirement enhances the student's verbal and comprehension skills through the use of audiovisual materials. Can also be offered in a distance learning format. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 6A: UC Language other than English

SPAN 102 Elementary Spanish II
(5.0 Units) (Prerequisite: Spanish 101. Four lecture and three laboratory hours weekly.)
Further emphasis is placed on the structure of the language, verbal communication, and understanding of Hispanic culture. Continued use of the language laboratory for further mastery of the language. Can also be offered in a distance learning format. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B or 6A: UC Language other than English

SPAN 110 Conversational Spanish I
(4.0 Units) (No prerequisite. Three lecture and three laboratory hours weekly.)
Use of modern colloquial Spanish with elementary grammar. Designed for students who wish to acquire skills of the spoken language with a minimum of formal grammar. Oral practice in speaking, understanding, and correct pronunciation of Spanish, using audiovisual materials depicting everyday situations. (CSU)
SPAN 112 Conversational Spanish II
(4.0 Units) (Prerequisite: Spanish 110. Three lecture and three laboratory hours weekly.)
Continued use of modern colloquial Spanish with elementary grammar. Designed for students who wish to acquire skills of the spoken language with a minimum of formal grammar. Continued oral practice in speaking, understanding, and correct pronunciation of Spanish, using audiovisual materials depicting everyday situations. (CSU)

SPAN 114 Conversational Spanish III
(4.0 Units) (Prerequisite: Spanish 112. Three lecture and three laboratory hours weekly.)
Continued use of modern colloquial Spanish with elementary grammar. Designed for students who wish to acquire skills of the spoken language with a minimum of formal grammar. Continued oral practice in speaking, understanding, and correct pronunciation of Spanish, using audiovisual materials depicting everyday situations. (CSU)

SPAN 120 Spanish for Health Care Professionals I
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
This is a Spanish conversation course tailored to the needs of all health care professionals and workers who wish to learn Spanish with the goal of applying it in their working environment. No prior knowledge of Spanish is needed. Each lesson is accompanied by a set of listening exercises. This course fulfills continuing education requirements for registered nurses. Can also be offered in a distance learning format. (CSU)

SPAN 121 Spanish for Health Care Professionals II
(3.0 Units) (Prerequisite: Spanish 101 or 120. Three lecture hours weekly.)
This is the second semester continuation course for those health care professionals who have achieved a basic level of proficiency and wish to communicate more effectively with their Spanish-speaking patients. Emphasis is placed on communication. Each lesson is accompanied by a set of listening exercises. Students may receive continuing education units for this course. (CSU)

SPAN 122 Spanish for Teachers
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
This is a Spanish conversation course designed to meet the needs of teachers who wish to learn Spanish with the goal of communicating with students and parents in their working environment. No prior knowledge of Spanish is required. This course fulfills continuing education requirements for teachers and is useful vocationally. (CSU)

SPAN 139 Selected Topics
(½-6 units) (Please see Selected Topics category.) (CSU/UC w/limit)

SPAN 203 Intermediate Spanish III
(5.0 Units) (Prerequisite: Spanish 102. Four lecture and three laboratory hours weekly.)
In-depth study of the language with grammar review, oral practice, composition, and introduction to literature. The language laboratory offers the use of audiovisual materials for improved fluency and accuracy in pronunciation as well as the presentation of cultural and literary topics. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B or 6A: UC Language other than English

SPAN 203HB Intermediate Spanish for Heritage and Bilingual Speakers
(4.0 Units) (Prerequisite: Oral Fluency in Spanish. Four lecture hours weekly.)
An intermediate course tailored to the needs of bilingual students who have had little formal study of the Spanish language. This course focuses on reading, writing and vocabulary as well as cultural aspects of all Spanish-speaking countries. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B or 6A: UC Language other than English

SPAN 204 Intermediate Spanish IV
(4.0 Units) (Prerequisite: Spanish 203. Four lecture hours weekly.)
Continuation of study and practice in speaking, understanding, reading, and writing Spanish. Completion of an in-depth review of Spanish grammar. Reading in literature, history, and culture of the Spanish-speaking world. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3-B or 6A: UC Language other than English

SPAN 225 Advanced Spanish I
(3.0 Units) (Prerequisite: Spanish 204. Three lecture hours weekly for each course.)
This course aims to expand the student’s knowledge of the Spanish language and civilization through the study of grammar, literature and the Spanish language press, with particular emphasis on the present day Hispanic world. Emphasizes advanced levels of verbal expression and written composition. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B or 6A: UC Language other than English

SPAN 226 Advanced Spanish II
(3.0 Units) (Prerequisite: Spanish 225. Three lecture hours weekly for each course.)
This course aims to expand the student’s knowledge of the Spanish language and civilization through the study of grammar, literature and the Spanish language press, with particular emphasis on the present day Hispanic world. Emphasizes advanced levels of verbal expression and written composition. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B or 6A: UC Language other than English
SPAN 228A  Advanced Spanish Conversation and Culture Through Films
(1.0 Unit) (Prerequisite: Spanish 203. Three lecture hours weekly.)
This course is designed to introduce and teach students about traditional and new tendencies in Spanish and Latin American film, and to establish connections between sociocultural or political changes in Spanish-speaking countries and their films—the most artistic and expressive medium of the past century. Films are treated as cultural documents that speak to us about particular social, cultural, literary, and historical aspects of Spanish and Latin American society. An intermediate level of Spanish is required, as students will give oral and written presentations in Spanish. The films may vary from semester to semester. (CSU)
AA/AS Area C, CSU Area C-2

SPAN 230A  Culture and Civilization of Spain and South America
(3.0 Units) (Prerequisite: Spanish 102. Three lecture hours weekly.)
Students will study language, heritage, culture, traditions, music, art, literature, historic and current events of Spain and South American countries. The course is conducted entirely in Spanish and students are expected to have knowledge of verb tenses and other grammatical structures. (CSU/UC)AA/AS Area C, CSU Area C-2, IGETC Area 3B

SPAN 230B  Culture and Civilization of Mexico and Central America
(3.0 Units) (Prerequisite: Spanish 102. Three lecture hours weekly.)
This class is a study of language, heritage, culture, traditions, music, art, literature, historic and current events of Mexico and Central American countries. The course is conducted entirely in Spanish and students are expected to have knowledge of verb tenses and other grammatical structures. May be taken once for credit. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

SPAN 230C  Culture and Civilization of Spain
(3.0 Units) (Prerequisite: Spanish 102. Three lecture hours weekly.)
Study of the language, heritage, culture, traditions, music, art, literature, historic and current events of Spain. The course is conducted entirely in Spanish and students are expected to have knowledge of verb tenses and other grammatical structures. (CSU)

SPAN 235  Cultural Immersion Studies in a Spanish-Speaking Country
(0.5 Unit) (Corequisite: Concurrent enrollment in a Spanish grammar course: Spanish 101, 102, 203, or 204. Thirty-two laboratory hours during a 3-week field trip.)
This course offers students the opportunity for cultural immersion in a Spanish-speaking country alongside the grammatical study of Spanish 101, 102, 203 or 204. It will help students to recognize cultural differences and to understand how Americans are typically viewed abroad. Readings and discussions will include the meaning of culture, perceptions of American culture, the cultural characteristics of the host country as compared/contrasted with American culture, the effects of globalization, and how globalization is viewed differently across cultures. (CSU)

SPAN 249  Directed Study
(1-3 units)(Please see Directed Study category.) (CSU/UC w/limit)

SPEECH
Courses in speech offer a fundamental and valuable skill for all students. Learning to communicate our ideas orally with ease and persuasion is of significant value whether it is used interpersonally between friends, within decision-making groups, or before large audiences.

Career Options
Communication Analyst, Interpersonal Communications Consultant, Lawyer, Public Relations Representative, Sales, Radio Announcer, Speech Therapist, Speech Writer

Faculty

Speech Courses (SPCH)

SPCH 039  Selected Topics (Nondegree Applicable)
(½-6 units) (Please see Selected Topics category.)

SPCH 110  Introduction to Speech Communication
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
A survey course designed to introduce students to public speaking, critical listening, and listener feedback. Emphasis is on building self confidence through frequent performance experience. (CSU/UC) AA/AS Area E, CSU Area A-1, IGETC Area 1C

SPCH 120  Interpersonal Communication
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
Introduction to principles of effective communication in interpersonal relationships. Study of verbal and nonverbal communication, person perception, conflict resolution, listening, and communication barriers. Students will learn to identify communication behaviors and patterns in interpersonal relationships (both their own and others). (CSU/UC) AA/AS Area E, CSU Area A-1, IGETC Area 1C

SPCH 122  Public Speaking
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
A survey course designed to introduce students to three specific areas of public speaking: informative speaking, persuasive speaking and small group speaking. Emphasis is on effective research and outline methods, critical listening, providing effective listener feedback to the speaker and on effective verbal and nonverbal delivery skills. (CSU/UC) AA/AS Area E, CSU Area A-1, IGETC Area 1C, CAN SPCH 4

SPCH 128  Intercultural Communication
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
This is a course designed to familiarize students with the theory and process of effectively communicating with people different from themselves in terms of ethnicity, culture, race, and language use. The specific focus of this course will be to develop, through guided research, the student's ability to recognize, acknowledge, and better understand the uniqueness of people from European-American, African-American, Asian-American, and Latino-American cultures through comparison of their respective communication behaviors. Students will study theories from intercultural and intergroup communication as they relate to intercultural communication, and will read from an intercultural anthology. Through lectures, discussions, reading, research, viewing films on videotapes, group presentations, written and oral assignments, students will learn the skills necessary to achieve positive outcomes when communicating with others who are perceived as being culturally, ethnically or racially different than they. (CSU/UC) AA/AS Areas C or E, & G, CSU Area D-7, IGETC Area 3B

SPCH 130  Small Group Communication
(3.0 Units) (No prerequisite. Advisory: Eligibility for English 150. Three lecture hours weekly.)
This course offers practical experience in the techniques of leading and participating in small group discussions. Effective small group discussion techniques such as speaking on panels, symposiums, problem-solving groups, conflict resolution within small groups as well as leadership skills and parliamentary procedures are covered. This course is designed for students intending to major in speech (communication), business, international business, education, and all fields of study and certification that require group and team-building skills. (CSU/UC) AA/AS Area E, CSU Area A-1, IGETC Area 1C

SPCH 132  Argumentation and Persuasion
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
The goal of this course is to increase students' skills in logical argument and ethical persuasion in verbal communication. Students learn how to analyze and use verifiable evidence, sound reasoning, and effective rhetorical appeals. The class will sharpen abilities to detect careless inferences and fallacies in oral language. Students will practice these skills in individual and group speaking projects. The result is increased ability to think critically and express ideas rationally. (CSU/UC) AA/AS Area E, CSU Area A-1 or A-3, IGETC Area 1C

SPCH 139  Selected Topics
(½-6 units) (Please see Selected Topics category.)
(CSU/UC w/limit)

SPCH 140  Oral Interpretation of Literature I
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
The goal of this course is to introduce students to the field of oral interpretation of literature. Emphasis is on awareness and appreciation of prose and poetry, and what happens to the written word when it is read aloud for the listening pleasure of an audience. Recommended for speech and theatre arts majors. (CSU/UC) AA/AS Area C, CSU Area C-2

SPCH 141  Oral Interpretation of Literature II
(3.0 Units) (No prerequisite. Three lecture hours weekly.)
The goal of this course is to introduce students to the field of oral interpretation of literature. Emphasis is on awareness and appreciation of prose and poetry, and what happens to the written word when it is read aloud for the listening pleasure of an audience. Recommended for speech and theatre arts majors. (CSU/UC) AA/AS Area C, CSU Area C-2
SPCH 155 Radio and Television Announcing and Performance
(3.0 Units) (No prerequisite. Three lecture hours weekly.)

This course prepares students to communicate more effectively through the electronic and/or digital media. Students will explore how to articulate messages, vary pitch and volume to the text and context, pronounce words according to accepted standards, express thoughts and feelings with confidence, understand and interpret the meaning of a message, and communicate ideas from a variety of prompts. (CSU)

SPCH 249 Directed Study
(1-3 units) (Please see Directed Study category.) (CSU/UC w/limit)

STATISTICS

Department Phone: (415) 485-9630

Statistics Courses (STAT)

STAT 039 Selected Topics (Nondegree Applicable)
(½-6 units) (Please see Selected Topics category.)

STAT 115 Introduction to Statistics
(4.0 Units) (Prerequisite: Math 103 or 103G or 103XY. Credit will be awarded for either Math 115 or Statistics 115, but not both courses. Four lecture hours weekly.)

This course is an introduction to statistics for students in social science and business disciplines. The course covers descriptive statistics, probability, hypothesis testing, linear and multiple regression, correlation, sampling, statistical inference and time series analysis. Illustrations are taken from the various social sciences and from business. Students will be instructed in the use of computer spreadsheet software to solve statistical and data analysis problems. (CSU/UC) AA/AS Area E, CSU Area B-4, IGETC Area 2, CAN STAT 2

STAT 139 Selected Topics
(½-6 units) (Please see Selected Topics category.) (CSU w/limit)

STUDY SKILLS

Faculty
Victoria Coad, Harriet Eskildsen, Frances A. Rouda

Department Phone: (415) 485-9345

Study Skills Courses (STSK)

STSK 039 Selected Topics (Nondegree Applicable)
(½-6 units) (Please see Selected Topics category.)

STSK 050 Understanding Learning Disabilities
(0.5 Unit) (No prerequisite. Two lecture hours weekly for four weeks.)

This is a class that will explore topics related to the field of learning disabilities. Areas covered may include causes of learning disabilities, effects of learning disabilities, evaluation, accommodations, and other relevant issues. May be taken twice for credit.

STSK 053 Basic Math Skills
(1.0 Unit) (No prerequisite. One lecture hour weekly.)

This course is designed to serve students with basic math computation learning problems. Covers basic math skills using a variety of resources. Basic skills taught include addition, subtraction, multiplication and division of whole numbers, fractions, and decimals. This course is repeatable for credit.

STSK 054 Writing Improvement
(1.0 Unit) (No prerequisite. One lecture hour weekly.)

This course is designed for students with language based learning disabilities. It is designed to help students write coherent paragraphs. Grammar, punctuation, sentence structure, and paragraph organization will be covered. This course is repeatable for credit.

STSK 056 How to Study in College
(1.0 Unit) (No prerequisite. One lecture hour weekly.)

This course is designed specifically for students with learning disabilities. It is designed to teach college level study techniques to students with learning problems so that they can succeed in college. Major topics include setting goals, managing time, improving concentration and memory, taking notes, organizing study materials, reading textbooks, dealing with test anxiety, and preparing for and taking essay and multiple choice tests. This course is repeatable for credit.

STSK 70-78 Study Skills Workshop
(½ unit each module) (No prerequisite. Twenty-six and one-quarter laboratory hours per one-half unit. Open-entry, open-exit classes.)

A laboratory designed to provide individual testing and remediation of academic skills for students defined as having a dysfunction or delay in one or more processes or skills. Provides support for learning disabled students attending academic courses. Study Skills 70 must be taken by all new students and may be taken twice for credit. Study Skills 76-78 are repeatable for credit.

STSK 139 Selected Topics
(½-6 units) (Please see Selected Topics category.) (CSU w/limit)
STSK 161 Seminar for Tutors  
(2.0 Units) (No prerequisite. One lecture and three laboratory hours weekly.)

This course is designed to assist peer tutors in developing their understanding of the principles and processes involved in tutoring. Students will also acquire both the organizational and interactional skills required for a successful tutoring session. The course will help to build their skills as learning resources for other students. Student is required to tutor a minimum of three hours a week. (CSU)

STSK 161A Instructional Resources for Tutors  
(0.5 Unit) (No prerequisite. Corequisite: Student must be employed as a tutor for the credit program at College of Marin and tutoring at least three hours per week. One and one-half laboratory hours weekly.)

This course monitors and supports both the students who have completed Study Skills 161 and those tutors newly hired for the spring semester. Tutors will meet regularly with the instructors to monitor the progress of the tutees, to review tutorial strategies with the tutors, to resolve any conflicts, and to ensure that the tutoring program’s goals are met by the tutor-tutee relationship. (CSU)

STSK 162 Community Action Skills Lab  
(2.0 Units) (Prerequisite: Enrolled in at least nine units, including two units for Study Skills 162. Two lecture hours weekly.)

This course is designed to train students to provide peer assistance to EOPS and VEA students in Student Affairs, orientation, EOPS counseling, and Health Services. Topics include peer counseling techniques, working with special student populations, and an overview of assessment and information on all student services. (CSU)

WORK EXPERIENCE EDUCATION

Cooperative Work Experience Education offers the student the opportunity to earn college credit for planned learning activities related to employment. Working students, with the assistance of an instructor-coordinator and the on-job supervisor (employer), set up goals to be accomplished during the school term. This may include, but is not limited to, completing projects, attending group and/or individual meetings with the coordinator, participating in career workshops, learning new job skills, reading material related to human relations on the job, etc. The instructor-coordinator visits each employer during the school term and the cooperating employers are required to provide written evaluation of student’s performance on the job.

Department Phone: (415) 883-2211, Ext. 8200

Work Experience Information

Employment may be related to student’s planned course of study (Occupational Work Experience Education) or not have this direct relationship (General Work Experience Education).

Students in any field who seek paid, educationally related employment are encouraged to contact the Job Placement Office for information and assistance.

Students may attend classes while working (parallel plan) or attend college full time 1 semester and work full time the following semester (alternate semester plan). On the parallel plan students can earn up to 3 (general) or 4 (occupational) units per term; on the alternate plan they may earn up to 8 units while off campus and working full time.

There are limits to the total number of units a student may earn while attending California community colleges. General Work Experience Education is limited to 6 semester units. Occupational Work Experience Education is limited to 16 semester units. A combination of General and Occupational Work Experience is limited to 16 semester units.

Note: Students may not concurrently enroll in Behavioral Science 252 or Psychology 252 and also receive credit for Work Experience Education courses.

Veterans note: Veterans Administration regulations may affect student benefits for these courses. Check with the Veterans’ Office for latest information.

Work Experience Courses (WE)

WE 298ABCD Occupational Work Experience  
(1-4 units) (Prerequisites: Enrollment in at least seven units of college courses including Work Experience. A minimum of five hours of employment per week for each unit.)

Employment must clearly be related to the course of the study/career plans. The work experience serves as both a source of income and a vehicle for reinforcing and expanding classroom learning in a student’s chosen career field. The employer provides an “extended campus,” not available in traditional classroom programs. May be taken for a maximum of 16 units. (CSU)

WE 299ABC General Work Experience  
(1-3 units) (Prerequisite: Enrollment in at least seven units of college courses including Work Experience. A minimum of five hours of employment per week for each unit.)

The student must be employed but the position need not relate to college major or student’s career goals. The instructor-coordinator and the employer assist the student to become a more effective employee, while also clarifying and pursuing longer term career goals. May be taken for a maximum of six units. (CSU)

College of Marin Educational Advisory Committee Members

Educational Advisory Committees are essential to the successful operation of vocational and technical programs. The participation of the Educational Advisory Committee assists College of Marin in providing a curriculum in pace with advancements in business and industry. The following members of the community are representative of the vocational areas listed.

Automotive Collision Repair
Technology
Blake Andros
Laura Bertolli
Ken Boatright
Frank Jedenburg
Gary Kramer
Tony LoFrano
Ron Palmer
Rhody Ringrose

Automotive Technology
Phil Aldrich
Karl Cortese
Yan Dargence
Ken DeMartini
George Hritz
Gary Kramer, Advisory Committee Chair
Geoff Lakritz
Ed Landman
Ron Palmer
Arthur R. Yee

OUR PHILOSOPHY IS “STUDENTS FIRST!”

KAY RYAN
Basic Skills Professor, Poet Laureate
Post-Laureate Kay Ryan has taught basic English skills at College of Marin for more than 30 years. Ryan’s students are often serious, hardworking people in their late twenties or early thirties intent on improving the quality of their lives through learning. Without strong English writing and reading skills, well paying jobs and promotions elude them.

W. ALLEN TAYLOR
Drama Professor, Award Winning Playwright and Actor
“Teach from the heart and the head will follow,” says W. Allen Taylor, an award-winning playwright, director and actor who brings his 29-yearlong award-winning acting career to the classroom and the stage at College of Marin. When Taylor is not teaching, he is often acting and directing works throughout the country. Taylor has performed on network television and in regional theaters around the country.

KAZUKO SHIOTA
Japanese Professor
College of Marin students who study Japanese with Kazuko K. Shioya learn more than words, intonation and grammar. Learning Japanese is about learning the culture from which the language springs. Shioya says, “Language is culture.” It is one way Americans can begin to understand the Japanese perspective and diverse ways of the people.

JAMIE TIPTON
English Professor, Author
The best part of teaching, according to College of Marin English Professor Jamie Tipton, is constantly dealing with a subject that inspires and having the opportunity to share that inspiration. Tipton is the author of numerous works. His most recent historic novel, Annette Vallon (Harper/Collins, 2008), landed on the San Francisco Chronicle’s top ten best seller list of Bay Area books.

Our philosophy is “Students First!”
