CATALOG

2015/2016
Dear Students, Prospective Students, and Community Members:

Since 1926, College of Marin has been providing students from the Bay Area and beyond outstanding educational opportunities. Whether you are a first-time college student, returning to college, or interested in lifelong learning, you have made a wise decision in considering one of California’s premier community colleges to fulfill your educational needs.

In addition to offering a robust academic curriculum, new faculty, and small class sizes, College of Marin is also implementing a number of measures designed with greater focus on supporting student success. Our faculty and staff are dedicated to providing personalized attention and ensuring that the college experience is successful for everyone.

In the past year we have seen the number of international student applications almost double. This influx of international students from over 30 countries enriches our already diverse student population. The sharing of unique cultural experiences greatly enhances the teaching and learning experience of our students, faculty, and staff.

Many have come to the College with the desire to succeed; and many have gone on to successful careers as nurses, doctors, judges, teachers, entrepreneurs, scientists, and renowned actors. Whether you are interested in transferring to a university, training for a new career, improving your skills, or enriching your life; I believe that you will find that College of Marin is a place where all are welcome to pursue their dreams.

On behalf of our Board of Trustees, faculty, staff, and administration I wish you all the best as you seek to improve your life through higher education.

Sincerely,

David Wain Coon, Ed.D.
Superintendent/President
COLLEGE OF MARIN BOARD OF TRUSTEES
President WANDEN TREANOR To 2017 (since 1996)
Vice President STEPHANIE O’BRIEN To 2015 (since 2011)

Here are a few reasons why we think enrolling at College of Marin is a good idea.

1. Transfer to a university and earn a baccalaureate degree by completing lower division requirements in your major.

2. Train for a new career and earn a certificate or occupational degree offered in a variety of fields.

3. Acquire a general background in the major areas of knowledge: the humanities, social and behavioral sciences, and natural and physical sciences.

4. Benefit from the diverse backgrounds and extensive experience of a faculty committed to providing quality education.

5. Receive guidance and assistance from instructors and counselors to plan a program that meets your individual needs.

6. Upgrade skills through specific courses offered at the college.

7. Personal enrichment.

March 23 - May 9
CHANGES MAY OCCUR WITHOUT NOTICE
Administrative Procedures and Board Policies, regulations, courses, and schedules described in this publication are subject to change at any time without prior notice. The college reserves the right to alter fees, statements, and procedures contained herein. Fees and procedures are subject to change at any time by the State Legislature and the college Board of Trustees. It is the student’s responsibility to meet and remain informed of college requirements. When changes occur, they will be printed in the next regular publication of the catalog or class schedule.

HOW TO USE THIS CATALOG
We have designed this catalog to give prospective and current students, advisors, faculty, employers, and friends of College of Marin an accurate picture of the curriculum, faculty, environment, and related subjects. Browse through the catalog to get acquainted. The index will often list items by several different names to give you a better chance of finding what you need.

Over the course of the next year when the catalog will be in use, there will be changes in curriculum, faculty, and other important areas. Information about changes will be available in class schedule booklets, which are issued three times each year for fall and spring semesters, and summer sessions. All information is current at the time of publication but is subject to change.

Visitors are welcome to the campuses. Address all mail to College of Marin, 835 College Avenue, Kentfield, CA 94904. College of Marin’s telephone number is 415-457-8811.

Web address: marin.edu

The amount of information in the catalog may seem overwhelming at first and the details of enrolling at the college may sound complex. Take it step-by-step to make it easy. The following guidelines will be of help in planning a program at College of Marin. Depending upon your reason for attending college, refer to the following:

1. All students attending College of Marin and completing 60 units may seek a degree.
   a. Refer to page 46 for general education and other graduation requirements.
   b. Refer to page 49 for a condensed listing of Associate in Arts and Associate in Science degree requirements.
   c. Make an appointment early with a counselor to learn about prerequisites and testing and to help you plan your program.

2. If you are planning to enroll in one of our two-year occupational programs or want to complete a certificate:
   a. Suggested programs can be found fully described under each discipline offering an occupational program beginning on page 66. Occupational programs are identified by the word “Occupational” listed in the title of the degree.
   b. Look up these courses in the class schedule that is published before each semester and plan your time schedule.

3. If you are planning to transfer to a four-year college or university after attending College of Marin:
   a. Refer to requirements for the majors more fully described under each discipline beginning on page 46.
   b. Refer to transfer information on page 56.
   c. Contact the Transfer/Career Center for access to college catalogs from other schools, to investigate career options, and for computerized career and transfer information. Transfer information is available online at ASSIST (www.assist.org).
   d. Contact the Counseling Department to make an appointment with a counselor who can assist you with selecting courses to meet specific transfer requirements to a four-year college or university.

4. If you are planning to enroll in courses for self-enrichment:
   a. Refer to the listing of courses in this catalog beginning on page 65.
   b. Refer to the Community Education class schedule published quarterly.

5. If you have never attended College of Marin, file an application for admission in the Office of Admissions and Records. Dates for registration are listed in the class schedule.

ABOUT COLLEGE OF MARIN

HISTORY OF THE COLLEGE
College of Marin has been a tradition in Marin County since 1926. Formerly Marin Junior College, it granted its first associate degrees in the spring of 1929. In 1947, the college was renamed College of Marin. In 1971, the Board of Trustees established the second college of the district and named the new institution Indian Valley College. The college operated in temporary facilities at Hamilton Air Force Base and at the Pacheco School while new facilities were under construction. Indian Valley College’s first associate degrees were awarded in 1972 and the new campus opened in the fall of 1975.

In 1985, the two colleges merged and are now known as College of Marin. Classes are offered on the Kentfield Campus in Kentfield and the Indian Valley Campus in Novato. In 2004, Marin County voters approved a $249.5 million facilities improvement bond to revitalize the aging Kentfield and Indian Valley Campuses. Since passing the bond, seven major construction projects have been completed, including at the Kentfield Campus: the Irwin P. Diamond Physical Education Center, Fine Arts Building, Performing Arts Building, Child Study Center, Science/Math/Nursing Building; and at the Indian Valley Campus, the Main Building and Transportation Technology Complex. Construction of the Academic Center at the Kentfield Campus is underway, and is scheduled for completion in mid-2015. Also as part of the modernization process the college has installed a new all-weather 400 meter eight lane track at the Kentfield Campus.

These projects have resulted in significant energy the College to provide more energy efficient facilities. In spring 2010, the Irwin P. Diamond Physical Education Center was awarded LEED® Gold by the Leadership in Energy and Environmental Design (LEED®) Building Rating System. The Indian Valley Campus Main Building was awarded LEED® Gold in fall 2011, and the Transporta-
tion Technology Education Complex was awarded LEED® Silver.

College of Marin serves the higher education needs of Marin County residents. Since its inception, the college has offered high quality college courses allowing students to complete their freshman and sophomore years of study and transfer to public and private four-year universities. The College awards associate degrees in many transfer majors and a variety of two-year associate degrees are offered to prepare students for entry into technical or semi-professional careers. Skills Certificates and Certificates of Achievement also are awarded in vocational and technical programs.

College of Marin faculty members are committed to excellence in teaching. There are 107 permanent faculty, 13 educational administrators, 10 classified administrators, and 185 professional, technical, clerical, and service employees at the college. In spring 2014, 6,858 students enrolled in the college’s credit program. The faculty, administrators, and staff hold degrees representing colleges and universities in some 26 states and foreign countries. A number of faculty members hold doctorate degrees. A faculty and staff directory is listed in the back section of this catalog.

MISSION STATEMENT
College of Marin’s commitment to educational excellence is rooted in providing equitable opportunities and fostering success for all members of our diverse community by offering:
• preparation for transfer to four-year colleges and universities
• associate degrees and certificates
• career technical education
• basic skills improvement
• English as a second language
• lifelong learning
• community and cultural enrichment

College of Marin responds to community needs by offering student-centered programs and services in a supportive, innovative learning environment that promotes social and environmental responsibility.

ACCREDITATION
College of Marin is accredited by the Accrediting Commission for Community and Junior Colleges of the Western Association of Schools and Colleges, 10 Commercial Blvd., Novato, CA 94949, 415-506-0234, an institutional accrediting body recognized by the Commission on Recognition of Postsecondary Accreditation and the U.S. Department of Education.

Special programs also are accredited by the California Board of Psychic Examiners, American Dental Association, the California State Board of Registered Nursing Examiners, and the National League for Nursing Accreditation Commission. The National League for Nursing Accreditation Commission is a resource for information on the Nursing Program: 3343 Peachtree Road NE, Suite 850, Atlanta, Georgia 30326. Phone: (404) 975-5000. Website: www.nlnac.org.

The College is approved for foreign student education by the United States Immigration Services, and veterans’ education by the California Department of Education, Bureau of School Approvals. The University of California, the California State University, and other four-year colleges and universities accept units of credit in transfer courses completed at College of Marin.

ABOUT CALIFORNIA COMMUNITY COLLEGES
The California Community Colleges system is comprised of 72 districts, 112 colleges and enrolls more than 2.4 million students. It is the largest higher education system in the nation. California community colleges provide basic skills education, workforce training and courses that prepare students for transfer to four-year universities. The colleges also offer opportunities for personal enrichment and lifelong learning. To the extent funding is provided the colleges may conduct institutional research concerning student learning and retention as is needed to facilitate their educational missions.

ACADEMIC PROGRAMS

College of Marin integrates its resources and functions to serve community needs. The academic programs are managed by experienced administrators and staff and taught by qualified faculty. All aspects of the college’s programs are reviewed to assure that they meet community and student needs. Recognizing that education is a lifelong process, the college provides educational opportunities for all age groups, including credit programs leading to the Associate in Arts and Associate in Science degrees, academic programs that prepare students to transfer to a four-year institution, and vocational-technical programs that prepare students for specific fields of employment and enable people to upgrade their work skills.

Courses are also offered to meet the curricular needs of disabled, re-entry, and international students. For students who need remedial work, there are special programs in English, mathematics, and study skills.

The college's faculty includes published authors, acknowledged scholars, performing actors, dancers, musicians, talented studio artists, scientists, and professional technicians. They, along with the administrative team and support staff, are committed to providing quality education.

College of Marin’s reputation for instructional innovation and quality is well known and respected statewide. It includes self-paced courses in several disciplines, including English and math. Instructional aides and tutors are available for those who need assistance.

Information about courses, programs, institutional requirements, and various services is contained in this catalog as well as the college Web site, www.marin.edu, the class schedules, and a variety of special mailings.

CREDIT AND NONCREDIT CLASS SCHEDULE

College of Marin offers credit, noncredit, and fee-based community education classes at its Kentfield and Indian Valley campuses. Credit and noncredit classes are offered during fall and spring semesters and during the summer session. Credit/noncredit class schedules are available prior to each semester including a detailed list of courses, instructors, dates, times and locations. There is no enrollment fee for noncredit courses (other fees may apply), and they are offered in the following areas: Basic Skills, Disabled Students Programs and Services, English as a Second Language Noncredit, Health and Safety courses, Nursing Education Vocational, and Vocational.

DISTANCE EDUCATION

Online and hybrid courses (partially online and partially on-campus) are offered for credit at College of Marin each semester in many disciplines, including English, Math, Health Education, and Spanish. The Distance Education program reaches beyond the traditional classroom, providing an excellent alternative for students who are unable to attend classes during regular hours, or who would like to earn additional units in a time-efficient manner. All Distance Education courses maintain the high academic standards of the College, and most are transferable (see a counselor for details).

COMMUNITY EDUCATION

College of Marin’s Community Education Department offers students access to a variety of Community Services (fee-based) classes which can assist in achieving personal, educational, and professional goals. These classes provide the Marin community with lifelong learning opportunities, a place to prepare for entering college credit and transfer programs, and career development classes designed to serve the working adult.

Community Services

Community Services courses offer Marin residents of all ages a wealth of opportunities for personal development, skills development, cultural enrichment, and recreational enjoyment. Thousands of students enroll each year in Community Services classes, which are taught by some of the finest instructors in the country. Classes cover a broad spectrum of interests and disciplines, including art, writing, literature, dramatic arts, music, and much more. In order to make offerings as convenient as possible, classes are held on campus and off campus. A variety of business, professional, and career development classes and workshops, including introductory classes in software and marketing, are offered for the working population. Throughout the year, courses meeting the continuing education requirements for health professionals are offered in the areas of Nursing and Dental Assisting.

Community Services classes are self-supporting and not funded by taxpayers’ dollars. Prices vary depending on the actual class.

For a complete listing of Community Services classes, including class fees, please visit the website at www.marin.edu/CommunityEducation.

415-485-9305

Emeritus College

Designed to meet the needs of the county’s older adult lifelong learner population, Emeritus College (EC) is a unique program offered as an integral part of the District’s Community Education program. Courses offered through EC aim to support the principles of quality of life, lifelong learning, and creative retirement.

Emeritus Students of College of Marin (ESCOM) was created to support and enhance the Emeritus College program. To achieve this goal, members participate in the identification and development of courses, forums, concerts, lectures, and other activities of interest to older adult students. ESCOM is a vital part of the College of Marin and an advisory group to Community Education. Members participate in the college governance system and on other college committees and task forces.

ESCOM is organized so that its members may learn and develop through study, clubs, and auxiliary activities. Basic to ESCOM is the concept of democratic decision-making and planning, using the talents and judgment of its members to enrich their own lives and to contribute to the college and the community.

Emeritus College phone: 415-457-8811 ext. 8322
ESCOM phone: 415-485-9652
COLLEGE SKILLS

English as a Second Language

ESL Noncredit
Noncredit ESL classes are designed for adults in the community who require English to prepare for academic courses, to get or keep a job, or for personal growth to better survive in an English-speaking community. Day, evening, and Saturday classes are available at beginning to low-intermediate proficiency levels on both the Kentfield and Indian Valley Campuses, as well as in San Rafael and Novato. Students take a required noncredit assessment test before registering. There are no fees for these classes.

ESL Office: Academic Center 109
415-485-9642
marin.edu/CommunityEducation/

ESL Credit
Credit ESL classes are offered for college credit to students at intermediate to advanced proficiency levels. Classes at each level focus on grammar, speaking/listening, reading/vocabulary, or writing. Early registration is strongly advised.

To enroll in credit ESL classes, students must take a College of Marin ESL Student Success Workshop that includes placement testing, counseling, and orientation before enrolling in classes. Students may call the ESL Office or the Counseling Office to sign up for a workshop. Assistance in the application process is available in the Counseling Department. See Section Six of this catalog for course descriptions.

marin.edu/departments/esl

Intensive English Program
The Intensive English Program (IEP) is an English for Academic Purposes program first and foremost for students living outside the U.S. (international students) to study for a limited time in this country. College of Marin issues the paperwork (I-20s) for international students to receive F-1 visas to attend the IEP one or more semesters. International students who are accepted into the IEP are required to take 20 hours per week total instruction time in four subject areas: Grammar for Oral and Written Communication, Writing with Reading, Speaking/Listening/Pronunciation, and Topics in American Culture. The curriculum includes orientation, testing and placement, celebrations, counselor presentations, and cultural field trips in the San Francisco Bay Area. Many IEP international students continue their studies at the College of Marin credit program through “conditional” admission: International students who successfully complete all of the Level 3 courses in the IEP meet the language requirement for admission to the COM credit program and do not need to provide a TOEFL, IELTS, or other English proficiency test.

In addition to welcoming international students, the IEP opens its courses to au pairs (J visas), tourists (B visas), and all others preparing to enter American colleges or universities. These students may attend part-time between five and 15 hours per week for 8-week or 16-week sessions. All students are placed into one of three levels of classes (high beginning, intermediate, advanced) depending on their scores on the placement tests during the first week of the semester. Students advance through the program by completing all assignments and scoring a minimum level on the placement test for the next level. All students receive mid-term and final evaluations from instructors as well as certificates of attendance for course completion.

OPORTUNIDADES EDUCATIVAS

College of Marin fue fundado en 1926 y ofrece a los estudiantes la oportunidad de obtener el título de Asociado en Artes (AA), de transferir créditos académicos a las Universidades de California (UC) o a las Universidades Estatales de California (CSU) y también a cualquier otra universidad. El colegio ofrece certificados vocacionales en varios programas. College of Marin está dispuesto a servir a todos los habitantes que viven en el distrito del colegio.

MATRÍCULA ABIERTA PARA TODOS

Igualdad de oportunidades
El Distrito de Marin Community College se compromete, por medio de sus normas, a no discriminar en base a, o por la percepción de una o más de las siguientes características: raza, credo religioso, color, nacionalidad de origen, ascendencia, discapacidad física o mental, condición mental, estado matrimonial, orientación sexual o condición de veterano, en ninguno de sus programas educacionales y de empleo y en sus actividades, prácticas y procedimientos.

Los estudiantes que creen que esta norma ha sido violada, tienen derecho a presentar una denuncia interna o una denuncia con la Oficina de Derechos Civiles.

College of Marin, bajo el Decreto de Divulgación de Equidad en el Atletismo de 1994, provee información concerniente a la operación de su programa de atletismo intercolegial. Un informe completo está disponible para revisión pública en la Oficina de Admisión, en la Biblioteca y en el Departamento de Atletismo.

La Norma 3430 de la Junta Directiva del College of Marin prohíbe el acoso verbal, físico, visual y sexual de cualquier solicitante, empleado o estudiante de parte de cualquier empleado del Distrito en base
a cualquier categoría o combinación de categorías discriminatorias prohibidas por ley estatal o federal. Se espera que, aunque no sean empleados, las personas en la propiedad del Distrito cumplan también con estas normas.

Es además norma de este Distrito asegurar la igualdad de oportunidades en todos sus programas y en todos los aspectos de empleo. La falta de destrezas en inglés no será una barrera para la admisión y participación en los programas de educación vocacional.

Pueden producirse cambios sin previo aviso

Las normas, directrices, disposiciones, procedimientos, honorarios, cursos, horarios y servicios de los estudiantes descritos en esta publicación están sujetos a cambio en cualquier momento sin previo aviso. El Colegio se reserva el derecho de modificar los honorarios, declaraciones y procedimientos contenidos en la presente. Los honorarios y procedimientos están sujetos a cambio en cualquier momento por la Legislatura Estatal y el Consejo de Administración. Es responsabilidad de los estudiantes cumplir con los requisitos del Colegio y mantenerse informados de los mismos. Cuando se produzcan cambios, los mismos estarán incluidos en la siguiente publicación habitual del Catálogo u Horario de Clases.

Título IX / Igualdad de Oportunidades en el Empleo / Oficial de Cumplimiento:
Kristina Combs, Director Ejecutivo de Recursos Humanos y Relaciones Laborales
Village Square 8, Campus Kentfield
415-485-9504

Es la norma del College of Marin que, a menos que sea eximido específicamente por estatuto, cada curso, sección de curso o clase, cuya asistencia debe ser comunicada para ayuda estatal, estará totalmente abierto para la matriculación y participación de cualquier persona que haya sido admitida al College y que satisfaga los requisitos previos que puedan haber sido establecidos de acuerdo al Capítulo II, División 2, Parte VI, Título 5 del Código de California.

ADMISSIONS, REGISTRATION, AND ACADEMIC INFORMATION
ADMISSIONS INFORMATION

ADMISSIONS POLICY (CREDIT CLASSES)
College of Marin has an open admissions policy, and serves students of all ages. Eligibility to attend is satisfied if you have met at least one of the following requirements:

• You are 18 years old on or before the first day of instruction for the term which you are applying.
• You are a high school graduate.
• You are the equivalent of a high school graduate, i.e., you have passed the G.E.D. or a state’s high school proficiency examination.

Note: The above requirements are general; other factors may determine eligibility.

Visit our website at www.marin.edu/admissions/ or call the Office of Enrollment Services at 415.457.8811 ext. 8822 for more information.

ADMISSION AS A CONCURRENTLY ENROLLED HIGH, MIDDLE OR ELEMENTARY SCHOOL STUDENT
College of Marin welcomes students under the age of 18 years who have not yet earned a high school diploma or equivalent and are currently attending high, middle or elementary school.

For more information pertaining to admissions and enrollment policies for high school students or younger, please visit our website at http://www.marin.edu/admissions/.

INTERNATIONAL STUDENT ADMISSIONS
International students seeking admission to College of Marin must provide the following:
1. If native language is not English, provide evidence of English proficiency.
   a. Applicants living outside the San Francisco Bay Area must provide an acceptable score on the TOEFL (Test of English as a Foreign Language): 500 on the written test, 173 on the computer test, or 61 on the Internet-based test.
   b. Students living within the San Francisco Bay Area may take College of Marin’s TOEFL Test in lieu of the official TOEFL. Please call (415) 485-9469 for dates and times of testing. (Institutional TOEFLs from other schools will not be accepted.)
   c. Provide an acceptable score on the IELTS (English for International Opportunity). A score of 6.0 is required. www.ielts.org

2. Verify means of adequate financial support by completing the "Official Certification of Personal or Family Funds" form.

3. Submit $50 Application Processing Fee (non-refundable). The amount must be in U.S. dollars (no cash please). Make check or money order payable to "College of Marin."

4. Provide an “Enrollment Status Form” completed by the last school attended in the United States.

5. Provide evidence of high school graduation and transcripts from all colleges/universities attended in the United States.

6. Completed International Student Admissions Application.
   International students are subject to a $259 per unit international student tuition fee, an enrollment fee of $46 per unit, a $50 international student admissions application fee, a health fee of $19 for fall and spring semesters or $12 for the summer session, a $1 student representation fee, an $8 student activities fee, a $10 technology fee, a $35 student transportation fee, applicable materials fees, and a one-time $70 orientation fee. All fees must be paid in full at the time of registration. International student admissions applications and all other required documents will be accepted February through the end of July. All documents submitted after the end of July will not be accepted.

INTERNATIONAL STUDENT MEDICAL INSURANCE
Medical insurance is required and payable with class registration. The cost of annual medical insurance will be approximately $2,132. A refund, less a service fee, of the medical insurance will be issued for students who withdraw from the college through the second week of the semester as long as no benefits were used.

STUDENT IDENTIFICATION NUMBER
Students will be assigned a College of Marin Identification Number. Students are requested to disclose their Social Security Number for purposes of printing the SSN on their 1098T tax credit form and their official academic transcript.

Note: students applying for Federal and/or state financial assistance and students employed by the college must report their SSN on their Application for Admissions.

RESIDENCY REQUIREMENTS
California Residence
Under the State of California Education Code, to establish California residency, a person must pair his or her physical presence in California with the following provisions:

• Objective proof of physical presence one year and one day prior to the first day of instruction for the term for which he/she has applied as indicated in the Schedule of Important Dates and,
• Intent to make California his/her home for other than a temporary purpose.

There are other factors to be considered for non-resident students holding various types of visas. These students are advised to contact the Office of Enrollment Services at (415) 457-8811 ext. 8822 for clarification. Evidence of intent to make California their home for other than a temporary purpose could include but is not limited to a minimum of two (2) of the following:

• Voting in California elections.
• Obtaining a California driver’s license.
• Paying state income tax.
• Registering a motor vehicle in California.
• Maintaining continuous residence in California.

Act of intent must be accomplished for one full year.

College of Marin may determine at the time of admission or at a later date that such students may not have met the aforementioned residency requirements set forth for all California community colleges. Such students will subsequently be assessed and billed the nonresident tuition fee per unit at the current academic year rate.

Students who have not reached the age of 18 years are regarded as minors; their residence is that of one or both parents. Therefore, a student who is a minor is regarded as a resident of California only if one or both parents couple their physical
presence in California one year and one day prior to the first day of instruction for the term for which the minor has applied with the objective evidence that physical presence is with the intent to make California the home for other than a temporary purpose.

Special residence regulations are in effect for married minors, for minors whose parents are deceased, for certain military members and their dependents, and for various others.

Continuing nonresident students at College of Marin (with the exception of international students), who think that they meet the time and intent requirements necessary to establish California residency must contact the Office of Enrollment Services for residency verification and adjustments.

Residency Adjustments
Residency adjustments are not automatic. It is the student’s responsibility to initiate a residency inquiry and to provide proof of California residency.

Residency Appeals
Students may appeal their residency status as determined by College of Marin through the following procedures:

- Requests must be addressed, in writing, to the Dean of Enrollment Services, within two weeks of receipt of the notification.
- If further review is required, a meeting with the Dean of Enrollment Services may be requested.
- Students are required to provide ALL documents required to verify their residency status.

Nonresident Tuition Waiver under AB540 and AB2000
As a nonresident, you may be eligible to pay the $46 per unit California resident enrollment fee.

What are AB540 and AB2000? They are state laws that exempt certain students who are not residents of California from paying non-resident tuition at the California Community Colleges, California State Universities and Universities of California.

Who is eligible? Students who meet all of the following requirements:

1. You graduated from a California high school or attained the equivalent of a high school diploma from California (e.g., G.E.D. or California Proficiency Exam).
2. a. You attended a California high school for three or more years or b. Attained credits earned in California from a California high school equivalent to three or more years of full-time high school course work and attended a combination of elementary, middle, and/or high schools in California for a total of three or more years.
3. You complete a California Nonresident Tuition Exemption form.

If you have been determined to be a nonresident of California and meet all of the above requirements please complete the California Nonresident Tuition Exemption form. Please contact the Office of Enrollment Services if you need help filling out the form.

PREREQUISITES, COREQUISITES, AND ADVISORIES
College of Marin affirms that students are entitled to pursue intellectual, physical, social, ethical, and career development, and that prerequisites, corequisites, advisories, and certain enrollment limits should be established only on a course-by-course basis, only where they are appropriate, and never if they constitute unjustifiable obstacles to student access. Therefore, College of Marin adopts the following policy in order to provide for the establishing, reviewing, and challenging of these course requirements in a manner consistent with law, safety, and good practice.

Definitions
1. Prerequisite: A prerequisite is a condition of enrollment that a student is required to meet in order to demonstrate current readiness for enrollment in a particular course or program. Examples of courses that may require prerequisites are:
   a. Courses for which specific prerequisites have been justified by content review, the appropriate level of scrutiny and any other validation procedures required by law (Title 5, 55201 a-f);
   b. Sequential courses in a degree-applicable program;
   c. Courses requiring a prerequisite to transfer to a four-year college;
   d. Courses requiring preparation to protect health and safety; and
   e. Technical or vocational courses or programs that require special preparation.

2. Corequisite: A corequisite is a condition of enrollment consisting of a course that a student is required to take simultaneously in order to enroll in another course. Courses that may require corequisites include:
   a. Courses that are part of a closely related lecture-laboratory pairing requiring concurrent enrollment.
3. Advisory: An advisory is a condition of enrollment that a student is advised, but not required, to meet before or in conjunction with enrollment in a course or educational program.
4. Limitations to Enrollment: Other limitations on enrollment may include:
   a. Courses that require public performance or competition;
   b. Blocks of courses for which enrollment is limited in order to create a cohort of students.

The college requires students to complete prerequisites with a grade of C or higher prior to registering in the course requiring the prerequisite. Likewise, students are to register in all required corequisites as pre-enrollment preparation.

Equivalent Coursework
Some prerequisites may be satisfied by equivalent course work from an accredited institution other than College of Marin.

Prerequisite Recency Requirement
To ensure student success, some prerequisites for certain courses in Chemistry and Physics must have been completed within 5 years of enrolling in the target course. Students may opt to test out of this requirement. Please see the Chemistry and Physics headings in Section 6 for more information.
Prerequisite Challenge

Students have the right to challenge prerequisites and corequisites on certain, specified grounds:

1. The prerequisite or corequisite has not been established in accordance with the district’s process for establishing prerequisites and corequisites.

2. The prerequisite or corequisite is in violation of Title 5 regulations.

3. The student seeks to enroll and has not been allowed to enroll due to a limitation on enrollment established for a course that involves intercollegiate competition or public performance or one or more of the courses for which enrollment has been limited to a cohort of students. The student shall be allowed to enroll in such a course if otherwise he/she would be delayed by a semester or more in attaining the degree or certificate specified in his/her educational plan.

4. The student seeks to enroll in a course that has a prerequisite established to protect health and safety, and the student demonstrates that he/she does not pose a threat to himself/herself or others.

5. The prerequisite or corequisite is either unlawfully discriminatory or is being applied in an unlawfully discriminatory manner.

6. The student has the knowledge or ability to succeed in the course or program despite not meeting the prerequisite or corequisite.

7. The student will be subject to undue delay in attaining the goal of his or her educational plan because the prerequisite or corequisite course has not been made reasonably available.

Challenge Process

Any student who does not meet a prerequisite or corequisite or who is not permitted to enroll due to a limitation on enrollment but who provides satisfactory evidence may seek entry into the course as follows:

Priority Process

Prior to Start of Term Registration

Students must file their challenge five days before registration starts for the term in which the student seeks enrollment. When a student files a challenge to the prerequisite or corequisite, the District shall reserve a seat for the student and resolve the challenge within five working days. All official documents must be attached to the petition before the “five working days before registration” period begins. If the challenge is upheld or the District fails to resolve the challenge within the five working day period, the student shall be allowed to enroll in the course.

After Term Registration Begins

Prerequisite/corequisite challenges received after registration begins for the term in which the student seeks enrollment will be processed in the order received. Students will not be allowed to enroll until the challenge has been approved.

If no space is available in the course when a challenge is filed, the challenge shall be resolved prior to the beginning of registration for the next term and, if the challenge is approved, the student shall be permitted to enroll if space is available when the student registers for that subsequent term.

Students interested in challenging a prerequisite or corequisite course are advised to go to marin.edu/admissions/Prerequisites.htm for more information about the challenge process.

Course Substitution

Substitution for any required course must be approved through a Petition to Substitute/ Waive Graduation Requirements. An official transcript and catalog description must accompany the petition. For noncomparable courses, Department Chairs will be consulted to determine course acceptability. Students should be encouraged to request substitution in their first semester of attendance.

Petition for Substitution of Prerequisite Courses for College of Marin Registered Nursing Program

If prerequisite courses were taken at other colleges, College of Marin must first determine for itself whether those courses are suitable substitutes for the College of Marin prerequisite courses. This process requires the student to petition the College to accept courses taken elsewhere as satisfying College of Marin prerequisites. Additional time is needed for the college to make these assessments. Therefore, students hoping to substitute courses taken at other colleges for College of Marin prerequisite courses must plan for additional time to allow the college to assess their applications.

Petitions for Substitution must be submitted before applying to the Nursing Program. It is the student’s responsibility to request official transcripts and course descriptions for the year the course was completed and attach catalog course descriptions to the petition. Official transcripts must arrive in the original sealed envelope from the issuing institution and have an embossed or water seal. Official transcripts should be sent via U.S. Mail or hand carried to: Office of Enrollment Services, College of Marin, 835 College Ave, Kentfield, CA 94904 between September 1 and October 31 for admission the following fall. Those who submit the Petition for Substitution after October 31 are not guaranteed a decision in time for the RN application date. The original approved/denied copy will be kept in the student file and a copy of the petition will be sent to the student.

Students who successfully petition for substitution must attach a copy of the approval of their petition to their Application for the Nursing Program.

Registration Information

Enrollment Priority

In September 2012 the California Community Colleges Board of Governors approved a regulation to establish system-wide enrollment priorities designed to ensure classes are available for students seeking job training, degree attainment or transfer to a four-year university and to reward students who make progress toward their educational goals.

Starting with the Fall 2014 semester, new students who completed college orientation, assessment, and developed education plans, as well as continuing students in good academic standing, have priority over students who do not meet these criteria. To be in good academic standing, a student cannot be on academic or progress probation for two consecutive terms. In addition, students who accumulate 100+ units (excluding most basic skills English and math and English as a Second Language classes) lose priority enrollment. Students who feel they may be at risk of losing priority status are strongly encouraged to see a counselor to discuss their educational plans. College of Marin’s revised enrollment priorities can be found in Administrative Procedure 5055, located online at www.marin.edu.

The order of priority for registration is as follows:
1. Students (in good standing) who have completed the matriculation process, meet the eligibility criteria and are participating in the following programs: EOPS, SAS (formerly DSPS), CalWORKS, Veterans, Active Members of Military or are Foster Youth (ok up to dismissal)

2. New students who have completed the matriculation process (but who are not one of the identified groups in Priority 1) and Student Athletes (matriculated and in good standing).

3. Continuing COM students (matriculated and in good standing who have a current Ed Plan)

4. Continuing students (in good standing) with 30-74.5 completed and in-progress units.

5. Continuing students (in good standing) with 1-29.5 completed and in-progress units.

6. Continuing students (in good standing) with 75-99.5 completed and in-progress units.

7. Concurrently enrolled high school students.

8. All other categories, including (but not limited to): new applicants who have applied for admission but not completed the matriculation process, returning students, readmitted students after dismissal, students with 100+ completed degree-applicable units at COM, and students who are not in good standing (on academic/progress probation or dismissal).

WHERE TO REGISTER
Students may register online through the MyCOM portal, at the Offices of Enrollment Services at either campus regardless of where their classes are held, or by fax at 415-460-0776. Detailed information is published in each issue of the schedule of credit and noncredit classes.

CLASSES WITH TIME CONFLICTS
Students may not register for courses taught at conflicting times.

ADDDING AND DROPPING CLASSES
Students may add classes through the census date online through the MyCOM portal. edu, or by completing and submitting an Enrollment Card in person to the Office of Enrollment Services.

Students who did not pre-register for classes may attend the class of their choice to see if space is available. Instructors may admit students by issuing an Add Authorization Code which will be used to enroll online or in person.

Students may drop/withdraw online or by completing a Drop Card and filing it with the Office of Enrollment Services.

Students may drop/withdraw from open-entry/open-exit classes at any point in the term using the process described in the class schedule and the website.

See Important Dates in the Schedule of Classes for drop/withdrawal deadline dates.

**Nonattendance does not constitute an automatic drop.** If you are unable to attend the first class meeting, you may request that your place be held by contacting the instructor prior to the first class meeting.

Students are responsible for all outstanding fees for classes that were not dropped by the refund deadline, even if they did not attend.

Instructors may drop/withdraw inactive students who never came to class or are no longer participating in a course by assigning an Instructor Withdrawal at midterm. However, since instructors are not required to do this, it is the student's responsibility to drop/withdraw within the published deadline dates. Please see “Withdrawals” under the Academic Information heading in this section.

WAITLISTS
College of Marin uses an Automated Waitlist Function.

When a class is full, students may place themselves on a waitlist. If a space opens up in the class prior to the first day that the class meets, students are automatically enrolled in the class and a confirmation e-mail is sent to their MyCOM email account.

Payment must be received within 5 days of automatic enrollment from the waitlist or students will be dropped from all classes.

**Waitlist Procedures**:

- Students must meet course prerequisites prior to placement on a waitlist.
- It is important that students log on to the MyCOM portal on a daily basis to check their inbox messages to see if a Waitlist Notification email was sent or forward their MyCOM emails to their personal email.

**LATE ENROLLMENT PROCEDURES**
After the student was in attendance by census and there were extenuating circumstances that prevented the student from registering by the last day to add, students may petition to add classes by submitting a Petition to Add a Class Late, provided there is verifiable documentation that extenuating circumstances occurred. Extenuating circumstances are verified cases of accidents, illnesses or other circumstances beyond the control of the student that prevented enrollment by the established deadline dates. All supporting documents must be attached to the petition at the time of submission to the Office of Enrollment Services.

1. **Full-Term Classes**: Students may petition to add classes late one week after the registration period concludes provided the student was fully participating in the class by census date.

2. **Short-Term Classes**: Students may petition to add classes late one week after the registration period concludes provided the course is still in session and the student was fully participating in the class by census date.

3. Students will be informed of the decision by Office of Enrollment Services within ten days of submitting the petition. Students should continue to attend until they hear the results of their petition. If the petition is approved, the student must notify the instructor that they are officially enrolled in the class. If the petition is denied, both student and instructor will be informed that the petition for late enrollment was denied and the student can no longer attend the class.

4. Deadline dates for submitting the Petition to Add a Class Late are published in the most current Catalog, Schedule of Classes and on the website. Petitions to add a class late will not be accepted after these dates.
CANCELLATION OF PROGRAMS/CLASSES

Programs of study and/or individual classes are subject to cancellation based on funding considerations or enrollment levels.

UNIT LOAD

Students may not enroll in more than 18 units for fall or spring or 7 units (two classes) for summer. Students who would like more units must submit a Petition to Carry Extra Units by the deadline. Students on probation, dismissal or not high school graduates may have lower unit restrictions.

EQUAL OPPORTUNITY

The college provides access to its services, classes, and programs without regard to national origin, religion, age, gender, gender identity, gender expression, race or ethnicity, color, medical condition, genetic information, ancestry, sexual orientation, marital status, physical or mental disability, pregnancy, or perception that one is perceived to have one or more of the foregoing characteristics, or based on association with a person or group with one or more of these actual or perceived characteristics.

The college conducts all courses, including noncredit classes, without regard to the gender of the student enrolled in the classes. “Gender” includes a person’s gender identity and gender expression. “Gender expression” means a person’s gender-related appearance and behavior whether or not stereotypically associated with the person’s assigned sex at birth. The college does not prohibit any student from enrolling in any class or course on the basis of gender.

Academic staff, including but not limited to counselors, instructors, and administrators, do not offer program guidance to students which differs on the basis of gender. Insofar as practicable, the District shall offer opportunities for participation in athletics equally to male and female students.

Any student who has been admitted to the college who meets the prerequisites for a course or program is entitled to enroll and participate.

It is further the policy of this District to ensure equal opportunity in all aspects of employment. For more information, go to www.marin.edu/rights.

A lack of English language skills and visual or hearing impairment will not be a barrier to Career and Technical Education (CTE) programs.

College of Marin, under the Equity in Athletics Disclosure Act of 1994, provides information concerning the operation of its intercollegiate athletics program. A completed report is available in the Office of Enrollment Services, the library, and the Athletic Department for public review.

FEES

FEE TYPES AND AMOUNTS

College of Marin is part of the California Community Colleges system of the State of California. Fees are established by the State Legislature.

Note: Fees are subject to change without notice.

Health Fee

The health fee supports the Student Health Center and entitles students to a variety of health services. See Section 3, under “Student Support Programs/Services” for more information. All students shall be charged the health fee equally, including full and part-time students according to State law and as approved by the Board of Trustees.

The health fee is not medical insurance.

An exemption from payment of the health fee may be granted for students who qualify in the following categories:

- Students who depend exclusively upon prayer for healing in accordance with the teachings of bona fide religious sect, denomination, or organization. (Documentation required.)
- Students who are attending college under an approved apprenticeship training program.

A Student Petition with documentation must be submitted each term in which an exemption is requested.

Student Activities Fee

Money collected for the Student Activities Fee will be used to sponsor educational and social events for the campus community and support campus activities and intercollegiate athletics.

Student Activities Fee Waiver

Students have the right to decline to pay the Student Activities Fee by completing a “Student Activities Fee Waiver” form and submitting it to the Cashiering Services Office within two weeks of the start of instruction for the term. The form may be downloaded at marin.edu/fiscal/forms.html.

Student Parking Semester Permits

Student semester parking permits may be purchased online through the MyCOM Portal or in-person at the Cashiering Services Office at either campus. For more information regarding Student Parking and Permits, please see Section 3, under “Campus Services.”

Student Representation Fee

Money collected for the Student Representation Fee shall be expended to provide support for students or representatives who may be stating their positions and viewpoints before city, county and district governments and before offices and agencies of the state and federal governments.

Student Representation Fee Waiver

Students have the right to decline to pay the Student Representation Fee for religious, political, moral, or financial reasons by completing a “Student Representation Fee Waiver” form and submitting it to the Cashiering Services Office within two weeks of the start of instruction for the term. The form may be downloaded at marin.edu/fiscal/forms.html.
Student Transportation Fee
The Student Transportation Fee is a newly implemented student-sponsored mandatory fee, providing all students with a Student Transit Bus Pass good for unlimited Marin Transit public transportation during the semester indicated. To see bus schedules go to www.marintransit.org.

Technology Fee
The Technology Fee supports the establishment, maintenance and upgrades of student computer labs and continued software access, and is used exclusively for those purposes. The labs are not supported by any state or federal funds.

Technology Fee Waiver
Students have the right to decline to pay the Student Activities Fee by completing a "Student Activities Fee Waiver" form and submitting it to the Cashiering Services Office within two weeks of the start of instruction for the term. The form may be downloaded at marin.edu/fiscal/forms.html.

Payment Policy
Full payment of Enrollment Fees, nonresident tuition, international tuition, health fees and all other applicable fees are due at the time of registration. Students wishing not to pay all their fees at the time of registration must choose to participate in College of Marin’s payment plan. Students who have HOLDS on their records from previous terms will be restricted from registering, adding, dropping/ withdrawing from classes, accessing transcripts, diplomas, certificates and other services. All these privileges will be restored once all HOLDS have been cleared.

Payment Methods
Payments may be made with a MC/VISA credit card or MC/VISA debit card online at http://mycom.marin.edu or in person at the Cashiering Services Office. In person payments can be made via cash, check, Visa or Mastercard.

REFUNDS

Enrollment Fees, Nonresident and International Student Tuition Refunds
Enrollment fees, nonresident and international student tuition may be refundable for full-semester courses and short-term courses. The refund policy also applies to summer terms. Please see the Important Dates listing in the schedule of classes or the Academic Calendar in this catalog for specific deadline dates. A listing of short-term refund deadlines is published in each schedule of classes.

Materials Fees
Provided that no materials have been used, refund of materials fee will be granted through Friday of the second week of classes or, for short-term classes and summer session, before completion of 10 percent of the length of the course.

Refund Procedures
Refunds are not automatic. To obtain a refund for courses dropped on or before the published deadline dates, the student must submit a completed "Refund Request" form to the Cashiering Services Office no later than the last day of final examinations. Refund procedures also apply to summer sessions. Forms may be downloaded at marin.edu/fiscal/forms.html.

Parking Permit Refunds
College of Marin upon the request of the student will grant a parking permit refund under the following conditions:

- College of Marin has canceled a course for which the student was enrolled and the student has no other enrollment for the term in credit, noncredit, community education or emeritus college courses.
- The student has dropped all courses on or before the last day to qualify for an enrollment/tuition fee refund for full-semester classes.
- The student has dropped all courses by 10 percent of the number of days the classes meets for short-term classes, noncredit, community education or emeritus college classes.

Parking Permit Refund Requests
Students requesting a parking permit refund must comply with the following procedures:

1. Complete and submit a Parking Permit Refund Request form to the Cashiering Services Office.
2. Submit the Parking Permit decal along with the Parking Permit Refund Request form.
3. Request must be submitted within 2 weeks of the start of the term for full-semester courses.

Student Health Fee Refund
The student health fee is nonrefundable unless the college canceled a class and there is no other credit enrollment on the student’s record for the term.

Refund Service Fee
A $10 per semester refund service fee and any outstanding balance due the college will be deducted from all refunds. No refund service fee is charged if the class is canceled by the college.

Military Withdrawal Refund
Upon verification that a student was a member of an active or reserve military service unit who received orders compelling a withdrawal from courses, withdrawal with an MW symbol will be allowed and a full refund of fees will be granted.

FEE WAIVERS/TAX CREDITS

Board of Governors
An interactive version of the form is now available online at marin.edu/FinancialAid/forms.htm. Students required to pay out-of-state fees are not eligible. The California Community Colleges Board of Governors provides a waiver of enrollment fees for students who are residents of the State of California or meet the California Exemption criteria (AB540) and meet one or more of the following criteria:

1. Student or student’s family receives TANF, SSI, or General Assistance benefits.
2. Income for 2014 was below the following limits (includes taxable and nontaxable income):
   a. Family size = 1/income under $17,505.
   b. Family size = 2/income under $23,595.
   c. Add $6,090 for each additional dependent.
3. Student files Financial Aid Application and is determined eligible by the Enrollment Services Office. Contact financial. aid@marin.edu for additional information.

Note: The above information is subject to change in the event of new state regulations.

Veterans or Dependents of Disabled/Deceased Veterans Educational Benefits
The VA toll-free number is 1-800-827-1000. Education and Benefit Services: www.gibill.va.gov. College of Marin is approved as an educational facility for veterans and their dependents. Eligible veterans and their dependents are certified by the School Certifying Official
(SCO) after the student has completed and returned the “Veteran Application Packet” (available from the Office of Admissions and Records) and have met with the designated college veteran’s counselor.

Dependent of Veterans College Fee Waiver Program (66025.3)
The State of California offers a “College Fee Waiver Program” to children and dependents of service-connected disabled or service-related deceased veterans. This program is administered by the California Department of Veterans Affairs (listed in the Government section of the telephone book under County Government Offices).

Tax Credit
In accordance with federal tax credit legislation, College of Marin will mail a verification 1098T form at the end of January to each student registered at least half time on census day and who has paid their registration fees. Please check with your tax preparer to determine if you are eligible to take advantage of this credit.

If you are entitled to this deduction, it is important that the college have your current address. If you have moved, you need to complete a green change form with the Office of Enrollment Services.

The Social Security numbers of students who have chosen an assigned identification number will not be printed on the 1098T. If you wish to change from an assigned identification number to your Social Security number, you may also do this by completing the green change form with the Office of Enrollment Services.

FINANCIAL AID
College of Marin offers student financial aid assistance to all students who qualify on the basis of financial need. Eligible students receive funds in the form of grants, scholarships, loans, and/or workstudy programs.

ELIGIBILITY
To be eligible for federal financial aid programs, a student must:
1. Be a U.S. citizen, permanent resident, or eligible noncitizen.
2. Be in compliance with U.S. Selective Service registration regulations.
3. Have a high school diploma, G.E.D. certificate, or state equivalency credential.
4. Be enrolled in a program leading to a degree, certificate, or transfer to a four-year college or university.
5. Maintain satisfactory academic progress according to the policies of the Office of Enrollment Services.

DETERMINATION OF NEED
Generally, financial need is determined by calculating the difference between a student’s resources and expected expenses. For students who do not meet the criteria to be considered independent, parents’ income and assets are included in the calculation of resources. Students with exceptional circumstances should consult with the Office of Enrollment Services.

Need Equals Expenses Minus Resources
EXPENSES include tuition, books, fees, and standard allowances for transportation, rent, food, and some other living expenses. (Standard student budget amounts are available from the Office of Enrollment Services.

RESOURCES are defined as expected contributions from income and assets as calculated by the federal need analysis formula.

APPLICATION PROCEDURE
The application form is the Free Application for Federal Student Aid (FAFSA) and is available online at www.fafsa.ed.gov. Follow the directions carefully. The Office of Enrollment Services often requires additional documents to verify or explain the information submitted on the FAFSA form. When a student’s file is complete, it is reviewed for eligibility for financial aid programs and an award letter is sent to the student.

Application forms are available in January for the following fall and spring semesters and must be submitted by March 2 for the following programs for priority consideration.
1. Cal Grant A, B, and C.
2. Priority filing deadline for students transferring to four-year colleges and universities.
3. Supplemental Education Opportunity Grant (SEOG) (See Federal Grants)
4. Federal Work-Study (see Employment)

STUDENT PORTAL
All information related to financial aid including documents needed, award letters, satisfactory progress will be sent through the MyCOM student portal. Students must check their portal on a regular basis.

AVAILABLE PROGRAMS
Federal Grants
1. Pell Grants: Pell Grant eligibility is based on the Student Aid Report (SAR) the student receives after filing the FAFSA form. Grants are approximately $600 - $6,000 per year and are prorated according to the number of credits in which the student is enrolled. (Amounts are subject to changes in federal legislation.)
2. Supplemental Education Opportunity Grant (SEOG): SEOG grants are awarded to Pell Grant recipients with the least amount of financial resources. Grants range from $400-$2,000 per year.

State Grants
3. Extended Opportunity Programs & Services (EOPS) Grants: The EOPS Office offers book grants to qualified students. Students must be full-time and qualify for a BOGW-A or a BOGW-B fee waiver. Information on other criteria can be obtained from the EOPS Office.
4. Board of Governors’ Waiver (BOGW): The State of California provides waivers of tuition for students who are recipients of SSI, General Relief or TANF, or meet certain income criteria or qualify on the basis of financial need. (See Enrollment Fee Waivers.)
5. Cal Grants: The State of California provides grants ranging from $137 - $1648 per semester for students who qualify. Cal Grant B provides funds to exceptionally needy students. Cal Grant C provides funds to students in certificate vocational programs. Cal Grant A is designed for students who intend to transfer and will cover a portion of tuition and fees once the student transfers to a four-year college or university.

Community Grants
10,000 Degrees Grants (formerly Marin Education Fund): The Buck Trust established the Marin Education Fund to provide funds for the education of Marin County residents. Grants ranging from $400 - $4,000 are awarded. The 10,000 Degrees application form must be filed by March 1 to be considered for the following fall and spring semesters.

Financial Aid for AB540/AB2000
Undocumented Immigrant Students
Visit www.caldreamact.org for more information about eligibility or pick up “The
California Dream Act of 2011” informational flyer at the Enrollment Services Office.

EMPLOYMENT
1. College Work-Study Program: Federally funded part-time jobs are available on campus and off campus for students who have financial need and are awarded a work-study job. Available jobs are posted at the Enrollment Services Office. Salaries range according to the requirements of the position.

2. Student Employment: The College Job Placement Office maintains up-to-date listings of jobs within the community. Many jobs are career-related and provide students with excellent work experience. Salaries are determined by the employer.

STUDENT LOANS
1. Emergency Loans: The College of Marin Foundation and the Associated Students of the College of Marin provide Emergency Loan funds. This program provides 30-day loans of up to $100.

2. Federal Stafford Subsidized Loans (formerly Guaranteed Student Loans) provide deferred-payment, low-interest loans for qualified students. Principal and interest are deferred until the student is no longer enrolled at least half time. Students must apply for financial aid and qualify on the basis of financial need. Federal Unsubsidized Stafford Loans provide low-interest loans for students who do not meet financial need criteria for Federal Stafford Loans. Principal is deferred during enrollment as at least a half-time student. Interest begins accruing when the loan is borrowed. Students interested in federal student loans must attend a loan workshop.

SCHOLARSHIPS
Each year students with outstanding academic records and financial need are awarded scholarships from College of Marin and from an increasing number of community groups.

A free computerized scholarship search program is available online at www.FastWeb.com.

The Office of Enrollment Services maintains information about other scholarship opportunities and helps students make proper and timely applications for such funds. Students should inform their counselors of possible financial need and review bulletin boards for notices of scholarship announcements.

ACADEMIC INFORMATION

ATTENDANCE
Regular attendance is necessary for satisfactory progress in college. Failure to attend regularly may result in a failing grade. Students who are late in attending the first class meeting may lose their place to another student on the waiting list. For any absence, the student must make up all work missed. Such work must be completed to the satisfaction of the instructor. It is the student’s responsibility to check on all assignments.

Students may be dropped from classes as a result of excessive absences, however, non-attendance does not constitute an automatic drop. Students are responsible for processing their own drops/withdrawals.

UNITS OF CREDIT
The conventional measurement of college work is called a unit. It represents one lecture hour per week for one semester (together with two hours of preparation outside class) or three hours of laboratory work per week for one semester.

Full-time students are enrolled in at least 12 units in the spring and fall and four units in the summer.

COURSES USED FOR HIGH, MIDDLE AND ELEMENTARY SCHOOL CREDIT
College-level course work that students have elected to use for high, middle and elementary school credit will also be counted, when applicable, toward the degree or certificate requirements and will be given as college credit.

Concurrently enrolled high, middle and elementary school students are restricted from physical education classes and basic skills classes.

GRADE/QUALITY POINTS
Each letter grade has the following point assignment for each unit:

- A = 4.0
- A- = 3.7
- B+ = 3.3
- B = 3.0
- B- = 2.7
- C+ = 2.3
- C = 2.0
- D+ = 1.3
- D = 1.0
- D- = 0.7
- F+ = 0.3
- F = 0.0
- FW = 0.0

Grades Required for Major
Effective Fall 2012, courses applied toward a student’s major area of emphasis must be completed with a final grade of C or better, or a Pass (P) if the course is taken on a Pass/No Pass basis. This requirement applies to all students applying for graduation regardless of their catalog rights.

Grade Point Average (GPA)
Divide the total grade points earned by the number of units attempted. In calculating GPA, do not include I, IP, W, P, NP, or non-progress Grades (NPG) of I, NC, or W.

Consecutive Semesters
Semesters shall be considered consecutive based on a student’s enrollment pattern.

Probation
A warning that a student’s grades do not meet acceptable standards.
Dismissal
A student is not allowed to continue at the college unless the student receives special permission from the Dean of Enrollment Services or the College Petitions Committee.

Midterm Grades
Midterm grades are available for students online at mycom.marin.edu (check calendar).

Final Grade
Enrollment, evaluation, and credit for courses shall be entered on a student's official academic record in accordance with college policy and state law. Final grades are only available to students online at mycom.marin.edu (check calendar).

Pass (P)/No Pass (NP)
Students who select the Pass/No Pass grading option in those courses which permit a student to be evaluated either on a Pass/No Pass or Letter Grade basis, must select that option on or before 30 percent of the length of the term for full-term and short term courses. Check the Calendar of Important Dates. Students may select the Pass/No Pass grading option online at mycom.marin.edu up to the first day of instruction for the term. After the first day of instruction for the term students must submit a Pass/No Pass Grading Option form to the Office of Enrollment Services. A student may change his/her selection within this 30 percent time period. Once this time period has expired a student may not change his/her selection. To receive a pass grade, course work must be C level or above. Some colleges and universities will not grant transfer credit for courses with Pass/No Pass grades.

Note: The Pass/No Pass grading option is the sole responsibility of the student.

Check the Calendar of Important Dates for the deadline for full-term classes and the Schedule of Classes for the deadline dates for short-term classes.

Incomplete Grades
An Incomplete grade may be assigned to a student who cannot complete a small portion of the required academic work because of a justifiable emergency or unforeseeable reason at the end of the semester. The decision to give an Incomplete rests solely with the instructor. A student who receives an Incomplete grade must make arrangements with the instructor and must make up the work by the last day of final examinations in the following semester. In extenuating circumstances, and with the instructor's approval, the student may petition for an extension of not more than one additional semester.

The instructor for the class shall submit a form to the Office of Enrollment Services, with a copy to be mailed to the student, stating the conditions for completing the work and the final grade to be assigned if the work is not completed. The instructor shall submit a change of grade form when the work is completed. If the “I” is not removed by the end of the subsequent semester, and no extension has been granted, it shall be changed to the grade originally assigned by the instructor.

In Progress Grades
The IP symbol is used when a class is open-entry or extends beyond the normal end of an academic term. IP indicates that work is “in progress.” The IP symbol shall remain on the student’s permanent record. The following semester, the appropriate grade and unit credit shall be assigned by the instructor when the course is completed. An IP shall be recorded only once for any given class. It shall not be used in calculating grade point average or determining progress probation. The instructor shall submit an IP form that includes a final grade to be posted if the student fails to re-enroll. A student who receives an IP must re-enroll for the course the subsequent semester and complete the required work to achieve a grade. If the student does not re-enroll in the next regular semester, the student shall receive the grade submitted on the IP form. Students will be charged an enrollment fee when they re-enroll.

Report Delayed Grade
The RD symbol may be assigned only by the Office of Enrollment Services and is used when there is a delay by the faculty member in reporting the grade of a student. RD shall be a temporary notation to be replaced by a permanent symbol as soon as possible. It shall not be used in calculating grade point average or determining progress probation/dismissal.

Withdrawals
Withdrawals are authorized through the last day of the fourteenth week of instruction or 75% of the term, whichever is less. Students may withdraw from class using the online process described in the current class schedule or they may submit a Drop Form to the Office of Enrollment Services. It is the student’s responsibility to withdraw from class by the official deadline dates published in the most recent Catalog, Schedule of Classes, and the website. Students who withdraw or drop classes during the first four weeks or 30% of the term, whichever is less, will receive no notation on their academic record. Students who withdraw after 30% of the term and before 75% of the term, whichever is less will receive a “W.”

A student who remains in a course beyond the time allowed by district policy must receive a symbol or grade for that course on his or her academic record, as authorized in Title 5 section 55023, other than a “W.”

The “W” shall not be used in calculating grade point averages, but shall be used in determining probation and dismissal pursuant to article 3 of this subchapter.

Pursuant to Title 5 Section 58004, instructors shall clear their rolls of inactive students not later than the end of the last business day before the census day for all students. Students who are dropped by instructors after 30% of the term will receive a “W.”

“Inactive students” include:
• “No-shows” are defined as students who did not attend courses at any time.
• Students who have (a) initiated action to cancel enrollment in all courses or (b) have been dropped by authorized college personnel in accordance with Board policies.
• Students who are no longer participating in a course.

Instructors may clear their rolls of any student who does not attend the first class meeting, including mandatory orientation sessions for distance education courses. Students not attending the first class meeting must notify the instructor in writing to request that their place be held in the class. Students who do not notify their instructors that they are not attending the first class meeting may lose their place in the class. Students who do not provide proof of meeting course prerequisites at the first class meeting may also be removed from the roll.

For online courses, a student may comply with these requirements electronically by accessing the course website or emailing the instructor during the first official week of the semester.

Military Withdrawal
Military withdrawal occurs when a student, who is a member of active or reserve United States military services, receives orders compelling a withdrawal from courses. A symbol
of “MW” will be assigned and military withdrawals shall not be counted for the permitted number of course withdrawals nor in progress probation or dismissal calculations. In no case would a military withdrawal result in a student being assigned an “FW” grade.

Withdrawals after 75% of the term or 14th week
Students may petition to withdraw from classes due to documented extenuating circumstances after the last day of the 14th week or 75% of the term (whichever is less) and, after consultation with appropriate faculty, shall be recorded as a “W.” Extenuating circumstances are verified cases of accidents, illnesses or other circumstances beyond the control of the student. All supporting documents must be attached to the petition at the time of submission to the Office of Enrollment Services.

A “W” symbol shall not be assigned, or if assigned shall be removed, from a student’s academic record when a

1. Determination is made pursuant to Title 5 Sections 59300 et seq. that the student withdrew from the course due to discriminatory treatment or due to retaliation for alleging discriminatory treatment.

2. Student withdrew from one or more classes, where such withdrawal was necessary due to fire, flood or other extraordinary conditions and the withdrawal is authorized by the district pursuant to Title 5 section 58509.

Successful Completion
Successful completion of a course is defined as receiving a grade of Pass (P), Credit (CR), C or higher letter grade.

NON-REPEATABLE COURSES
(SUBSTANDARD OR THE “W” SYMBOL)
Students are allowed a maximum of three enrollments in a non-repeatable course in which the final grade has resulted in either a substandard grade below a “C,” “NP,” “NC,” or the “W” symbol as outlined below:

1. A student who receives a substandard grade or the “W” symbol on the first attempt of a non-repeatable course taken at College of Marin may enroll in that course one more time without a petition in an effort to successfully complete the course with a passing grade.

2. After receiving any combination of two substandard grades or the “W” symbol in the course, a student may submit a petition to the Office of Enrollment Services to enroll in the course for a third enrollment providing there is verifiable documentation that extenuating circumstances occurred. Extenuating circumstances are verified cases of accidents, illnesses or other circumstances beyond the control of the student.

3. For the petition to be reviewed, the student is required to meet with a counselor to complete the petition.

4. All supporting verifiable documents must be attached to the petition at the time of submission to the Office of Enrollment Services.

5. With an approved petition, the student must wait one week after the start of new and returning student registration to register for the course.

When a student repeats a class to alleviate substandard academic work, only the first two substandard grades and units shall be disregarded in the computation of the cumulative grade point average (GPA).

Courses granted Academic Renewal will not be included for course repetition limits.

Students may also petition to repeat under the following circumstances:

1. Legally Mandated Training: Students may repeat a course any number of times where it is required for a student to meet a legally mandated training requirement as a condition of continued paid or volunteer employment, regardless of whether the student recorded substandard work.

2. Significant Change in Industry or Licensure Standards: Students may petition to repeat a course needed for employment or licensing because of a significant change in the industry or licensure standards. Students may take these courses any number of times.

3. Extenuating Circumstances and Extraordinary Conditions (Title 5 Sections 55045 and 58509): Extenuating circumstances are verified cases of accidents, illnesses, or other circumstances beyond the control of the student.

4. Extraordinary conditions are those which would justify the District providing the student a refund.

5. Cooperative Work Experience (general work experience and occupational work experience): See Repeatable Courses

6. Students with Disabilities: See Repeatable Courses

7. Due to Significant Lapse of Time: See Course Repetition – Significant Lapse of Time

With an approved petition, the student must wait one week after the start of returning student registration to register for the course. Grades and Non-Progress (NPG) percentages awarded for courses repeated under these provisions are included when calculating a student’s grade point average.

Nothing can conflict with Education Code Section 76224 pertaining to the finality of grades assigned by instructors, or with Title 5 or District procedures relating to retention and destruction of records.

Annotating the permanent academic record shall be done in a manner that all work remains legible, ensuring a true and complete academic history.

COURSE REPETITION - SIGNIFICANT LAPSE OF TIME
Students may be permitted or required to repeat courses in which a “C” or higher letter grade, “CR,” or “P” was earned where there was a significant lapse of time of not less than 36 months since the grade was earned and either:

1. A recency prerequisite for a course or program has been established which the student cannot satisfy without repeating the course; or

2. An institution of higher education to which a student seeks to transfer has established a recency requirement that the student cannot satisfy without repeating the course. When course repetition is necessary for transfer to an institution of higher education, the student may be allowed to repeat the course where less than three years have elapsed.

Under these provisions:

- With an approved petition, students must wait one week after the start of returning student registration to register for the course.
- Students requesting to repeat for number 1 above must submit verifiable documentation with the petition.
- Students requesting to repeat for number 2 above are only allowed one repeat for each course and all verifiable documentation from the transfer institution must be attached to the
petition at the time of submission to the Office of Enrollment Services.

- When a course is repeated due to a significant lapse of time, the previous grade and units will be disregarded and the current grade will be used when computing a student's cumulative grade point average (GPA).

- Students receiving a substandard grade (grades below "C," "FW," "NC," and "NP," or the "W" symbol) in the repeated course may not petition to alleviate the substandard grade under Course Repetition-Non Repeatable Courses (AP 4225).

Annotating the permanent academic record shall be done in a manner that all work remains legible, insuring a true and complete academic history.

REPEATABLE COURSES

Under the following special circumstances, students may repeat courses in which a grade of "C" or higher or "CR" or "P" was earned.

- Courses for which repetition is necessary to meet the major requirements of CSU or UC for completion of a bachelor's degree.

- Intercollegiate athletics, as defined in Title 5 Section 55000; and

- Intercollegiate academic or vocational competition, as defined in Title 5 Section 55000, where enrollment in the course and courses that are related in content, as defined in Title 5 Section 55000, is limited to no more than four times for semester courses. This enrollment limitation applies even if the student receives a substandard grade or "W" during one or more of the enrollments in such a course or petitions for repetition due to special circumstances as provided in Title 5 Section 55045.

Legally Mandated Courses

Students are allowed to repeat a course with a petition when repetition is necessary to enable that student to meet a legally mandated training requirement as a condition of volunteer or paid employment. Students can repeat such courses any number of times, even if they receive a grade of "C" or higher or "CR" or "P"; however, the grade received by the student each time will be included in the calculations of the student's grade point average or NPG percentage. Prior to enrollment, the student must submit a Petition to Repeat a Legally Mandated Course along with verifiable documentation to Enrollment Services.

With an approved petition, students must wait one week after the start of new and returning student registration to register for the course.

Activity Courses

Students may enroll in activity courses in physical education, kinesiology, visual arts and performing arts. Such courses may not be repeated for more than four semesters. This limit applies even if the student receives a substandard grade "W" during one or more enrollment or if a student petitions for repetition due to extenuating circumstances.

Courses for Students with Disabilities

Students with disabilities may repeat a special class for students with disabilities any number of times when an individualized determination verifies that such repetition is required as a disability-related accommodation for one of the reasons specified in Title 5 Section 56029.

Cooperative Work Experience Courses

For the satisfactory completion of all types of Cooperative Work Experience Education, students may earn up to a total of 16 semester credit hours, subject to the following limitations:

1. General Work Experience Education:

   A maximum of six semester credit hours may be earned during one enrollment period in general work experience education.

2. Occupational Work Experience Education:

   A maximum of eight credit hours may be earned during one enrollment period in occupational work experience education.

   If a college offers only one course in occupational work experience in a given field and that course is not offered as a variable unit open-entry/open-exit course, the district policy on course repetition adopted pursuant to section 55040 may permit a student to repeat that course any number of times as an auditor. The procedures and conditions for auditing a class are as follows:

1. Courses in which auditing is allowed will be posted each semester in the Office of Enrollment Services and the online Schedule of Classes. The list of auditable courses is maintained by the Office of Instructional Management.

2. Appropriate unit fees, based on Education Code (plus any additional course costs) must be paid.

3. Students currently enrolled in 10 or more units may audit up to 3 units free of charge.

4. Auditor status will be allowed only if a student has exhausted repeat possibilities as a regular student in selected classes.

5. Auditors must be eligible for admission to college as regularly enrolled students.

6. Auditors must meet the course prerequisite.

7. Auditors will be allowed to register only after the first census date for the course in order to give priority to students registering for credit. Auditors will not be permitted to attend the course until enrollment is secured after first census. Auditors must submit an Audit Card signed by the instructor to the Offices of Enrollment Services to secure enrollment.

8. Auditors may NOT change their status to regular student in the class (or reverse).

9. Once the auditor fee is paid, it will not be refunded.

10. Students registered as auditors only will not be entitled to the regular student health services (other than emergencies).

11. No grades can be earned or transcripts maintained.
The instructor and student auditor will agree upon the auditor's level of participation in the class.

**BASIC SKILLS CLASSES**

Students may enroll in a maximum of 30 units of Basic Skills classes (pre-collegiate English and Mathematics) – courses numbered 100 or lower. Students with documented functional limitations associated with learning related disabilities, which have shown significant measurable progress toward appropriate skill development in Basic Skills classes, may receive special approval for additional enrollments but will be limited to a specific period of time or number of units. Students are encouraged to contact the Disabled Students Program for more information.

**Note:** There is no 30-unit limit for ESL courses.

**GRADE CHANGES**

The instructor of a course shall determine the grade to be awarded to each student. The determination of the student's grade by the instructor is final in the absence of mistake, fraud, bad faith or incompetency. “Mistake” may include, but is not limited to, errors made by an instructor in calculating a student’s grade and clerical errors. “Fraud” may include but is not limited to, intentional inaccurate recording of a change of a grade by any person who gains access to grade records without authorization. Instructors may choose to change a student's grade by submitting a Change of Grade form to the Office of Enrollment Services stating the reason for the change. No grade change will be made more than two years after the final grade was issued.

Please consult with the Dean of Enrollment Services for specific administrative procedures relating to final grade disputes.

**ACADEMIC RENEWAL**

Academic renewal provides students with an opportunity to reverse the negative impact of past academic failures at College of Marin without course repetition:

- Academic renewal may only be requested once at College of Marin.
- Academic renewal is not automatic.
- Academic renewal actions are irreversible.

All course work granted academic renewal status shall not be computed in the student's grade point average or non-progressive grade percentage and this shall be noted on the student's permanent record.

Academic renewal does not guarantee that other institutions outside the District will approve such action. This determination will be made by the respective transfer institution.

Academic renewal procedures may not conflict with the District's obligation to retain and destroy records or with the instructor's ability to determine a student's final grade.

Students who have been awarded an Associate Degree may not apply for academic renewal under the following conditions:

Students with grades of "F," "FW," "NP," and "NC." Coursework completed after the Associate Degree is awarded may be considered for academic renewal.

Students who have been awarded a Certificate of Achievement may apply for academic renewal providing the courses requested for academic renewal were not applied towards the Certificate of Achievement.

Students may request academic renewal for substandard academic performance under the following conditions:

1. At least two semesters (excluding summer session) must have elapsed since the last substandard grades were recorded.
2. The student has subsequently completed:
   a) 24 units at a satisfactory level (minimum 2.00 grade point average/GPA) with no more than 6 units of physical activity courses used to demonstrate improved academic ability or
   b) 12 letter-graded units (minimum 3.00 grade point average/GPA) with no more than 3 units of physical activity courses used to demonstrate improved academic ability.
3. A maximum of 24 units of substandard course work may be eliminated from consideration in the cumulative grade point average. Substandard grades are any grades lower than a "C," "CR" (Credit), or "P" (Pass).
4. Students’ most recent semesters utilized to demonstrate that the substandard work is not a reflection of the student’s ability must not include grades below "C," "I," "IP," "FW," NC," or "NP" grades. (Semesters with excluded grades below "C," "FW," "NC," and "NP" grades do not count toward academic renewal.)
5. Work from other colleges with recognized accreditation may be considered. If using course work from another regionally accredited college, official transcripts must be attached. Transcripts must be evaluated according to the terms outlined in this procedure.

6. Academic renewal does not allow a student to repeat courses they have already repeated the maximum number of times.

7. All students are urged to consult a counselor with questions regarding academic renewal procedures before submitting the Request for Academic Renewal to the Office of Enrollment Services. Annotating the permanent academic record shall be done in a manner that all work remains legible, ensuring a true and complete academic history.

**EXAMINATIONS**

Final examinations are held at fixed times. Instructors are not to give examinations in advance of the regular schedule. Any student who is absent from any examination held at any time during a semester thereby forfeits any right to make up the work by re-examination. If a student is unable to be present at an examination at the scheduled time due to illness or some other unavoidable reason, then the student may be permitted to take the examination at a later date by arrangement with the instructor. The examination must be made up by the last day of final examinations the following semester.

**HONOR LIST**

Students will be placed on a semester honor list when their semester GPA is 3.0 or higher. These students may not be on probation or have any I, NC, NP, F or FW grades, and must be enrolled in 12 units of letter-graded classes at the college.

**INDEPENDENT STUDY**

Independent Study courses are designed for independent, motivated students to pursue intellectual inquiry outside of regularly scheduled course offerings. These are to be supervised by instructors, generally involving substantial, student-instructor interaction. Each course shall be initiated on an individual basis via an agreement between the student and an instructor.

These courses are not designed to substitute for other courses offered by the academic departments.

Enrollment shall be through courses numbered 249A (1 semester unit), 249B (2 semester units), and 249C (3 semester units).
One unit of credit requires a minimum of 48 hours of lecture, study or laboratory work.

**Academic Standards**

Academic standards applicable to courses of independent study shall be the same as those applied to other credit courses as appropriate at the District.

**Procedures for Evaluation**

Procedures for evaluation of student progress shall be in accordance with regulations established by the District. A grade report by an instructor on appropriate records bearing the student’s name for purposes of state apportionment shall certify the adequate and proper progress toward accomplishment of the course objectives is being maintained by the student.

**Availability of Instructor**

Independent study students shall have access to the instructor equivalent to access given to students enrolled in course conducted by other instructional methods, including office hours.

Instructors are responsible for assisting the student in developing the proposal, granting instructor approval of the proposal, assisting the student in the independent study as necessary, evaluating the results of the study, and submitting the final grade to the Office of Enrollment Services.

Independent study courses may be repeated more that once for credit provided the same topic is not repeated. An independent study course per semester, six (6) units of independent study per discipline, to a maximum of twelve (12) units overall unless specified by a department to obtain a local certificate.

**STUDENT PETITIONS**

Appeals and grievances in the following areas should be submitted through the Petition Request channel of the MyCOM Student portal: Academic/Progress Dismissal, Admission, Attendance, Graduation, Fee Payment, Refund, Residence Determination, and Student Records. All petitions are reviewed by the Dean of Enrollment Services.

## PROBATION

**Placement on Probation**

Progress Probation

After enrolling in at least 12 semester units at College of Marin, if the percentage of a student’s recorded entries of W, I, NC, and NP reaches or exceeds 50 percent of all units in which a student has enrolled in at College of Marin, he/she shall be placed on progress probation at the end of the semester or session.

At the end of the third semester in which the student is on progress probation, a notice that the student is subject to dismissal will be sent to the student.

Academic Probation

After attempting at least 12 semester units at College of Marin, a student shall be placed on academic probation at the end of the semester or session in which the student’s cumulative grade point average (GPA) falls below 2.0 in all units enrolled in at College of Marin.

**Removal From Probation**

Progress Probation

A student will be removed from progress probation when the student’s cumulative Non-progress Grade (NPG) drops below 50 percent.

Academic Probation

A student will be removed from academic probation when the student’s cumulative GPA reaches 2.0 or higher.

A student who is on academic probation and earns a semester grade point of 1.75 or better shall not be dismissed as long as this minimum semester grade point average is maintained.

**Notification of Probation**

Students will be notified of their probationary status prior to the start of the next semester or session.

The notice will consist of, at the minimum, the following: the significance of being on probation, enrollment limits, appeal procedures, and a description of the support services and classes available to prevent dismissal.

**Enrollment Limits**

Students on probation may not register in more than 13 units total for that entire fall or spring semester. For the summer session, students may enroll in one class regardless of the unit value or multiple classes not to exceed 4 units.

For students who have exceeded the unit limit and have not met the conditions to appeal, as described in the Appeal Procedure below, the student must drop the necessary class(es) to comply with the notification. If the student does not drop by the beginning of the semester or session, the College will reduce the course load to meet the maximum units allowed by random selection.

**Appeal Procedures**

A student placed on probation may file a petition with the Office of Enrollment Services only if the student:

1. Believes an error has been made.
2. Provides evidence of graduation or transferring at the end of that semester.
3. Provides evidence that additional units are needed to meet a legally mandated training requirement.

Enrollment limits may not be appealed beyond the College Petitions Committee.

**Dismissal**

**Standards for Academic Dismissal**

A student who is on academic probation shall be subject to academic dismissal if the student has less than a cumulative grade point average of less than 1.75 in all units attempted in three consecutive semesters (not including summer).

**Standards for Progress Dismissal**

A student who is on progress probation shall be subject to progress dismissal if the percentage of units in which the student has been enrolled for which entries of W, I, NC or NP are recorded in three consecutive semesters reaches or exceeds 50 percent.
Dismissal Letter
The letter notifying a student he/she is subject to academic and/or progress dismissal will cover, at a minimum, reference to this procedure, explanation of what academic and progress dismissal means, procedure for reinstatement, and procedure to appeal the academic and progress dismissal notice.

Procedures for Filing the Petition to Return After Dismissal
A student must file a Petition to Return After Dismissal with the Office of Enrollment Services within two weeks of the start of the fall and spring semester and within one week of the start of a summer session. As a condition to return, the student must meet with a counselor to complete a Student Educational Plan and all supporting documents must accompany the Petition to Return After Dismissal.

Standards for Evaluating the Petition to Return After Dismissal
In considering whether or not students may return after dismissal, the following criteria should be considered.

- Documented extenuating circumstances.
- Marked improvement following the semesters on which dismissal was based.
- Semesters on which dismissal action was based were atypical of past academic performance.
- Formal or informal educational experience since completion of semesters on which dismissal was based.
- Improved GPA as a result of grade changes, fulfillment of incomplete courses, or academic renewal.
- GPA calculation error.
- Evidence that the posting of final grades was in error which contributed to the academic and/or progress dismissal action.

Within ten (10) working days from the date the petition was submitted to Enrollment Services for review, the student will be notified in writing of the decision.

- If the Petition to Return After Dismissal is approved, the student will be notified of the terms and conditions of the petition and allowed to continue on academic and/or progress probation for an additional semester. At the end of that semester, the student’s academic record will be evaluated to determine whether the student may be removed from academic and/or progress probation, should be dismissed, or should continue on academic and/or progress probation.
- If the Petition to Return After Dismissal is denied, the student will receive notification of the decision and procedures to appeal the decision.

Appeal of Dismissal
The student has the right to appeal an academic and/or progress dismissal action, if the student can provide evidence that warrants a review of the dismissal action. The student may appeal this decision by making an appointment with the College Petitions Committee within five (5) working days of the postmark date of the notice of the denied petition.

- If the student fails to make the appointment within the specified time, the student waives all future rights to appeal the dismissal action for that term.
- If the student makes an appointment, the student will continue on academic and/or progress dismissal until the student meets with the College Petitions Committee. A decision to uphold the original dismissal decision or approve the appeal will be made at the conclusion of the meeting. The decision of the College Petitions Committee is final.

Standards for Evaluating Appeals
Dismissal appeals may be granted under the following circumstances:

- If the dismissal determination is based on the academic record for one semester in which the record does not reflect the student’s usual level of performance due to accident, illness, or other circumstances beyond the control of the student. Verification must be submitted with the appeal.
- The student enrolls in a corrective program designed to assist him/her in improving academic skills, such as obtaining academic counseling, and/or limiting course load.
- Where there is evidence of significant improvement in academic achievement.

ADVANCED PLACEMENT/ACADEMIC CREDIT
Advanced Placement (APT) scores
Please note that the APT scores for purposes of transfer, specifically the IGETC, differ from those used toward College of Marin degree programs.

See chart on next page.
(AP) ADVANCED PLACEMENT CHART FOR COLLEGE OF MARIN CREDIT

College of Marin grants credit towards the Associate Degree with scores of 3, 4, or 5 on the Advanced Placement Examinations offered by the College Board. To receive credit, students must:

1. Have successfully completed 12 units of residency at College of Marin
2. Submit a Student Petition to Enrollment Services
3. Have an official copy of their College Board test scores forwarded to the Enrollment Services Office.

Credit will be awarded as shown in the chart below.

Please see a counselor about using AP exam scores and credits towards meeting graduation and/or transfer requirements. Chart Notes: 1) May be used to satisfy Area B (Social/Behavioral Sciences) or Area F (American Institutions), but not both. 2) May be used to satisfy both Area B (Social/Behavioral Sciences) and Area F (American Institutions). UPDATED: ASC Counseling Department 7/24/12
CLEP
After successfully completing 12 units at College of Marin, a student may file a student petition for 6 units of credit with a minimum score of 500 in each of the CLEP examinations in the areas of Social Science, History and Natural Science. The maximum number of CLEP units that can be awarded is 12. Units credited appear in the memorandum section of the transcripts and are counted towards the 60 units graduation requirement. Transfer credits vary. See a counselor for additional information.

The English Department does not award CLEP units in English or Humanities to students; however, students will be eligible for English 150 if they score as follows:
1. 540 or more on the CLEP General Examination in English Composition, essay version.
2. 55 or more on the CLEP Subject Examination in Freshman College Composition, essay version.

Except as outlined above, units attained from CLEP examinations may be used for Social Science and Natural Science general education and elective credit only and not for Major course requirements.

ADMINISTRATION OF JUSTICE
After successful completion of 12 units at College of Marin, students who have completed P.O.S.T. Basic Academy may petition for 6-12 units of Basic Academy Credit (200 hours = 6 units, 400 hours = 8 units, 560 hours = 10 units and 800 hours = 12 units).

Students may transfer credits for other police academy work only if the academy is fully accredited (as listed in the ACCRAO Guide) or if another fully accredited college or university has granted credit for the work. Courses must closely parallel those in the Major requirements to be substituted.

AUTOMOTIVE TECHNOLOGY
After successful completion of 12 units at College of Marin, students may request a waiver of AUTO 110 by providing verification, on a Student Petition, of completion of one year of Auto Shop with a B or better grade in a course meeting ATTS standards in the Marin County High School Regional Occupations Program (ROP). Upon completion of two years of Auto Shop with a B or better grade in a course meeting ATTS standards, a student can receive a waiver of AUTO 111 by providing verification on a student petition (includes San Rafael High School, Terra Linda High School, Tamalpais High School, San Marin High School, and Novato High School).

EARLY CHILDHOOD EDUCATION
After successful completion of 12 units at College of Marin, students with a grade of B or higher in Marin County Office of Education, Regional Occupations Program (R.O.P.) Early Childhood Occupation Program, may either petition for credit or a waiver of ECE 100. Units credited appear in the memorandum section of the transcripts and are counted towards the 60 units graduation requirement. Transfer credits vary. See a counselor for additional information.

BUSINESS AND INFORMATION SYSTEMS
The following criteria must be met in order for a student to receive advanced placement (a waiver of BOS 114, 115, 116, 118, 120, 140 or MMST 111) in the Business and Information Systems Department or the student may petition for Credit by Examination. The student shall complete articulated high school courses in the Computer Information Systems Program at San Rafael, Novato, or Tamalpais District high schools with a grade of B or better. Credit by Examination requires that the student must first successfully complete 12 units at College of Marin.

REGISTERED NURSING
Thirty units of credit may be granted to students who have attended unaccredited diploma schools and graduated. The students must have a current California nursing license. These students must have completed 12 units in residence and secure the approval of the Director of Health Sciences.

MARIN COUNTY HIGH SCHOOL ARTICULATION
High school students may petition to receive Credit by Examination, if they have successfully completed the following classes with a grade of “B” or better, for a College of Marin approved equivalent class taught at their high school.

- San Marin High School: AUTO 110, 3 units; AUTO 111, 3 units; ECE 114, 3 units; ECE 115, 3 units
- Novato High School: MMST 111, 3 units; MMST 142, 3 units; MMST 150, 3 units; MMST 160, 3 units
- Tamalpais High School: AUTO 110, 3 units; AUTO 111, 3 units
- Terra Linda High School: AUTO 110, 3 units; AUTO 111, 3 units
- Tomales High School: AUTO 110, 3 units; MACH 130, 2 units; MACH 131, 2 units

MILITARY CREDIT
Students who have completed at least one year of active military service may submit a Student Petition and copy of their DD214 showing an honorable discharge to the Office of Admissions to receive five units of PE. These units will appear in the memoranda section of the official transcript. Students must have completed 12 units at College of Marin to be eligible.

MILITARY UNITS
Military units may not be used toward a degree or certificate unless the courses are fully accredited by the University of Maryland or another fully accredited college or university (as listed in the ACCRAO Guide).
CREDIT BY EXAMINATION

Credit by Examination is optional for the faculty member and for the department. Students must contact each department or individual faculty member for specific requirements and departmental policies.

There is a 12-unit limit per department on the total number of units earned by examination, subject to the conditions outlined below.

1. A student must submit a Petition for Credit by Examination, with the instructor's approval, to the Office of Enrollment Services.
2. Re-examination for credit in a given course will not be allowed.
3. The student may be graded on a Pass/No Pass or letter-graded basis. The grade earned shall be binding and become a permanent part of the student’s academic record and will appear with a “Credit by Examination” annotation indicating the grade has been earned through Credit by Examination.
4. If the student fails the Credit by Examination course, the student may reenroll in the course by Census Date, with the consent of the instructor. The failed grade will appear on the transcript.
5. The course being challenged must be offered in the semester in which the examination is being taken.
6. Students eligible for Credit by Examination must have already completed 12 units at College of Marin, and be in good academic standing at College of Marin.
7. Courses completed through Credit by Examination shall not be used toward the 12-unit residency requirement for the Associate Degree or Certificate.
8. Credit by Examination counts as an enrollment for repeatability purposes.
9. Courses successfully completed through Credit by Examination can be used for course lineup and in determining academic renewal eligibility.

The student’s grade shall be reported by the instructor on the final scanner report at the end of the term. Students may not apply these courses toward part- or full-time status to receive financial aid, veterans' benefits, or other student verifications.

ACADEMIC RECORDS

State and federal legislation permits students to have access to their academic and educational records. The College’s policies and procedures pertaining to student records are contained in BP 5040, AP 5040, and AP 5045, copies of which are available at http://www.marin.edu/com/ODP/BoardPolicies.htm.

TRANSCRIPTS

Official Transcripts
Official transcripts can be ordered online through the MyCOM portal or at www.marin.edu. Students may request two free regular service transcripts (3 business days). After the first two, the fee is $6 per regular service copy. Rush service (next business day) is available for $15 per copy.

Unofficial Transcripts
Students with active MyCOM portal accounts may print their own unofficial transcripts or submit a request for Unofficial Transcript form to the Office of Enrollment Services.

Transcripts From Other Colleges
In order to apply units completed at another institution toward a College of Marin degree, official transcripts must arrive in the original sealed envelope from the issuing institution and have an embossed or water seal. Official transcripts should be sent via U.S. Mail or hand carried to: Counseling Department, College of Marin, 835 College Ave, Kentfield, CA 94904. Transcripts from other colleges received by the College of Marin will not be copied or released to the student.

Students may only transfer degree applicable units from fully accredited colleges or universities as listed in the AACRAO Transfer Credit Practices of Selected Educational Institutions. Upper division units may not be used toward an Associate degree. Students may, however, petition for a waiver of requirements with relevant upper division work. The student must still have 60 lower division units.

Forged/Altered College of Marin Transcripts
“Furnishing false information, forgery, falsification, alteration or misuse of college documents, records, or identification” is a violation of college policy. When it comes to the attention of college personnel that a forged or altered College of Marin transcript has been submitted to a third party, a hold will be immediately placed on that academic record, if an actual record exists. An attempt will be made to contact, by phone or mail, the individual whose name appears on the forged or altered transcript requiring that individual to meet with the Dean of Enrollment Services/designee within 10 days. If the Dean of Enrollment Services/designee determines, after investigation, that the individual whose name appears on the forged or altered transcript is responsible for preparing/submitting same, the individual will be barred from attending any future credit classes at College of Marin. An appeal of the decision to permanently bar the student from attending any future credit classes may be made in writing to the Academic Standards Committee within ten days of the decision of the Dean of Enrollment Services/designee. In the event there is no appeal of the appeal and the Academic Standards Committee upholds the determination of the Dean of Enrollment Services/designee, the Academic Standards Committee will then recommend a permanent bar from attending credit classes at the College of Marin to the Board of Trustees. The individual will be notified at the last known address, if available, of the decision to bar attendance.

Further, an annotation will be placed on the student's actual academic record, if any, stating, “Not to be Released to Student.” In addition, when the individual has actually taken classes at College of Marin, future release of a transcript will be at the sole discretion of the Dean of Enrollment Services/
designee. No transcripts will be released directly to the student. The college reserves the right to take all appropriate legal action.

**Forged Signatures**
Students who are determined to have filed an official form with a forged faculty member’s signature will be subject to disciplinary action including but not limited to at least one full regular semester of nonattendance. The college reserves the right to also take appropriate legal action.

**TYPES OF RECORDS AND LOCATIONS**
The Office of Enrollment Services will maintain documents completed by the student, such as applications, petitions, and Advanced Placement and CLEP scores, for the period of time required by law. These records, as well as a permanent record of all academic work completed at the college, are maintained by the Dean of Enrollment Services. Students may request two free transcripts of their College of Marin permanent academic record. See Official Transcripts heading on this page for details.

Copies of transcripts from other colleges are kept in the Counseling Office. Copies must be requested from the issuing institution and cannot be released from College of Marin.

**Student Privacy Rights Related to Academic Records**
The privacy of student records and exceptions under which the college may authorize access to student records are set forth in AP 5040 (http://www.marin.edu/WORD-PPT/AP5040StudentRecordsandDirectoryInformation_Revised1-15-13.pdf). Additional information regarding student rights in regard to student records is available from the U.S. Department of Education, Family Policy Compliance office at: http://www2.ed.gov/policy/gen/guid/fpco/index.html. A student may file a written complaint with the Family Policy Compliance Office regarding an alleged violation under the Federal Educational Rights and Privacy Act (“FERPA”). The complaint must be timely (submitted to the office within 180 days of the date that the complainant knew or reasonably knew of the violation) and state clearly and succinctly specific allegations of fact giving reasonable cause to believe that the school has violated FERPA.

**Review, Inspection, and Challenge of Records**
Any currently enrolled or former student has the right of access to all of the student’s College of Marin academic records. Students wishing to inspect their records may obtain forms from staff in the Office of Enrollment Services; access shall be granted no later than 45 days following receipt of the written request to the Dean of Enrollment Services at College of Marin, 835 College Ave., Kentfield, CA 94904. The Dean of Enrollment Services will make arrangements for access and notify the student of the time and place where records may be inspected. Qualified personnel will assist the students in interpreting their records, if necessary. If the records are not maintained by the Dean of Enrollment Services, the student will be advised of the correct office to which the student’s request should be addressed.

The Dean of Enrollment Services will provide forms for any student who wishes to challenge the content of the student’s records, excluding grades, if the student believes the information to be (1) inaccurate, (2) misleading, (3) an unverifiable personal conclusion or inference outside of the observer’s area of competence, or (4) not based on the personal observation of a named person with the time and place of the observation noted. The student should clearly identify the part of the record the student wants changed and specify why it is inaccurate or misleading. If the student is not satisfied with the results of the challenge procedure, a written request for a formal hearing may be filed with the College Superintendent/President, or designee.

Within 30 days of receipt of such a request, the College Superintendent/President, or designee, shall meet with the student and employee who recorded the information in question, if any, and if such employee is presently employed by the college. The Superintendent/President, or designee, shall then sustain or deny the allegations in writing. If the President, or designee, denies any or all of the allegations and refuses to order the correction or removal of the information, the student will be notified that the student may, within 30 days of the refusal, appeal the decision in writing to the College of Marin Board of Trustees. Within 30 days of receipt of such an appeal, the College of Marin Board of Trustees shall, in closed session with the student and the employee (if presently employed by the college), determine whether to sustain or deny the allegations. If the Board of Trustees sustains the allegations, it shall order the President, or designee, to immediately correct or remove and destroy the information. Additional information regarding the hearing procedure will be provided to the student when notified of the right for hearing.

**Directory Information**
Directory information includes: the student’s name, address, telephone number, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, most recent previous public or private school attended. Currently enrolled students may request that directory information be permanently kept confidential by filing a Request to Withhold Directory Information with the Office of Enrollment Services.

**Access to Student Records**
Access will be permitted to student records pursuant to the written request of the student or in accordance with a legal subpoena or a judicial order. Others entitled to access without notification of the student include:

1. Officials and employees of College of Marin may inspect records if they have a legitimate educational interest. A school official is a person employed by the college in an administrative, supervisory, academic, research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the college has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting other school officials in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an educational record in order to fulfill his or her professional responsibility. All requests for such access must be approved by the Dean of Enrollment Services.

2. Authorized representatives of the Controller General of the United States, the Department of Health, Education and Welfare, or the United States Office of Civil Rights; the administrative head of an education agency; and state education officials or their respective designees may
have access to information necessary to audit or evaluate a state or federally supported education program, or pursuant to a federal or state law. When personally identifiable information is collected, it shall be protected in a manner that will not permit the personal identification of students or their parents by other than those authorized officials. Such personally identifiable data shall be destroyed when no longer needed for such audit, evaluation, and enforcement of federal legal requirements.

3. In response to an exparte order College of Marin will release to the Attorney General (or his/her designee) the educational records requested that are relevant to an authorized investigation or prosecution of an offense as listed in Section 23326 (g) (5) (B) of Title 18 United States Code or an act of domestic or international terrorism as defined in Section 2331 of that title.

4. Other state and local officials or authorities may inspect records in accordance with requirements of state law adopted prior to November 19, 1974.

College of Marin may release information without student consent to the following:

1. Officials of other public or private schools or school systems with legitimate educational interests, including local county or state correctional facilities where educational programs are conducted and/or where the student seeks or intends to enroll or is directed to enroll, subject to the rights of students as provided in Section 54610 of Title 5 regulations on Student Records (Chapter 6, Division 5).

2. Agencies or organizations at which a student has applied for or received financial aid, provided that personally identifiable information is released only as necessary to determine the student’s eligibility for aid, to decide on any conditions to be imposed, or to enforce those terms or conditions.

3. Accrediting organizations carrying out their functions.

4. Organizations conducting studies for educational agencies or institutions for the purpose of developing, validating or administering predictive tests and/or student aid programs, and improving instruction, provided that such studies are conducted in a manner that will not permit the personal identification of students or their parents by anyone except representatives of the organization and that any personally identifiable information be destroyed when no longer needed for the study.

5. Appropriate persons in connection with an emergency, if such information is deemed necessary to protect the health or safety of the student or other person, or subject to such regulations as may be issued by the Secretary of Health, Education and Welfare. No one given access to student records in such an emergency may share information obtained with anyone (except other persons involved and having a legitimate interest in the information) without written consent of the student.

6. All alleged victims of sexual assault on District property shall be kept informed, through the Title IX Coordinator (Executive Director of Human Resources) or the District Police of the status of any student or employee disciplinary proceedings or appeal; alleged victims of sexual assault are required to maintain any such information in confidence, unless the alleged assailant has waived rights to confidentiality. (See AP 3435 and AP 3540.)

7. The Internal Revenue Service in accordance with provisions of federal law.

Record of Access
A log is maintained in the Office of Enrollment Services, as specified in Section 76222, California Education Code, for each student’s record which lists authorized persons, agencies or organizations requesting or receiving information from a student’s record without a judicial order, or a legal subpoena, or the student’s consent.
**Some services are offered at both campuses. Please refer to class schedule for specific locations and office hours.**

---

**CAMPUS SERVICES**

**BOOKSTORE**
The Kentfield Campus Bookstore is located on the ground floor of the Learning Resources Center. The Indian Valley Campus Bookstore is located in Building 17, Room 104, and is open the first week of each semester. The bookstore sells all required texts and supplies that instructors order for their classes. In addition, the KTD bookstore also stocks gift items, imprinted shirts, and art supplies.

The College of Marin Bookstore offers several options for students buying textbooks, including a full-range of new textbooks, a large selection of used textbooks, a number of textbook rentals, and a variety of eTEXTBOOKS. Students can save 25 percent by purchasing quality used books, 50 percent by renting textbooks, and up to 60 percent by purchasing quality used books, 50 percent of the price for which the text was purchased provided the store needs the text. The buy-back days and hours will be posted.

**Kentfield Campus**
Learning Resources Center, first floor
415-485-9394

**Indian Valley Campus**
Building 17, Room 104
(open only during the first week of each semester)
415-457-8811 ext. 7394

---

**Refund Policy**

1. Please read refund policy (including refund dates) in store for the most current information.

2. Refunds are given only for textbooks purchased for classes of the current semester.

3. A CASH REGISTER RECEIPT IS ABSOLUTELY REQUIRED FOR TEXTBOOK REFUNDS.

4. To be refunded, new texts must be in brand new condition. If damaged or a name is written in the text, only a percentage of the retail value will be refunded.

5. Refunds for supplies given only if defective at time of purchase.

**Buy-back Policy**
At the end of each semester, students may sell their texts back to the bookstore for up to 50 percent of the price for which the text was purchased provided the store needs the text. The buy-back days and hours will be posted.

**COMPUTER CENTERS**

**SMN Center Computer Labs**
The Science/Math/Nursing Center Computer Labs provide students with easy, open access to computers. Although there are regularly scheduled classes in the labs, there are plenty of opportunities during the week for individual work. In addition to software for science, math, and engineering classes, the computers are networked to the Internet and have typical word processing, spreadsheet, database, and presentation software.

The center consists of two labs with a total of 46 computers; both labs have an instructor station connected to a projector, and one lab includes 11 computers connected to diagnostic physiology equipment.

The labs are open during the week to all students at College of Marin, with extended hours at the end of the fall and spring semesters.

**Kentfield Campus**
SMN Center, Rooms 130 and 132
415-457-8811 ext. 7739
marin.edu/student_services/Labs

**Business and Information Systems Labs**
The Business and Information Systems Labs provide Windows-based personal computers on both campuses. The workstations have access to laser printing, scanning, and a variety of application software in support of classes offered. Students enrolled in Computer Information Systems, Business Office Systems, and Business programs have access to the lab facilities, which are open daily and most evenings.

The Indian Valley Campus (IVC) labs provide PCs and a small number of Macintosh personal computers, and are available to any student enrolled in any program at either campus, with particular emphasis on specific software utilized by the Court Reporting, Medical Assisting, and Multimedia programs. The IVC Lab is open 8:00am–7:30pm Monday through Thursday, and 8:00am–5:00pm Friday.

415-485-9603

**Indian Valley Campus**
Building 17, Room 100
415-883-2211 ext. 8231 or 8234

**Multimedia Studies Audio/Video Lab Suites**
In addition, there are two individual Lab Suites for independent and advanced student work. Each Lab Suite contains both a high-end Macintosh workstation, and an advanced Windows-based workstation. Access to these labs must be pre-arranged with a Multimedia Studies Instructor.

**Indian Valley Campus**
Building 27, Room 129, Audio Lab Suite
Building 27, Room 129, Video Lab Suite

**FOOD SERVICE**

Fresh and Natural offers a variety of food selections throughout the year on the Kentfield Campus. Daily selections include freshly made sandwiches, salads, soups, and hot entrees. Coffee and tea are available in the Career Study Center at the Indian Valley Campus, Building 17. Vending machines are available on both campuses.

and Building 3, First Floor Lobby

**LIBRARIES**

College of Marin has libraries at the Kentfield and Indian Valley campuses. Our friendly staff can help you borrow a textbook, get a library card, or check out a book. The faculty librarians provide information literacy instruction both one-on-one and in a classroom setting; we are here to ensure your research assignments are a success.

Looking for a comfortable place to read, write, study, or just relax? The libraries provide computers, wireless access, printers, photocopiers, scanners, and plenty of study space for individuals and groups.

Getting a library card takes just a few minutes and allows you to check out some of our 100,000 items. Our many electronic
resources are available anywhere, anytime on the MyCOM Portal’s Library tab.

Students can request books, DVDs, and more from Dominican University or any public library in Marin and have them delivered to College of Marin. All members of the public may use their MARINet library card to check out items.

Need help online? Please e-mail us at askalibrarian@marin.edu or visit our website at marin.edu/lrc.

**TRANSPORTATION AND PARKING**

**Transportation**
Golden Gate Transit provides bus service from all areas of Marin County to the college. Bus schedules are available in the Student Services areas on both campuses.

**Parking**
Vehicles on campus are subject to parking and traffic regulations by the Board of Trustees, Marin Community College District. All cars must have a parking sticker, or display a daily parking permit which may be purchased from the parking ticket dispensers located in parking lots.

**Motorcycle and handicap parking are available with no fee.**
Parking permits are required at all times, including evenings (except Sundays and school holidays). Be sure to read the signs at the entrances to parking lots. The signs explain what type of permit is allowed in the lot (staff or student), and include any additional parking regulations. For student parking lot locations, see the campus maps.

Daily permits and term permits are valid at either campus. All California Vehicle Codes can be enforced in campus parking lots. Obey all signs and markings. All vehicles improperly parked will be towed.

**Daily Parking Permits**
A daily parking permit may be purchased from dispensers located in several student parking lots. In the event of a dispenser malfunction, a daily permit must be purchased from a different machine. Please report all malfunctions to the campus police at 415-485-9696. The cost for a daily permit is $4 (subject to change) and must be visible on the driver side of the vehicle dashboard.

**Term Parking Permits**
A term permit is more convenient and will save you money compared to a daily permit. A term permit is $50 or $25 for summer session (subject to change) and is available to enrolled students.

**Financial Aid Students Parking**
Students receiving Financial Aid are permitted to purchase parking permits at half price. Online orders are automatically adjusted to half price for eligible students.

**Note:** Lost or Stolen Permits will not be replaced.

**WRITING CENTER**
The Writing Center is open to all students for support and tutoring in writing projects and functions as the English Writing Lab for students enrolled in English Composition and Literature courses. The English Writing Lab supports students by offering one-on-one tutoring on their course assignments and projects.

The Writing Center provides students with tutoring to improve reading and writing skills and also provides access to computers and to the Internet for research and writing in all disciplines. Students have access to word processing, Web browsing, printing, scanning, and, most importantly, tutoring by COM instructors. Tutoring is offered either face-to-face or online via an online Writing Center Web site. All students working on reading and writing projects in any discipline are welcome. Students enrolled in English courses have priority.

**CALWORKS**
College of Marin, in partnership with the County of Marin, provides education and support services to students who are participants in the CalWORKs program. To participate, students must be referred by the Marin County CalWORKs office. Services may include educational programs, internship opportunities, books, and parking vouchers. The CalWORKs program is intended to support student success and entry into the workforce. Academic and employment counseling is available on both campuses.

CHILD DEVELOPMENT PROGRAM

The Child Development Program provides early education for the infants, toddlers, and preschool age children of College of Marin students, with priority going to low income student families. Centers are located on both campuses and provide care during fall and spring semesters.

The preschool centers serve as demonstration classrooms that provide child observation, research and practicum opportunities, student teacher training, and Work Study jobs for College of Marin students who are taking courses in Early Childhood Education, Pediatric Nursing, Child Psychology/Human Development, Behavioral Science and related fields.

Kentfield Child Study Center
1144 Magnolia Avenue, Larkspur
415-485-9468

Indian Valley Children’s Center
Building 12; 415-457-8811, ext. 8170

Please see the Child Development Program website for more information and to download a Preliminary Application for the Preschool Centers: marin.edu/student_services/child_care.htm. For more information, please call the Child Development Program Office at (415) 883-2211, ext. 8221.

Infant Toddler Center

The Early Head Start Center on the Indian Valley Campus provides infant/toddler care to student families with children ages birth to three years. There is no cost to eligible families.

To apply, please call Marin Head Start at 415-883-3791 or visit marin.edu/student_services/child_care.htm to download an application. Please be sure to indicate on the application that you are applying for the IVC Early Head Start Center.

Early Head Start Infant Toddler Center: Bldg. 12; 415-457-8811, ext. 8171

COUNSELING SERVICES

Counseling Services are available to all students; however, special programs such as EOPS and DSPS will serve only those officially identified by those programs.

Counselors work with students to help them set goals and design plans for achieving those goals. Students should come for counseling when they need help with any kind of problem that might effect their academic performance. Services and resources are located in the Counseling Services area at both campuses and include the following:

- Information on transfer, A.A. degree and certificate programs;
- Transfer workshops;
- Career planning and college success courses;
- Personal counseling; and
- Counseling for international students (F-1 Visa), veterans, athletes, and ESL students.

Because course selection is so important and four-year university requirements change so frequently, students should consult with a counselor each semester before registering for classes.

For appointments on either campus call 415-485-9432, or visit Kentfield Campus Counseling Office, Student Services Building, Room 212.

Indian Valley Campus Office
Building 27, Rooms 105 and 106
marin.edu/student_services/counseling/

EOPS/CARE

Extended Opportunity Programs and Services (EOPS)/Cooperative Agencies Resources for Education (CARE) offers assistance to students who meet the EOPS state guidelines for eligibility. Support services may include counseling, tutoring, book grants, and peer advisement.

CARE is an additional support program for EOPS eligible students who are also CalWORKs parents. For students who qualify, CARE grants may be available for books, transportation, and childcare.

HEALTH CENTER

The Health Center is available to all currently registered students. It provides first aid, health education, care and treatment for short-term medical concerns, OTC and some prescription medications, immunizations, TB testing, voluntary insurance plans, physical exams for College of Marin programs and college entrance, flu shots, physician appointments, and more. Personal counseling is available through the Counseling Department by calling (415) 485-9432 for an appointment.

Each properly registered student has coverage under the Marin Community College District’s student accident insurance policy for accidents occurring on either campus, at any site where College of Marin courses are offered, or at other College of Marin-sponsored and supervised activities. Students participating in athletic competition are insured under this accident insurance policy.

Note: The student accident insurance policy is supplementary to the student’s own personal medical insurance and does not guarantee full coverage.

Students should be aware that if they sustain an injury while in class or participating in a school-sponsored activity, they must report it immediately to their instructor or supervising authority. Students must also contact the Health Center within ten days of the injury in order to be properly covered for reimbursable expenses in accordance with policy coverage.

OUTREACH AND SCHOOL RELATIONS

The Office of Outreach and School Relations develops and nurtures relationships with public high schools in and outside of Marin County; establishes contacts with community based organizations serving prospective College of Marin students; networks with elementary and middle schools in Marin County to develop a pipeline of information and support for prospective students and their parents; sustains the Student Ambassador program as a primary recruitment tool for the college; develops and produces events that highlight college programs and opportunities for potential students, including families and schools; serves as a community public relations agent for the college; facilitates recruitment and retention programs for minority students; and provides educational presentations to the community on issues of higher education access, financial aid/scholarships, advocacy, immigration, cultural sensitivity, college life, careers, and more.

PUENTE PROJECT
College of Marin has been certified to implement the Puente Project, a highly acclaimed English and mentoring program that supports underserved students transferring to four-year universities. The one-year program is a learning community offering instruction in English 120 in the fall along with a counseling course, and English 150 in the spring; students are also paired with a mentor, often from the business/professional community in a field of interest to the student. The mission of the Puente Project is to increase the number of educationally underrepresented students who enroll in four-year colleges and universities, earn degrees, and return to their respective communities as leaders and mentors to future generations. For more information, call 415-485-9432.

STUDENT ACCESSIBILITY SERVICES (SAS)
This program provides equal access to education for students with a wide range of permanent and temporary disabilities including learning, chronic health conditions, psychological disabilities, acquired brain injuries as well as mobility, vision and hearing impairments. To request and receive services, students must meet with an SAS counselor and provide verified documentation of disability. Services may include testing accommodations, note takers, assistive technology, interpreters as well as learning disability testing and academic counseling.

Contact the SAS office for information on the Adapted Physical Education Program and services at Indian Valley Campus.

TRANSFER, CAREER AND JOB PLACEMENT CENTER
The Transfer and Career Center provides transfer, career exploration, and employment services and resources to students. The center houses an extensive library of online and print resources with information on universities and colleges, scholarships, majors, careers, labor markets, employment trends, résumés, cover letters, and more. Workshops are offered to help students in planning their transfer path, choosing a major and/or career, and preparing for employment.

Annual College and Job Fairs introduce students to the numerous transfer and career opportunities available. There is an online job board listing employment opportunities in the local area including full-time, part-time, temporary, and volunteer positions. Other activities and resources provided by the center include an internship program, university campus tours, representative visits, employer of the day events, and interactive online programs and tutorials. Drop-ins are welcome and appointments are available.

TUTORING AND LEARNING CENTER
The Tutoring and Learning Center (TLC) offers FREE drop-in peer tutoring for currently enrolled College of Marin students in a wide range of academic subjects. All tutoring sessions are small groups and schedules for individual subjects are posted at both campuses and online.

All tutors are faculty recommended and have completed a course in tutor training. Tutoring helps students improve understanding of course material, earn higher grades, improve study skills and study habits, and get to know fellow students in a dynamic learning environment.

UMOJA PROGRAM
The College of Marin Umoja program is part of a statewide community of educators and learners committed to the academic success, personal growth, and self-actualization of African American and other students.

The Umoja program provides a variety of support services to support student retention, graduation, transfer to four-year institutions, and overall academic success. These include first-year classes which students take together as a learning cohort (English 92 in the fall with Counseling 110, and English 120AC in the spring with Counseling 116 and Ethnic Studies 112), academic counseling, student mentoring, financial support (including course materials and potential scholarships), special seminars, cultural workshops, and field trips. The program is open to all College of Marin students. If students have already taken the coursework, they are still eligible for other services and participation. For more information contact umojaprogram@marin.edu.

VETERAN AND MILITARY STUDENT RESOURCE CENTER
The COM Veteran and Military Student Resource Center supports students who are veterans, active duty and reservist members of the military and their families. The Center assists student veterans as they transfer from military to student life by creating a space on campus where all veterans can go to develop a sense of unity, pride, and community. COM also has an active student Veterans Association that is open to all. Students can come to the Center during regular hours and visit, use the lounge space, study, and enjoy free coffee while waiting in between classes or just to hang out. The center is relocating to a bigger space in fall 2015 in Student Services 202. Stop by to meet our staff and visit with other veterans.
STUDENT LIFE

CLUBS
Under the sponsorship of the Associated Students (ASCOM and ESCOM), and with oversight and guidance by the Director of Student Activities and Advocacy, students may participate in special interests by joining or forming student clubs on campus. Student clubs are an important part of campus activities.

Eligibility to become an officer of a student club requires that the student be in good academic standing, meet the requirements outlined in the respective Associated Students’ constitution, by-laws, and any other requirements set by individual student clubs. Each student club is required to have a faculty advisor and to meet operating standards set by the District Business Office in the collection and distribution of club funds.

Kentfield Campus
Student Services Building, Room 241
415-485-9469

ECHo TIMES, STUDENT NEWSPAPER
The College of Marin student newspaper is the product of the journalism classes. It is published regularly throughout the academic year and offers opportunities to develop skills in writing and editing, as well as desktop publishing, advertising, graphics, photography, and newspaper production.

Kentfield Campus
Learning Resources Center, Room 32
415-485-9690

INTERCOLLEGIATE ATHLETICS
Eligibility for Intercollegiate Athletic Competition is governed by the State Commission on Athletics. A student must be continuously and actively enrolled in a minimum of 12 credit units at his or her community college during the season of sport play. Of the 12 credit units, at least nine will be in courses counting toward the associate degree, remediation, transfer, and/or certification as defined by the college catalog.

A student who has previously participated at another college or university should check with the director of athletics to clarify eligibility to further participate at College of Marin.

See College Health Center regarding athletic injuries.

Performing Arts
The Performing Arts Department (Music, Drama, and Dance) presents many fine concerts, plays, and dance performances every year for the college community and the public. COM students are encouraged to attend. Many events are free, but for those with an admission charge, students are offered discounted ticket rates. E-mail COMmusic@marin.edu to receive announcements of music department events, or contact the office at (415) 485-9460. For information about drama and dance events, call (415) 485-9555.

Even if you are not majoring in the performing arts, participating in an artistic production is a fun way to express yourself, and to meet new friends. If you have a talent in music, dance, or drama, are interested in small paid jobs in concert or stage management or audio/video recording, or would like to volunteer to usher for one of our productions, please call one of the above numbers for additional information.

STUDENT ACTIVITIES AND ADVOCACY
Beyond the classroom, the college encourages students to initiate and join in activities and programs that develop leadership ability, interpersonal skills and community involvement.

Through involvement with the Associated Students or college clubs and organizations, students may participate in a “hands-on” curriculum designed for personal and professional development. Students may learn how to run effective meetings, work successfully with others to achieve common goals or resolve differences, manage their time and commitments, assume or delegate responsibility, turn conflict into cooperation, and gain self-confidence. Learning how to build, develop and manage budgets, participating in special projects, and volunteering are often highlights of the college learning experience. This experience is fun and helps prepare students for better success in career planning and skill building.

Students who wish to take advantage of this unique aspect of the college should contact the Associated Students or Student Activities and Advocacy offices.

For further information about activities and organizations, students should consult the semester credit class schedule.

STANDARDS OF STUDENT CONDUCT
All members of the college community are subject to state and federal laws, as well as policies and procedures established by the Board of Trustees.

An important policy that all students should be aware of is the Student Conduct Policy. BP 5500, Standards of Student Conduct, can be found at http://www.marin.edu/WORD-PPT/BP5500StandardsofConduct_Revised6-18-13.pdf, and is briefly described below. Questions regarding BP 5500 should be referred to the Director of Student Activities and Advocacy. A hard copy is available at the Director of Student Activities & Advocacy Office, Student Services Building, Room 250.

STUDENT CONDUCT
Upon enrolling in the College, students assume an obligation to conduct themselves in a manner compatible with the educational purposes of the College.

The following conduct will not be tolerated and shall constitute good cause for discipline, including, but not limited to, removal, suspension or expulsion of a student.

- Assault, battery, or attempted assault or battery, or any threat of force or violence upon a student or District personnel.
- Possession, sale or otherwise furnishing any firearm, dirk, dagger, ice pick, knife, explosive or other dangerous object, including but not limited to any facsimile of the foregoing objects, unless, in the
case of possession of any object of this type, the student has obtained written permission to possess the item from the Chief of Police who has the concurrence of the Superintendent/President. Also see BP/AP 3530 titled Weapons on Campus.

- Unlawful possession, use, sale, offering to sell, or furnishing, or being under the influence of, any controlled substance listed in Chapter 2 (commencing with Section 11053) of Division 10 of the Health and Safety Code, an alcoholic beverage, or an intoxicant of any kind; or any poison defined in Business and Professions Code Section 4240, or unlawful possession of, or offering, arranging or negotiating the sale of any drug paraphernalia, as defined in Health and Safety Code Section 11014.5.

- Committing, or attempting, or being an accomplice to robbery or extortion.

- Causing or attempting to cause damage to district property or to private property on campus.

- Stealing or attempting to steal District property or private property on campus, or knowingly receiving stolen District property, or knowingly receiving stolen private property on campus.

- Willful or persistent smoking in any area where smoking has been prohibited by law or regulation of the District.

- Committing sexual harassment as defined by law or by District policies and procedures.

- Engaging in harassing or discriminatory behavior based on ethnic group identification, national origin, religion, age, sex or gender, race, color, medical condition, ancestry, sexual orientation, marital status, physical or mental disability, genetic information, or on the basis of one or more of these perceived characteristics, or based on association with a person or group with one or more of these actual or perceived characteristics.

- Engaging in intimidating conduct or bullying against another student or District personnel through words or actions including direct physical contact, verbal assaults such as teasing or name-calling, social isolation or manipulation, or cyberbullying.

- Willful misconduct which results or has the potential to result in injury or death to a student or to District personnel or which results in cutting, defacing, or other damage to any real or personal property owned by the District or on campus. The District may require students who cause damage to replace property or pay the cost of damages.

- Continued disruptive behavior, continued willful disobedience, habitual profanity or vulgarity, or the open and persistent defiance of the authority of, or persistent interruption or abuse of District personnel.

- Dishonesty; forgery; alteration or misuse of District documents, records or identification; or knowingly furnishing false information to the District.

- Unauthorized possession, duplication, or use of keys to any District premises or unauthorized entry upon or use of District facilities.

- Engaging in expression which is libelous or slanderous; or which so incites others as to create a clear and present danger of the commission of unlawful acts on District premises or at District-sponsored or supervised functions, or the violation of lawful District administrative procedures, or the substantial disruption of the orderly operation of the District.

- Persistent, serious misconduct where other means of correction have failed to bring about proper conduct.

- Unauthorized preparation, giving, selling, transferring, distributing, or publishing for any commercial purpose, of any contemporaneous recording of an academic presentation in a classroom or equivalent site of instruction, including but not limited to handwritten or type-written class notes, except as permitted by any District Policy or Administrative Procedure.

- The use by a student of any electronic listening or recording device in any classroom without the prior consent of the instructor.

- Violation of BP/AP 3720 titled Information Technology Use or any conduct that constitutes a computer-related crime pursuant to Penal Code Section 502.

- The offering of any inducement or item of value to influence the awarding of any grade or to alter any official District record.

- Solicitation or acceptance of money or other item of value as an inducement, encouragement, or reward for intercollegiate participation in violation of Education Code Section 67361 or false declarations regarding eligibility for participation in intercollegiate athletics under Education Code Section 67362.

- Accessing and/or disclosing confidential District information, including student records, without authorization.

- Failure to obey federal, state, and local laws in connection with District attendance or activity.

- Tampering with the election of any student organization recognized by the District.

- Hazing, which is defined as a “method of initiation or pre-initiation into a pupil organization or body, whether or not the organization or body is officially recognized by the College, which is likely to cause serious bodily injury or personal degradation or disgrace resulting in physical or mental harm to a former, current, or prospective pupil.”

- Abuse of the Student Conduct System, including but not limited to:
  1. Failure to obey the summons of the Student Conduct Hearing Committee or District official.
  2. Falsification, distortion, or misrepresentation of information.
  3. Disruption or interference with the orderly conduct of a judicial proceeding or Student Conduct Hearing Committee.
  4. Attempting to discourage an individual’s proper participation in, or use of, the District judicial system.
  5. Attempting to influence the impartiality of a member of a judicial body prior to, and/or during the course of, the judicial proceeding or Student Conduct Hearing Committee.
  6. Failure to comply with the sanctions imposed under the Standards of Conduct and/or Education Code.

**SMOKING IN DISTRICT FACILITIES**

The Board of Trustees of College of Marin recognizes that smoking presents a health and safety hazard that can have serious consequences. Furthermore, a strong link between environmental tobacco smoke or “secondhand smoke” and health risks has also been demonstrated. Therefore, the Board and the California Education Code prohibits smoking by staff, students, and visitors at all times on District property, except in designated smoking areas. Viola-
tion of this policy could lead to disciplinary action under usual disciplinary procedures.

**DRUG-FREE AND ALCOHOL-FREE CAMPUS**

It is the policy of the District to maintain a drug-free and an alcohol-free awareness program. The program has and will continue to include the distribution of information on the dangers of drug and alcohol abuse, and referral resources for counseling and rehabilitation dealing with drug abuse problems.

The unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited on any of the College of Marin campuses. The term “controlled substance” is defined in the Health and Safety Code 11007.

Students who violate these prohibitions will be subject to disciplinary action up to suspension from college, in addition to criminal prosecution.

**STUDENT CONDUCT REGARDING ACADEMIC HONESTY**

The following conduct is considered academic dishonesty, will not be tolerated, and shall constitute good cause for discipline, including, but not limited to, removal, suspension or expulsion of a student. Cheating, plagiarism (including plagiarism in a student publication), or knowingly engaging in other forms of academic dishonesty, including, but not limited to:

- Copying, in part or whole, from someone else’s quiz, examination, or work. For purpose of this item, “examination” includes quizzes, tests, and other graded or evaluated exercise.
- Submitting work presented previously in another course, if contrary to the rules of either course.
- Altering or interfering with grading.
- Using or consulting any sources or materials, including electronic devices, not authorized by the professor during an examination.
- Committing other acts which defraud or misrepresent one’s own academic work.
- Incorporating sentences, paragraphs, or parts of another person’s writing, without giving appropriate credit, and representing the product as one’s own work.
- Representing another’s artistic/scholarly works (such as musical compositions, computer programs, photographs, paintings, drawings, or sculptures) as one’s own.
- Submitting an academic assignment purchased from a research/term paper service, or written by another individual; or work obtained electronically (e.g. via the internet) and representing it as own work.
- Purposefully allowing another student to copy from your paper during an examination.
- Giving your homework, term paper, or other academic work to another student to plagiarize.
- Having another person fraudulently submit any work in your name.
- Lying to an instructor or District official to improve your grade.
- Allowing other persons to misrepresent themselves as the student for any purpose, including interacting with any District employees, submission of work, attendance, or taking examinations.
- Misrepresenting circumstances in an effort to improve a grade.
- Altering graded work after it has been returned and then submitting the work for re-grading without the instructor’s permission.
- Removing tests or examinations from the classroom or other area without the approval of the instructor.
- Stealing or being an accomplice to stealing tests or examinations.
- Forging signatures on drop/add slips or altering other District documents.

**STUDENT DISCIPLINE PROCEDURES**

The District’s procedures for addressing alleged violations of the Standards of Student Conduct are set forth in AP 5520. The purpose of AP 5520 is to provide a prompt and equitable means to address violations of the Standards of Conduct (BP 5500 titled Standards of Conduct) and to ensure that students are afforded due process and free expression as protected by state and federal constitutions, laws, and regulations.

Please see AP 5520 for information regarding “Student Discipline and Due Process.”

AP 5520 Student Discipline and Due Process
marin.edu/WORD-PPT/AP5520StudentDisciplineandDueProcess_Revised4-16-13.pdf

A hard copy is available at the Director of Student Activities & Advocacy Office, Student Services Building, Room 250.

**PROHIBITION AGAINST DISCRIMINATION AND HARASSMENT**

College of Marin prohibits all forms of discrimination or harassment based on one or more of the following actual or perceived characteristics: age, ancestry, color, religious creed, family & medical care leave, disability (mental and physical) including HIV and AIDS, marital status, medical condition (including cancer and genetic characteristics), genetic information, military and veteran status, national origin (including language use restrictions), race, sex (which includes pregnancy, childbirth, breastfeeding, and medical conditions related to pregnancy, childbirth, or breastfeeding), gender, gender identity, gender expression, and sexual orientation.

Prohibited sexual harassment includes any sexual assault or physical abuse, including, but not limited to, rape, domestic violence, dating violence, sexual assault, or stalking. The College prohibits discrimination and harassment occurring in connection with all the academic, educational, extracurricular, athletic, and other programs of the District, whether those programs take place in College facilities or at another location, or at an off-campus site or facility maintained by the College or on grounds or facilities maintained by a College student organization. College of Marin Board Policy 3430 prohibits verbal, physical, visual, and sexual harassment of any applicant, employee, or student by any District employee on the basis of any category or combination of discriminatory categories prohibited by state or federal law. Non-employees while on the District property or in connection with any District program or activity are also expected to follow these guidelines.

The Marin Community College District is committed to compliance with the requirements of Title IX of the 1972 Education Amendments, the Equal Employment Opportunity Act of 1972 (Title VII of the Civil Rights Act of 1964 as amended), the Civil Rights Act of 1991, and Section 504 of the Rehabilitation Act of 1974, the Americans with Disabilities Act, the California
Fair Employment and Housing Act of 1980, the California Fair Employment and Housing Commission rules and regulations, and the Vietnam Veteran’s Readjustment Act of 1974. The Title IX/EEO/ADA Compliance Officer for the College District is the Executive Director for Human Resources & Labor Relations (please see contact information below).

SEXUAL ASSAULT AND OTHER ASSAULTS ON CAMPUS

Any sexual assault or physical abuse, including, but not limited to, rape, domestic violence, dating violence, sexual assault, or stalking as defined by California law, whether committed by an employee, student, or member of the public, occurring on District property in connection with all the academic, educational, extracurricular, athletic, and other programs of the District, whether those programs take place in the District facilities or at another location or on an off-campus site or facility maintained by the District or on grounds or facilities maintained by a student organization, is a violation of Board policies and administrative procedures and is subject to all applicable punishment, including criminal procedures and employee or student discipline procedures. (See AP 3540)

Information about the District’s policies and procedures pertaining to sexual and other assaults, and other forms of discrimination or harassment, is available at: http://www.marin.edu/rights/index.html.

Additional information on assistance for victims of sexual assaults is available at: marin.edu/police/sexual-assault.html. If you are the victim of, or become aware of, a sexual assault on College property or in connection with any College program or activity, please contact the District’s Executive Director of Human Resources at 415-485-9504 or the District’s Police Department at 415-485-9696.

DISCRIMINATION OR HARASSMENT COMPLAINTS

If you have experienced discrimination or harassment, including any incident of sexual violence, based on one or more of the above-referenced characteristics, or are aware of any discrimination or harassment based on one or more of these characteristics, contact:

Kristina Combs, Executive Director of Human Resources & Labor Relations
Village Square 8, Kentfield Campus
415-485-9504

Executive Director Combs’ responsibilities include serving as the College’s:

- **Title IX Officer:** to address harassment or assault based on gender and to ensure equal access to all College programs and services regardless of gender; and
- **ADA Coordinator:** (Americans with Disabilities Act) to ensure equal access to College facilities, programs and services for people with disabilities, including students, employees, and others who may visit District facilities.

Students who believe that the prohibition against discrimination or harassment has been violated have the right to file a complaint with: (1) the District; (2) the State Chancellor’s office; and/or the United States Department of Education Office of Civil Rights (“OCR”).

Complete information on the District’s Discrimination and Harassment Complaint Procedures is set forth in Administrative Procedure 3435, a copy of which can be found at marin.edu/WORD-PPT/AP-3435DiscriminationHarassmentInvestigations_Revised1-15-13.pdf.

This and further Administrative Procedures and Board Policies, including those listed below, can be found on the College website, on the “Policies and Procedures” page, under the “About the College” tab.

CAMPUS SECURITY REPORT

College of Marin’s annual Campus Security Report is available online at marin.edu/police/security-report.html. This report is required by federal law and contains policy statements and crime statistics for the school. The policy statements address the school’s policies, procedures, and programs concerning safety and security; for example, policies for responding to emergency situations and sexual offenses. Three years’ worth of statistics are included for certain types of crimes that were reported to have occurred on campus, in or on off-campus buildings or property owned or controlled by the school, and on public property within or immediately adjacent to the campus. You may also request a paper copy from the Police Department, Kentfield Campus, VS1. The District publishes and distributes the Annual Security Report to all students and employees each year by October 1.

STUDENT GRIEVANCES AND RIGHTS

The purpose of AP 5530 is to provide a prompt and equitable means of resolving student grievances when no other administrative procedure, Marin Community College District departmental procedure, collective bargaining agreement, or statutory procedure applies. See Section III, below, for a list of other procedures applicable to concerns related to harassment, discrimination, unsafe assignments, grade changes, academic probation, dismissal and readmission, student discipline, student records, residency, and police department citations.

Any students or applicants who have questions about which procedure applies to their particular concerns are encouraged to go to the Office of the Vice President of Student Learning and Student Services for assistance.

GRADUATION AND DEGREE REQUIREMENTS
CATALOG RIGHTS

The catalog sets forth graduation requirements for achieving an associate degree, and these requirements may change from one catalog to the next. Catalog rights are established for any semester that a student is in attendance. The specific catalog employed toward graduation requirements for Associate Degrees or Certificates of Achievement and all implied rights cease after two consecutive semesters of nonattendance. State of California and federal law, as well as College of Marin Board Policy, shall take precedence over catalog rights. Students not enrolled when applying for an Associate Degree or Certificate of Achievement and who have maintained their catalog rights may use that catalog or any subsequent catalog, up to and including the current catalog.

GRADUATION REQUIREMENTS

The Associate in Arts (A.A.) degree or Associate in Science (A.S.) degree will be awarded to any student in good standing upon satisfactory completion of all of the following requirements:

1. Competence in reading, written expression, and mathematics. (For students who have maintained catalog rights prior to Fall 2009):
   a. A satisfactory score on the Math Assessment Test, i.e., eligibility beyond Math 101, OR completion of Elementary Algebra (Math 101, or Math 101A plus Math 101B or Math 101X plus Math 101Y) with a grade of “C” or higher, “CR,” or “P.”
   b. Completion of English 120 or 150 with a grade of “C” or higher, “CR,” or “P.”

2. (For students entering Fall 2009 or any semester thereafter):
   a. A satisfactory score on the Math Assessment Test, i.e., eligibility beyond Math 103, OR completion of Intermediate Algebra (Math 103 or Math 103A plus Math 103B or Math 103X plus Math 103Y) with a grade of “C” or higher, “CR,” or “P.”
   b. Completion of English 150 with a grade of “C” or higher.

3. Sixty (60) lower division degree applicable units of regionally accredited college courses that have been properly approved pursuant to Title 5 Section 55002(a) and 55062.
   a. College of Marin courses numbered 0-99 do not apply toward the 60 units required for graduation, even though they may be listed as part of a vocational program major.
   b. Students who have maintained catalog rights prior to Fall 2009 must have an overall grade point average (GPA) of 2.0 or higher in all courses taken at College of Marin and all courses transferred from other colleges used toward a degree or Certificate of Achievement, and be in good academic standing at the college.
   c. All students entering Fall 2009 or any term thereafter, each course applied towards the major or area of emphasis must be completed with a grade of “C” or higher, “CR,” or “P” if the course is taken on a “pass/no pass” basis (Title 5 Section 5063 (a)(2)).

4. A minimum of 19 semester units in general education and at least 18 semester units in an approved major as described in this college catalog.

5. A minimum of 12 units successfully completed in residence at College of Marin in the major. When injustice or undue hardship would result, students may file a petition at the Office of Enrollment Services to have this requirement waived. The petition will be forwarded to the department for review. Even with an approved waiver, students must complete a minimum of 60 units for graduation, have a minimum of 18 units in the major and 19 units in general education.

College of Marin Associates in Arts or Associates in Science for Transfer (AA-T/AS-T) Degrees

To earn an Associates in Arts or Associates in Science for Transfer (AA-T/AS-T) Degree, as described in this college catalog, a student must:

1. Complete a minimum of 60 lower division CSU-transferable semester units.
   a. Complete required units in the major, and
   b. Complete either the CSU GE-Breadth or IGETC pattern.
   c. Up to 12 units may be double-counted in GE and the major.

2. Each course required for the major or area of emphasis must be completed with a grade of “C” or higher, or “CR” or “P” if the course is taken on a pass-no pass basis (Title 5 Section 5063 (a)(2)).

3. Maintain a minimum grade point average (GPA) of 2.0 or higher in all CSU-transferable coursework.

4. Minimum of 12 degree applicable units must be completed at College of Marin.

Certificates of Achievement

A Certificate of Achievement will be awarded upon satisfactory completion of the following requirements:

1. Successful completion of a course of study or curriculum that consists of 18 or more semester units of degree-applicable credit coursework as described in this college catalog.

2. Students who have maintained catalog rights prior to Fall 2009 must have an overall grade point average (GPA) of 2.0 or higher in all courses taken at College of Marin or transferred from other colleges, which are to be applied toward the Certificate of Achievement.

3. All students entering Fall 2009 or any term thereafter must complete each course applied towards the major and/or area of emphasis with a grade of “C” or higher, “CR,” or “P” if the course is taken on a “pass/no pass” basis (Title 5 Section 5063 (a)(2)).

4. Courses numbered 0-99 are non-degree applicable but may be used for a Certificate when listed as a major requirement.
Skills Certificates
Requirements for skills certificates are less than 18 units and are listed in the college catalog. Students should check with the director or department chair for the process to receive completed certificates.

Awarding a Degree or Certificate of Achievement
Upon completion of all degree or certificate requirements as specified in this catalog, a student may qualify for more than one degree or certificate, provided that 12 of the required units for the major are not applied toward any other major and are completed at the College of Marin.

A student who receives a Certificate of Achievement may subsequently complete requirements and earn a degree in the same discipline, since the degree represents a higher level of accomplishment. A Certificate of Achievement in a discipline will not be granted after receipt of a degree in the same discipline. A student, who at the time of applying is eligible for a degree, will not be issued a certificate. Degrees and certificates are not awarded retroactively.

Deleted Degrees and Certificates of Achievements
1. Students who have maintained their catalog rights:
   a. After a degree or certificate has been deleted, it may still be conferred for 3 years beyond the deletion date if the degree or Certificate of Achievement is not out of compliance with Title 5.
   b. If courses that are part of a deleted degree or Certificate of Achievement have also been phased out, students and counselors should work with the discipline Department Chair or coordinator to determine suitable/appropriate courses to substitute for requirements that are no longer offered.
2. Students who have not maintained their catalog rights must follow the college’s policy on Catalog Rights.
3. Degrees or Certificates of Achievement that are out of compliance with Title 5 cannot be conferred past the deletion date.

For additional information pertaining to deleted degrees and Certificates of Achievement, please consult a College of Marin counselor.

Course Substitution/Waiver
Substitution/Waiver for any required course must be approved through student petition. An official transcript and catalog description must accompany the petition. For non-comparable courses, Department Chairs will be consulted to determine course acceptability. Even with an approved waiver, students must complete a minimum of 60 units for graduation, have a minimum of 18 units in the major, 19 units in general education and complete the residency requirement.

Official Transcripts
In order to apply units completed at another institution toward a degree or Certificate of Achievement, official transcripts may be mailed or hand delivered, provided they arrive in an original sealed and stamped envelope from the issuing institution. College of Marin will also accept faxed or e-mailed official transcripts from a district-approved secure credentialing service. Official transcripts have an embossed or water seal. Official transcripts, if mailed, should be sent via U.S. Mail to the College of Marin Counseling Department, Kentfield, CA 94904. Transcripts from other colleges received by the College of Marin will not be copied for release to the student.

Transfer Units
• U.S. Accredited Colleges: Students may only transfer lower division units from a regionally accredited college or university.
• Foreign Colleges: Transcripts from foreign colleges and universities will be accepted only when evaluated by U.C., C.S.U., or an evaluating service recognized by the College of Marin. Lower division credit will be granted when the academic level of the course work is deemed to be comparable to that of classes taught in regionally accredited United States colleges and universities.
• Upper division units may not be used toward an AA or AS degree. Students may, however, submit a petition to the Office of Enrollment Services for a waiver of requirements with relevant upper division work. Even with an approved waiver, students must complete a minimum of 60 units for graduation, have a minimum of 18 units in the major, 19 units in general education and complete the residency requirement.

General Education (GE) Certification for Transfer
Students requesting GE Certification must complete:
1. All courses with a “C” or higher “CR” or “P” for IGETC Certification.
2. All courses with a 2.0 grade point average (GPA) or higher with a minimum of 30 units completed with a “C” or higher for CSU Certification.

Graduation Applications
The completion of an Application for Graduation/Certificate of Achievement and any relevant official transcripts and petitions must be submitted by the established deadline.
• Graduation requirements must come from a single catalog. Students who have maintained their catalog rights may use that catalog or any subsequent catalog up to and including the current catalog.
• A student who receives a Degree/Certificate of Achievement in one major may subsequently or simultaneously work on a Degree/Certificate of Achievement in another major within that discipline, provided there are 12 different units completed in that additional degree. When there are fewer than 12 different units, students should:
   a. Consult with the discipline department chair or coordinator for acceptable units to fulfill this degree requirement, and
   b. Submit a petition to the Office of Enrollment Services for the additional units needed to fulfill this requirement.
• Students who have been awarded a degree and/or Certificate of Achievement in a major and want to be awarded the AA-T/AS-T degree in that same discipline must complete all requirements for that major to be awarded the degree.
• A student who receives a Certificate of Achievement may subsequently complete requirements and earn a degree in the same major, since the degree represents a higher level of accomplishment. A Certificate of Achievement in the same major will not be granted after receipt of a degree in that major. A student, who at the time of applying is eligible for a degree, will not be issued a certificate in the same major.
Outstanding Debt
A Diploma, Certificate of Achievement and official transcripts may not be released until the student has paid all outstanding debts to the college.

General Education
A minimum of 19 units of general education is required for the A.A. or A.S. degree. See general education categories and course listings below. Please note: One of the general education courses must be a cross-cultural studies course. Most cross-cultural studies courses will satisfy the Cross-Cultural Studies Requirement and one other general education requirement. If a cross-cultural studies course is not found in another general education category, then additional units of general education are needed to meet the A.A. or A.S. degree. Likewise, courses counted for two general education requirements may not be used to fulfill a major requirement.

GENERAL EDUCATION

COLLEGE OF MARIN’S COMMITMENT TO AN EXCELLENT EDUCATIONAL FOUNDATION
Students come to College of Marin to achieve a wide variety of goals, including obtaining foundational skills in Math, English and ESL, Career or Technical training, an A.A. or A.S. degree, and transfer, as well as for lifelong learning and cultural enrichment. No matter what a student’s reasons are, the college is committed to the educational growth of all undergraduates and the development of the following academic skills that allow students to pursue any major:

Written, Oral and Visual Communication
Communicate effectively in writing, orally and/or visually using traditional and/or modern information resources and supporting technology.

Scientific and Quantitative Reasoning
Locate, identify, collect, and organize data in order to then analyze, interpret or evaluate it using mathematical skills and/or the scientific method.

Critical Thinking
Differentiate between facts, influences, opinions, and assumptions to reach reasoned and supportable conclusions.

Problem Solving
Recognize and identify the components of a problem or issue, look at it from multiple perspectives and investigate ways to resolve it.

Information Literacy
Formulate strategies to locate, evaluate and apply information from a variety of sources - print and/or electronic.

COLLEGE OF MARIN GENERAL EDUCATION STATEMENT OF PURPOSE
While college students choose a specific field of study, part of their educational experience and requirements include a program of general education. This well-rounded, student-driven educational package is intended to be complementary to, but different in emphasis from, the specialized education received for a job or a profession, or from focusing on a particular field of study. By completing a general education program, students expand their knowledge of the content and methodologies in a variety of disciplines. College of Marin expects students to:

- Become effective written, oral and visual communicators for many audiences;
- Be flexible, curious, and open to new experiences;
- Recognize how they connect to and affect their community and the world beyond;
- Enhance economic survival skills for the workplace and marketplace;
- Think critically, ethically, independently, and creatively about a variety of topics that will be useful to them in the real world and hone these thinking skills in a way which can be used throughout their life;
- See the interconnectedness of topics and use multiple disciplines to help achieve deeper understanding of past, present and future events at local, national and global levels;
- Become a more widely informed citizen who appreciates the importance of intellectual, scientific and artistic accomplishments;
- Engage in healthful living and wellness physically, intellectually, emotionally and socially.

COLLEGE OF MARIN GENERAL EDUCATION OUTCOMES

A. NATURAL SCIENCES
These courses examine the physical universe, its life forms and natural phenomena and enable students to develop a greater appreciation of the world around them. Through exposure to the broad range of sciences—physical science, biological science and earth science—students learn how to acquire scientific information to develop their understanding of the nature of science.

In the courses listed for this area, students learn to:

- Apply the scientific method to explore physical and biological phenomena, including observation, hypothesis development, measurement, data collection, experimentation and analysis.
- Articulate core concepts in a biological or physical science discipline.
- Recognize and analyze the relationship between humans and the natural world.

B. SOCIAL AND BEHAVIORAL SCIENCE
These courses examine people as members of society by exploring the diversity in peoples, cultures, politics, histories and the forces that shape and change human societies. The courses teach students how to evaluate these concepts through scientific and social inquiry.

In the courses listed for this area, students learn to:

- Apply the approaches social and behavioral scientists use to explore social phenomena and human behavior, including observation, hypothesis development, measurement, data collection, experimentation, evaluation of evidence, and analysis.
- Analyze and articulate core concepts in a specific social or behavioral science discipline.
- Recognize the complexity of how individuals and groups are influenced by their social, cultural, and historical contexts.
C. ARTS AND HUMANITIES
The arts and humanities study human culture and thought in all its forms, including significant works of art, literature, performance, language, and philosophy from around the world. An arts and humanities education may also include creating aesthetic works to develop a broader contextual understanding of the arts.

In the courses listed for this area, students learn to:
- Recognize, analyze, and reflect on significant cultural works.
- Foster a greater understanding of aesthetic, intellectual, linguistic, political, and religious dimensions of various cultures.
- Engage in new experiences and broader conversations about human culture and creativity.

D. WRITTEN COMPOSITION
The study of written composition helps students build the skills and strategies necessary to read and write at the college level and in everyday life.

In the courses listed for this area, students learn to:
- Communicate complex ideas to a variety of audiences through clear and effective writing.
- Support one’s ideas with compelling, logical, and credible evidence and analysis from readings and research.
- Develop a successful writing process adaptable to diverse writing situations.
- Document sources appropriately to build credibility as a scholar.

E. COMMUNICATION AND ANALYTICAL THINKING
These courses promote advanced level communication and analytical thinking through writing, speech, logic, and/or quantitative problem solving. These critical thinking skills are applicable throughout one’s academic, professional, and personal experiences.

In the courses listed for this area, students learn to:
- Express concepts and reasoning clearly and precisely.
- Analyze and evaluate information and language critically.
- Develop and apply analytical and reasoning skills to define, plan and solve complex problems.
- Differentiate between necessary and unnecessary information when solving a problem.
- Gather data, analyze evidence and build arguments to support or refute hypotheses.

F. AMERICAN INSTITUTIONS
These courses build a foundation necessary for being an engaged citizen. Assignments ask students to think critically, ethically, independently, and creatively about American society.

In the courses listed for this area, students learn to:
- Explore the history and evolution of the core concepts in American social, political and economic institutions.
- Articulate how individuals connect to and affect their community, state, nation and the world.

G. Cross-Cultural Studies
These courses develop a political and historical understanding of the experiences of ethnic and racial groups in America. Students interpret historical events from the perspective of these groups. Students may also explore the diversity of visual and performing arts, the literary creative process, and literary tools and techniques among ethnic groups with shared cultural histories, languages, and traditions.

In the courses listed for this area, students learn to:
- Analyze and evaluate the effectiveness of the organizations and movements of a broad range of ethnic and racial groups in America.
- Interpret and evaluate the myths and stereotypes that have developed in reference to these groups.
- Critically analyze and debate the role of race and color in the American experience.
- Illustrate and apply important interdisciplinary concepts that reflect the unique voice of various ethnic and cultural groups.
- Recognize the influence of their own cultural group on intercultural communication interactions.

H. Physical Activity
Students taking these Dance or Kinesiology activity courses gain fitness and wellness benefits from cardiorespiratory, muscular strength and endurance training.

In the courses listed for this area, students learn to:
- Implement a cardiorespiratory, muscular strength and endurance plan compatible with their goals and lifestyle.
- Identify how much and the types of physical activity one should do for optimal health and wellness.

GENERAL EDUCATION COURSES
One course from each category required for graduation (19 units minimum).

A. NATURAL SCIENCES
Select one course from the following. (Three units minimum)

ANTH 101 - Intro to Physical/Biological Anthropology
ANTH 101L - Intro to Physical/Biological Anthropology Lab
ASTR 101 - Intro to Astronomy
ASTR 117L - Intro to Astronomy Lab

B. MATHEMATICS

BIO 100 - Nutrition
BIO 101 - Field Biology
CHEM 105L - Chemistry in the Human Environment Lab
CHEM 110 - Intro to Chemistry
CHEM 110L - Intro to Biology Lab
CHEM 131 - General Chemistry I
CHEM 132 - General Chemistry II

C. ARTS AND HUMANITIES

C. ARTS AND HUMANITIES

ENVS/BIOL 138 - Intro to Environmental Science*
BIOL 109 - Heredity and Evolution
GEOG 101L - The Physical Environment Lab
GEOG 101 - The Physical Environment

D. WRITTEN COMPOSITION

GEOL 103 - Environmental Geology
GEOL 109 - General Oceanography
GEOG 109 - Geography of California

E. COMMUNICATION AND ANALYTICAL THINKING

GEOG 110 - Earth Science
GEOL 110L - Intro to Biology Lab

F. AMERICAN INSTITUTIONS

BIOL 120 - Human Anatomy
BIOL/ENVS138 - Intro to Environmental Science*

G. Cross-Cultural Studies

BIO/L/ENV5138 - Intro to Environmental Science*

H. Physical Activity

BIO/L/ENV5138 - Intro to Environmental Science*

I. GENERAL EDUCATION COURSES

BIO/L/ENV5138 - Intro to Environmental Science*

J. Physical Activity

BIO/L/ENV5138 - Intro to Environmental Science*
Select one course from the following. (Three units minimum)

ANTH 102 - Intro to Cultural Anthropology
ANTH 103 - Globalization and Peoples and Cultures of the World
ANTH 110 - Intro to Archeology and Prehistory
BEHS 103 - Human Sexuality
BIOL 251/PSY 251 - Biological Psychology*
BUS 101 - Intro to Business
ECE 110 - Child Development
ECE 112 - Child, Family and Community
ECON 101 - Macroeconomics
ECON 102 - Microeconomics
ETST 110 - Introduction to Ethnic Studies
ETST 111 - History of African Americans A
ETST 112 - History of African Americans B
ETST 121 - History of Latinos in the US
ETST 151 - Native American History
ETST 154 - Native American Literature
ETST 242 - History and Politics of Contemporary Africa
GEOG 102 - The Human Environment
GEOG 109 - Geography of California
HIST 100 - Major Trends and Selected Topics in American History
HIST 101 - World History I
HIST 102 - World History II
HIST 103 - Science, Technology and Civilization
HIST 109 - History of California
HIST 110 - Western Civilization I
HIST 111 - Western Civilization II
HIST 112 - Western Civilization III
HIST 117 - History of the US I
HIST 118 - History of the US II
HIST 206 - History of Russia
HIST/POLS 211 - Women in American History and Politics*
POLS/HIST 211 - Women in American History and Politics*
POLS 219 - The Politics of the United States Presidency
POLS 220 - American Foreign Policy
PSY 110 - Intro to Psychology
PSY 111 - Personality Dynamics and Effective Behavior
PSY 112 - Child and Adolescent Psychology
PSY 114 - The Psychology of Human Development: Lifespan
PSY 116 - Theories of Personality
PSY/SOC 140 - Marriage, Family and Intimate Relationships*
PSY 145 - Psychology in Modern Life
PSY 204 - Abnormal Psychology
PSY/SOC 205 - Intro to Research Methods and Data Analysis in Sociology*
PSY/SOC 230 - Social Psychology*
PSY/BIOL 251 - Biological Psychology*
SOC 110 - Intro to Sociology, Individual and Society
SOC 112 - Social Deviance and Problems
SOC 114 - Global Social Problems
SOC/Psy 140 - Marriage, Family and Intimate Relationships*
SOC/Psy 205 - Intro to Research Methods and Data Analysis in Sociology*
SOC/Psy 230 - Social Psychology*

C. HUMANITIES
Select one course from the following. (Three units minimum)
ARCH 100 - History of Architecture I
ARCH 101 - History of Architecture II
ARCH 102 - History of Architecture III
ARCH 131 - New Architecture on Campus
ART 101 - History of Ancient Art
ART 102 - History of European Art
ART 103 - History of Modern Art
ART 104 - History of Asian Art
ART 105 - Contemporary Art
ART 106 - History of Women Artists
ART 107 - History of American Art
ART/ETST/HUM 108 - Arts of the Americas*
ART 110 - History of Islamic Art
ASL 101 - Elementary Sign Language I
ASL 102 - Elementary Sign Language II
ASL 110 - History and Culture of Deaf People in America
ASL 203 - Intermediate Sign Language III
ASL 204 - Intermediate Sign Language IV
BIOL/GEOL 145 - Ethics in Science*
CHIN 101 - Elementary Chinese Mandarin I
CHIN 102 - Elementary Chinese Mandarin II
COMM/JOUN 110 - Introduction to Mass Communication*
COMM/JOUN 160 - Images of Race, Gender and Class in the Media*
DANC 108 - Dance History
DRAM 110 - Intro to the Theatre
DRAM 116 - Survey of Dramatic Literature: Ancient Greek to Present
DRAM 117 - Survey of Dramatic Literature: Shakespeare and his Theatre
ENGL 151 - Reading and Composition IB
ENGL 208 - Short Fiction
ENGL 212 - Intro to Poetry
ENGL 214 - The Popular Novel
ENGL 218 - The American Short Story
ENGL 219 - Voices and Visions
ENGL 220 - Detective Fiction
ENGL 221A - Survey of American Literature I
ENGL 221B - Survey of American Literature II
ENGL 222 - Survey of English Literature I
ENGL 223 - Survey of English Literature II
ENGL 224 - Survey of World Literature I
ENGL 225 - Survey of World Literature II
ENGL 230 - Survey of Shakespeare
ENGL 235 - Women in Literature
ENGL 237 - The Literature of American Cultures
ENGL 240 - Classic Children's Literature
ENGL/HUM 242 - Global Writings*
ETST/ART/HUM 108 - Arts of the Americas
ETST 154 - Native American Literature
FILM/HUM 109A - History of Film: Beginning to 1950*
FILM/HUM 109B - History of Film: 1950 to the Present*
FREN 101 - Elementary French I
FREN 102 - Elementary French II
FREN 108A/B - French Culture and Literature go to the Cinema
FREN 203 - Intermediate French III
FREN 204 - Intermediate French IV
FREN 225 - Advanced French I
FREN 226 - Advanced French II
GEOG/BIOL 145 - Ethics in Science*
HUM 100A - Intro to Humanities: Ancient Greece to the Medieval Period
HUM 100B - Intro to Humanities: Renaissance to the Modern Period
HUM 107 - Humanities Through the Arts
HUM/ART/ETST 108 - History of Arts of the Americas*
HUM/FILM 109A - History of Film: Beginning to 1950*
HUM/FILM 109B - History of Film: 1950 to the Present*
HUM 114 - The Long Search: An Introduction to the World’s Religions
HUM 118 - Intro to World Religions
HUM 125 - Myth, Symbol and the Arts
HUM/ENGL 242 - Global Writings*
ITAL 101 - Elementary Italian I
ITAL 102 - Elementary Italian II
ITAL 108 - Italian Literature in Translation: Italian Classical Literature goes to the Movies
ITAL 203 - Intermediate Italian III
ITAL 204 - Intermediate Italian IV
ITAL 225 - Advanced Italian III
ITAL 226 - Advanced Italian II
ITAL 22B - Italian Conversation and Culture Through Film
JOUN/COMM 110 - Introduction to Mass Communication*
JOUN/COMM 160 - Images of Race, Gender and Class in the Media*
JPNS 101 - Elementary Japanese I
JPNS 102 - Elementary Japanese II
JPNS 108 - Japanese Conversation through the Movies
JPNS 203 - Intermediate Japanese III
JPNS 204 - Intermediate Japanese IV
MUS 101 - Intro to Classical Music
MUS 102 - Music Masterworks
MUS 105 - Rock, Pop and Jazz
MUS 106 - Music Fundamentals
PHIL 110 - Intro to Philosophy
PHIL 111 - Intro to Ethics
PHIL 112 - Intro to Logic
PHIL 117 - History of Philosophy: Late Modern to Contemporary
SPAN 101 - Elementary Spanish I
SPAN 102 - Elementary Spanish II
SPAN 201 - Intermediate Spanish III
SPAN 203HB - Intermediate Spanish III for Heritage and Bilingual Speakers
SPAN 204 - Intermediate Spanish IV
SPAN 225 - Advanced Spanish I
SPAN 226 - Advanced Spanish II
SPAN 228A/B/C - Advanced Spanish Conversation and Culture through Film
SPAN 230A - Culture and Civilization of Spain and South America
SPAN 230B - Culture and Civilization of Mexico and Central America
SPAN 230C - Culture and Civilization of Spain
SPCH 128 - Intercultural Communication
SPCH 140 - Oral Interpretation of Literature I

D. COMPOSITION, WRITTEN
(Three units minimum)
ENGL 150 - Reading and Composition IA

E. COMMUNICATION AND ANALYTICAL THINKING
Select one course from the following. (Three units minimum)
CIS 215 - Visual BASIC Programming
COMP 130 - Intro to Computer Programming using C++
COMP 135 - Intro to Programming in JAVA
COMP 160 - Computer Organization: An Assembly Language Perspective
COMP 220 - Data Structures and Algorithms
COMP 232 - Advanced Programming in JAVA
COMP 235 - Advanced Programming in C++
ENGL 151 - Reading and Composition IB
ENGL 155 - Critical Thinking and Composition
MATH 103, or 103A and 103B, or 103X and 103Y - Intermediate Algebra
MATH 104 - Plane Trigonometry
MATH 105 - College Algebra
MATH 109 - Pre-Calculus College Algebra and Trigonometry
MATH 115 - Probability and Statistics
MATH 116 - Linear Algebra
MATH 121 - Calculus I with Applications
MATH 122 - Calculus II with Applications
MATH 123 - Analytic Geometry and Calculus I
MATH 124 - Analytic Geometry and Calculus II
PHIL 112 - Intro to Logic
PSY/SOC 205 - Intro to Research Methods and Data Analysis in Psychology or Sociology*
SPCH 110 - Intro to Speech Communication
SPCH 120 - Interpersonal Communication
SPCH 122 - Public Speaking
SPCH 128 - Intercultural Communication
SPCH 130 - Small Group Communication
SPCH 132 - Argumentation and Persuasion
STAT 115 - Intro to Statistics

F. AMERICAN INSTITUTIONS
Select one course from the following. (Three units minimum)
ETST 111 - History of African Americans A
ETST 112 - History of African Americans B
ETST 121 - History of Latinos in the US
ETST 151 - Native American History
HIST 100 - Major Trends and Selected Topics in American History
HIST 117 - History of the US I
HIST 118 - History of the US II
HIST/POLS 211 - Women in American History and Politics*
POLS 100 - American Political Institutions
POLS 101 - Intro to the Government of the US
POLS/HIST 211 - Women in American History and Politics*

G. CROSS-CULTURAL STUDIES
Cross-cultural studies courses, which are listed in other general education categories, will satisfy both the Cross-Cultural Studies requirement and the requirement of one other category such as B, C, or F.
ART/ETST/HUM 108 - Arts of the Americas*
ASL 110 - History and Culture of Deaf People in America
COMM/JOUN 160 - Images of Race, Gender and Class in the Media*
ENGL 235 - Women in Literature
ENGL 237 - The Literature of American Cultures
ETST/ART/HUM 108 - Arts of the Americas
ETST 110 - Introduction to Ethnic Studies
ETST 111 - History of African Americans A
ETST 112 - History of African Americans B
ETST 121 - History of Latinos in the US
ETST 151 - Native American History
ETST 154 - Native American Literature
HIST 109 - History of California
HIST/POLS 211 - Women in American History and Politics*

H. PHYSICAL ACTIVITY
One unit minimum; select one course.
This requirement may be satisfied by any degree-applicable activity course in kinesiology or dance.
Note: When courses are cross-listed in more than one discipline, credit is awarded for only one course. For example, a student may receive credit for either ART 108 or ETST 108 or HUM 108, but not both courses. Cross-listed courses are indicated with an asterisk (*) in the listings above.

ASSOCIATE DEGREE PROGRAMS

ASSOCIATE IN ARTS AND ASSOCIATE IN SCIENCE
The College of Marin offers a variety of associate degree programs. A “Major” is required for either the A.A. or A.S. degree and is comprised of a concentration of courses (a minimum of 18 units). Students receiving an associate degree must complete a major as described under each discipline in Section Six of the catalog. Depending upon the goal, the attainment of the associate degree may fulfill all of the student’s educational needs.

The associate degree in transfer majors is designed as a college/university parallel program for the first two years of a four-year Bachelor’s program. The purpose of the transfer program is to prepare students for junior standing at a college or university that grants a bachelor’s degree (B.A., B.S.). The transfer major contains general and introductory or basic courses, which will be followed by advanced courses at the upper division level. Students who wish to follow a transfer pattern should carefully examine the requirements of the receiving institution.

The Associate in Science occupational degree programs, which require a minimum of 60 units, provide instruction in the skills and knowledge needed to enter or progress in an occupation. These programs are developed through the cooperation of advisory committees composed of representatives from specific occupational areas and the college. These advisory committees review course content and make recommendations to assure that the instruction and curriculum provide current skills.
INTERDISCIPLINARY DEGREE PROGRAMS

The following is a list of interdisciplinary degrees at College of Marin that require a minimum of 18 degree-applicable units to which, in addition to other graduation requirements, only the Associate in Arts (A.A.) degree is granted.

Liberal Arts Degree

The Associate degree in Liberal Arts is designed for students who wish to have a broad, general education, plus additional coursework in one of three “Areas of Emphasis.” This degree would be an ideal choice for students planning on transferring to the CSU or UC campus, as students can satisfy both general education and lower division major requirements at these institutions. Please consult with a counselor for information regarding your intended major at the specific college or university of your choice. Students may also refer to ASSIST.org to get detailed requirements for specific colleges and universities.

To meet the requirements for the Associate of Arts in Liberal Arts, a student must complete:

1. One of the following General Education patterns:
   a. College of Marin General Education Requirements (Minimum of 19 units), or
   b. CSU General Education Requirements (CSU GE Pattern) (Maximum of 39 units), or
   c. Intersegmental General Education Transfer Curriculum (IGETC) pattern (UC or CSU transfer 30-39 units).

For students using the College of Marin General Education Requirements, please note that NO General Education units may be used to meet the Area of Emphasis requirements. Students using College of Marin’s General Education Requirements may not yet be prepared to transfer. Students should work with a counselor to complete these requirements. For students using the CSU GE or IGETC options, please note that no more than 12 of the units used to meet the general education requirements may be double-counted as part of the Area of Emphasis. Students should work with a counselor to complete these requirements.

Important: For students using the CSU GE or IGETC options, students must meet the following College of Marin Graduation Requirements:

- Math proficiency
- Grade point average
- Total units
- Residency
- Cross-cultural studies

These students are exempt from completing the following College of Marin General Education requirements:

- Physical Activity
- American Institutions

2. A minimum of 18 units from one of the following Emphasis areas with a grade of C or higher, Pass or Credit.

   a. Language Arts and Humanities
   b. Communication Studies
   c. Natural Science
   d. Social Science and Behavioral Sciences
   e. Visual and Performing Arts

Emphasis in Communication Studies

(Associate of Arts in Liberal Arts: Emphasis in Communication Studies)

These courses emphasize both the content and form of communication, while providing an understanding of the psychological basis and social significance of communication including the use of modern languages. Students will be able to assess communication as the process of human symbolic interaction. This degree can be a good preparation for students transferring to a four-year university with a major in Communication, English, Modern Languages, and Speech, among others.

Students must successfully complete 18 units of study across 3 disciplines listed below:

   American Sign Language 101, 102, 203, 204
   Chinese 101, 102
   Communication 110*, 150, 160*
   Computer Information Systems 110
   English 202, 203
   Film 109*, 109B*
   Humanities 109A*, 109B*
   Italian 101, 102, 108, 203, 204, 225, 226
   Journalism 110*, 160*
   Japanese 101, 102, 203, 204
   Speech 110, 120, 122, 128, 130, 132, 140, 141

Note:

*Credit is awarded for only one course in each of the following groups:

Communication 110 or Journalism 110
Communication 160 or Journalism 160
Film 109A or Humanities 109A
Film 109B or Humanities 109B

Emphasis in Natural Science

(Associate of Arts in Liberal Arts: Emphasis in Natural Science)

These courses emphasize the study of mathematical and quantitative reasoning skills; they impart knowledge of the facts and principles that form the foundation of living and non-living systems. Students recognize and appreciate the methodologies of science as investigative tools, as well as the limitations of scientific endeavors. This degree can be a good preparation for students who have a general interest in science but are majoring in areas other than science. This degree may not adequately prepare a student transferring in a science major. Students intending to transfer to a four-year university with a science major in Biology, Chemistry, Engineering, Geography, Geology, Physics, or Pre Med., among others, should select course work in conjunction with a counselor.

Students must successfully complete 18 units of study across 3 disciplines listed below:

   Anthropology 101, 101L
   Astronomy 101, 117L
   Chemistry 105, 114, 115, 131, 132, 231, 232
   Environmental Science 138*
   Geography 101, 101L, 112, 125
   Geology 103, 109, 114, 115, 116, 120, 120L, 121, 125, 126, 142, 145, 201, 250
   Math 105, 109, 115*, 121, 122, 123, 124, 223, 224
   Physical Education 107*
   Statistics 115*

Note:

*Credit is awarded for only one course in each of the following groups:

Biology 107 or Physical Education 107
Biology 138 or Environmental Science 138
Math 115 or Statistics 115
Emphasis in Social Science and Behavioral Sciences
(Associate of Arts in Liberal Arts: Emphasis in Social Science and Behavioral Sciences)

These courses emphasize a multidisciplinary approach to the understanding and study of human behavior. Students will explore and examine the nature and multitude of interactive relationships amongst and between individuals and their social environment, ranging from the development of the individual, to the nuances of interpersonal interaction, to the dynamic structures of national and global communities. Students will gain a heightened awareness of the nature of their individuality, attain a greater understanding and appreciation of the complexities and diversity of the world in which they live and become better equipped to succeed in an increasingly diverse and complex society.

This degree can be a good preparation for students transferring to a four-year university with a major in African-American Studies, Anthropology, Chicano Studies, Child Development, Cognitive Science, Criminal Justice, Developmental Studies, Ethnic Studies, Family and Consumer Studies, Global Studies, History, International Relations, Legal Studies, Peace and Conflict Studies, Political Science, Psychology, Social Work, Social Science, and Sociology, among others.

Students must successfully complete 18 units of study across 3 disciplines listed below:

- Administration of Justice 110, 111, 204
- Anthropology 102, 103, 110, 204*, 208
- Behavioral Science 103*, 105
- Biology 108A*, 251*
- Business 101
- Communication 110*, 160*
- Computer Information Systems 110
- Counseling 114, 130
- Early Childhood Education 110, 112
- Economics 101, 102
- Education 110, 111
- Ethnic Studies 110, 111, 112, 121, 151, 154
- Geography 102, 109
- Health Education 130
- History 100, 101, 102, 103, 109, 110, 111, 112, 117, 118, 206, 214, 215, 216, 238
- Journalism 110*, 160*
- Math 115*
- Political Science 100, 101, 102, 103, 104, 117, 201, 203, 210, 215, 220
- Psychology 110, 111, 112, 114, 116, 140, 204, 205*, 230, 251*
- Sociology 110, 112, 114, 140, 184*, 205*, 230
- Speech 128
- Statistics 115*

Note:
*Credit is awarded for only one course in each of the following groups:
Administration of Justice 204 or Sociology 184
Behavioral Science 103 or Biology 108A
Math 115 or Statistics 115
Communication 110 or Journalism 110
Communication 160 or Journalism 160
Psychology 205 or Sociology 205
Psychology 251 or Biology 251

ASSOCIATE OF SCIENCE DEGREE: PHYSICAL SCIENCES

The Physical Sciences degree is designed for students who wish to have a broad foundation in the physical sciences and mathematics that is ideal for building a more advanced understanding of a particular field of science or engineering, and to gain experience in multiple science courses and build math skills. Consequently, this degree can be a good option for students planning to transfer to a four-year university with a major in Biology, Chemistry, Computer Science, Engineering, Math, or Physics, providing the knowledge and skills to make academic success possible in these fields. It provides the flexibility for students to satisfy both the appropriate level of general education and the lower division major requirements for specific universities, while still meeting associate degree requirements. For more detailed information on transfer requirements, students should speak with a counselor to ensure courses are transferable and refer to ASSIST.org.

To complete the requirements for the Associate of Science for this major, a student must complete:

1. One of the following General Education patterns:
   - College of Marin GE (minimum 19 units), or
   - CSU GE (30-39 units), or
   - IGETC (60 units), or
   - The following pattern (minimum of 21 units) that is recommended for most science and engineering students pursuing this degree:
     - two transferable college courses (three semester units each) in English composition - English 150 and 151 or 155; and
   - one transferable college course (three semester units) in mathematical concepts and quantitative reasoning (see course list for IGETC Area 2); and
   - four transferable college courses (three semester units each) chosen from the following three subject areas (at least one course from each): the arts and humanities (see course list for IGETC Area 3, Group A or B), the social and behavioral sciences (see course list for IGETC Area 4), and the physical and biological sciences (see course list for IGETC Area 5, Group A or B).

Important: For students using the CSU GE or IGETC options, students must meet the following College of Marin Graduation Requirements:

- Math proficiency
- Grade point average
- Total units
- Residency
- Cross-cultural studies

These students are exempt from completing the following College of Marin General Education requirements:

- Physical Activity
- American Institutions

2. A minimum of 18 units that include at least three different disciplines from those courses outlined below. Each course used to meet this requirement must be completed with a grade of C or higher, Pass or Credit. Note that courses used to satisfy this 18-unit major requirement may NOT also be used to satisfy the GE requirements above.

   Biology 112ABC
   Chemistry 131, 132, 231, 232
   Computer Science 117*, 130, 135, 150, 160, 220, 232, 235
   Engineering 110 or 110AB, 125, 150*, 220, 235, 245
   Math 116, 117*, 123, 124, 223, 224

*For courses cross-listed in more than one discipline, only one discipline may be counted toward degree. (Example: students may count either COMP 117 or MATH 117, but not both, toward a degree.)
NEW ASSOCIATE DEGREES FOR TRANSFER OFFERED IN 2015-2016

College of Marin now offers associate degrees specifically designed for transfer to the California State University. The Senate Bill 1440 (the Student Transfer Achievement Reform Act) guarantees admission to a California State University campus for any community college student who completes an "associate degree for transfer." The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is designed for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students who complete the AA-T or AS-T are guaranteed admission to the CSU system but not to a particular campus or major.

The following Associate Degrees for Transfer are currently offered at College of Marin: AA-T in Administration of Justice, AS-T in Anthropology, AA-T in Art History, AS-T in Business Administration, AA-T in Communication Studies, AS-T in Early Childhood Education, AA-T in English, AA-T in Economics, AA-T in Geography, AS-T in Geology, AA-T in History, AS-T in Math, AA-T in Philosophy, AA-T in Political Science, AS-T in Physics, AA-T in Psychology, AA-T in Sociology, and AA-T in Theatre Arts. Two additional Associate Degrees for Transfer are currently under development, and will be posted as soon as they are approved: AA-T in Kinesiology and AA-T in Spanish. All students should consult with a counselor before participating in the Associate Degree for Transfer Program to determine if it is the best option for transfer. For universities and colleges that are not part of the CSU system, the Associate Degree for Transfer Program may not provide adequate preparation for upper division transfer admissions.

CERTIFICATE OF ACHIEVEMENT PROGRAMS

A Certificate of Achievement is attainable in occupational programs. The certificate is widely recognized by employers as verification of job preparedness. Certificates of Achievement prepare students to enter the careers designated on their certificates. These programs generally require a year or more of study and include at least 18 units. At least 12 of the units must be taken at College of Marin.

It is the student’s responsibility to submit an “Application for a Certificate of Achievement” by making an appointment with the Counseling Department.

Certificate of Achievement programs and requirements are listed under each discipline in Section Six of the catalog.

GRANTING OF ADDITIONAL CERTIFICATES OF ACHIEVEMENT

Upon completion of all Certificates of Achievement requirements as specified in this catalog, a student may qualify for more than one certificate provided that 12 of the required units for a certificate are not applied toward any other certificate.

Basic Skills Courses

Courses numbered below 100 are nondegree applicable but may be used for a Certificate of Achievement when listed as a major requirement. Basic skills courses under 100 do not apply toward the 60 units required for graduation, even though they may be listed as part of a vocational program.

NOTE: See table on next page.

TRANSFER INFORMATION
Students planning to transfer from College of Marin to another college or university should plan their program to include both general education requirements and the specific major requirements of a particular college or university. Transfer students are advised to work closely with a counselor, in order to make appropriate course choices that will permit transfer to a California public university after completing 60 transferable units at College of Marin. The admission requirements for lower and upper division transfer to private and out-of-state colleges and universities vary from school to school. Careful planning will ensure students avoid taking classes that do not meet requirements.

Students who intend to transfer should consult the catalog of the institution to which they intend to transfer. Catalogs of the major universities and colleges are available online. The earlier a student makes a decision regarding a transfer institution, the better the possibility is for meeting all requirements in a timely manner.

ASSIST (ONLINE STUDENT TRANSFER INFORMATION SYSTEM)
Detailed information regarding specific majors and course transferability between College of Marin and the CSU and UC campuses can be found on www.assist.org. ASSIST is the official statewide repository of articulation for California's colleges and universities. It provides the most accurate and up-to-date information about student transfer in California. On ASSIST, students can determine which College of Marin courses satisfy general education requirements, major preparation requirements, and transferable electives for the UCs and CSUs.

CALIFORNIA STATE UNIVERSITY TRANSFER INFORMATION

General Admission Information to the California State University Campuses: Bakersfield, Channel Islands, Chico, Dominguez Hills, East Bay, Fresno, Fullerton, Humboldt, Long Beach, Los Angeles, Vallejo (California Maritime Academy), Monterey Bay, Northridge, Pomona (California State Polytechnic), Sacramento, San Bernardino, San Diego, San Francisco, San Jose, San Luis Obispo (California Polytechnic), San Marcos, Sonoma, and Stanislaus.

Associate Degrees for Transfer (ADTs) Offered in 2015-2016
College of Marin offers associate degrees specifically designed for transfer to the California State University. Recent legislation, Senate Bill 1440 (the Student Transfer Achievement Reform Act), guarantees admission to a California State University campus for any community college student who completes an “associate degree for transfer.” The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is designed for students who plan to complete a bachelor’s degree in a similar major at a CSU campus. Students who complete the AA-T or AS-T are guaranteed admission to the CSU system but not to a particular campus or major.

All students should consult with a counselor before participating in the Associate Degree for Transfer Program to determine if it is the best option for transfer. For universities and colleges that are not part of the CSU system, the Associate Degree for Transfer Program may not provide adequate preparation for upper division transfer admissions.

Lower Division Transfer Admission Requirements
Some campuses restrict enrollment of lower division transfer students due to heavy enrollment pressure and budget cuts. College of Marin students who are California residents with fewer than 60 transferable semester units are considered lower division transfer students.

You are eligible for admission to California State University if you:
1. Have a college grade point average of 2.00 or higher in all transferable college units attempted.
2. Are in good standing at College of Marin, i.e., you are eligible to re-enroll.
3. Meet the admission requirements for a first-time freshman or have successfully completed necessary courses to make up the deficiencies you had in high school if you did not complete the 15-unit pattern of college preparatory subjects.
4. Meet the eligibility index required of a freshman.

Some campuses may require lower division transfer students to have completed English composition and general education mathematics prior to transfer. Contact your campus of choice to determine whether there are admissions limits on the number of lower division transfer students.

Note: Some CSU campuses do not admit lower-division transfer students.

Upper Division Transfer Minimum Eligibility Requirements
College of Marin students with 60 or more transferable semester units are considered upper division transfer students.

You are eligible for admission to California State University if you:
1. Have a college grade point average of 2.00 or higher (2.40 for non-California residents) in all transferable college units attempted.
2. Are in good standing at College of Marin, i.e., you are eligible to re-enroll.
3. Have completed or will complete prior to transfer at least 30 semester units of courses equivalent to general education requirements with a grade of C or higher. The 30 units must include all of the general education requirements in communication in the English language (English composition, oral communication, and critical thinking) and at least one course...
GENERAL EDUCATION PROGRAM FOR THE BACHELOR’S DEGREE AT CALIFORNIA STATE UNIVERSITY

In addition to other requirements for graduation with a baccalaureate degree, California State University requires preparation for general education. Proper planning should enable students to satisfy the state university general education breadth requirements concurrently with requirements for either an Associate in Arts (A.A.) or Associate in Science (A.S.) degree from College of Marin.

CSU General Education Certification

Approximately 124 semester units are required for a Baccalaureate degree at a California State University of which 48 units must be in general education within a prescribed pattern. Thirty-nine units may be completed and certified in whole or in part at College of Marin. The remaining nine units must be taken as upper division courses after transfer to the four-year university.

Community colleges may certify no more than 30 units of general education from Subject Areas B, C, and D combined. The remaining units may be taken from Areas A and/or E.

Completion of 39 units of general education for the California State University System is not a requirement for admission. However, it is recommended that these units be completed during the first 60 units of college.

Students must make a request for certification of general education prior to attending California State University by completing two forms:
1. A Request for Transcript, and
2. A Request for General Education Certification.

United States History, Constitution, and American Ideals Requirement

In addition to general education, California State Universities also require coursework in the areas of United States History, Constitution, and American Ideals for graduation. Courses at the College of Marin that fulfill the two-course requirement are:
3. One course in United States History to be chosen from the following:
   a. Ethnic Studies 111 or 112 or 121 or 151
   b. History 100 or 117 or 118

4. One course in Constitution and American Ideals to be chosen from the following:
   a. Political Science 100 or 101

2015-2016 CSU GENERAL EDUCATION PROGRAM

AREA A - ENGLISH LANGUAGE COMMUNICATION AND CRITICAL THINKING

Nine units. Select one course each from A-1, A-2, and A-3

A-1 ORAL COMMUNICATION
Speak 110, 120, 122, 130, 132

A-2 WRITTEN COMMUNICATION
English 150

A-3 CRITICAL THINKING
English 130, 151, 155
Philosophy 112
Speech 132

Area Notes
(a) Speech 132 may be used for A-1 or A-3, but not both.

AREA B – SCIENTIFIC INQUIRY AND QUANTITATIVE REASONING

Nine units. Select one course from B-1, B-2, B-3, and B-4 (A laboratory course marked by an asterisk * in B-1 and B-2 will satisfy B-3).

B-1 PHYSICAL SCIENCES
Astronomy 101
Biology 138*, 160
Environmental Landscaping 160
Environmental Science 138*
Geography 101, 112
Geology 103, 109, 110, 114, 120, 121*, 201*

B-2 LIFE SCIENCE (BIOLOGICAL)
Anthropology 101
Biology 107, 109, 110, 112ABC*, 120*, 138*, 162*, 224*, 235*, 240*
Environmental Science 138*
Kinesiology 107
B-3 LABORATORY ACTIVITY
Anthropology 101L
Astronomy 117L
Biology 110L, 112ABC, 120, 138, 162, 224, 235, 240
Chemistry 105L, 110, 114, 115, 131, 132, 231, 232
Environmental Science 138*
Geography 101L
Geology 120L, 121, 201

B-4 MATHEMATICS/QUANTITATIVE REASONING
Computer Science 117
Math 104 or 104XY, 105, 109, 115, 116, 121, 122, 123, 124, 223, 224
Statistics 115

Area Notes
(a) Credit is given for only one course in each of the following sets:
Biology 107 or Kinesiology 107
Biology 138 or Environmental Science 138
Biology 160  or Environmental Landscaping 160
Computer Science 117 or Math 117
(c) Biology 138 or Environmental Science 138 may be used for B-I or B-2, but not both.

AREA C – ARTS AND HUMANITIES
Nine units. Select at least one course each in Arts (C-1) and Humanities (C-2).

C-1 ARTS (ART, DANCE, MUSIC, THEATRE)
Architecture 100, 101, 102
Dance 103, 108
Drama 103, 110, 150, 260
Ethnic Studies 108
Film 109A, 109B
Humanities 108, 109A, 109B
Music 101, 102, 103, 105, 106, 109

C-2 HUMANITIES (LITERATURE, PHILOSOPHY, AND FOREIGN LANGUAGE)
American Sign Language 101, 102, 110, 203
Chinese 101, 102
Drama 116, 117
Ethnic Studies 154
History 110, 111, 112
Humanities 100A, 100B, 107, 114, 118, 125, 242
Italian 101, 102, 108A, 203, 204, 225, 226
Speech 140

Area Notes
(a) Credit is given for only one course in each of the following sets:
Art 108 or Ethnic Studies or Humanities 108
Film 109A or Humanities 109A
Film 109B or Humanities 109B
Humanities 114 or Humanities 118
English 242 or Humanities 242
(b) American Sign Language 110 may be used for C-2 or D-1, but not both.

AREA D – SOCIAL SCIENCES
Nine units. Select three courses from two different disciplines.
Administration of Justice 204
American Sign Language 110
Anthropology 102, 103, 110, 204, 208, 215
Behavioral Science 103, 114
Biology 108A, 251
Business 101
Communication 110, 160
Early Childhood Education 110, 112
Economics 101, 102
Ethnic Studies 110, 111, 122, 121, 151, 242
Geography 102, 109
History 100, 101, 102, 103, 109, 110, 111, 112, 117, 118, 206, 211, 212, 214, 215, 216, 238
Journalism 110, 160
Political Science 100, 101, 102, 103, 104, 117, 201, 110, 211, 212, 219, 220
Psychology 110, 111, 112, 114, 116, 140, 145, 204, 205, 230, 250, 251
Sociology 110, 112, 114, 140, 205, 230, 250
Speech 128

Area Notes
(a) Credit is given in Area D or Area E, but not both for the following courses:
Behavioral Science 103 or Biology 108A
Psychology 251
Communication 110 or Journalism 110
Communication 160 or Journalism 160
History 211 or Political Science 211
History 212 or Political Science 212
Psychology 111 or Psychology 116
Psychology 140 or Sociology 140
Psychology 205 or Sociology 205
Psychology 230 or Sociology 230
Area Notes
(b) Credit is given for only one course in each of the following sets:
Behavioral Science 103 or Biology 108A
Psychology 251
Communication 110 or Journalism 110
Communication 160 or Journalism 160
History 211 or Political Science 211
History 212 or Political Science 212
Psychology 111 or Psychology 116
Psychology 140 or Sociology 140
Psychology 205 or Sociology 205
Psychology 230 or Sociology 230
Area Notes
(c) Courses listed in multiple groups in Area D may not be certified in more than one group.
American Sign Language 110: C-2 or D-1
Communication 160: D-3 or D-4
Ethnic Studies 111, 112, 121, 151: D-3 or D-6
Journalism 160: D-3 or D-4
History 211: D-4 or D-6 or D-8
History 212: D-6 or D-8
Political Science 211: D-4 or D-6 or D-8
Political Science 212: D-6 or D-8
Psychology 205: D-0 or D-9
Sociology 205: D-0 or D-9

AREA E - LIFELONG UNDERSTANDING
AND SELF-DEVELOPMENT
Three units. Select one course.
Behavioral Science 103, 114, 118
Biological 100, 108A
Counseling 130
Early Childhood Education 110
Health Education 112, 130, 140
Psychology 110, 111, 112, 114, 140, 145
Sociology 140

Area Notes
(a) Credit is given in Area D or Area E, but not both for the following courses:
Behavioral Science 103 or Biology 108A
Psychology 251
Communication 110 or Journalism 110
Communication 160 or Journalism 160
History 211 or Political Science 211
History 212 or Political Science 212
Psychology 111 or Psychology 116
Psychology 140 or Sociology 140
Psychology 205 or Sociology 205
Psychology 230 or Sociology 230
Area Notes
(b) Credit is given for only one course in each of the following sets:
Behavioral Science 103 or Biology 108A
Psychology 251
Communication 110 or Journalism 110
Communication 160 or Journalism 160
History 211 or Political Science 211
History 212 or Political Science 212
Psychology 111 or Psychology 116
Psychology 140 or Sociology 140
Psychology 205 or Sociology 205
Psychology 230 or Sociology 230
COLLEGE OF MARIN COURSES TRANSFERABLE TOWARD BACCALAUREATE DEGREE CREDIT AT THE CALIFORNIA STATE UNIVERSITY

Courses are accepted by California State University for credit toward the baccalaureate degree that College of Marin designates as appropriate for baccalaureate credit. These courses are designated in this catalog with the symbol "(CSU)" at the end of their descriptions. To determine whether a course fulfills a requirement for a major, consult the catalog of the school to which you intend to transfer or online at ASSIST (www.assist.org), and a counselor. College of Marin credit courses numbered 99 or below are generally not CSU-transferable (Exceptions: PE 70-80), College of Marin credit courses numbered 100 or above are generally CSU-transferable, with the following exceptions:

The following courses are not CSU-transferable:
- Automotive Technology 250A
- Biology 270
- English 120AC
- Mathematics 101, 101AB, 101XY, 102G, 103, 103AB, 103XY, and 199

UNIVERSITY OF CALIFORNIA TRANSFER INFORMATION

General Admission Information to the University of California Campuses: Berkeley, Davis, Irvine, Los Angeles, Merced, Riverside, San Diego, San Francisco, Santa Barbara, and Santa Cruz

The University considers you a transfer applicant if you graduated from high school and enrolled in a regular session at a college or university. As a transfer applicant, you may not disregard your college record and apply as a freshman.

College of Marin transfer students should take courses that are transferable, that satisfy University and college requirements, and that fulfill prerequisites in the major. Advisors in the Admissions Office at the campus you wish to attend and College of Marin counselors can help you with your planning.

The transfer admission requirements described in this section represent the minimum level of achievement to be eligible for admission to the University.
Important: It is not advisable for all transfer students to follow the IGETC. The IGETC is not recommended for students planning to major in Engineering, Biological and Physical Sciences or majors that require extensive lower division preparation. Contact a College of Marin counselor for further information regarding University of California or California State University schools where completion of the IGETC is not recommended.

Full IGETC Certification
It is strongly recommended that all course work applicable to the IGETC be completed and certified in its entirety prior to transfer in order to be accepted by the University of California or California State University. Certification indicates that all lower division general education requirements for UC or CSU have been met. Courses certified for IGETC must be completed with a grade of C or higher. It shall be the student’s responsibility to request certification when requesting the last transcript from College of Marin prior to entering the University of California or California State University system. Students should contact the Counseling Department to initiate IGETC certification.

In addition to the course requirements for each subject area, full certification for California State University must include completion of the Oral Communication Requirement. For the University of California, Oral Communication is not required, but the certification must include satisfactory completion of a Language Other Than English Requirement.

Courses taken at other institutions may be used to fulfill the IGETC. Students should be aware, however, that placement of courses within IGETC subject areas may vary from college to college. Placement of a course will be based on the college of attendance and its IGETC pattern at the time the course was completed. Please contact the Counseling Department for more information.

Completion of the IGETC program will be certified by the last community college that the student attends. As a general rule, IGETC can be certified for California community college transfer students who have completed transfer units at a University of California, California State University, or independent college provided that the student has completed most of the transfer units at one or more California community colleges.

Partial IGETC Certification
Partial certification is defined as completing all but two (2) courses on the IGETC pattern. Partial certifications must be accompanied by a separate IGETC certification form, which clearly indicates that the certification is “partial,” and identifies which requirements remain to be completed. WARNING: students need to meet minimum UC/CSU transfer admission requirements. Therefore, partial certification that acknowledges a deficiency in IGETC Area 1 and or 2 may also indicate that a student does not meet minimum transfer requirements. For more information regarding partial certification, please contact the Counseling Department. Determination that courses remaining have been completed after transfer is the responsibility of the receiving UC or CSU campus. Community colleges are not required to request certification when requesting the last transcript from College of Marin prior to entering the University of California or California State University system. Students should contact the Counseling Department to initiate IGETC certification.

Advanced Placement
Advanced Placement Test (AP) scores can be used to satisfy certain areas under IGETC. A score of 3, 4, or 5 is required to grant credit for IGETC certification. An acceptable AP score for IGETC equates to either 3 semester units or 4 quarter units for certification purposes. Each AP exam may be applied to one IGETC area as satisfying one course requirement, with the exception of Language Other Than English (LOTE).

Advanced Placement (AP)
A score of 3, 4, or 5 is required to grant credit for IGETC certification. An acceptable AP score for IGETC equates to either 3 semester units or 4 quarter units for certification purposes. Each AP exam may be applied to one IGETC area as satisfying one course requirement, with the exception of Language Other Than English (LOTE).

*AP exams may be used in either area regardless of where the certifying CCC’s discipline is located.

Please consult with a counselor for more information regarding AP and IGETC credit.
2015-2016 IGETC Program

**Symbols:**

(+): Indicates that either the University of California or the California State University or both will limit transfer credit. Please refer to “Courses from the College of Marin Acceptable at the University of California (All Campuses)” in this section of the catalog or consult a counselor.

(*) Courses listed in multiple areas shall not be certified in more than one area except for courses in Language Other Than English, which can be certified in both areas 3B and 6A.

(o) Note: Courses approved for Fall 91 may be taken prior to Fall 91. Courses approved for Fall 92 or later may not be taken prior to Fall 92.

**AREA 1 - ENGLISH COMMUNICATION**
For CSU: select three courses, one each from Group A, B, and C. For UC, select two courses, one each from Group A and B.

**GROUP A - ENGLISH COMPOSITION**
English 150

**GROUP B - CRITICAL THINKING/ENGLISH COMPOSITION**
English 151, 155*

**GROUP C - ORAL COMMUNICATION (CSU REQUIREMENT ONLY)**
Speech 110, 120, 122, 130, 132*

**AREA 2 - MATHEMATICAL CONCEPTS AND QUANTITATIVE REASONING**
Select one course, three semester units.

- Computer Science 117
- Math 105, 109, 115+, 116, 117, 121+, 122+, 123+, 124+, 223, 224
- Statistics 115+

**AREA 3 - ARTS AND HUMANITIES**
Select three courses, with at least one course from Group A and one course from Group B, nine semester units.

**GROUP A - ARTS**
Architecture 100+, 101+, 102+
- Art 101, 102, 103, 104, 105, 106, 107, 108, 110
- Dance 103, 108
- Drama 103, 110
- Ethnic Studies 108
- Film 109A, 109B
- Humanities 108, 109A, 109B
- Music 101, 102, 103, 105, 109

**GROUP B - HUMANITIES**
- American Sign Language 102*, 203*
- Chinese 102*
- Drama 116, 117
- Ethnic Studies 154
- History 110*, 111*, 112*
- Humanities 100A, 100B, 107, 114, 118, 125, 242
- Italian 102*, 108A, 203*, 204*, 225*, 226*
- Japanese 102*, 203*, 204*, 225*, 226*
- Philosophy 110, 111, 115, 116, 117, 118

**Area Notes**
Credit is given for only one course in each of the following sets:
- Art 108 or Ethnic Studies 108 or Humanities 108
- English 242 or Humanities 242
- Film 109A or Humanities 109A
- Film 109B or Humanities 109B
- Humanities 114 or 118

**AREA 4 - SOCIAL AND BEHAVIORAL SCIENCES**
Select three courses, nine semester units. Courses must be selected from at least two disciplines.
- Anthropology 102+, 103+, 110, 204, 208, 215+
- Behavioral Science 103
- Biology 108A+, 251
- Communication 110, 160
- Early Childhood Education 110
- Economics 101, 102
- Ethnic Studies 110, 111, 112, 121, 151, 242
- Geography 102, 109
- History 100+, 101, 102, 103, 109, 110+, 111*, 112*, 117+, 118+, 206, 211, 212, 214, 215, 216, 238
- Journalism 110, 160
- Political Science 100+, 101+, 102, 103, 104, 201, 210, 211, 212, 219, 220
- Psychology 110, 111+, 112+, 114+, 116+, 140, 204, 205, 230, 251
- Sociology 110, 112, 114, 140, 205, 230
- Speech 128

**Area Notes**
Credit is given for only one course in each of the following sets:
- Behavioral Science 103 or Biology 108A
- Biology 251 or Psychology 251
- Communication 110 or Journalism 110
- Communication 160 or Journalism 160
- History 211 or Political Science 211
- History 212 or Political Science 212

**GROUP D - PHYSICAL AND BIOLOGICAL SCIENCES**
Select at least two courses, one course from Group A and one course from Group B, seven to nine semester units. At least one of the courses selected must include a laboratory. Courses that are labs or have a lab component are underlined.

**GROUP A - PHYSICAL SCIENCES**
- Astronomy 101
- Biology 110, 111, 112ABC, 120, 138, 162, 224, 235, 240
- Environmental Science 138
- Kinesiology 107

**GROUP B - BIOLOGICAL SCIENCES**
- Anthropology 101
- Biology 107, 109, 110+, 112ABC, 120, 138, 162, 224, 235, 240
- Environmental Science 138

**GROUP C - SCIENCE LABORATORY**
- Anthropology 101L
- Biology 110L, 112ABC, 120, 138, 162, 224, 235, 240
- Environmental Landscaping 160
- Environmental Science 138
- Geography 101, 112
- Geology 103, 109, 110+, 114, 120+, 121, 201
- Physics 108A+, 108B+, 110+, 207A+

**Area Notes**
(a) Credit is given for only one course in each of the following sets:
- Biology 107 or Kinesiology 107
- Biology 138 or Environmental Science 138
- Biology 160 or Environmental Landscaping 160
- (b) Biology 138, Environmental Science 138 may be used for 5A or 5B but not both
AREA 6 - LANGUAGES OTHER THAN ENGLISH (UC Requirement only)

6A - Languages Other Than English
May be met by one of the following:

- Two years of one language other than English in high school with a grade of “C” or higher.
- Satisfactory completion, with a grade of “C” grade or higher, of two years of formal schooling at the sixth grade level or higher in an institution where the language of instruction is not English. Documentation must be presented.
- Completion of one of the following courses:
  - American Sign Language 101, 102*, 203*, 204
  - Chinese 101, 102*
  - French 101, 102*, 203*, 204*, 225*, 226*
  - Italian 101, 102*, 203, 204, 225, 226

Area Note: Courses listed in multiple areas shall not be certified in more than one area except for courses in Languages Other Than English, which can be certified in both areas 3B and 6A.

COURSES FROM THE COLLEGE OF MARIN ACCEPTABLE AT THE UNIVERSITY OF CALIFORNIA (ALL CAMPUSES)

All of the following courses are transferable with limitations as indicated.
To determine whether a course fulfills a requirement for a major, you must consult the catalog of the University of California campus to which you plan to transfer. Please see a counselor if you have any questions and for specific requirements that must be met prior to transfer.

ADMINISTRATION OF JUSTICE
110, 111, 118, 204

AMERICAN SIGN LANGUAGE
101*, 102, 203, 204
* Corresponds to two years of high school study.

ANTHROPOLOGY
101, 101L, 102*, 103*, 110, 204, 208, 215+
*102 and 103 combined: maximum credit, one course.
+May be taken twice for credit (per College).

ARCHITECTURE
100*, 101*, 102*, 110**, 130**
*100, 101, and 102 combined: maximum credit, two courses.
**Any or all of these courses combined: maximum credit, 18 semester units per UC Berkeley’s College of Environmental Design.

ART
*190, 191, 192, and 290 combined: maximum credit, 6 units.

ASTRONOMY
101, 117L

BEHAVIORAL SCIENCE
103 (same as BIOL 108A), 105, 118

BIOLOGY

*No credit for 110 or 110L if taken after 112ABC.

BUSINESS
101, 107, 112, 113

CHEMISTRY
*No credit for 114 if taken after 131
+ No credit for 115 if taken after 231
oo 132 and 132E combined: maximum credit, one course.
232 and 232E combined: maximum credit, one course.

CHINESE
101*, 102*
*Corresponds to two years of high school study.

COMMUNICATION
110 (same as JOUN 110), 160 (same as JOUN 160)
Any or all of these courses combined: maximum credit, one course.

COMPUTER INFORMATION SYSTEMS
110, 215

COMPUTER SCIENCE
117 (same as MATH 117), 130, 135, 150 (same as ENGG 150), 160, 220, 232, 235

COUNSELING
110, 114, 116

DANCE
* Any or all of these activity courses combined: maximum credit, 4 units.
** Any or all of these activity courses combined: maximum credit, 4 units.

DRAMA

EARLY CHILDHOOD EDUCATION
110

ECONOMICS
101, 102, 125 (same as ETST 125, HIST 125, POLS 125, SSC 125)

EDUCATION
110, 111

ENGINEERING
110A, 125, 150 (same as COMP 150), 220, 220L, 235, 245

ENGLISH
*120S and any other transferrable ESL course combined: maximum credit, 8 units.

CALIFORNIA STATE UNIVERSITY GRADUATION REQUIREMENT IN UNITED STATES HISTORY, CONSTITUTION AND AMERICAN IDEALS.
(This is not a part of the IGETC, but may be completed prior to transfer to the CSU.)
Select one course from Group A and one course from Group B

GROUP A - UNITED STATES HISTORY
Ethnic Studies 111, 112, 121, 151
History 100, 117, 118

GROUP B - CONSTITUTION AND AMERICAN IDEALS
Political Science 100, 101

[The rest of the text continues with a list of courses accepted at the University of California (all campuses) with their limitations and credits indicated.]

| VARIABLE TOPICS COURSES |
| (Independent Study, Selected Topics, Internship, Fieldwork, etc.) |
| Note: The granting of transfer credit for courses of this kind is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from faculty. Information about internships may also be presented for review, but credit for internships rarely transfers to UC. UC does not grant credit for variable topics courses in Journalism, Photography, Health, Business Administration, Architecture, Administration of Justice (Criminology) or Library Departments because of credit restrictions in these areas. |
Page intentionally left blank.
INFORMATION CONTAINED WITHIN CREDIT COURSE DESCRIPTIONS

The first part of the course description contains the course discipline abbreviation, number, title, and the student unit value of the course. Example: ENGL 150: Reading and Composition 1A, 3.0 Units. It also contains the hours required for the course, the number of times the course may be repeated for credit (if any), and any prerequisites, corequisites, advisories, or other limitations.

The second part of the description is a brief explanation of the material covered in the course.

At the end of the description, University of California (UC) and California State University (CSU) transfer and Associate degree information is included. For further information regarding transfer or degree requirements, please refer to the Graduation and Degree Requirements Section and the Transfer Information Section of this catalog.

NONCREDIT COURSES

The college offers free noncredit courses in several areas; please see the Noncredit listings at the end of Course Descriptions for courses in Basic Skills (ESBS), Disabled Students Programs and Services (DSPN), and Vocational (VOCN). For English as a Second Language Noncredit (ESLN) courses, please see the ESL listings. For Nursing Education Vocational (VOCN) courses, please see Nursing Education (NE) listings. No credit is awarded for noncredit courses. Noncredit courses have no prerequisites or repeatability restrictions, and vary in the number of hours of instruction offered.

STUDENT UNITS AND HOURS

Credit for courses offered at College of Marin is awarded in semester units. The value of the course is calculated on the basis of one unit for each lecture hour per week for one semester (together with two hours of preparation outside class) or three hours of laboratory work per week for one semester. Semesters (Fall and Spring) are 16 to 18 weeks in duration; the Summer session is 6 weeks. Courses meeting in the Summer session, or for less than the full semester, require an equivalent number of hours prorated on a per week basis.

PREREQUISITES, COREQUISITES, AND ADVISORIES

Prerequisites

A prerequisite is a condition of enrollment that a student is required to meet in order to demonstrate current readiness for enrollment in a particular course or program. The College requires students to complete prerequisite courses with a grade of C, P, or higher prior to registering in the course requiring the prerequisites. Examples of courses that may require prerequisites:

1. Courses for which specific prerequisites have been justified by content review, the appropriate level of scrutiny and any other validation procedures required by law (Title 5, 55201 a-f).
2. Sequential courses in a degree-applicable program.
3. Courses requiring a prerequisite to transfer to a four-year college.
4. Courses requiring preparation to protect health and safety.
5. Technical or vocational courses or programs that require special preparation.

Equivalent Course Work/ Prerequisite Challenges

Some prerequisites may be satisfied by equivalent course work from an accredited institution other than College of Marin. Students also have the right to challenge prerequisites on certain, specified grounds and procedures. Please contact a counselor for more information.

Corequisites

A corequisite is a condition of enrollment consisting of a course that a student is required to take simultaneously in order to enroll in another course. Courses that require corequisites include courses that are part of a closely related lecture-laboratory pairing; for example, English 92 and English 92L. Students may not enroll in one without enrolling in the other.

Advisories

An advisory is a condition that a student is advised, but not required, to meet before or in conjunction with enrollment in a course or educational program. For example, students enrolled in Biology 110 are advised to also enroll in Biology 110L.

Other Limitations

Other limitations on enrollment may include:

1. Courses that require public performance or competition.
2. Blocks of courses for which enrollment is limited in order to create a cohort of students.

Physical Sciences Prerequisite Recency Requirement

To ensure student success, certain chemistry and physics courses have established 5-year prerequisite recency requirements beginning in Fall 2014. The chemistry prerequisites for CHEM 131, 132, 132E, 231, 232 and 232E and the physics prerequisites for PHYS 108B, 207B and 207C must have been successfully completed within the past 5 years. Students may challenge these recency requirements by taking a test, by arrangement with the Physical Sciences Department chairperson.

GRADING SYSTEMS

Different grading systems are used for different courses. Some will be limited to letter grades, some will be limited to pass/no pass grading and the remainder will be optional letter or pass/no pass grades, upon agreement between the instructor and student. For some disciplines, grading is indicated in the catalog before the discipline’s course descriptions. In general, courses required for a student’s four-year major should be taken on a letter grade basis.

COURSE NUMBERING SYSTEM

Courses in this catalog and in the schedule of classes are numbered in the following sequence:

- 0-099: Preparatory/remedial courses and courses that do not apply to the major. Courses numbered 00-99 are not applicable to the Associate degree.
- 100-199: Courses taken during the first year of academic work or the first 30 units of course work. Courses numbered 100-199 are applicable to the Associate degree.
- 200-299: Courses taken during the second year of academic work or the second 30 units of course work. Courses numbered 200-299 are applicable to the Associate degree.
- 300-399: Selected Topics: New “pilot” preparatory/remedial courses that do not apply to the Associate Degree. (Selected Topics courses are not listed in this catalog.)
• 139 - Selected Topics: New "pilot" courses that may be applicable to the Associate degree and are accepted for CSU elective credit (with limit). (Selected Topics courses are not listed in this catalog.)

• 249 - Independent Study: Offered in most disciplines, by prior arrangement with instructor, for 1 to 3 units, requiring 3 laboratory hours weekly per unit. Please see Independent Study listing. Independent Study courses may be applicable to the Associate Degree.

REPEATABLE COURSES
Under certain circumstances, students may repeat courses in which a grade of "C" or higher or "CR" or "P" was earned. Effective Fall 2013, many courses in Art, Dance, Drama, Music, and Kinesiology are no longer eligible for repeatability. Current courses that are repeatable are identified in the course descriptions. For more information about course repetition, please see Section 2 of this catalog, "Admissions, Registration, and Academic Information."

ADMINISTRATION OF JUSTICE
There are excellent and increasing opportunities for men and women in all areas of the administration of justice field. Education and training is becoming more important for those who seek careers in criminal justice. This program is designed to provide a solid foundation of knowledge that will prepare the student for initial employment, advancement, or transfer to a four-year college or university.

Career Options
Border Patrol Agent, California Highway Patrol, Correctional Counseling, County and State Park Ranger, Court Administration, Deputy Sheriff, Federal Bureau of Investigation, Immigration and Naturalization Service, Law, Paralegal, Police Officer, State Correctional Officer

A.A.-T. IN ADMINISTRATION OF JUSTICE
Associate in Arts in Administration of Justice for Transfer degree (AA-T)
This degree is primarily intended for the student who wants to earn a degree on the way to transferring to a California State University.

To complete the Associate in Arts in Administration of Justice for Transfer degree, a student must:
1. Complete 60 semester units or 90 quarter units that are eligible for transfer to the California State University, including both of the following:
   • The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education – Breadth Requirements.
   • A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district.
2. Complete all courses in the major with a grade of "C" or better, or "P" if the course is taken as "pass/no pass."
3. Obtain of a minimum grade point average of 2.0.

A.S. IN ADMINISTRATION OF JUSTICE, OCCUPATIONAL
(Certificate of Achievement also awarded)
An Associate in Science degree is awarded for satisfactory performance in major courses, as well as completion of general education and graduation requirements. A Certificate of Achievement in Administration of Justice is awarded for satisfactory completion of courses required for the major.

Students wishing to earn a degree or Certificate of Achievement in Administration of Justice should be aware that it might take longer than two years. However, courses are offered on a two-year cycle, and with planning, a student can complete a degree and/or Certificate of Achievement in a two year period.

ADMINISTRATION OF JUSTICE COURSES (AJ)

AJ 110: Introduction to Administration of Justice
3.0 Units. 3 lecture hrs/wk. No prerequisite.

The history and philosophy of justice as it evolved throughout the world; in-depth study of the American system and the various subsystems; roles and role expectations of criminal justice agents in their interrelationships in society; concepts of crime causation,
punishments and rehabilitation; ethics, education, and training for professionalism in the social system. (CSU/UC)

**AJ 111: Criminal Law**  
3.0 Units. 3 lecture hrs/wk. No prerequisite.  
Historical development, philosophy of law and constitutional provisions; definitions, classifications of crimes and their applications to the system of administration of justice; legal research, review of case law, methodology, and concepts of law as a social force. Explores crimes against persons, property, and the state as a social, religious, and historical ideology. (CSU/UC)

**AJ 113: Criminal Procedures**  
3.0 Units. 3 lecture hrs/wk. No prerequisite.  
Legal processes from prearrest, arrest through trial, sentencing and correctional procedures; a review of the history of case and common law; conceptual interpretations of law as reflected in court decisions; study of case law methodology and case research as the decisions impact the procedures of the justice system. (CSU)

**AJ 116: Juvenile Law and Procedure**  
3.0 Units. 3 lecture hrs/wk. No prerequisite.  
Techniques of handling juvenile offenders and victims; prevention and repression of delinquency; diagnosis and referral; organization of community resources. Juvenile law and juvenile court procedures. (CSU)

**AJ 118: Community and Human Relations**  
3.0 Units. 3 lecture hrs/wk. No prerequisite.  
The relationship of criminal justice agents and the community; causal and symptomatic aspects of community understanding; lack of cooperation and mistrust; study of behavioral causes; ways to develop and maintain amicable relationships. (CSU/UC)

**AJ 204: Crime and Delinquency**  
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as AJ 204 or SOC 184; credit awarded for only one course.  
An introduction to the major theoretical explanations of criminal behavior; social and economic factors which contribute to crime; major typologies of criminal behavior; criminal justice systems and research; courts, probation and parole; police and other institutions. The course takes a sociological perspective and integrates theories from sociology, criminology, and criminal justice. (CSU/UC) CSU Area D-0

**AJ 212: Introduction to Evidence**  
3.0 Units. 3 lecture hrs/wk. No prerequisite.  
Origin, development, philosophy, and constitutional basis of evidence; constitutional and procedural considerations affecting arrest, search and seizures; kinds and degrees of evidence and rules governing admissibility; judicial decisions interpreting individual rights; and case studies viewed from a conceptual level. (CSU)

**AJ 215: Introduction to Investigation**  
3.0 Units. 3 lecture hrs/wk. No prerequisite.  
Fundamentals of investigation; techniques of crime scene search and recording; collection and preservation of physical evidence; modus operandi processes; sources of information; interview and interrogation; follow-up investigation. (CSU)

**AJ 220: Vice, Narcotics, and Organized Crime**  
3.0 Units. 3 lecture hrs/wk. No prerequisite.  
This course examines the relationship between organized crime and the community. It covers the impact of organized crime, history of organized crime, relationship to the social structure, symptoms of organized crime (e.g. corruption, dysfunctional behavior, violence), and attempts to control organized crime and the role of the legal system. Sociological theory and concepts from criminal justice are integrated into the course. (CSU)

**AMERICAN SIGN LANGUAGE**

American Sign Language (ASL) courses are designed to meet the needs of the Deaf community in the United States and Canada. American Sign Language is a full natural language at the core of a new literary tradition, in both poetry and theatre. It is an alternative language choice for students completing general education humanities requirements at College of Marin.

**Policy Statement Regarding Sequence of Enrollment in American Sign Language Classes**  
Although students are advised to enroll in language courses sequentially, they will not be precluded from enrolling in lower level language classes after completion of more advanced courses. Students should be aware, however, that units resulting from the lower level courses may not be accepted at transfer institutions as a part of the required transferring units.

Department Phone: 415-485-9480

**AMERICAN SIGN LANGUAGE COURSES (ASL)**

**ASL 101: Elementary Sign Language I**  
5.0 Units. 4 lecture and 3 TBA hrs/wk. No prerequisite.  
This introductory course emphasizes visual readiness skills for recognition and expression of appropriate facial expressions and body movements, response to commands, and learning how to visualize the environment. Communicative functions, vocabulary, grammar, and cultural aspects of the deaf community are introduced and studied. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 6A: UC Language other than English

**ASL 102: Elementary Sign Language II**  
5.0 Units. 4 lecture and 3 TBA hrs/wk. Prerequisite: ASL 101.  
A continuation of ASL 101; exchanging information, identifying others, making requests, giving reasons, options, simple directions, and asking for clarification. Discussions revolve around classes, the campus, home, work and transportation, physical descriptions of people and objects, general conversation skills, visual perception and specific specialization skills, and the continuation of the cultural study of the deaf community. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B and 6A: UC Language other than English

**ASL 110: History and Culture of Deaf People in America**  
3.0 Units. 3 lecture hrs/wk. No prerequisite.  
This course identifies basic anthropological approaches toward the examination and study of minority groups in general, with specific emphasis on American Deaf culture as a minority group. Includes
an introductory comparison of the structures of visual and spoken languages and a presentation of the normative system of laws in America that has developed for deaf Americans. (CSU) AA/AS Areas C and G, CSU Areas C-2 or D-1

**ASL 203: Intermediate Sign Language III**  
5.0 Units. 4 lecture and 3 TBA hrs/wk. Prerequisite: ASL 102.  
This course is a continuation of ASL 101 and 102, expanding upon the conversational and grammar functions, and delving more deeply into Deaf Culture. Skills to be learned include locating things, asking for solutions to everyday problems, telling about life events and personal background, making suggestions and requests, and asking permission. Students learn how to engage in more sustained communication in ASL, sometimes on philosophical and cultural topics.  
(CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B and 6A: UC Language other than English

**ASL 204: Intermediate Sign Language IV**  
4.0 Units. 4 lecture hrs/wk. Prerequisite: ASL 203.  
This course strives for a higher level of conversation and narration skills. Topics include describing problems at home, work and school, expressing opinions and feelings and argumentation; i.e., how to disagree with someone and potentially change that person’s mind.  
(CSU/UC) AA/AS Area C, IGETC Area 6: UC Language other than English

**ANTHROPOLOGY**

Anthropology is a scientific discipline concerned with all aspects of humankind: human biology and genetics; ancestral fossils and evolutionary processes; primates; cultures of the world; language and customs; cross-cultural marriage and family processes; prehistory and archaeology; art, healing, religion, and technology. Because it is such a diverse discipline, one may find anthropologists uncovering our early ancestors in Africa, excavating a pyramid in Central America, studying peoples in New Guinea or in San Francisco, collecting information on orangutans in Southeast Asia, and advising business and government on customs in India.

ANTHROPOLOGY COURSES (ANTH)

ANTH 101: Introduction to Physical/Biological Anthropology
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This course examines evolutionary theory as a unifying theory that encompasses human variation and human evolution, as well as genetics and the human genome. Topics include primates, including behavior, anatomy, and features of the skeletal system; forensic analysis; archaeological theory and methodology; scientific method; and an overview of the most significant fossil sites that relate to human evolution. The department has an extensive collection of fossil casts that allows students the opportunity to actually see them in person rather than relying solely upon photographs or descriptions. Some instructors may require field trips to local zoos, museums or lectures. (CSU/UC) AA/AS Area A, CSU Area B-2, IGETC Area 5B

ANTH 101L: Physical/Biological Anthropology Laboratory
1.0 Unit. 3 lab hrs/wk. Prerequisite: ANTH 101 or concurrent enrollment.
Laboratory and related exercises selected from the fields of: genetics, the human genome, human variability, medical genetics, nonhuman primates, human dental and skeletal anatomy, forensics, primate behavior, reconstruction, fossil hominids, the scientific method including probability and research design. This course covers in greater detail areas which are taught in ANTH 101 and which require the active participation of students in learning how to accomplish specific tasks related to the above areas. Field trips may be included. (CSU/UC) AA/AS Area A, CSU Area B-2 or B-3, IGETC Area 5C

ANTH 102: Introduction to Cultural Anthropology
3.0 Units. 3 lecture hrs/wk. No prerequisite.
The study of human behavior from a cross-cultural perspective. Emphasis is placed on non-Western societies. Areas may be covered are social organization, belief systems and ritual behavior, socialization, psychological anthropology, economic organization, social stratification, theory, and other selected topics. A goal of the course is to create a greater degree of cross-cultural awareness by attempting to promote an understanding of and appreciation for the richness and diversity of human culture. (CSU/UC) AA/AS Area B, CSU Area D-1, IGETC Area 4A

ANTH 103: Globalization and Peoples and Cultures of the World
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This course explores what is happening to cultural groups from diverse regions around the world. The focus is on cultural change, impact of technology, and external and regional pressures and how they impact local groups. The roles of women and children, ethnic/racial/religious violence, class conflict, poverty, child/female trafficking, slavery, child soldiers, disease, forced migration, famine and genocide are covered. The roles of the World Bank, World Trade Organization, multi-national corporations, and local and regional elites are presented as they relate to the lives of specific ethnic groups. Theory from ethnology and ethography are used as a basis for analysis. (CSU/UC) AA/AS Area B, CSU Area D-1, IGETC Area 4A

ANTH 104: Introduction to Linguistic Anthropology
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This course introduces students to the anthropological study of language, verbal and non-verbal human communication. Using a cross-cultural perspective, students examine the relationship between culture and the ways in which humans communicate. Topics include structural linguistics, biological and cultural mechanisms of language acquisition, historical linguistics, and sociocultural linguistics, as well as issues surrounding language loss and conservation. (CSU)

ANTH 110: Introduction to Archaeology and Prehistory
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This course includes the methods of recovery, analysis and interpretation of material culture, current research questions, current controversies, frauds of the past, ethical problems confronting the archaeologist and some of the spectacular discoveries. Some of the questions to be explored include the origin of art and writing, the evolution of tool making, how and why agriculture began, why civilizations rose and fell, and who settled the Americas. (CSU/UC) AA/AS Area B, CSU Area D-1, IGETC Area 4A

ANTH 150: Introduction to Research Methods
3.0 Units. 3 lecture hrs/wk. Prerequisite: SOC 110 or PSY 110 or ANTH 101 or ANTH 102. May be taken as ANTH 150, BEHS 150, PSY 150, or SOC 150; credit awarded for only one course.
This course introduces the methods, logic, and empirical and analytical strategies behavioral scientists use to study the social world. Students gain knowledge and practical experience in the scientific method, evaluation of evidence, and the research design and development process. Key topics include qualitative and quantitative modes of inquiry, formulating research questions, developing and testing hypotheses, ethics of research, and developing a study design and methodology. (CSU)

ANTH 204: Native American Cultures
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This survey course examines early examples of habitation in the western hemisphere. The course illustrates the peopling of the Americas and lifeways of native cultures in addition to colonialism and its impacts on native peoples. Traditional cultural systems, social organization, religious beliefs, art, and economy are discussed for selected cultural groups. Contemporary conditions of native peoples in the hemisphere, including land rights, tribal independence, natural resource rights, and social problems are examined. (CSU/UC) AA/AS Areas B & G, CSU Area D-1, IGETC Area 4A

ANTH 208: Magic, Folklore, and Healing
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This course surveys belief systems and folklore from a cross-cultural perspective. It asks: What do we know about the origins of belief systems? Why do people in most societies believe in unseen spirits and powers? How do people use supernatural or special powers to gain control over their own lives or the lives of others? What is the subdiscipline of folklore and how does it relate to the subject matter and to anthropology as a whole? Examples are drawn from a wide variety of cultural areas. (CSU/UC) CSU Area D-1, IGETC Area 4A
ANTH 215: Native Americans of California
3.0 Units. 3 lecture hrs/wk. No prerequisite.
The study of California Native Americans includes the prehistoric period (as seen through archaeology), contact with explorers, the mission period, post mission, and contemporary issues. Major linguistic groups are discussed in terms of environmental setting, subsistence, technology, political organization, social structure, religion, ceremonial life, art, and mythology. (CSU/UC) AA/AS Areas B & G, CSU Area D-1, IGETC Area 4A

ARCHITECTURE

Mankind has been designing and building permanent structures for about twelve thousand years, and these structures have come to dominate the environment that most people inhabit. The architect faces an exciting challenge: to understand the sometimes competing needs of individuals and groups, the need to protect our natural environment, the technical requirements of buildings and structures, the role of economics, and the importance of designing projects that not only meet these quantifiable needs but that also inspire and delight us.

In the twenty-first century, the value of green/sustainable design is becoming more and more obvious and is an important part of our curriculum. We also offer rich classes in architectural design, drafting and presentation, architecture as a profession, computer aided design, and history of architecture.

Courses in the Architecture Department are designed to serve students who aspire to transfer to other schools of architecture by giving them a sound basis in critical thinking and fundamental knowledge of the discipline, to offer a two year degree option for those who wish to achieve a solid base of knowledge and skills for work in architecture or related fields, and to present learning opportunities to those whose interest in architecture is directed toward more personal rather than career goals.

Career Options

Department Phone: 415-485-9480

A.S. IN ARCHITECTURE

The associate degree program in Architecture is designed to prepare students for work in architecture, architectural drafting and illustration, construction, and other fields where knowledge of architectural history, design, and communication is useful. Some courses are available online with no on-campus attendance required. Students who complete the requirements listed below, plus additional general education and graduation requirements, will be awarded the associate degree. Note: Students are required to complete English 150 for the associate degree. All students should consult a counselor.

ARCH 100: History of Architecture I
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This class traces the development of architecture and cities throughout the world from the earliest permanent settlements at the end of the Ice Age to the 1100s C.E., emphasizing the evolution of architectural ideas and the connection between architecture and culture. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A

ARCH 101: History of Architecture II
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This class traces the development of architecture and cities throughout the world from the 1100s C.E. to the end of the nineteenth century, emphasizing the evolution of architectural ideas and the connection between architecture and culture. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A

ARCH 102: History of Architecture III
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This class traces the development of architecture and cities throughout the world during the twentieth century, emphasizing the evolution of architectural ideas and the connection between architecture and culture. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A

ARCH 110: Beginning Architectural Design
4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite.
This design course explores fundamental principles and issues of architectural design through the use of abstract design projects. Students interested in architecture, interior design, landscape design, engineering, building construction, gallery or theatre design, sculpture and other fine arts create their own design solutions, moving from beginning sketches through development, to final models. Students develop an architectural vocabulary and thought process in a group studio environment, and address formal, symbolic and contextual concepts of architecture. (CSU/UC)

ARCH 111: Intermediate Architectural Design
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisites: ARCH 110 and 120.
This design course explores local urban and rural architectural design projects through lectures, design projects, site visits, individual and group critiques, model building and drawings. Human needs, social factors, public/private issues, contexture, historic precedent, and aesthetic perception are emphasized. Students learn about design methodology, site and program analysis, and presentation tech-
techniques. Students further address formal, symbolic, and contextual issues of architecture. (CSU)

ARCH 120: Beginning Architectural Drawing
4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite.
In this foundation course, students learn hard-line drawing skills and architectural conventions including plan, elevation, section, paraline and perspective drawing, as well as freehand sketching and presentation rendering. Communication between designers, clients and builders is emphasized. Appropriate for those interested in interior design, landscape architecture, construction and engineering. (CSU)

ARCH 121: Intermediate Architectural Drawing
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: ARCH 120. Advisories: ARCH 110 and 130; may be taken concurrently.
A practical intermediate course in architectural drawing. It builds on basic drawing and lettering techniques, and introduces more advanced applications for architectural projections (plan, section and elevation), detail and working drawings, and architectural rendering. Basic wood frame construction is introduced and applied to practical architectural and construction problems. (CSU)

ARCH 130: Introduction to Architecture and Environmental Design
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This course provides a foundation for future architecture, interior design, landscape architecture, and city planning courses. It explores the basic elements of architecture and the built environment including form, organizational principles, context, materials, and the sensory qualities of design. The design process and professional practice are also addressed. Emphasis is placed on the process of developing one’s personal approach to design, the ways in which people experience architecture, and the relationship of architecture to society. (CSU/UC)

ARCH 140: Digital Tools for Architectural Design
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: ARCH 120 or concurrent enrollment. Advisory: ARCH 110 or 130.
Students learn basic 3D computer modeling applications for use in architectural design and related fields, augmenting hand modeling and drawing techniques already in place. Includes use of computer-based presentation tools for effective communication; helpful in the design studio and later with clients and broader audiences such as city planners and neighbors. The class uses current industry standard software; the concepts learned will also serve students encountering other modeling/presentation programs in the future. (CSU)

ARCH 141: Computer Drawing for Architecture and Construction
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: ARCH 120. Advisory: ARCH 110.
Students learn the skills needed to produce 3D computer models and to extract 2D construction drawings from them (plans, sections and elevations). These skills reinforce the hand-drawing conventions taught in ARCH 120. Students acquire the tools for project development and construction drawing necessary in internships and practice. Emphasizes the effective communication and logical organization that facilitates drawing, the revision process and collaboration. The class is taught using industry standard software; basic concepts and skills apply to most CAD applications. (CSU)

ART
The study of art will enrich the student’s experience of the world, and encourage the student to draw upon creative resources. An education in art can lead to professional or vocational careers, as well as enhance abilities in other fields. The Art Department offers a foundation in theoretical and practical skills, and the opportunity to work in a wide variety of specific art media.

A.A.T. IN ART HISTORY
Associate in Arts in Art History for Transfer degree (AA-T)
This degree is primarily intended for the student who wants to earn a degree on the way to transferring to a California State University.

To complete the Associate in Arts in Art History for Transfer degree, a student must:
1. Complete 60 semester units or 90 quarter units that are eligible for transfer to the California State University, including both of the following:
   • The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education – Breadth Requirements.
   • A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district.
2. Complete all courses in the major with a grade of “C” or better, or “P” if the course is taken as “pass/no pass.”
3. Obtain a minimum grade point average of 2.0.

### A.A. IN ART

The Art Program provides transfer, professional preparation, personal development, general interest, and general education, as well as an Associate in Arts degree. Students who complete the requirements listed below, plus additional general education and graduation requirements, will be awarded the associate degree. Courses are offered at both campuses. Students may take courses at either campus to fulfill requirements for the major. Note: Students are required to complete English 150 for the associate degree. All students should consult a counselor.

**TOTAL MAJOR UNITS: 42**

* More advanced classes offered, but major requirements must be satisfied from the courses listed above.

#### A.S. IN DESIGN, APPLIED, OCCUPATIONAL

Courses in this program are offered at both campuses. Students may take courses at either campus to fulfill requirements for the major. The program offers a problem solving approach to design. The students elect the emphasis area (either two-dimensional or three-dimensional) that is most compatible with their occupational goals. Students who complete the requirements listed below, plus additional general education and graduation requirements, will be awarded the associate degree. Note: Students are required to complete English 150 for the associate degree. All students should consult a counselor.

**TOTAL MAJOR UNITS: 42**

* More advanced classes offered, but major requirements must be satisfied from the courses listed above.
Additionally, applied design majors with an emphasis in three-dimensional design must complete 16 units (four courses) from the following art studio courses:

ART 116 Jewelry Design I 4
ART 117* Jewelry Design II 4
ART 118 Art Gallery Design and Management I 4
ART 119* Art Gallery Design and Management II 4
ART 165 Fiber Sculpture I 4
ART 170 Ceramics I 4
ART 171* Ceramics II 4
ART 180 Sculpture I 4
ART 181* Sculpture II 4
ART 185 Life Sculpture I 4
ART 186* Life Sculpture II 4

**TOTAL MAJOR UNITS 38**

* More advanced classes offered, but major requirements must be satisfied from the courses listed above.

**A.S. IN DESIGN, APPLIED – INTERIOR, OCCUPATIONAL**

Some courses in this program are offered at both campuses. Students may take courses at either campus to fulfill requirements for the major. Someone wisely said that it requires the knowledge of the historian, the connoisseur, the merchant, the engineer, the psychologist, and the artist to be a good designer. The following program reflects that teaching philosophy and gives the most advantageous sequence for required and recommended classes. Students who complete the requirements listed below, plus additional general education and graduation requirements, will be awarded the associate degree.

Note: Students are required to complete English 150 for the associate degree. All students should consult a counselor.

In addition:
One art studio course other than those required for the major

**TOTAL MAJOR UNITS** 49

**ART COURSES (ART)**

**ART 101: History of Ancient Art**
3.0 Units. 3 lecture hrs/wk. No prerequisite.

This course surveys early art and visual culture in a selection of sites, including prehistoric, Near Eastern, Greek, Roman, and Byzantine. Emphasis is placed on enhancing students’ ability to observe and describe visual works, and to understand them in their social and historical context. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A

**ART 102: History of European Art**
3.0 Units. 3 lecture hrs/wk. No prerequisite.

This class surveys the visual creations of a variety of European cultures from medieval times to the mid-nineteenth century. The interactions of cultures and religions are considered in relation to their art. Emphasis is placed on enhancing students’ ability to observe and describe visual works, and to understand them in their social and historical context. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A

**ART 103: History of Modern Art**
3.0 Units. 3 lecture hrs/wk. No prerequisite.

This class is a survey of art and visual culture from the mid-nineteenth century to the present. (For focus on recent art, see Art 105.) Emphasis is placed on enhancing the student’s ability to observe and describe visual works, and to understand them in their social and historical context. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A

**ART 104: History of Asian Art**
3.0 Units. 3 lecture hrs/wk. No prerequisite.

This course is a comparative study of art and visual culture in the Far East, including India, China, Japan, Korea, and Southeast Asia. Work in a variety of materials is studied in relation to its social and religious contexts. The role of Asian art in the contemporary world is considered, including work by expatriate artists. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A

**ART 105: History of Contemporary Art**
3.0 Units. 3 lecture hrs/wk. No prerequisite.

This course covers recent art, focusing on the art and visual culture of the last thirty years. Emphasis is on new concepts and techniques by a diverse selection of artists. The visual and social issues raised by contemporary art is considered. Includes field trips to art galleries or other points of interest. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A

**ART 106: History of Women Artists**
3.0 Units. 3 lecture hrs/wk. No prerequisite.

This class introduces visual work by women of diverse cultures and identities. A variety of media is covered, from historical to contemporary eras. Students develop visual awareness, and familiarity with the social circumstances in which the work was produced. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A

**ART 107: History of American Art**
3.0 Units. 3 lecture hrs/wk. No prerequisite.

This class surveys the art and visual culture of the United States in historical and contemporary eras, including work by a diverse selection of artists. A variety of media will be presented through classroom presentations and field trips. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A
ART 108: History of Arts of the Americas
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as Art 108, ETST 108, or HUM 108; credit awarded for only one course.
This course covers a selection of the art and visual culture of the Americas: North, Central, and South America, and the Caribbean. Art of the United States focuses on works from the culturally diverse peoples of the Bay Area. (CSU/UC) AA/AS Area C & G, CSU Area C-1, IGETC Area 3A

ART 109: Gallery Seminar in Art
2.0 Units. 1 lecture and 3 lab hrs/wk. No prerequisite.
Seminar in art history based on art available in museums, galleries, and collections. This course may be conducted at any site where original art objects are available for study and discussion. It includes assigned reading, lectures, and discussion trips to study art. Seminar discussion and presentations follow field trips. Content and areas of concentration may vary depending on locations and availability of art. (CSU)

ART 110: History of Islamic Art
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This survey of Islamic art considers the development of artistic forms produced for the practice of Islam, as well as art and architecture produced for and by people who live in predominantly Islamic regions. Visual cultures from Spain to China are discussed, from the 7th century C.E. to the present. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A

ART 112: 2-D Art Fundamentals
4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite.
An introductory level studio course that encourages students to express themselves by using and understanding the elements of 2-D art: line, shape, texture, value, color, perspective, and space. Principles of composition will be explored using a wide variety of media. This course is required for art majors and highly recommended for all art students. (CSU/UC) CSU Area C-1

ART 113: 3-D Art Fundamentals
4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite.
An introductory level studio course that encourages students to express themselves by using and understanding the elements of 3-D art: line, plane, volume, mass, surface treatment, light and shadow. Principles of composition will be explored using a wide variety of materials that may include wire, cardboard, plaster, clay, papier-mache, and mixed media. This course is required for art majors and highly recommended for all art students. (CSU/UC) CSU Area C-1

ART 114: Interior Design I
4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite.
An introduction to interior design theory and practice, contemporary architecture and furniture design, space design, color theory and application, construction methods, materials and terminology, architectural drafting, and interior design client work and presentations. The class includes discussion, lecture, audiovisual materials, field trips and guest lectures. (CSU) CSU Area C-1

ART 115: Interior Design II
4.0 Units. 3 lecture and 3 lab hrs/wk. Repeat: 2. No prerequisite.
Covers period design and decorations from the styles of antiquity through the Victorian era. Extensive reading is required to cover the historic evolution of interior design in the Western world. A number of tests, as well as oral, visual, and written projects, are given. This course may also include field trips that relate to history and interior design. (CSU)

ART 116: Jewelry Design I
4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite.
Design and creation of jewelry utilizing basic construction and casting techniques. Emphasis is on basic skill development. (CSU) CSU Area C-1

ART 117: Jewelry Design II
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 116.
Advanced design and creation of jewelry. Emphasizes development of soldering skills, die forming, forging, constructed hinges and catches, and intermediate stone setting. Casting is included. (CSU)

ART 118: Art Gallery Design and Management I
4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite.
This course is geared to bring awareness and professional skills to both studio arts students and those wanting to be employed in the arts. The class teaches the basic mechanics of preparing, organizing, designing, and installing art exhibitions at the College of Marin Fine Art Gallery. Field trips include visits to local galleries, museums, artist's studios, other educational venues, non-profit art spaces, and alternative exhibition venues. (CSU) CSU Area C-1

ART 119: Art Gallery Design and Management II
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 118.
This course emphasizes the demonstration of students' skill, responsibility, and command of concepts and practices involved in the basic mechanics of preparing, organizing, designing, and installing art exhibitions at the College of Marin Fine Art Gallery with direct instructor supervision. The course is geared to studio arts students and those seeking employment in the arts. Field trips include visits to local galleries, museums, artist's studios, other educational venues, non-profit art spaces, and alternative exhibition venues. (CSU)

ART 128: Art Field Trips
1-4 Units. 0.75 lecture and 0.75 lab hrs/wk. No prerequisite. Can be taken as Art 128, ETST 128, or HUM 128; credit awarded for only one course.
A complement to art history and studio art courses, this course allows students to experience the art and architecture of sites like New York, Mexico City, and Rome first-hand. Pre-trip lectures set up background for an intensive field trip(s) that may include visits to museums, galleries, libraries, artists' studios, and to architectural and archeological sites where lecture, discussion, and personal exploration take place. May be used to bring students to a major media-specific conference. (CSU)

ART 129: Materials and Techniques
4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite.
Through lecture/demonstrations and hands-on practice, this course familiarizes students with historical methods and materials of painting, including paleolithic painting, egg tempera, encaustic, true fresco and oil techniques of the Renaissance. Assignments involve making the paint required for creating examples of each medium, personalizing and adapting the methods to a modern context. (CSU/UC)
ART 130: Drawing and Composition I
4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite.
Exercises in line, light and shadow, texture, proportion, and perspective rendering of objects in space; development of composition awareness by means of balance, focal point, area of emphasis, proportion, economy, etc. A variety of graphic materials (pencil, charcoal, pen and ink, washes, etc.) is used for both realistic and experimental drawing approaches. Lectures, demonstrations, critiques, and supervision of work in progress. A sketchbook and/or portfolio of work done in and out of class may be required. Required of all art majors. (CSU/UC) CSU Area C-1

ART 131: Drawing and Composition II
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 130.
Continuation of drawing exercises in line, light and shadow, texture, and perspective rendering of objects in space; development of principles of composition. A variety of graphic materials (pencil, charcoal, pen and ink, washes, etc.) is used for both realistic and experimental drawing as well as an introduction to the use of color and collage in drawing. Lectures, demonstrations, critiques, and supervision of work in progress. A sketchbook and/or portfolio of work in and out of class may be required. (CSU/UC)

ART 134: Life Drawing I
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 130.
This course provides students with a basic understanding of proportion, structure, and superficial anatomy of the human figure, combined with further study of appropriate media and drawing techniques. Required of art majors. (CSU/UC) CSU Area C-1

ART 135: Life Drawing II
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 134.
This course provides students with a basic understanding of proportion, structure, and superficial anatomy of the human figure, combined with further study of appropriate media and drawing techniques. Required of art majors. (CSU/UC)

ART 138: Advanced Critique
1.0 Unit. 1 lecture hrs/wk. No prerequisite.
A monthly critique/seminar designed for intermediate to advanced students of painting, drawing, sculpture, ceramics, textiles, photography, jewelry, and mixed media to have their work reviewed and participate in the review from a variety of perspectives. Note: “Advanced” means the student has taken a number of courses in art or is a working artist who wants feedback on his/her work. (CSU)

ART 140: Painting I
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 112 or 130.
This course is designed to teach the process of making paintings. Students methodically cover the essential steps: selecting significant shapes, balancing composition, mixing paints, perfecting techniques and developing skills. Four paintings are required of all students. Attendance is essential for instructional, studio and critique sessions. Oil, acrylic and mixed media. (CSU/UC) CSU Area C-1

ART 141: Painting II
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 140.
The more advanced the student, the more a strong individual approach is encouraged. Because of the varied abilities and experience found at this level, the semester assignments are self-imposed but reviewed by the instructor on the basis of scope, technical improvement, and development of concept. Attendance is essential for instructional, studio, and “critique” sessions. Oil, acrylic, and mixed media. (CSU/UC)

ART 144: Watercolor I
4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite.
A course designed to acquaint beginners with the materials, techniques, and experience of painting with watercolor. Frequent critique sessions, lectures, and demonstrations examine topics such as paper selection and reaction to the medium, the tendency of watercolor to flow, and its qualities of transparency and evaporation. (CSU/UC) CSU Area C-1

ART 145: Watercolor II
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 144.
A continuation of Watercolor I, but with greater emphasis on personal development and expression. Students are encouraged to develop a visual vocabulary and way of using the watercolor medium to express their own ideas and way of seeing things. (CSU/UC)

ART 146: Life Painting I
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 140.
The development and refinement of painting skills, form, and composition using the human figure as subject matter. Both traditional and experimental means of expression are examined. Lectures, demonstrations, critiques, and supervision of work in progress. Painting and/or a portfolio of work in and out of class may be required. (CSU/UC) CSU Area C-1

ART 147: Life Painting II
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 146.
Continued development and refinement of painting skills, form, and composition using the human figure as subject matter. Both traditional and experimental means of expression are examined. Lectures, demonstrations, critiques, and supervision of work in progress. Painting and/or a portfolio of work in and out of class may be required. (CSU/UC)

ART 148: Color Theory
4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite.
The general theory and practice of color and its uses in painting, interior design, architecture, and computer-based design. The course includes color mixing, color matching, color harmonies, color interactions, and the effects of different lighting sources on color. The physics and biology of color are explained, and various cultures’ use of color is discussed. Color as it applies to still life, landscape, and portraiture is demonstrated and practiced. (CSU/UC) CSU Area C-1

ART 152: Printmaking I
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 130. Advisory: Art 125.
This course introduces the concepts and techniques of basic fine art printmaking. Instruction and studio work include intaglio (etching and drypoint), relief (woodcut and linocut) collagraph and monotype
ART 153: Printmaking II
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 152.
A continuing course in the concepts and techniques of printmaking. Instruction and studio work include intaglio (etching, drypoint, and engraving), relief (woodcut and linocut) collagraph and monotype methods. Emphasis is on the fine arts approach to printmaking although the relationship of these processes to the graphic arts is explored. Formal and individual critiques on work. (CSU/UC)

ART 156: Fiber Sculpture II
4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite. Advisory: Art 165.
Open to students from all art disciplines including textiles, who seek to integrate construction with sculpture, painting, and crafts, etc. An exploration of flexible, fragile, or fibrous materials such as cloth, paper, plastic, reed, wire, and threads. (CSU)

ART 166: Fiber Sculpture I
4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite. Advisory: Art 165.
This course concentrates on handbuilding functional ceramic ware and kiln firing. Students are required to use basic design and drawing skills in developing their assignments. Includes use of stoneware glazes, kiln loading and raku and soda firing. (CSU/UC)

ART 167: Hand Built Ceramics
4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite. Advisors: Art 112 or 113; and 130.
This course concentrates on the use of the potter’s wheel in the creation of functional and sculptural ceramic objects. Techniques of wheel throwing and trimming cups, bowls, vases, pitchers, lidded forms, closed forms, teapots and plates are demonstrated as well as handle making. Students are required to use basic design and drawing skills in developing their assignments. Emphasis is on refinement of technique rather than quantity. Covers stoneware glaze development, kiln loading, stoneware and soda firing. (CSU/UC)

ART 174: Life Sculpture I
4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite.
In this class, both classical and contemporary approaches to figure sculpture are studied. Working from live models, students learn to interpret the pose, study spatial relationship and proportion, experiment with scale and learn to compose as they examine human form. Materials may include clay, wax, and plaster. Historical and
ART 186: Life Sculpture II
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 185.
In this class, both classical and contemporary approaches to sculpture are studied. Working from live models, students learn to interpret the pose, study spatial relationship and proportion, experiment with scale, and learn to compose as they examine the human form. Materials may include clay, wax, and plaster. Historical and contemporary approaches to the figure are studied in slide lectures and readings. (CSU) CSU Area C-1

ART 190: Black and White Photography I
4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite.
An introduction to black and white photography. The basics of camera use, film development and darkroom printing are presented with an emphasis on balancing technical skills with artistic expression. Group critiques and visual slide presentations help to inform bi-weekly shooting assignments. Basic adjustable 35mm film camera and lens are required. (CSU) CSU Area C-1

ART 191: Black and White Photography II
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 190.
This intermediate, darkroom-based course is designed to meet the needs of art students, photography majors and others who qualify for an intermediate semester of black and white photography. The class emphasizes balancing technical skill with development of concept and artistic expression. Continued discussion and analysis of student work in group and individual critiques. Greater control over technique is developed. Assignments are presented as visual problems to be solved in different ways. Basic adjustable 35mm film camera and lens required. Shooting assignments outside of class time are required. (CSU) CSU Area C-1

ART 192: Black and White Photography III
4.0 Units. 6 lab hrs/wk. Prerequisite: Art 190.
This darkroom-based course emphasizes the development of concept and individual artistic expression. Continued development of individual strengths and future projects are introduced through assignments. Basic adjustable 35mm film camera and lens required. (CSU) CSU Area C-1

ART 193: Beginning Digital Photography
4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite.
The exploration of photography as an art form using digital tools and software. Emphasis is balanced between technical skill and the creative process. In-class exercises, out-of-class shooting assignments, and group critiques. A basic digital camera is required. (CSU)

ART 194: Intermediate Digital Photography
4.0 Units. 6 lab hrs/wk. Prerequisite: Art 192.
The continued exploration and development of individual photographic digital projects. Emphasis is balanced between improving technical skill and continuing the creative process. Continued discussion through critique. A basic digital camera is required. (CSU)

ART 196: Digital Scanning and Archiving of Film, Slides, and Prints
4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite.
Discover how to design a logical system to organize and locate image files using cutting-edge, user-friendly, affordable photography software. Obtain marketable skills and/or archive important images for future generations. Excellent for art students, photography majors, and others who have negatives or slides and would like to scan, modify, or simply archive them digitally using a film scanner. Emphasis is on developing skills through basic assignments. Software: Adobe Lightroom. (CSU)

ART 200: Portfolio Development
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as Art 200 or MMST 200A, 200D or 200E; credit awarded for only one course.
Through lecture, research and critiques, students develop a professional portfolio of their personal artwork that reflects their interests, skills and career goals. This course is for students who have accomplished artistic skills and wish to develop strategies of self-promotion for their body of work. (CSU)

ART 213: Internship for Art Careers
3.0 Units. 1 lecture, 1.5 lab and 4.5 TBA hrs/wk. Prerequisite: Art 200.
This course bridges the gap between the classroom and the creative industries. By providing an on-campus lecture class coupled with a short-term internship, students gain an understanding of applying their creative work in a real-life situation. Expectations are characterized by work-group activities, multiple projects under deadline, and collaborative efforts. Internships are not guaranteed. Intern projects may be suitable for students’ portfolios. (CSU)

ART 216: Jewelry Design III
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 117.
This course involves more advanced forming methods, tool making, repousse, advanced hinges and catches, stone setting, rubber mold making and casting. (CSU)

ART 217: Jewelry Design IV
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 216.
Advanced design and creation of jewelry, emphasizing the functional, conceptual and aesthetic aspects of designing. Includes advanced forming techniques, advanced hinges and catches, stone setting, rubber mold making and casting. (CSU)

ART 218: Art Gallery Design and Management III
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 119.
Advanced course to allow students to apply practical application of techniques, materials, aims, and principles covered in the first two semesters. Students to plan and assume responsibilities for various phases of proposed exhibits to be installed in the Kentfield Campus Fine Arts Gallery. (CSU)

ART 219: Art Gallery Design and Management IV
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 218.
Advanced course to allow students to apply practical application of techniques, materials, aims, and principles covered in the first three semesters. Students take greater responsibility for all phases of one specific exhibit to be exhibited at the Kentfield Campus Fine Arts Gallery. (CSU)
ART 234:  Life Drawing III
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 135.
Lectures, demonstrations, and supervision of work in progress. Drawing from undraped models. Classwork stresses the expressive qualities of the figure, and drawing accurately and sensitively with a variety of media. A sketchbook of work done outside of class is required. (CSU/UC)

ART 235:  Life Drawing IV
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 234.
Lectures, demonstrations, and supervision of work in progress. Drawing from undraped models. Classwork stresses the expressive qualities of the figure, and drawing accurately and sensitively with a variety of media. A sketchbook of work done outside of class is required. (CSU/UC)

ART 240:  Painting III
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 141.
The more advanced the student, the more a strong individual approach is encouraged. Because of the varied abilities and experience found at this level, the semester assignments are self-imposed but reviewed by the instructor on the basis of scope, technical improvement, and development of concepts. Attendance is essential for instructional, studio, and “critique” sessions. Oil, acrylic, and mixed media. (CSU/UC)

ART 241:  Painting IV
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 240.
The more advanced the student, the more a strong individual approach is encouraged. Because of the varied abilities and experience found at this level, the semester assignments are self-imposed but reviewed by the instructor on the basis of scope, technical improvement, and development of concepts. Attendance is essential for instructional, studio, and “critique” sessions. Oil, acrylic, and mixed media. (CSU/UC)

ART 244:  Watercolor III
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 145.
This course emphasizes personal expression as well as mastery of the technical challenges particular to the medium. Students are encouraged to further their commitment to their work, balancing technical skills in direct correlation to their work’s content. Frequent critique sessions, lectures, and demonstrations examine paper selection and reaction to the medium, the tendency of watercolor to flow, and its qualities of transparency and evaporation. (CSU/UC)

ART 245:  Watercolor IV
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 244.
This course continues the emphasis on personal expression and exploration, and on mastering technical challenges particular to the medium. Students further their commitment to their work, balancing technical skills in direct correlation to their work’s content. Frequent critique sessions, lectures, and demonstrations examine paper selection and reaction to the medium, the tendency of watercolor to flow, and its qualities of transparency and evaporation. (CSU/UC)

ART 246:  Life Painting III
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 147.
A continuation of painting practices in developing the figure as part of the composition, correct proportions of the figure in space, light and shadow, and brushwork. Oil or acrylic paint is used for both realistic and experimental figure painting, and for developing an awareness of the use of color. Lectures, demonstrations, critiques, and supervision of work in progress. Paintings and/or a portfolio of work done in and out of class may be required. (CSU/UC)

ART 247:  Life Painting IV
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 246.
Advanced instruction in painting the human figure. Individualized instruction allows for emphasis to be placed on either portraiture or painting the entire figure. Concepts of color, design and style are included for the advanced student. Experimentation in new techniques and materials is encouraged. (CSU/UC)

ART 252:  Printmaking III
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 153.
An advanced course in the concepts and techniques of fine art printmaking. Instruction and studio work include drypoint, etching and engraving, linocut and collagraphs, monotype and solar plate exploration. (CSU)

ART 253:  Printmaking IV
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 252.
A continuing course in the concepts and techniques of fine art printmaking. Instruction and studio work include advanced explorations in intaglio, relief, lithography, monotype, collagraphs, and photo polymer plate processes. (CSU)

ART 265:  Fiber Sculpture III
4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite. Advisory: Art 166.
Experimental media in the textile construction field encourage ideas not bound by a vast history and lend themselves to fresh and spontaneous ways of working with surface and structure. Application of skills and personal direction to advanced level work. Emphasis on developing individual concepts and expression. (CSU)

ART 266:  Fiber Sculpture IV
4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite. Advisory: Art 265.
Emphasis is placed on the design process and development of a personal strategy for problem solving. Problems pertaining to perception, use of the imagination, and expanding imagery are given in areas of construction technique as well as dyeing and surface treatment. Students are expected to have a body of finished work that demonstrates their explorations and conceptual approach at the end of this class. (CSU)
ART 270: Ceramics III
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 171. Advisory: Art 113 or 130.
Advanced and in-depth interpretation of common class projects with greater expectations of further technical and conceptual development. Mentoring of beginning students, lab assistance in glaze preparation, kiln loading and firing. Advanced proficiency with various types of clay bodies and glaze formulation. Concentration on individual projects which illustrate more comprehensive aesthetic understanding and technical independence. (CSU)

ART 271: Ceramics IV
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 270. Advisories: Art 113 and 130.
Advanced and in-depth interpretation of the common class project with greater expectations of further technical and conceptual development. Mentoring of beginning students, lab assistance in glaze calculation, kiln loading and firing. Advanced proficiency with various types of clay bodies and glaze formulation. Concentration on individual projects which illustrate more comprehensive aesthetic understanding and technical independence. (CSU)

ART 275: Ceramic Sculpture
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 171 or 177. Advisory: Art 113 or 130.
Advanced study of ceramics with a focus on the technical and aesthetic considerations of ceramics as a sculptural medium. Intended for students already well grounded in basic techniques who are interested in the study of historical and contemporary approaches to clay as an expressive medium. (CSU/UC)

ART 276: Advanced Wheel Thrown Ceramics
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 176. Advisory: Art 113 and 130.
An in-depth interpretation of wheel thrown ceramics with greater expectations of further technical and conceptual development. Mentoring of beginning students, lab assistance in glaze calculation, kiln loading and firing. Advanced proficiency with various types of clay bodies and glaze formulation. Concentration on individual projects which illustrate more comprehensive aesthetic understanding and technical independence. (CSU/UC)

ART 278F: Large Scale Ceramics: Emphasis on the Figure as Primary Subject
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 171 or 177. Advisories: Art 113 and 130.
This course, intended for intermediate and advanced ceramics students who are already well grounded in basic clay working skills and glazing methods, is an opportunity to enlarge the scale of individual work as well as participate in the design, creation and installation of public art. Each project requires progressive technical ability and is assigned according to the student’s level of experience, areas of interest and skill level. Examples of historical and contemporary architectural and large scale ceramics are explored through field trips, slide lectures and visits to regional sites. (CSU)

ART 278T: Large Scale Ceramics: Emphasis on Tile and Murals
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 171 or 177. Advisories: Art 112, 113, 130.
This course is intended for the intermediate and advanced ceramics student who is already well grounded in basic clay working skills and glazing methods. This is an opportunity to enlarge the scale of individual work as well as participate in the design, creation and installation of public art. Examples of historical and contemporary architectural and large scale ceramics are explored through field trips, slide lectures and visits to regional sites. (CSU)

ART 280: Sculpture III
4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite.
Study of the structure of form as manifest in self-expression. Survey of the history of sculpture, including contemporary directions. Instruction in basic techniques of stone and wood carving, modeling, moldmaking, welding, bronze casting, and plaster. Visiting artists participate and field trips to museums and galleries are planned. (CSU)

ART 281: Sculpture IV
4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite.
Study of the structure of form as manifest in self-expression. Survey of the history of sculpture, including contemporary directions. Instruction in basic techniques of stone and wood carving, modeling, moldmaking, welding, bronze casting, and plaster. Visiting artists participate and field trips to museums and galleries are planned. (CSU)

ART 285: Life Sculpture III
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 186.
This is a continuation of Life Sculpture II. Continued exploration of development and technique with emphasis on individual investigation of content. Students have an opportunity to move toward abstraction to explore basic concepts of modern sculpture. (CSU/UC)

ART 286: Life Sculpture IV
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Art 285.
This is a continuation of Life Sculpture III. Continued exploration of development and technique with emphasis on individual investigation of content. Students have an opportunity to move toward abstraction to explore basic concepts of modern sculpture. (CSU/UC)

ART 290: Black and White Photography IV
4.0 Units. 1 lecture and 3 lab hrs/wk. Prerequisite: Art 190.
An emphasis on the development of individual artistic expression using advanced techniques. Continued development of individual projects working towards a portfolio. Darkroom use. A basic 35mm adjustable film camera and lens are required. (CSU/UC)

ART 295: Advanced Projects in Art
4.0 Units. 6 lab hrs/wk. Prerequisite: Completion of highest course level in area of study, such as Art 131, 217, 235, 241, 245, 247, 271, 281, 286, or 290. Advisory: Art 138 and 118.
This course provides advanced students with the opportunity to design and implement individual creative projects under the direction of the instructor. It provides a forum for exploring and testing potential project ideas that students take from concept to final product. Intended for students who are ready to plan, design, and
execute independent projects such as exhibitions, publications, and installations. May be taken four times for credit with a distinctive project required each time. (CSU)

**ART 296: Advanced Group Projects in Art**
4.0 Units. 6 TBA hrs/wk. Repeat: 3. Prerequisite: Completion of highest course level in area of study, such as Art 131, 217, 235, 241, 245, 247, 271, 281, 286, or 290. Advisory: Art 138 and 118.

This course provides advanced students with the opportunity to design and implement group creative projects under the direction of the instructor. It provides a forum for exploring and testing potential project ideas that students take from concept to final product. Intended for students who are ready to plan, design, and execute group projects such as public installations and group exhibitions. May be taken up to four times for credit, with a distinctive group project required each time. (CSU)

**ASTRONOMY**

Will the universe expand forever? Is there life on other planets? How do stars form? These are only a few of the exciting questions confronting astronomers. The development of space observatories, the construction of large telescopes on earth, and the availability of large computers for data analysis and theoretical calculations has been accompanied by a rapid growth in the sophistication of this field.

**Career Options**
Astronomer/Astrophysicist, Astronomy Instructor, Director of Planetarium/Science Museums, Observatory Staff Member, Technical Staff Member

Department Phone: 415-485-9549

**ASTRONOMY COURSES (ASTR)**

**ASTR 101: Introduction to Astronomy**
3.0 Units. 3 lecture hrs/wk. No prerequisite.

This course is a non-mathematical description of the universe designed especially for the nonscience student. Topics include motions in the sky, historical astronomy, Newton’s laws, gravitation, light, the solar system, stellar evolution, galaxies, and cosmology. (CSU/UC) AA/AS Area A, CSU Area B-1, IGETC 5A

**ASTR 117L: Introduction to Astronomy Lab**
1.0 Unit. 3.3 lab hrs/wk. Prerequisite: ASTR 101 or concurrent enrollment.

This course will develop students’ ability to investigate and solve problems in astronomy. Techniques of experimentation, direct observation, data gathering, and interpretation are employed to solve both classical and contemporary problems in astronomy. The class includes observations using telescopes, astrophotography, and computer acquisition of data. (CSU/UC) AA/AS Area A, CSU Area B-1 or B-3, IGETC Area 5A

**AUTOMOTIVE COLLISION REPAIR TECHNOLOGY**

The Automotive Collision Repair Technology Program is designed to prepare students for entry into one or more of the many service branches of the expanding automotive collision repair and maintenance fields. This program will also meet the needs of those in the adult community interested in acquiring the knowledge and skills necessary to repair and maintain the appearance and value of their personal vehicles.

**Career Options**
Auto Design Engineer, Insurance Estimator/Adjuster, Owner/Operator/Manager (Independent or Dealer), Specialist in Body Work, Specialist in Painting, Working Foreman

Faculty
Ron Palmer
Department Phone: 415-457-8811, Ext. 8532

**A.S. IN AUTOMOTIVE COLLISION REPAIR TECHNOLOGY, MASTER COLLISION REPAIR, OCCUPATIONAL**

The Automotive Collision Repair Technology Program is offered at the Indian Valley Campus. Students who complete the requirements for Master Collision Repair in ACRT listed below, plus additional general education and graduation requirements, will be awarded an Associate in Science degree. In addition, students may be credited with up to two years toward their apprenticeship in Marin County’s automotive reconditioning and refinishing market. Note: Students are required to complete English 150 for the associate degree. All students should consult a counselor.

AUTOMOTIVE COLLISION REPAIR TECHNOLOGY COURSES

ACRT 100: Career Math, Resumes and Customer Relations
4.0 Units. 4 lecture hrs/wk. May also be taken as AUTO 100; credit awarded for only one course.

This course reviews addition, subtraction, multiplication and division of whole numbers, fractions, decimals and percentages. Also included are ratio and proportion, the metric system, graphs and applications specific to automotive technology, paint mixing ratios and writing repair orders. Training on writing a resume, filling out job applications, developing a portfolio, and organizing and completing a personal tax form. The course covers worker/employer relationships and addresses customer relations in the industry which includes improving individual attitudes, productivity and morale in the workplace.

ACRT 101: Basic Sheet Metal Operations for Automotive Collision Repair
2.0 Units. 1 lecture and 3 lab hrs/wk. Repeat: 3. No prerequisite.

This course introduces basic metalworking techniques and their usefulness in other applications. It includes basic metal straightening fundamentals and introduces tools, techniques, and theories of metalworking. Students learn how to follow a professionally prepared blueprint or personal drawing, and learn about hybrid technology components and new vehicle aerodynamics. They study metallurgy, and manufacturing technology as it applies to the new methods of mass production. (CSU)

ACRT 101A: Basic Sheet Metal Operations for Automotive Collision Repair
2.0 Units. 1 lecture and 3 lab hrs/wk. No prerequisite.

(For course description, please see ACRT 101.) (CSU)

ACRT 102: Introduction to Automotive Collision Repair
2.0 Units. 1 lecture and 3 lab hrs/wk. Repeat: 3. No prerequisite.

This course introduces basic auto body repair techniques and their usefulness in other applications. The course includes basic panel repair and introduces tools, techniques, and theories of body repair and priming. Students learn how to follow a professionally prepared blueprint or personal drawing, and learn about hybrid technology components and new vehicle aerodynamics. They study metallurgy, and manufacturing technology as it applies to the new methods of mass production. (CSU)

ACRT 102A: Introduction to Automotive Collision Repair
2.0 Units. 1 lecture and 3 lab hrs/wk. No prerequisite.

(For course description, please see ACRT 102.) (CSU)

ACRT 103: Nonstructural Analysis and Damage Repair
2.0 Units. 1 lecture and 3 lab hrs/wk. Repeat: 3. No prerequisite.

This course introduces nonstructural analysis techniques and their usefulness in other applications. The course includes basic metal repair fundamentals, and introduces tools and techniques. Students learn how to follow a professionally prepared blueprint or personal drawing, and learn about repair of hybrid technology components. The course includes manufacturing technology as it applies to the new methods of mass production, including new vehicle aerodynamics, and the study of basic metallurgy and synthetic substitutes. (CSU)

ACRT 103A: Nonstructural Analysis and Damage Repair
2.0 Units. 1 lecture and 3 lab hrs/wk. No prerequisite.

(For course description, please see ACRT 103.) (CSU)

ACRT 104: Structural Analysis and Damage Repair
2.0 Units. 1 lecture and 3 lab hrs/wk. Repeat: 3. No prerequisite.

This course introduces structural analysis techniques and their usefulness in other applications. The course includes basic metal straightening fundamentals, and introduces tools, techniques, and theories of damage repair. Students learn how to follow a professionally prepared blueprint or personal drawing. They learn about repair of hybrid technology components, and study manufacturing technology as it applies to the new methods of mass production, including new vehicle aerodynamics. Additional topics include metallurgy, synthetic substitutes, and mathematical/geometric predictions of what happens during impact/repair. (CSU)

ACRT 104A: Structural Analysis and Damage Repair
2.0 Units. 1 lecture and 3 lab hrs/wk. No prerequisite.

(For course description, please see ACRT 104.) (CSU)

ACRT 105: Advanced Structural Analysis and Damage Repair
2.0 Units. 1 lecture and 3 lab hrs/wk. Repeat: 3. No prerequisite.

This course introduces advanced structural analysis techniques and their usefulness in other applications. The course includes advanced metal straightening fundamentals, and introduces tools, techniques, and theories of plastic damage repair. Students learn how to follow a professionally prepared blueprint or personal drawing, and learn about repair of hybrid technology components. Additional topics include manufacturing technology, new vehicle aerodynamics, metallurgy, synthetic substitutes, and mathematical/geometric predictions of what happens during impact/repair. (CSU)

ACRT 105A: Advanced Structural Analysis and Damage Repair
2.0 Units. 1 lecture and 3 lab hrs/wk. No prerequisite.

(For course description, please see ACRT 105.) (CSU)

ACRT 106: Metal Fabrication
2.0 Units. 1 lecture and 3 lab hrs/wk. Repeat: 3. No prerequisite.

This course introduces advanced metal fabrication techniques and their usefulness in other applications. The course includes basic metal straightening fundamentals, and introduces tools, techniques, and theory of metal fabrication. Students learn how to follow a professionally prepared blueprint or personal drawing. Upon completion, students should be able to build components/chassis with the correct geometric angles, and to fabricate, form, and fit various sheet metal components to industry standards. (CSU)
ACRT 106A: Metal Fabrication
2.0 Units. 1 lecture and 3 lab hrs/wk. No prerequisite.
(For course description, please see ACRT 106.) (CSU)

ACRT 107: MIG Welding for Automotive Collision Repair
2.0 Units. 1 lecture and 3 lab hrs/wk. Repeat: 3. No prerequisite.
This course introduces basic auto body repair techniques using the MIG (metal inert gas) Welder. The course includes a short introduction to welding, and introduces MIG techniques and theories of metalworking. Students learn how to follow a professionally prepared blueprint or personal drawing. Other topics include hybrid technology components, manufacturing technology as it applies to the new methods of mass production including new vehicle aerodynamics, and metallurgy. (CSU)

ACRT 107A: MIG Welding for Automotive Collision Repair
2.0 Units. 1 lecture and 3 lab hrs/wk. Repeat: 3. No prerequisite.
(For course description, please see ACRT 107.) (CSU)

ACRT 160A: Automotive Painting and Refinishing Repair Workshop
1.5 Units. 0.5 lecture and 3 lab hrs/wk. No prerequisite.
A skill-building workshop in the area of automotive refinishing. Students work on projects of their choice under the direction and supervision of the instructor. Practice includes methods and techniques in all levels of auto structural repair. Related aspects of the automotive collision repair field are also reviewed and practiced. (CSU)

ACRT 161A: Automotive Dent and Damage Repair Workshop
1.5 Units. 0.5 lecture and 3 lab hrs/wk. No prerequisite.
A skill-building workshop in the area of automotive dent and damage repair. Students work on projects of their choice under the direction and supervision of the instructor. Practice includes methods and techniques in all levels of auto non-structural repair. Related aspects of the automotive collision repair field are also reviewed and practiced. (CSU)

ACRT 162A: Automotive Structural Repair Workshop
1.5 Units. 0.5 lecture and 3 lab hrs/wk. No prerequisite.
A skill-building workshop in the area of automotive structural repair. Students work on projects of their choice under the direction and supervision of the instructor. Practice includes methods and techniques in all levels of auto structural repair. Related aspects of the automotive collision repair field are also reviewed and practiced. (CSU)

ACRT 163A: Automotive Mechanical and Electrical Repair Workshop
1.5 Units. 0.5 lecture and 3 lab hrs/wk. No prerequisite.
A skill-building workshop in the area of automotive mechanical and electrical repair. Students work on projects of their choice under the direction and supervision of the instructor. Practice includes methods and techniques in all levels of auto mechanical and electrical repair. Related aspects of the automotive collision repair field are also reviewed and practiced. (CSU)

ACRT 164A: Automotive Plastic Repair Workshop
1.5 Units. 0.5 lecture and 3 lab hrs/wk. No prerequisite.
A skill-building workshop in the area of automotive plastic repair. Students work on projects of their choice under the direction and supervision of the instructor. Practice includes methods and techniques in all levels of auto plastic repair. Related aspects of the automotive collision repair field are also reviewed and practiced. (CSU)

ACRT 169: Metalworking and Fundamentals I
6.0 Units. 6 lecture hrs/wk. Repeat: 3. No prerequisite.
This course prepares students to successfully enter the automotive collision repair field, and to understand metalworking techniques for their usefulness in other applications. It includes basic metal straightening fundamentals and introduces the beginner to the tools, techniques, and theory of metalworking. Through this practicum experience, students have the opportunity to integrate their classroom knowledge in a workplace environment. (CSU)

ACRT 171: Dent and Damage Repair
3.0 Units. 3 lecture hrs/wk. Repeat: 1. No prerequisite.
This course introduces proper techniques for repairing exterior auto body panels that meet industry standards. The class analyzes different damaged panels and makes repair plans, including removal and sequential plans for repair. I-CAR training materials are used, and I-CAR certification may be earned. (CSU)

ACRT 180: Panel Replacement
3.0 Units. 3 lecture hrs/wk. Repeat: 1. No prerequisite.
This course covers the basic procedures involved in the removal and replacement of quarter panels, rocker panels, door panels, and top panels. It also includes the various methods available for splicing damaged body panels or sections, rocker panels, floor sections, and front and rear body clips. I-CAR materials are used, and I-CAR certification may be earned. (CSU)

ACRT 201: Automotive Paint: Waterborne, Clear Coat, and Detailing
4.0 Units. 2 lecture and 6 lab hrs/wk. Repeat: 3. No prerequisite.
This course introduces the highly-skilled field of automotive spot painting and refinishing. It includes a comprehensive study of the materials, equipment, and techniques necessary for the successful application of automotive refinishing material. The course also includes auto body care and maintenance: buffing, rubbing, and polishing. Through the practicum experience, students have the opportunity to integrate their classroom knowledge in a workplace environment. (CSU)

ACRT 201A: Automotive Paint: Waterborne, Clear Coat, and Detailing
4.0 Units. 2 lecture and 6 lab hrs/wk. No prerequisite.
(For course description, please see ACRT 201.) (CSU)
ACRT 202: Automotive Paint: Three-Stage and Custom Painting
4.0 Units. 2 lecture and 6 lab hrs/wk. Repeat: 3. No prerequisite.
This course introduces students to the highly-skilled field of automotive three-stage and custom painting. It includes a comprehensive study of the materials, equipment, and techniques necessary for the successful application of automotive refinishing material. Through the practicum experience, students have the opportunity to integrate their classroom knowledge in a workplace environment. (CSU)

ACRT 202A: Automotive Paint: Three-Stage and Custom Painting
4.0 Units. 2 lecture and 6 lab hrs/wk. No prerequisite.
(For course description, please see ACRT 202.) (CSU)

ACRT 225: Automotive Careers and Customer Relations
2.0 Units. 2 lecture hrs/wk. No prerequisite. May be taken as ACRT 225 or AUTO 225; credit awarded for only one course.
This course provides training on how to write a resume, fill out a job application, develop a portfolio, and organize and complete a personal tax form. The course covers work ethics and worker/employer relations. It addresses customer relations in the auto repair industry and includes how to improve individual attitudes, productivity, and morale in the workplace. Students also examine methods of work and time-scheduling in independent automotive repair dealerships, service stations and manufactures dealerships. Speakers from the automotive industry present their personal career experiences. (CSU)

ACRT 279: Frame Straightening and Repair
2.0 Units. 1 lecture and 3 TBA hrs/wk. Repeat: 3. No prerequisite.
This course covers conventional and unitized constructed vehicle frames, straightening and alignment of each type, alignment at cross members, rear and side frame members, suspension systems, and steering principles in their relationship to frame alignment. Through this practicum experience, students will have the opportunity to integrate their classroom knowledge in a workplace environment. (CSU)

ACRT 279A: Frame Straightening and Repair
2.0 Units. 1 lecture and 3 TBA hrs/wk. No prerequisite.
(For course description, please see ACRT 279.) (CSU)

ACRT 290: Electric Vehicle Conversion and Hybrid Maintenance
3.0 Units. 2.5 lecture and 1.5 lab hrs/wk. Repeat: 3. No prerequisite.
May be taken as ACRT 290 or ELEC 290; credit awarded for only one course.
This course covers hybrid maintenance, guiding students through the complete process of converting a vehicle from a gasoline engine to an electrically-powered engine. Through lecture and hands-on experience, students learn the principles behind good component layout, battery rack and box design, construction details, and electrical wiring. Additional topics include AC and DC drive systems, types of batteries, selecting the right chassis, transmission adapter housing design, and handling chargers and controllers. (CSU)

ACRT 290A: Electric Vehicle Conversion and Hybrid Maintenance
3.0 Units. 2.5 lecture and 1.5 lab hrs/wk. No prerequisite.
(For course description, please see ACRT 290.) (CSU)

AUTOMOTIVE TECHNOLOGY

The Automotive Technology Program is offered at the Indian Valley Campus. It is designed to prepare students to enter the automotive service repair industry. The program has been certified by Automotive Technician Training Standards (ATTS) meeting strict industry standards in its specialty areas. While completing the program for the A.S. degree or a Certificate of Achievement, students are required to work in the service repair industry, as well as provide their own basic tool set. Four Certificates of Achievement are offered.

Career Options
Auto Mechanic - General, Brake Specialist, Computer Systems Specialist, Diagnostician Specialist, Electrical Repair Specialist, Emission Control Systems Specialist, Factory Service Representative, Front End Specialist, Fuel Injection Specialist, Parts Salesperson, Pre-Teacher Training, Private Business Owner, Service Manager, Transmission Specialist, Tune-Up Specialist

Faculty
Nick Fara, Ron Palmer
Department Phone: 415-457-8811, Ext. 8531

A.S. IN AUTOMOTIVE TECHNOLOGY: MASTER REPAIR TECHNICIAN, OCCUPATIONAL
(Certificates of Achievement also awarded.)

An Associate of Science degree in Automotive Technology: Master Repair Technician is awarded for satisfactory completion of the technical requirements, as well as the general education requirements. A Certificate of Achievement is awarded for satisfactory performance in required technical training. The Master Repair Technician career path is designed to prepare students to enter the automotive service repair industry at the third year apprenticeship level. The goal of this Certificate is to provide the student with both theory and manipulative skills training in Engine Repair, Brakes, Suspensions, Drive Trains, Heating and Air Conditioning, Electrical/Performance Systems and Emission Technician areas included in the Automotive Technician Training Standards (ATTS). While completing the program for the Certificate of Achievement or degree, students are required to work 2000 hours in the service repair industry, as well as provide their own basic tool set. Note: Students are required to complete English 150 for the associate degree. All students should consult a counselor.

### CER TIFICATE OF ACHIEVEMENT IN AUTOMOTIVE TECHNOLOGY: CHASSIS REPAIR TECHNICIAN

The Chassis Repair Technician career path is designed to prepare students to enter the automotive service repair industry at the second year apprenticeship level or higher. The goal of this certificate is to provide the student with both theory and manipulative skills training in engine repair, brakes, suspensions, drive trains, and heating and air conditioning areas included in the Automotive Technician Training Standards (ATTS). While completing the certificate program, students are required to work 1500 hours in the service repair industry, as well as provide their own basic tool set.

### CER TIFICATE OF ACHIEVEMENT IN AUTOMOTIVE TECHNOLOGY: ELECTRICAL/PERFORMANCE TECHNICIAN

The Electrical/Performance Technician career path is designed to prepare students to enter the automotive service repair industry at the second year apprenticeship level or higher. The goal of this certificate is to provide the student with both theory and manipulative skills training in electrical/performance systems area included in the Automotive Technician Training Standards (ATTS). While completing the certificate program, students are required to work 1000 hours in the service repair industry, as well as provide their own basic tool set.

### CERTIFICATE OF ACHIEVEMENT IN AUTOMOTIVE TECHNOLOGY: EMISSIONS/PERFORMANCE TECHNICIAN

The Emissions/Performance Technician career path is designed to prepare students to enter the automotive service repair industry at the second year apprenticeship level or higher. The goal of this Certificate is to provide the student with both theory and manipulative skills training in Electrical/Performance Systems and Emission Technician areas included in the Automotive Technician Training Standards (ATTS). In addition the courses are required by the Bureau of Automotive Repair to meet the educational requirement to be eligible to take the test to become an Advanced Emission Specialist Smog Technician. While completing the certificate program, students are required to work 1000 hours in the service repair industry, as well as provide their own basic tool set.

**TOTAL CERTIFICATE UNITS** 26

### AUTOMOTIVE TECHNOLOGY COURSES (AUTO)

**AUTO 100:** Career Math, Resumes and Customer Relations

4.0 Units. 4 lecture hrs/wk. May also be taken as ACRT 100; credit awarded for only one course.

This course reviews addition, subtraction, multiplication and division of whole numbers, fractions, decimals and percentages. Also included are ratio and proportion, the metric system, graphs and applications specific to automotive technology, paint mixing ratios and writing repair orders. Training on writing a resume, filling out job applications, developing a portfolio, and organizing and completing a personal tax form. The course covers worker/employer relationships and addresses customer relations in the industry which includes improving individual attitudes, productivity and morale in the workplace.

**AUTO 110:** Introduction to Automotive Maintenance

3.0 Units. 2 lecture and 3 lab hrs/wk. Repeat: 3. No prerequisite.

An introductory course studying basic lab procedures, safety, service information, oil change service, under hood inspection, under vehicle service and belts, hoses, tubing services, tire and wheel service, and cooling system service. (CSU)
AUTO 111: Automotive Maintenance - Intermediate
3.0 Units. 2 lecture and 3 lab hrs/wk. Repeat: 3. No prerequisite.
This intermediate course provides training in engine testing and repair, engine performance, fuel and emission service, general electrical system repair, battery service, brake service and suspension, and steering and alignment service. (CSU)

AUTO 112: Automotive Engines
4.0 Units. 2 lecture and 6 lab hrs/wk. Repeat: 1. No prerequisite.
This course provides training in diagnosing and servicing modern automotive engines used on cars, pickups, light trucks, and utility vehicles. The course covers operation and repair of automotive engines including disassembly, testing, and reassembly. Automotive machine shop skills are not included. (CSU)

AUTO 112A: Automotive Engines
4.0 Units. 2 lecture and 6 lab hrs/wk. No prerequisite.
(For course description, please see AUTO 112.) (CSU)

AUTO 113: Specialized Electronic Training
5.0 Units. 4 lecture and 3 lab hrs/wk. Repeat: 3. No prerequisite.
This course provides training in electrical and electronic systems used on cars, pickups, light trucks, and utility vehicles. It includes theory and operations of OHMS law, Digital Volt Ohm Meters, electrical circuits, wiring diagrams, schematics, and wire repair. (CSU)

AUTO 113A: Specialized Electronic Training
5.0 Units. 4 lecture and 3 lab hrs/wk. No prerequisite.
(For course description, please see AUTO 113.) (CSU)

AUTO 114: Automotive Basic Fuel Systems
4.0 Units. 2 lecture and 6 lab hrs/wk. Repeat: 1. No prerequisite.
This course provides training in diagnosing and servicing modern automotive fuel systems used on cars, pickups, light trucks, and utility vehicles. It covers operation and repair of fuel systems, carburetors, and electronic fuel injection systems. Modern diagnostic tools and equipment are used. (CSU)

AUTO 114A: Automotive Basic Fuel Systems
4.0 Units. 2 lecture and 6 lab hrs/wk. No prerequisite.
(For course description, please see AUTO 114.) (CSU)

AUTO 116: Automotive Electrical Systems
6.0 Units. 3 lecture and 9 lab hrs/wk. Repeat: 1. No prerequisite.
This course provides training in diagnosing and servicing modern automotive electrical systems used in cars, pickups, light trucks, and utility vehicles. Emphasis is placed on developing a comprehensive understanding of all electrical components, with special emphasis on diagnosis, repair, and testing of electrical systems. (CSU)

AUTO 116A: Automotive Electrical Systems
4.0 Units. 2 lecture and 6 lab hrs/wk. No prerequisite.
(For course description, please see AUTO 116.) (CSU)

AUTO 118: Brakes, Alignment and Suspension
6.0 Units. 3 lecture and 9 lab hrs/wk. Repeat: 1. No prerequisite.
This course provides training on wheel balance, wheel alignment, brake repair, automotive suspensions, and steering systems. Students learn to balance wheels; operate wheel aligners including four-wheel computer aligners; repair and service disc, drum, and anti-lock brake systems; and service rack, pinion, and worm gear steering gears. Diagnosing and troubleshooting all of these systems is included. Health and safety working with asbestos is stressed. (CSU)

AUTO 118A: Brakes, Alignment and Suspension
6.0 Units. 3 lecture and 9 lab hrs/wk. No prerequisite.
(For course description, please see AUTO 118.) (CSU)

AUTO 215A: Vehicle Service
4.0 Units. 2 lecture and 6 lab hrs/wk. No prerequisite.
This course provides instruction in theory and hands-on performance of the basic service skills, including engine inspection and repair, transmission and transaxles, and heating and air conditioning, needed for initial employment in the automotive service field. (CSU)

AUTO 228: Automotive Computer Controls
4.0 Units. 2 lecture and 6 lab hrs/wk. Repeat: 3. No prerequisite.
This course provides training in diagnosing and servicing modern automotive computer control systems used on cars, pickups, light trucks and utility vehicles. It covers operation of sensors, actuators and control modules, and the use of modern scan tools, Digital Storage Oscilloscopes and diagnostic tools. (CSU)

AUTO 228A: Automotive Computer Controls
4.0 Units. 2 lecture and 6 lab hrs/wk. No prerequisite.
(For course description, please see AUTO 228.) (CSU)

AUTO 229: Automotive Systems, Troubleshooting and Diagnosis
4.0 Units. 2 lecture and 6 lab hrs/wk. Repeat: 3. No prerequisite.
This course provides training in diagnosing and servicing modern automotive electronic systems used on cars, pickups, light trucks, and utility vehicles. It covers the diagnostic thought process used to diagnose and repair cranking, charging, ignition, air bag, lighting systems, gauge and instrument panels, horn, wiper/washer, and accessory systems. (CSU)

AUTO 229A: Automotive Systems and ASE Preparation
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This course provides training in diagnosing and servicing modern automotive electronic systems used on cars, pickups, light trucks and utility vehicles. It covers the diagnostic thought process used to diagnose and repair cranking, charging, ignition, air bag, lighting systems, gauge and instrument panels, horn, wiper/washer, and accessory systems. Each section of study includes an ASE review. (CSU)

AUTO 230: Alternative Fuel Vehicles
2.0 Units. 1 lecture and 3 lab hrs/wk. Repeat: 2. No prerequisite. Advisory: AUTO 113 and 116.
This course provides training in diagnosing and servicing modern computer-controlled light duty vehicles. The course covers diesel, bio-diesel, CNG, LPG, LNG, electric engines, fuel systems, air induction, exhaust systems and electronic controls. (CSU)

AUTO 230A: Alternative Fuel Vehicles
2.0 Units. 1 lecture and 3 lab hrs/wk. No prerequisite.
(For course description, please see AUTO 230.) (CSU)
**AUTO 233: Manual Drive Trains and Axles**
4.0 Units. 2 lecture and 6 lab hrs/wk. Repeat: 3. No prerequisite.
This course provides training in diagnosing and servicing modern automotive manual transmissions and transaxles used on cars, pickups, light trucks, and utility vehicles. It covers construction, function, and principles of operation including clutches, transmissions, transaxles and 4-wheel drive systems. (CSU)

**AUTO 233A: Manual Drive Trains and Axles**
4.0 Units. 2 lecture and 6 lab hrs/wk. No prerequisite.
(For course description, please see AUTO 233.) (CSU)

**AUTO 235: Automotive Air Conditioning**
2.5 Units. 2 lecture and 1.5 lab hrs/wk. Repeat: 3. No prerequisite.
This course provides training in diagnosing and servicing modern automotive heating and air conditioning systems used on cars, pickups, light trucks and utility vehicles. It covers construction, function and principles of heating and air conditioning systems, components and controls. (CSU)

**AUTO 239: Bureau of Automotive Repair (B.A.R.) Update Training**
1.0 Unit. Repeat: 3. No prerequisite. Eighteen lecture hours.
This course meets Bureau of Automotive Repair (B.A.R.) biennial update requirements for smog technicians wishing to renew their state license. (CSU)

**AUTO 244: Smog Check Inspector Level 1 and 2 Training**
5.5 Units. 3 lecture and 5 lab hrs/wk. No prerequisite.
This course satisfies the educational prerequisite to become a California Bureau of Automotive Repair Smog Check Inspector. The course provides engine and emission control systems training as well as training on BAR rules and regulations. (CSU)

**AUTO 244A: Smog Check Inspector Level 1 and 2 Training**
5.5 Units. 3 lecture and 5 lab hrs/wk. No prerequisite.
(For course description, please see AUTO 244.) (CSU)

**AUTO 250A: Automotive Service Excellence (ASE) Certification Exam Preparation**
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This course prepares students for the National Institute for Automotive Service Excellence (ASE) Certification tests. It covers ASE tests A1 through A8, and G1.

---

**BEHAVIORAL SCIENCE**

Behavioral science is an interdisciplinary study of human behavior, encompassing such disciplines as anthropology, psychology, and sociology. The courses offered are intended to be used as a background for general education.

Department Phone: 415-485-9630

---

**BEHAVIORAL SCIENCE COURSES (BEHS)**

**BEHS 103: Human Sexuality**
3.0 Units. 3 lecture hrs/wk. No prerequisite. Students may receive credit for BEHS 103 or BIOL 108A, but not both courses.
This survey course examines aspects of human sexual behavior. Topics are considered from psychological, social, cultural, and biological perspectives. Topics include sexual anatomy and physiology, hormones, conception and contraception, sex research, sex and the lifespan, human sexual activities and behaviors, sexual orientation, gender, sex and society, and contemporary sexual issues. (CSU/UC) AA/AS Area B, CSU Area D-7 or E, IGETC Area 4

**BEHS 105: Sex Roles in Contemporary Society**
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This course examines the ways in which female and male roles and sex role stereotyping influence our lives. Topics include biological and cultural contributions to sex role-playing in interpersonal relationships, and the impact of sex roles on personal growth. Emphasis on the social and personal implications of moving toward androgyny (role-free human behavior and identity). (CSU/UC)

**BEHS 114: Chemical Dependency**
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This course examines the behavioral and psychological effects of chemical dependency. Included is an analysis of the effects of substance abuse on the family and the sociological conditions contributing to substance abuse. The primary focus is on the role of the mental health professional in issues of substance abuse. (CSU) CSU Area D-7 or E

**BEHS 118: Drugs and Behavior**
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This course introduces concepts, theories, and perspectives associated with the behavioral analysis of drugs and alcohol. The definitions of various types of drug use, drug abuse, and drug dependence are addressed. The pharmacological perspective is also explained, including the factors that influence drug action and the classification of psychoactive drugs and their effects. Legal drugs, such as alcohol, tobacco, and psychotherapeutic drugs are discussed and analyzed using the behavioral perspective. (CSU/UC) CSU Area E

**BEHS 130: Race and Ethnicity**
3.0 Units. 3 lecture hrs/wk. No prerequisite. May be taken as BEHS 130 or SOC 130; credit awarded for only one course.
This course offers an in-depth examination of race and ethnicity in the United States. Specifically, students gain a greater understanding of the concepts of race and ethnicity and the historic and present-day implications of prejudice, discrimination, and racism in our society. Students examine various theories of racial and ethnic stratification,
immigration and the assimilation process, new and changing ethno-racial identities, and dominant-minority group interactions. (CSU)

**BEHS 150: Introduction to Research Methods**
3.0 Units. 3 lecture hrs/wk. Prerequisite: SOC 110 or PSY 110 or ANTH 101 or ANTH 102. May be taken as ANTH 150, BEHS 150, PSY 150, or SOC 150; credit awarded for only one course.

This course introduces the methods, logic, and empirical and analytical strategies behavioral scientists use to study the social world. Students gain knowledge and practical experience in the scientific method, evaluation of evidence, and the research design and development process. Key topics include qualitative and quantitative modes of inquiry, formulating research questions, developing and testing hypotheses, ethics of research, and developing a study design and methodology. (CSU)

**BEHS 252: Seminar and Fieldwork Experience**
3.0 Units. 1.5 lecture and 4.5 TBA hrs/wk. Repeat: 1. Prerequisite: PSY 110, 112 or 114 or SOC 110 or concurrent enrollment. May be taken as BEHS 252 or PSY 252; credit awarded for only one course.

This course is designed to give students meaningful participation in a psychologically related community service agency in order to understand the applications of psychological principles, theories, and concepts. With the mutual consent of student and instructor each student is placed in a school, social agency, special education program, mental health agency, or community organization and works under the direct supervision of someone with a degree, credential, or demonstrated expertise in psychology or sociology. (CSU)

**BIOLOGY**

Biology career options include dozens of intriguing specialties. One can concentrate on microbiology and investigate viruses, bacteria, or molds. One can focus on cytology and study cells or histology and delve into the structure of animal and vegetable tissue. Ichthyology, parasitology, embryology, genetics, ecology, and biochemistry are a few of the other choices in the field. Emerging areas of emphasis include the concern for the environment and allied health professions.

**Career Options**

**A.S. IN BIOLOGY**
*(Certificate of Achievement in Natural History also awarded. Skills Certificate available in Environmental Science.)*

Students who complete the requirements listed below, plus additional general education and graduation requirements, will be awarded the associate degree. While students may take classes at both campuses, courses required for the major are offered at the Kentfield Campus. Note: Students are required to complete English 150 for the associate degree. All students should consult a counselor.

**Natural History Certificate of Achievement**

The Natural History Certificate of Achievement is a field experience program based on scientific principles and concepts for students who want to develop a comprehensive understanding of the natural world. It is especially designed for elementary school teachers, natural history museum and environmental docents, and environmental educators. For students interested in receiving an Associate in Science degree in Biology, see requirements under that major.

**Environmental Science Skills Certificate**

Skills Certificates are an acknowledgement that the student has attained a specified set of competencies within a program. Skills Certificates may be part of a “ladder” of skills, beginning with job...
entry skills and leading to a full Certificate of Achievement program
or may constitute a skill set that enables a student to upgrade or
advance in an existing career.

This is the starting point for all those interested in environmental
science. The program leading to this certificate introduces students
to the major areas of environmental science, provides the basic
background necessary for analysis and solution of environmental
problems, gives an overview of some of the most important problems
in Marin and provides direct contact with people solving them. It is
designed to be completed in two years. It can be added to a College
of Marin AA/AS degree to improve transferability to bachelor’s
programs in environmental science. It can also be earned apart from
any degree to show mastery of the basics of the field of environmental
science and to increase the diversity of job options in the field.

**BIOLOGY COURSES (BIOL)**

**BIOL 099: General Science**
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as BIOL 99 or
GEOL 99; credit awarded for only one course.

This late-start course is designed for students who have not reached
the level of success they desired in high school or college science
courses and for individuals returning to school after an extended
absence. The course covers basic scientific principles and concepts
of the physical and life sciences and prepares students to move into
other science classes with the information, understanding, and
skills required to succeed. Introductory topics in biology, chemistry,
geography, geology, meteorology, and physics are discussed.

**BIOL 100: Nutrition**
3.0 Units. 3 lecture hrs/wk. No prerequisite.

This course covers the basic principles of human nutrition and their
relationship to health and wellness including energy in nutrition;
main nutrients; vitamins, minerals and water; digestion; changing
nutritional needs through life's stages; and connections between
food and sustainability. This foundation class is designed for people
interested in careers related to health and fitness and various aspects
of food, and for anyone curious or concerned about nutrition. (CSU/
UC) AA/AS Area A, CSU Area E

**BIOL 101: Field Biology**
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite.

This outdoor field course is designed to give nonmajors in biology an
overview of Marin's varied plant and animal communities. Most of
Marin's 25 biotic community types are investigated including aquatic
and terrestrial. Identification of plants, animals, and ecology are
major areas of emphasis. (CSU) AA/AS Area A

**BIOL 104: The Ecology of Infectious Diseases**
3.0 Units. 3 lecture hrs/wk. No prerequisite.

This course is designed for both science and nonscience majors
interested in understanding the distribution and spread of infectious
diseases. Emphasis is on the role that specific environments play in
determining where and when epidemics will occur. Topics include
the biology and ecology of microorganisms and their hosts, geo-
graphic medicine, the impact of human activity on the incidence and
transmission of infectious diseases, and epidemics in human history.
(CSU)

**BIOL 107: Human Biology**
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as BIOL 107
or KIN 107; credit awarded for only one course.

This course introduces the structure, function, and development of
the human body, and foundational concepts to explore personal and
societal issues involving human biology. Topics include an introduc-
tion to scientific methods of investigation and some elementary
chemistry (no previous background necessary) as a basis for under-
standing human functions such as movement, digestion, circulation,
reproduction, and other systems. Some diseases and other causes
of body malfunction are discussed. (CSU/UC) AA/AS Area A, CSU
Area B-2, IGETC Area 5B

**BIOL 108A: Human Sexuality**
3.0 Units. 3 lecture hrs/wk. No prerequisite. Students may receive
credit for BIOL 108A or BEHS 103, but not both courses.

This survey course covers human sexuality from a cross-disciplinary
approach, examining sexuality from physiological, anatomical,
behavioral, and cross-cultural perspectives. Topics include concep-
tion, fetal development, labor and birth, puberty, menstruation,
sexual intercourse, menopause, sexually transmitted diseases,
sexual variations, masturbation, contraception, anatomy, hormones,
medical disorders, pornography, relationships, sexuality and current
trends in the research of sexual behavior. (CSU/UC) AA/AS Area A,
CSU Area D-7 or E, IGETC Area 4G

**BIOL 109: Heredity and Evolution**
3.0 Units. 3 lecture hrs/wk. No prerequisite.

This course introduces the principles of genetics and evolution. The
factors that govern inheritance and natural selection are presented,
and their impact on physical and cultural evolution discussed.
Current issues surrounding genetic counseling, genetic engineering,
recombinant DNA technologies, and emerging infectious diseases
are introduced. (CSU/UC) AA/AS Area A, CSU Area B-2, IGETC Area 5B

**BIOL 110: Introduction to Biology**
3.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: Concurrent
enrollment in BIOL 110L.

An introduction to the science of biology for nonmajors and the
most basic course for biology majors, this course gives a broad
overview of modern biology that should be equally useful to those needing a foundation for later work in biology, health sciences, the environmental sciences, or to those simply wanting to understand and participate more intelligently in a human society more and more influenced by biological discoveries. It presents the essentials of most of the principal areas of biology: ecology, evolution, genetics, anatomy, physiology, cell biology and molecular biology. (CSU/UC) AA/AS Area A, CSU Area B-2, IGETC Area 5B

BIOL 110L: Introduction to Biology Laboratory
1.0 Unit. 3 lab hrs/wk. No prerequisite. Advisory: BIOL 110 or concurrent enrollment.

A hands-on course designed to develop basic laboratory skills and techniques and to illustrate basic biological concepts and principles for majors and non-majors. Essential skills include use of lab and field equipment and recording and interpretation of observations. Subjects in ecology, evolution, genetics, anatomy, physiology, cell biology and molecular biology are investigated through observations and experiments in the laboratory and in the field. Sequence of topics is synchronized with that of BIOL 110. (CSU/UC) AA/AS Area A, CSU Area B-2 or B-3, IGETC Area 5C

BIOL 112A: Majors' Biology: Animals, Protozoa, Evolution and Classification
5.0 Units. 3 lecture and 6 lab hrs/wk. Prerequisites: Math 103 or 103AB or 103XY or satisfactory score on Math Assessment Test. Advisories: BIOL 110 and 110L.

This is the first in a three-semester sequence equivalent to the majors’ biology sequences at other colleges and universities. It covers basic topics in evolution and classification, as well as fundamentals of anatomy, physiology, and classification of protozoa and animals. In the laboratory, students investigate the structure, function and evolutionary implications of animals using standard laboratory and field techniques. Students engage in experimental design and analysis. (CSU/UC) AA/AS Area A, CSU Area B-2 and B-3, IGETC Area 5B and 5C

BIOL 112B: Majors' Biology: Plants, Algae, Fungi, and Ecology
5.0 Units. 3 lecture and 6 lab hrs/wk. Prerequisites: BIOL 110 and 110L, and Math 103 or 103AB or 103XY or satisfactory score on Math Assessment Test. Advisory: CHEM 131.

This is the second in a three-semester sequence that is the equivalent of the majors’ biology sequences at other colleges and universities. This semester covers basic topics in general ecology as well as fundamentals of anatomy, physiology, classification, evolution and ecology of the major groups of algae, plants and fungi. (CSU/UC) AA/AS Area A, CSU Area B-2 and B-3, IGETC Area 5B and 5C

BIOL 112C: Majors’ Biology: Molecules, Cells, Prokaryotes and Genetics
5.0 Units. 3 lecture and 6 lab hrs/wk. Prerequisites: BIOL 110 and 110L, CHEM 131, and Math 103 or 103AB or 103XY or satisfactory score on Math Assessment Test.

This third semester in the biology majors’ sequence covers the fundamentals of molecular and cell biology, genetics and molecular evolution, DNA technology, and the biology of viruses, bacteria, and archaea. Students incorporate lecture concepts into laboratory experiments which they design, carry out, analyze and report. (CSU/UC) AA/AS Area A, CSU Area B-2 and B-3, IGETC Area 5B and 5C

BIOL 113: Introduction to Biotechnology
2.0 Units. 1 lecture and 3 lab hrs/wk. Prerequisites: BIOL 110 and 110L.

This course provides a foundation in biotechnology concepts and techniques. Students become familiar with current biotechnology and molecular biology techniques, and learn to efficiently design and analyze experiments, accurately interpret scientific data, effectively communicate their knowledge, and understand the impact scientific discoveries have on the population and the environment. Students practice laboratory calculations and proper scientific documentation in laboratory notebooks. (CSU)

BIOL 120: Human Anatomy
5.0 Units. 3 lecture and 6 lab hrs/wk. Prerequisite: BIOL 110 and 110L. Advisory: Completion of ENGL 98 or equivalent.

A study of the gross and microscopic structure of the tissues, organs and organ systems of the human body, including major functions. The class makes use of models, slides, prostheses and dissection (including human cadavers). Includes introduction to related fields such as histology and embryology. Appropriate for students going into allied health fields, kinesiology, anthropology and art. (CSU/UC) AA/AS Area A, CSU Area B-2 and B-3, IGETC Area 5B and 5C

BIOL 138: Introduction to Environmental Sciences
4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite. Can be taken as BIOL 138 or ENVS 138; credit awarded for only one course.

This science-based course takes an interdisciplinary approach to understanding the environmental crisis that confronts us all. Discussions focus on understanding ecosystem services, how humans interfere with earth’s life support systems, and how to deal with the environmental problems we face. Field studies may include visits to restoration projects, local ecosystems, and local environmental conferences. (CSU/UC) AA/AS Area A, CSU Area B-1 or B-2 & B-3, IGETC Area 5A or 5B or 5C

BIOL 140: Environmental Field Techniques
1.0 Unit. 3 lab hrs/wk. No prerequisite. Can be taken as BIOL 140 or GEOL 140; credit awarded for only one course.

This field-based course teaches the fundamentals of environmental sampling and monitoring. Topics include surveying and mapping; data collection and management; and hydrological, geological, and biological assessment methods. (CSU)

BIOL 141: Global Climate Change: Science, Impact and Solutions
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as BIOL 141, ENVS 141, or GEOG 141; credit awarded for only one course.

This course introduces scientific, ecological, and economic issues underlying the threat of global climate change. It also develops an integrated approach to analysis of climate change processes, and an assessment of proposed policy measures to develop solutions. (CSU)

BIOL 142: Environmental Policy and Decision-Making
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as BIOL 142, GEOL 142, or ENVS 142; credit awarded for only one course.

Environmental policy and subsequent regulation is one way of managing the relationship between human activities and their effects
on natural ecosystems. This course is a study of federal, state, and local environmental legislation and its history. The course chronicles America's awakening to environmental issues and the ways in which decisions affecting the environment occur. The content of the course is vital to environmental policymakers, scientists, and advocates. (CSU/UC)

**BIOL 143: Stewardship of Marin Parks and Open Spaces**
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. May be taken as BIOL 143 or ENVS 143; credit awarded for only one course.
Besides making Marin a desirable place in which to live and travel, its nonurbanized park and open space areas carry with them a great responsibility: preservation and enhancement of their best qualities for present and future generations. Fulflling this responsibility involves a diverse mix of philosophical, legislative, biological, sociological and logistical challenges. The course includes essential background material, interviews with current management personnel, and field visits to parkland and open space areas of special interest. (CSU/UC)

**BIOL 145: Ethics in Science**
3.0 Units. 2 lecture hrs/wk. No prerequisite. Can be taken as BIOL 145 or GEOL 145; credit awarded for only one course.
This interdisciplinary course explores some of the most pressing issues facing our society today, enabling students to investigate and understand the controversies surrounding current and future technologies, and helping them make rational decisions in their own lives and at the voting booth. Topics include scientific fraud, recombinant DNA technologies, the human genome project, energy and land use, and toxic waste. (CSU/UC) AA/AS Area C

**BIOL 147: Food, People, Health and the Environment**
4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite. May be taken as BIOL 147 or ENVS 147; credit awarded for only one course.
This course examines the past, present and future of the global food system; inputs, outputs, and practices of agriculture, the chief method for securing food from the environment and the basis of human civilization; and the distribution, accessibility, and consumption of food by people throughout the world. The class presents possible solutions to some of the most pressing problems facing the human race as we struggle to feed ourselves and be healthy, while enhancing our overall environment. (CSU/UC)

**BIOL 148: Marin County Agriculture**
4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite. May be taken as BIOL 148 or ENVS 148; credit awarded for only one course.
This course focuses on one of Marin County’s most significant human activities in terms of use of land and other natural resources, preservation of a valuable way of life, generation of economic benefits and formation of the unique character of the local environment. It offers a general agricultural overview; historical background and explanation of important biological, social and economic processes; and insights provided by current Marin County agricultural systems including beef and dairy, poultry, shellfish, flowers, fruits and vegetables, from planning and production through marketing and consumption. Includes field trips to notable local farms. (CSU)

**BIOL 150: Environmental Science Seminar and Fieldwork**
3.0 Units. 1 lecture and 6 lab hrs/wk. Repeat: 1. Prerequisite: BIOL 138 or GEOL 138. May be taken as BIOL 150 or ENVS 150; credit awarded for only one course.
This overview of the career options in environmental science introduces potential employers in the field and provides firsthand experience of working to solve environmental problems. After receiving general career information, students work with community agencies or organizations according to procedures established by mutual agreement. Students meet in class on campus for initial orientation, to discuss progress during the semester, and to present results of their experiences at the end. (CSU)

**BIOL 159: Introduction to Aquatic Biology**
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite.
A field and hands-on laboratory course on the natural history and ecology of both living and nonliving components of freshwater environments. It offers practical experience in the identification and interrelationships of local plant and animal species found in freshwater ecosystems. Students gain field experience in interpreting basic concepts in ecology, biotic zonation, and survival through adaptation and natural selection. (CSU) AA/AS Area A

**BIOL 160: Soil: Ecology and Management**
3.0 Units. 2.5 lecture and 1.5 lab hrs/wk. No prerequisite. Can be taken as BIOL 160 or ELND 160; credit awarded for only one course.
This class explores how soil forms and develops, its physical and biological components, and their interrelationships. Topics include a historical review of soil/human interactions, soil formation from parent material, classification, physical properties such as texture and structure, life forms found in the soil and their interrelationships, relationships between soil properties and soil’s ability to support plant growth, and approaches to use soil in a sustainable manner. (CSU/UC) CSU Area B-1, IGETC Area 5A

**BIOL 161: Field Botany**
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite.
A comprehensive introduction to the native plants of Marin County, emphasizing identification, systematics, ecology, and natural history of Marin’s vascular plants, with a brief overview of local bryophytes. Laboratory investigations include hands-on study and identification of live plant specimens. Field explorations aid ecological understanding of natural plant groupings, and provide added experience in identification. (CSU)

**BIOL 162: General Ecology**
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. Advisory: BIOL 110.
Introduction to the ecology of organisms in their environment, emphasizing ecology of global, regional and local environmental sustainability. Field explorations are used in understanding ecological concepts in relation to Marin’s biotic communities. (CSU/UC) AA/AS Area A, CSU Area B-2 or B-3, IGETC Area 5B and 5C
BIOL 163: Ecology of Estuaries
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. Advisory: BIOL 110.
Special ecological study of the greater San Francisco Bay estuary system of rivers, Delta, sloughs/marshes, lower bays, and Tomales Bay/Bolinas Lagoon habitats. Dynamics of natural ecology and man's encroachment/pollution are studied. (CSU)

BIOL 164: Introduction to Mammalogy
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. Advisory: BIOL 110.
Introduction to the natural history, ecology, and behavior of mammals, emphasizing the natural history of California mammals, techniques in studying mammals, and tracking and interpretation of mammal sign. Laboratory investigations include hands-on analysis of mammal anatomy and physiology. Field explorations are used in understanding mammalogy concepts in relation to survival strategies. (CSU)

BIOL 165: The World of Insects
2.0 Units. 2 lecture hrs/wk. No prerequisite. Advisory: BIOL 110.
A general introduction to the largest group of organisms on earth today. Topics include insect structure and function, history and evolution, habitats and adaptations, and ecological relationships with other organisms, including those of major economic importance to humans in the areas of agriculture, architecture, forestry, animal husbandry, medicine and public health. As befits such a diverse and hard-to-ignore group, insect roles in literature, folklore, philosophy, painting, sculpture and other arts will not be neglected. (CSU)

BIOL 165L: Introduction to Insect Biodiversity Laboratory
2.0 Units. 6 lab and 2 TBA hrs/wk. No prerequisite. Advisory: BIOL 165.
As the largest group of animals on earth, and one that strongly affects humans, insects invite closer study by all who are interested in the living world. This course provides hands-on experience in learning to find insects, to identify them, and to recognize evolutionary and ecological patterns in their sometimes bewildering abundance and diversity. Sight recognition of the major orders and families, basic field and laboratory procedures, and visits to a representative selection of insect habitats in Marin. (CSU)

BIOL 167: Introduction to Herpetology
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. Advisory: BIOL 110.
An introduction to the natural history, ecology, and behavior of reptiles and amphibians, emphasizing reptiles and amphibians of Western North America, techniques in studying reptiles, and field observation. Field explorations are used in understanding herpetology concepts in relation to survival strategies. (CSU)

BIOL 169A: Introduction to Ornithology A
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. Advisory: BIOL 110.
This science-based course takes a field oriented approach to understanding the biology of birds, including bird form and function, anatomy, physiology, flight mechanics and migration. Visits to local wildlife refuges, lagoons, lakes, shorelines and forests to learn to identify and observe migrating shorebirds and raptors and wintering waterfowl. This fall course concentrates on migratory species and wintering waterfowl. (CSU/UC) AA/AS Area A

BIOL 169B: Introduction to Ornithology B
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. Advisory: BIOL 110.
This science-based course takes a field oriented approach to understanding the biology of birds, including bird behavior, vocal behavior, bird reproductive biology, and avian ecology. Visits to local wildlife refuges, lagoons, lakes, shorelines and forests to learn to identify and observe summer residents and nesting birds. (CSU) AA/AS Area A

BIOL 171: Biology of Marine Mammals
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite.
Taking an integrated approach to the biology of marine carnivores, cetaceans and sirenians, lecture, laboratory and field explorations provide a framework for fundamental biological and ecological concepts. Topics include functional morphology, sensory systems, energetics, reproduction, communication and cognition, behavior, distribution, population biology, feeding ecology, and the physiological adaptations that have enabled marine mammals to exploit their aquatic environment such as diving, thermoregulation, osmoregulation, and orientation. (CSU/UC)

BIOL 224: Human Physiology
5.0 Units. 3 lecture and 6 lab hrs/wk. Prerequisites: BIOL 110 and 110L or equivalent, and CHEM 110 or 114. Advisory: completion of ENGL 98 or 98SL or equivalent.
This course examines the function and structure of the human body, emphasizing physiochemical and homeostatic mechanisms. The laboratory introduces clinical and research techniques for studying and measuring various physiological parameters, along with technical writing skills. (CSU/UC) AA/AS Area A, CSU Area B-2 or B-3, IGETC Area 5B and 5C

BIOL 235: General Marine Biology
4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite. Advisory: BIOL 110 and 110L. Class includes field trips. Field trips may meet earlier and run later than scheduled to take advantage of low tides.
This laboratory and field course provides an overview of marine plant and animal communities, including fundamental physical oceanography, marine ecology, marine zoology, marine botany, and field studies, emphasizing local marine communities: rocky intertidal estuaries, salt marshes, sandflats, mudflats, and floating docks. Laboratory investigations include phytoplankton and zooplankton studies, fish identification and internal morphology, marine invertebrate identification, and marine algae preservation techniques. (CSU/UC) AA/AS Area A, CSU Area B-2 or B-3, IGETC Area 5B and 5C

BIOL 237: Marine Ecology Field Studies
2.0 Units. No prerequisite. Sixteen lecture and forty-eight laboratory hours during a nine-day field trip.
An introduction to the natural history and ecology of marine plants and animals, emphasizing identification, evolution, life histories, and survival strategies of intertidal and subtidal organisms of the Pacific Northwest coast. Terrestrial systems such as temperate rain forests are investigated to compare with marine systems. Field investigations include hands-on analysis of marine algae, invertebrate, vertebrate, and nonliving interrelationships. (CSU)
BIOL 240: Microbiology
5.0 Units. 3 lecture and 6 lab hrs/wk. Prerequisites: BIOL 110 and 110L; plus CHEM 110 or 114. Advisory: ENGL 98 or 98SL or equivalent.
This course, primarily for biology and health science majors, is a lecture/laboratory based course with equal emphasis on both. The fundamentals of microbial taxonomy, ecology, anatomy, physiology, genetics, and biotechnology are covered. Viruses, bacteria, fungi, protists, and helminths are discussed. Emphasis is on the role that microorganisms play in human health and disease. (CSU/UC) AA/AS Area A, CSU Area B-2 or B-3, IGETC Area 5B and 5C

BIOL 244A: Alaska Field Studies
3.0 Units. Repeat: 2. No prerequisite. Two-week field trip; 50 hours per week plus six hours of pre-trip lecture.
A two-week field investigation of the Kenai Peninsula, interior and far north of Alaska. This area is biologically significant for its great abundance and diversity of mammal and bird life. The class explores various ecosystems, from coastal forests to arctic tundra. Participants should be in good physical condition and be able to withstand rigorous, unpleasant conditions. A nonobligatory ground transportation fee of $300 is requested; participants pay for their own airfare and food. (CSU)

BIOL 244B: Greater Yellowstone Ecosystem Field Studies
1.5 Units. Repeat: 1. No prerequisite. One-week field trip; 50 hours per week plus 6 hours of pre-trip lecture.
A one-week field investigation of the Greater Yellowstone ecosystem. This area is biologically significant for its great abundance and diversity of mammal and bird life. The class explores various ecosystems, from interior forests to riparian wetlands. Emphasis is on wolf reintroduction, fire ecology and thermophilic microbes. A nonobligatory ground transportation fee of $150 is requested; participants pay for their own food, camp and park fees. (CSU)

BIOL 250: Scientific Research and Reporting
1.0 Unit. 1 lecture hrs/wk. Repeat: 3. No prerequisite. Advisory: BIOL 110 and GEO 120. Can be taken as BIOL 250 or GEO 250; credit awarded for only one course.
A hands-on, individualized course designed to walk learners step by step through a scientific research project of their choice. The final report of their findings will be delivered at a professional meeting. This course is designed for science majors who have completed the first year of their curriculum and desire a hands-on, real world experience in science. (CSU/UC)

BIOL 251: Biological Psychology
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as BIOL 251 or PSY 251; credit awarded for only one course.
This class explores the basic brain processes underlying the functioning of the human mind. Topics include basic synaptic functioning, psychopharmacology, stress and the immune system, learning and memory, sleep, mood disorders, schizophrenia, language, motor and sensory systems, sexuality, consciousness, endocrine function and interactions. (CSU/UC) AA/AS Area B, CSU Area D-9, IGETC Area 4

BIOL 270: Practicum in Identification and Taxonomy
1.0 Unit. 3 lab hrs/wk. Repeat: 3. No prerequisite. Advisory: BIOL 161 or 165L or 169A/B or equivalent.
This course provides students the opportunity to increase their skills in identification and classification of the organisms of Marin County and the surrounding area to the levels frequently needed for biodiversity studies and environmental assessments. Students already familiar with the basics of classification (and who can already identify, on sight, families of chosen groups) progress from this level to the genus and species levels of identification and classification of their groups of interest. Work may include preparation of specimens, review of pertinent literature, use of dichotomous keys, reference to museum specimens, and use of camera and microscopes.

BUSINESS
The business curriculum provides students with skills and knowledge for employment in a variety of business related occupations. The program emphasizes the development of skills necessary for entry-level employment including self-employment. The curriculum also provides students with the foundation courses that will help them prepare for transfer to a four-year college or university.

Career Options
Accounting Clerk, Administrative Assistant, Administrator, Analyst, Banking Services, Bookkeeper, Claims Agent, Computer Operations, Employment Counselor, Employment Interviewer, Entrepreneur, Entry-level Financial Services, Franchise Business Owner, Government Service, Insurance Agent, Management Assistant, Management Trainee, Manager, Office Clerk, Office Manager, Public Administration, Purchasing Agent/Buyer, Real Estate, Retail/Industrial Sales, Sales Representative, Securities Sales Worker, Small Business Manager, Small Business Owner, Stockbroker, Supervisor, Transfer to Bachelor’s Program

Faculty
Christine Li, Norman Pacula, Nancy Willet
Department Phone: 415-485-9610

A.S.-T. IN BUSINESS ADMINISTRATION
Associate in Science in Business Administration for Transfer degree (AS-T)
This degree is primarily intended for the student who wants to earn a degree on the way to transferring to a California State University.
To complete the Associate in Science in Business Administration for Transfer degree (AS-T), a student must:
1. Complete 60 semester units or 90 quarter units that are eligible for transfer to the California State University, including both of the following:
   - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education – Breadth Requirements.
   - A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district. Up to 12 units may be double-counted.
2. Complete all courses in the major with a grade of “C” or better, or “P” if the course is taken as “pass/no pass.”
3. Obtain a minimum grade point average of 2.0.
CERTIFICATE OF ACHIEVEMENT IN BUSINESS ADMINISTRATION

This program is designed to provide education for business careers including self-employment, professional advancement, and retraining. It equips students with the basic knowledge and skills in entry-level management and supervision. It also prepares students to start, operate, and grow new or existing ventures, and helps those who work in large organizations to become more entrepreneurial in their outlook and performance. The Certificate is awarded for the satisfactory completion of the core requirements plus an additional 9 units from the listed electives. All students should consult a counselor.

BUSINESS COURSES (BUS)

**BUS 101: Introduction to Business**
3.0 Units. 3 lecture hrs/wk. No prerequisite.

This survey course explores the history, environment and functional areas of business, and analyzes the following topics: comparative economic systems focused on capitalism, globalization, ethical behavior and social responsibility, business ownership, entrepreneurship, marketing, accounting, finance, information technology, environmental issues, and productivity. (CSU/UC) AA/AS Area B, CSU Area D-7

**BUS 107: Business Law**
3.0 Units. 3 lecture hrs/wk. No prerequisite.

This course develops students’ understanding of the basic principles of business law and applications to typical business situations. Topics include law of contracts, agency and employment, negotiable instruments, personal property, bailments, sales of goods, real property, and partnerships. (CSU/UC)
**BUS 112: Financial Accounting**

4.0 Units. 4 lecture hrs/wk. No prerequisite.

An introduction to accounting practice, principles and analysis. This course is basic for students in accounting, business administration, economics, law and other professions. It covers the accounting cycle for a service enterprise and for a merchandising enterprise, preparation of financial statements, internal control, valuation of receivables, depreciation and fixed asset disposal, debt structure, corporate capitalization and retained earnings, and finishing with a thorough discussion of financial statement analysis. (CSU/UC)

**BUS 113: Managerial Accounting**

5.0 Units. 5 lecture hrs/wk. Prerequisite: BUS 112.

This course covers fund flow analysis, basic managerial cost concepts and developments in contemporary managerial accounting, cost accounting systems, cost-volume-profit relationships, budgetary planning and control, responsibility accounting, performance evaluation through standard costs, and incremental analysis and capital budgeting. (CSU/UC)

**BUS 115: Applied Computer Accounting**

3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. Advisory: BUS 112.

A first course in the operation of computerized accounting software, designed for business entrepreneurs who will be using a computerized accounting system in their business as well as students training to be professional accountants. Subjects include overview of software, setting up a company, entering and paying bills, working with lists, setting up and managing inventory, invoicing customers and receiving payment, processing banking-related transactions and preparing bank reconciliations, preparing a budget, processing payroll, and preparation of reports and graphs. (CSU)

**BUS 121: Entrepreneurship**

3.0 Units. 3 lecture and 1 lab hrs/wk. No prerequisite.

This course focuses on the entrepreneur and the concepts, skills, information, attitudes, alternatives and resources relevant for success in starting, operating and managing a new venture. The course covers the environment, resources, business plan, accounting, financing, marketing, management, and legal aspects; it includes industry and market research and requires students (in teams) to write a business plan feasibility analysis. (CSU)

**BUS 124: Marketing**

3.0 Units. 3 lecture hrs/wk. No prerequisite.

This introductory course on the vital business area of marketing is open to all students. Topics include marketing’s role in society, the market structure, channels of distribution, retail institutions, product development, packaging, pricing, and promotion. (CSU)

**BUS 129: The Art of Selling**

1.5 Units. 1 lecture and 1.5 lab hrs/wk. No prerequisite.

Through active participation, students/entrepreneurs learn how to gain and maintain a competitive edge by developing effective sales strategies and techniques. The course covers all phases of the selling process. Participants learn the “how” as well as the “why” of selling and then have an opportunity to apply these techniques in a critiqued videotaped sales presentation. (CSU)

**BUS 144: Business Communication**

3.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: ENGL 79.

This course emphasizes the application of effective writing techniques and strategies to business communication problems found in organizations. Students analyze cases, then organize and prepare various business documents such as resumes, letters, memoranda, reports, business plans, and proposals. (CSU)

**BUS 150: Supervision and Management**

3.0 units. 3 lecture hrs/wk. No prerequisite.

This introductory course covers the core concepts and current issues related to supervision and management. Students learn how to assume supervisory responsibility and how to apply management principles in today’s rapidly changing world of work. (CSU)

**BUSINESS OFFICE SYSTEMS**

The business office systems curriculum is designed to develop the knowledge, skills, and attitudes needed by workers in today’s automated offices. Students can acquire the training and skills necessary to enter the job market, update knowledge and skills to reenter the marketplace, or retrain in order to maintain a present position or obtain a promotion. The skills developed in this curriculum are also useful to students who wish to enrich their business and computer expertise for personal use.

Courses emphasize skill development in business office systems with specialties available in the medical and office management areas. Most courses include hands-on computer use so students learn necessary computer skills as well as the individual course material.

**Career Options**

Administrative Assistant, Bank Teller, Clerical Assistant, Executive Assistant, General Office Worker, Human Resources Assistant, Medical Office Assistant, Medical Office Manager, Medical Receptionist, Medical Records Clerk, Medical Scheduler, Medical Secretary, Medical Transcriber, Microcomputer User, Office Assistant, Office Manager, Payroll Assistant, Receptionist, Records Clerk, Research Assistant, Secretary, Transcribing Machine Operator, Word Processing Manager, Word Processing Operator

Department Phone: 415-485-9610

**Administrative Assistant Skills Certificate**

Skills Certificates are an acknowledgement that the student has attained a specified set of competencies within an occupational program. Skills Certificates may be part of a “ladder” of skills, beginning with job entry skills and leading to a full Certificate of Achievement Program or may constitute a skill set that enables a student to upgrade or advance in an existing career. Skills Certificates require less than 18 units and are shorter in duration than the Certificate of Achievement.

The Administrative Assistant Certificate indicates that foundation courses needed for entry-level employment in office support have been successfully completed.
Note: Before a Business Office Systems Skills Certificate is granted, the student must demonstrate the ability to keyboard a minimum of 35 words-a-minute with five or fewer errors.

## BUSINESS OFFICE SYSTEMS COURSES (BOS)

### BOS 150: Applied Word Processing Design

3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. Advisory: CIS 170.

Microsoft Word software is used in this Windows-based course to develop beginning and intermediate word processing skills. Topics include creating letters, memos, reports, tables, graphics, mail merge, styles, and forms. Students complete desktop publishing projects using online sources to access multimedia resources. (CSU)

### BOS 151: Electronic Office Skills

3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. Advisory: BOS 150 and CIS 170.

Current Microsoft Office software is used in this Windows-based course, designed to develop beginning and intermediate administrative office skills using Excel, Access, PowerPoint, and Outlook. The course focuses on individual and integrated office projects that support business tasks found in the modern business office. (CSU)

## CHEMISTRY

Chemistry is by far the largest field of employment in the sciences. A wide range of opportunities awaits the chemist in business, industry, government, and in the field of education. Approximately three-fourths of all chemists are employed by private industry in such fields as petroleum, primary metals, electrical equipment, aerospace, paper, food, and rubber.

### Career Options

Biochemist, Chemical Engineer, Dentist, Failure Analyst, Food and Drug Officer, Food Chemist, Forensic Chemist, Hydrologist, Industrial Chemist, Nutritionist, Oceanographer, Patent Agent, Pharmaceutical Salesperson, Physician, Pollution Control Expert, Process Control Worker, Product Developer, Quality Control Worker, Quantitative Analyst, Researcher and Developer, Teacher, Textile Chemist, Toxicologist

Faculty

Erik Dunnire, Patrick Kelly, Scott Serafin
Department Phone: 415-485-9510

### Chemistry Prerequisite Recency Requirement

To ensure student success, certain chemistry and physics courses have established 5-year prerequisite recency requirements beginning in Fall 2014. The chemistry prerequisites for CHEM 131, 132, 132E, 231, 232, and 232E and the physics prerequisites for PHYS 108B, 207B and 207C must have been successfully completed within the past 5 years. Students may challenge these recency requirements by taking a test, by arrangement with the Physical Sciences Department chairperson.

### CHEMISTRY COURSES (CHEM)

#### CHEM 105: Chemistry in the Human Environment

3.0 Units. 3 lecture hrs/wk. No prerequisite.

A nonmathematical course for liberal arts and nonscience majors, exploring chemistry in relation to society. A general introduction and discussion of the development and manifestations of concepts of chemistry and their applications in our environment including living systems. Special considerations are given to current topics, environmental issues, energy production, nutrition, medicine, and consumer products. (CSU/UC) AA/AS Area A, CSU Area B-1, IGETC Area 5A

#### CHEM 105L: Chemistry in the Human Environment: Laboratory

1.0 Unit. 3 lab hrs/wk. Prerequisite: CHEM 105 or concurrent enrollment.

A laboratory-demonstration course designed to illustrate and exercise the basic chemistry concepts presented in CHEM 105. Students explore the significance of chemistry concepts to consumer, health and environmental threats through tangible laboratory experiments. Satisfies the general education requirement in physical sciences with a laboratory component. (CSU/UC) AA/AS Area A, CSU Area B-1 and B-3, IGETC Area 5C

#### CHEM 110: Chemistry for Allied Health Sciences

5.0 Units. 4 lecture and 3 lab hrs/wk. Prerequisite: Math 101 or 101AB or 101XY or eligibility for Math 103 based on the Math Assessment Test.

This introductory one-semester survey of the fundamental concepts and laboratory techniques of general, organic, and biochemistry emphasizes applications within the Health Sciences. Students apply the fundamental concepts of chemistry to problem solving through analytical reasoning, and by conducting scientific investigations in a laboratory setting. The course meets admission requirements for the A.S. degree in Registered Nursing and other allied health sciences, and fulfills a general elective requirement in natural sciences. (CSU) AA/AS Area A, CSU Area B-1 and B-3

#### CHEM 114: Introduction to Chemistry

5.0 Units. 4 lecture and 3 lab hrs/wk. Prerequisite: Math 101 or 101AB or 101XY or eligibility for Math 103 based on the Math Assessment Test.

This course covers problem-solving techniques using dimensional analysis, basic principles of inorganic chemistry, and elementary qualitative and quantitative laboratory experiments. The course is designed to prepare students for CHEM 115 and 131, and satisfies a CSU general education requirement in physical sciences as well as a requirement by the COM Nursing Program. CHEM 114 and 115 represent one year of chemistry for most baccalaureate programs in nursing, health sciences, physical therapy, laboratory and medical technology, as well as non-science majors. (CSU/UC) AA/AS Area A, CSU Area B-1 and B-3, IGETC Area 5A 5C

#### CHEM 115: Survey of Organic and Biochemistry

4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: CHEM 114. Not open to those who have had Chem 231.

This one-semester survey of the classes of organic compounds emphasizes materials of interest to students of biological sciences, including the chemistry and metabolism of proteins, carbohydrates, lipids and nucleic acids. The laboratory covers techniques in organic chemistry with applications to biologically interesting compounds.
The course is intended for dental hygiene, nursing (baccalaureate program), health science, laboratory and medical technology, pre-optometry, some predental and nonphysical science majors. CHEM 114 and 115 represent one year of chemistry for most baccalaureate programs in nursing, health science, laboratory and medical technology, and nonscience majors. (CSU/UC) CSU Area B-1 and B-3, IGETC Area 5A and 5C

**CHEM 131: General Chemistry I**
5.0 Units. 3 lecture and 6 lab hrs/wk. Prerequisites: CHEM 114 or satisfactory score on Chemistry Placement Test, and Math 103 or 103AB or 103XY or satisfactory score on Math Assessment Test. The chemistry prerequisite must have been completed within the past 5 years.

Fundamental principles of chemistry including such topics as atomic theory, nomenclature, thermochemistry, bonding, structure and polarity, stoichiometry, gases, liquids and solids, intermolecular forces, solutions, and a brief introduction to organic chemistry and biochemistry. (CSU/UC) AA/AS Area A, CSU Area B-1 and B-3, IGETC Area 5A and 5C

**CHEM 132: General Chemistry II**
5.0 Units. 4 lecture and 3 lab hrs/wk. Prerequisite: CHEM 131. The prerequisite must have been completed within the past 5 years.

A continuation of CHEM 131 emphasizing kinetics, thermodynamics, aqueous solution equilibria, electrochemistry, and selected topics from nuclear chemistry, descriptive inorganic chemistry, materials, metals and coordination compounds. (CSU/UC) AA/AS Area A, CSU Area B-1 and B-3, IGETC Area 5A and 5C

**CHEM 132E: General Chemistry II, Lecture Only**
3.0 Units. 3 lecture hrs/wk. Prerequisite: CHEM 131. The prerequisite must have been completed within the past 5 years.

Lecture material of Chemistry 132 for those engineering and science majors who need eight units (one year) of general chemistry but only one semester of lab. Bioengineering and chemical engineering majors should enroll in Chemistry 132. Not open to those who have had Chemistry 132. (CSU/UC) CSU Area B-1, IGETC Area 5A

**CHEM 231: Organic Chemistry I**
5.0 Units. 3 lecture and 6 lab hrs/wk. Prerequisite: CHEM 132. The prerequisite must have been completed within the past 5 years.

The first semester of the one-year intensive organic chemistry sequence for students majoring in chemistry, environmental science, biochemistry, chemical engineering, cell and molecular biology, and related fields; and for students satisfying premedical, predental, and other health science prerequisites. The study of fundamental topics, including structure, function, stereochemistry, nomenclature, reactions, mechanisms and multistep synthesis of organic compounds. (CSU/UC) CSU Area B-1 and B-3, IGETC Area 5A

**CHEM 232: Organic Chemistry II**
5.0 Units. 3 lecture and 6 lab hrs/wk. Prerequisite: CHEM 231. The prerequisite must have been completed within the past 5 years.

The second semester of the one-year organic chemistry course including laboratory for students majoring in chemistry, biochemistry, and premedical and predental curricula. Students who need only eight units of organic chemistry, see CHEM 232E. (CSU/UC) CSU Area B-1 and B-3, IGETC Area 5A and 5C

**CHEM 232E: Organic Chemistry II, Lecture Only**
3.0 Units. 3 lecture hrs/wk. Prerequisite: CHEM 231. The prerequisite must have been completed within the past 5 years.

The second semester of the one-year organic chemistry course without laboratory for those who need a total of eight units, such as some biology, environmental science, health, and chemical engineering majors. The material is taught from a mechanistic approach, focusing on reactivity and multi-step synthesis, as well as classical and cutting-edge analysis of organic compounds including NMR, IR, GC/MS and UV/Vis spectroscopy. (CSU/UC) CSU Area B-1

**CHINESE**
A major reason for studying the Chinese language is the enrichment of one’s intellectual growth in the context of the rest of the world. In learning Chinese, one also learns about the culture, philosophy, and civilization of another people, thereby broadening understanding of the world. On the practical side, any field of specialization (journalism, medicine, law, business, teaching) is enhanced if one can speak another language. In California, knowledge of a modern language is now required in many jobs that deal with the public such as Civil Service, social work, nursing, and other service-oriented fields.

**Career Options**

**Department Phone:** 415 485-9480

**Policy Statement Regarding Sequence of Enrollment in Chinese Language Classes**
Although students are advised to enroll in language courses sequentially, they will not be precluded from enrolling in lower level language classes after completion of more advanced courses. Students should be aware, however, that units resulting from the lower level courses may not be accepted at transfer institutions as a part of the required transferring units.

**CHINESE COURSES (CHIN)**

**CHIN 100: Chinese Basics**
1.0 Unit. 1 lecture hr/wk. No prerequisite.

This course provides an initial encounter with the Chinese language, introducing the pinyin system, partial pictograms, radicals, components, and parts of character formation, and Chinese cultural aspects and values. The course teaches pronunciation, basic strokes, and simple characters to enable students to feel comfortable and confident to begin CHIN 101. (CSU)

**CHIN 101: Elementary Chinese Mandarin I**
5.0 Units. 4 lecture and 3 TBA hrs/wk. No prerequisite.

This course develops proficiency in listening and speaking skills in Chinese/Mandarin, and provides a foundation in literacy skills. Students also gain knowledge and appreciation of Chinese culture. The acquisition of Chinese/Mandarin language skills and an appreciation of China’s role in the global community are goals of the course. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 6A: UC Language Other Than English
CHIN 102: Elementary Chinese Mandarin II
5.0 Units. 4 lecture and 3 TBA hrs/wk. Prerequisite: CHIN 101.
In this course, students develop further communicative skills in Chinese Mandarin. Students gain knowledge and appreciation of Chinese culture, history, and China's new role in global economics and politics. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B and 6A: UC Language other than English

CHIN 110: Conversational Chinese Mandarin I
4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite.
An intensive study of practical Chinese conversation, designed for students who wish to acquire skills of spoken modern colloquial Mandarin for travelers and those doing business in China. Oral practice in speaking and understanding Chinese through audiovisual packages related to daily working environment and life. Topics include everyday conversation among in-groups (husband-wife, friend-friend, among the family), everyday conversation between out-groups (superior-inferior, between unknowns), nonverbal communication, and culturally correct Chinese conversation. (CSU)

CHIN 112: Conversational Chinese Mandarin II
4.0 Units. 3 lecture and 3 TBA hrs/wk. Prerequisite: CHIN 110.
This course emphasizes modern colloquial Chinese in conversation and the study of elementary grammar, designed for students who want to learn at a faster pace in the spoken language with a minimum of formal grammar. Use of audio materials improves accuracy and fluency in pronunciation. (CSU)

COLLEGE SKILLS
The College Skills Department consists of three pre-college programs: English Skills, Credit ESL, and Noncredit ESL. All three programs serve students who need to develop their study and communication skills in order to succeed.

Faculty
Rebecca Beal, Barbara Bonander, Karen Koenig, Cheo Massion, Sara McKinnon, Beth Patel, Alicia (Meg) Pasquel, Patricia Seery, Wendy L. Walsh, Blaze Woodlief
Department Phone: 415-485-9642

NONCREDIT ENGLISH AS A SECOND LANGUAGE (ESLN/ESLV)
The Noncredit ESL program primarily serves the burgeoning immigrant population of Marin County. Through free noncredit ESL classes, the program has helped countless Marin residents from over 75 countries fulfill their educational, career and personal goals to become productive members of our community. Noncredit ESL offers multi-skill classes at the Kentfield and Indian Valley campuses as well as at several off-campus locations. In addition, there are pronunciation classes and vocational ESL classes. Noncredit ESL classes are open entry and open exit.

Please see the English as a Second Language Noncredit (ESLN and ESLV) category for individual course listings.

CREDIT ENGLISH AS A SECOND LANGUAGE (ESL)
The credit ESL program offers instruction for non-native English speakers with intermediate to advanced levels of English proficiency. Our students come with a variety of goals, from transferring and earning degrees to improving their skills for the workforce and for everyday life. Our program prepares them with the academic language and student skills they will need to succeed in their other credit-level coursework.

The core of the Credit ESL program encompasses 4 levels in ESL (50-60-70-80) plus two more parallel sections of the English Department’s classes (98 and 120) which prepare students for English 150 (freshman composition). At each level separate classes are offered to cover Grammar/Writing and Reading/Vocabulary. In addition there are pronunciation classes and listening/speaking classes.

Please see the English as a Second Language (ESL) category for individual course listings.

ENGLISH SKILLS
The English Skills program provides English and study skills courses to help students develop reading, writing, thinking and social skills so that they can enroll in and profit from instruction in credit courses and/or successfully get a job and advance in that job. Students come to English Skills classes to achieve a variety of goals: some to get better jobs, some to move horizontally into workforce programs such as dental assisting or metals technology, and some to succeed in transfer-level courses. The English Skills program provides the developmental levels of College of Marin’s writing sequence. The program consists of the developmental English courses, open-entry skills lab classes and a GED preparation program. The majority of the courses are conducted on the Kentfield campus; however, an open-entry lab is offered on the Indian Valley Campus two afternoons a week. The IVC classes mostly accommodate Court Reporting Students.

Please see the English (ENGL) category (courses numbered 062-097) for individual course listings.

COMMUNICATION
For additional Communication courses, please see Film and Video.

The curriculum is designed to provide theory and skills for those who are interested in mass media, television and films, whether students’ goals be transfer, professional, or self-enrichment.

Career Options
Animator, Announcer, Broadcast Technician, Camera Operator, Community Affairs Director, Disc Jockey, Engineering Technician, Film Director, Film Editor, Freelance Film Maker, Light Technician, News Broadcaster, News Director, Producer, Production Engineer, Program Assistant, Promotion Sales Manager, Public Relations Representative, Reporter, Sales Account Executive, Screenwriter, Sound Editor, Sound Recorder, Sports Technician, Teacher, Traffic Manager, Tutor, Videotape Photographer, Writer

Faculty
Bonnie Borenstein, Patricia O’Keefe
Department Phone: 415-485-9348
A.A.-T. IN COMMUNICATION STUDIES

Associate in Arts in Communication Studies for Transfer degree (AA-T)

This degree is intended for students who plan to transfer to the California State University (CSU) with a major in Communication Studies.

The Associate in Arts in Communication Studies for Transfer degree (AA-T) provides students with a breadth of courses that cover the many facets of communication, including public speaking, argumentation, mass media, and interpersonal and group communication. Students will develop their communication practices while studying theories and concepts that examine the role of communication in interpersonal relationships and society.

To complete the Associate in Arts Degree in Communication Studies for Transfer (AA-T), a student must:

1. Complete 60 semester units or 90 quarter units that are eligible for transfer to the California State University, including both of the following:
   - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education – Breadth Requirements.
   - A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district. Up to 12 units may be double-counted.
2. Complete all courses in the major with a grade of “C” or better, or “P” if the course is taken as “pass/no pass.”
3. Obtain a minimum grade point average of 2.0.

COMMUNICATIONS COURSES (COMM)

COMM 110: Introduction to Mass Communication and Media Literacy

3.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: ECON 125 or ETST 125 or HIST 125 or POLS 125 or SSC 125. May be taken as COMM 110 or JOUN 110; credit awarded for only one course.

A critical survey of mass media from a humanities and social science perspective, this course provides an overview of the salient theories, history, and economic and social forces that shape mass media technologies and messages. Students examine the historical development of major print, electronic, interactive, and image-based media in terms of their sociocultural consequences and influence in order to more effectively interpret and make decisions about the meanings of mass media messages. (CSU/UC) AA/AS Area C, CSU Area D-7, IGETC Area 4G

COMM 155: Radio and Television Announcing and Performance

3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as COMM 155 or SPCH 155; credit awarded for only one course.

This course prepares students to communicate more effectively through the electronic media. Students explore how to articulate messages, vary pitch and volume to the text and context, pronounce words according to accepted standards, express thoughts and feelings with confidence, understand and interpret the meaning of a message, and communicate ideas from a variety of prompts. (CSU)

COMM 160: Images of Race, Gender, and Class in the Media

3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as COMM 160 or JOUN 160; credit awarded for only one course.

This course is designed to help students become more “media literate” and socially aware by critically examining the role of the media in enabling, facilitating, or challenging various social constructions including race, ethnicity, gender, sexual orientation, age, and disability. The course addresses a variety of entertainment and news content in print and electronic media, and analyzes these texts within their historical context. (CSU/UC) AA/AS Areas C and G, CSU Area D-3 or D-4, IGETC Area 4C and 4D

A.A. IN COMMUNICATION, MASS COMMUNICATIONS OPTION

Students who complete the requirements listed below, plus additional general education and graduation requirements, will be awarded the associate degree. Note: Students are required to complete English 150 for the associate degree. All students should consult a counselor.
COMPUTER INFORMATION SYSTEMS

The Computer Information Systems curriculum is designed to provide education for computer-related careers, professional advancement, and transfer preparation. Courses provide “hands-on” computer use that emphasizes the development of the skills necessary for employment and personal use of computers. Program specialties include desktop network, desktop publishing, microcomputer manager, and microcomputer programmer.

Career Options

Computer Sales Representative, Computer Software Specialist, Desktop Publishing Specialist, Hardware and Software Consultant, Help Desk Technician, Microcomputer Applications Specialist, Microcomputer Manager, Microcomputer Software Support Technician, Network Technician, Programmer, Systems Administrator, Systems Integrator

Faculty

John Hinds, A. Joe Ritchie
Department Phone: 415-485-9610

A.S. IN COMPUTER INFORMATION SYSTEMS

(Certificate of Achievement also awarded. Skills Certificates in Microsoft Office Database Specialist and Microsoft Office Specialist are also awarded.)

Study in the field of Computer Information Systems is designed to prepare students for entry-level positions in the business information systems field. In addition to the core courses, students select one or more CIS/BOS (Business Office Systems) elective courses which enhance their understanding of particular areas of interest.

The Associate in Science degree is awarded for completion of all requirements in the core program (21 units) and a minimum of an additional 3 units of elective CIS/BOS courses, as well as completion of general education and graduation requirements.

A Certificate of Achievement is awarded for completion of the core program (21 units) plus an additional 3 units selected from the list of CIS/BOS elective courses.

A Skills Certificate is earned by satisfactory completion of the required courses as listed for the specific Skills Certificate. Note: Students must complete English 150 to satisfy the Associate degree. Transfer students are advised to complete English 150. All students should consult a counselor.

CORE PROGRAM

The following courses are required of all Computer Information Systems degree students:

<table>
<thead>
<tr>
<th>REQUIREMENTS</th>
<th>UNITS</th>
</tr>
</thead>
<tbody>
<tr>
<td>CIS 110</td>
<td>3</td>
</tr>
<tr>
<td>CIS 170</td>
<td>3</td>
</tr>
<tr>
<td>CIS 171</td>
<td>3</td>
</tr>
<tr>
<td>CIS 172</td>
<td>3</td>
</tr>
<tr>
<td>CIS 173</td>
<td>3</td>
</tr>
<tr>
<td>CIS 174</td>
<td>3</td>
</tr>
</tbody>
</table>

Electives

In addition to the core program listed above, each Computer Information Systems degree/ certificate student must complete a minimum of 3 additional units from the following list:

<table>
<thead>
<tr>
<th>REQUIREMENTS</th>
<th>UNITS</th>
</tr>
</thead>
<tbody>
<tr>
<td>BOS 150</td>
<td>3</td>
</tr>
<tr>
<td>CIS 137</td>
<td>1.5</td>
</tr>
<tr>
<td>CIS 215</td>
<td>3.5</td>
</tr>
<tr>
<td>CIS 237</td>
<td>1.5</td>
</tr>
</tbody>
</table>

TOTAL MAJOR UNITS: 24-24.5

Skills Certificates

Skills Certificates are an acknowledgement that the student has attained a specified set of competencies within an occupational program. Skills Certificates may be part of a “ladder” of skills, beginning with job entry skills and leading to a full Certificate of Achievement program or may constitute a skill set that enables a student to upgrade or advance in an existing career. Skills Certificates require less than 18 units and are shorter in duration than the Certificate of Achievement.

Microsoft Office Database Specialist Skills Certificate

TOTAL CERTIFICATE UNITS: 9

COMPUTER INFORMATION SYSTEMS COURSES (CIS)

CIS 110: Introduction to Computer Information Systems

3.0 Units. 3 lecture and 1 lab hrs/wk. No prerequisite.

This is an introductory survey of the needs for and roles of computer information systems within organizations. Emphasis is on information technology requirements for organizations, history, hardware, programming, systems development, personal computers, Internet, and networks. Students work with personal computers using application software for word processing, spreadsheets, and databases. Programs are written and run in a high level language. (CSU/UC)

CIS 120: Information & Communications Technology Essentials

4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite.

This course introduces the computer hardware and software skills needed to help meet the growing demand for entry-level ICT professionals. The fundamentals of computer hardware and software, as well as advanced concepts such as security, networking, and the responsibilities of an ICT professional are introduced. Preparation for CompTIA’s A+ certification exam is included. (CSU)
CIS 137: Advanced Database Design
1.5 Units. 1 lecture and 1.5 lab hrs/wk. No prerequisite.
Students concentrate on advanced topics and techniques such as designing complex forms and reports, customizing the user interface, automating tasks with macros, using and writing Visual Basic for Applications code, and finally, managing and securing a database. (CSU)

CIS 155A: Systems and Network Administration
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. Advisory: CIS 275.
This course provides the knowledge and skills required to build, maintain, troubleshoot, and support server and workstation hardware and software technologies. Students learn to identify environmental issues; understand and comply with disaster recovery and physical/software security procedures; become familiar with industry terminology and concepts; and understand server and workstation roles, specializations, and interactions within the overall computing environment. (CSU)

CIS 160: Introduction to Information Systems Security
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. Advisory: CIS 275.
An introduction to the fundamental principles and topics of information technology security and risk management at the organizational level. It addresses hardware, software, processes, communications, applications, and policies and procedures with respect to organizational cybersecurity and risk management. (CSU)

CIS 170: Windows OS for PC Users
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite.
This course provides an introduction to hardware, operating systems, and application software environment of the personal computer running under Windows. Topics include Windows environment, menus, dialog boxes, folder management, explorer, disk maintenance and other Windows tools. Students gain the skills and confidence necessary to succeed in additional application training courses in spreadsheets, database design, word processing and Web page construction, as well as the transfer level comprehensive computer concepts course. (CSU)

CIS 171: Applied Spreadsheet Design
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. Advisory: CIS 110 or 170.
Students learn to use a personal computer spreadsheet software program to design, create, and manipulate worksheets to meet management, marketing, accounting, and other business needs. (CSU)

CIS 172: Applied Database Design
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. Advisory: CIS 110 or 170.
In this course on the design and installation of a database for personal computers, students use the features of database software to implement database applications using development tools to integrate information from other applications, analyze data, utilize internet capabilities, include forms for data input and validation, and produce custom reports. (CSU)

CIS 173: Applied Presentations and Publications
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. Advisory: CIS 110 or 170.
Fundamental design and layout requirements for the creation of effective computer generated presentations and printed documents for business. Students learn and experience the operation of software packages that deal with layout, composition, typography, use of color and choice of various output media. (CSU)

CIS 174: Applied Website Design
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. Advisory: CIS 170 or 110.
This course teaches the design and implementation of websites using Microsoft Expression Web. Students learn how a graphical website editor creates static and dynamic pages and controls site management. (CSU)

CIS 215: Visual BASIC Programming
3.5 Units. 3 lecture and 2 lab hrs/wk. No prerequisite. Advisory: CIS 110.
Students plan and create their own interactive Windows applications using Visual BASIC on a personal computer. Logic and computation problems develop skill in developing interactive BASIC programs. (CSU/UC) AA/AS Area E

CIS 237: Introduction to SQL Programming
1.5 Units. 1 lecture and 1.5 lab hrs/wk. No prerequisite. Advisory: CIS 137.
This course extends students’ relational database application development knowledge using SQL (Structured Query Language). Students concentrate on learning the SQL programming language including single and multiple-table queries, updating data, database administration, reports and embedded SQL. (CSU)

CIS 275: Networking Fundamentals and Practices
3 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. Advisory: CIS 170 or 110.
This course introduces the design of server-based networks, including virtual environments. By researching and developing a case study of a typical network, students explore and implement basic concepts of networks. Topics include LAN, WAN, MAN and wireless network hardware, network operating systems, virtualization and operating system imaging, cloud computing, and network applications. (CSU)
COMPUTER SCIENCE

Computers play a role in most facets of our daily lives, from our acquisition and use of vast amounts of information throughout the day, to the myriad ways we communicate with each other, to the appliances we use in our home, to our transportation both public and private. The computer science degree program is designed to help students gain the skills necessary to take part in the responsible design and management of our future technology.

Career Options
Careers for graduates of computer science programs include job titles as diverse as software developer, computer hardware engineer, systems analyst, game developer, computer engineer, web developer, technical writer, program manager, site reliability engineer, researcher, technical account manager, and private consultant. Computer science majors hold positions in large multinational corporations; federal, state, and local governments; private companies; technical start-ups; and consulting firms.

Faculty
Mia Chia
Department Phone: 415-485-9510

Transfer
With an associate degree in computer science, students can transfer to bachelor degree programs in areas such as applied computer science and engineering, computer graphics, computer information systems, and computer information technology. Additionally, there are degrees with concentrations in artificial intelligence, computational linguistics, networks and security, software engineering, networking and data communication, bioinformatics, computer game design, homeland security, materials science and engineering, nuclear engineering, applied math, scientific computation, telecommunications, multimedia, and applied computing.

A.S. IN COMPUTER SCIENCE

Computer science students may choose among several paths to meet requirements for the associate degree. There are three entry-level courses, Computer Science 130, 135, and 150 (C++, JAVA, and MATLAB), that each fulfill the requirements for any of the upper-level courses. Students who complete the requirements listed below, plus additional general education and graduation requirements, will be awarded the associate degree. Due to the diversity among degree programs, students should talk with a counselor or faculty member about their career goals and transfer requirements as they prepare to make their class choices. Note: Students are required to complete English 150 for the associate degree. All students should consult a counselor.

And one of the following advanced programming courses:

| COMP 235 | Advanced Programming in C++ | 4 |
| COMP 232 | Advanced Programming in JAVA | 4 |

TOTAL MAJOR UNITS 43

COMPUTER SCIENCE COURSES (COMP)

COMP 117: Discrete Mathematics
3.0 Units. 3 lecture hrs/wk. Prerequisite: Math 121 or 123. Can be taken as COMP 117 or Math 117; credit awarded for only one course.

A survey of topics including set theory, combinatorics, graph theory, algorithm, logic, Boolean algebra, formal languages, and probability theory. Recommended for mathematics majors and students interested in engineering and applied fields. (CSU/UC) CSU Area B-4, IGETC Area 2A

COMP 130: Introduction to Computer Programming Using C++
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Math 103 or 103AB or 103XY or sufficient score on Math Assessment Test.

An introduction to problem-solving using a structured, object-oriented programming language in C++ for those without prior programming experience. Examples and programming assignments are drawn from many areas, involving both numerical and non-numerical applications. (CSU/UC) AA/AS Area E

COMP 135: Introduction to Programming in JAVA
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Math 103 or 103AB or 103XY or sufficient score on Math Assessment Test.

Introduction to computer programming using JAVA for computer science majors and computer professionals. Course concepts include problem-solving techniques, program design, charting, control structures, primitive data types, array and string data structures, operations, algorithms, reading and writing files, exception handling, and applets. Object-oriented features are introduced, including classes, objects, inheritance, and parameter passing. (CSU/UC) AA/AS Area E

COMP 150: Programming in MATLAB for Engineers
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Math 123. May be taken as COMP 150 or ENGG 150; credit awarded for only one course.

Designed to meet computer programming requirements for engineering transfer students, this course utilizes the MATLAB environment to provide a working knowledge of computer-based problem-solving methods relevant to science and engineering, including programming and numerical analysis techniques. Students outline, write, test, and debug computer programs to solve problems and display results, emphasizing proper documentation of computer code and reports. Common examples and applications of physics and engineering are used throughout the course. (CSU/UC)
Counseling courses are designed to provide an in-depth exploration into the process of self-knowledge. The courses are specifically intended to enhance student study habits, provide insights into career possibilities, and establish suitable educational planning. Courses are taught both informally and experientially in order to arrive at a realistic view of oneself and to enable students to better assess their potential for making informed decisions. In addition to the established offerings, special topics are offered periodically in response to student interest.
COUN 116: Transfer Success and Educational Planning
1.0 Unit. 1 lecture hr/wk. No prerequisite.
The purpose of this course is to provide a global perspective about the transfer process to a four-year university that includes transfer exploration, transfer policies, academic requirements, transfer planning and processes, and available tools and services in support of transfer goals. Students have the opportunity to broaden their perspectives by examining the role of higher education in society. The course guides students to examine their life plan and achievements, and develop a strong personal statement. Students complete a cost analysis and explore resources to fund their education. (CSU)

COUN 125: How to Study Effectively
1.0 Unit. 1 lecture hr/wk. No prerequisite.
This course introduces students to proven study techniques, including assessing learning styles, time management, stress reduction, listening and lecture note taking, efficient textbook reading, preparing for exams, improving memory, and critical thinking and writing. (CSU)

COUN 125L: Effective Study Skills Lab
0.5 Unit. 1 lab hr/wk. No prerequisite.
This course provides students the opportunity to assess their current study skills, and in the lab setting develop and practice proven study techniques in effective textbook reading, active listening, lecture note taking, exam preparation, memory and concentration improvement, and time budgeting. (CSU)

COUN 130: Career Life Skills Planning
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This course focuses on the determination of personal and professional life goals using a reflective model of decision-making applicable in a variety of situations over an individual's lifespan. Through a study of career decision making, students explore the impact of psycho-social, physical, and affective factors on their own cognitive processes. The course addresses workplace cultural pluralism, technological awareness, one's role and impact in the workplace, choosing a college major, and changing jobs and career fields. (CSU) CSU Area E

COUN 133: Career Exploration
1.0 Unit. 1 lecture hr/wk. No prerequisite.
This introductory course provides students with a practical approach to making career and educational decisions. Self-assessment inventories and assignments help students discover their interests, values, skills, lifestyle needs, and personality profile. (CSU)

COUN 133A: Career Exploration
0.5 Unit. 0.5 lecture hr/wk. No prerequisite.
This short course introduces self-assessment including interests, skills, values, and personality style, as it relates to career transition and choosing a major. (CSU)

COUN 135: Effective Job Search Strategies
0.5 Unit. 0.5 lecture hr/wk. No prerequisite. Two lecture hours weekly for four weeks.
This course teaches strategies for identifying internships and jobs that provide hands-on experience related to students' chosen career. The course emphasizes job search strategies, resume and cover letter preparation, interviewing techniques, and labor market research. (CSU)

COUN 136ABC: Career Internship
1.0 (A), 2.0 (B), or 3.0 (C) Units. 3 (A), 6 (B), or 9 (C) lab hrs/wk. Prerequisite: COUN 135.
This internship course offers students the opportunity to develop marketable skills in their major area of study. It allows students to work (paid or unpaid) in an area of academic or career interest, build their resumes and develop their professional network. (CSU)

COUN 179: Student Development and Transfer
3.0 Units. 3 lecture hrs/wk. No prerequisite.
The process of transferring from the community college system to a college or university can be overwhelming and complex, personally and academically. This course enables students to actively participate in planning their educational and career goals by providing information about the process and requirements for transferring. Students examine the stages of adult development, learn to embrace a culturally diverse world, and explore their identity as it relates to life decisions and career choices. The class addresses the challenges and obstacles that students may see impeding in their transfer process and their identity formation. Students learn how to adjust to one's changing role in a culturally diverse society. (CSU)

COURT REPORTING
The Court Reporting Program is designed for students interested in acquiring the skill necessary to secure employment as a verbatim reporter in our courts of law and legal and business offices.

Career Options
Convention Reporter, Court Reporter, Deposition Reporter, Freelance Reporter, Hearing Reporter

Faculty
Kristin Acredolo
Department Phone: 415-457-8811, Ext. 8226

The College of Marin Court Reporting Program is recognized by the Court Reporters Board of California. For information concerning the minimum requirements that a Court Reporting Program must meet in order to be recognized, contact The Court Reporters Board of California, 2555 Capitol Oaks Drive, Suite 230, Sacramento, CA 95833. Phone: 916-263-3660

A.S. IN COURT REPORTING, OCCUPATIONAL, LEGAL TRANSCRIPTION TECHNOLOGY OPTION
(Certificate of Achievement also awarded.)
The Legal Transcription Technology Option is offered only at the Indian Valley Campus. This curriculum offers students the opportunity to prepare for a career as a proofreader, scopist and/or transcript production technician for court reporters, medical or legal administrative assistant, medical or legal transcriptionist, or text entry specialist. The courses also partially fulfill the Certified Shorthand Reporters Board requirements to qualify to take the State Certified Shorthand Reporters Examination. An Associate in Science degree in Court Reporting, Legal Transcription Technology, is earned by completing the courses listed below and the College of Marin graduation requirements. A Certificate of Achievement is awarded.
for satisfactory completion of all courses required for the major. Note: Students are required to complete English 150 for the associate degree. All students should consult a counselor.

PREREQUISITE
English 120 or equivalent.

PREREQUISITES
Completion of: Court Reporting 110, 112, 120, 140, 160, 166, 167, 168A, 168B, 169A, 169B; Medical Assisting 165; completion of or concurrent enrollment in Court Reporting 168C and Medical Assisting 166.

A.S. IN COURT REPORTING, OCCUPATIONAL, CERTIFIED SHORTHAND REPORTER OPTION
(Certificate of Achievement also awarded)

The Certified Shorthand Reporter Option is offered only at the Indian Valley Campus. This program in conjunction with the academic courses required for the Legal Transcription Technology Option will fulfill the Certified Shorthand Reporters Board requirements to qualify to take the State Certified Shorthand Reporters Examination. An Associate in Science degree in Court Reporting, Certified Shorthand Reporters Option, is earned by completing the courses listed below, the academic courses required for the Legal Transcription Technology Option, and the College of Marin graduation requirements. A Certificate of Achievement is awarded for satisfactory completion of all courses required for the major. In addition, students must pass all required skills tests, up to and including a 10-minute 200 wpm 4-Voice test with at least 97.5% accuracy (Qualifier). The total length of time it takes to complete the machine shorthand skill requirements varies with each student. Note: Students are required to complete English 150 for the associate degree. All students should consult a counselor.

PREREQUISITES
Completion of: Court Reporting 110, 112, 120, 140, 160, 166, 167, 168A, 168B, 169A, 169B; Medical Assisting 165; completion of or concurrent enrollment in Court Reporting 168C and Medical Assisting 166.

REQUIREMENTS
Students must register for eight units of skill building classes each fall and spring semester, and four units in the summer session, to satisfy a Court Reporters Board of California regulation.

COUR REPORTING COURSES (COUR)

COUR 110: Theory of Machine Shorthand
8.0 Units. 4 lecture and 12 lab hrs/wk. Additional 6 weekly independent lab hours using Web-based learning platform. Prerequisite: ENGL 120, 120SL, 120AC, or English Placement Test or equivalent.

This course introduces the theory of machine stenography and operation of the stenotype machine. The course develops knowledge of stenotype theory, fluent stroking and reading of stenotype notes, and the ability to take dictation at 60-80 wpm for three minutes with 90% or better accuracy. Students are required to provide their own stenotype machine. (CSU)

COUR 112: Skill Development I
4.0 Units. 2 lecture and 6 lab hrs/wk. Additional 3 weekly independent lab hours using Web-based learning platform. Prerequisite: COUR 110. Corequisite: COUR 120.

Students complete the machine shorthand theory textbook. This course concludes the introduction of stenotype theory principles; improves fluent reading, writing, and transcription of stenotype notes; develops the ability to take dictation at 80-100 wpm on 5-minute literary, jury charge, 2-voice and 4-voice tests with 95% to 97.5% accuracy; and continues the development of technical, medical, legal, and general vocabulary, and familiarization with current events. Students simulate the role of court reporter in a variety of situations. (CSU)

COUR 120: Skill Development II
4.0 Units. 2 lecture and 6 lab hrs/wk. Additional 3 weekly independent lab hours using Web-based learning platform. Prerequisite: COUR 110. Total of 8 units of court reporting skills development courses required.

This course develops stenotype machine dexterity; improves fluent reading of stenotype notes; develops the ability to take dictation at 100-120 wpm on 5-minute literary, jury charge, 2-voice and 4-voice tests with 95% to 97.5% accuracy; and continues the acquisition of technical, medical, legal, and general vocabulary, and familiarization with current events. Students simulate the role of court reporter in a variety of situations. (CSU)
COUR 120A: Skill Development II-A: Shorthand Speed Acceleration
4.0 Units. 2 lecture and 6 lab hrs/wk. Additional 3 weekly independent lab hours using Web-based learning platform. Prerequisite: COUR 120. Total of 8 units of court reporting skills development courses required.
This post-remedial course, for students who have not completed all 120-wpm skills tests due to drops and hesitation, emphasizes speed development techniques to improve stenotype machine dexterity; develops the ability to take dictation at 100-120 wpm on 5-minute literary, jury charge, 2-voice and 4-voice tests with 95% to 97.5% accuracy; and continues the acquisition of technical, medical, legal, and general vocabulary, and familiarization with current events. Students simulate the role of court reporter in a variety of situations. (CSU)

COUR 120B: Skill Development II-B: Briefs and Phrases
4.0 Units. 2 lecture and 6 lab hrs/wk. Additional 3 weekly independent lab hours using Web-based learning platform. Prerequisite: COUR 120. Total of 8 units of court reporting skills development courses required.
This post-remedial course, for students who have not completed all 120-wpm skills tests, emphasizes briefing and phrasing techniques to improve stenotype machine dexterity; develops the ability to take dictation at 100-120 wpm on 5-minute literary, jury charge, 2-voice and 4-voice tests with 95% to 97.5% accuracy; and continues the acquisition of technical, medical, legal, and general vocabulary, and familiarization with current events. Students simulate the role of court reporter in a variety of situations. (CSU)

COUR 120C: Skill Development II-C: Accuracy
4.0 Units. 2 lecture and 6 lab hrs/wk. Additional 3 weekly independent lab hours using Web-based learning platform. Prerequisite: COUR 120. Total of 8 units of court reporting skills development courses required.
This post-remedial course, for students who have not completed all 120-wpm skills tests, emphasizes accuracy and realtime writing to improve stenotype machine dexterity; develops the ability to take dictation at 100-120 wpm on 5-minute literary, jury charge, 2-voice and 4-voice tests with 95% to 97.5% accuracy; and continues the acquisition of technical, medical, legal, and general vocabulary, and familiarization with current events. Students simulate the role of court reporter in a variety of situations. (CSU)

COUR 140: Skill Development III
4.0 Units. 2 lecture and 6 lab hrs/wk. Additional 3 weekly independent lab hours using Web-based learning platform. Prerequisite: COUR 120. Total of 8 units of court reporting skills development courses required.
This course develops stenotype machine dexterity; improves fluent reading of stenotype notes, develops the ability to take dictation at 120-140 wpm on 5- to 7.5-minute literary, jury charge, 2-voice and 4-voice tests with 95% to 97.5% accuracy; and continues the acquisition of technical, medical, legal, and general vocabulary, and familiarization with current events. Students simulate the role of court reporter in a variety of situations. (CSU)

COUR 140A: Skill Development III-A: Shorthand Speed Acceleration
4.0 Units. 2 lecture and 6 lab hrs/wk. Additional 3 weekly independent lab hours using Web-based learning platform. Prerequisite: COUR 140. Total of 8 units of court reporting skills development courses required.
This post-remedial course, for students who have not completed all 140-wpm skills tests, emphasizes speed development techniques to improve stenotype machine dexterity; develops the ability to take dictation at 140 wpm on 5-minute literary, jury charge, 2-voice and 4-voice tests with 95% to 97.5% accuracy; and continues the acquisition of technical, medical, legal, and general vocabulary, and familiarization with current events. Students simulate the role of court reporter in a variety of situations. (CSU)

COUR 140B: Skill Development III-B: Briefs and Phrases
4.0 Units. 2 lecture and 6 lab hrs/wk. Additional 3 weekly independent lab hours using Web-based learning platform. Prerequisite: COUR 140. Total of 8 units of court reporting skills development courses required.
This post-remedial course, for students who have not completed all 140-wpm skills tests, emphasizes briefing and phrasing techniques to improve stenotype machine dexterity; develops the ability to take dictation at 140 wpm on 5-minute literary, jury charge, 2-voice and 4-voice tests with 95% to 97.5% accuracy; and continues the acquisition of technical, medical, legal, and general vocabulary, and familiarization with current events. Students simulate the role of court reporter in a variety of situations. (CSU)

COUR 140C: Skill Development III-C: Accuracy
4.0 Units. 2 lecture and 6 lab hrs/wk. Additional 3 weekly independent lab hours using Web-based learning platform. Prerequisite: COUR 140. Total of 8 units of court reporting skills development courses required.
This post-remedial course, for students who have not completed all 140-wpm skills tests, emphasizes accuracy and realtime writing to improve stenotype machine dexterity; develops the ability to take dictation at 140 wpm on 5-minute literary, jury charge, 2-voice and 4-voice tests with 95% to 97.5% accuracy; and continues the acquisition of technical, medical, legal, and general vocabulary, and familiarization with current events. Students simulate the role of court reporter in a variety of situations. (CSU)

COUR 141: Usage, Punctuation and Proofreading for the Court Reporter
2.0 Units. 2 lecture hrs/wk. Prerequisite: ENGL 98A and ENGL 98B.
This course presents grammar, usage, punctuation, sentence rhetoric, and error recognition and editing on a professional level to court reporting students, and others whose professional field demands precise skills in independent writing, proofreading, and transcription of oral language. The course emphasizes syntax, diction, structure, and proofreading directly appropriate for court reporting but also vital to business communications, technical report writing, and medical transcription. (CSU)

COUR 160: Skill Development IV
4.0 Units. 2 lecture and 6 lab hrs/wk. Additional 3 weekly independent lab hours using Web-based learning platform. Prerequisite: COUR 120. Total of 8 units of court reporting skills development courses required.
This course develops stenotype machine dexterity; improves fluent reading of stenotype notes, develops the ability to take dictation at 140-160 wpm on 5- to 7.5-minute literary, jury charge, 2-voice and 4-voice tests with 95% to 97.5% accuracy; and continues the acquisition of technical, medical, legal, and general vocabulary, and familiarization with current events. Students simulate the role of court reporter in a variety of situations. (CSU)
COUR 160A: Skill Development IV-A: Shorthand Speed Acceleration
4.0 Units. 2 lecture and 6 lab hrs/wk. Additional 3 weekly independent lab hours using Web-based learning platform. Prerequisite: COUR 160. Total of 8 units of court reporting skills development courses required.
This post-remedial course, for students who have not completed all 160-wpm skills tests, emphasizes speed development techniques to improve stenotype machine dexterity; develops the ability to take dictation at 160 wpm on 5-minute literary, jury charge, 2-voice and 4-voice tests with 95% to 97.5% accuracy; and continues the acquisition of technical, medical, legal, and general vocabulary, and familiarization with current events. Students simulate the role of court reporter in a variety of situations. (CSU)

COUR 160B: Skill Development IV-B: Briefs and Phrases
4.0 Units. 2 lecture and 6 lab hrs/wk. Additional 3 weekly independent lab hours using Web-based learning platform. Prerequisite: COUR 160. Total of 8 units of court reporting skills development courses required.
This post-remedial course, for students who have not completed all 160-wpm skills tests, emphasizes briefing and phrasing techniques to improve stenotype machine dexterity; develops the ability to take dictation at 160 wpm on 5-minute literary, jury charge, 2-voice and 4-voice tests with 95% to 97.5% accuracy; and continues the acquisition of technical, medical, legal, and general vocabulary, and familiarization with current events. Students simulate the role of court reporter in a variety of situations. (CSU)

COUR 160C: Skill Development IV-C: Accuracy
4.0 Units. 2 lecture and 6 lab hrs/wk. Additional 3 weekly independent lab hours using Web-based learning platform. Prerequisite: COUR 160. Total of 8 units of court reporting skills development courses required.
This post-remedial course, for students who have not completed all 160-wpm skills tests, emphasizes accuracy and realtime writing to improve stenotype machine dexterity; develops the ability to take dictation at 160 wpm on 5-minute literary, jury charge, 2-voice and 4-voice tests with 95% to 97.5% accuracy; and continues the acquisition of technical, medical, legal, and general vocabulary, and familiarization with current events. Students simulate the role of court reporter in a variety of situations. (CSU)

COUR 166: Legal Terminology and CSR Law
2.0 Units. 2 lecture hrs/wk. No prerequisite.
General concepts of law to include real and personal property; negligence and personal injury; contracts, wills, probate, and domestic relations; corporate law, insurance, criminal law and equity; procedural law including trial procedures; subpoenas, depositions, appellate procedures and the structure of the judicial system; and California codes applicable to the practice of court reporting. (CSU)

COUR 167: Procedures and Ethics for the Court/Deposition/CART Reporter
1.0 Unit. 1 lecture hr/wk. No prerequisite.
This course explores the career opportunities in court, deposition, and CART reporting, concentrating on the ethics and procedures inherent to these careers. Field trips may include courthouses and deposition agencies. (CSU)

COUR 168A: Spelling & Vocabulary for the Court Reporter
1.0 Unit. 1 lecture hr/wk. Prerequisite: ENGL 120, 120SL, 120AC, or English Placement Test or equivalent.
Designed for court reporting students, this online course develops the spelling and vocabulary skills necessary for professional success. Topics include medical, legal and technical vocabulary and commonly misspelled and confused words.

COUR 168B: Grammar/Punctuation/Proofreading for the Court Reporter Part I
2.0 Units. 2 lecture hrs/wk. Prerequisite: ENGL 120, 120SL, 120AC, or English Placement Test or equivalent.
Designed for court reporting students, this online course develops the grammar, punctuation, and proofreading skills necessary for professional success. Topics include punctuating spoken English, sentence structure, capitalization, paragraphing, and correct grammar usage as it pertains to transcription of legal proceedings.

COUR 168C: Grammar/Punctuation/Proofreading for the Court Reporter Part II
2.0 Units. 2 lecture hrs/wk. Prerequisite: COUR 168B.
Designed for court reporting students, this online course continues to develop topics presented in COUR 168B, developing the grammar, punctuation and proofreading skills necessary for professional success. Topics include punctuating spoken English, sentence structure, capitalization, paragraphing, and correct grammar usage as it pertains to transcription of legal proceedings.

COUR 169A: Computer-Aided Transcription
2.0 Units. 1.5 lecture and 1.5 lab hrs/wk. Prerequisite: COUR 110.
Students develop knowledge and skill in the use of a computer-aided transcription system. Introduction of the computerized stenotype machine, computer editing, printing, realtime reporting, and reporting technology in the court reporting industry are emphasized. Instruction is a combination of lecture, demonstration, simulation on the computer, and class discussion. (CSU)

COUR 169B: Transcript Preparation/Formatting
2.0 Units. 1.5 lecture and 1.5 lab hrs/wk. Prerequisite: COUR 169A.
This course emphasizes the transcription of the verbatim record of depositions, hearings, and judicial proceedings with court reporting software while adhering to the state’s minimum transcript format standards. Students develop proficiency in performing editing and proofreading functions for court reporters using CAT software. The course also introduces Communication Access Realtime Translation (CART). Instruction is a combination of lecture, demonstration, and individual practice. (CSU)

COUR 169D: Stenocaptioning I
1.0 Unit. 3 lab hrs/wk. Repeat: 3. Prerequisite: COUR 169A or 169C.
This course concentrates on developing the skill and knowledge necessary to write a conflict-free stenographic reporting method to provide instantaneous translation with at least 95% accuracy. (CSU)
COUR 170A: Summer Intensive I-A
3.0 Units. 5.5 lecture and 6 lab hrs/wk for 6 weeks. Prerequisite: COUR 112.
This course reinforces stenotype theory principles; develops and improves fluency in reading, writing, and transcribing stenotype notes; develops the ability to take dictation at 80-100 wpm on 5-minute literary, jury charge, 2-voice and 4-voice tests with 95% to 97.5% accuracy; and continues the acquisition of technical, medical, legal, and general vocabulary, and familiarization with current events. Students simulate the role of court reporter in a variety of situations. (CSU)

COUR 170B: Summer Intensive I-B
3.0 Units. 5.5 lecture and 6 lab hrs/wk for 6 weeks. Prerequisite: COUR 120.
This course reinforces stenotype theory principles; develops and improves fluency in reading, writing, and transcribing stenotype notes; develops and improves the ability to take dictation at 100-140 wpm on 5-minute literary, jury charge, 2-voice and 4-voice tests with 95% to 97.5% accuracy; and continues the acquisition of technical, medical, legal, and general vocabulary, and familiarization with current events. Students simulate the role of court reporter in a variety of situations. (CSU)

COUR 170C: Summer Intensive I-C
3.0 Units. 5.5 lecture and 6 lab hrs/wk for 6 weeks. Prerequisite: COUR 140.
This course reinforces stenotype theory principles; develops and improves fluency in reading, writing, and transcribing stenotype notes; develops the ability to take dictation at 120-160 wpm on 5- to 7.5-minute literary, jury charge, 2-voice and 4-voice tests with 95% to 97.5% accuracy; and continues the acquisition of technical, medical, legal, and general vocabulary, and familiarization with current events. Students simulate the role of court reporter in a variety of situations. (CSU)

COUR 171A: Summer Intensive II-A
3.0 Units. 5.5 lecture and 6 lab hrs/wk for 6 weeks. Prerequisite: COUR 160.
This course reinforces stenotype theory principles; develops and improves fluency in reading, writing, and transcribing stenotype notes; develops and improves the ability to take dictation at 140-180 wpm on 5- to 10-minute literary, jury charge, 2-voice and 4-voice tests with 95% to 97.5% accuracy; and continues the acquisition of technical, medical, legal, and general vocabulary, and familiarization with current events. Students simulate the role of court reporter in a variety of situations. (CSU)

COUR 171B: Summer Intensive II-B
3.0 Units. 5.5 lecture and 6 lab hrs/wk for 6 weeks. Prerequisite: COUR 180.
This course reinforces stenotype theory principles; develops and improves fluency in reading, writing, and transcribing stenotype notes; develops and improves the ability to take dictation at 160-200 wpm on 5- to 10-minute literary, jury charge, 2-voice and 4-voice tests with 95% to 97.5% accuracy; and continues the acquisition of technical, medical, legal, and general vocabulary, and familiarization with current events. Students simulate the role of court reporter in a variety of situations. (CSU)

COUR 171C: Summer Intensive II-C
3.0 Units. 5.5 lecture and 6 lab hrs/wk for 6 weeks. Prerequisite: COUR 200.
This course reinforces stenotype theory principles; develops and improves fluency in reading, writing, and transcribing stenotype notes; develops and improves the ability to take dictation at 180-225+ wpm on 5- to 10-minute literary, jury charge, 2-voice and 4-voice tests with 95% to 97.5% accuracy; and continues the acquisition of technical, medical, legal, and general vocabulary, and familiarization with current events. Students simulate the role of court reporter in a variety of situations. (CSU)

COUR 180: Skill Development V
4.0 Units. 2 lecture and 6 lab hrs/wk. Additional 3 weekly independent lab hours using Web-based learning platform. Prerequisite: COUR 140. Total of 8 units of court reporting skills development courses required.
This course develops stenotype machine dexterity; improves fluent reading of stenotype notes; develops the ability to take dictation at 160-180 wpm on 5- to 10-minute literary, jury charge, 2-voice and 4-voice tests with 95% to 97.5% accuracy; and continues the acquisition of technical, medical, legal, and general vocabulary, and familiarization with current events. Students simulate the role of court reporter in a variety of situations. (CSU)

COUR 180A: Skill Development V-A: Shorthand Speed Acceleration
4.0 Units. 2 lecture and 6 lab hrs/wk. Additional 3 weekly independent lab hours using Web-based learning platform. Prerequisite: COUR 180. Total of 8 units of court reporting skills development courses required.
This post-remedial course, for students who have not completed all 180-wpm skills tests, emphasizes speed development techniques; improves stenotype machine dexterity; improves fluent reading of stenotype notes; develops the ability to take dictation at 180 wpm on 5- to 10-minute literary, jury charge, 2-voice and 4-voice tests with 95% to 97.5% accuracy; and continues the acquisition of technical, medical, legal, and general vocabulary, and familiarization with current events. Students simulate the role of court reporter in a variety of situations. (CSU)

COUR 180B: Skill Development V-B: Briefs and Phrases
4.0 Units. 2 lecture and 6 lab hrs/wk. Additional 3 weekly independent lab hours using Web-based learning platform. Prerequisite: COUR 180. Total of 8 units of court reporting skills development courses required.
This post-remedial course, for students who have not completed all 180-wpm skills tests, emphasizes briefing and phrasing techniques; improves stenotype machine dexterity; improves fluent reading of stenotype notes; develops the ability to take dictation at 180 wpm on 5- to 10-minute literary, jury charge, 2-voice and 4-voice tests with 95% to 97.5% accuracy; and continues the acquisition of technical, medical, legal, and general vocabulary, and familiarization with current events. Students simulate the role of court reporter in a variety of situations. (CSU)

COUR 180C: Skill Development V-C: Accuracy
4.0 Units. 2 lecture and 6 lab hrs/wk. Additional 3 weekly independent lab hours using Web-based learning platform. Prerequisite: COUR 180. Total of 8 units of court reporting skills development courses required.
This post-remedial course, for students who have not completed all 180-wpm skills tests, emphasizes accuracy and realtime writing;
improves stenotype machine dexterity; improves fluent reading of stenotype notes; develops the ability to take dictation at 180 wpm on 5- to 10-minute literary, jury charge, 2-voice and 4-voice tests with 95% to 97.5% accuracy; and continues the acquisition of technical, medical, legal, and general vocabulary, and familiarization with current events. Students simulate the role of court reporter in a variety of situations. (CSU)

COUR 200: Skill Development VI
4.0 Units. 2 lecture and 6 lab hrs/wk. Additional 3 weekly independent lab hours using Web-based learning platform. Prerequisite: COUR 180. Total of 8 units of court reporting skills development courses required.

This course develops stenotype machine dexterity; improves fluent reading of stenotype notes, develops the ability to take dictation at 180-200 wpm on 5- to 10-minute literary, jury charge, 2-voice and 4-voice tests with 95% to 97.5% accuracy; and continues the acquisition of technical, medical, legal, and general vocabulary, and familiarization with current events. Students simulate the role of court reporter in a variety of situations. (CSU)

COUR 200A: Skill Development VI-A: Shorthand Speed Acceleration
4.0 Units. 2 lecture and 6 lab hrs/wk. Additional 3 weekly independent lab hours using Web-based learning platform. Prerequisite: COUR 200. Total of 8 units of court reporting skills development courses required.

This post-remedial course, for students who have not completed all 200-wpm skills tests, emphasizes speed development techniques; improves stenotype machine dexterity; improves fluent reading of stenotype notes; develops the ability to take dictation at 200 wpm on 5- to 10-minute literary, jury charge, 2-voice and 4-voice tests with 95% to 97.5% accuracy; and continues the acquisition of technical, medical, legal, and general vocabulary, and familiarization with current events. Students simulate the role of court reporter in a variety of situations. (CSU)

COUR 200B: Skill Development VI-B: Briefs and Phrases
4.0 Units. 2 lecture and 6 lab hrs/wk. Additional 3 weekly independent lab hours using Web-based learning platform. Prerequisite: COUR 200. Total of 8 units of court reporting skills development courses required.

This post-remedial course, for students who have not completed all 200-wpm skills tests, emphasizes briefing and phrasing techniques; improves stenotype machine dexterity; improves fluent reading of stenotype notes; develops the ability to take dictation at 200 wpm on 5- to 10-minute literary, jury charge, 2-voice and 4-voice tests with 95% to 97.5% accuracy; and continues the acquisition of technical, medical, legal, and general vocabulary, and familiarization with current events. Students simulate the role of court reporter in a variety of situations. (CSU)

COUR 200C: Skill Development VI-C: Accuracy
4.0 Units. 2 lecture and 6 lab hrs/wk. Additional 3 weekly independent lab hours using Web-based learning platform. Prerequisite: COUR 200. Total of 8 units of court reporting skills development courses required.

This post-remedial course, for students who have not completed all 200-wpm skills tests, emphasizes accuracy and realtime writing; improves stenotype machine dexterity; improves fluent reading of stenotype notes; develops the ability to take dictation at 200 wpm on 5- to 10-minute literary, jury charge, 2-voice and 4-voice tests with 95% to 97.5% accuracy; and continues the acquisition of technical, medical, legal, and general vocabulary, and familiarization with current events. Students simulate the role of court reporter in a variety of situations. (CSU)

COUR 220A: Skill Development VII-A
4.0 Units. 2 lecture and 6 lab hrs/wk. Additional 3 weekly independent lab hours using Web-based learning platform. Prerequisite: COUR 180. This course develops stenotype machine dexterity; improves fluent reading of stenotype notes; develops the ability to take dictation at 200-225 wpm on 5- to 10-minute literary, jury charge, 2-voice and 4-voice tests with 95% to 97.5% accuracy; and continues the acquisition of technical, medical, legal, and general vocabulary, and familiarization with current events. Students simulate the role of court reporter in a variety of situations. (CSU)

COUR 220B: Skill Development VII-B
4.0 Units. 2 lecture and 6 lab hrs/wk. Additional 3 weekly independent lab hours using Web-based learning platform. Prerequisite: COUR 180. This course develops stenotype machine dexterity; improves fluent reading of stenotype notes; develops the ability to take dictation at 200-225 wpm on 5- to 10-minute literary, jury charge, 2-voice and 4-voice tests with 95% to 97.5% accuracy; and continues the acquisition of technical, medical, legal, and general vocabulary, and familiarization with current events. Students simulate the role of court reporter in a variety of situations. (CSU)

COUR 220C: Skill Development VII-C
4.0 Units. 2 lecture and 6 lab hrs/wk. Additional 3 weekly independent lab hours using Web-based learning platform. Prerequisite: COUR 180. This course develops stenotype machine dexterity; improves fluent reading of stenotype notes; develops the ability to take dictation at 200-225 wpm on 5- to 10-minute literary, jury charge, 2-voice and 4-voice (Qualifier) tests with 95% to 97.5% accuracy; and continues the acquisition of technical, medical, legal, and general vocabulary, and familiarization with current events. Students simulate the role of court reporter in a variety of situations. (CSU)

COUR 225: Mastery Skill Development VIII
4.0 Units. 2 lecture and 6 lab hrs/wk. Additional 3 weekly independent lab hours using Web-based learning platform. Prerequisite: COUR 200 or equivalent.

This course develops stenotype machine dexterity; improves fluent reading of stenotype notes; develops the ability to take dictation at 200 wpm on 5-minute literary tests, 240 wpm on 5-minute jury charge tests, and 260 wpm on 5-minute 2-voice tests with at least 95% accuracy; and continues the acquisition of technical, medical, legal, and general vocabulary, and familiarization with current events. Students simulate the role of court reporter in a variety of situations. (CSU)

COUR 283: CSR/RPR Written Exam Preparation
1.0 Unit1 lecture hrs/wk. No prerequisite.

This course is a comprehensive review of legal, medical and technical terminology, court structure, applicable code sections, grammar, word usage, and punctuation in preparation for the Certified Short-Hand Reporter and the Registered Professional Reporter written examinations. (CSU)
DANCE

As well as developing high levels of physical and mental skills, dance provides a means to express creatively the personal side of our nature. Through its study students gain an understanding and appreciation of dance as an art form whether their goal be a career in dance or the sheer pleasure of movement.

Career Options
Choreographer, Commercial Theater Dancer, Composer, Concert Dancer, Costumer, Dance Critic, Dance Teacher, Dance Therapist, Night Club Entertainer, Notator, Reconstructor, Recreation Leader, Stage/Theater Designer, Studio Worker, Television Producer

Faculty
David Jones, Kristi Kuhn, Sandi Weldon
Department Phone: 415-485-9315

A.A. IN DANCE
The A.A. degree prepares students for transfer into a four-year dance major or performing arts program. It serves as basic preparation for professional performance and/or teaching careers, as well as being a springboard into further study of other dance-related areas. Students who complete the requirements listed below, plus additional general education and graduation requirements, will be awarded the associate degree. Note: Students are required to complete English 150 for the associate degree. All students should consult a counselor.

Technique Courses
The following requirements are the minimum. The student is advised to take as many technique courses as possible in order to develop the highest skill level in any of the styles.

History and Choreography, must complete both:
DANC 108 Dance History | 3 |
DANC 135 Choreography | 2.5 |

Electives: Two additional courses from any of the above or from:
DANC 111A-D Hip Hop | 1.5 |
DANC 119 African Haitian Dance | 1.5 |
DANC 121 Popular Dance Styles | 1.5 |
DANC 161 Beginning Ballroom Dance | 1.5 |

TOTAL MAJOR UNITS MINIMUM OF 18.5

Performance and Production
Students with a dance career in mind should perform as frequently as possible. Students who wish to choreograph or teach must have knowledge, by experience, of what dancers deal with in performance.

REQUIREMENTS UNITS
One course from:
DANC 160A Introduction to Dance Performance Skills | 1.5 |
DANC 241A-D Dance Company | 2 to 5 |

DANCE COURSES (DANC)

DANC 103: History of Musical Theatre
3.0 Units. 3 lecture hrs/wk. No prerequisite. May be taken as Music 103, Dance 103 or Drama 103; credit awarded for only one course.

This course surveys the history of American musical theatre and its effects on popular culture. The course explores the development of the musical in the context of American theatre history, through a multicultural study of the evolution of this uniquely American art form. (CSU/UC) CSU Area C-1, IGETC Area 3A

DANC 108: Dance History: Dancing - The Pleasure, Power, and Art of Movement
3.0 Units. 3 lecture hrs/wk. No prerequisite.

This course covers the major theatrical traditions as well as dance as a social, cultural and religious expression. It describes dance history and anthropology from six continents and highlights the important ways in which dance functions in human societies. The course focuses on dance as an expression of social order and power, as classical art, as a medium of cultural fusion, and as an expression of individual artists. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A

DANC 109A: Conditioning, Injury Prevention and Technique Analysis
2.0 Units. 1 lecture and 3 lab hrs/wk. No prerequisite.

This class emphasizes alignment, placement, strength, injury prevention, and efficient joint articulation through non-impact floor, barre, and other non- and low-impact dance conditioning methods. Muscle and skeletal terminology and basic ballet terminology are introduced. Technique analysis allows time for instructor and student to work one-on-one to assess and address movement issues. (CSU)

DANC 109B: Conditioning, Injury Prevention and Technique Analysis
2.0 Units. 1 lecture and 3 lab hrs/wk. No prerequisite.

This continuation of Dance 109A includes technique analysis, allowing instructor and student to work one-on-one to correct important technical issues. Activities emphasize alignment, placement, strength, injury prevention, and efficient joint articulation through
the use of floor, barre, and other low-impact dance conditioning methods. Appropriate for those actively dancing or those returning to dance after an injury or period of inactivity. (CSU)

**DANC 111: Hip Hop**  
1.5 Units. 1 lecture and 2 lab hrs/wk. No prerequisite.  
This class introduces hip-hop choreography with the use of isolations, techniques, and movement combinations derived from current and recent popular hip-hop music. The class teaches rhythm, musicality, coordination, and hip-hop choreography. Historical elements of this dance form are also covered. (CSU) AA/AS Area H

**DANC 111ABCD: Hip Hop (Introductory through Advanced Levels)**  
1.5 Units. 1 lecture and 2 lab hrs/wk. No prerequisite.  
This series of classes, from introductory to advanced levels, introduce hip-hop choreography with the use of isolations, techniques, and movement combinations derived from current and recent popular hip-hop music, emphasizing rhythm, musicality and coordination. Historical elements of this dance form are also covered. (CSU/UC) AA/AS Area H, CSU Area E

**DANC 112: Dancing in America**  
1.5 Units. 1 lecture and 2 lab hrs/wk. No prerequisite.  
An introduction to the basic skills of a variety of dance styles indigenous to America to be selected from such forms as street dance, ballroom, movement games, jazz, and tap. Two or three of these forms will be selected per semester for examination of their historical and socio-cultural backgrounds, movement theory, and execution of technique and style. (CSU/UC) AA/AS Area H, CSU Area E

**DANC 117: Dancercise**  
1.5 Units. 1 lecture and 2 lab hrs/wk. No prerequisite.  
This course promotes total fitness through dance, rhythmic movement, aerobics, strengthening and relaxation exercises, yoga, and Pilates. The pulse-monitored program is structured to produce metabolic efficiency and increase energy, endurance, strength, and flexibility through an introduction of a variety of dance styles including Latin, hip hop, swing, jazz, modern, and disco. (CSU/UC) AA/AS Area H, CSU Area E

**DANC 119: African-Haitian Dance**  
1.5 Units. 1 lecture and 2 lab hrs/wk. No prerequisite.  
This course includes skills in African-Haitian dance based on the technique of Katherine Dunham, emphasizing development of rhythmic awareness through barre and floor progressions. Movement phases are based upon authentic dances from Africa and the Caribbean Islands. Participants learn to use their body parts polyrhythmically and in isolation. The history and the culture of the people are also studied. (CSU/UC) AA/AS Area H, CSU Area E

**DANC 121: Popular Dance Styles**  
1.5 Units. 1 lecture and 2 lab hrs/wk. No prerequisite.  
This class enhances beginning students’ skill in mastering popular dance styles of the twentieth century. Exploring the technical basis of these styles fosters understanding and appreciation of the emergence of popular dance in the last century. (CSU/UC) AA/AS Area H, CSU Area E

**DANC 122A: Introductory Jazz Dance**  
2.0 Units. 1 lecture and 3 lab hrs/wk. No prerequisite.  
This class introduces jazz dance, emphasizing movement exercises involving rhythmic sequences. Fundamental elements of jazz dance technique, as well as early historical influences, are explored. (CSU/UC) AA/AS Area H, CSU Area E

**DANC 122B: Beginning Jazz Dance**  
2.0 Units. 1 lecture and 3 lab hrs/wk. No prerequisite. Advisory: Dance 122A.  
This class focuses on beginning-level jazz dance, including movement exercises involving rhythmic sequences, and the fundamental elements of jazz dance technique. (CSU/UC) AA/AS Area H, CSU Area E

**DANC 123A: Intermediate Jazz Dance**  
2.0 Units. 1 lecture and 3 lab hrs/wk. No prerequisite.  
An intermediate course in jazz dance, emphasizing movement exercises involving rhythmic sequences. Fundamental elements of jazz dance technique, as well as early historical influences, are explored. (CSU/UC) AA/AS Area H, CSU Area E

**DANC 123B: Intermediate Jazz Dance**  
2.0 Units. 1 lecture and 3 lab hrs/wk. No prerequisite. Advisory: Dance 123A.  
An intermediate course in jazz dance, emphasizing movement exercises involving rhythmic sequences. Fundamental elements of jazz dance technique, as well as early historical influences, are explored. (CSU/UC) AA/AS Area H, CSU Area E

**DANC 126A: Ballet Fundamentals**  
1.5 Units. 1 lecture and 2 lab hrs/wk. No prerequisite.  
Beginning ballet with exercises for body awareness and alignment, flexibility, balance, strength, and stamina. Center floor work with basic adagio and allegro movements, jumps and turns. References to different national styles and ballet history. (CSU) AA/AS Area H, CSU Area E

**DANC 126B: Beginning Ballet**  
1.5 Units. 1 lecture and 2 lab hrs/wk. No prerequisite. Advisory: Dance 126A.  
A continuing course in beginning ballet, emphasizing arm placement. Includes exercises for body awareness and alignment, flexibility, balance, strength, and stamina. Center floor work with basic adagio and allegro movements, jumps and turns. References to different national styles and ballet history. (CSU) AA/AS Area H, CSU Area E

**DANC 126C: Intermediate Beginning Ballet**  
1.5 Units. 1 lecture and 2 lab hrs/wk. No prerequisite. Advisory: Dance 126B.  
This beginning ballet class continues from Dance 126B, emphasizing arm positions, placement and carriage. Includes exercises for body awareness, alignment, flexibility, balance, strength, and stamina. Center floor work with basic adagio and allegro movements, jumps and turns. References to different national styles and ballet history. (CSU) AA/AS Area H, CSU Area E
DANC 126D: Advanced Beginning Ballet
1.5 Units. 1 lecture and 2 lab hrs/wk. No prerequisite. Advisory: Dance 126C.
This beginning ballet class continues from Dance 126C, emphasizing the standing leg. Includes exercises for body awareness, alignment, flexibility, balance, strength and stamina. Center floor work with basic adagio and allegro movements, jumps and turns. References to national styles and ballet history. (CSU) AA/AS Area H, CSU Area E.

DANC 128A: Beginning Intermediate Ballet
2.0 Units. 1 lecture and 3 lab hrs/wk. No prerequisite. Advisory: Dance 128A.
This course provides beginning intermediate ballet students with continued training in ballet technique, emphasizing proper body alignment, increased flexibility and fluidity. Includes study of the Russian ballet innovators of the mid-19th and early 20th centuries. (CSU) AA/AS Area H, CSU Area E.

DANC 130A: Beginning Modern Dance Fundamentals
1.5 Units. 1 lecture and 2 lab hrs/wk. No prerequisite.
This beginning modern dance course explores positioning, alignment, and centering as they apply to balance, turns, elevations, and movement in and through space. Examines a variety of movement qualities, rhythms, and phrasing as well as space-time-energy concepts. (CSU/UC) AA/AS Area H, CSU Area E.

DANC 130B: Modern Dance I
1.5 Units. 1 lecture and 2 lab hrs/wk. No prerequisite. Advisory: Dance 130A.
Beginning modern dance technique. Continued emphasis on positioning, alignment, and centering as they apply to balance, turns, elevations, and movement in and through space. Examines a variety of movement qualities, rhythms, and phrasing as well as space-time-energy concepts. (CSU/UC) AA/AS Area H, CSU Area E.

DANC 130C: Intermediate Beginning Modern Dance
1.5 Units. 1 lecture and 2 lab hrs/wk. No prerequisite. Advisory: Dance 130B.
This continuation of beginning modern dance technique reinforces fundamentals and emphasizes placement and alignment of the body. Further development of knowledge, skills, and abilities for beginning levels of modern dance. (CSU/UC) AA/AS Area H, CSU Area E.

DANC 130D: Advanced Beginning Modern Dance
1.5 Units. 1 lecture and 2 lab hrs/wk. No prerequisite. Advisory: Dance 130C.
This course, the last of four beginning-level modern dance courses, focuses on the technical skills required to move to a beginning-intermediate level of modern dance, and provides further development of skills and knowledge. (CSU/UC) AA/AS Area H, CSU Area E.

DANC 132: Musical Theatre
1.5 Units. 1 lecture and 2 lab hrs/wk. No prerequisite.
The study and practice of a variety of dance styles from musical theatre such as jazz, soft shoe, vaudeville, chorus line, ethnic dance, and ballroom dance. Explores the integration of music, dance and acting that is characteristic of musical theatre. Broadway musicals are studied in groups, duets, or solos. Includes acting, vocal training, audition techniques, basic dance steps and terminology, and choreography. (CSU/UC) AA/AS Area H, CSU Area E.

DANC 133A: Beginning Intermediate Modern Dance
2.0 Units. 1 lecture and 3 lab hrs/wk. No prerequisite. Advisory: Dance 133D.
This beginning intermediate modern dance technique course further develops students’ ability to use the body as an instrument of expression, emphasizing performance skills and techniques of specific modern dance styles. (CSU/UC) AA/AS Area H, CSU Area E.

DANC 133B: Intermediate Modern Dance
2.0 Units. 1 lecture and 3 lab hrs/wk. No prerequisite. Advisory: Dance 133D.
Intermediate modern dance technique, adding falls and sight reading of simple movement phrases to skills developed in beginning modern dance. Continued emphasis on alignment, centering, balance and sensitivity to space-time-energy in movement. (CSU) AA/AS Area H, CSU Area E.

DANC 134: Dance Improvisation
2.5 Units. 2.125 lecture and 2.125 lab hrs/wk. No prerequisite.
Improvisation as a major part of dance training and a process essential to all art forms. Designed to develop sensitivity in movement to oneself, others, time, space, energy, motion and to the moment. Structured and free improvisational techniques are used that lead to the excitement of creativity on the move, and to an understanding of improvisation as an art in itself as well as a prelude to choreography. (CSU) DANC 135: The Art of Choreography I
2.5 Units. 2 lecture and 2 lab hrs/wk. No prerequisite.
The craft of choreography, its ingredients and tools. Discussion and exploration of form, content, design, and the elements of time, space, and energy. Examination of shapes, texture, focus, dynamics, rhythm, and phrasing. (CSU/UC) AA/AS Area H, CSU Area E.

DANC 142A: Beginning Tap Dance
1.5 Units. 1 lecture and 2 lab hrs/wk. No prerequisite.
This course familiarizes students with the theory, terminology, history, and technique of tap dancing and tap notation. It includes footwork, progressions, patterns, and movement combinations which are developed into dances using a variety of tap styles including Latin, Rhythm Tap, Irish, Soft Shoe, American, and Buck and Wing. (CSU) AA/AS Area H, CSU Area E.

DANC 160AB: Introduction to Dance Performance Skills
1.0 Unit. 3 lab hrs/wk. No prerequisite.
Basic skills of rehearsal and performance. Development of projection, stage presence, mastering stage space and artistic expression.
Students perform in and/or choreograph for group, small groups, duet or solo pieces which are presented in a studio venue. (CSU/UC* 160A only) AA/AS Area H, CSU Area E

**DANC 161:** Beginning Ballroom Dance
1.5 Units. 1 lecture and 2 lab hrs/wk. No prerequisite.
Fundamentals of ballroom dance. Students learn the basics of such dances as the cha cha, fox-trot, waltz, salsa, and swing. Includes discussion of the origins and development of these dances and their contribution to the dance world. (CSU/UC) AA/AS Area H

**DANC 170:** Summer Intensive: Workshop in Broadway Dance I
1.5 Units. 1.125 lecture and 2.25 lab hrs/wk. No prerequisite. Three lecture and six laboratory hours weekly for six weeks during the summer.
An intensive workshop focusing on a comparative analysis of the styles of Broadway dances from the past to the present. (CSU/UC) AA/AS Area H

**DANC 171:** Summer Intensive: Workshop in Broadway Dance II
1.5 Units. 1.125 lecture and 2.25 lab hrs/wk. No prerequisite. Advisory: Dance 170.
An intensive workshop focusing on the historical social sources which shaped Broadway dances with emphasis on learning to utilize these sources as a means of becoming an expressive interpreter of the art. (CSU/UC) AA/AS Area H

**DANC 172:** Summer Intensive: Contemporary Dance Workshop I
1.5 Units. 1.125 lecture and 2.25 lab hrs/wk. No prerequisite.
An intensive workshop experience focusing on movement, improvisation, and composition as related to the contemporary period. Beginning to intermediate level. (CSU/UC) AA/AS Area H

**DANC 173:** Summer Intensive: Contemporary Dance Workshop II
1.5 Units. 2.25 lecture and 3.375 lab hrs/wk. No prerequisite. Advisory: Dance 172.
A continuation of the skills developed in Dance 172, this intensive workshop focuses on movement, improvisation, and composition as related to the contemporary period. Intermediate to advanced level. (CSU/UC) AA/AS Area H

**DANC 175:** Summer Intensive: Workshop in Classical Performance II
1.5 Units. 1.125 lecture and 2.25 lab hrs/wk. No prerequisite. Advisory: Dance 126.
This intermediate workshop requires intermediate- to advanced-level classical movement skills. Emphasizes theatrical focus and projection as they relate to performance. (CSU/UC) AA/AS Area H

**DANC 227A:** Beginning Advanced Ballet
2.0 Units. 1 lecture and 3 lab hrs/wk. No prerequisite. Advisory: Dance 128B.
Advanced ballet technique and vocabulary, emphasizing fluidity of movement and integration of the physical, mental and emotional skills that create the total dancer. (CSU) AA/AS Area H, CSU Area E

**DANC 227B:** Advanced Ballet
2.0 Units. 1 lecture and 3 lab hrs/wk. No prerequisite. Advisory: Dance 227A.
Advanced ballet technique and vocabulary, integrating technique, artistry, strength and flexibility. Special emphasis on half-point work both at the barre and in the center. (CSU) AA/AS Area H, CSU Area E

**DANC 233A:** Beginning Advanced Modern Dance
2.0 Units. 1 lecture and 3 lab hrs/wk. No prerequisite. Advisory: Dance 133B.
This course emphasizes increasing technical proficiency, improving anatomical awareness and developing a deeper understanding of the skills and principles of various modern dance techniques. (CSU/UC) AA/AS Area H

**DANC 233B:** Advanced Modern Dance
2.0 Units. 1 lecture and 3 lab hrs/wk. No prerequisite. Advisory: Dance 233A.
Advanced modern dance technique, focusing on centering and energy flow as they function in alignment, turns, falls, extensions, elevations and movements through space. Emphasizes trust of the uniqueness of one's own movement expression. (CSU) AA/AS Area H, CSU Area E

**DANC 241ABCD:** Dance Company
2-5 Units. 6-15 lab hrs/wk. Repeat: 3. Prerequisite: Audition required.
Students rehearse and perform faculty choreography in a formal concert (predetermined number of scheduled performances). Focus on technique, choreographic phrasing, artistry, and performance presence. (CSU/UC) AA/AS Area H

**DENTAL ASSISTING: REGISTERED**

This program combines the technical knowledge and skills required to function successfully as a chairside dental assistant with the essential aspects of office procedures. The expanded functions that are required for state licensure are taught to clinical proficiency.

**Career Options**
Dental Assisting in Dental Clinics, Hospitals or Correctional Facilities, Private Dental Offices; Dental Office Management, Dental Receptionist, Dental Insurance Auditor, Dental Product Sales, Dental Assisting Instructor

**Faculty**
Kathleen Rooney, Program Coordinator
Department Phone: 415-485-9319
FAX: 415-485-9328

**A.S. IN DENTAL ASSISTING: REGISTERED**
*(Certificate of Achievement also awarded.)*

The Registered Dental Assisting Program is offered only at the Indian Valley Campus. It is a sequential program leading to an Associate in Science degree and a Certificate of Achievement.

Graduates are eligible to sit for the State Registered Dental Assistant Licensure Examinations, which requires mandatory live-scan fingerprinting. Graduates are also eligible for the Dental Assisting National Board Examination.
Students must maintain a C grade or higher in all courses to earn their Certificate of Completion, a requirement of the Commission on Accreditation.

College of Marin's courses in Registered Dental Assisting, in addition to fulfilling the College of Marin graduation requirements, will award an Associate in Science degree. These courses will transfer toward a Bachelor's degree in Health Science at California State Universities (see a counselor or Director of Dental Assisting for more details.) Note: Students are required to complete English 150 for the associate degree. All students should consult a counselor.

Required:
1. Completion of English 98 or English 98SL with a grade of C or higher, or completion of a college-level English course with a grade of C or higher.
2. High school diploma or equivalent.
3. Applicants must be 18 years or older, which is a state requirement to operate dental radiation equipment.

Advisory:
1. English 116 or higher; may be taken concurrently during the program.

Program Application Procedure:
1. Applicants must complete English Requirement (see above).
2. Applicants must contact the Dental Assisting Department for availability and assistance in the selection of classes to be admitted to the program.
3. Applicants must file an application for admission with the College of Marin Office of Enrollment Services.

Notes:
1. The above courses may be taken in two years. The coursework is sequential and must be taken in the semester offered. Only those students completing the first semester may advance to the following semesters. Courses must be taken in the semester as indicated above.
2. Current CPR (cardiopulmonary resuscitation), Hepatitis B vaccination, Tetanus vaccination, and TB testing must be completed in the Fall semester prior to student participation in internships at dental clinics or externships in dental offices.

### Skills Certificates
Skills certificates are an acknowledgement that the student has attained a specified set of competencies within an occupational program. Skills certificates may be part of a "ladder" of skills, beginning with job entry skills and leading to a full Certificate of Achievement program. Skills Certificates require less than 18 units and are shorter in duration than the Certificate of Achievement.

The Skills Certificate provides the student with knowledge of the fundamental language/skill necessary for dental courses.

### Radiology Safety Skills Certificate
Successful completion of Dental Assisting 182 and 186 will earn the student a Radiology Certificate approved the Board of Dental Examiners under the Department of Consumer Affairs administered by the Committee of Dental Auxiliaries. This certificate is a prerequisite to be eligible to sit for the State Registered Dental Assistant licensure examination and a copy of the certificate is issued to the Committee on Dental Auxiliaries. Records of participants must be maintained for five years.

This certificate allows the individual to expose dental radiographs on patients within the private dental office or dental clinic. No individual is allowed to expose dental radiographs without this certificate in the State of California.

### Coronal Polish Skills Certificates
Successful completion of Dental Assisting 183 will earn the student a Coronal Polish Certificate. This course is approved by the Board of Dental Examiners under the Department of Consumer Affairs administered by the Committee on Dental Auxiliaries and is a prerequisite to be eligible to sit for the State Registered Dental Assistant licensure examination. The original certificate is issued to the Committee on Dental Auxiliaries. Records of participants must be maintained for five years.

This certificate allows the individual to polish dentition under the direct supervision of a dentist in the private dental office or dental clinic.

### Ultrasonic Scaling Skills Certificate
Successful completion of Dental Assisting 183 will earn the student a certificate in ultrasonic scaler usage in an orthodontic setting.

This course is approved by the Board of Dental Examiners under the Department of Consumer Affairs administered through the Committee on Dental Auxiliaries. The original certificate is issued to the Committee on Dental Auxiliaries. Records of participants must be maintained for five years.

This certificate allows the individual to use an ultrasonic scaler to remove excess supragingival cement around orthodontic bands in a private dental office or dental clinic under direct supervision of a dentist.
CATALOG 2015/2016

DENTAL ASSISTING: REGISTERED  115

Pit and Fissure Sealants Skills Certificate
Successful completion of Dental Assisting 192A will earn the student a certificate in Pit and Fissure Sealants. This course is approved by the Board of Dental Examiners under the Department of Consumer Affairs administered by the Committee on Dental Auxiliaries. A copy of the certificate is sent to the Committee on Dental Auxiliaries. Records of participants must be maintained for five years.

This certificate allows the individual to prepare the teeth by etching and apply the sealant that protects the dentition from dental decay in a private dental office or dental clinic under the direct supervision of a dentist.

Infection Control Skills Certificate
Successful completion of Dental Assisting 101 and 101L will earn the student a certificate in Dental Sterilization. This course will train the student to decontaminate, sterilize or process dental instruments and dental equipment to meet OSHA standards and EPA on Infection Control. Students who complete this course can become employed in a private dental office or clinic as a Sterilization Assistant.

DENTAL ASSISTING COURSES (DENT)

DENT 100: Introduction to Health Careers
2.0 Units. 2 lecture hrs/wk. No prerequisite. Can be taken as DENT 100, MEDA 100, or NE 100; credit awarded for only one course.

This course is designed for students interested in pursuing a career in a health profession. It provides an overview of the current health care delivery system, the physical, mental, and emotional demands of the workplace, and the skills needed by the healthcare worker today and in the future. Students learn about qualifications and professional preparation needed for various careers, and analyze the roles and responsibilities in today's health care environment. The course is designed to help students develop realistic career goals, and to give an appreciation of how the current health care delivery system is influencing individual health professional roles and responsibilities.

DENT 101: Introduction to Dental Sterilization
0.5 Unit. 0.5 lecture hrs/wk. Repeat: 3. No prerequisite. Corequisite: DENT 101L. Advisory: ENGL 98 or 98SL.

Community dentists require sterilization assistants to be trained in disinfection and sterilization procedures in compliance with strict State OSHA Standards for infection control, hazardous communication and waste management. This course provides the student with entry-level knowledge of these standards, and also covers basic dental terminology and dental charting. (CSU)

DENT 101L: Introduction to Dental Sterilization Lab
0.5 Unit. 1.5 lab hrs/wk. Repeat: 3. No prerequisite. Corequisite: DENT 101.

Community dentists require sterilization assistants to be trained in disinfection and sterilization procedures in compliance with strict State OSHA Standards for infection control, hazard communication and waste management. This lab course provides the opportunity for the student to demonstrate and practice disinfection, sterilization procedures and dental charting. (CSU)

DENT 172: Dental Science I
3.0 Units. 2.5 lecture and 1.5 lab hrs/wk. Prerequisite: ENGL 98 or 98SL or sufficient score on English Placement Test.

This course instructs students in human anatomy, histology, and physiology as these relate to the head, neck, and body systems in dentistry. The course introduces microbiology as it relates to the control of infection and disease to include methods of sterilization and disinfection within the dental environment. The lab covers applications of dental infection control, cross-contamination prevention, OSHA regulations, and disposal of contaminated materials. (CSU)

DENT 174: Dental Materials
3.0 Units. 2 lecture and 3 lab hrs/wk. Prerequisite: DENT 176 or concurrent enrollment.

An introduction to the physical and chemical properties of dental materials, and the preparation, placement and removal of provisional restorations as allowed by the State Dental Practice Act. The lab covers the applications of placement of temporary sedative restorations; placement of cement bases and liners; taking, pouring, and trimming of preliminary impression materials; fabricating temporary crowns and restorations; preparing final impression materials; and assisting in composite/bonding and crown/bridge dental procedures. (CSU)

DENT 176: Dental Morphology, Histology, and Recordings
3.0 Units. 2 lecture and 3 lab hrs/wk. Prerequisite: ENGL 98 or 98SL or sufficient score on English Placement Test.

This course presents dental terminology as it relates to tooth morphology and histology, charting, tooth nomenclature systems, cavity classifications, patient's vital signs, oral examination, diagnosis, and treatment planning. In lab, students identify permanent and primary dentition and their nomenclature, location and function; distinguish normal tooth anatomy from oral lesions; and demonstrate the ability to record dental charting, perform oral examinations and take vital signs as part of the patient's dental record. (CSU)

DENT 178: Dental Science II
3.0 Units. 3 lecture hrs/wk. Prerequisite: ENGL 98 or 98SL or sufficient score on English Placement Test.

This course covers oral pathology, preventive dentistry, nutrition, medical emergencies, pharmacology, and special needs patients as they relate to dentistry. Applied psychology and communication skills with dental patients and coworkers are explored. (CSU)

DENT 180: Chairside I
3.0 Units. 2 lecture and 3 lab hrs/wk. Prerequisites: DENT 176 or concurrent enrollment.

This course covers the use and care of dental equipment; identification, application, and distribution of dental hand instruments and rotary instruments; pre set tray set-ups and their sequence of use; preparation of the dental operatory; application of rubber dams, matrix retainers, topical anesthetic and provisional restorations; four-handed dentistry techniques; and preparation for chairside assisting in a clinical setting. (CSU)
DENT 182: Dental Radiology
3.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: DENT 176 or concurrent enrollment.

This introductory course presents information and background on the production and projection of film and digital dental radiographs, including safety concerns. In lab students expose, process, mount and evaluate dental radiographs for diagnostic purposes. Includes exposure and darkroom techniques, and patient management. (CSU)

DENT 183: Advanced Dental Procedures
1.5 Units. 1 lecture and 1.5 lab hrs/wk. Prerequisite: DENT 180.

This course covers basic knowledge for coronal polishing, topical fluorides, bleaching tray fabrication and ultrasonic scaler cement removal. Upon successful completion of this course students earn the State Certificate for coronal polish and ultrasonic scaler for cement removal. (CSU)

DENT 184: Chairside Procedures II
5.0 Units. 4 lecture and 3 lab hrs/wk. Prerequisites: DENT 176 and 180.

This course provides entry-level knowledge of dental specialties such as surgical endodontics, orthodontics, periodontics, oral surgery and implants, removable prosthodontics, and pediatric dentistry. It also covers the role of the dental assistant with nitrous oxide conscious sedation, and registered dental assisting legal functions according to the State Dental Practice Act. (CSU)

DENT 186: Clinical Dental Radiology
1.5 Unit. 1 lecture and .5 lab hrs/wk for 4 weeks. Prerequisite: DENT 182. Students must be at least 18 years old.

This course provides instruction in methods of exposure and evaluation of diagnostic quality dental x-rays on patients. Students learn to distinguish normal dental anatomy from dental anomalies. Instruction includes methodology for exposing intra-oral digital and extra-oral panoramic dental radiographs. Upon completion of this course and the lab, students earn their Radiation Safety Certificate for the State of California. (CSU)

DENT 187: Clinical/Technique Practicum
1.0 Unit. 3 lab hrs/wk. Prerequisite: DENT 174, 180, and 182.

A clinical practicum to provide individual self-study practice for specific dental assisting skills such as exposing, processing and mounting dental radiographs; taking study model impressions, pouring and trimming models; taking bite registration; fabricating provisional crowns; placing temporary restorations; fabricating bleaching trays and mouth guards under the supervision of an instructor. (CSU)

DENT 188: Chairside Clinical Operative Procedures
6.0 Units. 1 lecture and 15 lab hrs/wk. Repeat: 1. Prerequisite: DENT 174 and 180. Students must have CPR, Hepatitis B, tetanus vaccinations and TB testing before going to the dental school. One weekly lecture/seminar and 262.5 off-campus hours.

Clinical practice utilizing Four-Handed Dentistry at chairside, including extended functions in general dentistry delegated to the dental assistant and registered dental assistant by the State Dental Practice Act in private dental offices and clinics. Weekly seminars are held to discuss student progress and provide instruction and suggestions for student improvement. (CSU)

DENT 189: Dental Practice Management and Economics
2.0 Units. 1 lecture and 3 lab hrs/wk. Prerequisites: ENGL 98 or 98SL or sufficient score on English Placement Test, and High school diploma or equivalent.

A dental office management course designed to develop basic skills and background in all phases of dental reception functions and office management procedures, including computer management, oral and written communication, bookkeeping skills, case presentation and financial arrangements, collection techniques, insurance processing, banking procedures, computing salaries and small business tax records, inventory control and job seeking skills. Also covers legal parameters of the State Dental Practice Act with regard to dental auxiliaries and HIPAA Patient Privacy Regulations. (CSU)

DENT 192: Clinical Applications in Dental Offices
2.0 Units. 26 lab hrs/wk for 4 weeks. Prerequisite: DENT 183 and 186. Corequisite: DENT 192A.

This course is designed to give students meaningful participation in a dental office or clinic in order to understand and apply the Dental Assisting chairside skills needed in the dental industry under the direct supervision of the dental staff. Weekly meetings provide the opportunity to present case management journals and observations, discuss perceptions and apply or improve assisting skills to their internship. (CSU)

DENT 192A: Pit and Fissure Sealants
1.0 Unit. 2 lecture and 6 lab hrs/wk for 4 weeks. Prerequisite: DENT 176. Corequisite: DENT 192.

This course is designed to give students knowledge in the application of pit and fissure sealants on patients. This course partially satisfies the State Dental Board to earn a Certificate in Pit and Fissure Sealants. (CSU)

DRAMA/THEATRE ARTS

The Drama Program offers a variety of major productions on the main stage and in the studio theater. A thriving Drama Club sponsors student productions and events, and the Brown Bag Theater series offers lunch hour programs, including student-directed productions.

The Theatre Arts curriculum is designed to provide an interdisciplinary approach to drama whether a student’s goals are transfer, professional or self-enrichment. Students participate in all aspects of production including acting, directing, various facets of technical theatre, and the design and building of sets, lights, costumes, sound and properties. In addition, there is a strong emphasis on the historical and theoretical contexts of the art-form as students examine works of dramatic literature, historical context, and criticism.

Career Options
Actor/Actress, Advertising Representative, Broadcast Technician, Business Agent, Casting Director, Choreographer, Comedian, Community Cultural Program Director, Costume Designer, Critic, Director, Dramatic Coach, Extra, Fundraiser, Hair Stylist, Lighting Operator, Makeup Artist, Mime, Playwright, Press Agent, Producer, Prop Maker, Public Affairs Director, Radio/TV Announcer, Recreation Specialist, Sales Representative, Set Builder, Set Carpenter, Set Designer, Set Painter, Sound Technician, Stage Manager, Stage Technician, Stunt Performer, Teacher, Theater Business Manager

Set Designer, Set Painter, Sound Technician, Stage Manager, Stage Creation Specialist, Sales Representative, Set Builder, Set Carpenter, Prop Maker, Public Affairs Director, Radio/TV Announcer, Recreation Specialist, Sales Representative, Set Builder, Set Carpenter, Set Designer, Set Painter, Sound Technician, Stage Manager, Stage Technician, Stunt Performer, Teacher, Theater Business Manager
A.A.-T. IN THEATRE ARTS

The Associate in Arts in Theatre Arts for Transfer Degree is primarily intended for the student who wants to earn a degree on the way to transferring to a California State University.

To complete the Associate in Arts in Theatre Arts for Transfer Degree (AA-T), a student must:

1. Complete 60 semester units or 90 quarter units that are eligible for transfer to the California State University, including both of the following:
   - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education – Breadth Requirements;
   - A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district. Up to 12 units may be double-counted.

2. Complete all courses in the major with a grade of “C” or better, or “P” if the course is taken as “pass/no pass.”

3. Obtain a minimum grade point average of 2.0.

A.A. IN DRAMA

The drama major is offered only at the Kentfield Campus. The Drama Department gives students experience in writing, performing, designing and constructing sets, as well as in costume and makeup. It is an interdisciplinary program involving dance, art, music, and the English disciplines. Students in the program may transfer to four-year institutions or go into television and professional theatre groups. Students who complete the requirements listed below, plus additional general education and graduation requirements, will be awarded the associate degree. Note: Students are required to complete English 150 for the associate degree. All students should consult a counselor.

### DRAMA COURSES (DRAM)

**DRAM 103:** History of Musical Theatre
3.0 Units. 3 lecture hrs/wk. No prerequisite. May be taken as Music 103, Dance 103 or Drama 103; credit awarded for only one course.

This course surveys the history of American musical theatre and its effects on popular culture. The course explores the development of the musical in the context of American theatre history, through a multicultural study of the evolution of this uniquely American art form. (CSU/UC) CSU Area C-1, IGETC Area 3A

**DRAM 110:** Introduction to the Theatre
3.0 Units. 3 lecture hrs/wk. No prerequisite.

A survey course designed to foster appreciation for the theatre by the student not majoring in drama, and an orientation course for the drama major. Topics include the purpose of theatre, significant milestones in theatre history, a behind-the-scenes look at play production, and trends in contemporary theatre. Lectures are combined with viewing of live and videotaped scenes representing different types of theatre. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A

**DRAM 116:** Survey of Dramatic Literature: Ancient Greek to the Present
3.0 Units. 3 lecture hrs/wk. No prerequisite.

This course surveys the history of the theatre and dramatic literature from the Greek classical period to the present. Recommended for
drama majors. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

**DRAM 117: Survey of Dramatic Literature: Shakespeare and His Theatre**
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This course examines selected plays of Shakespeare, and analyzes their aesthetic, cultural, historical and literary significance. Recommended for drama majors. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

**DRAM 125: Stage Movement**
2.0 Units. 1 lecture and 3 lab hrs/wk. No prerequisite.
The study and practice of the art of physical theatre. Laban, Michael Chekov, Suzuki, character construction, improvisatory movement, mask work, psychological gesture, and other techniques are explored. This class addresses the need for mastery over the physical realm in theatre. Recommended for all actors and required for all theatre majors. (CSU/UC)

**DRAM 126: Improvisation for the Theatre**
3.0 Units. 3 lecture hrs/wk. No prerequisite.
A participatory class in which students practice skills necessary to support improvised performances. Students engage in activities that draw upon their ability to relax, concentrate, and respond spontaneously and honestly. The class calls upon and extends students’ imagination, and provides opportunities to practice narrative skills. Includes public performances. (CSU/UC)

**DRAM 127: Improvisation Performance**
2.0 Units. 1 lecture and 4 lab hrs/wk. Repeat: 3. No prerequisite. Advisory: Drama 126.
In this course, students rehearse as an ensemble, develop performance skills, and perform improvisational theatre pieces. (CSU/UC)

**DRAM 128: Improvisation II**
3.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: Drama 126.
This intermediate improvisation class, for students with prior improv experience, explores ensemble performance and different improv genres: narrative, long form, social commentary, and dramatic improv. (CSU/UC)

**DRAM 129A: Voice for the Stage I**
1.0 Unit. 1 lecture hrs/wk. No prerequisite.
This class teaches students to efficiently use the instrument that is their voice. Students explore various vocal techniques and examine differences in the British and American systems of voice acting. Recommended for all actors and required for all drama majors. (CSU)

**DRAM 129B: Voice for the Stage II**
1.0 Unit. 1 lecture hrs/wk. No prerequisite. Advisory: Drama 129A.
This class offers a more intermediate/advanced approach to voice training, combining the techniques of Kristin Linklater and Cicely Berry, and applying them to the text of specific acting roles in the theatre. Recommended for all actors and required for all drama majors. (CSU)

**DRAM 130: Theory and Practice in Acting I**
3.0 Units. 3 lecture hrs/wk. No prerequisite. Corequisite: Drama 134.
Beginning class in acting techniques. Exercises in characterization, pantomime, improvisation, voice projection, and body movement. Required for drama majors. (CSU/UC)

**DRAM 131: Theory and Practice in Acting II**
3.0 Units. 3 lecture and 1 TBA hrs/wk. Prerequisite: Drama 130. Advisory: Drama 134.
This class emphasizes the creation and analysis of a character through intensive rehearsal of scenes. Recommended for drama majors. (CSU/UC)

**DRAM 134: Acting for the Director’s Workshop**
0.5 Unit. 1.5 lab hrs/wk. Repeat: 3. No prerequisite.
Acting in student-directed scenes from Drama 240: Stage Direction. Audition, rehearsal and performance in student-directed scenes. (CSU/UC)

**DRAM 137: Stage Combat**
0.5 Unit. 1.5 lab hrs/wk. No prerequisite.
This class covers the history, theory and practice of the art of stage combat. Students learn a controlled simulated approach to performing punches, slaps, falls and choreographed sword work. For drama majors. (CSU)

**DRAM 143: Storytelling and Personal Narratives**
3.0 Units. 3 lecture hrs/wk. No prerequisite.
In this class, students conceive and perform original autobiographical stories in a workshop setting. Good for all levels, from early childhood educators to potential performing artists and monologists. (CSU)

**DRAM 144: Comedy Theory and Technique**
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This course introduces basic elements of theatrical comedy. Through the study, discussion, and practice of selected comic material, both historic and modern, students develop a variety of comedic stage techniques. (CSU/UC)

**DRAM 150: Introduction to Stagecraft**
3.0 Units. 3 lecture hrs/wk. No prerequisite.
Theory and practice in theatre production stagecraft. A study of all backstage principles of design, fabrication, materials and tools used in scenery, costumes, lighting and other stage properties. Includes vocabulary for theatrical elements allowing students to critically evaluate any and all theatrical productions. (CSU/UC) CSU Area C-1

**DRAM 151: Introduction to Set Design**
3.0 Units. 2 lecture and 3 lab hrs/wk. Prerequisite: Drama 150.
An introduction to stage design from page to stage. Includes basic concepts of design, painting techniques, set construction, set movement, basic drafting, set dressings and prop construction. (CSU/UC)

**DRAM 152: Introduction to Stage Costume**
3.0 Units. 2 lecture and 3 lab hrs/wk. Prerequisite: Drama 150.
The study of costume history, design, and basic construction techniques as an introduction to basic theatrical costuming, including fabrics, pattern making, and draping. (CSU/UC)
**DRAM 160: Production Stagecraft**

1.0 Unit. 3 lab hrs/wk. Repeat: 3. No prerequisite.

This general course in the practical aspects of stagecraft and production support includes set, properties, and costume construction and organization; theatrical lighting; stage rigging; sound development; shop organization; and production office support. (CSU/UC)

**DRAM 161: Production Preparation - Sets and Properties**

1.0 Unit. 3 lab hrs/wk. Repeat: 3. Prerequisite: Drama 160.

Practical participation in the construction of scenery and properties for a staged production. (CSU/UC)

**DRAM 162: Production Preparation - Costumes and Hair**

1.0 Unit. 0.5 lecture and 2.5 lab hrs/wk. Repeat: 3. Prerequisite: Drama 160.

Practical participation in the construction, care and maintenance of theatrical costumes and basic hair styling and wig care and maintenance for departmental productions. (CSU/UC)

**DRAM 163: Production Preparation - Lights and Sound**

1.0 Unit. 0.5 lecture and 2.5 lab hrs/wk. Repeat: 3. Prerequisite: Drama 160.

A general course in the practical application of lighting and sound techniques for a departmental production. (CSU/UC)

**DRAM 164: Production Crew**

1.0 Unit. 0.5 lecture and 2.5 lab hrs/wk. Repeat: 3. No prerequisite. Advisory: Drama 150.

This course offers participation in a running crew for theatrical productions. Students are trained for crewing assignments such as lighting technician, sound technician, dresser, wardrobe mistress/master, backstage crew, properties management, assistant stage manager, and stage manager. (CSU/UC)

**DRAM 166: Stage Makeup: Theory and Practice**

1.0 Unit. 3 lab hrs/wk. Repeat: 3. No prerequisite.

Designed for students interested in the application of stage makeup, this course covers basic, old age, and character makeup for various sized theatres. Also includes animals, fantasy, Kabuki, and Chinese opera. Students are required to purchase makeup supplies following instructor’s guidelines. (CSU/UC)

**DRAM 217: Shakespearean Text Analysis for the Actor**

2.0 Units. 1 lecture and 3 lab hrs/wk. No prerequisite. Corequisite: Drama 245.

This class covers techniques for actors to analyze the text of a play by William Shakespeare, to prepare for the performance of a role in a Drama Department production. Focus on verse and prose speaking, discovery of character through the language and historical stylistic approach to the performance of Shakespeare on stage. (CSU/UC)

**DRAM 230: Advanced Acting Techniques**

3.0 Units. 3 lecture and 1 TBA hrs/wk. Prerequisite: Audition based upon a standardized level of performance.

This course, designed to further the student’s practical application in role preparation and performance techniques, emphasizes intensive preparation and analysis of major roles in selected scenes from plays of various types and periods. (CSU/UC)

**DRAM 237: Techniques of Audition**

0.5 Unit. 0.375 lecture and 1.125 lab hrs/wk. Repeat: 3. No prerequisite. Advisory: Drama 130.

A workshop for acting students, covering the techniques of the audition process and how to prepare for auditions, including memorizing monologues, cold reading from scripts, interview techniques, resume preparation, and finding a suitable monologue. (CSU)

**DRAM 240: Directing for the Stage**

3.0 Units. 3 lecture and 2 TBA hrs/wk. No prerequisite. Advisory: Drama 110, 130, and 134.

This class focuses on the transference of the written script into live action on the stage. Students learn fundamentals of script analysis, design concepts, casting, composition, blocking, actor-coaching, characterization, and rehearsal techniques as they relate to the play production process. (CSU/UC)

**DRAM 245: Rehearsal and Performance**

3.0 Units. 9 lab hrs/wk. Repeat: 3. Prerequisite: Audition based upon a standardized level of performance for College productions. Corequisite: Drama 160 or 161 or 162 or 163.

In this course, students act in the scheduled department production of a play. In addition, students are required to participate in the technical production areas covered by any of the corequisites, for a minimum of three weekly lab hours. (CSU/UC)

**DRAM 246: Rehearsal and Performance of a Modern Comedy**

3.0 Units. 9 lab hrs/wk. Repeat: 3. Prerequisite: Audition based upon a standardized level of performance for College productions. Corequisite: Drama 160 or 161 or 162 or 163.

In this course, students act in the scheduled department production of a modern comedy play. In addition, students are required to participate in the technical production areas covered by any of the corequisites, for a minimum of three weekly lab hours. (CSU/UC)

**DRAM 252B: Seminar and Fieldwork Experience B**

3.0 Units. 1 lecture and 8 lab hrs/wk. No prerequisite. Advisory: Drama 150 or 168 or 130.

This course is designed to give theatre students meaningful work experience in the areas of technical theatre, theatre management and performance. Each student works at a theatre company under the supervision of an artistic, technical or managerial employee of the theatre. In the weekly seminar, students receive lectures on various theatre occupations and discuss the skill-set necessary for securing work in the theatre. (CSU)

**DRAM 260: Musical Theatre Production Workshop**

3.0 Units. 9 lab hrs/wk. Repeat: 3. Prerequisite: Audition based upon a standardized level of performance for roles in College productions. Corequisite: Drama 160, 161, 162, 163, or 164.

This course involves acting, singing, and dancing/movement in the scheduled department production of a musical theatre play. Students also participate in the technical production areas of sets, lights, costumes, or crew. (CSU/UC) CSU Area C-1
EARLY CHILDHOOD EDUCATION

The Early Childhood Education Program is designed to prepare students to become teachers or directors in children’s centers, nursery and preschools, prekindergartens, infant-toddler programs, employer-supported children’s centers, extended day-care or family day-care programs.

Career Options
Teacher, Head Teacher, or Director of: Children’s Centers, Employer-Supported Children’s Centers, Extended Day Programs, Family Day Care Programs, Infant-Toddler Programs, Nursery and Preschools, Parent Cooperative Nursery Schools, Prekindergarten Programs

Faculty
Peggy Dodge - ECE Coordinator; Shaquam Edwards
Department Phone: 415-485-9319

Note: All coursework applicable to Early Childhood Education degrees, certificates, licenses, and permits must be completed with a grade of C, P, CR or higher.

A.S.-T. IN EARLY CHILDHOOD EDUCATION

The Associate in Science in Early Childhood Education for Transfer degree (AS-T) is primarily intended for the student who wants to earn a degree on the way to transferring to a California State University.

To complete the Associate in Science in Early Childhood Education for Transfer degree (AS-T), a student must:

1. Complete 60 semester units or 90 quarter units that are eligible for transfer to the California State University, including both of the following:
   - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education – Breadth Requirements.
   - A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district. Up to 12 units may be double-counted.

2. Complete all courses in the major with a grade of “C” or better, or “P” if the course is taken as “pass/no pass.”

3. Obtain a minimum grade point average of 2.0.

A.S. IN EARLY CHILDHOOD EDUCATION, OCCUPATIONAL

(Certificate of Achievement also awarded. Skills Certificate in Early Childhood Education Core also awarded.)

To obtain an Associate in Science degree with a major in Early Childhood Education, students must complete the required courses, as well as general education courses and graduation requirements. A Certificate of Achievement is also awarded. In addition, a Skills Certificate is earned by satisfactory completion of the required courses. Note: Students are required to complete English 150 for the associate degree. All students should consult a counselor.

Students who wish to enter the Early Childhood Education Program are advised to contact the program coordinator to discuss options for beginning the program and for tailoring individual scheduling needs to the structure of the program. Students enrolling in the student teaching practicum courses must fill out an application and complete all forms required by the ECE Student Teaching Program prior to beginning their student teaching placements.

Child development knowledge is a key competency for success in early childhood education classes. Students with limited college background or experience with science textbook reading should seriously consider taking ECE 101, Introduction to Child Development, among their first courses in Early Childhood Education.

- Kinesiology 107 or Biology 107 (cross-listed)
- Political Science 100
- History 118

**TOTAL CERTIFICATE UNITS** | **42.5**

Early Childhood Education Core Skills Certificate

Skills Certificates are an acknowledgement that the student has attained a specified set of competencies within an occupational program. Skills Certificates may be part of a “ladder” of skills, beginning with job entry skills and leading to a full Certificate of Achievement program or may constitute a skill set that enables a student to upgrade or advance in an existing career. Skills Certificates require less than 18 units and are shorter in duration than the Certificate of Achievement.

A student who has an Early Childhood Education Core Skills Certificate has completed 9-12 of the units required for the next level of certificate, the Certificate of Achievement in Early Childhood Education. A student who has completed the required courses for the Early Childhood Education Core Skills Certificate has met the coursework requirements of the Department of Social Services to be a teacher in a Title 22 preschool or children’s center. Upon completion of the Early Childhood Education Core Skills Certificate a student would be eligible to apply for the Associate Teacher level of the Child Development permit issued by the Commission on Teacher Credentialing.

**REQUIREMENTS** | **UNITS**
---|---
ECE 101 Introduction to Child Development | 3
Or
ECE 110 Child Development | 3
ECE 112 Child, Family, and Community | 3
ECE 114 Principles and Practices of Teaching Young Children | 3
ECE 115 Introduction to Early Childhood Curriculum | 3

**TOTAL CERTIFICATE UNITS** | **12**

**Licensing Coursework Requirements:**

The Department of Social Services requires that anyone working in a children’s program as a teacher have at least 12 semester units of coursework in early childhood education, with at least one course in each of the following three subject areas:

1. Child or Human Growth and Development (ECE 101 or 110)
2. Child, Family and Community, or Child-Family Relations (ECE 112)

*Recommended (Core) Courses for 12 ECE units. Only one of the recommended courses in Child Development is necessary.

**ECE 280 and 281 may be counted as units in the Programs and Curriculum category or as 96 hours of experience, but not both.

Child Development Permit Requirements:

The California Department of Education requires that anyone working in a children’s program subsidized by the Child Development Division obtain the appropriate permit from the California Commission on Teacher Credentialing.

1. For Child Development Assistant Teacher Permit: Six units of early childhood education (ECE) or child development (CD) courses. No experience requirement.
2. For Child Development Associate Teacher Permit: Twelve units in ECE/CD including the core* courses. Experience requirement: 50 days (3 or more hours per day) within 2 years.
3. For Child Development Teacher Permit: Twenty-four units in ECE/CD including the core* courses, plus 16 units in general education**. Experience requirement: 175 days (3 or more hours per day) within 4 years.
4. For Child Development Master Teacher Permit: Twenty-four units in ECE/CD including the core* courses, plus 16 units in general education**, plus 6 units in an ECE/CD area of specialization, plus 2 units of adult supervision (ECE 295). Experience requirement: 350 days (3 or more hours per day) within 4 years.
5. For Child Development Site Supervisor Permit: Associate degree (or 60 units) with at least 24 units in ECE/CD including the core* courses, plus 6 units in administration (ECE 220A, 220B), 2 units
EARLY CHILDHOOD EDUCATION COURSES (ECE)

ECE 100: Licensing and Permits: Introduction to Childcare Programs
0.5 Unit. 0.5 lecture hrs/wk. No prerequisite.
This course provides information regarding state requirements for being a teacher in a licensed children's program and for obtaining a Child Development Permit. Coursework requirements for the Associate of Science degree and Certificate of Achievement in Early Childhood Education are reviewed. Information about setting up a family childcare program is also included. This course is recommended for people wishing to learn about career options in ECE and for providers already working in the field. (CSU)

ECE 101: Introduction to Child Development
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This introductory course explains the ages and stages of development from birth through adolescence, describing physical, intellectual, social and emotional growth. Emphasis is on the practical application of principles and the adult role in supporting optimal growth. This course meets the Department of Social Services licensing requirements for coursework in early childhood education. It also meets requirements for all levels of the Child Development Permit. (CSU)

ECE 110: Child Development
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This course examines major physical, psychosocial, and cognitive/language developmental milestones for children, both typical and atypical, from conception through adolescence. Interactions between maturational processes and environmental factors are emphasized. While studying developmental theory and investigative research methodologies, students observe children, evaluate individual differences and analyze characteristics of development at various stages. The course meets Department of Social Services licensure requirements for coursework in ECE and Child Development Permits. (CSU/UC) AA/AS Area B, CSU Area D-7 and E, IGETC Area 4

ECE 112: Child, Family, and Community
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This course examines major physical, psychosocial, and cognitive/language developmental milestones for children, both typical and atypical, from conception through adolescence. Interactions between maturational processes and environmental factors are emphasized. While studying developmental theory and investigative research methodologies, students observe children, evaluate individual differences and analyze characteristics of development at various stages. The course meets Department of Social Services licensure requirements for coursework in ECE and Child Development Permits. (CSU/UC) AA/AS Area B, CSU Area D-7 and E, IGETC Area 4

ECE 114: Principles and Practices of Teaching Young Children
3.0 Units. 3 lecture hrs/wk. No prerequisite.
An examination of the underlying theoretical principles of developmentally appropriate practices applied to programs and environments, emphasizing the key role of relationships, constructive adult-child interactions, and teaching strategies in supporting physical, social, creative and intellectual development for all children. Includes review of the historical roots of early childhood programs and the evolution of professional practices promoting advocacy, ethics and professional identity. (CSU)

ECE 115: Introduction to Early Childhood Curriculum
3.0 Units. 3 lecture hrs/wk. No prerequisite.
An overview of the knowledge and skills required to provide appropriate curriculum and environments for children from birth to age six. Students examine the teacher’s role in supporting development and engagement for all young children. The course provides strategies for developmentally-appropriate practices based on observation and assessments across the curriculum, including academic content areas; play, art and creativity; and development of social-emotional, communication, and cognitive skills. (CSU)

ECE 116: Observation and Assessment
3.0 Units. 3 lecture hrs/wk. Prerequisite: ECE 101 or 100.
This course focuses on the appropriate use of assessment and observation strategies that document development, growth, play and learning to join with families and professionals in promoting children’s success. Recording strategies, rating systems, portfolios and multiple assessment tools are explored. (CSU)

ECE 120: Planning and Teaching an After School Program
1.0 Unit. 1 lecture hrs/wk. No prerequisite.
This course includes age-appropriate activities for after school programs, aspects of after school care, and strategies for working with and understanding children in after school settings. (CSU)

ECE 131: Health, Safety, and Nutrition Practices for Young Children
3.0 Units. 3 lecture hrs/wk. No prerequisite.
Introduction to the laws, regulations, standards, policies, procedures and early childhood curriculum related to children’s health, safety and nutrition. Key components ensuring physical and mental health and safety for both children and staff are identified, along with the
importance of collaboration with families and health professionals. Certificates issued upon successful completion of Pediatric CPR and First Aid training components. (CSU)

**ECE 132: Planning and Leading Circle Times with Young Children**  
1.0 Unit. 1 lecture hrs/wk. No prerequisite.  
This course examines approaches for planning and leading circle times for preschoolers, toddlers, school-agers and mixed age groups. Features ideas for materials, songs and activities for large groups, and strategies for managing groups and guiding young children during circle times. The course can be applied towards licensing and Child Development Permit coursework requirements in the subject area of Programs and Curriculum. (CSU)

**ECE 133: Creative Art Curriculum for Young Children**  
2.0 Units. 1 lecture and 3 lab hrs/wk. No prerequisite.  
In this course students learn how to plan, design and present a process-oriented art curriculum for young children. Through in-class hands-on art activities, students sample a variety of media for children. An overview of current trends in early art education is also included. (CSU)

**ECE 134: Understanding Young Children’s Temperaments**  
1.0 Unit. 1 lecture hrs/wk. No prerequisite.  
This course provides information about how to work with children of different temperaments. It includes an examination of the different temperament types, an overview of research on temperament and children, how to recognize the different temperamental traits, and strategies and approaches for working successfully with young children of different temperamental types in group care and classroom settings. (CSU)

**ECE 135: Working With Children’s Challenging Behavior**  
2.0 Units. 2 lecture hrs/wk. No prerequisite.  
In this course, students discuss descriptors and characteristics of challenging behavior of young children in early childhood classroom settings. Strategies and approaches for managing such behavior are featured. Methods for working with parents when their child displays challenging behavior and for locating outside help are also included. (CSU)

**ECE 137: Emergent Literacy in the Early Childhood Classroom**  
3.0 Units. 3 lecture hrs/wk. No prerequisite.  
This course introduces students to developing early literacy curriculum that aligns with California Infant/Toddler and Preschool Learning Foundations and Frameworks. Includes methods for setting up a classroom and planning curriculum to foster the development of language and literacy skills. (CSU)

**ECE 205: Integrated Curriculum and the Project Approach**  
3.0 Units. 3 lecture hrs/wk. Prerequisite: ECE 115. Advisory: ECE 114.  
This course provides information, ideas, and hands-on experience in developing curriculum for young children that integrates activities across all areas of the curriculum—mathematics, language arts, science, art, music and movement. The course introduces the innovative project approach demonstrated in the preschools of Reggio Emilia, Italy. (CSU)

**ECE 208: Teaching in a Diverse Society**  
3.0 Units. 3 lecture hrs/wk. No prerequisite.  
Examination of the development of social identities in diverse societies, including theoretical and practical implications of oppression and privilege as they apply to young children, families, programs, classrooms and teaching. Various classroom strategies are explored, emphasizing culturally and linguistically appropriate anti-bias approaches, supporting all children in becoming competent members of a diverse society. Includes self-examination and reflection on issues related to social identity, stereotypes and bias, social and educational access, media and schooling. (CSU)

**ECE 217: Fostering Creativity in the Classroom**  
2.0 Units. 2 lecture hrs/wk. No prerequisite.  
This course offers a variety of strategies and hands-on ideas for fostering creativity in young children. It examines aspects of creative thinking and provides methods for planning creative activities in all curriculum areas. (CSU)

**ECE 218: Infant and Toddler Development**  
3.0 Units. 3 lecture hrs/wk. No prerequisite.  
A study of infants and toddlers from pre-conception to age three, including physical, cognitive, language, social, and emotional growth and development. The course applies theoretical frameworks to interpret behavior and interactions between heredity and environment, emphasizing the role of family and relationships in development. (CSU)

**ECE 219: Care and Education for Infants and Toddlers**  
3.0 Units. 3 lecture hrs/wk. No prerequisite.  
This course applies current theory and research to the care and education of infants and toddlers in group settings, and examines essential policies, principles, and practices that lead to quality care and developmentally appropriate curriculum for children from birth to 36 months. (CSU)

**ECE 220A: Early Childhood Education Administration A**  
3.0 Units. 3 lecture hrs/wk. No prerequisite.  
Introduction to the administration of early childhood programs. Covers program types, budget, management, regulations, laws, and development and implementation of policies and procedures. Examines the administrative tools, philosophies, and techniques needed to organize, open, and operate an early care and education program. The course can be applied toward the administration course requirement of the Site Supervisor and Program Director Child Development Permits and meets Community Care Licensing standards for administration courses required for Directors. (CSU)
ECE 220B: Early Childhood Education Administration B

3.0 Units. 3 lecture hrs/wk. Prerequisite: ECE 220A or concurrent enrollment.

This course provides in-depth examination of early childhood program administration, including topics such as implementing regulation requirements; program assessment and evaluation; child assessments; effective leadership strategies; staff development, supervision and evaluation; nutrition programs; and developing parent partnerships. Administration of Title 5 and Title 22 childcare program requirements is also examined. The course can be applied toward credit needed for Site Supervisor and Program Director Child Development Permits. (CSU)

ECE 222: Working with Special Needs Children in Early Childhood Settings

2.0 Units. 2.25 lecture hrs/wk. No prerequisite.

Overview of children with special needs and the impact on families. Maximizing potential through education, support, legislative knowledge, curriculum adaptations, community resources, and career opportunities. Students identify and examine special needs in young children, review the current legislation and guidelines for working with children in early childhood classrooms, examine modalities of effective communication with parents of young children with special needs, and evaluate approaches for assisting special needs children in classroom routines. (CSU)

ECE 223: Music Activities for Young Children

1.0 Unit. 1 lecture hrs/wk. No prerequisite.

Through a survey of teaching methods and hands-on music activities, this course enables students to develop a rich and enjoyable music program for young children, understand basic musical concepts, present culturally diverse music activities, and foster reading and math readiness through music. This course meets the Department of Social Services' requirement for coursework in the area of Programs and Curriculum. (CSU)

ECE 224: Working with Parents in Early Childhood Programs

2.0 Units. 2 lecture hrs/wk. No prerequisite.

This course includes approaches and techniques for working with parents in infant/toddler, preschool and extended day programs; strategies for planning and leading parent-teacher conferences; effective techniques for communicating with parents; and ideas for parent involvement in early childhood programs. (CSU)

ECE 225: Guidance and Limit-Setting in the Early Childhood Classroom

2.0 Units. 2 lecture hrs/wk. No prerequisite. Strategies and approaches for guiding and setting limits with infants, toddlers, and preschoolers in classroom settings are presented and explored in this course. Also featured are methods for assisting young children in conflict resolution. (CSU)

ECE 226: Exploration and Discovery in Math and Science

3.0 Units. 3 lecture hrs/wk. Prerequisite: ECE 101 or 110.

This course familiarizes students with elements of the scientific method and how those elements can be present in curriculum for young children. Students actively explore math and science concepts suitable for young children, and develop and implement age-appropriate activities to explore those concepts. (CSU)

ECE 239: Current Issues in Early Childhood Education

3.0 Units. No prerequisite. Hours will vary with selected topic.

Specialized and contemporary topics in ECE are the focus of this course. The subject matter varies with the needs and interests of the students. The course content meets educational requirements for Department of Social Services licensing and Child Development Permit attainment. (CSU)

ECE 260: Marin Childcare Conference and Follow-up One-Day Workshop

1.0 Unit. 1 lecture hrs/wk. Repeat: 3. No prerequisite.

Part I of this course is a day-long, 8-hour, off-campus conference for childcare providers and other interested parties. Participants may choose from mid-morning and afternoon workshops on current issues, trends, and policies in ECE. A keynote presentation is included. Part II consists of a one-day, on-campus workshop in which the instructor reviews and expands on topics presented in conference. (CSU)

ECE 261: Early Childhood Education Conference Course

0.5 Unit. 0.5 lecture hrs/wk. Repeat: 3. No prerequisite.

This is a conference-format course. Topics and content vary. The course can be used to meet Professional Growth requirements for renewal of the Teacher, Master Teacher, Site Supervisor, or Director level of Child Development Permit issued by the California Commission on Teacher Credentialing. (CSU)

ECE 261ABC: Early Childhood Education Conference Course A, B, C, or D

0.5 Unit. 0.5 lecture hrs/wk. No prerequisite.

These are conference-format courses. Topics and content of the courses vary. They may be used to meet “Professional Growth” requirements for renewal of the Teacher, Master Teacher, Site Supervisor, or Director levels of the Child Development Permit issued by the California Commission on Teacher Credentialing. (CSU)

ECE 280: Early Childhood Education Fieldwork and Seminar I: Beginning Practicum

3.0 Units. 1 lecture and 6 lab hrs/wk. Prerequisite: ECE 115. Advisory: ECE 116. Other limitations on enrollment: evidence of physical exam and TB test within past 6 months and up-to-date immunization records; also must complete Criminal Record Clearance statement prior to fieldwork placement.

A demonstration of developmentally appropriate early childhood teaching competencies under guided supervision. Students will utilize practical classroom experiences to make connections between theory and practice, develop professional behaviors, and build a comprehensive understanding of children and families. Child centered, play-oriented approaches to teaching, learning, and assessment; and knowledge of curriculum content areas will be emphasized as student teachers design, implement and evaluate experiences that promote positive development and learning for all young children. (CSU)
ECE 281: Early Childhood Education Fieldwork and Seminar II: Advanced Practicum

3.0 Units. 1 lecture and 6 lab hrs/wk. Prerequisite: ECE 280. Other limitations on enrollment: evidence of physical exam and TB test from within the past 6 months and up-to-date immunization records; also must complete Criminal Record Clearance statement prior to fieldwork placement.

Advanced training in planning, preparing, implementing and evaluating various curriculum activities and techniques with young children in an early education and care settings. Integration of curriculum and documentation of individual children's competencies is emphasized. A seminar is included, in which students discuss teaching strategies and curriculum development techniques. Includes six hours weekly working directly with children in the campus Children's Centers or in California Early Childhood Mentor program classrooms. (CSU)

ECE 295: Supervising Adults in Early Childhood Programs

2.0 Units. 2 lecture hrs/wk. No prerequisite.

Methods and principles of supervising student teachers, volunteers, staff, and other adults in early care and education settings. The course emphasizes roles and development of early childhood professionals as mentors and leaders. It meets the requirements on the Child Development Permit Matrix for adult supervision units required for Master Teacher or Site Supervisor permits. (CSU)

ECONOMICS

Courses in economics provide students with a foundation of preparation for careers in business and government. Economists who work in business are expected to help their firms adapt to the changing environment. This typically involves short- and long-term economic forecasts of how changes in the economic environment will affect various aspects of business, such as marketing, purchasing, industrial relations, and finance. Most economists employed by the government are specialists in such fields as agriculture, labor, business, and international trade.

A.A.-T. IN ECONOMICS

Associate in Arts in Economics for Transfer degree (AA-T)

This degree is primarily intended for the student who wants to earn a degree on the way to transferring to a California State University.

To complete the Associate in Arts in Economics for Transfer degree, a student must:

1. Complete 60 semester units or 90 quarter units that are eligible for transfer to the California State University, including both of the following:
   - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education – Breadth Requirements.
   - A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district.
2. Complete all courses in the major with a grade of “C” or better, or “P” if the course is taken as “pass/no pass.”
3. Obtain a minimum grade point average of 2.0.

**ECONOMICS COURSES (ECON)**

**ECON 101: Principles of Macroeconomics**  
3.0 Units. 3 lecture hrs/wk. Prerequisite: Math 101 or 101AB or 101XY or sufficient score on Math Placement Test. Advisory: Eligibility for ENGL 120. ECON 102 may be taken before ECON 101.  
This introductory course provides a comprehensive overview of the economy as a whole by examining both long-run and short-run macroeconomic issues. Topics include scarcity, comparative economic systems, domestic output and national income, growth, unemployment, inflation, aggregate demand and supply. It also includes an examination of international trade, government stabilization policy, money and banking, and financial institutions. Students are exposed to both macroeconomic theory and contemporary macroeconomic issues. Special emphasis is placed on developing economic tools and applying those tools to understanding contemporary issues. (CSU/UC) AA/AS Area B, CSU Area D-2, IGETC Area 4B

**ECON 102: Principles of Microeconomics**  
3.0 Units. 3 lecture hrs/wk. Prerequisite: Math 101 or 101AB or 101XY or satisfactory score on the Math Assessment Test. Advisory: Eligibility for ENGL 120. ECON 101 and ECON 102 may be taken in either order.  
This course introduces microeconomic analysis and focuses on choices of individual economic decision-makers. Topics include the economic perspective, how markets work, market failures, consumers, producers and efficiency, businesses and costs of production in various market structures, gains from trade, and globalization. (CSU/UC) AA/AS Area B, CSU Area D-2, IGETC Area 4B

**ECON 120: Introduction to Environmental Economics**  
3.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: ECON 101 or 102.  
This course introduces the interdependent relationship between economics and the environment. It focuses on how to apply economic concepts to study the sources of, and remedies for, environmental problems. It examines analytical tools of economics, such as cost-benefit analysis and welfare analysis, to study problems with environmental dimensions, and covers the circumstances in which markets fail to efficiently allocate resources in the presence of negative externalities. Students learn objectives used in the development of environmental policies, and examine the role of government and policies to address issues such as energy, water, biodiversity, wildlife, global climate change, and long-term sustainability. (CSU)

**ECON 125: Research Methods and Term Papers in Economics**  
3.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: Eligibility for ENGL 150. Can be taken as ECON 125, ETST 125, HIST 125, POLS 125, or SSC 125; credit awarded for only one course.  
This course focuses on the elements of critical thinking and methods of research in the social sciences and develops skills required to organize such thought and research into effective, college level presentations. Students are encouraged to select areas of research from other courses taken during the semester or from areas of special interest including politics, history, economics, education, women's studies, ethnic studies, current issues, and issues of community concern. (CSU/UC)

**ECON 215: Survey of Current Issues**  
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as ECON 215, POLS 215, or SSC 215; credit awarded for only one course.  
This course is an opportunity to critically examine and discuss significant world developments and to attempt to understand the sources of those developments. Student focus on issues of particular interest and share that information with the group. When possible, informed participants in world and national events meet with the class to share insights. (CSU)

**EDUCATION COURSES (EDUC)**

**EDUC 110: Introduction to Education**  
3.0 Units. 3 lecture hrs/wk. No prerequisite.  
A foundation for understanding the public education system for those interested in teaching and learning, this course includes information about school governance, the nature of teaching as a profession, and the philosophies of education. (CSU/UC)

**EDUC 111: Foundations of Teaching**  
3.0 Units. 3 lecture hrs/wk. No prerequisite.  
This course explores what it means to be a professional teacher in the current high-stakes environment of education. Building upon a strong mentoring approach, the course helps students make decisions about their teaching future by fostering an awareness of the realities of teaching in America today. Practical perspectives for meeting the challenges of teaching as well as practical and foundational topics provide students with a well-rounded view of the teaching profession. (CSU/UC)
ELECTRONICS TECHNOLOGY

Courses in this area provide a limited introduction to electronics and telecommunication technology. They are designed to equip the student with basic terminology, concepts, and some measurement and diagnostic skills.

Career Options

ELECTRONICS TECHNOLOGY COURSES (ELEC)

ELEC 120: Electrical Fundamental and Alternative Energies
3.0 Units. 3 lecture hrs/wk. No prerequisite.
Introduction to the principles, terminology, and measurements of electrical circuits, and to the generation of power by solar photovoltaic, solar thermal, wind, hydrogen cells, and electric vehicles. Emphasis on the fundamentals of AC/DC circuits and their common uses. (CSU)

ELEC 200: Solar PV Design for Residential and Small Commercial
3.0 Units. 3 lecture hrs/wk. No prerequisite.
Join the “rooftop revolution” with this introductory course for residential and small commercial owners and those wishing to gain jobs in the solar field. The course guides students through the steps to design and install a working PV system for your home or small commercial building, and qualifies students to take the National NABCEP (North American Board of Certified Energy Practitioners) Test. (CSU)

ELEC 290: Electric Vehicle Conversion and Hybrid Maintenance
3.0 Units. 2.5 lecture and 1.5 lab hrs/wk. No prerequisite. May be taken as ELEC 290 or ACRT 290; credit awarded for only one course.
This course covers hybrid maintenance, guiding students through the complete process of converting a vehicle from a gasoline engine to an electrically-powered engine. Through lecture and hands-on experience, students learn the principles behind good component layout, battery rack and box design, construction details, and electrical wiring. Additional topics include AC and DC drive systems, types of batteries, selecting the right chassis, transmission adapter housing design, and handling chargers and controllers. (CSU)

ENGINEERING

No profession has as many diverse specialties and applications as engineering. Few other professions offer the challenge, financial rewards, and opportunity to make a contribution to the betterment of our environment and standard of living as engineering.

There are many specialties in engineering, and within each area there are countless subdivisions. Our technology has grown so pervasive and complex that each facet of an engineering problem demands a specific type of training and expertise.

Career Options
Aerodynamicist, Agricultural Engineer, Ceramic Engineer, Chemical Engineer, Civil Engineer, Customer Service Representative, Designer, Drafter, Electrical Engineer, Electronics Engineer, Field Service Engineer, Industrial Engineer, Management Analyst, Marine Engineer, Materials Scheduler, Mechanical Engineer, Metallographer, Metallurgical Engineer, Mining Engineer, Nuclear Engineer, Operations Analyst, Petroleum Engineer, Production Manager, Project Director, Research Scientist, Safety Engineer, Sales Engineer, Surveyor, Systems Analyst, Technical Illustrator, Tester, Welding Technician

ENGG 110A: Introduction to the Engineering Profession
1.0 Unit. 1 lecture hrs/wk. No prerequisite.
An overview of the engineering profession, including a survey of career fields and a discussion of academic requirements at College of Marin and other institutions. The course aids students in developing career goals, academic plans, and personal success strategies. (CSU/UC)

ENGG 111: Computer Tools for Scientists and Engineers: Spreadsheets
1.0 Unit. 1 lecture hrs/wk. Prerequisite: Math 103 or 103AB or 103XY or sufficient score on the Math Assessment Test.
An introduction to computer tools and techniques useful for data analysis, problem solving, and communication in science and engineering coursework and professional activities. Students learn to use spreadsheet software to perform routine data analysis, including use of mathematical equations, statistical analysis, graphing, curve fitting, and a variety of numerical problem-solving techniques. (CSU)

ENGG 125: Introductory Engineering Graphics
4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite.
This course introduces orthographic and perspective projections, helping the student develop 3D visualization design drawing skills. Students learn industry ANSI and ISO standards used in creating detail and assembly drawings. Auxiliary and section views, mechanical tolerancing and dimensioning are learned through extensive 2D CAD and solid 3D modeling with Inventor. Important teamwork skills are fostered through group projects and documentation of the entire design process. (CSU/UC)
ENGG 150: Programming in MATLAB for Engineers
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: Math 123. May be taken as ENGG 150 or COMP 150; credit awarded for only one course.

Designed to meet computer programming requirements for engineering transfer students, this course utilizes the MATLAB environment to provide a working knowledge of computer-based problem-solving methods relevant to science and engineering, including programming and numerical analysis techniques. Students outline, write, test, and debug computer programs to solve problems and display results, emphasizing proper documentation of computer code and reports. Common examples and applications of physics and engineering are used throughout the course. (CSU/UC)

ENGG 220: Electric Circuit Analysis
3.0 Units. 3 lecture hrs/wk. Prerequisites: PHYS 207B, and Math 224 or concurrent enrollment.

An introduction to the theory and analysis of electric circuits, including basic quantities and analytical techniques; network theorems and modeling; natural and forced responses of first- and second-order RLC circuits; AC circuit analysis and power calculations; and linear models of common devices such as transistors, operational amplifiers, and transformers. (CSU/UC)

ENGG 220L: Electric Circuits Lab
1.0 Unit. 3 lab hrs/wk. No prerequisite.

This optional lab to accompany ENGG 220 introduces electric measurements and laboratory instrumentation, as well as a practical verification of electrical circuit theory. Students build and analyze a variety of circuits, including Operational Amplifiers, and investigate first and second order transient response and AC steady state behavior. Students learn how to use oscilloscopes, multimeters, function generators, power supplies, and computer simulation tools to study electric circuits. (CSU/UC)

ENGG 235: Engineering Mechanics: Statics
3.0 Units. 3 lecture hrs/wk. Prerequisite: PHYS 207A, and Math 124 or concurrent enrollment.

An introduction for engineering students to applied vector mechanics of rigid bodies in static equilibrium. Students learn standard engineering techniques for the analysis of external and internal forces in structures, distributed force problems, friction, centroids, and moments of inertia. (CSU/UC)

ENGG 245: Engineering Materials Science
3.0 Units. 2 lecture and 3 lab hrs/wk. Prerequisites: CHEM 131 and PHYS 207A.

The internal structures and resulting behaviors of materials used in engineering applications (including metals, ceramics, polymers, and composites) are studied, emphasizing the effects of heat, stress, imperfections, and chemical environments. Laboratories provide direct observations of the structures and behaviors discussed in the course, experience with the operation of testing equipment, and the preparation of experimental reports. (CSU/UC)

ENGLISH

The essence of the English major involves the development of skills and techniques such as looking at language development and literature in-depth. This elicits the ability to analyze, to ascertain assumptions, to determine values, and to make intelligent judgments and decisions. For these reasons, a major in English would be appropriate for the professions of law, medicine, or industry.

Career Options
Advertising Copy Writer, Bookstore Manager/Staff, Continuity Writer, Editor, Foreign Service Officer, Freelance Writer, Fundraiser, Grant Writer, Interviewer, Journalist, Lawyer, Legislative Assistant, Librarian, Management Trainee, Media Specialist, News Analyst, Newspaper Reporter, Personnel Specialist, Public Information Officer, Publicity Director, Publishing Agent, Radio/TV Announcer, Reader, Research Assistant, Sales Representative, Scriptwriter, Speech Pathologist, Teacher, Technical Writer, Training Specialist

Faculty
Windee Cottle, Tonya Hersch, Ingrid Kelly, David King, Ali Klinger, Karen Koenig, Cara Kreit, Trine Miller, Alicia (Meg) Pasquel, John Sutherland, James Tipton, Stephanie Wells, Blaze Woodlife

Indian Valley Campus: 415-883-2211, Ext. 8326

A.A.-T. IN ENGLISH

Associate in Arts in English for Transfer degree (AA-T)
This degree is primarily intended for the student who wants to earn a degree on the way to transferring to a California State University. It provides students with a solid basis for the continuing study of English, American and world literature and develops skills in critical thinking and writing. An English major is the foundation for careers requiring verbal proficiency, analytic skills, literary competence, insight, and the exercise of judgment.

To complete the Associate in Arts in English for Transfer degree (AA-T), a student must:
1. Complete 60 semester units or 90 quarter units that are eligible for transfer to the California State University, including both of the following:
   - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education – Breadth Requirements.
   - A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district. Up to 12 units may be double-counted.
2. Complete all courses in the major with a grade of “C” or better, or “P” if the course is taken as “pass/no pass.”
3. Obtain a minimum grade point average of 2.0.

DRAM 110 Introduction to Theatre

ENGL 062: Developmental Reading and Writing Lab
1.0 Unit. 3 lecture hrs/wk. No prerequisite. Corequisite: ENGL 62.
This lab will reinforce and extend the reading and writing skills learned in English 62. May be taken four times for credit.

ENGL 070-079: ENGLISH SKILLS OPEN LAB
1.0 Unit for each course. 3 TBA hrs/wk. No prerequisite. Students are advised to meet with the instructor to determine appropriate courses to take.
A series of one-unit minicourses designed to help students develop basic English language skills. Offered on an individualized basis, each module may be entered and completed at any time during the semester, and, with an approved in-progress grade, completed the following semester. Each one-unit course requires approximately 48 hours of work.

ENGL 070: Phonics
ENGL 071: Spelling I
ENGL 072: Spelling II
ENGL 073: Vocabulary I
ENGL 074: Vocabulary II
ENGL 075: Reading I
ENGL 076: Reading II
ENGL 077: Independent Reading
ENGL 078: Special Interest Workshop
ENGL 079: Grammar Review

ENGL 092: Reading and Writing Skills
5.0 Units. 5 lecture hrs/wk. No prerequisite. Corequisite: ENGL 92L.
Students develop their abilities to analyze and respond to reading material in a variety of disciplines. At the same time, they learn to construct well-organized and developed paragraphs using correct grammar and sentence structure.

ENGL 092L: Reading & Writing Skills Lab
1.0 Unit. 3 lab hrs/wk. No prerequisite. Corequisite: English 92.
In this course, students practice and extend the reading, grammar, and writing skills introduced in English 92, receiving personal help with assignments from a professional staff.

ENGL 093: College Reading and Composition
5.0 units. 5 lecture hrs/wk. Corequisite: ENGL 093L.
This course prepares students for success in college-level reading and writing tasks. Students practice reading, writing, and critical thinking to improve reading comprehension and to develop skills for effective academic writing. The focus is on writing fluently, using effective organizational structures and developing ideas with support, using the conventions of standard written English. Assignments explore the connections among readings, personal experiences, observations, and class discussions.

ENGL 093L: College Reading and Composition Lab
1.0 unit. 3 lab hrs/wk. Corequisite: ENGL 093.
In this course, students practice and extend the reading, writing, and grammar skills introduced in English 93, receiving personal help with assignments from a professional staff.
**ENGL 095: Advanced Spelling**
1.0 Unit. 3 lab hrs/wk. No prerequisite. Advisory: ENGL 71 or 72 or 75th percentile on pretest.

Designed primarily for students in the Court Reporting Program, this course provides the skills to master English spelling at an advanced level. Students build their visual memory, study phonetic and structural patterns, and study frequently misspelled and misused words.

**ENGL 096: Advanced Vocabulary**
1.0 Unit. 3 lab hrs/wk. No prerequisite. Advisory: ENGL 73 or 74 or 75th percentile on pretest.

Designed primarily for students in the Court Reporting Program, this course presents strategies for building an extensive vocabulary. Topics include the history and etymology of English, dictionary skills, using context clues, word parts, and other word analysis skills.

**ENGL 097: Critical Reading**
1.0 Unit. 3 lab hrs/wk. No prerequisite. Advisory: ENGL 76 or 75th percentile on pretest.

Designed primarily for students in the Court Reporting Program, this course significantly increases students’ reading comprehension and critical thinking abilities. Topics include vocabulary in context, structural analysis of difficult material, inference, and conclusion and judgment skills.

---

**PRECOLLEGIATE LEVEL COURSES - NONTRANSFERABLE**

**ENGL 098: Introduction to College Reading and Composition I**
3.0 Units. 3 lecture and 1 lab hrs/wk. Prerequisite: ENGL 92 or 93 or ESL 83 or English Placement Test or equivalent.

This course prepares students for success in college-level reading and writing tasks. Students practice reading, writing, and critical thinking to improve reading comprehension and to develop skills for effective academic writing. The focus is on writing fluently, using effective organizational structures, and developing ideas with support, using the conventions of standard written English. Assignments help explore connections among readings, personal experience, observation, and class discussion. Requires one hour weekly of guided practice in the Writing Center or the ESL Lab.

**ENGL 098A: Grammar and Usage**
1.0 Unit. 3 lab hrs/wk. No prerequisite.

This self-paced, open-entry course instructs students in sentence-level grammar (major sentence elements, clause patterns) and usage (pronoun case and agreement, subject-verb agreement, and verb forms and tenses). The course presents methods students may use to analyze the grammatical components of sentences.

**ENGL 098B: Sentence Structure and Punctuation**
1.0 Unit. 3 lab hrs/wk. No prerequisite.

This course enables students to identify various sentence structures; recognize phrase and clause functions; avoid common structure errors such as run-on sentences, faulty parallel structure, and improper modification; and punctuate sentences accurately using the comma, semicolon, dash, and parentheses. Further, this course introduces creative sentence composition with variations of structure, use of verbal phrases, and stylistic balance and subordination.

---

**ENGL 098SL: Introduction to College Reading and Composition I - for Non-Native English Speakers**
3.0 Units. 3 lecture and 1 lab hrs/wk. Prerequisite: ESL 83 or ENGL 92 or ENGL 93 or English Placement Test or equivalent.

This course, for bilingual/non-native English speakers, prepares students for success in college-level reading and writing tasks. Students practice reading, writing, grammar skills and critical thinking to improve reading comprehension and develop skills for effective academic writing. The focus is on writing fluently, using effective organizational structures, and developing ideas with support, using the conventions of standard written English. Assignments help explore connections among readings, personal experience, observation, and class discussion. Requires one hour weekly of guided practice in the Writing Center or the ESL Lab.

**ENGL 099: Intensive Grammar Review**
0.5 Unit. 1.5 TBA hrs/wk. Repeat: 1. No prerequisite.

This intensive, self-paced course reviews common problems in grammar, punctuation, and usage. It is not intended to be an exhaustive study of the subject, but rather a focused review of such typical mistakes as run-ons, fragments, agreement errors, faulty parallelism, and inappropriate punctuation. This course is designed for students in ENGL 150, 151, and 155, but may be taken by anyone wanting to improve basic grammar skills.

---

**COLLEGE LEVEL COURSES - TRANSFERABLE**

**ENGL 116: College Reading**
3.0 Units. 3 lecture hrs/wk. No prerequisite.

A course designed to strengthen students’ ability to understand and respond to college-level readings in all disciplines. Emphasis is on critically evaluating purpose, support, conclusions, tone, and language. Vocabulary enhancement is included. (CSU)

**ENGL 120: Introduction to College Reading and Composition II**
3.0 Units. 3 lecture and 1 TBA hrs/wk. Prerequisite: ENGL 98 or 98SL or English Placement Test or equivalent.

Students sharpen their skills in reading, writing, and critical thinking to improve reading comprehension and to develop composing techniques for effective academic writing. This course prepares students for success in college level academic reading and writing, emphasis being placed upon thinking clearly and logically and upon the construction of cogent arguments. Requires one hour weekly of guided practice in the Writing Center. (CSU)

**ENGL 120AC: Accelerated Introduction to College Reading and Composition**
5.0 Units. 5 lecture hrs/wk. Prerequisite: ENGL 92 and 92L or English Placement Test.

In this rigorous, accelerated course, students develop skills in reading, writing and critical thinking to prepare for ENGL 150 and for success in other courses with college-level reading and writing tasks. The course emphasizes writing clearly, and constructing logical, well-supported arguments; it focuses on standard English usage, dictionary, punctuation, grammar, and sentence variety within the context of the essay. Assignments show interconnections among readings, personal experience, research, observation, and class discussion.
ENGL 105: Critical Thinking (3 units)
3.0 Units. 3 lecture hrs/wk. Prerequisite: ENGL 120 or 120SL or English Placement Test or equivalent.

This introductory-level course in the arts of rhetoric and logic sharpens students’ abilities to reason clearly. They learn to recognize and analyze common fallacies found in political statements, magazine commentary, news coverage, editorials, advertisements, and classical persuasive works, developing ways to organize ideas and express them rationally, and ways to judge the quality of ideas and the purposes of various examples ranging from propaganda to persuasion to philosophy. (CSU/UC) AA/AS Area E, CSU Area A-3

ENGL 130: Reading and Composition (3A) (3 units)
3.0 Units. 3 lecture hrs/wk. Prerequisite: ENGL 120 or 120SL or English Placement Test or equivalent.

This course develops and refines students’ writing, reading, and critical thinking abilities. Students read and discuss various works and write expository and argumentative prose, including a research paper. The course emphasizes gathering, evaluating and documenting evidence. During the semester, students are required to write numerous essays for a total of between 8,000-10,000 words. (CSU/UC) AA/AS Area D, CSU Area A-2, IGETC Area 1A

ENGL 151: Reading and Composition (1B) (4 units)
4.0 Units. 4 lecture hrs/wk. Prerequisite: ENGL 150 or equivalent.

This critical thinking/composition course highlights literary texts as material from which students derive samples to use in critical constructions of their own. Texts include critical and argumentative essays, biographical or historical discussions, belletristic writing, textual analysis, poetry, drama, short stories, and novels. Students learn to identify arguments, both in persuasive polemical discourse where arguments are presented and defended, and in subtler, more emotional texts where arguments are implied or masked, and to distinguish fallacious reasoning from cogent reasoning in a variety of formats. A minimum of 8,000 words of writing (including two revisions) is required. (CSU/UC) AA/AS Areas C or E, CSU Area A-3, IGETC Area 1B

ENGL 155: Critical Thinking and Composition (4 units)
4.0 Units. 4 lecture hrs/wk. Prerequisite: ENGL 150 or equivalent.

This course develops rhetorical, critical, argumentative, and organizational skills in written composition, and heightened perceptivity in analytical reading. Extensive analysis of writing models focuses on deductive, inductive, and inferential reasoning; assumptions and inferences embedded in arguments; informal logical fallacies; divergent world views; and incoherencies and biases in presentation. Student essays are expected to demonstrate a capacity for presenting complex ideas in a clear, coherent, and convincing manner, with particular attention to organization and style. A minimum of 8,000 words of writing is required of each student. (CSU/UC) AA/AS Area E, CSU Area A-3, IGETC Area 1B

ENGL 202: Creative Writing I (3 units)
3.0 Units. 3 lecture hrs/wk. Prerequisite: ENGL 120 or 120SL or 120AC or English Placement Test or equivalent.

This writing and composition course engages eligible students in both the study and practice of the crafts of fiction, poetry, and drama. (CSU/UC) CSU Area C-2

ENGL 203: Creative Writing II (3 units)
3.0 Units. 3 lecture hrs/wk. Prerequisite: ENGL 120 or 120SL or 120AC or equivalent, and ENGL 202.

This writing and composition course engages eligible students in both the study and practice of the crafts of fiction, poetry, and drama. It continues and develops the study and practice begun in ENGL 202. (CSU/UC) CSU Area C-2

ENGL 208: Short Fiction (3 units)
3.0 Units. 3 lecture hrs/wk. Prerequisite: ENGL 120 or 120SL or English Placement Test or equivalent.

This course examines short stories and novellas as works of literary art. Readings include representative short fiction by mainstream writers and by writers representing different cultural heritages. Lectures provide historical and cultural background helpful in appreciating the literature; class discussions focus on interpretation and on the analysis of traditional literary devices such as plot, character, point of view, setting, style, and theme. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

ENGL 212: Introduction to Poetry (3 units)
3.0 Units. 3 lecture hrs/wk. Prerequisite: ENGL 120 or 120SL or English Placement Test or equivalent.

This course examines poetry as a major literary genre, and introduces the fundamental nature of poetry through an examination of poetic forms, poetic devices (rhyme, meter), imagery, diction, tone, figures of speech, meaning, and idea. The course also addresses the historical and cultural factors that have influenced poetry’s stylistic developments. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

ENGL 214: The Popular Novel (3 units)
3.0 Units. 3 lecture hrs/wk. No prerequisite.

This course includes twentieth-century American literature that has been very successful in the marketplace. Some novels, like “The Great Gatsby” and “The Old Man and the Sea,” are now considered classics; others are minor, but well-crafted works. Students examine the novel as a literary genre and as a reflection of the dynamics and diversity of American life. In addition to reading the novels, students view films based on the novels, and produce assignments demonstrating their analytical thinking and writing skills. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B
ENGL 218: The American Short Story
3.0 Units. 3 lecture hrs/wk. Prerequisite: ENGL 98 or 98SL or English Placement Test or equivalent.

This course introduces the American literary tradition through reading selected short stories and related criticism, which might also be supplemented by viewing video productions of the selected stories. Students analyze and compare short works of fiction for thematic content and express their understanding through written responses, examinations, and classroom discussion. Authors include Ernest Hemingway, William Faulkner, Mark Twain, F. Scott Fitzgerald, and others. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

ENGL 219: Voices and Visions
3.0 Units. 3 lecture hrs/wk. No prerequisite.

This course offers a close look at the creative lives of at least thirteen American poets. Beginning with precursors Whitman and Dickinson, the programs cover the entire range of twentieth century verse. While exploring the varieties of poetic inspiration, students gain experience in reading for comprehension and pleasure. Writers include Frost, Eliot, Pound, Moore, Williams, Plath, and others. (CSU/UC) AA/AS Area C, CSU Area C-2

ENGL 220: Detective Fiction
3.0 Units. 3 lecture hrs/wk. Prerequisite: ENGL 120 or 120SL or English Placement Test or equivalent.

This course traces the development of the genre from classic mysteries to hard-boiled detective stories to police procedural. Students read representative works by such authors as Poe, Doyle, Christie, Hammett, Chandler, and MacDonald. The course emphasizes the conventions of the form, the elements of fiction, the methods of critical thinking used in solving crimes, and the ethical problems raised in the works under discussion. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

ENGL 221A: Survey of American Literature I
3.0 Units. 3 lecture hrs/wk. Prerequisite: ENGL 120 or 120SL or 120AC or English Placement Test or equivalent.

Students examine representative American writings, with emphasis shared between the “major” authors and works from America’s “other” voices, including Native American, Chicano and Hispanic American, and African-American authors. Lectures, discussions and media presentations will relate the literature to the developing social and philosophical attitudes that characterize American society. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

ENGL 221B: Survey of American Literature II
3.0 Units. 3 lecture hrs/wk. Prerequisite: ENGL 120 or 120SL or 120AC or English Placement Test or equivalent.

Students examine representative American writers from the Civil War to the present, with emphasis shared between the canonized “major” authors and works from Hispanic and African-American authors. Lectures, discussions and media presentations relate the literature to the developing social and philosophical attitudes that characterize American society. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

ENGL 222: Survey of English Literature I
3.0 Units. 3 lecture hrs/wk. Prerequisite: ENGL 120 or 120SL or English Placement Test or equivalent.

This survey covers major texts in English literature, from its Anglo-Saxon beginnings through the initial stages of modern English in the mid-17th century and into the 18th century Age of Enlightenment, including texts such as Beowulf, Milton's Paradise Lost, and Swift's Gulliver's Travels. Lectures provide historical and cultural contexts and critical methods for analysis of the texts in class discussions. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

ENGL 223: Survey of English Literature II
3.0 Units. 3 lecture hrs/wk. Prerequisite: ENGL 120 or 120SL or 120AC or English Placement Test or equivalent.

This survey course in English literature covers important works from the late 18th century through the 20th century. Lectures supply the background necessary for appreciation of the works and suggest the wealth of literary material available to the intellectually curious reader or to the student of literature. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

ENGL 224: Survey of World Literature I
3.0 Units. 3 lecture hrs/wk. Prerequisite: ENGL 120 or 120SL or English Placement Test or equivalent.

This course surveys representative imaginative literature of the world (excluding English and American literature) from antiquity through the Renaissance. Students examine works from Homer and Sophocles to Cervantes and Rabelais. Students view each work through both an artistic and a cultural lens, in order to see how the narrative mode and lyric and dramatic forms have evolved through the centuries. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

ENGL 225: Survey of World Literature II
3.0 Units. 3 lecture hrs/wk. Prerequisite: ENGL 120 or 120SL or English Placement Test or equivalent.

This course surveys representative imaginative literature of the world (excluding English and American literature) from early modern to post modern times. Students examine works ranging from Voltaire and Goethe to Sartre and Kafka. They view each work through both an artistic and a cultural lens, in order to see how the narrative mode and lyric and dramatic forms have evolved through the centuries. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

ENGL 230: Survey of Shakespeare
3.0 Units. 3 lecture hrs/wk. Prerequisite: ENGL 120 or 120SL or English Placement Test or equivalent.

This survey examines representative plays from each period in Shakespeare's career, locating the plays in their historical context. Lectures define critical approaches that invite discussion of the dramatic and literary qualities of Shakespeare's work. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

ENGL 235: Women in Literature
3.0 Units. 3 lecture hrs/wk. Prerequisite: ENGL 120 or 120SL or English Placement Test or equivalent.

The representation of the character and role of women in Western culture from Greek tragedy through contemporary literature, with a particular emphasis on American literature, is examined through the analysis of selected texts. The primary focus is on women in

ENGL 221B: Survey of American Literature II
3.0 Units. 3 lecture hrs/wk. Prerequisite: ENGL 120 or 120SL or English Placement Test or equivalent.

Students examine representative American writers from the Civil War to the present, with emphasis shared between the canonized “major” authors and works from Hispanic and African-American authors. Lectures, discussions and media presentations relate the literature to the developing social and philosophical attitudes that characterize American society. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

ENGL 222: Survey of English Literature I
3.0 Units. 3 lecture hrs/wk. Prerequisite: ENGL 120 or 120SL or English Placement Test or equivalent.

This survey covers major texts in English literature, from its Anglo-Saxon beginnings through the initial stages of modern English in the mid-17th century and into the 18th century Age of Enlightenment, including texts such as Beowulf, Milton's Paradise Lost, and Swift's Gulliver's Travels. Lectures provide historical and cultural contexts and critical methods for analysis of the texts in class discussions. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B
American literature by both male and female authors, the writing of minority women, and the political and cultural context of literature. (CSU/UC) AA/AS Area C and G, CSU Area C-2, IGETC Area 3B

**ENGL 237: The Literature of American Cultures**
3.0 Units. 3 lecture hrs/wk. Prerequisite: English 120 or 120SL or English Placement Test or equivalent.

This class explores the richness and diversity of American culture by studying the literature of several social and ethnic groups, including works by African-American, Native American, Jewish American, Latino, and Asian American writers. Through close readings of representative texts, the course focuses on themes of identity and community in the context of contemporary cultural history. (CSU/ UC) AA/AS Area C and G, CSU Area C-2, IGETC Area 3B

**ENGL 240: Classic Children’s Literature**
3.0 Units. 3 lecture hrs/wk. Prerequisite: ENGL 120 or 120SL or English Placement Test or equivalent.

An inquiry into the basic nature of children’s literature: what are its social, philosophical, spiritual, and aesthetic values? The course considers techniques and modern critical theories, but focuses on practical criticism for the nonspecialist. Specific works studied are representative of several genres, cultures, and periods of children’s literature. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

**ENGL 242: Global Writings**
3.0 Units. 3 lecture hrs/wk. Prerequisite: ENGL 120 or 120SL or English Placement Test or equivalent. Can be taken as ENGL 242 or HUM 242; credit awarded for only one course.

The cultural diversity and complex history of our globalized world are explored through a variety of contemporary writings. Discussion and analyses of representative texts focus on colonial exploitation, political domination, liberation, formations of racism, gender inequality, expressions of cultural power, ethnic conflict and division, immigration and migancy, and processes of globalization. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

**ENGLISH AS A SECOND LANGUAGE (ESL)**

This program, administered by the College Skills department, consists of credit and noncredit courses, and is recommended for non-native speakers of English. It offers students the opportunity to develop and practice basic English grammar, writing, and reading skills. Both credit and noncredit courses are designed to help students improve communication by developing their listening and speaking skills. Noncredit courses are offered from beginning to intermediate levels. Credit courses are offered from intermediate to advanced levels.

Please see College Skills category for department information.

Faculty (Noncredit)
Cheo Massion, Sara McKinnon, Patricia Seery

Faculty (Credit)
Rebecca Beal, Barbara Bonander, Beth Patel, Wendy L. Walsh, Blaze Woodlief

Department Phone: 415-485-9644

**Placement Testing**

College of Marin offers an English as a Second Language placement testing service to provide prospective students with information with which to make informed decisions when enrolling in ESL courses. Students are provided with their test scores. Students registering for ESL courses who need help interpreting their individual placement test scores, and/or deciding whether to register for or remain in an ESL course, can seek assistance from a counselor or their instructor.

For information about the ESL Placement Test, students can call the Testing Office at (415) 485-9469 (located in the Student Services building, Room 18, Kentfield Campus).

**ENGLISH AS A SECOND LANGUAGE NONCREDIT COURSES (ESLN; ESLV)**

- **ESLN 008: Beginning Citizenship**
  0.0 Unit. 3 lecture hrs/wk. Course is repeatable. Advisory: ESL Placement Test. Students should be in levels 010-025.
  This course introduces low-level ESL students to vocabulary and content required to pass the USCIS Naturalization Test, including the application process, civics, and basic oral, reading and writing skills.

- **ESLN 009: Intermediate Citizenship**
  0.0 Unit. 3 lecture hrs/wk. Course is repeatable. Advisory: ESL Placement Test. Students should be in levels 030-040 or above.
  This course prepares intermediate ESL students to pass the USCIS Naturalization Test, covering the application process, civics, and basic oral, reading and writing skills.

- **ESLN 010: Beginning ESL**
  0.0 Unit. 2.8 lecture hrs/wk. Course is repeatable. Advisory: ESL Placement Test.
  This course will introduce beginning English learners to basic everyday English vocabulary, expressions and instructions to describe everyday actions, needs and abilities. Emphasis will be placed on aural comprehension and basic survival skills.

- **ESLN 010A: Beginning ESL A**
  0.0 Unit. 4 lecture hrs/wk. Course is repeatable. Advisory: ESL Placement Test.
  This course will introduce beginning English learners who know some basic English vocabulary, introduces everyday English vocabulary, expressions, and instructions to describe everyday actions, needs and abilities.

- **ESLN 010B: Beginning ESL B**
  0.0 Unit. 4 lecture hrs/wk. Course is repeatable. Advisory: ESL Placement Test.
  This course is for beginning English learners who know some basic English vocabulary. The course will introduce students to everyday English vocabulary, expressions and instructions to describe everyday actions, needs and abilities.
ESLN 010C: Beginning ESL C
0.0 Unit. 1.5 lecture hrs/wk. Course is repeatable. Advisory: ESL Placement Test.
This course introduces beginning English learners to basic everyday English vocabulary, expressions and structures to describe everyday actions, needs and abilities. The class emphasizes developing confidence and understanding written and spoken instructions and stories.

ESLN 010L: Beginning ESL - Long
0.0 Unit. 9 lecture hrs/wk. Course is repeatable.
This course introduces beginning English learners to basic everyday English vocabulary, expressions and instructions to describe everyday actions, needs and abilities. Emphasis is placed on aural comprehension and basic survival skills. The course meets for more hours to give more opportunity to focus on reading and writing skills.

ESLN 010X: Beginning ESL Summer Review
0.0 Unit. 1.5 lecture hrs/wk. Course is repeatable.
This short Level-10 summer course offers a chance to review basic grammar points learned during the year, and/or to focus on reading, vocabulary development, or interactive communication skills.

ESLN 015: ESL for Employment: Job Search Skills
0.0 Unit. 3 lecture hrs/wk. Course is repeatable.
This course, designed for those interested in finding and retaining employment, focuses on developing the language skills necessary to identify a job, pursue the written application process, participate in an oral interview, and accept employment. Assignments include completing a master application and online application; and writing a resume, list of references, cover letter, and thank-you note.

ESLN 020: High Beginning ESL A
0.0 Unit. 4 lecture hrs/wk. Course is repeatable. Advisory: ESL Placement Test.
In the first part of high beginning ESL, students will learn to ask for and give basic information about yesterday, today and tomorrow and to express basic likes, wants, needs, abilities and obligations in conversation and in written form.

ESLN 020L: High Beginning ESL - Long
0.0 Unit. 9 lecture hrs/wk. Course is repeatable. Advisory: ESL Placement Test.
In this high beginning ESL course, students learn to ask for and give basic information about yesterday, today and tomorrow and to express basic likes, wants, needs, abilities and obligations in conversation and in written form. They will also learn to negotiate and interact on the telephone, at work and in the community. This course meets for more hours to give more opportunity to focus on reading and writing skills.

ESLN 020LXS: High Beginning Listening and Speaking
0.0 Unit. 4 lecture hrs/wk. Course is repeatable. Advisory: ESL Placement Test. Recommended for students concurrently enrolled in levels 010-015 or 020-025.
This is a beginning (Level 10/15) and high beginning (Level 20/25) noncredit ESL course emphasizing listening and speaking skills. Practice in speaking and listening comprehension of English through the use of audiovisual materials related to survival skills, asking for directions, giving personal information and making appointments.

ESLN 020X: High Beginning ESL A Summer Review
0.0 Unit. 1.5 lecture hrs/wk. Course is repeatable.
This short High Beginning ESL A summer course offers a chance to review basic grammar points learned during the year, and/or to focus on reading, vocabulary development, or interactive communication skills.

ESLN 025: High Beginning ESL B
0.0 Unit. 4 lecture hrs/wk. Course is repeatable. Advisory: ESL Placement Test.
In the second part of high beginning ESL, students practice expressing basic likes, wants, needs, abilities and obligations and talking about yesterday, today and tomorrow. They also begin to negotiate and interact on the telephone, at work and in the community.

ESLN 025X: High Beginning ESL B Summer Review
0.0 Unit. 1.5 lecture hrs/wk. Course is repeatable.
This short High Beginning ESL B summer course offers a chance to review basic grammar points learned during the year, and/or to focus on reading, vocabulary development, or interactive communication skills.

ESLN 030: Low Intermediate ESL A
0.0 Unit. 4 lecture hrs/wk. Course is repeatable. Advisory: ESL Placement Test.
ESLN 030 students know everyday survival English, but want to learn to talk about their experiences in life and at work. They learn to describe how their lives were before they came to this country. The focus is on learning more verbs and verb forms.

ESLN 030L: Low Intermediate ESL A - Long
0.0 Unit. 9 lecture hrs/wk. Course is repeatable.
ESLN 30 students know everyday survival English, but want to learn to talk about their experiences in life and at work. They learn to describe how their lives were before they came to this country. The focus is on learning more verbs and verb forms. The course meets for more hours to give more opportunity to focus on reading and writing skills.

ESLN 030X: Low Intermediate ESL A Summer Review
0.0 Unit. 1.5 lecture hrs/wk. Course is repeatable.
This short Low Intermediate ESL A summer course offers a chance to review basic grammar points learned during the year, and/or to focus on reading, vocabulary development, or interactive communication skills.

ESLN 035: Low Intermediate ESL B
0.0 Unit. 4 lecture hrs/wk. Course is repeatable. Advisory: ESL Placement Test.
ESLN 035 is the second part of the low intermediate level. Students review and build upon basic English skills and survival skills covered in Levels 010-030. They may read and discuss short adapted fiction or nonfiction in class and write about personal abilities and experiences.
ESLN 035L: Low Intermediate ESL B - Long
0.0 Unit. 9 lecture hrs/wk. Course is repeatable.
ESLN 035 is the second part of the low intermediate level. Students review and build upon basic English skills and survival skills covered in levels 10-30. They may read and discuss short adapted fiction or nonfiction in class and write about personal abilities and experiences. The course meets for more hours to give more opportunity to focus on reading and writing skills.

ESLN 035X: Low Intermediate ESL B Summer Review
0.0 Unit. 1.5 lecture hrs/wk. Course is repeatable.
This short Low Intermediate ESL B summer course offers a chance to review basic grammar points learned during the year, and/or to focus on reading, vocabulary development, or interactive communication skills.

ESLN 040: Credit ESL Preparation Course
0.0 Unit. 1.5 lecture hrs/wk. Course is repeatable. Advisory: ESL Placement Test.
Students in ESLN 040 continue to develop their intensive and extensive reading skills, make oral presentations and use an English dictionary, the library, and the internet for simple research projects. In preparation for transitioning to credit ESL, regular attendance, homework, and group participation are strongly encouraged.

ESLN 040A: Credit ESL Preparation A
0.0 Unit. 4 lecture hrs/wk. Course is repeatable.
Students in ESLN 040A continue to develop their intensive and extensive reading skills; make oral presentations; and use an English dictionary, the library, and the internet for simple research projects. In preparation for transitioning to credit ESL, regular attendance, homework, and group participation are strongly encouraged.

ESLN 040B: Credit ESL Preparation B
0.0 Unit. 4 lecture hrs/wk. Course is repeatable.
Students in ESLN 040B continue to develop their intensive and extensive reading skills; make oral presentations; and use an English dictionary, the library, and the internet for simple research projects. In preparation for transitioning to credit ESL, regular attendance, homework, and group participation are strongly encouraged.

ESLN 040L: Credit ESL Preparation - Long
0.0 Unit. 9 lecture hrs/wk. Course is repeatable.
Students in ESLN 040L continue to develop their intensive and extensive reading skills; make oral presentations; and use an English dictionary, the library, and the internet for simple research projects. In preparation for transitioning to credit ESL, regular attendance, homework, and group participation are strongly encouraged. This course meets for more hours to give more opportunity to focus on reading and writing skills.

ESLN 040LS: Low Intermediate Listening and Speaking
0.0 Unit. 4 lecture hrs/wk. Course is repeatable. Advisory: ESL Placement Test. Students should be in level 040.
In this college ESL preparation course in speaking and listening skills, students improve their spoken fluency and accuracy in English through listening comprehension, grammar, vocabulary, idioms, pronunciation and presentation skills.

ESLN 040X: Credit ESL Preparation Summer Review
0.0 Unit. 1.5 lecture hrs/wk. Course is repeatable.
This short Credit ESL Preparation summer course offers a chance to review grammar points learned during the year, and/or to focus on reading, vocabulary development, or interactive communication skills.

ESLN 053: Intermediate ESL: Writing and Grammar
0.0 Unit. 4 lecture hrs/wk. Course is repeatable. Advisory: ESL Placement Test.
This course introduces the conventions of standard written English to intermediate ESL students and reviews basic grammar structures. Emphasis is placed on sentence structure and the correct use of tenses.

ESLN 054: Intermediate ESL: Grammar
0.0 Unit. 3 lecture and 1 TBA hrs/wk. Course is repeatable. No prerequisite. Advisory: ESL Placement Test.
This course reviews basic grammar structures for intermediate ESL students, with emphasis on verb tenses.

ESLN 056: Intermediate ESL: Words I (Vocabulary/Spelling/Reading/Discussion)
0.0 Unit. 4 lecture hrs/wk. Course is repeatable. Advisory: ESL Placement Test.
This course is designed to improve the reading comprehension and vocabulary usage of nonnative speakers of English. The course includes reading skills, study skills, short stories, and the reading of short novels.

ESLN 058A: Pronunciation for Non-Native English Speakers I
0.0 Unit. 2 lecture hrs/wk. Course is repeatable.
This course provides ESL students the opportunity to improve their production of standard American English. Students practice the consonant phoneme system and the rhythm of the language, including syllable count and stress patterns, to become more intelligible and to gain understanding of spoken English.

ESLN 058B: Pronunciation for Non-Native English Speakers II
0.0 Unit. 2 lecture hrs/wk. Course is repeatable.
This course provides ESL students the opportunity to improve their production of standard American English. Students practice the vowel phoneme system in words, phrases and in discourse. They practice stress and intonation patterns, linking, assimilation, and prominence to become more intelligible and to gain understanding of spoken English.

ESLN 059: Review of Low Intermediate ESL
0.0 Unit. 3.375 lecture hrs/wk. Course is repeatable.
This review course is designed for students who have completed or are in the process of completing the ESL 50 or 60 level, or for students who, through the ESL Placement test, have qualified for the ESL 60 level.
ESLN 060: Intermediate ESL: Listening and Speaking
0.0 Unit. 3 lecture hrs/wk. Course is repeatable.
This intermediate course in listening and speaking communication skills is recommended for students enrolled in ESL 50-level or 60-level courses. Students are introduced to the formal and informal speaking and listening skills to provide a bridge to educational and career opportunities.

ESLN 063: High Intermediate ESL: Writing and Grammar
0.0 Unit. 4 lecture hrs/wk. Course is repeatable.
This course is suitable for the high intermediate student with a good foundation in English grammar and writing. There is an emphasis on grammatical accuracy and on writing a logical sequence of sentences in organized paragraphs. Completion of all 50-level ESL courses or the appropriate score on the ESL Placement Test is recommended.

ESLN 064: High Intermediate ESL: Grammar
0.0 Unit. 3 lecture hrs/wk. Course is repeatable.
This grammar course is designed to improve language skills for high-intermediate speakers of ESL. Requires one hour weekly to be arranged in the ESL lab. Recommended completion of all 50-level ESL classes. (See time chart in schedule for ESL lab.)

ESLN 066: High Intermediate ESL: Words II (Vocabulary/Spelling/Reading/Discussion)
0.0 Unit. 4 lecture hrs/wk. Course is repeatable.
This course provides high intermediate ESL students with practice reading stories and short novels, newspapers and other non-fiction materials. Students are introduced to academic reading and study skills, and learn to use various resources available at the COM library. Completion of all 50-level ESL courses is recommended.

ESLN 068: American Topics
0.0 Unit. 2 lecture hrs/wk. Course is repeatable.
This course helps students understand important American topics, past and present, through lecture, reading, and discussion. Examples of topics include the education system, the American Dream, drugs and drug treatment.

ESLN 073: Low Advanced ESL: Writing and Grammar
0.0 Unit. 4 lecture hrs/wk. Course is repeatable.
In this course, low advanced ESL students review paragraph writing and are introduced to the essay. Intermediate and advanced grammar structures and punctuation are reviewed. Completion of all 60-level ESL courses or the appropriate score on the ESL placement test is recommended.

ESLN 074: Low Advanced Grammar for ESL Students
0.0 Unit. 3 lecture hrs/wk. Course is repeatable.
This course is designed for low advanced ESL students who need to refine their understanding of grammar. Recommended completion of all 60-level ESL courses.

ESLN 076: Low Advanced ESL: Words III (Vocabulary/Spelling/Reading/Discussion)
0.0 Unit. 4 lecture hrs/wk. Course is repeatable.
This course is designed to improve the reading comprehension and academic vocabulary of low advanced non-native speakers of English. This course includes reading skills, study skills, novel reading, and library research projects. Recommended completion of all 60-level ESL courses.

ESLN 079: Review of Intermediate ESL
0.0 Unit. 3.375 lecture hrs/wk. Course is repeatable.
This review course is designed for ESL students at the low advanced level who have completed or are in the process of completing the ESL 70 or 80 level, or for students who, through the ESL Placement test, have qualified for the ESL 80 level.

ESLN 080: Advanced ESL: Listening and Speaking (Social/Academic/Workplace)
0.0 Unit. 3 lecture hrs/wk. Course is repeatable. Completion of all 70-level ESL courses recommended.
This course in listening and speaking skills is recommended for low-advanced to advanced ESL students. It helps students improve the listening and speaking skills necessary to participate in college, workplace and everyday life situations. Students practice listening and note-taking skills, conduct interviews, give presentations and lead discussion sessions.

ESLN EFCW: English as a Second Language for Childcare Workers
0.0 Unit. Course is repeatable. Advisory: ESL Placement Test.
This class is for high-beginning to low-intermediate ESL students who need to improve their English skills to care for infants and young children and communicate with co-workers and parents in daycare centers and pre-schools. Students learn vocabulary and grammar related to child development and caregiving activities; improve pronunciation; read books, play games and sing songs; learn effective language to help children set limits and solve problems; practice clarifying instructions and communicating information; discuss health and safety; complete job-related forms; learn to describe job experience and fill out a job application; and become aware of resources for future learning. Students may observe childcare centers and share their findings in class.

ESLN EFG: English as a Second Language for Gardeners
0.0 Unit. Course is repeatable. Advisory: ESL Placement Test.
This class is for high-beginning to low-intermediate ESL students working or planning to work in landscaping. The course goal is twofold: it covers basic landscaping content, and students learn language and cultural expectations necessary for success on the job. Topics include practicing the English needed to discuss plant and pest management, common plant identification and employment issues. The class offers hands-on experience, role plays for language use, new vocabulary and pronunciation instruction.

ESLN LIT: ESL Literacy
0.0 Unit. 4 lecture hrs/wk. Course is repeatable.
This course introduces beginning English learners to the basic English writing system, numbers, etc. It develops reading skills through sight words, phonics, and storytelling.
ESLN NCLAB: ESL Noncredit Lab
0.0 Unit. 8 lab hrs/wk. Course is repeatable. Advisory: ESL Placement Test.
The ESL Lab is a self-paced, individualized, open-entry/open-exit course. Students use ESL software, audio tapes, videos and reading material to develop their skills in English.

ESLN PRON: Noncredit ESL Pronunciation
0.0 Unit. 2 lecture hrs/wk. Course is repeatable. Advisory: ESL Placement Test. Students should be in levels 020-040
This course provides Noncredit ESL students from ESLN Levels 020-040 with practice in English pronunciation. The primary goal is to help ESL students to be understood when they are speaking English. This includes learning how to listen to English in order to acquire better pronunciation and intonation skills. Students work on (a) individual sounds, (b) the sounds in context in sentences, and (c) sentence rhythm and stress employing the same sounds.

ESLV 001: ESL for Customer Service Jobs
0.0 Unit. 3 lecture hrs/wk. Course is repeatable. No prerequisite.
This class is for anyone who would like to improve their customer service skills and learn the most professional customer service language for all industries, emphasizing the language and techniques of the hotel, restaurant, and retail fields.

ESLV 002: ESL for Housekeepers and Custodians
0.0 Unit. 3 lecture hrs/wk. Course is repeatable. No prerequisite.
This course is designed for students who are presently working as housekeepers or janitors in private homes, hotels, or buildings, or those who are seeking positions in those fields. The class will emphasize and demonstrate the specific English language skills required for success and advancement in those fields. The course will teach language suitable for real-world housekeeping situations and will include actual hands-on experiences with cleaning situations. The class is most suitable for students at the high beginning (ESLN 20) and higher levels.

ESLV 003: Communication Skills for Healthcare Workers
0.0 Unit. 3 lecture hrs/wk. Course is repeatable. No prerequisite.
This course is designed for healthcare workers and others interested in healthcare fields. The focus will be on the language skills necessary to function in a medical/dental environment. Emphasis is on social and cultural skills for successful interaction with patients and co-workers.

ESLV 004: English for Childcare A
0.0 Unit. 3 lecture hrs/wk. Course is repeatable. No prerequisite. Advisory: ESLN 20, 25, or 30.
This class is for high beginning English language learners who as parents, babysitters, and childcare workers need to be able to communicate with young children, co-workers, and parents. Students develop vocabulary and grammar needed for communication in basic care-giving activities. They improve reading and pronunciation skills through children's books, games, and songs.

ESLV 005: English for Childcare B
0.0 Unit. 3 lecture hrs/wk. Course is repeatable. No prerequisite. Advisory: ESLN 35 or above.
This class is for intermediate English language learners who as parents, babysitters, and childcare workers need to be able to communicate with young children to help them set limits, solve problems, and give, ask for, and clarify information or instructions from co-workers and parents. Students develop vocabulary and grammar needed for communication in basic care-giving activities. They improve reading and pronunciation skills through children's books, games, and songs. Health and safety issues are covered.

ESLV 006: ESL-ECE Bridge Class A
0.0 Unit. 3 lecture hrs/wk. Course is repeatable. No prerequisite. Advisory: ESL levels 40-60.
This course is designed to prepare students interested in the Early Childhood Education program for classes which are only offered in English. Note: the course is intended as a supplement, not a replacement, to the regular credit ESL program. Students learn to observe and describe child behavior orally and in writing using early childhood development vocabulary, practice finding main ideas and support in selections from related textbooks, and develop communication skills and good study habits.

ESLV 007: ESL-ECE Bridge Class B
0.0 Unit. 3 lecture hrs/wk. Course is repeatable. No prerequisite. Advisory: ESL levels 50-70.
This is the second-level course designed to prepare students interested in the Early Childhood Education Program for classes which are only offered in English. Note: It is intended as a supplement (not a replacement) to the regular credit ESL program. Students improve their pronunciation and use of Early Childhood Education vocabulary to describe child interaction, supervision and guidance strategies orally and in writing. Students discuss and practice different types of written assignments and read unadapted passages from Early Childhood Education textbooks.

ESLV 008: ESL for Gardeners
0.0 Unit. 1.5 lecture hrs/wk. Course is repeatable. No prerequisite. Advisory: ESLN 20.
This course is for low intermediate to intermediate ESL students working or planning to work in gardening or landscaping. Students learn language and cultural expectations necessary to communicate in English with employers, customers, co-workers and emergency medical care providers. The course includes work on accent correction.

ESLV 012: ESL for Employment: Reading and Writing Emphasis
0.0 Unit. 2 lecture hrs/wk. Course is repeatable. No prerequisite.
This course, for those interested in finding and retaining employment, focuses on developing the language skills necessary to identify a job and pursue the written application process. Assignments include completing a master application, an online application, writing a resume and list of references, a cover letter, and thank-you note.
ESLV 014: ESL for Employment: Listening and Speaking Emphasis
0.0 Unit. 2 lecture hrs/wk. Course is repeatable. No prerequisite.
This course, for those interested in finding and retaining employment, focuses on developing the language skills necessary to find work. Emphasizes the oral and listening skills required to interact effectively in applying for a job, participate in an oral interview, and accept employment.

ESLV 015: ESL for Employment: Job Search Skills
0.0 Unit. 3 lecture hrs/wk. Course is repeatable. No prerequisite.
This course is designed for those interested in finding and retaining employment, focusing on developing the language skills necessary to identify a job, pursue the written application process, participate in an oral interview, and accept employment. Assignments include completing a master application, an online application, writing a resume and list of references, a cover letter, and thank-you note.

ENGLISH AS A SECOND LANGUAGE CREDIT COURSES (ESL)

ESL 040L: Low Intermediate ESL Skills Lab
0.5-1 Unit. 1.5 lab hrs/wk. Repeat: 3. No prerequisite. 1.5 laboratory hours weekly for 0.5 student unit, or three laboratory hours weekly for one student unit.
ESL students improve their English in this interactive computer-based multimedia course. This lab offers low intermediate students the opportunity to practice their listening, pronunciation, speaking, vocabulary, and grammar skills in a self-paced laboratory environment. American culture and ESL life skills are included.

ESL 053: Intermediate ESL: Writing and Grammar
2.0 Units. 4 lecture and 1 lab hrs/wk. No prerequisite. Advisory: ESL Placement Test.
This course introduces the conventions of standard written English to intermediate ESL students and reviews basic grammar structures. Emphasis is placed on sentence structure and the correct use of tenses.

ESL 054: Intermediate ESL: Grammar
1.5 Units. 3 lecture and 1 TBA hrs/wk. No prerequisite. Advisory: ESL Placement Test.
This course reviews basic grammar structures for intermediate ESL students. Emphasis is placed on the verb tenses.

ESL 056: Intermediate ESL: Words I (Vocabulary, Spelling, Reading, and Discussion)
2.0 Units. 4 lecture hrs/wk. No prerequisite. Advisory: ESL Placement Test.
This course improves the reading comprehension and vocabulary usage of non-native speakers of English. This course includes reading skills, study skills, short stories and the reading of short novels.

ESL 058A: Pronunciation for Non-Native English Speakers I
2.0 Units. 2 lecture hrs/wk. No prerequisite. Advisory: ESL Placement Test.
This course provides ESL students the opportunity to improve their pronunciation of standard American English. Students practice the sound system and the rhythm of the language, including syllable count and stress patterns, to become more intelligible and to gain understanding of spoken English.

ESL 058B: Pronunciation for Non-Native English Speakers II
2.0 Units. 2 lecture hrs/wk. No prerequisite. Advisory: ESL Placement Test.
This course provides ESL students the opportunity to improve their pronunciation of standard American English. Students practice the vowel phoneme system in words, phrases, and in discourse; stress and intonation patterns; linking; assimilation; and prominence to become more intelligible and to gain understanding of spoken English.

ESL 059: Review of Intermediate ESL
3.0 Units. 3.375 lecture hrs/wk. No prerequisite. Advisory: ESL Placement Test.
This review course is designed for ESL students who have completed or are in the process of completing the ESL 50 or 60 level, or for ESL students who, through the ESL Placement Test, have qualified for the ESL 60 level.

ESL 060: Intermediate ESL: Listening and Speaking
3.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: ESL Placement Test or completion of ESL 40L.
An intermediate course in listening and speaking communication skills recommended for students enrolled in ESL 50-level or 60-level courses. Students are introduced to formal and informal speaking and listening skills to provide a bridge to educational and career opportunities.

ESL 063: High Intermediate ESL: Writing and Grammar
4.0 Units. 4 lecture and 1 TBA hrs/wk. No prerequisite. Advisory: ESL Placement Test or completion of all 50-level ESL courses.
This course is suitable for the high intermediate student with a good foundation in English grammar and writing. The class emphasizes grammatical accuracy and writing a logical sequence of sentences in organized paragraphs. Requires one hour weekly to be arranged in the ESL Lab.

ESL 064: High Intermediate ESL: Grammar
3.0 Units. 3 lecture and 1 TBA hrs/wk. No prerequisite. Advisory: ESL Placement Test or completion of all 50-level ESL courses.
This grammar course is designed to improve the language skills of high intermediate ESL students. Requires one hour weekly to be arranged in the ESL Lab.

ESL 066: High Intermediate ESL: Words II (Vocabulary/Spelling/Reading/Discussion)
4.0 Units. 4 lecture hrs/wk. No prerequisite. Advisory: ESL Placement Test or completion of all 50-level ESL courses.
This course provides high intermediate ESL students with practice reading stories, short novels, newspapers and other non-fiction materials. Students are introduced to academic reading and study skills, and learn to use the resources available at the COM Library.

ESL 068: American Topics
2.0 Units. 2 lecture hrs/wk. Repeat: 3. No prerequisite.
This course helps students understand important American topics, past and present, through lectures, reading, and discussion. Ex-
The courses are designed to meet the needs of both the home or professional landscaper, farmer, or gardener. The field is appealing to those wanting to work in outdoor occupations, as well as those who lead discussion sessions.

ESL 070: Advanced Pronunciation through Performance
2.0 Units. 2 lecture hrs/wk. No prerequisite. Advisory: ESL Placement Test and completion of ESL 58A and 58B or ESL 60.
This course in advanced pronunciation is recommended for intermediate and advanced English learners. Students improve their listening and speaking through performance with skills necessary for communication in English in and out of the classroom.

ESL 073: Low Advanced ESL: Writing and Grammar
4.0 Units. 4 lecture and 1 TBA hrs/wk. No prerequisite. Advisory: ESL Placement Test or completion of all ESL 60-level courses.
In this course, low advanced ESL students review paragraph writing and are introduced to the essay. Intermediate and advanced grammar structures and punctuation are reviewed.

ESL 074: Low Advanced ESL: Grammar
3.0 Units. 3 lecture and 1 TBA hrs/wk. No prerequisite. Advisory: ESL Placement Test or completion of all 60-level ESL courses.
This course is designed for low advanced ESL students who need to refine their understanding of grammar.

ESL 076: Low Advanced ESL: Words III (Vocabulary/Spelling/Reading/Discussion)
4.0 Units. 4 lecture hrs/wk. No prerequisite. Advisory: ESL Placement Test or completion of all ESL 60-level courses.
This course improves the reading comprehension and academic vocabulary of low advanced non-native speakers of English. This course includes reading skills, study skills, novel reading, and library research projects.

ESL 078: Current Events for ESL Students
2.0 Units. 2 lecture hrs/wk. No prerequisite. Advisory: ESL Placement Test or completion of all ESL 60-level courses.
This course introduces students to current events, with attention given to contemporary local, national, and international events, using newspapers, magazines, television, films, and radio. Students develop greater awareness of global issues, applying the academic skills they have learned in previous and concurrent ESL classes.

ESL 079: Review of Low Advanced ESL
3.0 Units. 3.375 lecture hrs/wk. No prerequisite. Advisory: ESL Placement Test.
This review course is designed for ESL students at the low advanced level, who have completed or are in the process of completing the ESL 70 or 80 level, or for ESL students who, through the ESL Placement Test, have qualified for the ESL 80 level.

ESL 080: Advanced ESL: Listening and Speaking for Social, Academic and Workplace Situations
3.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: ESL Placement Test or completion of all ESL 70-level courses.
This course in listening and speaking skills is recommended for low-advanced to advanced ESL students. It helps students improve the listening and speaking skills necessary to participate in college, workplace and everyday life situations. Students practice listening and note taking skills and conduct interviews, give presentations and lead discussion sessions.

ESL 083: Advanced ESL: Writing and Grammar
4.0 Units. 4 lecture and 1 TBA hrs/wk. No prerequisite. Advisory: ESL Placement Test and completion of all 70-level ESL courses.
This ESL course is suitable for the advanced student with a strong foundation in English grammar and writing. The course is designed to review and build upon grammar and writing skills, enabling the student to function in academic courses.

ESL 084: Advanced ESL: Grammar
3.0 Units. 3 lecture and 1 TBA hrs/wk. No prerequisite. Advisory: ESL Placement Test and completion of all 70-level ESL courses.
This course is designed for advanced ESL students who need to refine their understanding of grammar for academic writing.

ESL 086: Advanced ESL: Vocabulary and Reading Skills
4.0 Units. 4 lecture hrs/wk. No prerequisite. Advisory: ESL Placement Test or completion of all 70-level ESL courses.
This course is designed to help advanced ESL students improve reading comprehension and develop academic vocabulary. It also improves study skills for more effective reading of textbooks and other material, including short fiction.

ESL 088: Editing for ESL Students
2.0 Units. 2 lecture hrs/wk. No prerequisite. Advisory: concurrent enrollment in ESL 083, ENGL 98SL, ENGL 120SL, or other composition courses.
This course is designed for ESL students enrolled in advanced writing courses; students learn to identify and correct errors of syntax, logic and structure in their own writing at the final draft stage. Areas of concentration include common errors in shifting tenses, grammar, punctuation, logical organization, and paragraph/essay structure.

ENVIRONMENTAL LANDSCAPING

Environmental landscaping is more than making the world around us a beautiful place. It’s about creating environments that function practically and in harmony with nature. It’s growing plants, establishing organic farms, designing spaces, and installing landscapes.

The courses are designed to meet the needs of both the home and professional landscaper, farmer, or gardener. The field is appealing to those wanting to work in outdoor occupations, as well as those who like to work with high-tech equipment. This curriculum is designed so that graduates, depending on their interest, abilities, and achievement, may qualify for employment in a wide variety of careers.

Career Options
Arboriculture (Tree Care), Commercial Landscape Management, Environmental Planning, Interiorscape Design and Maintenance, Landscape Design and Installation, Landscape Irrigation, Organic Farming, Park Supervising, Residential and Estate Maintenance

Faculty
Fernando Agudelo-Silva
Department Phone: 415-457-8811, Ext. 8200
A.S. IN ENVIRONMENTAL LANDSCAPING: LANDSCAPING, ORGANIC FARMING AND GARDENING
(Certificate of Achievement also awarded)

This curriculum is designed so that graduates, depending on their interests, abilities, and achievement, may qualify for employment in a wide variety of careers.

The Associate in Science degree is awarded for completion of all requirements in the core program and completion of general education and graduation requirements. Students who complete only the required courses for the major will receive a Certificate of Achievement. Additional Certificates of Achievement are available in the ELND areas of Landscape and Garden Design and Landscape, Organic Farm, and Garden Production. Note: Students are required to complete English 150 for the associate degree. All students should consult a counselor.

REQUIREMENTS UNITS
---
ELND 109S Principles and Practices of Organic Farming and Gardening - Spring 3  
Or
ELND 109F Principles and Practices of Organic Farming and Gardening - Fall 3
ELND 115S Plant Identification, Selection, and Propagation - Spring 3
ELND 115F Plant Identification, Selection, and Propagation - Fall 3
ELND 150 Integrated Pest Management in Landscapes, Farms, and Gardens 3
ELND 160 Soil: Ecology and Management 3
ELND 190 Irrigation of Landscapes, Farms, and Gardens 3
TOTAL MAJOR UNITS 18

CERTIFICATE OF ACHIEVEMENT IN ENVIRONMENTAL LANDSCAPING: LANDSCAPE AND GARDEN DESIGN

REQUIREMENTS UNITS
---
ELND 101 Introductory Principles of Sustainable Landscapes, Farms and Gardens 3
ELND 115S Plant Identification, Selection, and Propagation - Spring 3
ELND 115F Plant Identification, Selection, and Propagation - Fall 3
ELND 120A Landscape Ecology 1.5
ELND 120B Landscape Ecology 1.5
ELND 140 Introductory Principles of Sustainable Landscape Design 3
ELND 160 Soil: Ecology and Management 3
TOTAL CERTIFICATE UNITS 18

CERTIFICATE OF ACHIEVEMENT IN ENVIRONMENTAL LANDSCAPING: LANDSCAPE, ORGANIC FARM, AND GARDEN PRODUCTION

REQUIREMENTS UNITS
---
ELND 109F Principles and Practices of Organic Farming and Gardening - Fall 3
ELND 109S Principles and Practices of Organic Farming and Gardening - Spring 3
ELND 120A Landscape Ecology 1.5
ELND 120B Landscape Ecology 1.5
ELND 150 Integrated Pest Management in Landscapes, Farms, and Gardens 3
ELND 160 Soil: Ecology and Management 3
ELND 190 Irrigation of Landscapes, Farms and Gardens 3
TOTAL CERTIFICATE UNITS 18

ENVIRONMENTAL LANDSCAPING COURSES (ELND)

ELND 101: Introductory Principles for Sustainable Landscapes, Farms and Gardens  
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite.  
An introductory foundation in the practices of sustainable landscaping, farming, and gardening. This course is important for anyone interested in using agricultural resources in an ecologically sound way. It covers key concepts for the development and installation of farms, gardens, or landscapes according to principles of ecological sustainability, and includes concepts such as site analysis, plant selection, soils, and economic and social considerations. (CSU)

ELND 109F: Principles and Practices of Organic Farming and Gardening - Fall  
3.0 Units. 2 lecture and 3 TBA hrs/wk. No prerequisite.  
Academic study and hands-on training in the basic skills and procedures of organic farming and gardening. Topics include applied soil science, management of long-term soil fertility, establishment of greenhouse systems and applicable methods of plant propagation, a review of basic botany for gardeners, site analysis, and Fall plant selection. (CSU)

ELND 109S: Principles and Practices of Organic Farming and Gardening - Spring  
3.0 Units. 2 lecture and 3 TBA hrs/wk. No prerequisite.  
Academic study and hands-on training in the basic skills and procedures of organic farming and gardening. Topics include applied soil science, managing long-term soil fertility, establishment of greenhouse systems and applicable methods of plant propagation, a review of basic botany for gardeners, site analysis, and Spring plant selection. (CSU)

ELND 115F: Plant Identification, Selection and Propagation - Fall  
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite.  
This course focuses on plants adapted to our climate to create appropriate, sustainable gardens and landscapes. It includes discussions of specific plants, walks in varied landscapes, field trips to local botanical gardens, and demonstrations of seasonal selection of planting materials. (CSU)

ELND 115S: Plant Identification, Selection and Propagation - Spring  
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite.  
This introductory course familiarizes students with appropriate plants for Bay Area gardens and landscapes. It features live specimens, in-depth lectures, and field trips. Each plant is discussed with details of name, origin, habitat, growth pattern, size, cultural requirements, methods of propagation, and botanical descriptions. (CSU)
ELND 116F: California Plant Identification, Selection and Propagation - Fall
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite.
This course explores many facets of California native plants, including propagation, selection, design, uses, cultural needs, ecological adaptations, and identification of important species. The course focuses on fall-blooming and fruiting species, and is important in determining appropriate landscape and urban garden concepts for sustainable gardens throughout the Bay Area and beyond. (CSU/UC)

ELND 116S: California Plant Identification, Selection and Propagation - Spring
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite.
This course explores many facets of California native plants, including propagation, selection, design, uses, cultural needs, ecological adaptations, and identification of important species. The course focuses on spring establishment of native plants, and is important in determining appropriate landscape and urban garden concepts for sustainable gardens throughout the Bay Area and beyond. (CSU/UC)

ELND 120A: Landscape Ecology
1.5 Units. 1.5 lecture hrs/wk. Repeat: 1. No prerequisite.
This class, essential for anyone interested in ecologically sound gardening and landscaping, covers evolution of ecological concepts, structure and function of plant ecosystems, factors that regulate plant communities, the effects of climate on plant communities, and their relevance for gardening and landscaping. This short class is the first half of a two-class sequence on plant ecology. (CSU)

ELND 120B: Landscape Ecology
1.5 Units. 1.5 lecture hrs/wk. No prerequisite.
This class, essential for anyone interested in ecologically sound gardening and landscaping, covers ecological interactions that regulate plant communities such as biogeochemical cycles, predation, parasitism, disease, competition, and their relevance for gardening, landscaping and ecological studies. This short class is the second half of a two-class sequence on plant ecology. (CSU)

ELND 140: Introductory Principles of Sustainable Landscape Design
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite.
This course covers trends and principles of landscape design, landscape drawing, basic site analysis, plant traits, and sustainability considerations. (CSU)

ELND 150: Integrated Pest Management in Landscapes, Farms and Gardens
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite.
This course covers principles of Integrated Pest Management (IPM), applied to manage a wide variety of life forms including insects, mites, microbes, and unwanted vegetation in landscapes, farms, and gardens. It includes arthropod, microbe and unwanted plant identification, and strategies, tools, and techniques to reduce their impact on plants. The course addresses cultural, biological, and chemical management methods. (CSU)

ELND 160: Soil: Ecology and Management
3.0 Units. 2.5 lecture and 1.5 lab hrs/wk. No prerequisite. Can be taken as BIOL 160 or ELND 160; credit awarded for only one course.
This class explores how soil forms and develops, its physical and biological components, and their interrelationships. Topics include a historical review of soil/human interactions, soil formation from parent material, classification, physical properties such as texture and structure, life forms found in the soil and their interrelationships, relationships between soil properties and soil’s ability to support plant growth, and approaches to use soil in a sustainable manner. (CSU/UC) CSU Area B-1, IGETC Area 5A

ELND 170: Landscape, Farm and Garden Construction
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite.
This course surveys materials and techniques used in the construction of landscapes, farms, and gardens. Topics include irrigation, drainage, and soil amendments. Students learn to read and interpret plans and specifications, as well as elementary surveying and grade interpretation. The course also provides information necessary for the California Landscape Contractors examination. (CSU)

ELND 180: Landscape, Farm and Garden Estimating and Management
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. Advisory: ELND 170.
A study of business practices related to the construction of landscapes, farms, and gardens. Includes publications for new jobs, site evaluation, landscape plans (design), and specifications. Topics include office and business practices for the landscape contracting industry, bid document breakdowns, price comparison, capital expenditures, preparation of bid documents, subcontracting, certificates of insurance, lien notices, and as-built drawings. (CSU)

ELND 190: Irrigation of Landscapes, Farms and Gardens
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite.
This class covers topics essential to providing water, in an ecologically sensitive manner, to plants in farms, gardens, and landscapes. Concepts include soil/water/plant/weather relationships, basic hydraulics, site information, irrigation requirements, and the design and installation of diverse types of irrigation systems. (CSU)

ELND 201: Special Topics in Landscape Design
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. Advisory: A drafting course or an introductory course in landscape design.
This class explores current and specialized landscape design. Topics include current design trends in light of ecological, social, economic and technology circumstances. (CSU)

ELND 202: Specialized Landscape Construction Projects
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite.
This class explores specialized aspects of landscape materials and construction. Topics include tools, techniques, materials (such as wood, stone, brick, tile and concrete), and processes necessary to build a wide variety of structures in landscapes. Students participate in class projects to build diverse structures utilized in gardens and landscapes. (CSU)
ENVIRONMENTAL SCIENCE

Faculty
Fernando Agudelo-Silva, Becky Brown, Paul da Silva, Joseph Mueller
Department Phone: 415-485-9510

ENVIRONMENTAL SCIENCE COURSES (ENVS)

ENVS 138: Introduction to Environmental Sciences
4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite. Can be taken as ENVS 138 or BIOL 138; credit awarded for only one course.
This science-based course takes an interdisciplinary approach to understanding the environmental crisis that confronts us all. Discussions focus on understanding ecosystem services, how humans interfere with earth's life support systems, and how to deal with the environmental problems we face. Field studies may include visits to restoration projects, local ecosystems, and local environmental conferences. (CSU/UC) AA/AS Area A, CSU Area B-1 or B-2 & B-3, IGETC Area 5A or 5B

ENVS 141: Global Climate Change: Science, Impact and Solutions
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as BIOL 141, ENVS 141, or GEOG 141; credit awarded for only one course.
This course introduces scientific, ecological, and economic issues underlying the threat of global climate change. It also develops an integrated approach to analysis of climate change processes, and an assessment of proposed policy measures to develop solutions. (CSU)

ENVS 142: Environmental Policy and Decision-Making
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as ENVS 142, BIOL 142, or GEOL 142; credit awarded for only one course.
Environmental policy and subsequent regulation is one way of managing the relationship between human activities and their effects on natural ecosystems. This course is a study of federal, state, and local environmental legislation and its history. The course chronicles America's awakening to environmental issues and the ways in which decisions affecting the environment occur. The content of the course is vital to environmental policymakers, scientists, and advocates. (CSU/UC)

ENVS 143: Stewardship of Marin Parks and Open Spaces
4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite. May be taken as ENVS 143 or BIOL 143; credit awarded for only one course.
Besides making Marin a desirable place in which to live and travel, its nonurbanized park and open space areas carry with them a great responsibility: preservation and enhancement of their best qualities for present and future generations. Fulfilling this responsibility involves a diverse mix of philosophical, legislative, biological, sociological and logistical challenges. The course includes essential background material, interviews with current management personnel, and field visits to parkland and open space areas of special interest. (CSU)

ENVS 147: Food, People, Health and the Environment
4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite. May be taken as ENVS 147 or BIOL 147; credit awarded for only one course.
This course examines the past, present and future of the global food system; inputs, outputs, and practices of agriculture, the chief method for securing food from the environment and the basis of human civilization; and the distribution, accessibility, and consumption of food by people throughout the world. The class presents possible solutions to some of the most pressing problems facing the human race as we struggle to feed ourselves and be healthy, while enhancing our overall environment. (CSU/UC)

ENVS 148: Marin County Agriculture
4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite. May be taken as ENVS 148 or BIOL 148; credit awarded for only one course.
This course focuses on one of Marin County's most significant human activities in terms of use of land and other natural resources, preservation of a valuable way of life, generation of economic benefits and formation of the unique character of the local environment. It offers a general agricultural overview; historical background and explanation of important biological, social and economic processes; and insights provided by current Marin County agricultural systems including beef and dairy, poultry, shellfish, flowers, fruits and vegetables, from planning and production through marketing and consumption. Includes field trips to notable local farms. (CSU)

ENVS 150: Environmental Science Seminar and Fieldwork
3.0 Units. 1 lecture and 6 lab hrs/wk. Repeat: 1. Prerequisite: BIOL 138 or GEOL 138. May be taken as ENVS 150 or BIOL 150; credit awarded for only one course.
This overview of the career options in environmental science introduces potential employers in the field and provides firsthand experience of working to solve environmental problems. After receiving general career information, students work with community agencies or organizations according to procedures established by mutual agreement. Students meet in class on campus for initial orientation, to discuss progress during the semester, and to present results of their experiences at the end. (CSU)
ETHNIC STUDIES

The Ethnic Studies course offerings are intended for those who desire a deeper understanding of American minority peoples and their communities. Students receive a unique, interdisciplinary educational experience with courses emphasizing the historical and philosophical impact of the cultures of African American, Hispanic American, Asian American, and American Indian peoples, and their contributions to the culture of the United States.

Career Options
Art Historian, Biographer, Curriculum Developer, Education Administrator, Environmental Studies, Global Studies, Historian, International Affairs, Journalist, Librarian, Market Research Analyst, News Analyst, Research Specialist, Teacher, Writer

Faculty
Walter B. Turner
Department Phone: 415-485-9630

ETHNIC STUDIES COURSES (ETST)

ETST 108: History of Arts of the Americas
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as ETST 108, Art 108, or HUM 108; credit awarded for only one course.
This course covers a selection of the art and visual culture of the Americas: North, Central, and South America, and the Caribbean. Art of the United States focuses on works from the culturally diverse peoples of the Bay Area. (CSU/UC) AA/AS Area C & G, CSU Area C-1, IGETC Area 3A

ETST 110: Introduction to Ethnic Studies
3.0 Units. 3 lecture hrs/wk. No prerequisite.
A survey course designed to promote academic and professional knowledge of, and sensitivity to, historical and cultural developments important to understanding ethnic groups and their experiences in the United States. Students examine the specific historical and contemporary legacies of race, class, prejudice, diversity, and immigration. The course introduces topics such as multiculturalism, ethnocentrism, cultural relativism, and migration. (CSU/UC) AA/AS Area B & G, CSU Area D-3, IGETC Area 4C

ETST 111: History of African Americans (A)
3.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: ENGL 120. Please note: ETST 111 is not a prerequisite for ETST 112. A historical survey of the African/African American experience from developments on the African continent to the beginning of the twentieth century in American history. The course explores Nile Valley cultures, the influences of trade and Islam, European-African interactions, Caribbean and South American developments, slavery in North America, the Civil War, Reconstruction, and the growth of a distinctive African American culture. (CSU/UC) AA/AS Areas B or F & G, CSU Area D-3 or D-6, IGETC Area 4C, CSU US History, Constitution, and American Ideals

ETST 112: History of African Americans (B)
3.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: ENGL 120. Please note: ETST 111 is not a prerequisite for ETST 112. This historical survey of the African American experience in the United States from the American Revolution to the twenty-first century focuses on the history, social movements, and political aspirations of African Americans in the context of American history. Emphasizes the African Diaspora, Black Nationalism, the development of independent separate institutions, and the historical background to the civil rights movement. (CSU/UC) AA/AS Areas B or F & G, CSU Area D-3 or D-6, IGETC Area 4C, CSU US History, Constitution, and American Ideals

ETST 121: History of Latinos in the United States
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This historical survey of the Latino/Latina experience in North America from pre-Columbian experiences through the contemporary era focuses on the development of a distinctive Latino culture and its political, social, and economic manifestations in the context of American history. (CSU/UC) AA/AS Areas B or F & G, CSU Area D-3 or D-6, IGETC Area 4C, CSU US History, Constitution, and American Ideals

ETST 125: Research Methods and Term Papers in Ethnic Studies
3.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: Eligibility for ENGL 150. Can be taken as ECON 125, ETST 125, HIST 125, POLS 125, or SSC 125; credit awarded for only one course.
This course focuses on the elements of critical thinking and methods of research in the social sciences and develops skills required to organize such thought and research into effective, college level presentations. Students are encouraged to select areas of research from other courses taken during the semester or from areas of special interest including politics, history, economics, education, women's studies, ethnic studies, current issues, and issues of community concern. (CSU/UC)

ETST 128: Art Field Trips
1-4 Units. 0.75 lecture and 0.75 lab hrs/wk. Repeat: 3. No prerequisite. Can be taken as Art 128, ETST 128, or HUM 128; credit awarded for only one course.
A complement to art history and studio art courses, this course allows students to experience the art and architecture of sites like New York, Mexico City, and Rome first-hand. Pre-trip lectures set up background for an intensive field trip(s) that may include visits to museums, galleries, libraries, artists' studios, and to architectural and archeological sites where lecture, discussion, and personal exploration take place. May be used to bring students to a major media-specific conference. (CSU)

ETST 151: Native American History
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This introductory historical survey of Native American cultures of North America from the pre-colonial period to the present emphasizes the diversity of North American Native cultures and their social and political evolution. Key themes include issues of land, political and social interactions with European cultures, and late-twentieth century political and economic developments. (CSU/UC) AA/AS Areas B or F & G, CSU Area D-3 or D-6, IGETC Area 4C, CSU US History, Constitution, and American Ideals

ETST 154: Native American Literature
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This course surveys Native American literature and culture, focusing on the work of selected Native American authors, both poets and
fiction writers, and emphasizing the regional and cultural diversity of Native American cultures and the social issues they face. The course also develops students’ creative writing skills and their cultural sensitivity. The goal of the class is to understand the Native American experience in the context of Native American literature and the history of this American hemisphere. (CSU/UC) AA/AS Areas B or C & G, CSU Area C-2, IGETC Area 3B

FILM/VIDEO
The curriculum is designed to provide theory and skills for those who are interested in films, television and broadcast studio, whether students’ goals be transfer, professional, or self-enrichment. The production courses are hands-on, with equal emphasis on aesthetic principles and technology.

Career Options
Animator, Announcer, Broadcast Technician, Camera Operator, Disc Jockey, Engineering Technician, Film Director, Film Editor, Freelance Film Maker, Light Technician, News Broadcaster, News Director, Producer, Production Engineer, Program Assistant, Reporter, Screenwriter, Sound Editor, Sound Recorder, Sportscaster, Studio Technician, Teacher, Videotape Photographer, Writer

FILM/VIDEO COURSES (FILM; COMM)

FILM 109A: History of Film: Beginning to 1950
4.0 Units. 4 lecture hrs/wk. No prerequisite. Can be taken as FILM 109A or HUM 109A; credit awarded for only one course.
This course offers a chronological survey of narrative film as art, business, technology, and politics from the beginning of the movies in the 1890s to post World War II. Periods and movements covered include the Silent Era, German Expressionism, Soviet Avant Garde and editing of the 1920s, French classicism, American Studio Period and sound, as well as the history of censorship in the United States. Classroom screenings of representative films. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A

FILM 109B: History of Film: 1950 to Present
4.0 Units. 4 lecture hrs/wk. No prerequisite. Can be taken as FILM 109B or HUM 109B; credit awarded for only one course.
This course offers a chronological and international survey of film as art, business, technology, and as an expression of the culture and politics of the times and places from which it emerges. Topics include post-1940s film noir, neorealism, the French New Wave, “art cinema,” documentary film, national cinemas throughout the world, and independent film directors and movements in the 21st century. Classroom screenings of representative films. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A

FILM 140: Film Directing
3.0 Units. 1 lecture and 3 lab hrs/wk. No prerequisite.
In this course students learn the theory, process and practical application of directing narrative, documentary, commercial, promotional and training motion-picture projects. The focus of the class is on how the director functions in the process of casting, script breakdown, scene blocking, development and interpretation of content/scripts and crew functions. This course is for those considering a career in media or who use media for personal expression or enjoyment. (CSU)

FILM 150: Introduction to Film and Video Production
4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite.
This course is for students who are considering a career in motion-picture imaging or who want to learn about film and video production for personal enrichment. Students learn motion-picture theory and process, and use digital video, motion-picture film and computers to develop basic motion-picture imaging and visual communication skills. (CSU)

FILM 151: Video Production: Shooting on Location
3.0 Units. 2.5 lecture and 3 lab hrs/wk. No prerequisite.
In this hands-on class, students develop a basic set of video production and visual communication skills. Using small and lightweight digital video equipment, working individually and in groups, students learn how to shoot video on location for documentary,
narrative, music, experimental, interview, personal and promotional projects. (CSU)

FILM 161: Introduction to Screenwriting
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This course introduces the basics of dramatic writing, emphasizing the three-act structure of the feature film screenplay and plot logic. Students analyze feature films and screenplays for structure, pacing, and characterization; complete a treatment or outline for a feature film; and practice writing scenes in the correct format. (CSU)

FILM 162: Intermediate Narrative Story Writing for Cinema, Television, and Gaming
3.0 Units. 3 lecture hrs/wk. Repeat: 3. Prerequisite: FILM 161 or COMM 161.
In this intermediate screenwriting course, students master the conceptual, creative and technical skills needed to write feature-length screenplays. Topics include dialogue, subtext, plot logic, character motivation, and plot tightening for pacing. (CSU)

FILM 170: Workshop in Cinematography
3.0 Units. 2 lecture and 3 lab hrs/wk. Prerequisite: FILM 150 or COMM 150.
This intermediate-level class teaches techniques of cinematography and lighting via classroom instruction, exercises, and studio and location shooting on film and video. Students learn how to maintain camera and lighting equipment, and are introduced to the responsibilities of camera and lighting crew positions. (CSU)

FILM 240: Advanced Production Projects
3 Units. 3 lecture hrs/wk. Prerequisite: FILM 150 or COMM 150.
Advisories: FILM 140, 166, and 170, or COMM 140, 166, and 170.
An advanced-level seminar where students produce advanced film and video projects, work as crew on the projects of fellow students, and gain practical experience in film and video postproduction. (CSU)

COMM 140: Film Direction
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite.
The theory, process, and practical application of directing narrative, documentary, commercial, promotional, and training motion-picture projects. The class focuses on how the director functions in the process of casting, script breakdown, scene blocking, development, interpretation of script/content, and crew functions. (CSU)

COMM 161: Introduction to Screenwriting
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This course teaches the basics of dramatic writing, emphasizing the three-act structure of the feature film screenplay and plot logic. Students learn to write to create sympathy for characters, using interesting dramatic and comedic conflict, and developing a believable transformational arc for the characters. Students analyze feature films and screenplays for structure, pacing, and characterization, complete a treatment or outline for a feature film, and practice writing scenes in the correct format. (CSU)

COMM 162: Advanced Film and Television Writing
3.0 Units. 3 lecture hrs/wk. Repeat: 3. Prerequisite: COMM 161.
In this workshop-seminar course, students present original works-in-progress for rewrite suggestions. Lessons in issues of subtext, dialogue, plot motivation, development of characters’ psychological needs, and plot tightening for pacing are given. (CSU)

COMM 175: Nonlinear Editing for Film and Video
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite.
This course provides basic instruction in the theory and practical application of nonlinear editing for film and video using nonlinear workstations such as Avid and Final Cut Pro. The emphasis is on developing skills through hands-on work and practice. (CSU)

COMM 240: Advanced Production Projects
3.0 Units. 3 lecture hrs/wk. Repeat: 3. Prerequisites: COMM 140, 150, 166, and 170.
This advanced level seminar allows students to work on their second-year film projects. It includes a critical and analytical evaluation of students’ films, working as crew on other advanced students’ projects, and completing postproduction work. (CSU)

FIRE TECHNOLOGY
These courses provide occupational education and training for men and women who wish to pursue coursework in fire technology.

Department Phone: 415-883-2211, Ext. 8108

FIRE TECHNOLOGY COURSES (FIRE)

FIRE 112: Emergency Medical Technician I
7.0 Units. 5.5 lecture and 4.5 lab hrs/wk. Prerequisite: First Aid for Public Safety Personnel (FIRE 215 or KIN 215) or equivalent and CPR for Health Care Providers. Previous EMT-1, EMT-2, EMT-P accepted. Plus 4 testing hours to be arranged.
This course provides instruction in the theory and skills required for the Emergency Medical Technician (EMT-I) scope of practice, and eligibility to sit for the National Registry of Emergency Medical Technician (NREMT) certification exam. Supervised clinical experience with emergency ambulance providers and hospital emergency room is included. A health clearance, drug screening clearance, and a criminal background clearance are required by clinical agencies. (CSU) For more information, please refer to the department website: www.marin.edu/firetech.
FIRE 120A: Emergency Medical Technician-1 Refresher A
1.5 Units. 1.5 lecture and 0.5 lab hrs/wk. Repeat: 3. Prerequisite: Current EMT-1 Certification.
This course, required for recertification of EMT-1 personnel, provides didactic and skills instruction, updating students in all areas of emergency room prehospital care as contained in the EMT-1 scope of practice. (CSU)

FIRE 120B: Emergency Medical Technician-1 Refresher B
3.0 Units. 3 lecture and 1 lab hrs/wk. Repeat: 3. Prerequisite: Current EMT-1 Certification. Plus 4 testing hours to be arranged.
This course, required for recertification of EMT-1 personnel, provides didactic and skills instruction, updating students in all areas of emergency room prehospital care as contained in the EMT-1 scope of practice. (CSU)

FIRE 215: Advanced First Aid/First Responder
3.0 Units. 2.5 lecture and 1.5 lab hrs/wk. No prerequisite. May also be taken as KIN 215; credit awarded for only one course.
This introductory course is designed for lay persons interested in, or for professionals who require, First Responder training per State of California (Title 22) or U.S. DOT standards. The class teaches the basic pre-hospital care skills needed to render care at the scene of an emergency until more highly trained emergency medical response personnel arrive. Includes basic anatomy and body systems; lifting and moving patients; airway management; patient assessment; medical, behavioral, and trauma emergencies; terrorism awareness; and an overview of the Emergency Medical Services (EMS) system. This course is a prerequisite for the Emergency Medical Technician Program. (CSU/UC)

FIRE 255: Wildland Fire Fighting
1.5 Units. 1 lecture and 1.5 lab hrs/wk. Repeat: 3. No prerequisite.
A basic course designed to give the student a fundamental understanding of wildland fire behavior, safety equipment, dozer safety, construction of handlines, and fire control. May be taken four times for credit. (CSU)

FRENCH
Bonjour! French is spoken by over 220 million people worldwide. Demographers predict that by 2025 it will be the most widely spoken language in Europe, and that by 2050 there will be over 700 million French speakers around the world. Currently, French is an official language of 29 countries, second only to English in this category. French is one of the working languages of numerous international organizations including the United Nations and the European Union. In addition, French has played an important role in art, literature, film, cuisine, viticulture, sports, politics, international business, science, medicine, and global communication. Proficiency in French and knowledge of French-speaking cultures enhance any profession and field of specialization, and enrich one's intellectual growth.

Policy Statement Regarding Sequence of Enrollment in French Language Classes
Although students are advised to enroll in language courses sequentially, they will not be precluded from enrolling in lower level language classes after completion of more advanced courses. Students should be aware, however, that units resulting from the lower level courses may not be accepted at transfer institutions as a part of the required transferring units.

A.A. IN FRENCH
Students may take classes at either campus to fulfill requirements for the major. Students who complete the requirements listed below, plus additional general education and graduation requirements, will be awarded the associate degree. Note: Students are required to complete English 150 for the associate degree. All students should consult a counselor.

TOTAL MAJOR UNITS MINIMUM OF 18

French Skills Certificate
Skills Certificates are an acknowledgement that the student has attained a specified set of competencies within a program. Skills
Certificates require less than 18 units and are shorter in duration than the Certificate of Achievement.

The French Skills Certificate provides a way for students to verify that they have reached a level of proficiency in the French language.

**FRENCH COURSES (FREN)**

**FREN 101: Elementary French I**

5.0 Units. 4 lecture and 3 lab hrs/wk. No prerequisite.

A beginning course offering study and practice in speaking, understanding, reading, and writing French, along with an exploration of cultural aspects of the French-speaking world. The three-hour weekly laboratory requirement enhances the student’s verbal and comprehension skills through the use of audiovisual materials. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 6: UC Language other than English

**FREN 102: Elementary French II**

5.0 Units. 4 lecture and 3 lab hrs/wk. Prerequisite: FREN 101.

Further emphasis is placed on the structure of the language, verbal communication, and understanding of French culture. Continued use of the language laboratory for further mastery. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B and 6: UC Language other than English

**FREN 108A: French Culture and Literature Go to the Cinema**

3.0 Units. 3 lecture hrs/wk. Prerequisite: FREN 101 or equivalent.

This course introduces students to films inspired by classic, significant, and, in many instances, famous literary pieces, emphasizing connections between the novels/stories and their artistic expression in film. This course examines trends in French literature and film, and establishes connections between literature, film, and socio-cultural and political changes in French-speaking countries. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

**FREN 108B: French Culture and Literature Go to the Cinema**

3.0 Units. 3 lecture hrs/wk. Prerequisite: FREN 101 or equivalent.

This course introduces students to films inspired by twentieth-century cultural developments in French society. The course examines trends in French literature, and establishes connections between socio-cultural and political changes in French-speaking countries and their artistic expression in literature and film. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

**FREN 108C: French Conversation and Culture Through Film**

1.0 Unit. 1 lecture hr/wk. Prerequisite: FREN 101 or equivalent.

This summer French film course is a fun and manageable way to maintain and develop French language skills during the summer session. Through film, the course introduces important socio-cultural topics including immigration, political oppression, social resistance, gender, race, music, dance, and cuisine. Students view a variety of classic and contemporary films and participate in French conversational activities designed to apply and expand on grammar concepts and vocabulary covered in lower-level language courses. Films may vary by semester. (CSU)

**FREN 110: Conversational French I**

4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite.

Use of modern colloquial French in conversation with elementary grammar. Designed for students who wish to acquire skills of the spoken language with a minimum of formal grammar. Oral practice in speaking, understanding, and correct pronunciation of French, using audiovisual materials depicting everyday situations. (CSU)

**FREN 112: Conversational French II**

4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: FREN 110.

Continued use of modern colloquial French in conversation with elementary grammar. Designed for students wishing to acquire skills of the spoken language with a minimum of formal grammar. Continued oral practice in speaking, understanding, and correct pronunciation of French, using audiovisual materials depicting everyday situations. (CSU)

**FREN 114: Conversational French III**

4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: FREN 112.

Continued use of modern colloquial French in conversation with elementary grammar. Designed for students wishing to acquire skills of the spoken language with a minimum of formal grammar. Continued oral practice in speaking, understanding, and correct pronunciation of French, using audiovisual materials depicting everyday situations. (CSU)

**FREN 203: Intermediate French III**

5.0 Units. 4 lecture and 3 lab hrs/wk. Prerequisite: FREN 102. Advisory: Concurrent enrollment in FREN 114.

Review and expansion of grammatical concepts with continued emphasis on verbal communication. Introduction to literary and journalistic readings for vocabulary and idiom expansion as well as cultural enrichment. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B and 6: UC Language other than English

**FREN 204: Intermediate French IV**

4.0 Units. 4 lecture hrs/wk. Prerequisite: FREN 203.

A further study of the French language with a review of the grammar and extensive readings from the literature and press with emphasis on verbal communication. An exploration of the use of French and the impact of French culture outside of France. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B and 6: UC Language other than English

**FREN 225: Advanced French I**

3.0 Units. 3 lecture hrs/wk. Prerequisite: FREN 204.

This course aims to expand the student’s knowledge of the French language and civilization through the study of grammar, literature, and the French press, with particular emphasis on present-day France. Additional emphasis is placed on an advanced level of verbal communication. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B and 6: UC Language other than English
GEOGRAPHY

There is a wide diversity of careers that geography offers. Possible avenues for specialization include business, government, teaching, cartography, conservation, land use, photogrammetry, climatology, soil and agriculture, urban and regional planning, resource evaluation, industrial location sites, and marketing research.

Career Options
Cartographer, City Planner, Computer Mapper, Geographic Analyst, International Economist, Land Officer, Location Analyst, Map Curator, Market Researcher, News and Travel Magazine Editor, Soil Conservationist, Teacher, Transportation Planner

A.A.-T. IN GEOGRAPHY

Associate in Arts in Geography for Transfer degree (AA-T)
This degree is primarily intended for the student who wants to earn a degree on the way to transferring to a California State University.

To complete the Associate in Arts in Geography for Transfer degree, a student must:
1. Complete 60 semester units or 90 quarter units that are eligible for transfer to the California State University, including both of the following:
   - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education – Breadth Requirements.
   - A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district.
2. Complete all courses in the major with a grade of “C” or better, or “P” if the course is taken as “pass/no pass.”
3. Obtain a minimum grade point average of 2.0.

Total Major Units: 19
Maximum Units Double-Counted (IGETC/CSU-GE): 10-13 units/10-13 units
Required IGETC/CSU-GE Breadth: 37 units/39 units
Remaining CSU Transferable Electives (IGETC/CSU-GE): 14-17 units/12-15 units

TOTAL DEGREE UNITS: 60

GEOGRAPHY COURSES (GEOG)

GEOG 101: The Physical Environment
3.0 Units. 3 lecture hrs/wk. No prerequisite.
Description, explanation and world distribution of the natural phenomena that constitute man's physical environment. The phenomena surveyed include earth-sun relationships, weather, climate, soils, and landforms. Principles of map construction and interpretation are also studied. (CSU/UC) AA/AS Area A, CSU Area B-1, IGETC Area 5A

GEOG 101L: Physical Environment Laboratory
1.0 Unit. 3 lab hrs/wk. Prerequisite: GEOG 101 or concurrent enrollment.
Practical observations and applications of the geographic grid, atlases and topographic maps; rocks and tectonic activity, weather and climate, and natural vegetation and soils. Exercises are designed to supplement GEOG 101. Classes meet periodically at off-campus locations within Marin County and students are expected to provide their own transportation. (CSU/UC) AA/AS Area A, CSU Area B-1 and B-3, IGETC Area 5C

GEOG 102: The Human Environment
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This course offers students an overview of the interrelationships between human societies and the environment. It examines population distribution and growth, migrations, environmental modifications, and the spatial distribution of phenomena such as language, religion, economic systems, and urbanization. (CSU/UC) AA/AS Area B, CSU Area D-5, IGETC Area 4

GEOG 109: Geography of California
3.0 Units. 3 lecture hrs/wk. No prerequisite.
A thematic approach to the state's issues, processes and topics relevant to geography including climate, landforms, natural vegetation, water resources, cultural landscape, ethnic diversity, urban and agricultural regions and the economy. The course explores the physical and human landscapes that have evolved as a result of the human-environment interface. (CSU/UC) AA/AS Area A or B, CSU Area D-5, IGETC Area 4

GEOG 112: Meteorology and Climatology
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This survey course in climatology and meteorology introduces students to the atmospheric sciences and the consequences that face the floral and faunal assemblage of the earth as man and nature continue to alter the atmosphere and subsequent climate. (CSU/UC) AA/AS Area A, CSU Area B-1, IGETC Area 5A
GEOG 116: Field Geography, Marin County
1.5 Units. 3 lecture and 4 lab hrs/wk for 6 weeks. No prerequisite.
Each offering includes field exposure and experience with data collection techniques related to Marin’s bio-geographic zones, geologic bedrock and soils characteristics, hydrological, atmospheric, and cultural geographic characteristics. (CSU)

GEOG 125: Introduction to Geographic Information Systems
3.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: Familiarity with Windows operating system and software is highly recommended.
This interdisciplinary course explores Geographic Information Systems (GIS) for acquisition, storage, management, analysis, modification, and presentation of spatial data. Using lecture with hands-on computer time, the course introduces GIS through the use of ArcGIS software, Google Earth, and GPS software. Includes a project module that stresses accession and application of data in the student’s chosen academic area of interest. (CSU/UC)

GEOG 127: Introduction to Spatial Analysis Using Geographic Information Systems
3.0 Units. 3 lecture hrs/wk. Prerequisite: GEOG 125.
An interdisciplinary exploration of the true power of Geographic Information Systems (GIS) Spatial Analysis. Using lecture with hands-on computer time, the course teaches students how to analyze spatial data and find hidden patterns or relationships, and present these results in graphic form using ArcGIS software. Includes a project module that stresses accession and application of spatial data in the student’s chosen academic area of interest. (CSU)

GEOG 141: Global Climate Change: Science, Impact and Solutions
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as BIOL 141, ENVS 141, or GEOG 141; credit awarded for only one course.
This course introduces scientific, ecological, and economic issues underlying the threat of global climate change. It also develops an integrated approach to analysis of climate change processes, and an assessment of proposed policy measures to develop solutions. (CSU)

GEOLOGY
Geologists are curious about the world in which they live. The earth is their laboratory. Geology is the fundamental discipline used to explain the natural earth systems that shape our changing planet. Today the majority of geoscientists are employed in the environmental fields, but many are also employed in the exploration for and production of natural resources.

Career Options
Aerial Photo Interpreter, Earth Historian, Environmental Geologist, Exploration Geophysicist, Field Geologist, Geochemist, Geological Engineer, Geological Technician, Geology Drafter, Hydrologist, Laboratory Research Worker, Map Editor, Meteorologist, Mining Geologist, Oceanographer, Paleontological Assistant, Paleontologist, Park Naturalist, Petroleum Geologist, Petrologist, Prospector, Research Scientist, Scientific Illustrator, Sedimentologist, Seismologist, Soils Engineer, Teacher, Technical Writer, Tester, Weather Observer

Faculty
Steven Newton
Department Phone: 415-485-9510

A.S.-T. IN GEOLOGY
Associate in Science in Geology for Transfer degree (AA-T)
This degree is primarily intended for the student who wants to earn a degree on the way to transferring to a California State University.

To complete the Associate in Science in Geology for Transfer degree, a student must:
1. Complete 60 semester units* or 90 quarter units that are eligible for transfer to the California State University, including both of the following:
   - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education – Breadth Requirements.
   - A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district.
2. Complete all courses in the major with a grade of “C” or better, or “P” if the course is taken as “pass/no pass.”
3. Obtain a minimum grade point average of 2.0.

REQUIREMENTS UNITS
GEOL 120 Physical Geology 3
GEOL 120L Physical Geology Laboratory 1
GEOL 121 Historical Geology 4
CHEM 131 General Chemistry I 5
CHEM 132 General Chemistry II 5
MATH 123 Analytic Geometry and Calculus 5
MATH 124 Analytic Geometry and Calculus II 5
Total MAJOR Units 28
Maximum Units Double-Counted (IGETC/CSU-GE): 7 units/7 units
Required IGETC/CSU-GE Breadth: 37 units/39 units
Remaining CSU Transferable Electives (IGETC/CSU-GE): 2 units/0 units
TOTAL DEGREE UNITS 60

A.S. IN GEOLOGY
While students may take classes at both campuses, the majority of courses required for the major are offered at the Kentfield Campus. Students who complete the requirements listed below, plus additional general education and graduation requirements, will be awarded the associate degree. Note: Students are required to complete English 150 for the associate degree. All students should consult a counselor.

REQUIREMENTS UNITS
CHEM 131 General Chemistry I 5
CHEM 132 General Chemistry II 5
GEOL 120 Physical Geology 3
GEOL 120L Physical Geology Lab 1
GEOL 121 Historical Geology 4
GEOL 125 Field Geology I 2.5
GEOL 126 Field Geology II 2
GEOL 201 Elementary Mineralogy 4
MATH 104 Plane Trigonometry 3
PHYS 108A General Physics I 4
PHYS 108B General Physics II 4
GEOL 099: General Science
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as GEOL 99 or BIOL 99; credit awarded for only one course.
This late-start course is designed for students who have not reached the level of success they desired in high school or college science courses and for individuals returning to school after an extended absence. The course covers basic scientific principles and concepts of the physical and life sciences and prepares students to move into other science classes with the information, understanding, and skills required to succeed. Introductory topics in biology, chemistry, geography, geology, meteorology, and physics are discussed.

GEOL 101: Geological Field Excursions to National Parks
1.0 Unit. 1 TBA hrs/wk. No prerequisite. Corequisite: GEOL 102. There will be three 2-day field trips.
An opportunity to see and understand more fully the geology, landforms, and natural environment of national parks. The course is repeatable if different national parks are studied. (CSU)

GEOL 102: Geologic Setting of the National Parks
2.0 Units. 2 lecture hrs/wk. No prerequisite.
Designed to enrich the student’s knowledge of the natural environments of national parks, with emphasis on parks of the western hemisphere. (CSU)

GEOL 103: Environmental Geology
3.0 Units. 3 lecture hrs/wk. No prerequisite.
The fascinating study of the interactions of the human race and the physical environment. The course centers on how mankind alters the physical environment to better suit our immediate needs, and how these alterations dictate the course of our future. The emphasis is always on the balance between short-term reward and long-term consequence. Field trips may be offered. (CSU/UC) AA/AS Area A, CSU Area B-1, IGETC Area 5A

GEOL 107: Introduction to Rocks and Minerals
2.0 Units. 1 lecture and 3 lab hrs/wk. No prerequisite.
A course for anyone interested in learning about the types of rocks and minerals that form the bedrock below their feet. Lectures focus on the dynamic geo-tectonic processes that form these stones; laboratory investigations develop skills and techniques necessary for identification of common minerals and rocks. Field trips to local sites of interest may be included. A portion of the course is dedicated to optical mineralogy, petrography, and basic lapidary techniques. (CSU)

GEOL 109: General Oceanography
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This survey course in ocean science introduces the physical and biological processes that have formed, and maintain the health of, the earth’s oceans and seas. The course is particularly important for students considering a career in marine science or technology, and is strongly encouraged for environmental science majors. (CSU/UC) AA/AS Area A, CSU Area B-1, IGETC Area 5A

GEOL 110: Earth Science
3.0 Units. 3 lecture hrs/wk. No prerequisite. Not open to students who have taken or are taking GEOL 120.
This course introduces the basic principles of geology, emphasizing plate tectonics, mineralogy, petrology, paleontology, and the formation of landforms. Field trips to local areas of interest. This nonlaboratory course is intended for non-majors. (CSU/UC) AA/AS Area A, CSU Area B-1, IGETC Area 5A

GEOL 114: Geology of California
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This course introduces the geological processes responsible for the formation of this state’s incredibly diverse and strikingly beautiful landscape. Emphasizes the tectonic and erosional forces that have formed and continue to alter California’s landforms and rich mineral resources. (CSU/UC) AA/AS Area A, CSU Area B-1, IGETC Area 5A

GEOL 115: Volcanoes
1.0 Unit. 1 lecture hrs/wk. No prerequisite.
This course on the nature and force of volcanic eruptions acquaints students with the earth’s major volcanic landforms, the tectonic processes responsible for their eruptive character, the specific types of eruptions they generate, and the rock forms they produce. (CSU)

GEOL 116: Volcanoes and Earthquakes
2.0 Units. 2 lecture hrs/wk. No prerequisite.
An introduction to the geological workings of Earth, focusing on the study of the causes, processes, and products of volcanoes and earthquakes. Great natural disasters and scientific efforts to predict such disasters are studied. (CSU/UC)

GEOL 120: Physical Geology
3.0 Units. 3 lecture hrs/wk. No prerequisite.
A study of the evolution of the Earth and the dynamic disequilibrium that exists between the lithosphere, hydrosphere, atmosphere, and biosphere. The course focuses on rocks, minerals, geologic structures and landforms. (CSU/UC) AA/AS Area A, CSU Area B-1, IGETC Area 5A

GEOL 120L: Physical Geology Laboratory
1.0 Unit. 3 lab hrs/wk. Prerequisite: GEOL 120 or concurrent enrollment.
This laboratory involves hands-on interaction with minerals, rocks, maps, and geologic computer programs. This course is meant as a complement to GEOL 120 (Physical Geology), though students may take the courses at separate times. Field trips to local areas of interest may be included. (CSU/UC) AA/AS Area A, CSU Area B-3, IGETC Area 5C

GEOL 121: Historical Geology
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisites: GEOL 120 and 120L.
The study of the evolution, over geologic time, of the land and life forms of the planet Earth as observed in the rock and fossil record. The course examines the dynamic changes in the surface condition of the Earth’s environment—the very alterations that have caused five mass extinctions in the biosphere. Students evaluate the evolution of landscapes by observing them firsthand, in the field. (CSU/UC) AA/AS Area A, CSU Area B-1 and B-3, IGETC Area 5A and 5C
GEOL 125: Field Geology I
2.5 Units. 78.75 hours of field investigation to be arranged over three weekends, and 16 lecture hours to be arranged. Repeat: 1. Prerequisite: GEOL 110 or 120 or concurrent enrollment. Lecture and field trips introduce geologic field studies, and acquaint students with the geology and geologic history of Northern California. (CSU/UC)

GEOL 126: Field Geology II
2.0 Units. A ten-day field trip during the spring break and 12 lecture hours to be arranged. Repeat: 3. Prerequisite: GEOL 120. Corequisite: GEOG 101. Contact instructor before enrolling. The study of geologic phenomena in selected areas of the Western United States. The course covers fundamental principles of field geology including rock identification, geologic mapping, and structural interpretation of various terrains. Students must be in good physical condition. (CSU/UC)

GEOL 127A: Extended Field Studies
1.5 Units. A seven-day field trip and eight lecture hours to be arranged. Prerequisite: GEOL 120. A one-week field investigation of a selected area. (CSU)

GEOL 127B: Extended Field Studies
3.0 Units. A fourteen-day field trip and sixteen lecture hours to be arranged. Repeat: 3. Prerequisite: GEOL 120. A two-week field investigation of selected areas in the Western United States. Students emerge from this field experience with a suite of rocks, minerals and fossils of various time periods, and an appreciation of the unique geology of the West and of the science of geology in general. (CSU)

GEOL 128: Geologic Studies of Point Reyes and the San Andreas Fault
2.0 Units. A three-hour meeting is required at the beginning for logistics. Five eight-hour sessions. Repeat: 1. No prerequisite. Marin County is blessed with an extraordinary geology. This course focuses on the Point Reyes Peninsula and its relationship to the San Andreas Fault System. The course meets for a total of 40 hours at geologically unique locations chosen to illustrate the geological features and geological history of this portion of the county through field lecture, direct observation and geological exercises. (CSU)

GEOL 129: Field Studies of Marin East of the San Andreas Fault
2.0 Units. A three-hour meeting is required at the beginning for logistics. Five eight-hour sessions. No prerequisite. Marin County is blessed with an extraordinary geology. This field lecture course focuses on the area east of the San Andreas Fault. The course meets for a total of 40 hours at geologically unique locations chosen to illustrate the geological features and geological history of this portion of the county through field lecture, direct observation and geological exercises. (CSU)

GEOL 140: Environmental Field Techniques
1.0 Unit. 3 lab hrs/wk. No prerequisite. Can be taken as GEOL 140 or BIOL 140; credit awarded for only one course. This course is designed to teach the fundamentals of environmental sampling and monitoring. Topics include surveying and mapping; data collection and management; and hydrological, geological, and biological assessment methods. This course is field based, and emphasizes the mastery of practical field techniques. (CSU)

GEOL 142: Environmental Policy and Decision-Making
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as GEOL 142, BIOL 142, or ENVS 142; credit awarded for only one course. Environmental policy and subsequent regulation is one way of managing the relationship between human activities and their effects on natural ecosystems. This course is a study of federal, state, and local environmental legislation and its history. The course chronicles America’s awakening to environmental issues and the ways in which decisions affecting the environment occur. The content of the course is vital to environmental policymakers, scientists, and advocates. (CSU/UC)

GEOL 145: Ethics in Science
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as GEOL 145 or BIOL 145; credit awarded for only one course. This course explores some of the most pressing issues facing our society today. It enables students to investigate and understand the controversies surrounding current and future technologies, and helps them make rational decisions when faced with situations in their own lives and at the voting booth. The course is appropriate for both science and nonscience majors. (CSU/UC) AA/AS Area C

GEOL 201: Elementary Mineralogy
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: GEOL 120. An introduction to the basic principles of mineralogy including crystallography; the basic concepts of physical, chemical, and optical mineralogy; and the formation and occurrence of mineral deposits. Laboratory work includes the determination of minerals by physical properties, chemical tests with the use of the blowpipe, crystal morphology, and the study of minerals in thin section under the polarizing microscope. (CSU/UC) CSU Area B-1 or B-3, IGETC Area 5A and 5C

GEOL 250: Scientific Research and Reporting
1.0 Unit. 1 lecture hrs/wk. No prerequisite. Advisories: BIOL 110 and GEOL 120. Can be taken as GEOL 250 or BIOL 250; credit awarded for only one course. A hands-on, individualized course designed to walk learners step by step through a scientific research project of their choice. The final report of their findings will be delivered at a professional meeting. This course is designed for science majors who have completed the first year of their curriculum and desire a hands-on, real world experience in science. (CSU/UC)
HEALTH EDUCATION

The field of health education promotes physical health and wellness, exploring important issues such as weight control, nutrition, and stress management. Coursework in this field can lead to certification as a personal fitness trainer, or can prepare students for other careers as wellness and fitness professionals.

Career Options Activity Specialist, Adaptive Physical Education Specialist, Athletic Club Manager, Athletic Manager, Athletic Trainer, Camp Director, Coach, Corrective Therapist, Emergency Medical Technician, Fire Fighter, Health Club Staff Member, Massage Therapist, Personal Fitness Trainer, Physical Therapist, Public Health Educator, Recreation Leader/Director, Recreation Therapist, Teacher/Instructor

Faculty
Cheryl Rogow, Kathleen Smyth
Department Phone: 415-485-9580

Personal Fitness Trainer Skills Certificate
Skills Certificates are an acknowledgement that the student has attained a specified set of competencies within a program. Skills Certificates may be part of a “ladder” of skills, beginning with job entry skills and leading to a full Certificate of Achievement program or may constitute a skill set that enables a student to upgrade or advance in an existing career. Skills Certificates require less than 18 units and are shorter in duration than the Certificate of Achievement.

The Personal Fitness Trainer Skills Certificate constitutes a skill and knowledge set that enables students to either begin as an entry-level Personal Fitness Trainer (PFT) or advance in their already existing PFT careers.

HEALTH EDUCATION COURSES (HED)

HED 114: Introduction to Kinesiology
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as HED 114 or KIN 114; credit awarded for only one course.

This course introduces an interdisciplinary approach to the study of human movement, provides an overview of the importance of the sub-disciplines in kinesiology, and addresses career opportunities in the areas of teaching, coaching, allied health and fitness professions. (CSU/UC)

HED 115: Weight Control, Exercise and Nutrition
3.0 Units. 3 lecture hrs/wk. No prerequisite.

This course is designed to act as an educational support program and resource center for individuals who desire to develop or desire to help others develop a new healthier lifestyle, including weight management, exercise, and proper nutritional behaviors. The latest research in the wellness and fitness field will be emphasized. (CSU/UC)

HED 118: Sports Nutrition for Health and Performance
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as HED 118 or KIN 118; credit awarded for only one course.

This course is designed for personal fitness trainers, athletes, coaches and parents who are seeking sports-specific nutrition for aerobic, anaerobic and speed-endurance training. Topics include fueling the athlete, energy systems, metabolism, hydration, sports nutrition products, ergogenics, weight management, and sports-specific nutritional needs to improve athletic performance. (CSU)

HED 119: Effective Teaching Strategies in Wellness and Fitness
3.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: HED 116 or KIN 116. Can be taken as HED 119 or KIN 119; credit awarded for only one course.

This course is designed to help students become more effective wellness and fitness professionals. Students develop a toolbox of practical teaching, learning and evaluation methods to increase their ability to convey their knowledge to others in this field and more successfully impact their future clients, students, or athletes. (CSU)

HED 130: Contemporary Health Issues
3.0 Units. 3 lecture hrs/wk. No prerequisite.

This course includes, but is not limited to, the study of physical and psychological health, creating healthy relationships, avoiding and overcoming harmful habits, prevention of disease, and developing healthy lifestyles. (CSU/UC) CSU Area E

HED 140: Stress Management and Health
3.0 Units. 3 lecture hrs/wk. No prerequisite.

This course examines the theoretical framework of stress and stress-management techniques. Areas of study include defining stress, understanding psychological theories of stress, causes of stress, and health consequences of stress. Students examine and analyze strategies to manage and cope with stress, such as time management, relaxation techniques, communication skills, diet, and exercise. (CSU/UC) CSU Area E

HEED 112: Drugs and Society
3.0 Units. 3 lecture hrs/wk. No prerequisite.

This course covers the historical, sociological, physiological, pharmacological, and legal aspects of drugs, and emphasizes the effects of tobacco, alcohol, narcotics, restricted drugs, and other substances. Nutrition, genetics, environment, and poly-drug factors concerning drug actions are discussed. The various education, prevention, treatment, and rehabilitation approaches to the problem of drug abuse are covered. (CSU) CSU Area E
HED 143: Introduction to Sports Medicine  
3.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: KIN 107 or BIOL 107. Can be taken as HED 143 or KIN 143; credit awarded for only one course.

This course introduces methods of prevention, recognition, evaluation, rehabilitation, reconditioning, taping, and immediate care of athletic injuries to the upper and lower extremities. The course can benefit coaches from all sports, students interested in the athletic training profession, and the physically active individual. Anatomy, mechanism-of-injury, and pathology are stressed. (CSU/UC)

HED 216A: American Red Cross Lifeguard Training  
1.5 Units. 1 lecture and 1.5 TBA hrs/wk. Repeat: 3. Prerequisite: Students must be able to perform the following pretest: [1] Tread water continuously in the diving pool for two minutes using legs only; [2] Swim 500 yards continuously with no time limit using the following strokes: crawl stroke, breast stroke, side stroke for at least 100 yards each; [3] Submerge to a minimum depth of seven feet and retrieve a ten-pound object and return to the surface with the object at no time limit. Can be taken as HED 216A or KIN 216A; credit awarded for only one course.

This course is designed for those desiring to fulfill the requirements for the American Red Cross Lifeguard Certification. (CSU)

HISTORY

History is an evolving record of human emotions, human aspirations, and human successes and failures. Historians deal with goals, fears, interests, and prejudices of people in the past and the impact of their thoughts and actions on the people of today and tomorrow. The study of history is a valuable adjunct for many careers both inside and outside of the social sciences.

A.A.-T. IN HISTORY

Associate in Arts in History for Transfer degree (AA-T)  
This degree is primarily intended for the student who wants to earn a degree on the way to transferring to a California State University.

To complete the Associate in Arts in History for Transfer degree, a student must:

1. Complete 60 semester units or 90 quarter units that are eligible for transfer to the California State University, including both of the following:
   - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education – Breadth Requirements.
   - A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district.

2. Complete all courses in the major with a grade of “C” or better, or “P” if the course is taken as “pass/no pass.”

3. Obtain a minimum grade point average of 2.0.

HISTORY COURSES (HIST)

HIST 100: Major Trends and Selected Topics in American History
3.0 Units. 3 lecture hrs/wk. No prerequisite.
History of the United States from Native Americans before Columbus to the present. Economic, social and political institutions, developments and processes are examined. HIST 100 may fulfill the transfer requirement for those majoring in non-social science fields. (CSU/UC) AA/AS Area B or F, CSU Area D-6, IGETC Area 4, CSU US History, Constitution, and American Ideals

HIST 101: World History I: Origins of the Major Traditions
4.0 Units. 4 lecture hrs/wk. No prerequisite.
Beginning with the earliest transitions of human societies to sedentary communities, this course investigates the original river-based civilizations of Mesopotamia, Egypt, India, and China; the evolution of early societies in Sub-Saharan Africa and the pre-Columbian Americas; major Eurasian states and empires of antiquity (Hellenic, Persian, Chinese, Indian, Roman); major pre-Columbian civilizations including Inca, Maya, and the Valley of Mexico; and the transformations of the post-classical world, with emphasis on the impacts of the universalizing traditions of Christianity, Islam and Buddhism. (CSU/UC) AA/AS Area B, CSU Area D-6, IGETC Area 4

HIST 102: World History II: Evolution of the Modern World
4.0 Units. 4 lecture hrs/wk. No prerequisite.
Beginning with the overseas voyages of discovery during the 15th century C.E., this course traces the growing complexity of global interaction associated with early modern societies in their pre-industrial phases. The focus includes demographic, institutional, cultural, material, and epidemiological aspects of trans-continental and trans-oceanic exchanges. The second half of the course examines societies from a global perspective as they come to be transformed by the revolutionary forces of industrialization and secular ideologies, producing the rise and fall of states and empires, the unleashing of two world wars and countless regional conflicts, and redefining the nature of a contemporary world increasingly globalized and interdependent, but fraught with perils and challenges. (CSU/UC) AA/AS Area B, CSU Area D-6, IGETC Area 4

HIST 103: Science, Technology, and Civilization
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This course is a nontechnical introduction to the history of science and technology, examining their impact on civilization, including significant social, political, religious, ethical, artistic and intellectual repercussions resulting from scientific and technological advances. Themes and topics include (but are not limited to) the Neolithic Revolution, ancient Greek mathematics and cosmology, Islamic civilization, Chinese alchemy, the Copernican Revolution and Newtonian synthesis, the industrial and biological revolutions of the eighteenth and nineteenth centuries, and twentieth century transformations (relativity, the atom, genes and DNA, cyberspace, string theory). (CSU/UC) AA/AS Area B, CSU Area D-6, IGETC Area 4

HIST 109: History of California
3.0 Units. 3 lecture hrs/wk. No prerequisite.
A survey of California's past through the Native American, Spanish, Mexican, and American periods. Among the topics covered are the California missions, the Gold Rush era, San Francisco's "Victorian" era, and recent political, economic, social, cultural and democratic developments. (CSU/UC) AA/AS Area B & G, CSU Area D-6, IGETC Area 4

HIST 110: Western Civilization I: to 1350
3.0 Units. 3 lecture hrs/wk. No prerequisite. Note: History 110, 111, and 112 may be taken in any sequence and require no prerequisites. They are especially recommended for students who intend to pursue their education toward a Bachelor's degree.
This course examines Western Civilization from its Middle Eastern origins through the classical Greek and Roman civilizations and the Middle Ages. (CSU/UC) AA/AS Area B, CSU Areas C-2 and D-6, IGETC Area 4

HIST 111: Western Civilization II: 1350 to 1815
3.0 Units. 3 lecture hrs/wk. No prerequisite. Note: History 110, 111, and 112 may be taken in any sequence and require no prerequisites. They are especially recommended for students who intend to pursue their education toward a Bachelor's degree.
This course examines Western Civilization during the Renaissance, the Enlightenment, through the French Revolution and the Napoleonic era, concluding with the Congress of Vienna. (CSU/UC) AA/AS Area B, CSU Areas C-2 and D-6, IGETC Area 4

HIST 112: Western Civilization III: the 19th and 20th Centuries
3.0 Units. 3 lecture hrs/wk. No prerequisite. Note: History 110, 111, and 112 may be taken in any sequence and require no prerequisites. They are especially recommended for students who intend to pursue their education toward a Bachelor's degree.
A study of Western Civilization during the nineteenth and twentieth centuries beginning with the Congress of Vienna and concluding with the contemporary world. This course examines the growth of industrial civilization, nationalism and imperialism, the interaction of the West with the non-Western world, and idealism and realism in the experience of Western Civilization. Analysis involves the search for artifacts such as continuity and change in patterns of development and motivation. (CSU/UC) AA/AS Area B, CSU Areas C-2 and D-6, IGETC Area 4

HIST 117: History of the United States I
3.0 Units. 3 lecture hrs/wk. No prerequisite.
A survey of the economic, political, social, and cultural evolution of the United States from Native Americans before Columbus through the Civil War. Note: History 117 and 118 are recommended (instead of History 100) or required for majors and minors in history, teaching, social science, pre-legal, and certain other areas. (CSU/UC) AA/AS Area B or F, CSU Area D-6, IGETC Area 4, CSU US History, Constitution, and American Ideals
HIST 118: History of the United States II
3.0 Units. 3 lecture hrs/wk. No prerequisite.
A survey of the economic, political, social, and cultural development of the United States from 1865 to the present. Note: History 117 and 118 are recommended (instead of History 100) or required for majors and minors in history, teaching, social science, pre-law, and certain other areas. (CSU/UC) AA/AS Area B or F, CSU Area D-6, IGETC Area 4, CSU US History, Constitution, and American Ideals

HIST 125: Research Methods and Term Papers in History
3.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: Eligibility for ENGL 150. Can be taken as ECON 125, ETST 125, HIST 125, POLS 125, or SSC 125; credit awarded for only one course.
This course focuses on the elements of critical thinking and methods of research in the social sciences and develops skills required to organize such thought and research into effective, college level presentations. Students are encouraged to select areas of research from other courses taken during the semester or from areas of special interest including politics, history, economics, education, women’s studies, ethnic studies, current issues, and issues of community concern. (CSU/UC)

HIST 206: History of Russia
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This course surveys Russian history from the earliest times through the collapse of the Soviet Union and the emergence of its successor states. It emphasizes the unique features of Russia’s past and commonalities Russian history shares with histories of other societies and traditions. Special attention is given to the nature and demise of the Soviet Union, and to the transitional and successor states of the late twentieth and early twenty-first centuries. (CSU/UC) AA/AS Area B, CSU Area D-6, IGETC Area 4

HIST 211: Women in American History and Politics
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as HIST 211 or POLS 211; credit awarded for only one course.
This course, a social and political history of women and women’s movements in American society, examines the development of American institutions and ideals with respect to women’s roles and status; analyzes women’s relationship to economic, political, and social processes; explores cultural models of womanhood; and examines how women define themselves and how they have enacted change. Key themes include the diversity of American women and developing a framework for understanding gender in relation to race, ethnicity, class, sexuality, and religion. Includes research in both primary and secondary sources. (CSU/UC) AA/AS Areas B, F, or G; CSU Areas D-4, D-6, and D-8; IGETC Area 4

HIST 212: History and Politics of Modern Asia
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as HIST 212 or POLS 212; credit awarded for only one course.
This course introduces the history and politics of Asia since 1945, including the study of East, South, and Southeast Asia. The course emphasizes the political outcomes of the development of Asia as a consequence of both internal societal influences as well as external political and economic pressures. (CSU/UC) Area D-6 and D-8 IGETC Area 4

HIST 214: History of Latin America
3.0 Units. 3 lecture hrs/wk. No prerequisite.
A historical survey of Latin America beginning with pre-Columbian societies. The survey investigates European colonization, colonial culture combined with native culture and national emergence in the nineteenth century. It also covers the economic maturity of the twentieth century, the emergence of indigenous culture, and Latin America’s striving for independent identity. (CSU/UC) AA/AS Area B, CSU Area D-6, IGETC Area 4

HIST 216: History of Mexico
3.0 Units. 3 lecture hrs/wk. No prerequisite.
A study of Mexico beginning with pre-Columbian societies, this course examines how the social, cultural, and political changes under Spanish colonization led to the independence movement and a search for national identity. (CSU/UC) AA/AS Area B, CSU Area D-6, IGETC Area 4

HIST 238: History of Africa
3.0 Units. 3 lecture hrs/wk. No prerequisite.
A historical and political survey of the African continent, from the early geographical and anthropological background to twenty-first-century African developments. The course provides a basis for understanding the developments that have shaped the various peoples, countries, and regions of Africa. Key themes include unity with diversity, influences of geography and trade, Nile Valley cultures, Africa’s contacts with Europe and Asia, influences of colonialism and independence, and the global realities of twenty-first century Africa. (CSU/UC) AA/AS Area B, CSU Area D-6, IGETC Area 4

HUMANITIES
Courses in humanities enable students to seek an understanding of a broad cross section of cultural experience through such disciplines as literature, art, and other visual forms.

Career Options
Classicist, Journalist, Minister, Peace Corps Worker, Teacher

Faculty
John Marmysz
Department Phone: 415-485-9348

A.A. IN HUMANITIES
The Humanities Program creates a broad base for the humanities major. The program also allows liberal arts students the opportunity to create an interdisciplinary major based on a particular interest. Students who complete the requirements listed below, plus additional general education and graduation requirements, will be awarded the associate degree. Note: Students are required to complete English 150 for the associate degree. All students should consult a counselor.

- ENGL 235 Women in Literature 3

**Music History**
- MUS 101 Introduction to Classical Music 3

**Philosophy**
- PHIL 110 Introduction to Philosophy 3
- PHIL 111 Introduction to Ethics 3
- PHIL 117 History of Philosophy: Late Modern to Contemporary 3

**TOTAL MAJOR UNITS** MINIMUM OF 18

**HUMANITIES COURSES (HUM)**

**HUM 100A: Introduction to Humanities: Ancient Greece to the Medieval Period**
3.0 Units. 3 lecture hrs/wk. Prerequisite: ENGL 98 or 98SL or English Placement Test or equivalent.

This humanities sequence introduces students to Western culture. This course focuses on the epics, philosophy, and architecture of Greek and Roman culture, and the themes and conflicts the modern world has inherited. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

**HUM 100B: Introduction to Humanities: Renaissance to the Modern Period**
3.0 Units. 3 lecture hrs/wk. Prerequisite: ENGL 98 or 98SL or English Placement Test or equivalent.

This humanities sequence introduces students to Western culture. This course focuses on the developing Renaissance and the impact on Europe’s “rebirth” of Asian and Arabic ideas; the scientific revolution of Shakespeare’s England; the political revolutions of the seventeenth and eighteenth centuries; Romanticism; the new paradigms of Freud, Marx, and Darwin; and the Age of Anxiety. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

**HUM 107: Humanities Through the Arts**
3.0 Units. 3 lecture hrs/wk. No prerequisite.

This course surveys the full range of artistic expression from ancient times to the present, examining the relation between human creativity and the larger cultural setting. Through 15 hours of videotaped programs hosted by poet Maya Angelou, students can observe how various art forms—painting and music, sculpture and architecture, drama and film—all reflect humankind’s continuing quest for dignity and meaning. This self-paced course offers the non art specialist an accessible introduction to the interplay of art forms evolving over the centuries. (CSU/UC) AA/AS Areas C & G, CSU Area C-1, IGETC Area 3B

**HUM 108: History of Arts of the Americas**
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as HUM 108, ETST 108, or Art 108; credit awarded for only one course.

This course covers a selection of the art and visual culture of the Americas: North, Central, and South America, and the Caribbean. Art of the United States focuses on works from the culturally diverse peoples of the Bay Area. (CSU/UC) AA/AS Areas C & G, CSU Area C-1, IGETC Area 3A

**HUM 109A: History of Film: Beginning to 1950**
4.0 Units. 4 lecture hrs/wk. No prerequisite. Can be taken as HUM 109A or FILM 109A; credit awarded for only one course.

This course offers a chronological survey of narrative film as art, business, technology, and politics from the beginning of the movies in the 1890s to post World War II. Periods and movements covered include the Silent Era, German Expressionism, Soviet Avant Garde and editing of the 1920s, French classicism, American Studio Period and sound, as well as the history of censorship in the United States. Classroom screenings of representative films. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A
HUM 109B: History of Film: 1950 to Present
4.0 Units. 4 lecture hrs/wk. No prerequisite. Can be taken as HUM 109B or Film 109B; credit awarded for only one course.

This course offers a chronological and international survey of film as art, business, technology, and as an expression of the culture and politics of the times and places from which it emerges. Topics include post-1940s film noir, neorealism, the French New Wave, “art cinema,” documentary film, national cinemas throughout the world, and independent film directors and movements in the 21st century. Classroom screenings of representative films. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A

HUM 114: The Long Search: An Introduction to the World’s Religions
3.0 Units. 3 lecture hrs/wk. Prerequisite: ENGL 98 or 98SL or English Placement Test or equivalent. Students may receive credit for HUM 114 or 118, but not both courses.

Thirteen one-hour cassettes in this series trace the journey of a lone traveling host on his global search for religious understanding. Along the way he witnesses the modern interpretation of new and ancient religions, studying each religion's history as well as its relationship to the host society. Class meetings with the instructor augment the videocassette tapes with lecture and discussion. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

HUM 118: Introduction to World Religions
3.0 Units. 3 lecture hrs/wk. Prerequisite: ENGL 98 or 98SL or English Placement Test or equivalent. Students may receive credit for HUM 118 or 114, but not both courses.

An introduction to the major religious traditions of the world and the spiritual practices of preliterate or primal religions. The course focuses equally on East and West, principles and practice, history and psychology. Examples of the art, music and literature of Hinduism, Buddhism, Islam, Chinese Religion, Judaism, Christianity and primal religions are presented to enhance the experience and understanding of the religions. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

HUM 125: Myth, Symbol, and the Arts
3.0 Units. 3 lecture hrs/wk. Prerequisite: ENGL 120 or 120SL or English Placement Test or equivalent.

This course examines myth and folklore from a variety of cultures in order to see the function and role of myth in culture, how mythic symbols work in literature and the arts, and how these symbols have a psychological and cultural relevance to people today. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

HUM 128: Art Field Trips
1-4 Units. 0.75 lecture and 0.75 lab hrs/wk. Repeat: 3. No prerequisite. Can be taken as Art 128, ETST 128, or HUM 128; credit awarded for only one course.

A complement to art history and studio art courses, this course allows students to experience the art and architecture of sites like New York, Mexico City, and Rome first-hand. Pre-trip lectures set up background for an intensive field trip(s) that may include visits to museums, galleries, libraries, artists’ studios, and to architectural and archeological sites where lecture, discussion, and personal exploration take place. May be used to bring students to a major media-specific conference. (CSU)

HUM 242: Global Writings
3.0 Units. 3 lecture hrs/wk. Prerequisite: ENGL 120 or 120SL or English Placement Test or equivalent. Can be taken as HUM 242 or ENGL 242; credit awarded for only one course.

The cultural diversity and complex history of our globalized world are explored through a variety of contemporary writings. Discussion and analyses of representative texts focus on colonial exploitation, political domination, liberation, formations of racism, gender inequality, expressions of cultural power, ethnic conflict and division, immigration and migrancy, and processes of globalization. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

INDEPENDENT STUDY

Independent study courses are offered in most disciplines and are designed to give students an opportunity to participate in enriched academic experiences not covered within the scope of available curriculum offerings. Students plan and execute a project under an instructor’s direction.

Students interested in registering for independent study should contact the discipline instructor to obtain an Application for Independent Study (instructor contract). The completed Application and an Add Card must then be submitted to the Office of Enrollment Services.

INDEPENDENT STUDY COURSES

249ABC: Independent Study
1-3 Units. Three laboratory hours weekly per unit. Limit to Enrollment:
One course in the discipline and/or prerequisite(s) determined by the appropriate discipline. Prior arrangement with instructor is required.

ITALIAN

A major reason for studying the Italian language is the enrichment of one's intellectual growth in the context of the rest of the world. In learning Italian one also learns about the culture, philosophy, and civilization of another people, thereby broadening understanding of the world. On the practical side, any field of specialization (journalism, medicine, law, business, teaching) is enhanced if one can speak another language. In California, knowledge of a modern language is now required in many jobs that deal with the public such as Civil Service, social work, nursing, and other service-oriented fields.

Career Options

Faculty
Michele Martinisi, Rossana Pagani
Department Phone: 415-485-9480

Policy Statement Regarding Sequence of Enrollment in Italian Language Classes
Although students are advised to enroll in language courses sequentially, they will not be precluded from enrolling in lower level language classes after completion of more advanced courses. Students should be aware, however, that units resulting from the
lower level courses may not be accepted at transfer institutions as a part of the required transferring units.

**Skills Certificate in Italian**

Skills Certificates are an acknowledgement that the student has attained a specified set of competencies within a program. Skills Certificates require less than 18 units and are shorter in duration than the Certificate of Achievement.

The Italian Skills Certificate provides a way for students to verify that they have reached a level of proficiency in the Italian language.

**ITALIAN COURSES (ITAL)**

**ITAL 101: Elementary Italian I**

*5.0 Units. 4 lecture and 3 lab hrs/wk. No prerequisite.*

A beginning course offering study and practice in speaking, understanding, reading, and writing Italian, along with exploration of cultural aspects of Italy. The three-hour weekly laboratory requirement enhances the student's verbal and comprehension skills through the use of audiovisual materials. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 6: UC Language other than English

**ITAL 102: Elementary Italian II**

*5.0 Units. 4 lecture and 3 lab hrs/wk. Prerequisite: ITAL 101.*

Further emphasis on the structure of the language, verbal communication, and understanding the Italian culture. Continued use of the language laboratory for further mastery of the language. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B and 6: UC Language other than English

**ITAL 108A: Italian Culture Through Cinema**

*3.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: ITAL 101.*

This course introduces students to prominent films that portray historical and sociocultural aspects of Italian society. Topics include fascism, colonialism, World War II, the Holocaust, the economic struggle and miracle of postwar Italy, organized crime, and the role of Italy in the modern world. (CSU/UC) CSU Area C-2, IGETC Area 3B

**ITAL 110: Conversational Italian I**

*4.0 Units. 3 lecture and 3 lab hrs/wk. No prerequisite.*

Use of modern colloquial Italian in conversation and the study of elementary grammar. Designed for students who wish to acquire skills of the spoken language with a minimum of formal grammar. Oral practice in speaking, understanding, and correct pronunciation of Italian, using online and audiovisual materials depicting everyday situations. (CSU)

**ITAL 112: Conversational Italian II**

*4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: ITAL 101 or 110.*

Continued use of modern colloquial Italian in conversation and the study of elementary grammar. Designed for students who wish to acquire skills of the spoken language with a minimum of formal grammar. Continued oral practice in speaking, understanding, and correct pronunciation of Italian, using audiovisual materials depicting everyday situations. (CSU)

**ITAL 114: Conversational Italian III**

*4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: ITAL 102 or 112.*

Continued use of modern colloquial Italian in conversation and the study of elementary grammar. Designed for students who wish to acquire skills of the spoken language with a minimum of formal grammar. Continued oral practice in speaking, understanding, and correct pronunciation of Italian, using online and audiovisual materials depicting everyday situations. (CSU)

**ITAL 203: Intermediate Italian III**

*5.0 Units. 4 lecture and 3 lab hrs/wk. Prerequisite: ITAL 102.*

In-depth study of Italian with grammar review, composition, and introduction to literature. The language laboratory offers the use of audiovisual materials for improved fluency and accuracy in pronunciation as well as the presentation of cultural and literary topics. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B and 6: UC Language other than English

**ITAL 204: Intermediate Italian IV**

*4.0 Units. 4 lecture hrs/wk. Prerequisite: ITAL 203.*

Continuation of study and practice in speaking, understanding, reading, and writing Italian. Completion of in-depth review of Italian grammar, as well as readings in literature, history, and culture of the Italian people. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B and 6: UC Language other than English

**ITAL 225: Advanced Italian I**

*3.0 Units. 3 lecture hrs/wk. Prerequisite: ITAL 204.*

Courses aimed at expanding the student’s knowledge of the Italian language and civilization through the study of grammar and literature. Emphasis is placed on acquiring an advanced level of verbal expression in conversation, reading, and writing. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B and 6: UC Language other than English

**ITAL 226: Advanced Italian II**

*3.0 Units. 3 lecture hrs/wk. Prerequisite: ITAL 225 or equivalent.*

An advanced course offering practice in speaking, understanding, reading and writing Italian, emphasizing the civilization and culture of Italy. The course introduces literary analysis of short stories, poems and novels. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B and 6: UC Language other than English

**ITAL 228: Italian Conversation and Culture Through Film**

*1.0 Unit. 3 lecture hrs/wk. Prerequisite: ITAL 102.*

This course introduces students to Italian cinema, culture, and language. Focus is on acquiring and improving conversational ability and cultural comprehension through the study of film. Students practice speaking and writing Italian extensively and build practical vocabulary, emphasizing comprehension and oral/written expression. (CSU/UC) AA/AS Area C
JAPANESE

A major reason for studying the Japanese language is the enrichment of one's intellectual growth in the context of the rest of the world. In learning Japanese, one also learns about the culture, philosophy, and civilization of another people, thereby broadening understanding of the world. On the practical side, any field of specialization (journalism, medicine, law, business, teaching) is enhanced if one can speak another language. In California, knowledge of a modern language is now required in many jobs that deal with the public such as Civil Service, social work, nursing, and other service-oriented fields.

Career Options

Department Phone: 415-485-9480

Policy Statement Regarding Sequence of Enrollment in Japanese Language Classes
Although students are advised to enroll in language courses sequentially, they will not be precluded from enrolling in lower level language classes after completion of more advanced courses. Students should be aware, however, that units resulting from the lower level courses may not be accepted at transfer institutions as a part of the required transferring units.

JAPANESE COURSES (JPNS)

JPNS 101: Elementary Japanese I
5.0 Units. 4 lecture and 3 TBA hrs/wk. No prerequisite.
A beginning course offering study and practice in speaking, understanding, reading, and writing Japanese along with an exploration of the cultural aspects of Japan. The weekly laboratory requirement enhances students' verbal and listening comprehension skills through use of the audiovisual materials. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 6: UC Language other than English

JPNS 102: Elementary Japanese II
5.0 Units. 4 lecture and 3 lab hrs/wk. Prerequisite: JPNS 101.
Students further develop their ability to speak, read, and write Japanese in this class. They increase their knowledge of Japanese culture and society, improve communication skills, and learn 100 Kanji characters. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B or 6: UC Language other than English

JPNS 108: Japanese Conversation through the Movies
1.0 Unit. 1.125 lecture hrs/wk. Repeat: 3. Prerequisite: JPNS 101.
This course offers intensive study of practical Japanese conversation via presentation of selected films of certain Japanese directors, such as Akira Kurosawa, Kon Ichikawa, or Masaki Shudo. Students read selections from the original novels or film scripts. May be taken more than once for credit provided the same topic is not repeated. (CSU) AA/AS Area C (three units)

JPNS 110: Conversational Japanese
4.0 Units. 3 lecture and 3 TBA hrs/wk. No prerequisite.
Use of modern colloquial Japanese in conversation and the study of elementary grammar. Designed for students who wish to acquire skills of the spoken language with a minimum of formal grammar. Oral practice in speaking, understanding, and correct pronunciation of Japanese, using audiovisual materials depicting everyday situations. (CSU)

JPNS 112: Conversational Japanese II
4.0 Units. 3 lecture and 3 TBA hrs/wk. Prerequisite: JPNS 101 or 110.
Continued use of modern colloquial Japanese in conversation and the study of elementary grammar. Designed for students who want to learn the spoken language at a faster pace, with a minimum of formal grammar. Use of audio materials improves accuracy and fluency in pronunciation. (CSU)

JPNS 203: Intermediate Japanese III
5.0 Units. 4 lecture and 3 lab hrs/wk. Prerequisite: JPNS 102.
An in-depth study of Japanese, with grammar review, oral practice, composition, and introduction to literature. The language laboratory offers the use of audiovisual materials for improved fluency and accuracy in pronunciation as well as the presentation of cultural and literary topics. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B and 6: Language other than English

JPNS 204: Intermediate Japanese IV
4.0 Units. 4 lecture hrs/wk. Prerequisite: JPNS 203.
Continuation of the study and practice of speaking, understanding, reading, and writing Japanese. Completion of in-depth review of grammar, as well as readings in the literature, history, and culture of the Japanese people. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B and 6: Language other than English

JPNS 225: Advanced Japanese I
3.0 Units. 3 lecture hrs/wk. Prerequisite: JPNS 204.
This course is aimed at expanding students' knowledge of Japanese language, culture, history, ways of thinking and geography, through the study of advanced grammar, literature, essays and newspaper articles. Emphasizes the acquisition of an advanced level of verbal expression in discussion, reading and writing. (CSU) CSU Area C-2, IGETC Area 3B and 6: UC Language other than English

JPNS 226: Advanced Japanese II
3.0 Units. 3 lecture hrs/wk. Prerequisite: JPNS 225.
This course is aimed at further expanding students' knowledge of Japanese language, culture, history, ways of thinking and geography, through the study of advanced grammar, literature, essays and newspaper articles. Emphasizes the acquisition of an advanced level of verbal expression in discussion, reading and writing. (CSU) CSU Area C-2, IGETC Area 3B and 6: UC Language other than English
JOURNALISM

The main goals of journalism courses are to prepare students to become accurate and thorough researchers and precise writers. The discipline emphasizes the need to think and write clearly and has a two-fold purpose: to prepare students for careers in newspaper work, television, and radio news or public relations, and to provide a study of mass media communications for students who desire to enhance their liberal education.

Career Options
Advertising Copywriter, Broadcaster, Feature Writer, Newspaper Writer, Photojournalist, Print Journalist, Public Relations Worker, Publications Editor, Publicist: Trade/Business/Labor, Writer/Editor

Department Phone: 415-485-9348

JOURNALISM COURSES (JOUN)

JOUN 110: Introduction to Mass Communication and Media Literacy
3.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: ECON 125 or ETST 125 or HIST 125 or POLS 125 or SSC 125. May be taken as JOUN 110 or COMM 110; credit awarded for only one course.

A critical survey of mass media from a humanities and social science perspective, this course provides an overview of the salient theories, history, and economic and social forces that shape mass media technologies and messages. Students examine the historical development of major print, electronic, interactive, and image-based media in terms of their sociocultural consequences and influence in order to more effectively interpret and make decisions about the meanings of mass media messages. (CSU/UC) AA/AS Area C, CSU Area D-7, IGETC Area 4G

JOUN 115: Reporting and Writing for Mainstream Media
3.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: ENGL 120 or 120SL.

This course introduces writing for the modern media including newspapers, Internet, television, radio, magazines, public relations, advertising, and photojournalism. Major topics include "the newsroom," the ingredients of a news story, qualities of good writing and ethics, interviewing, gathering information, feature writing, press releases, obituaries, press conferences, "beats," and the legal ramifications of reporting. Skills in reporting and writing a news story are developed through writing for the student newspaper or other publications. (CSU)

JOUN 122: Newspaper and Media Production I
3.0 Units. 9 lab hrs/wk. Repeat: 1. No prerequisite. Advisory: JOUN 115 or ENGL 150.

This laboratory course gives students the opportunity to apply their knowledge and skills in news writing and reporting for all journalistic-based media. Students in this course serve as the editorial board of the student newspaper, “The Echo Times,” together with JOUN 123, they produce the newspaper and its website. Students produce summaries and special leads, headlines, story and page designs. (CSU)

JOUN 123: Newspaper and Media Production II
3.0 Units. 9 lab hrs/wk. Repeat: 1. No prerequisite.

This laboratory course gives students who wish to help produce the student newspaper and work on its website, but who do not wish to be writers for the paper, the opportunity to develop their knowledge and skills in a variety of journalistic production functions, including advertising, circulation, graphics, photography, desktop publishing, website design and maintenance, and development of digital journalism products such as audio slideshows. Together with JOUN 122, students in this class produce the student newspaper and website. (CSU)

JOUN 160: Images of Race, Gender, and Class in the Media
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as JOUN 160 or COMM 160; credit awarded for only one course.

This course is designed to help students become more “media literate” and socially aware by critically examining the role of the media in enabling, facilitating, or challenging various social constructions including race, ethnicity, gender, sexual orientation, age, and disability. The course addresses a variety of entertainment and news content in print and electronic media, and analyzes these texts within their historical context. (CSU/UC) AA/AS Areas C and G, CSU Area D-3 or D-4, IGETC Area 4C and 4D

KINESIOLOGY

A career in kinesiology or physical education offers many job possibilities. One may be a director or a counselor or instructor in a program of physical activity at a camp or youth agency. Other possibilities are playground supervisor or coach of a team or officiating at sports events. There are also opportunities for teaching children with special problems such as physical or mental disabilities.

Career Options
Activity Specialist, Adaptive Physical Education Specialist, Athletic Club Manager, Athletic Equipment Salesperson, Athletic Trainer, Camp Director, Coach, Correctional Officer, Corrective Therapist, Emergency Medical Technician, Fire Fighter, Health Club Staff Member, Athletic Manager, Massage Therapist, Park Director, Physical Therapist, Police Officer, Professional Athlete, Public Health Educator, Recreation Leader/Director, Recreation Therapist, Recruiter, Scout, Sports Official, Sports Shop Owner/Operator, Sportswriter/Announcer, Stunt Performer, Teacher/Instructor

TOTAL MAJOR UNITS 18

Personal Fitness Trainer Skills Certificate

Skills Certificates are an acknowledgement that the student has attained a specified set of competencies within an occupational program. Skills Certificates may be part of a “ladder” of skills, beginning with job entry skills and leading to a full Certificate of Achievement program or may constitute a skill set that enables a student to upgrade or advance in an existing career. Skills Certificates require less than 18 units and are shorter in duration than the Certificate of Achievement.

The Personal Fitness Trainer Skills Certificate constitutes a skill and knowledge set that enables students to either begin as an entry-level Personal Fitness Trainer (PFT) or advance in their already existing PFT careers.

16.5-17.5

**Kinesiology Courses (KIN)**

**KIN 107: Human Biology**

3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as KIN 107 or BIOL 107; credit awarded for only one course.

This course introduces the structure, function, and development of the human body, and foundational concepts to explore personal and societal issues involving human biology. Topics include an introduction to scientific methods of investigation and some elementary chemistry (no previous background necessary) as a basis for understanding human functions such as movement, digestion, circulation, reproduction, and other systems. Some diseases and other causes of body malfunction are discussed. (CSU/UC) AA/AS Area A, CSU Area B-2, IGETC Area 5B

**KIN 110ABCD: Mat Pilates**

1-2 Units. 3-6 activity hrs/wk. No prerequisite.

This sequence of courses, from beginning to advanced levels, introduces the Pilates method of body conditioning, emphasizing core musculature as it applies to everyday movement, and developing core strength, posture, breath control, body alignment and flexibility. Benefits include balance, body awareness, relaxation, injury prevention, stress reduction and increased self-confidence. (CSU/UC) AA/AS Area H

**KIN 112ABCD: Zumba Fitness**

1-2 Units. 3-6 activity hrs/wk. No prerequisite.

Zumba is a fusion of Latin and international music-dance themes, creating a dynamic, exciting, effective fitness system. This sequence of courses, from beginning to intermediate levels, features aerobic/fitness interval training and resistance training with a combination of fast and slow rhythms that maximize caloric output and tone and sculpt the body. (CSU/UC) AA/AS Area H

**KIN 114: Introduction to Kinesiology**

3.0 Units. 3 lecture hrs/wk. Can be taken as HED 114 or PE 114; credit awarded for only one course.

This course introduces an interdisciplinary approach to the study of human movement, provides an overview of the importance of the sub-disciplines in kinesiology, and addresses career opportunities in the areas of teaching, coaching, allied health and fitness professions. (CSU/UC)

**KIN 117ABCD: Basketball**

0.5-2 Units. 2-6 activity hrs/wk. No prerequisite.

This sequence of courses, from beginning to advanced levels, is designed for all students interested in playing basketball. Individual offensive, defensive and team concepts of basketball are emphasized. (CSU/UC) AA/AS Area H
KIN 118: Sports Nutrition for Health and Performance
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as KIN 118 or HED 118; credit awarded for only one course.
This course is designed for personal fitness trainers, athletes, coaches and parents seeking sports-specific nutrition for aerobic, anaerobic and speed-endurance training. Topics include fueling the athlete, energy systems, metabolism, hydration, sports nutrition products, ergogenics, weight management, and sports-specific nutritional needs to improve athletic performance. (CSU)

KIN 119: Effective Teaching Strategies in Wellness and Fitness
3.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: HED 114 or KIN 114. Can be taken as HED 119 or KIN 119; credit awarded for only one course.
This course is designed to help students become more effective wellness and fitness professionals. Students develop a toolbox of practical teaching, learning and evaluation methods to increase their ability to convey their knowledge to others in this field and more successfully impact their future clients, students, or athletes. (CSU)

KIN 120: Introduction to Sport and Exercise Psychology
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as KIN 120 or PSY 130; credit awarded for only one course.
This course examines the psychological theories and techniques that are applied to sport, exercise and other achievement-related situations. The course emphasizes the enhancement of performance and personal growth of athletes, coaches, and exercise participants. Students also learn mental skills that they can transfer from sport and exercise settings to their everyday lives. (CSU)

KIN 121: Personal Trainer Certification Course
3.5 Units. 3 lecture and 1.5 lab hrs/wk. No prerequisite. Advisory: BIOL 107 or PE 107.
This course prepares students to meet the stringent certification standards set forth by the American Council on Exercise (ACE). Through a variety of health and fitness training and evaluation techniques, students engage in an assortment of practical experiences while developing a thorough understanding of core exercise concepts and principles. Practical scientific theory as well as the hands-on application skills necessary for the delivery of safe and effective health and fitness within the general population are emphasized. (CSU)

KIN 125ABCD: Fitness
0.5-2 Units. 2-6 activity hrs/wk. No prerequisite.
This course introduces principles and guidelines for developing physical fitness, from beginning to advanced levels. Students participate in exercises and activities designed to improve their cardiovascular system and muscular strength. The course includes jogging, hiking, power walking, and strength and flexibility routines. Exercise routines may also be performed with cardio machines, free weights, and physio balls. (CSU/UC) AA/AS Area H

KIN 126: Plyometric Training
1-2 Units. 3-6 activity hrs/wk. No prerequisite.
This course utilizes plyometric training techniques to enhance competitive athletic performance in conjunction with “boot camp training,” working core level muscles, aerobic and anaerobic capacities, and upper body strength. (CSU/UC) AA/AS Area H

KIN 127: Functional Training
1-2 Units. 3-6 activity hrs/wk. No prerequisite.
This course introduces principles and guidelines for developing physical fitness using functional movements. Exercise activities use functional body weight movements to improve strength, flexibility, endurance, and explosion. Movements may include a combination of jumping, sprinting, pushing, and pulling; routines may include medicine balls, ropes, agility ladders, and suspension training. (CSU)

KIN 128: High-Intensity Interval Training
0.5-2 Units. Weekly activity hours: 2 for .5 units, 3 for 1 unit, or 6 for 2 units. No prerequisite.
This advanced fitness course uses the High-Intensity Interval Training (HIIT) system of organizing cardiorespiratory training, which calls for repeated short-duration, high-intensity exercise intervals interspersed with lower-intensity intervals of active recovery. (CSU)

KIN 129ABCD: Golf
1-2 Units. 3-6 activity hrs/wk. No prerequisite.
This sequence of courses, from beginning to advanced levels, focuses on skill development and acquiring the knowledge to participate in and enjoy the sport of golf. Demonstration, audio-visual aids, lecture, and active participation are utilized to achieve improvement and enjoyment of golf. (CSU/UC) AA/AS Area H

KIN 131: Intercollegiate Student Athlete Success
2.0 Units. 2 lecture hrs/wk. No prerequisite.
This course introduces the skills necessary to become a successful intercollegiate athlete. Topics include, but are not limited to, NCAA and NAIA rules and regulations, goal-setting, communication, time- and stress-management, and injury prevention. (CSU)

KIN 132: Individual Activities
1.0 Unit. 3 lab hrs/wk. No prerequisite.
This course is designed for the student who is unable to enroll in a regularly scheduled physical activity class. Individual fitness programs are developed and logged by each student with guidance from the instructor to meet personal fitness goals. (CSU/UC) AA/AS Area H

KIN 143: Introduction to Sports Medicine
3.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: KIN 107 or BIOL 107. Can be taken as KIN 143 or HED 143; credit awarded for only one course.
This course introduces methods of prevention, recognition, evaluation, rehabilitation, reconditioning, taping, and immediate care of athletic injuries to the upper and lower extremities. The course can benefit coaches from all sports, students interested in the athletic training profession, and the physically active individual. Anatomy, mechanism-of-injury, and pathology are stressed. (CSU/UC)

KIN 147: Soccer
0.5-2 Units. 2-6 activity hrs/wk. No prerequisite.
This course emphasizes the development of soccer technical skills, knowledge of game rules, indoor and outdoor soccer team tactics, and systems of play. This course teaches and builds upon the funda-
mentals of soccer in order to enhance the future soccer performance of all students. (CSU/UC) AA/AS Area H

KIN 155ABCD: Swimming
0.5-2 Units. 2-6 activity hrs/wk. No prerequisite.
This sequence of courses, from beginning to advanced levels, presents a variety of strokes and skills necessary to be competent in the aquatic environment. Emphasizes stroke and endurance development. (CSU/UC) AA/AS Area H

KIN 156ABCD: Aquatic Fitness
0.5-2 Units. 2-6 activity hrs/wk. No prerequisite. Advisory: Knowledge and demonstration of efficient swimming skill.
This sequence of courses, from beginning to advanced levels, provides students the opportunity to develop and maintain cardiovascular fitness through swimming. Instruction in competitive swim strokes, starts, and turns; and in interval, sprint, and distance training. Individualized workouts available. (CSU/UC) AA/AS Area H

KIN 160ABCD: Tennis
1-2 Units. 3-6 activity hrs/wk. No prerequisite.
This sequence of courses, from beginning to advanced levels, familiarizes students with the game of tennis, emphasizing fundamental skills and strategy. (CSU/UC) AA/AS Area H

KIN 164: Sports Conditioning
1-2 Units. 3-6 activity hrs/wk. No prerequisite.
This course instructs students in the various forms of conditioning and training techniques used in different sports, emphasizing muscle balance, breath control, aerobic training, anaerobic training, flexibility, nutrition, time management, injury prevention, and strength training. (CSU/UC) AA/AS Area H

KIN 167ABCD: Volleyball
0.5-2 Units. 2-6 activity hrs/wk. No prerequisite.
This sequence of courses, from beginning to advanced levels, instructs students in the fundamentals of volleyball, including passing, serving, hitting, and setting. It focuses on promoting team play by emphasizing rules and strategies. (CSU/UC) AA/AS Area H

KIN 169ABCD: Weight Training
0.5-2 Units. 2-6 activity hrs/wk. No prerequisite.
This sequence of courses, from beginning to advanced levels, introduces the basic principles of fitness using a variety of modalities including weight machines and free weights. Students create an individual fitness program with a focus on proper technique and injury prevention. (CSU/UC) AA/AS Area H

KIN 173ABCD: Yoga
0.5-2 Units. 2-6 activity hrs/wk. No prerequisite.
This sequence of courses, from beginning to advanced levels, focuses on the physical aspects of yoga, emphasizing proper alignment to maximize the benefits of the practice. Students develop strength, flexibility, endurance, and grace in the poses. (CSU/UC) AA/AS Area H

INTERCOLLEGIATE ATHLETIC PROGRAM:
An extensive intercollegiate athletic program for both men and women is available. This program includes the following classes; each may be taken four times for credit. (CSU/UC) AA/AS Area H

All courses: 2.0 Units. Ten to fifteen activity hours weekly. Prerequisite: Team member.

KIN 175: Baseball
KIN 176: Basketball (Men and Women)
KIN 180: Soccer (Men and Women)
KIN 181: Softball (Women)
KIN 182: Volleyball (Women)
KIN 183: Swimming and Diving (Men and Women)
KIN 185: Track and Field (Men and Women)

KIN 190: Baseball Theory
1.5-2 Units. 1 lecture and 1.5 lab hrs/wk for 1.5 units. Repeat: 3. No prerequisite.
An intensive course designed to train students in the development of a baseball program at any level. Emphasizes the development of individual technique and skills. (CSU/UC) AA/AS Area H

KIN 191: Soccer Theory
1.5-2 Units. 1 lecture and 1.5 lab hrs/wk for 1.5 units. Repeat: 3. No prerequisite.
This course, for intermediate/advanced soccer players looking to further their knowledge of the sport, emphasizes the history and evolution of the game of soccer, defensive and offensive tactics, training methods, current trends, and the rules of the game. Includes soccer-themed training in strength, speed, and agility. (CSU/UC) AA/AS Area H

KIN 192: Basketball Theory
1.5-2 Units. 1 lecture and 1.5 lab hrs/wk for 1.5 units. Repeat: 3. No prerequisite.
This course helps students understand the fundamentals of playing and coaching basketball. Individual and team skills development are stressed. (CSU/UC) AA/AS Area H

KIN 193: Swimming Theory
1.5-2 Units. 1 lecture and 1.5 lab hrs/wk for 1.5 units. Repeat: 3. No prerequisite.
This intensive course helps students understand and utilize the fundamentals and theory of training and competing in the sport of swimming. Emphasizes the development of individual technique and skills. (CSU/UC) AA/AS Area H

KIN 194: Volleyball Theory
1.5-2 Units. 1 lecture and 1.5 lab hrs/wk for 1.5 units. Repeat: 3. No prerequisite.
This intensive course helps students understand and utilize the fundamentals and theory of training and competing in the sport of volleyball. Emphasizes the development of individual technique and skills. (CSU/UC) AA/AS Area H
KIN 196: Softball Theory
1.5-2 Units. 1 lecture and 1.5 lab hrs/wk for 1.5 units. Repeat: 3. No prerequisite.
An intensive course designed to train students in the development of a softball program at any level. Emphasizes the development of individual technique and skills. (CSU/UC) AA/AS Area H

KIN 198: Track and Field Theory
1.5-2 Units. 1 lecture and 1.5 lab hrs/wk for 1.5 units. Repeat: 3. No prerequisite.
An intensive course designed to help students understand and utilize the fundamentals and theory of training for and competing in the sport of track and field. Emphasizes the development of team and individual techniques and skills. (CSU) AA/AS Area H

KIN 215: Advanced First Aid/First Responder
3.0 Units. 2.5 lecture and 1.5 hrs/wk. No prerequisite. May also be taken as FIRE 215; credit awarded for only one course.
This introductory course is designed for lay persons interested in, or for professionals who require, First Responder training per State of California (Title 22) or U.S. DOT standards. The class teaches the basic pre-hospital care skills needed to render care at the scene of an emergency until more highly trained emergency medical response personnel arrive. Includes basic anatomy and body systems; lifting and moving patients; airway management; patient assessment; medical, behavioral, and trauma emergencies; terrorism awareness; and an overview of the Emergency Medical Services (EMS) system. This course is a prerequisite for the Emergency Medical Technician Program. (CSU/UC)

LIBRARY
Learning the techniques of library research will enable students to make use of this resource with confidence and efficiency. Library Skills courses enable students to manage information in an era of information explosion, whether their interests are academic, professional, or personal.

Faculty
John Erdmann, Sarah Frye, David Patterson
Department Phone: 415-485-9475

LIBRARY COURSE (LIBR)

LIBR 110: Introduction to Library Resources: A Self-Directed Approach
1.0 Unit. 1.125 TBA hrs/wk. No prerequisite. Self-paced. No regularly scheduled class meetings. Completion of the course represents approximately eighteen to thirty-six hours of academic work.
A self-paced course that facilitates the use of the library and teaches the basic skills needed for library research. The resources studied and the skills learned are applicable to any library - academic, public or special. Topics include the card catalog; important reference works such as encyclopedias, dictionaries, and almanacs; periodicals; periodical indexes; and book reviews. (CSU/UC)

MACHINE AND METALS TECHNOLOGY
Study in the field of machine and metals technology is designed as preparation for entrance into metalworking occupations. Graduates may enter the fields dealing with industrial production, prototype construction, special die work, or research and development. The courses in welding are designed to provide opportunity for the development of skills, knowledge, and experience for employment in the occupation and as auxiliary experience for persons in other majors.

Career Options
Certified Welder, Lathe Operator, Machinist, Machinist Apprentice, Mechanical Technician, Numerical Control Operator, Production Welder, Tool and Die Maker, Tool Company Representative, Welder Fabricator, Welding Technician

Faculty
Arthur Lutz
Department Phone: 415-883-2211, Ext. 8108

A.S. IN MACHINE AND METALS TECHNOLOGY, OCCUPATIONAL
(Certificate of Achievement also awarded.)
An Associate of Science degree in Machine and Metals Technology, Occupational is awarded for satisfactory completion of the major requirements, as well as the general education requirements. A Certificate of Achievement is awarded for satisfactory completion of the major requirements as listed below. This program is offered at the Indian Valley Campus. Note: Students are required to complete English 150 for the associate degree. All students should consult a counselor.

REQUIREMENTS UNITS
First Semester
MACH 130 Welding I 2
MACH 140 Intermediate Machine Tool Processes 4
MACH 145 Computer Numerical Control Machining/Mill 3
MACH 165 Blueprint Reading for the Machine Trades 2
Second Semester
CIS 101 Introduction to Personal Computers and Operating Systems 1.5
ELEC 100 Fundamentals of Electronics 2
MACH 97 Machine Trades Math 2
MACH 155 Computer Numerical Control Machining/Lathe 3
MACH 240 Advanced Machine Tool Processes 4
Third Semester
ENGG 256 Practical Materials Science 3
MACH 131 Welding II 2
MACH 250 Applications of Machine Tool Technology 2
WE 298B Occupational Work Experience B 2
TOTAL MAJOR UNITS 32.5
MACHINE AND METALS TECHNOLOGY COURSES (MACH)

MACH 120: Machine Technology I
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite.
A survey course in the principles of general machine shop processes utilizing lathes, milling machines, surface grinders and drilling machines; practice in general bench operations and the use of precision measuring and machining instruments. May be taken three times for credit. (CSU)

MACH 121: Machine Technology II
2.0 Units. 1 lecture and 3 lab hrs/wk. Prerequisite: MACH 120.
This course builds upon the fundamentals established in MACH 120. Emphasizes advanced machining techniques utilizing lathes, milling machines, grinders, and drilling machines. Perfecting manipulative skill, competency, and machine tool theory is stressed. (CSU)

MACH 130: Welding I
2.0 Units. 1 lecture and 3 lab hrs/wk. No prerequisite.
Fundamental theory and application of welding shop tools and power equipment. Introduction to oxy-fuel welding and cutting, manual shielded arc (stick), and welding in the flat and horizontal positions. Technical study and practice in the safe use of gases, grinders, torches, and arc welders. (CSU)

MACH 130A: Welding
2.0 Units. 1 lecture and 3 lab hrs/wk. No prerequisite.
(For course description, please see MACH 130.) (CSU)

MACH 131: Welding II
2.0 Units. 1 lecture and 3 lab hrs/wk. Prerequisite: MACH 130.
Introductory theory and application of the MIG, TIG, and Plasma processes. Advanced stick welding on plate in all positions. (CSU)

MACH 131A: Welding II
2.0 Units. 1 lecture and 3 lab hrs/wk. No prerequisite.
(For course description, please see MACH 131.) (CSU)

MACH 140: Intermediate Machine Tool Processes
4.0 Units. 2 lecture and 6 lab hrs/wk. No prerequisite. Advisory: MACH 120.
This course is an intermediate level practice and theory of metal removal and fabrication, emphasizing the use of lathes, milling machines, grinders, and drills. Theoretical considerations include measurement, layout and planning, cutting tool theory, feeds and speeds, tooling, heat treatment, and numerical control overview. (CSU)

MACH 145: Computer Numerical Control Machining/Mill
3.0 Units. 3 lecture hrs/wk. No prerequisite.
A course in the theoretical principles and practical applications of computer numerical control with CAD-CAM applied to the milling machine and machine centers. (CSU)

MACH 155: Computer Numerical Control Machining/Lathe
3.0 Units. 3 lecture hrs/wk. No prerequisite.
A lecture and demonstration course presenting the principles of modern computer numerical control practice on lathes and horizontal machining centers. Students learn to program, edit, and set up equipment. CAD-CAM software use will be covered. (CSU)

MACH 165: Blueprint Reading for the Machine Trades
2.0 Units. 2 lecture hrs/wk. No prerequisite.
This course provides instruction in blueprint reading for machinists and for related mechanical trades. Course material includes view visualization, dimensioning methods, terminology and standards, and geometric tolerancing. Metrics and welding symbology will be included. (CSU)

MACH 230: Advanced Welding
2.0 Units. 1 lecture and 3 lab hrs/wk. No prerequisite.
Advanced theory and application of the MIG, TIG and Plasma processes. Preparation for plate certifications with the MIG and stick processes. May be taken three times for credit. (CSU)

MACH 230A: Advanced Welding
2.0 Units. 1 lecture and 3 lab hrs/wk. No prerequisite.
(For course description, please see MACH 230.) (CSU)

MACH 240: Advanced Machine Tool Processes
4.0 Units. 2 lecture and 6 lab hrs/wk. No prerequisite.
This advanced course on the theory and practice of metal removal and fabrication emphasizes advanced practice on lathes, milling machines, surface grinders, and heat treating equipment. Theoretical considerations include precision measurement techniques, cutting tool technology, gearing, and nontraditional machining methods. Computer numerical control and CAD-CAM techniques will be discussed. (CSU)

MACH 250: Applications of Machine Tool Technology
2.0 Units. 6 lab hrs/wk. No prerequisite.
Advanced laboratory practice for students pursuing certification in machine and metals technology. Projects involve state-of-the-industry techniques. (CSU)
MATHEMATICS

The courses in mathematics provide training in both pure and applied mathematics, leading to careers in business, research, and government. Many majors (such as physical and biological sciences, engineering, and business) are dependent upon the use of applied mathematics.

Career Options

Faculty
Maula Allen, George Golitzin, John Jacob, Jacek Kostyrko, Laurie Ordin, Irina Roderick, Frederick Schmitt, Maria Young

A.S.-T. IN MATHEMATICS

Associate in Science in Mathematics for Transfer degree (AS-T)

This degree is primarily intended for the student who wants to earn a degree on the way to transferring to a California State University.

To complete the Associate in Science in Mathematics for Transfer degree, a student must:

1. Complete 60 semester units or 90 quarter units that are eligible for transfer to the California State University, including both of the following:
   - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education – Breadth Requirements.
   - A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district.

2. Complete all courses in the major with a grade of “C” or better, or “P” if the course is taken as “pass/no pass.”

3. Obtain a minimum grade point average of 2.0.

**REQUIREMENTS**

Remaining CSU Transferable Electives (IGETC/CSU-GE): 3-9 units/1-7 units

**TOTAL DEGREE UNITS:** 60

MATHEMATICS COURSES (MATH)

In addition to traditional lecture-based mathematics courses, College of Marin also offers a self-paced “Individualized Mathematics Program” in the Math Lab at both campuses. The self-paced lab courses are: Math 95XY, 101XY, and 103XY.

The college offers a mathematics assessment testing service to help students make informed decisions when enrolling in mathematics courses. Students are provided with test scores. Students registering for mathematics courses who need help in interpreting their placement test scores, and/or in deciding whether to register for or remain enrolled in a mathematics course, can seek assistance from a counselor or their mathematics instructor.

For information about the Mathematics Assessment Test, students can call the Testing Office at (415) 485-9469 (located in the Student Services Center, Room 238, Kentfield Campus) or (415) 883-2211, ext. 8510 (Indian Valley Campus).

All mathematics courses may be taken for a letter grade or pass-no pass. In general, courses required for a transfer student’s four-year major should be taken on a letter grade basis.

BASIC SKILLS MATH COURSES – NONTRANSFERABLE

**MATH 025: Coping with Math Anxiety**

0.5 Unit. 0.5 lecture hrs/wk. No prerequisite.

A four-week course designed to help all students from all areas confront and deal with their fears and anxieties with mathematics.

**MATH 085: Arithmetic Skills**

2.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: COUN 125.

The fundamentals of arithmetic with emphasis on computational skills. Topics include addition, subtraction, multiplication, and division of whole numbers, problem solving, applications, and an introduction to decimals.

**MATH 095: Basic and Intermediate Math Skills**

2.0 Units. 3 lecture hrs/wk. Prerequisite: Math 85 or sufficient score on Math Assessment Test.

This course covers addition, subtraction, multiplication, and division of whole numbers, fractions, mixed numerals, and decimals; square roots, percents, and applications of arithmetic to include ratio and proportion; some pre-algebra topics; and measurement to include area and volume. This course or its equivalents satisfy the prerequisite for Math 101. The course is offered in two additional modes: in a self-paced mode in the Math Lab (Math 95XY), and in a two-semester lecture/discussion mode (Math 95AB).

**MATH 095X: Basic Math Skills**

1.0 Unit. 1 lecture and 3 lab hrs/wk. Prerequisite: Math 85. Approximately four hours weekly in the Math Lab for eight weeks or until the course is completed.

Taken with Math 95Y, this course is equivalent to Math 95. It is designed for students who wish to develop basic mathematics skills in a self-paced environment. Topics include addition, subtraction, multiplication, division, square roots, prime numbers, greatest
common divisors, least common multiples, and arithmetic of whole numbers. Fractions and decimals are used in applied problems. Ratio and proportion to include applications.

**MATH 095Y: Intermediate Math Skills**
1.0 Unit. 1 lecture and 3 lab hrs/wk. Prerequisite: Math 95A or Math 95X. Approximately four hours weekly in the Math Lab for eight weeks or until the course is completed.

Taken with Math 95X, this course is equivalent to Math 95. It is designed for students wishing to develop intermediate mathematics skills in a self-paced environment. Topics include percent; elementary statistics to include averages and graphs; measurement to include length, area and volume; pre-algebra, and applications.

**COLLEGE LEVEL MATH COURSES – NONTRANSFERABLE**

**MATH 101: Elementary Algebra**
3.0 Units. 5 lecture hrs/wk. Prerequisite: Math 95 or 95B or 95Y or sufficient score on Math Assessment Test.

A one-semester introduction to elementary algebra. Topics will include linear equations, inequalities, systems with applications, polynomials, rational expressions, exponents, roots, radicals, and quadratic equations. This course or its equivalents satisfy the prerequisite for Math 103. The course is offered in two additional modes: in a self-paced mode in the Math Lab (Math 101XY), and in a two-semester lecture/discussion mode (Math 101AB).

**MATH 101A: Elementary Algebra I**
1.5 Units. 5 lecture hrs/wk. Prerequisite: Math 95 or 95B or 95Y or sufficient score on Math Assessment Test.

An introduction to elementary algebra. Taken with Math 101B, this course is equivalent to Math 101. It is designed for students wishing to take more time learning elementary algebra. Topics include linear equations and inequalities, slope of lines, linear graphs, and systems of equations.

**MATH 101B: Elementary Algebra II**
1.5 Units. 5 lecture hrs/wk. Prerequisite: Math 101A or 101X.

A continuation of elementary algebra. Taken with Math 101A, this course is equivalent to Math 101. It is designed for students wishing to take more time learning elementary algebra. Topics include polynomials, rational expressions, exponents, roots, radicals, and quadratic equations.

**MATH 101X: Elementary Algebra**
1.5 Units. 6.5 lab hrs/wk. Prerequisite: Math 95 or 95B or 95Y or satisfactory score on Math Assessment Test. Students may not be enrolled concurrently in Math 101Y. An average of six hours weekly in the Math Lab for eight weeks or until the course is completed.

For students wishing to learn elementary algebra in a self-paced environment. This pair of courses taken in sequence, Math 101X followed by Math 101Y, is equivalent to Math 101. Topics include algebraic notation, properties of integers and rational numbers, operations on integers and rational numbers, solving equations and systems, operations with polynomials, operations with fractional expressions, applied problems and formulas.

**MATH 101Y: Elementary Algebra**
1.5 Units. 6.5 lab hrs/wk. Prerequisite: Math 101X. An average of six hours weekly in the Math Lab for eight weeks or until the course is completed.

For students wishing to learn elementary algebra in a self-paced environment. This pair of courses taken in sequence, Math 101X followed by Math 101Y, is equivalent to Math 101. Topics include solving equations containing fractional expressions, systems of equations and graphs, inequalities, operations with radicals, quadratic equations, and applied problems.

**MATH 103: Intermediate Algebra**
5.0 Units. 5 lecture hrs/wk. Prerequisite: Math 101 or 101AB or 101XY or satisfactory score on Math Assessment Test.

This one-semester course extends many of the concepts introduced in elementary algebra. The real number properties, polynomials, rational expressions, first degree equations, inequalities and applications, exponents, radicals, quadratic equations, and complex numbers are treated in greater detail. In addition, functions and their graphs, systems of equations and inequalities, matrices, linear programming, and exponential and logarithmic functions are covered. This course or its equivalents satisfy the prerequisite for Math 104, 105, 109, 110, 114, 115, and 121. The course is offered in two additional modes: in a self-paced mode in the Math Lab (Math 103XY), and in a two-semester lecture/discussion mode (Math 103AB). AA/AS Math Proficiency; AA/AS Area E

**MATH 103A: Intermediate Algebra I**
2.5 Units. 5 lecture hrs/wk. Prerequisite: Math 101 or 101AB or 101XY or satisfactory score on Math Assessment Test.

This course, taken with Math 103B, is equivalent to Math 103. It is designed for students wishing to take more time learning intermediate algebra. Topics include real number properties, polynomials, rational expressions, first degree equations, inequalities and applications, systems of linear equations with matrix elimination methods, linear programming, functions, and graphs. AA/AS Math Proficiency (combined with Math 103B); AA/AS Area E (combined with Math 103B)

**MATH 103B: Intermediate Algebra II**
2.5 Units. 5 lecture hrs/wk. Prerequisite: Math 103A or 103X.

This course, taken with Math 103A, is equivalent to Math 103. It is designed for students wishing to take more time learning intermediate algebra. Topics include quadratic, radical, and quadratic form equations; relation, functions, inverses and their graphs; graphs and equations of lines, parabolas, and circles; systems of equations and inequalities; matrices and linear programming; exponential and logarithmic functions; applications. AA/AS Math Proficiency (combined with Math 103A); AA/AS Area E (combined with Math 103B)

**MATH 103X: Intermediate Algebra**
2.5 Units. 1 lecture and 5 lab hrs/wk. Prerequisite: Math 101 or 101AB or 101XY or satisfactory score on Math Assessment Test. Students may not be enrolled concurrently with Math 103Y. An average of six hours weekly in the Math Lab until the course is completed. Students wishing to complete 103X and Y in one semester must complete 103X in eight weeks.

This self-paced course, the first of a two-part sequence equivalent to Math 103, is an extension of the concepts introduced in elementary algebra. New topics include absolute value inequalities and equa-
tions, systems of linear equations with matrix elimination methods, linear programming, functions and graphs.
AA/AS Math Proficiency (combined with Math 103Y); AA/AS Area E (combined with Math 103Y)

**MATH 103Y: Intermediate Algebra**
2.5 Units. 1 lecture and 5.625 lab hrs/wk. Prerequisite: Math 103A or 103X. An average of six hours weekly in the Math Lab until the course is completed.
This self-paced course, the second of a two-part sequence equivalent to Math 103, is an extension of the concepts introduced in elementary algebra. New topics include rational expressions; equations and their applications; radicals, equations, and applications; quadratic functions and their graphs and applications; exponential and logarithmic functions and applications; conic sections; systems of nonlinear equations; and the binomial theorem.
AA/AS Math Proficiency (combined with Math 103X); AA/AS Area E (combined with Math 103X)

**COLLEGE LEVEL MATH COURSES – TRANSFERABLE**

**MATH 104: Plane Trigonometry**
3.0 Units. 3 lecture hrs/wk. Prerequisite: Math 103 or 103AB or 103XY or satisfactory score on Math Assessment Test.
Trigonometric and inverse trigonometric functions; graphs, equations and identities involving the trigonometric functions; triangle solutions, vector applications, and DeMoivre’s Theorem. (CSU) AA/AS Area E, CSU Area B-4

**MATH 105: College Algebra**
4.0 Units. 4 lecture hrs/wk. Prerequisite: Math 103 or 103AB or satisfactory score on Math Assessment Test. May be taken concurrently with Math 104.
This course includes an introduction to the elementary logic necessary for understanding mathematical proofs; emphasis on functions and graphs (both algebraic and transcendental); polynomial equations and their roots; solutions of inequalities (including absolute values); introduction to sequences, series, and conic sections. (CSU/UC) AA/AS Area E, CSU Area B-4

**MATH 109: Pre-Calculus College Algebra and Trigonometry**
5.0 Units. 5 lecture hrs/wk. Prerequisite: 103 or 103AB or 103XY or satisfactory score on Math Assessment Test.
An intensive, combined course in pre-calculus, algebra, and trigonometry, intended to prepare students for calculus. Topics include polynomial, rational, exponential, logarithmic and trigonometric functions; the binomial theorem; arithmetic and geometric sequences and series; mathematical induction; trigonometric identities; polar coordinates; conic sections; vectors; and applications of right angle trigonometry. (CSU/UC) AA/AS Area E, CSU Area B-4, IGETC Area 2

**MATH 115: Probability and Statistics**
4.0 Units. 4 lecture hrs/wk. Prerequisite: Math 103 or 103AB or 103XY or satisfactory score on Math Assessment Test. Credit will be awarded for either Math 115 or STAT 115, but not both courses.
An in-depth introduction to probability and statistics appropriate for students in the math and life/earth science disciplines. Descriptive statistics, introduction to probability theory, probability distributions, data sampling, estimation, correlation, hypothesis testing. (CSU/UC) AA/AS Area E, CSU Area B-4, IGETC Area 2

**MATH 116: Linear Algebra**
3.0 Units. 3 lecture hrs/wk. Prerequisite: Math 123.
The study of systems of linear equations, matrix algebra, vector spaces, inner product spaces, linear transformations, eigenvalues and eigenvectors, and applications. (CSU/UC) AA/AS Area E, CSU Area B-4, IGETC Area 2

**MATH 117: Discrete Mathematics**
3.0 Units. 3 lecture hrs/wk. Prerequisite: Math 121 or 123. Can be taken as Math 117 or COMP 117; credit awarded for only one course.
A survey of topics including set theory, combinatorics, graph theory, algorithm, logic, Boolean algebra, formal languages, and probability theory. Recommended for mathematics majors and students interested in engineering and applied fields. (CSU/UC) CSU Area B-4, IGETC Area 2A

**MATH 121: Calculus I with Applications**
3.0 Units. 3 lecture hrs/wk. Prerequisite: Math 103 or 103AB or 103XY or satisfactory score on Pre-Calculus Assessment Test.
Topics include limits, continuity, derivatives, integrals, exponential, and logarithmic functions. Standard applications of the derivative to drawing graphs of functions of one real variable and to optimization problems are included. Business applications of profit maximization and consumer/producer surplus are covered. (CSU/UC) AA/AS Area E, CSU Area B-4, IGETC Area 2

**MATH 122: Calculus II with Applications**
3.0 Units. 3 lecture hrs/wk. Prerequisites: Math 121, and Math 104 or satisfactory score on Trigonometry Placement Test.
Topics include multivariable calculus, partial derivatives, double integrals, methods of integration, the calculus of trigonometric functions, first order ordinary differential equations, calculus applied to probability and statistics, infinite series, and applications. (CSU/UC) AA/AS Area E, CSU Area B-4, IGETC Area 2

**MATH 123: Analytic Geometry and Calculus I**
5.0 Units. 5 lecture hrs/wk. Prerequisites: Math 104 or 104XY and Math 105, or Math 109, or satisfactory score on Math Placement Test.
Introduction to differential and integral calculus of functions of one real variable. Continuous functions, limit of a function at a point, the derivative; differentiation formulas and rules for one-variable functions, implicit differentiation; mean value theorem and its applications, drawing graphs of functions of one real variable and to optimization problems, the Riemann integral to finding areas, volumes of solids of revolutions, work, centroids, and total force on a plane submerged in a fluid. (CSU/UC) AA/AS Area E, CSU Area B-4, IGETC Area 2

**MATH 124: Analytic Geometry and Calculus II**
5.0 Units. 5 lecture hrs/wk. Prerequisite: Math 123.
A continuation of Math 123 to include the inverse function theorem for functions of one real variable, derivatives of inverse trigonometric, exponential, logarithmic, hyperbolic and inverse hyperbolic functions. Introduction to first order ordinary differential equations, techniques of integration, improper integrals, indeterminate forms, sequences, series, power series functions, and the calculus of
MEDICAL ASSISTING

This program provides the opportunity for the development of basic entry-level skills necessary for employment in a clinical/medical office environment. In a rapidly growing profession, medical assistants work directly with physicians and other health care personnel as team members in providing patient services. Medical assistants perform a variety of clinical, laboratory, and administrative functions in physicians' offices, medical clinics, laboratories, and specific hospital departments.

The program is offered only at the Indian Valley Campus. Students may elect to complete an Associate in Science degree, or a Certificate of Achievement: Administrative and Clinical, Administrative, or Clinical. Students may elect to complete a Skills Certificate for Medical Terminology Skills and MediSoft Skills. The Certificate of Achievement options require a minimum of two semesters to complete. Students may take courses on a part-time basis.

Career Options
Administrative and/or Clinical Medical Office Assistant, Clinical/ Administrative Research Assistant, Insurance Coder/Biller, Medical Lab Assistant (Clinics, Hospitals, Private Labs), Medical Office Manager, Veterinary Hospital Front Office Assistant

Department Phone: 415-485-9319
Cesar Pomajucal, Program Coordinator
Phone: 415-883-2211, Ext. 8536

Recency Statement
Medical Assisting courses must be completed no longer than five years before departmental certification is awarded. Courses taken greater than five years before certification award must be repeated, or the student can pursue credit by examination.

A.S. IN MEDICAL ASSISTING: ADMINISTRATIVE AND CLINICAL OPTION, OCCUPATIONAL
(Certificate of Achievement also awarded.)
The Associate in Science degree is awarded for completion of all requirements, as well as the completion of general education and graduation requirements. Note: Students are required to complete English 150 for the associate degree. All students should consult a counselor. The Certificate of Achievement is awarded for completion of the program requirements as shown in the following list. Please note that program courses must be completed with a grade of C or better.

No program application procedure is required; however it is advisable to see a counselor. Students may enter in the fall or spring semester. Those currently working in the health care field may receive consent to enroll in selected courses on a pass/no pass basis.

</table>
MEDA 161: Administrative Medical Office Procedures
2.0 Units. 2 lecture hrs/wk. No prerequisite.
This course, designed for students interested in pursuing a career in medical assisting, provides an overview of the current health care delivery system; the physical, mental and emotional demands of the workplace and the skills required of medical assistants. The course covers qualifications and professional preparation needed for medical assisting and the roles and responsibilities of today’s health care environment. Additional topics include interpersonal dynamics and communications, safety practices in the workplace, legal and ethical principles and cultural diversity in the delivery of patient care. (CSU)

MEDA 162: Medical Office Financial Procedures
1.5 Units. 1.5 lecture hrs/wk. No prerequisite.
This course examines the basic financial operations and procedures used in medical offices. Topics include accounting principles and methods, banking, financial record management, financial procedure terms, international classification of diseases, management of claims and working with private, public, managed care and government-sponsored health insurance programs. (CSU)

MEDA 163: Medical Office Computers: MediSoft
2.0 Units. 2 lecture hrs/wk. No prerequisite. Corequisite: MEDA 163L. Advisories: BOS 120 and CIS 101.
This theory course introduces software used for patient financial record management. It focuses on the basic functions of the MediSoft program, including recording patient information, creating and updating patient financial records, entering patient and insurance company financial transactions, and scheduling appointments. (CSU)

MEDA 163L: Medical Office Computers - MediSoft Laboratory
0.5 Unit. 1.5 lab hrs/wk. No prerequisite. Corequisite: MEDA 163. Advisories: BOS 120 and CIS 101.
This laboratory class applies theory learned in MEDA 163, providing students with practical experience on the computer using the MediSoft program. (CSU)

MEDA 164: The Electronic Health Record
2.0 Units. 2 lecture hrs/wk. No prerequisite. Corequisite: MEDA 164L. Advisories: BOS 120 and CIS 101.
This theory course introduces electronic medical records used in the health care setting, focusing on the development and maintenance of patients’ electronic medical record (based on a Spring Chart software format). Topics include health record standards, data management, patient chart basics, appointments, recording office visit information, and laboratory test and prescription order management. (CSU)

MEDA 164L: The Electronic Health Record Laboratory
0.5 Unit. 1.5 lecture hrs/wk. No prerequisite. Corequisite: MEDA 164. Advisories: BOS 120 and CIS 101.
This laboratory class applies theory learned in MEDA 164, providing students with practical experience on the computer using electronic health record software. (CSU)
MEDA 165: Medical Terminology I
2.0 Units. 2 lecture hrs/wk. No prerequisite. May be taken before or after MEDA 166.
This course introduces the fundamentals of medical term analysis and word construction, emphasizing the spelling of anatomical, pathological, surgical and diagnostic terminology. Material is presented in a systems approach with units on the integumentary, respiratory, cardiovascular, musculoskeletal and nervous systems. (CSU)

MEDA 166: Medical Terminology II
2.0 Units. 2 lecture hrs/wk. No prerequisite. May be taken before or after MEDA 165.
This course introduces the fundamentals of medical term analysis and word construction, emphasizing the spelling of anatomical, pathological, surgical and diagnostic terminology. Material is presented in a systems approach with units on the urinary, digestive, male and female reproductive, obstetrics and neonatology, eye, ear and endocrine systems. (CSU)

MEDA 170: Clinical Procedures I
2.0 Units. 2 lecture hrs/wk. No prerequisite. Corequisite: MEDA 170L.
This course introduces clinical medical assisting techniques and procedures commonly practiced in a medical office or clinic: vital signs, anthropometric measurements, assisting with minor office surgery, performing selected physical therapy procedures, sterilization and disinfection of instruments, sterile and nonsterile dressing changes, medical office emergencies, visual screening and auditory acuity, and assisting with complete and selected specialty exams. Medical asepsis and infection control are emphasized during all procedures. (CSU)

MEDA 170L: Clinical Procedures I Laboratory
1.0 Unit. 3 lab hrs/wk. No prerequisite. Corequisite: MEDA 170.
This skills lab introduces clinical medical assisting performance and skills techniques and procedures common to primary care in a family practice medical office: vital signs, anthropometric measurements, assisting with minor office surgery, promoting tissue healing through selected physical therapy modalities, demonstrating appropriate sterilization and disinfection procedures, safely operating the autoclave, performing sterile and nonsterile dressing changes, responding to emergencies, performing visual and auditory irrigation, medication administration, ear acuity testing, and positioning the patient for selected specialty exams. Students must demonstrate appropriate hand washing at all times. (CSU)

MEDA 171: Medical Laboratory Procedures
2.5 Units. 2.5 lecture hrs/wk. Prerequisite: MEDA 170. Corequisite: MEDA 171L.
This course introduces selected and common screening laboratory and clinical procedures performed in medical offices. Topics include EKGs, the microscope, hematology, urinalysis, various specimen collections, radiology and diagnostic tests. Asepsis and universal precautions are stressed. The role of medical assistants in procedures including injections and skin tests is discussed. (CSU)

MEDA 171L: Medical Laboratory Procedures Laboratory
1.5 Units. 4.5 lab hrs/wk. Prerequisite: MEDA 170. Corequisite: MEDA 171.
This course is the medical laboratory that accompanies MEDA 171. Students practice basic laboratory skills and learn how to perform diagnostic tests in medical office and clinical laboratories, and how to administer injections and venipunctures. (CSU)

MEDA 172: Understanding Human Diseases
3.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: MEDA 165 or 166.
This theory course presents human diseases from an anatomic and physiologic point of view. Signs and symptoms are presented after a brief review of anatomical and physiological components. Diagnosis and general treatment are also introduced. Includes lecture and case studies to provide and reinforce theory, and to develop critical thinking skills. (CSU)

MEDA 173: Pharmacology for Medical Assistants
1.5 Units. 1.5 lecture hrs/wk. Prerequisite: Math 85. Advisories: MEDA 165 or 166.
This theory course introduces common drugs and medications, drug terminology, pharmacy law and ethics, prescription abbreviations, measurements and dosage calculations, and drug classifications and actions. (CSU)

MEDA 174LA: Medical Assisting Externship - Administrative
2.5 Units. 7.5 lab hrs/wk. Prerequisites: MEDA 160, 161, 162, 164, and 165 or 166; additional requirements: recent physical examination, health clearance, required immunizations; BLS/CPR certificates required before the first day of externship.
This experience facilitates students’ transition into the role of the medical assistant. Working under the direct supervision of licensed healthcare professionals in a medical office or clinical setting, students participate in front-office management within the administrative medical assistant scope of practice. (CSU)

MEDA 174LB: Medical Assisting Externship - Clinical
2.5 Units. 7.5 lab hrs/wk. Prerequisites: MEDA 160, 164, 170, 172, and 165 or 166; additional requirements: recent physical examination, health clearance, required immunizations; BLS/CPR certificate required on first day of externship.
This experience facilitates students’ transition into the role of the medical assistant. Working under the direct supervision of licensed healthcare professionals in a medical office or clinical setting, students provide care to patients and participate in front-office management within the clinical medical assistant scope of practice. (CSU)

MEDA 174LC: Medical Assisting Externship - Administrative and Clinical
2.5 Units. 7.5 lab hrs/wk. Prerequisites: MEDA 160, 161, 162, 164, 170, 172, and 165 or 166; additional requirements: recent physical examination, required immunizations, health clearance; BLS/CPR certificate required on first day of externship.
This experience facilitates students’ transition into the role of the medical assistant. Working under the direct supervision of licensed healthcare professionals in a medical office or clinical setting, students provide care to patients and participate in front-office
management within the administrative and clinical medical assistant scope of practice. (CSU)

MULTIMEDIA STUDIES

This program is designed to provide a link between content, technology and creative vision for emerging digital artists. Each course provides hands-on experience for professional advancement, career related training, and transfer preparation for university degrees. Each course develops the creative process through project-based learning that prepares students to be resourceful and independent, and to succeed in the wide range of multimedia careers.

Career Options
Animator, Application Designer, Art Director, CGI Effects Artist, Game Level Designer, Graphic or Production Artist, Illustrator, Interface Designer, Project Manager, Video Editor, Video Producer, Visual Designer, Web Designer, Web Developer

Faculty
James Gonzalez, Derek Wilson
Department Phone: 415-457-8811, Ext. 8200

A.S. IN MULTIMEDIA STUDIES

(Certificate of Achievement also awarded. Skills Certificates in Multimedia Foundation, Multimedia 3-D, Print Design, Video Production, and Web Authoring available.)

This curriculum is designed to provide education for digital and new media-related careers, professional advancement and transfer preparation.

A Certificate of Achievement is awarded for completion of the core program plus course requirements for each intended specialty.

An Associate in Science (A.S.) degree is awarded for completion of all requirements in the core program and chosen specialty as well as completion of general education and graduation requirements.

Note: Students are required to complete English 150 for the associate degree. All students should consult a counselor.

Repetition Policy
Students may petition to repeat MMST courses if two years have lapsed since they last attended said course. College of Marin petition procedures are located in the Enrollment Services section of the catalog.

Core Requirements
The following courses are required of all Multimedia Studies degree and Certificate of Achievement students:

<table>
<thead>
<tr>
<th>REQUIREMENTS</th>
<th>UNITS</th>
</tr>
</thead>
<tbody>
<tr>
<td>MMST 101 Orientation to Multimedia</td>
<td>.5</td>
</tr>
<tr>
<td>MMST 110 Introduction to Multimedia</td>
<td>3</td>
</tr>
<tr>
<td>MMST 111 Multimedia Production</td>
<td>3</td>
</tr>
<tr>
<td>MMST 213 Internship in Multimedia</td>
<td>3</td>
</tr>
<tr>
<td><strong>TOTAL CORE UNITS</strong></td>
<td><strong>12.5</strong></td>
</tr>
</tbody>
</table>

Specialties
In addition to the core requirements listed above, each Multimedia Studies degree and Certificate of Achievement student will complete one of the following specialties:

AUTHORING SPECIALTY
Provides training and experience of digital media as it applies to website design, development, and promotion with an emphasis on skills related to the production of interactive content for delivery over the web.

<table>
<thead>
<tr>
<th>REQUIREMENTS</th>
<th>UNITS</th>
</tr>
</thead>
<tbody>
<tr>
<td>MMST 131A Web Design I</td>
<td>3</td>
</tr>
<tr>
<td>MMST 131B Web Design II</td>
<td>3</td>
</tr>
<tr>
<td>MMST 131C Web Design III</td>
<td>3</td>
</tr>
<tr>
<td>MMST 134A Interactive Media Design I</td>
<td>3</td>
</tr>
<tr>

</tr>
<tr>
<td>MMST 200A Authoring: Portfolio Development</td>
<td>3</td>
</tr>
<tr>
<td><strong>TOTAL MAJOR UNITS</strong></td>
<td><strong>27.5 including core</strong></td>
</tr>
</tbody>
</table>

DESIGN SPECIALTY
Provides an overview of training and experience required for a career in design. The Design Specialty includes the growing number of formats affected by design--interactive, print, web, and mobile devices. Traditional elements of graphic design are also covered.

<table>
<thead>
<tr>
<th>REQUIREMENTS</th>
<th>UNITS</th>
</tr>
</thead>
<tbody>
<tr>
<td>MMST 112 Design I: Fundamentals</td>
<td>3</td>
</tr>
<tr>
<td>MMST 120 Multimedia I: Digital Drawing</td>
<td>3</td>
</tr>
<tr>
<td>MMST 122 Design II: Graphics &amp; Typography</td>
<td>3</td>
</tr>
<tr>
<td>MMST 150 Photoshop I: Intermediate Techniques</td>
<td>3</td>
</tr>
<tr>
<td>MMST 183 Design III: Page Layout</td>

<tr>
<td>MMST 200E Entertainment: Portfolio Development</td>
<td>3</td>
</tr>
<tr>
<td><strong>TOTAL MAJOR UNITS</strong></td>
<td><strong>27.5 including core</strong></td>
</tr>
</tbody>
</table>

Skills Certificates
Skills Certificates are an acknowledgement that the student has attained a specified set of competencies within an occupational program. Skills Certificates may be part of a “ladder” of skills, beginning with job entry skills and leading to a full Certificate of Achievement program or may constitute a skill set that enables a student to upgrade or advance in an existing career. Skills Certificates require less than 18 units and are shorter in duration than the Certificates of Achievement.

Multimedia Studies Skills Certificates
Each Multimedia Studies Skills Certificate student must complete the required courses as outlined for the specific certificate(s):

<table>
<thead>
<tr>
<th>REQUIREMENTS</th>
<th>UNITS</th>
</tr>
</thead>
<tbody>
<tr>
<td>MMST 124 Beginning Modeling, Texturing, and Animation in 3DS Max</td>
<td>3</td>
</tr>
<tr>
<td>MMST 163 3D Character Animation: Complex Lighting and Materials</td>
<td>3</td>

</tbody>
</table>
MULTIMEDIA STUDIES COURSES (MMST)

MMST 101: Orientation to Multimedia
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. Advisory: MMST 100.
Digital media is becoming the predominant method for receiving news and entertainment. This course covers the tools and techniques needed to become literate in this new digital media universe. Armed with the knowledge and skills learned in the course, students will be able to safely and effectively find and consume the tremendous amount of digital media now available in many formats and delivery platforms. (CSU)

MMST 110: Introduction to Multimedia
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. Advisory: MMST 100.
Mass media is giving way to personal and participatory media. This survey course examines these changes and their likely long-term effects, on both the media industry and society. Coursework introduces students to a wide range of digital media content, including interactive media, mobile media, search engines, streaming video and audio, podcasts, online communities, blogs, wikis and other social media. (CSU)

MMST 111: Multimedia Production
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. Advisory: CIS 110.
An opportunity to explore the different aspects and content of multimedia projects. Students are introduced to team development and production schedules as they learn the basic tools and methods for developing graphics, sound, video, and authored environments that simulate real-life projects and deadlines. (CSU)

MMST 112: Design I: Fundamentals
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite.
This course provides fundamental knowledge of visual design as it applies to multimedia and graphic design. General topics include illustration, logo design, packaging, photo processing, color correction, and visual design for websites. Assignments involve the creation of original work using current digital software tools. Design skills are developed through projects, research, and critiques. (CSU)

MMST 120: Multimedia I: Digital Drawing
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite.
This course provides hands-on training of sketching, drawing, and illustrating using current hardware, tablets, and creative software. Traditional pictorial skills and knowledge are developed through hands-on multimedia drawing projects. (CSU)

MMST 122: Design II: Graphics and Typography
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. Advisory: MMST 112.
This course provides typography and graphic design knowledge through hands-on projects for visual design. Topics include typography, color methods, design theory, and production techniques. Assignments involve the creation of original work using current digital software tools. Design skills are developed through projects, research, and critiques. (CSU)

MMST 124: Beginning Modeling, Texturing, and Animation in 3DS Max
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite.
This foundation class provides working knowledge, resources, and learning techniques for 3D software. The class covers beginning 3D modeling and texturing to create models appropriate for real-time and pre-rendered contexts, animating non-character assets using the broad toolset available to 3D animators, and character animation using simple deformations. Students develop self-evaluation techniques to expand the skills necessary to produce photo-real or fantasy models. (CSU)

MMST 125: Intermediate Modeling and Texturing in 3DS Max
3.0 Units. 2 lecture and 3 lab hrs/wk. Prerequisite: MMST 124.
This course emphasizes modeling/texturing usable assets for real-time and pre-rendered contexts. Animating non-character assets, using the broad toolset available to 3D animators, and/or character animation using simple deformations. Techniques are reviewed and refined to build self-evaluation skills and to produce usable photo-real or fantasy models, with focus on control using available tools. (CSU)

MMST 130: Multimedia II: Digital Painting
3.0 Units. 2 lecture hrs/wk. No prerequisite. Advisory: MMST 120.
This course provides hands-on training of sketching, under-painting, and painting using current hardware, tablets, and creative software. Traditional pictorial skills and knowledge will be developed through hands-on multimedia painting projects. (CSU)

MMST 131A: Web Design I
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. Advisory: MMST 101.
This course introduces the tools and practices of modern Web site design and development. Students learn methods for designing and creating attractive and effective Web pages. Production skills are developed through the research, design, development and testing of a small Web site. (CSU)

MMST 131B: Web Design II
3.0 Units. 2 lecture and 3 lab hrs/wk. Prerequisite: MMST 131A.
This course provides intermediate-level instruction in the tools and practices of modern Web site design and development. Students learn methods for designing and creating Web sites that are attractive, functional, and easy to use. Production skills are developed through the research, design, development and testing of working Web sites. (CSU)
MMST 131C: Web Design III
3.0 Units. 2 lecture and 3 lab hrs/wk. Prerequisite: MMST 131B.
This course provides advanced-level instruction in the tools and practices of modern Web site design and development. Students learn methods for designing and creating Web sites that are attractive, functional, and easy to use. Production skills are developed through the research, design, development and testing of working Web sites. (CSU)

MMST 134A: Interactive Media Design I
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. Advisory: MMST 101.
This course introduces the tools and practices of modern interactive media design and development. Design and production skills are developed through the research, design, development, and debugging of interactive media for the Web and other digital media products. (CSU)

MMST 134B: Interactive Media Design II
3.0 Units. 2 lecture and 3 lab hrs/wk. Prerequisite: MMST 134A.
This course provides intermediate-level instruction covering the scripts and tools for creating interactive products for the Web and other media. Design scripting and production skills are developed through the research, design, development, and debugging of interactive media for the Web and other digital media products. (CSU)

MMST 134C: Interactive Media Design III
3.0 Units. 2 lecture and 3 lab hrs/wk. Prerequisite: MMST 134B.
This course provides advanced-level instruction covering the scripting skills and techniques required to design and create fully interactive digital media. Instruction covers modern scripting concepts including all the fundamental components of modern scripting languages, including variables, operators, objects, events, arrays, custom functions, and more. (CSU)

MMST 135: AutoCAD I: Technical Drawing
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. Advisory: MMST 135.
This course develops drafting and technical drawing skills using AutoCAD. Basic math, computer, and drawing skills are highly encouraged for success in this course. The course is ideal for multimedia students interested in further developing their skills to work as 3D artists and animators in the entertainment industry, and also recommended for students pursuing careers in fabrication/prototyping, industrial design, and manufacturing. (CSU)

MMST 141: 3DI: Modeling & Textures
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite.
This course provides working knowledge and techniques to develop and texture models using 3D software. It covers beginning 3D modeling and texturing to create models appropriate as real-time and pre-rendered assets. Students develop skills to create models for animation and games. (CSU)

MMST 142: Game Development I: Design and Creation
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite.
This course introduces students to the basics of game development using analysis, research, and critiques to design and create a working game. Students learn about the game industry and what is expected to develop an interactive/video game through assignments that simulate employment by a game developer. (CSU)

MMST 145: AutoCAD II: 3D Drawing & Printing
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite.
This course develops 3D drafting and drawing skills using AutoCAD. Basic math, computer, and drawing skills are highly encouraged for success in this course. The course is ideal for multimedia students interested in further developing their skills to work as 3D artists and animators in the entertainment industry, and highly recommended for students pursuing careers in fabrication/prototyping, industrial design, and manufacturing. (CSU)

MMST 146: Video and Sound I: Editing
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite.
A conceptual and practical framework for artistic and production video techniques. The course provides hands-on experience in the various production techniques of video editing, including organization, source material, audio, exporting, logging, and archiving. (CSU)

MMST 150: Photoshop I: Intermediate Techniques
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. Advisory: MMST 112.
This course provides intermediate knowledge of creative techniques for imaging and artwork. Design skills are developed through exercises and projects using hands-on exercises, research, and critiques. Includes creative and production techniques to prepare images for professional projects using Photoshop and other current imaging software. (CSU)

MMST 151: 3D II: Modeling & Rigging
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. Advisory: MMST 141.
This course provides working knowledge and techniques to develop and texture models using 3D software. It covers intermediate and advanced 3D modeling and texturing to create models appropriate as real-time and pre-rendered assets. Students develop skills to create models for animation and games. (CSU)

MMST 152: Game Development II: Level Design and Production
3.0 Units. 2 lecture and 3 lab hrs/wk. Prerequisite: MMST 142.
This course guides students through the development process of creating a video game, with emphasis on teamwork. Industry software and techniques are used to design, storyboard, model, animate, script and publish a 3D video game. Students work in teams with assigned tasks to develop a multi-level game, including compelling story and cut-scenes. (CSU)

MMST 156: Video and Sound II: Advanced Editing
3.0 Units. 2 lecture and 3 lab hrs/wk. Prerequisite: MMST 146.
This course offers intermediate and advanced video editing techniques. Topics include asset management, HD and/or 3D source material, stereo and surround audio, exporting to various formats, and color correction. Through hands-on exercises and projects, the course develops creative and technical skills for advanced video editing. (CSU)
MMST 160: Photoshop II: Calibration and Printing
3.0 Units. 2 lecture and 3 lab hrs/wk. Prerequisite: MMST 150.
This course provides advanced knowledge of techniques and practices for successful printing of digital images and artwork. It includes advanced creative and production techniques to prepare students for professional-level projects. Completed work is suitable for portfolios or exhibiting. (CSU)

MMST 161: 3D III: Animation
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite.
The first eight weeks of this course address environment creation for 3D scenes, emphasizing lighting, materials, atmospheres, particle systems and special effects, and how to dress a scene for believability in 3D animation or game play. The second eight weeks introduce the character animation pipeline, including design, modeling, rigging, and animation. A working understanding of artistic principles and 3D and 2D digital graphics is highly recommended. Because this course covers the tools and techniques used to make video game artwork and assets, it complements and integrates with any of the concurrently offered game design courses (MMST 142, 152, 162 and 172). Students develop skills to create models for animation and games. (CSU)

MMST 163: 3-D Character Animation: Complex Lighting and Materials
3.0 Units. 2.5 lecture and 2.5 lab hrs/wk. No prerequisite.
This class focuses on 3-D lighting and how to dress it for believability, including atmospheres and particle systems, as well as special effects such as glows, flares, and blurs. The course develops skills in setting up lights, atmospheres, particle systems, and cameras, in building believable textures, and in creating environments for 3-D animation or game play. (CSU)

MMST 166: Video Effects I: Transitions and Titles
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. Advisory: MMST 146.
This course offers intermediate video editing techniques using effects for effective transitions, titles, and animations. Topics include Chroma keys, Photoshop source material, animation, titles, and color effects. Through hands-on exercises and projects, the course develops creative and technical skills. (CSU)

MMST 171: 3D IV: Advanced Animation
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. Advisory: MMST 161.
The first eight weeks of this course expand existing skills in environment creation for 3D scenes, emphasizing lighting, materials, atmospheres, particle systems, and special effects, and how to dress a scene for believability in 3D animation or game play. The second eight weeks expand existing skills in the character animation pipeline, including design, modeling, rigging, and animation. A working understanding of artistic principles and 3D and 2D digital graphics is highly recommended. Because this course covers the tools and techniques used to make video game artwork and assets, it complements and integrates with any of the concurrently offered game design courses (MMST 142, 152, 162 and 172). Students develop skills to create models for animation and games. (CSU)

MMST 176: Video Effects II: Advanced Techniques
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite.
This course offers advanced video editing techniques using effects. Topics include 3D, motion tracking, character animation, and color. Through hands-on exercises and projects, the course develops creative and technical skills using dynamic effects for motion and composites. (CSU)

MMST 183: Design III: Page Layout
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. Advisory: MMST 150 and 151.
This course provides basic knowledge of layout design as it applies to printed media and paperless publishing. Design and layout skills are developed through hands-on projects. (CSU)

MMST 193: Design IV: Advanced Layout Projects
3.0 Units. 2 lecture and 3 lab hrs/wk. Prerequisite: MMST 183.
This course provides advanced knowledge of layout design and as applied to packaging, digital books and folio apps for tablets. Assignments involve the creation of designs involving 4/C printing, packaging dies, and alternate documents for ebooks and folio apps. (CSU)

MMST 200A: Authoring: Portfolio Development
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. Can be taken as MMST 200A, D, or E, or as Art 200; credit awarded for only one course.
Through lecture, hands-on practice, research and critiques, students develop a professional portfolio that reflects their interests, skills, and career goals in multimedia authoring. The course is for students who have accomplished authoring skills and wish to create a cohesive body of work for the multimedia industry. (CSU)

MMST 200D: Design: Portfolio Development
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. Can be taken as MMST 200A, D, or E, or as Art 200; credit awarded for only one course.
Through lecture, hands-on practice, research and critiques, students develop a professional portfolio that reflects their interests, skills, and career goals in graphic arts or graphic design. The course is for students who have accomplished design skills and wish to create a cohesive body of work for the design or multimedia industry. (CSU)

MMST 200E: Entertainment: Portfolio Development
3.0 Units. 2 lecture and 3 lab hrs/wk. No prerequisite. Can be taken as MMST 200A, D, or E, or as Art 200; credit awarded for only one course.
Through lecture, hands-on practice, research and critiques, students develop a professional portfolio that reflects their interests, skills, and career goals in multimedia entertainment (3D, games, film/video). The course is for students who have accomplished multimedia skills and wish to create a cohesive body of work for the multimedia industry. (CSU)

MMST 210A: Advanced Project: Authoring
0.5 Unit. 1.5 lab hrs/wk. No prerequisite.
This course provides the opportunity to design and implement a group or individual authoring project, and a forum for discussing and testing potential project ideas. Students receive guidance and support to complete their projects. Intended for students who need assistance not available in other multimedia authoring classes. (CSU)
MMST 210D: Advanced Project: Design
0.5 Unit. 1.5 lab hrs/wk. No prerequisite.
This course provides the opportunity to design and implement a group or individual design project, and a forum for discussing and testing potential project ideas. Students receive guidance and support to complete their projects. Intended for students who need assistance not available in other multimedia design classes. (CSU)

MMST 210E: Advanced Project: Entertainment
0.5 Unit. 1.5 lab hrs/wk. No prerequisite.
This course provides the opportunity to design and implement a group or individual entertainment project, and a forum for discussing and testing potential project ideas. Students receive guidance and support to complete their projects. Intended for students who need assistance not available in other multimedia entertainment classes. (CSU)

MMST 213: Internship in Multimedia
3.0 Units. 1 lecture, 1.5 lab and 5 TBA hrs/wk. Repeat: 2. Prerequisite: MMST 200 or Art 200.
This course bridges the gap between the classroom and the multimedia industry, providing an on-campus lecture class coupled with one or more short-term internship projects for real clients. Expectations are characterized by work-group activities, multiple projects under deadline, and collaborative efforts. Internships are not guaranteed. Intern projects may be suitable for students’ portfolios. (CSU)

MUSIC
A career in music today demands from all performers and participants a sophisticated knowledge of theory, history, performance standards, and practices in all musical fields whether classical, jazz, rock, or popular. Whatever branch of the music career you may find yourself pursuing, academic music experience is valuable in your background.

Career Options
Agent, Arranger, Arts Administrator, Band Director, Business Manager, Choral Leader, Composer, Concert Hall Manager, Conductor, Copyist, Disc Jockey, Electronic Writer and Computer Specialist, Instrument Maker, Instrument Repair Technician, Instrumental Musician, Lyricist, Music Coach, Music Critic, Music Director, Music Editor, Music Librarian, Music Publishing Editor, Music Store Owner/Staff, Music Therapist, Musicologist, Performer, Piano Tuner-Technician, Private Instructor, Recreation Therapist, Singer, Teacher

Faculty
Trevor Bjorklund, Paul Smith, Jim Stopher
Department Phone: 415-485-9460

The Music Program at College of Marin
Music students enter college with varying levels of musical experience and training. While certain music courses are open to everyone, a standardized audition is required for more advanced classes. Most classes require that a student have some basic skill at reading musical notation and some familiarity with musical terminology. Music 106 is designed to provide this theoretical background. Students already familiar with classical music periods, forms, and styles may wish to take the Music Placement Test; passing this test exempts students from taking Music 101.

In order to sufficiently understand the required music theory, students are advised to acquire and develop their skills in ear training and piano concurrently with the concepts taught in that level of music theory. Therefore, the program is designed so that a student is enrolled in all the 100-level courses simultaneously (i.e., taking Theory I, Ear Training I, and Piano I all in the same semester). If this is not possible, students are advised to take piano before taking the same level of music theory.

Performance is required of all music majors; they are required to be in a major performing ensemble (see below), and are encouraged to perform in regular monthly recital hours.

To receive a comprehensive music education beyond the degree requirements, the music department recommends certain electives, depending on the student’s area of concentration:

- All music majors need small ensemble experience: Music 180 (for instrumentalists) or Music 183 (for vocalists).
- Jazz students: Music 113 (Jazz Improvisation).
- Composition students: Music 214 (Composition), Music 178, 179, 279 (one or more strings classes on any level), a music notation course, and Music 116 and 117.
- Electronic music students, or students interested in careers in the recording industry: Music 116 and 117.
- Majors in music education or music therapy: Music 178, 179, and 162; a music notation course; and Music 181 and 182.

Performing Ensembles
The Music Department has several performing groups that serve the various interests and abilities of students and the community: an orchestra, bands, choruses, instrumental and choral ensembles, instrumental and vocal jazz ensembles. These groups present scheduled concerts as well as perform on special occasions during the school year.

Music majors must be enrolled in one of the following ensembles each semester: MUS 162, 163, 165, 166, 167, 168, 169, or 177. These large ensembles provide students the opportunity for musical growth at all stages of their development. Participation in a major performing ensemble is just as essential, if not more so, to those just learning the basic music vocabulary as to those who have the opportunity to perform solos with the ensemble. Those whose major performing medium is a band or orchestra instrument must be in either Music 162, 167, or 168. Those whose performance medium is voice, or whose instrument is one not usually associated with ensemble work (piano, guitar, etc.), must be in either Music 163 or 169. Pianists may partly fulfill this requirement as noted in the Music 165 and Music 166 course descriptions, however.

Standardized Auditions
Several music courses require an audition based upon a standardized level of performance. Every student who participates in one of these courses is expected to meet the musical requirements of the particular audition. Auditions will vary from course to course.
A. A. IN MUSIC

Students who complete the requirements listed below, plus additional general education and graduation requirements, will be awarded the associate degree. Note: Students are required to complete English 150 for the associate degree. All students should consult a counselor.

**TOTAL MAJOR UNITS** **36**

* Music majors who are pianists may satisfy two semesters of the major performing ensemble requirements with each of these courses.

### MUSIC COURSES (MUS)

#### MUS 101: Introduction to Classical Music
3.0 Units. 3 lecture hrs/wk. No prerequisite.

The appreciation and enjoyment of classical music through analytical listening. The study of musical elements; the development of musical forms, vocal and instrumental media, the lives of the great composers, and analyses of their works. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A

#### MUS 102: Music Masterworks
3.0 Units. 3 lecture hrs and 1 TBA hrs/wk. No prerequisite. Advisory: Successful completion of either Music 101 or 106.

Guided listening and discussion, with examples of music masterworks from the beginning of available music history to the present. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A

#### MUS 103: History of Musical Theatre
3.0 Units. 3 lecture hrs/wk. No prerequisite. May be taken as Music 103, Dance 103 or Drama 103; credit awarded for only one course.

This course surveys the history of American musical theatre and its effects on popular culture. The course explores the development of the musical in the context of American theatre history, through a multicultural study of the evolution of this uniquely American art form. (CSU/UC) CSU Area C-1, IGETC Area 3A

#### MUS 105: Rock, Pop and Jazz
3.0 Units. 3 lecture hrs/wk. No prerequisite.

A multicultural study of the evolution of American musical styles including blues, early country and folk, jazz, rhythm and blues, soul, rock and roll, pop, mambo, salsa, samba, bossa nova, hip hop, and hybrid forms. Emphasis is on the African-American, European-American, and Latin-American origins of these contemporary styles and their historical contexts. (CSU/UC) AA/AS Areas C & G, CSU Area C-1, IGETC Area 3A

#### MUS 106: Music Fundamentals
3.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: Music 163. Not open to students who have completed Music 111, 112, 211, or 212.

Designed for anyone interested in acquiring basic music skills for performance, teaching or composition. Includes music reading, notation, terminology, piano keyboard, sight singing, and ear training. (CSU/UC) AA/AS Area C, CSU Area C-1

#### MUS 108: Introduction to World Music
3.0 Units. 3 lecture hrs/wk. No prerequisite.

Learn about the world’s cultures through their music, understood on their own terms. Learn to identify non-western musical materials and instruments and non-western rhythms and harmony in order to understand the musical and uniquely cultural meanings inherent in the music of specific populations. The course also introduces ethnomusicology, by exploring methodology distinct from that of traditional western art music. (CSU) AA/AS Area C

#### MUS 109: Music in Society
3.0 Units. 3 lecture hrs/wk. No prerequisite.

Explore the social and psychological effects of everyday music in everyday life, from background music in restaurants and malls, to television commercials and film scores, to personal listening choices in public and private. Learn to "decode" the music that surrounds us, and to understand how genre and medium combine in context-specific situations to produce controlled conscious and subconscious reactions in a “hearing but not listening” public. (CSU/UC) AA/AS Area C, CSU Area C-1, IGETC Area 3A

#### MUS 111: Theory I
3.0 Units. 3 lecture hrs/wk. Prerequisite: read simple music. Advisory: concurrent enrollment in Music 121, 171, and a major performing ensemble.

Beginning music theory. Review of scales, meter signatures, intervals, triads, and seventh chords. Study of four-part harmonic progression including cadences, voice leading and doubling rules, and some non-harmonic tones. (CSU/UC)

#### MUS 112: Theory II
3.0 Units. 3 lecture hrs/wk. Prerequisite: Music 111. Advisory: concurrent enrollment in Music 122, 172, and one major performing ensemble.

Continued study of harmonic progressions, focusing on secondary triads and their inversions, sequences, non-harmonic tones, and counterpoint. Introduction to seventh chords. (CSU/UC)
MUS 113:  Jazz Improvisation  
1.5 Units. 0.5 lecture and 3 lab hrs/wk. Repeat: 3. No prerequisite.  
Advisory: Basic instrumental/vocal technique and a willingness to take risks. 
An introduction to improvisation for instrumentalists and vocalists who wish to develop their ability to perform jazz solos. Students learn jazz harmony, melody and rhythm, and apply this knowledge to the craft of improvisation. (CSU/UC)

MUS 116:  Desktop Musician I  
2.0 Units. 1.5 lecture and 1.5 lab hrs/wk. No prerequisite. 
Basic concepts of electronic music synthesis, digital audio recording, and MIDI. The class emphasizes creating original multi-track recordings using loops, software instruments, and audio tracks; and includes editing, mixing, and mastering techniques. Supervised hands-on practice sessions in addition to required individual lab time. (CSU)

MUS 117:  Desktop Musician II  
2.0 Units. 1.5 lecture and 1.5 lab hrs/wk. Prerequisite: MUS 116. 
A continuation of the basic concepts of electronic music synthesis, digital audio recording, and MIDI. The class emphasizes creating original multi-track recordings using loops, software instruments, and audio tracks; and includes editing, mixing, and mastering techniques. Supervised hands-on practice sessions in addition to required individual lab time. (CSU)

MUS 121:  Ear Training I  
2.0 Units. 1.5 lecture and 1.5 lab hrs/wk. Prerequisite: Read simple music; know major scales. Advisory: Music 106. 
The ear training component of the complete music major package. Instruction includes rhythmic and melodic sight reading and singing; rhythmic, melodic, and harmonic aural perception; and some keyboard harmony. (CSU/UC)

MUS 122:  Ear Training II  
2.0 Units. 1.5 lecture and 1.5 lab hrs/wk. Prerequisite: Music 121. 
The ear training component of the music major package. The course parallels the concepts and harmonic materials taught in Music 112. Instruction includes rhythmic and melodic sight reading; rhythmic, melodic, and harmonic aural perception; some keyboard harmony; melodic and harmonic simple intervals; triads in inversions and V7 chords; diatonic melodies; subdivisions of the beat into 2 to 4 parts; and harmonic progressions, including diatonic triads and V7. (CSU/UC)

MUS 151:  Applied Music I  
1.0 Unit. 1 lecture hrs/wk. Repeat: 3. No prerequisite. Corequisite: MUS 106, 111, 112, 211, or 212, or by audition. 
This course, designed for music majors, is the individualized study of the appropriate undergraduate transfer-level techniques and repertoire for the specific instrument (or voice) being studied. It emphasizes the progressive development of skills needed for solo performance. Each week students take a 1-hour individual lesson and complete appropriate practice hours. Achievement is evaluated through a juried performance. (CSU)

MUS 162:  Band  
1.5 Units. 0.5 lecture and 3 lab hrs/wk. Repeat: 3. Prerequisite: Standardized audition. 
A daytime instrumental ensemble for traditional band instrumentalists. Intermediate players are accepted as well as more advanced ones. This course satisfies the major performing ensemble requirement for music majors. A public performance is required. (CSU/UC)

MUS 163:  College Chorus  
1.5 Units. 0.5 lecture and 3 lab hrs/wk. Repeat: 3. No prerequisite. 
A chorus of mixed voices open to all students. The rehearsal and performance of choral music of a moderate degree of difficulty. Vocal techniques and musical skills are emphasized. Participation in public performances is required. (CSU/UC)

MUS 165:  Piano Ensemble  
1.5 Units. 0.5 lecture and 3 lab hrs/wk. Repeat: 3. Prerequisite: Standardized audition. 
The study, rehearsal, and performance of music for piano ensemble (one piano/four hands, two pianos/four hands, etc). Music majors who are pianists may satisfy two semesters of the major performing ensemble requirement with this course. (CSU/UC)

MUS 166:  Piano Repertoire and Interpretation  
1.5 Units. 0.5 lecture and 3 lab hrs/wk. Repeat: 3. Prerequisite: Music 272 and standardized audition. 
A chronological survey of piano literature, stressing stylistic features. Students will perform in class and at a final recital. Music majors who are pianists may satisfy two semesters of the major performing ensemble requirement with this course. (CSU/UC)

MUS 167:  Symphony Orchestra  
1.5 Units. 0.5 lecture and 3 lab hrs/wk. Repeat: 3. Prerequisite: Standardized audition. 
The study, rehearsal, and performance of music composed for chamber orchestra and full symphony orchestra from Baroque, Classical, Romantic, and contemporary periods. Fulfills the Major Performing Ensemble requirement for the Associate degree in Music. Participation in public performances is required. (CSU/UC)

MUS 168:  Community Symphonic Band  
1.5 Units. 0.5 lecture and 3 lab hrs/wk. Repeat: 3. Prerequisite: Standardized audition. 
An instrumental ensemble for traditional band instrumentalists. This course satisfies the Major Performing Ensemble requirement for music majors. Participation in public performances is required. (CSU/UC)

MUS 169:  Marin Oratorio: the Community Chorus at College of Marin  
1.5 Units. 0.5 lecture and 3 lab hrs/wk. Repeat: 3. Prerequisite: Standardized audition. 
A chorus of mixed voices of experienced choral singers that prepares and performs choral masterworks. Students must have previous choral experience, a pleasing, blending voice, and music reading ability. Advanced vocal techniques and choral skills are emphasized. Participation in public performances is required. Students may be required to participate in sectional rehearsals outside of class time and to assist in various facets of concert production. (CSU/UC)
MUS 171: Piano I
1.0 Unit. 0.5 lecture and 1.5 lab hrs/wk. No prerequisite. Advisory: Read simple music, or Music 106.
This series of courses builds skills for keyboard proficiency, developing musicianship and correlating with subjects studied in other components of the music program. (CSU/UC)

MUS 172: Piano II
1.0 Unit. 0.5 lecture and 1.5 lab hrs/wk. No prerequisite. Advisory: Music 171.
This series of courses builds skills for keyboard proficiency, developing musicianship and correlating with subjects studied in other components of the music program. (CSU/UC)

MUS 177: Jazz Ensemble
1.5 Units. 0.5 lecture and 3 lab hrs/wk. Repeat: 3. Prerequisite: Standardized audition.
A course in large jazz ensemble performance. Intermediate and advanced skills are required. This course satisfies the major performance ensemble requirement for music majors. A public performance is required. (CSU/UC)

MUS 178: Strings I
1.0 Unit. 0.5 lecture and 1.5 lab hrs/wk. No prerequisite. Advisory: Ability to read simple music, or Music 106.
Beginning study in an orchestral string instrument, including violin, viola, cello and string bass. (CSU/UC)

MUS 179: Strings II
1.0 Unit. 0.5 lecture and 1.5 lab hrs/wk. No prerequisite. Advisory: Ability to read simple music, or Music 178.
Beginning instruction in an orchestral string instrument, including violin, viola, cello and string bass. (CSU/UC)

MUS 180: Chamber Music Ensemble
1.5 Units. 0.5 lecture and 3 lab hrs/wk. Repeat: 3. Prerequisite: Standardized audition.
The study, rehearsal and performance of repertoire for small instrumental ensembles (may include voice). Music from Baroque, Classical, Romantic, and Modern eras may be included, depending on skill level of players and instrumentation available. (CSU/UC)

MUS 181: Voice I
1.0 Unit. 0.5 lecture and 1.5 lab hrs/wk. No prerequisite. Advisory: Read simple music, or Music 106.
Elementary class instruction in the fundamentals of singing, principles of tone production, and voice development. (CSU/UC)

MUS 182: Voice II
1.0 Unit. 0.5 lecture and 1.5 lab hrs/wk. No prerequisite. Advisory: Music 181.
Continued elementary class instruction in the fundamentals of singing, principles of tone production, and voice development. (CSU/UC)

MUS 183: Chamber Singers
1.5 Units. 0.5 lecture and 3 lab hrs/wk. Repeat: 3. Prerequisite: Standardized audition.
A small select choir of mixed voices performing music written for small choral ensembles. Participation in public performances is required. (CSU/UC)

MUS 190: Opera Workshop
2.0 Units. 6 lab hrs/wk. Repeat: 3. Prerequisite: Standardized audition.
Rehearsal and performance of a staged opera production. Participation in public performance is required and is the final exam for the course. (CSU)

MUS 191: Musical Production: Orchestra
1.5 Units. 3.5 lab hrs/wk. Repeat: 3. Prerequisite: Standardized audition.
Rehearsal and performance of orchestral accompaniment to staged musical productions. Participation in public performances is required and is the final exam for this course. (CSU/UC)

MUS 192: Opera Festival
0.5 Unit. 1.5 lab hrs/wk. Repeat: 3. Prerequisite: Standardized audition.
Restaging of an on-campus opera production for off-campus performances. Participation in public performances is required and is the final exam for the course. (CSU)

MUS 193: Musical Production: Cast
1.5 Units. 3.5 lab hrs/wk. Repeat: 3. Prerequisite: Standardized audition.
Rehearsal and performance of all vocal music aspects of staged musical production. Participation in public performances is required and is the final exam for this course. (CSU/UC)

MUS 211: Theory III
3.0 Units. 3 lecture hrs/wk. Prerequisite: Music 112. Advisory: concurrent enrollment in Music 221, 271, and a major performing ensemble.
Students will study four-part harmony utilizing diatonic sevenths, secondary chords, and modulation. Exercises, analysis, and composition are included, as well as some keyboard harmony. Introduction to short forms of composition. (CSU/UC)

MUS 212: Theory IV
3.0 Units. 3 lecture hrs/wk. Prerequisite: Music 211. Advisory: concurrent enrollment in Music 222, 272, and a major performing ensemble.
Further study of chromatic harmony, including mode mixture, Neapolitan and augmented sixths, extended harmony, and modulation to more remote keys, followed by an overview of impressionism and 20th and 21st century compositional techniques. Analysis and composition, some keyboard applications. (CSU/UC)

MUS 214: Music Composition Seminar
3.0 Units. 3 lecture hrs/wk. Prerequisite: ability to read and write musical notation.
The study of compositional techniques, methods of notation, and individual creation of musical compositions. Students work on creative assignments of their own choice, listen to recordings, present in-class performances, and complete several small or one large composition during the semester. (CSU/UC)

MUS 221: Ear Training III
2.0 Units. 1.5 lecture and 1.5 lab hrs/wk. Prerequisite: Music 122.
A continuation of Music 121 and 122, the ear training component of the music major package. This course parallels the concepts and harmonic materials taught in Music Theory III (Music 211). Instruction includes rhythmic and melodic sight reading; rhythmic, melodic,
and harmonic aural perception; and some keyboard harmony. Includes study of compound intervals, seventh chords, melodies with chromaticism, subdivisions of the beat into two to seven parts, and harmonic progressions including secondary chords. (CSU/UC)

**MUS 222: Ear Training IV**

2.0 Units. 1.5 lecture and 1.5 lab hrs/wk. Prerequisite: Music 221.

A continuation of Music 121, 122, and 221. The ear training component of the music major package. This course parallels the concepts and harmonic materials taught in Music Theory IV (Music 212). Instruction includes rhythmic and melodic sight reading; rhythmic, melodic, and harmonic aural perception, and some keyboard harmony. Includes study of compound intervals, seventh chords in inversion, synthetic and other unusual scales, chromatic, modal, and atonal melody, complex meter changes, polyrhythm, irregular meter, and harmonic progressions including mode mixture, Neapolitan and augmented sixth chords. (CSU/UC)

**MUS 261: Small Ensemble Techniques**

1.5 Units. 0.5 lecture and 3 lab hrs/wk. Repeat: 3. Prerequisite: Standardized audition.

This class focuses on improving the skills of the musician in a small ensemble. Recommended for students who have already had chamber music or other small ensemble experience. (CSU/UC)

**MUS 262: Large Ensemble Techniques**

1.5 Units. 0.5 lecture and 3 lab hrs/wk. Repeat: 3. Prerequisite: Standardized audition.

This class is designed to improve the practice, rehearsal, and performance skills of musicians in large music ensembles. Previous large ensemble experience is recommended. (CSU/UC)

**MUS 271: Piano III**

1.0 Unit. 0.5 lecture and 1.5 lab hrs/wk. No prerequisite. Advisory: Music 172.

This series of courses builds skills for keyboard proficiency, developing musicianship and correlating with subjects studied in other components of the music program. (CSU/UC)

**MUS 272: Piano IV**

1.0 Unit. 0.5 lecture and 1.5 lab hrs/wk. No prerequisite. Advisory: Music 271.

This series of courses builds skills for keyboard proficiency, developing musicianship and correlating with subjects studied in other components of the music program. (CSU/UC)

**MUS 273: Piano V**

1.0 Unit. 0.5 lecture and 1.5 lab hrs/wk. No prerequisite. Advisory: Music 272.

A continuation of Music 271 and 272, with more emphasis on the development of functional knowledge of musical structure, melody, rhythm, harmony and form. Attention is given to individual levels of achievement. (CSU/UC)

**MUS 274: Piano VI**

1.0 Unit. 0.5 lecture and 1.5 lab hrs/wk. No prerequisite. Advisory: Music 273.

A continuation of Music 272 and 273, with more emphasis on the development of functional knowledge of musical structure, melody, rhythm, harmony and form. Attention is given to individual levels of achievement. (CSU/UC)

**MUS 278: Strings III**

1.0 Unit. 0.5 lecture and 1.5 lab hrs/wk. No prerequisite. Advisory: Music 179.

Continuing intermediate study of an orchestral string instrument. (CSU/UC)

**MUS 279: Strings IV**

1.0 Unit. 0.5 lecture and 1.5 lab hrs/wk. No prerequisite. Advisory: Music 278.

Continuing advanced study of an orchestral string instrument. (CSU/UC)

**MUS 281: Voice III**

1.0 Unit. 0.5 lecture and 1.5 lab hrs/wk. No prerequisite. Advisory: Music 182.

Intermediate instruction in the fundamentals of singing, principles of tone production, and voice development with emphasis on vocal literature. (CSU/UC)

**MUS 282: Voice IV**

1.0 Unit. 0.5 lecture and 1.5 lab hrs/wk. No prerequisite. Advisory: Music 281.

A more advanced development and refinement of the fundamentals of singing, principles of tone production, and voice development with emphasis on more advanced vocal literature. (CSU/UC)

**MUS 287: Chamber Orchestra**

1.0 Unit. 0.5 lecture and 1.5 lab hrs/wk. No prerequisite. Repeats: 3. Advisory: Music 279.

An orchestra primarily of stringed instruments designed to prepare players not yet ready for Community Symphony Orchestra, but more advanced than Strings I-IV. Individual and ensemble string techniques are emphasized. (CSU)

**MUS 288: Advanced Voice Workshop**

1.0 Unit. 0.5 lecture and 1.5 lab hrs/wk. Repeat: 3. No prerequisite. Advisory: Music 282.

Advanced instruction in the fundamental techniques of singing, principles of tone production, and voice development, with emphasis on advanced vocal literature. (CSU/UC)

**NURSING EDUCATION: REGISTERED**

The Registered Nursing Education Program at College of Marin prepares students for entry into the nursing profession, and serves as a foundation for advanced nursing studies. The Program faculty view Nursing Education as an individualized, collaborative endeavor that assists students in acquiring the knowledge, skills, and values necessary for entry-level nursing practice. Emphasizing critical thinking, effective communication, and cultural and clinical competence, the Program aims to prepare graduates for roles as care providers across the health care continuum, as managers of care, and as active members of the nursing profession. The Program affirms the dignity and worth of each individual, and strives to educate students who are adaptable, responsible, politically aware, and committed to lifelong learning. Graduates are prepared for entry-level practice in a variety of healthcare settings.
The Registered Nursing Program is guided and approved by the Board of Registered Nursing and accredited by the National League for Nursing Accrediting Commission through fall 2015. Graduates are prepared to take the National Council Licensure Examination for Registered Nurses. The Program offers opportunities for advanced placement for returning, transfer and challenge students.

Students must complete prerequisite courses and assessments prior to application and entry into the Program. All potential applicants are advised to meet with a College of Marin counselor to clarify requirements and develop an education plan.

Faculty
Molly Johnson, Jeannie Langinger, Sara Lefkowitz, Joyce Passer, Diane Ridley, Joanna Ruddle, Stephanie Strozier
Department Phone: 415-485-9319
www.marin.edu/nursing

Please note: The Registered Nursing Program will implement curriculum changes for the class entering the Program in fall of 2015. Students entering during the 2014-2015 academic year must complete the degree requirements as listed by the end of the 2016 summer session.

A. Courses Taken at Other Colleges or Universities:
The Program has seven prerequisite courses in addition to courses required to complete the nursing licensing exam and earn the Associate in Science degree. Courses completed at other colleges or universities may be used to meet these requirements if they are determined to be equivalent to those offered at College of Marin.

To determine equivalency, each course must be evaluated through the procedure identified below. There is no guarantee that a course taken at another college or university will be equivalent to one at the College of Marin. Applicants will receive a copy of their completed equivalency evaluation to assist in develop of their education plan. Refer to “Admissions Information” in Section 2 of this catalog for additional information regarding this process.

• Beginning September 1, approximately 1 year prior to the fall date of entry into the Program, submit materials for evaluation of equivalency to Enrollment Services, College of Marin, 835 College Avenue, Kentfield, CA 94909.

• Required materials include official transcripts for all courses taken at other colleges or universities in the United States. Transcripts must be ordered within one calendar year of the date of application. Also required is the Petition for Substitution for the Nursing Program, available at www.marin.edu/nursing.

• Nursing courses completed at foreign colleges or universities must be evaluated by the California Board of Registered Nursing for consideration of equivalency. More information is available at www.rn.gov. Refer to Foreign College Transcripts, under “Academic Records” in Section 2 of this catalog for more information.

B. Credit by Examination:
Students may “challenge” program prerequisite or corequisite courses by use of the college Credit by Examination Process described under “Advanced Placement/Academic Credit” in Section 2 of this catalog. A “challenge” must be completed prior to submitting an application for entry into the Program. “Challenge” courses must be graded using a letter grade; Pass/No Pass grades are not accepted.

C. Graduation Requirements for Students with a Prior Bachelor’s Degree:
Applications who have verification of an earned Bachelor’s degree from a regionally accredited United States college or university may be awarded the Associate of Science degree upon completion of all courses required for nursing licensure. This includes all program prerequisite courses, nursing education courses and speech, psychology and anthropology/sociology courses listed under Degree Requirements, below. Please see a counselor for more information.

A.S. IN NURSING: REGISTERED (R.N.), OCCUPATIONAL OR TRANSFER
The Registered Nursing Education Program, in preparation for licensure as a registered nurse, is offered only at the Kentfield Campus and requires two academic years of prescribed courses, including acquisition of the Associate in Science degree. The curriculum is offered in four semesters. Clinical placements require day and evening scheduling Monday through Saturday. Because the clinical rotations are scheduled on both days and evenings, it is strongly recommended that all course requirements for registered nursing licensure and the Associate of Science degree be taken prior to entry into the program.

Degree Requirements:
• Human Anatomy (BIOL 120)
• Human Physiology (BIOL 224)
• Microbiology (BIOL 240)
• Chemistry (CHEM 110, 114 or 115)
• English (ENGL 150)
• Nursing Education 180, 188, 185, 210, 212, 214, 216, 220A, 220B, 225, 181, 180L, 185L, 182, 210L, 212L, 214L, 216L, 203, 225L
• Psychology 110; and 112 or 114
• One course to be selected from: Anthropology 102, 103, or 208; or Sociology 110 or 140
• One course to be selected from: Speech 110, 120, 122, 128, 130 or 132
• Completion of College of Marin General Education requirements

Note: The College of Marin Registered Nursing Education Program must respond to changing legal/contractual requirements.

• Nursing Education 180, 188, 185, 210, 212, 214, 216, 220A, 220B, 225, 181, 180L, 185L, 182, 210L, 212L, 214L, 216L, 203, 225L
• Psychology 110; and 112 or 114
• One course to be selected from: Anthropology 102, 103, or 208; or Sociology 110 or 140
• One course to be selected from: Speech 110, 120, 122, 128, 130 or 132
• Completion of College of Marin General Education requirements

Note: The College of Marin Registered Nursing Education Program must respond to changing legal/contractual requirements.

Sophomore Year – Third Semester

**NE 203** Level III: Nursing Skills Laboratory .5
**NE 212** Nursing in Mental Health and Nursing of the Older Adult 2
**NE 212L** Nursing in Mental Health and Nursing of the Older Adult Clinical Laboratory 2
**NE 214** Nursing III: Advanced Concepts in Mobility, Sensation and Cognition 2
**NE 214L** Nursing III: Advanced Concepts in Mobility, Sensation and Cognition Clinical Laboratory 2.5
**NE 220B** Pharmacology in Nursing 1
Behavioral and/or Social Sciences Requirement 3

Sophomore Year – Fourth Semester

**NE 216** Nursing III: Advanced Concepts in Cardiovascular Oxygenation and Renal Function 2
**NE 216L** Nursing III: Advanced Concepts in Cardiovascular Oxygenation and Renal Function Clinical Laboratory 2.5
**NE 225** Nursing Leadership and Management 2
**NE 225L** Clinical Transitions: Clinical Laboratory 2.5
Communication Skills Requirement 3

**Additional Courses Required for General Education Degree**
- American Institutions 3
- Humanities 3
- Physical Education 1
- Cross Cultural Studies 3
- Communication and Analytical Thinking 3

**TOTAL DEGREE UNITS** 66.5

Note: Only those completing all the nursing requirements of a semester may advance to the following semester.

**NURSING COURSE REQUIREMENTS**

(All science courses must contain a laboratory and/or the psychology of human development: lifespan course must be completed before applying to the program to plan their course of study.)

**First Semester**

**NE 180** Fundamentals of Nursing 3
**NE 180L** Fundamentals of Nursing Clinical Laboratory 2
**NE 181** Clinical Application Laboratory I .5
**NE 185** Medical-Surgical Nursing I 3
**NE 185L** Medical-Surgical Nursing I Clinical Laboratory 2
**NE 188** Pharmacology I 1

**Second Semester**

**NE 182** Clinical Application Laboratory II .5
**NE 280** Medical Surgical Nursing II 2
**NE 280L** Medical Surgical Nursing II Clinical Laboratory 2
**NE 283A** Maternal Child Nursing A 2
**NE 283AL** Maternal Child Nursing A Clinical Laboratory 2
**NE 288A** Pharmacology II 1

**Third Semester**

**NE 281** Clinical Application Laboratory III .5
**NE 283B** Maternal Child Nursing B 2
**NE 283BL** Maternal Child Nursing B Clinical Laboratory 2
**NE 284** Mental Health Nursing and Care of the Older Adult 2
**NE 284L** Mental Health Nursing and Care of the Older Adult Clinical Laboratory 2
**NE 288B** Pharmacology III 1

**Fourth Semester**

**NE 285** Medical Surgical Nursing III 2
**NE 285L** Medical Surgical Nursing III Clinical Laboratory 2.5
**NE 286** Professional Role Development 1

**TOTAL NURSING UNITS** 286L Professional Role Development Clinical Laboratory 2.5

**TOTAL DEGREE UNITS** 38.5

Note: Only those completing all the nursing requirements of a semester may advance to the following semester.

**ENROLLMENT PROCEDURES FOR NEW STUDENTS**

The following information pertains to students planning to enroll in the first semester of the Program. Transfer, advanced placement and reentry student information is included in the following section, “Enrollment Procedures for Returning, Transfer or Challenge Students.” Please read and follow the directions carefully. Please also refer to the Program website for details: www.marin.edu/nursing. It is recommended that all students meet with a college counselor prior to applying to the program to plan their course of study.

**A. Application Dates**

Completed applications must be submitted to the Enrollment Services department between January 2 and February 1 of the academic year when enrollment is requested. If either date occurs on a school holiday or weekend, the next following business day will apply. Applications will not be accepted prior to January 2 and late applications will not be considered.

**B. Program Requirements for Consideration of Admission**

1. Applicants must submit a complete application, demonstrate completion of all program prerequisite courses with a grade of “C” or better, be in good academic standing at College of Marin, meet the minimum assessment score on the Chancellor’s Formula (72%), and meet the established minimal score on the ATI TEAS V assessment test.

2. **Prerequisite Course Information:**
   - Grades of C- (minus) or lower, Pass/Fail, and Credit/No Credit on prerequisite courses will not be accepted.
   - Some Nursing Program prerequisite courses have their own prerequisites. Please review the college catalog or meet with a counselor to develop a plan of completion.
   - There is no recency requirement for prerequisite courses.

3. **Seven Prerequisite Courses:**
   - NE 90: Introduction to Nursing Education and Practice.
   - *Chemistry*: One semester of college chemistry (CHEM 110 or 114 or 115) or one year high school chemistry.
   - *Anatomy*: One four- or five- (semester) unit college human anatomy course with laboratory (BIOL 120).
   - *Physiology*: One four- or five- (semester) unit college human physiology course (BIOL 224) with laboratory.
   - *Math*: Math 101 or 101AB or 101XY or College of Marin assessment test qualifying for Math 103 (challenge option). Please note: Math 103 is the college graduation requirement.
   - *English*: English 150.
   - *Microbiology*: One four- or five- (semester) unit college microbiology course (BIOL 240) with laboratory.
   - Please Note: All science courses must contain a laboratory component. Online prerequisite science courses or those with virtual labs will not be accepted.

1. **Prerequisite Courses Completed at Other Institutions:**
   - Prerequisite and corequisite courses completed at other colleges or universities must be equivalent to those offered at College
of Marin. Students requesting equivalency for courses must complete the following:

- Between September 1 and October 31 submit a completed Petition for Substitution for Nursing Program Courses. This form is available on the nursing program website: http://www.marin.edu/nursing.
- Submit the completed form with official transcripts for all courses and catalog descriptions for each course. The transcript must be ordered and dated within one calendar year from the application date. The catalog description must be from the college catalog from the academic year(s) the course(s) was completed.
- Submit all materials to Enrollment Services.
- Retain the evaluation and submit a copy with your nursing program application.

C. Chancellor’s Admission Formula
Applicants who successfully complete all prerequisites and submit a complete application must achieve a Chancellor’s Formula assessment score of at least 72% for further consideration. The assessment score is determined by a formula using the following:

- Overall college GPA for the last five years or ten semesters;
- Grade received in English 150;
- GPA of core biology courses: Anatomy, Physiology and Microbiology;
- Number of course repetitions in the core biology courses which includes grades of D, F, Incomplete, FW, No Credit, No Pass or W.

D. ATI TEAS Testing
Applicants with a random selection number of 100 or less (see Section G, number 4, below) who have successfully completed all prerequisites and received an assessment score of at least 72% on the Chancellor’s Formula will need to complete the ATI (Assessment Technologies Incorporated) TEAS (Test of Essential Academic Skills) Version V, meeting or exceeding the minimal score of 62.

E. Prior Experience in Healthcare
All applicants must document prior healthcare experience. This can be paid or volunteer experience. Applications which do not document prior healthcare experience will be disqualified.

F. APPLICATION PROCESS (FOR FIRST-SEMESTER STUDENTS)
1. Complete the application for enrollment in the Registered Nursing Program and submit prior to the February 1 deadline. All forms are available online at http://www.marin.edu/nursing. It is the responsibility of the applicant to submit a complete and accurate application with all required materials. All materials submitted as part of the application are the property of College of Marin and will not be returned. The college does not assume responsibility for notifying applicants of incomplete applications. The application materials include official transcripts, course descriptions, and a signed Petition of Substitution for prerequisite and corequisite courses taken at other colleges and universities. Applicants must be in good academic standing at College of Marin. Submit the application in a sealed envelope to:

Enrollment Services
College of Marin
835 College Avenue
Kentfield, CA 94904 2590

2. Random Selection: Each year, the Program receives more requests for enrollment than the Program is able to accommodate. Enrollment in the Program is limited due to clinical placements and student safety needs. Thirty-six (36) students are offered space each year for the following fall semester. In the event the number of applications exceeds available spaces, a computerized random selection of applications is utilized. Each applicant receives a number for the current application period. This number is used to offer enrollment, contingent upon verification of each admission requirement. To meet the need for timely processing and notification by stated deadlines, applications numbered 1-100 are reviewed initially for calculation of the Chancellor’s Formula and TEAS V testing. In the event that additional spaces are available, the next 100 applications will complete calculation of the Chancellor’s Formula and TEAS V.

3. Calculation of Chancellor’s Formula: Applications containing complete information and required documents are reviewed for program prerequisites and coursework. Courses completed at College of Marin (or those evaluated as equivalent to College of Marin courses) are used in the determination of this formula. A completed, signed Petition for Substitution form must be included in the application documents for any prerequisite and corequisite courses taken at other colleges. Using the formula described in Section C, “Chancellor’s Formula,” above, a numerical score is determined. A score of 72% or greater must be attained to be considered for admission to the Program. Applicants with a score of less than 72% will be disqualified.

4. Completion of ATI Test of Essential Academic Skills (TEAS), Version V: Applicants who score 72% or higher on the Chancellor’s Formula are allowed to complete the TEAS test at College of Marin. The Program only accepts results from the Version V test. Applicants who score 62 or higher on the TEAS Version V will be offered space based on their random selection number, until all available spaces have been filled. Students who do not achieve a score of at least 62 on the TEAS will be disqualified for the current application period but may retest after completion of remediation (see Section G, number 4, below). Applicants who have taken the TEAS V test prior to application to the program must request that an official score report be mailed directly from the vendor (Assessment Technology Institute) to the Nursing Department. Please note: applicants must take TEAS V. Earlier versions of the TEAS, such as TEAS 4.0, are not accepted.

5. Notification of Space: Applicants who have met all of the above requirements will be offered space based on their random selection number until all spaces are filled. Applicants are responsible for providing accurate contact information (including a current email address, as notification is by email). Notification is given by June 1. No information regarding admission will be given over the phone or without verification of student identity.

6. Background Screening and Drug Screening:
- Clinical facilities require students placed at their site to pass a background screening. Information regarding this screening is included with materials upon the offer of space in the Program.
All applicants tentatively accepted into the Program must complete a Criminal Background Clearance at a cost of approximately $50, paid by the student prior to enrollment. Each clinical facility has the right to refuse placement of a nursing student based on criminal background information. Due to the dynamic state of clinical placement sites, applicants must be able to attend every clinical facility utilized by the Program. In the event that any facility refuses placement, the offer of space in the Program will be withdrawn.

Requirements vary among clinical facilities. Generally an applicant who has a history of felony and/or misdemeanor convictions or any bar exclusion or other ineligibility for federal program participation could be refused placement. Examples include but are not limited to, DUI (Driving Under the Influence) convictions, any conviction involving child or elder abuse, or any conviction dealing with violence. It is not possible to determine acceptance or refusal by a clinical facility on an individual basis. Applicants should consider their prior background before submitting an application to the Nursing Program.

Prior to obtaining a license to practice as a Registered Nurse, all graduates must report felony and misdemeanor convictions along with submission of fingerprints. The Board of Registered Nursing may deny licensure based on prior convictions. For a list of convictions substantially related to the practice of nursing, please contact the Board of Registered Nursing Web page: www.rn.ca.gov. It is possible for a student to clear the initial background check and be denied licensure by the BRN.

Many healthcare facilities require additional background checks prior to employment. A prior history of criminal activity may result in denial of employment.

Students who have questions about the background screening, Nursing Program eligibility, or the Board of Registered Nursing requirements should contact the Dean of Health Sciences. Students with histories of any of the above events are encouraged to meet with a counselor to discuss career options, including those outside of health care.

7. Drug Screening: Clinical agencies require mandatory drug screening. Students with a positive drug screening test may be denied placement at clinical facilities which would require withdrawal of the offer of space. The cost is $51, to be paid by the student. The list of drugs tested and the procedure are posted on the website. All admitted students must use the designated drug testing sites. The drug screening test is completed using nursing program forms, and undertaken after the offer of program placement. Prior testing results or results from other organizations will not be accepted.

8. Health Clearance: All applicants will receive a health and immunization form to be completed by a licensed healthcare provider. Applicants must be able to participate in all clinical activities to enter the Program.

G. Applicants Not Admitted to the Program:

1. Disqualification: An application may be disqualified for any of the following reasons:
   - Application is incomplete.
   - Official transcripts for all courses have not been submitted.
   - All prerequisite courses have not been completed.
   - Did not meet the 72% minimal score on the Chancellor’s Formula.
   - Did not achieve a 62 or greater on the ATI TEAS V test.
   - Does not have proof of healthcare experience.
   - Failure of criminal background clearance.
   - Failure of drug screening.
   - Readmission guidelines are not followed.
   - Demonstrates violation of the COM Student Conduct Policy.
   - Disqualified applicants will receive information identifying the reason for the disqualification. Disqualified applicants may apply during the next application period pending correction of the reason(s) for the disqualification.

Qualified but No Available Space: An applicant may be qualified but not admitted due to lack of available space. If an applicant is not admitted, a new application and updated supporting documents must be submitted the next application period.

1. Waiting List: Ten candidates from each application period become a “wait list” for the following year. Candidates are chosen in rank order from the random selection numbers assigned during the prior application period. Wait list candidates must meet all NEW Program requirements. Wait list candidates include those who successfully remediate and pass the TEAS test, as well as those who met all qualifications at the time of application. The remaining eligible applicants from the prior year are included with the current year’s applicants (first-time applicants) and assigned numbers as described above if the number of eligible applicants exceeds openings.

2. ATI TEAS V Remediation: Demonstration of readiness to enter the Program includes successful completion of the Dean-prescribed remediation plan and achieving a score of 62 or higher on the TEAS V retest. Any applicant who does not complete the remediation requirements within one year, and/or does not pass the TEAS, will be required to restart the application process as a new student, which forfeits admission preference. Applicants who need to remediate should make an appointment with the Dean of Health Sciences to review the TEAS results and determine a plan of remediation. Upon completion of the remediation, applicants must meet again with the Dean to provide verification that all areas have been completed.

3. Reapplication: Applicants who were determined eligible (met all eligibility requirements and passed the TEAS), but not selected due to a lack of sufficient openings or inability to meet the TEAS cut score, must resubmit a new application form and new, updated support documents to be considered for the next year’s Program openings.
ENROLLMENT PROCEDURES FOR RETURNING READMISSION, TRANSFER, OR CHALLENGE STUDENTS

Please refer to the Program website for details: www.marin.edu/nursing.

Definitions:

- Returning Readmission student: A student who left the College of Marin Registered Nursing Education Program.
- Transfer student: A student who successfully completed one or more semesters of nursing education courses in another program.
- Challenge student: A student with prior nursing education (LVN) or other health care education or experience who wishes to enter the Program with advanced standing and receive credit for previous education or prior work experience.

1. All types of admission are on a space-available basis, dependent upon the semester of entry and required course(s). Submission of an application is not a guarantee of space. Please note that applicants who are admitted on a space-available basis do not have a guarantee that space is available in subsequent semesters. Applicants must be prepared for a short time interval between notification of available space and beginning the program.

2. Application Dates:

- Fall Entry – 1st and 3rd semester of Program: Applications accepted January 2 through February 1
- Spring Entry – 2nd or 4th semesters of Program: Applications accepted September 1 through October 1
- Applications will only be accepted during the identified application period.
- Incomplete applications will not be considered.
- Students who are admitted after a year absence or longer may be required to:
  - Submit prior course work for official audit.
  - Officially petition to repeat prior coursework according to Title 5 guidelines.
  - Meet current program admission requirements.

3. Program Prerequisites: All applicants, including returning, transfer and challenge students, must complete all required program prerequisite courses with a grade of “C” or better, and must be in good academic standing at College of Marin. Refer to information under “Enrollment Procedures (for First-Year Students)” above, Section B, number 2, “Prerequisite Course Information.”

4. Chancellor’s Formula: All applicants, including returning, transfer and challenge students, must meet the minimal score on the Chancellor’s Formula of 72%. Refer to Section F above for more information.

5. ATI TEAS V: All applicants, including returning, transfer and challenge students, must meet the minimal score of 62 on the TEAS V exam. Refer to Section F above for more information.

6. Nursing Courses: Applicants requesting credit for completed nursing courses must submit official transcripts, course descriptions and course syllabi for all such courses. Courses are reviewed by the nursing department for equivalency and appropriate Program placement. Courses in nursing education that were taken three or more years prior to a return to a nursing program will not be accepted. Courses taken in a vocational nursing program will not be subject to this policy if the applicant possesses a current LVN (licensed vocational nurse) license in the state of California.

7. Challenge of nursing courses: Applicants who have related experiences to qualify for a challenge must follow the college process noted on under “Admissions Information” in Section 2 of this catalog.

8. Licensed Vocational Nurse Applicants: To receive credit for prior nursing coursework in an approved vocational nursing program, in addition to the process and required information noted in the previous section for new students, applicants must submit the following:

   - Official transcripts from vocational nursing school or program requested within one calendar year of the date of application.
   - Copy of current California LVN license
   - Evidence of current work experience defined as at least one year of continuous employment in the role of a licensed vocational nurse within the last three years. This evidence must be in the form of a written letter from the employer on company letterhead.

9. Degree option: To obtain the Associate of Science Degree, applicants must complete all Program prerequisite and corequisite courses, meet the minimal score on the Chancellor’s Formula of 72% and meet the cut score on the TEAS V of 62. NE 135, 135L, 138, 140 can be waived. Based upon review of transcripts, NE 210 and 210L may also be waived.

10. LVN 30-unit option: Students selecting this option will not obtain a degree nor be considered a graduate of the College of Marin Registered Nursing Program. Students will qualify for the licensing exam as a non-graduate, which may limit employment options and future education opportunities. Prerequisites for this option are Physiology (BIOL 224) and Microbiology (BIOL 240). Applicants must meet 72% on the Chancellor’s Formula but are not required to complete the TEAS V exam. All applicants wishing to select this entry option must meet with the Director of Health Sciences prior to submitting an application.

A. APPLICATION PROCESS (FOR RETURNING READMISSION, TRANSFER, OR CHALLENGE STUDENTS)

1. Returning Students:

   - Readmission is not guaranteed.
   - Submit an application to return to the Program by identified due dates.
   - For return to fall courses, submit the application January 2 to February 1. For return to spring courses, submit the application September 1 to October 31.
   - Meet with the Director of Health Sciences to review and provide verification that the Remediation Plan has been completed. Refer to the COM RN Program Student Handbook available at www.marin.edu/nursing for more information.
   - A student is eligible for readmission only once.
   - A student who fails any two nursing courses, fails a second course after readmission, fails a clinical course, or withdraws from the Program twice, is not eligible for readmission.

2. Transfer Students:
• Request evaluation of prerequisite and corequisite courses using the college process described in Section B, “Program Requirements for Consideration of Admission.”
• Submit an application to the Program by identified due dates.
• To transfer to second- and fourth-semester courses (in spring), applications are due September 1 to October 31. To transfer to first- or third-semester nursing courses (in fall), applications are due January 2 to February 1.
• Download the application from www.marin.edu/nursing and complete.
• Submit application with two copies of official transcripts, course descriptions for nursing courses and course syllabi for nursing courses. Transcripts must be ordered within one calendar year of the date of application.
• Course information will be reviewed by the nursing department to determine equivalency and appropriate placement in the Program.
• Pending review of materials and determination that the minimal score for the Chancellor’s Formula has been met, applicants will either be scheduled for the TEAS V exam or asked to provide official verification of their latest test score. Repeated TEAS scores must not exceed one score per year or only the lower score will be considered.

3. Challenge Students:
• Request evaluation of prerequisite and corequisite courses using the process described in Section B, “Program Requirements for Consideration of Admission.”
• Submit an application to the nursing program by identified due dates, identifying degree or 30-unit option.
• For LVN applicants, submit the materials identified in “Enrollment Procedures for Returning Readmission, Transfer, or Challenge Students.”
• Course information is reviewed by the nursing department and Enrollment Services to determine equivalency and appropriate placement in the Program.
• Pending review of materials and determination that the minimal score for the Chancellor’s Formula has been met, applicants will either be scheduled for the ATI TEAS V exam or asked to provide official verification of their latest test score.

4. Priority Admission into the Program for Returning Readmission, Transfer and Challenge Students:
• All admissions are on a program space-available basis.
• First priority: Returning students who left the program in good standing defined as successful completion of all nursing courses.
• Second priority: LVN Challenge Degree-Option Applicants.
• Third priority: Transfer students and Returning students who left the program not in good standing (defined as a theory or clinical course failure).
• Fourth priority: LVN Challenge 30-unit Option applicants.
• In the event that there is more than one applicant in any priority level, a random selection process will be undertaken to provide a ranking number to each applicant in that priority category.
• Any applicant determined eligible but not selected due to lack of space must resubmit a new application and updated support documents during the next application period for consideration.
• Applicants who did not meet the TEAS V score will not be considered for admission but may remediate and retake the test after completion of the Remediation Plan developed by the Dean of Health Sciences.

ADDITIONAL PROGRAM INFORMATION
1. Advisory Courses: In addition to completing required prerequisite courses, the Program strongly recommends that prospective students take two additional courses that will help them prepare for the nursing program:
   • NE 95: Effective Strategies for Success in the Registered Nursing Program
   • CIS 110: Introduction to Computer Operating Systems
2. Considerations Regarding Entry into the Program: The College of Marin RN Program is a full-time, rigorous course of study requiring both classroom and clinical learning experiences. Courses are scheduled both day and evenings and may include weekend hours. Each nursing course must be completed with a score of 75% or higher (or a Pass in a clinical course) to continue in the Program. Students considering nursing as a career option should develop a personal schedule that allows for Program instruction, study time at a ratio of 3 study hours per hour of class instruction, and personal time. Students are expected to exhibit professional behavior at all times. Patient advocacy and patient safety are primary considerations for all nursing professionals. Any student whose conduct displays potential harm to patient well-being as determined by the faculty will be withdrawn from the Program. All students are expected to participate in all Program activities, both classroom and clinical, in order to continue in the Program. Any student whose conduct displays potential harm to peers, faculty or the patient’s well-being as determined by the faculty will be withdrawn from the Program.
3. Repeatability: Title 5 does not allow students to repeat any nursing courses taken within the past 3 years. A petition to repeat a course must be submitted to Enrollment Services. Auditing of prior nursing courses may be mandated if the student is unable to repeat necessary courses.
4. High School Education or Equivalent: Title 16, Section 1412 of the California Code of Regulations states that proof of high school education or the equivalent (high school diploma, GED, high school equivalency, college degree) is required by the person applying for a license as a registered nurse. The Program requires this proof for licensure application for students not pursuing the degree option.
5. IV Insertion Skills Certificate: This certificate is awarded to RN students upon successful completion of the NE 203 skills lab training classes in IV insertion. Students must demonstrate competency in the knowledge and skill of IV policy and procedure in a return demonstration in the skills lab, and three successful IV insertions on patients in the hospital in NE 225L.
6. Transfer: The Program faculty strongly support graduates continuing their education to obtain the Bachelors and Masters Degree in Nursing. Students planning to transfer to a four-year
institution should complete lower division major requirements and general education pattern for the appropriate transfer institution and major. Exact major requirements for UC and CSU institutions can be found on www.assist.org. Please see a counselor for more information, as curriculum requirements may vary among transfer universities. Graduates of the Registered Nursing Education Program may transfer to a number of colleges and universities to study for a Bachelor of Science degree in Nursing. Contact the Registered Nursing Education Department for information regarding the following schools:

- Sonoma State University (www.sonoma.edu/adenmsn)
- San Francisco State University (www.nursing.sfsu.edu)
- Dominican University of California (www.dominican.edu/academics/hns/nursing)

NURSING EDUCATION COURSES (NE)

Please note: The Registered Nursing Program has implemented curriculum changes for the class entering the Program in fall of 2015 and thereafter. The following courses constitute the old curriculum, which applies to students entering during the 2014-2015 academic year and prior. These students must complete the (old) degree requirements as listed by the end of the 2016 summer session.

NE 090: Introduction to Nursing Education and Practice
1.0 Unit. 1 lecture hrs/wk. No prerequisite.
This course is required for all applicants to the Registered Nursing Program, and recommended for all persons seeking information about nursing education and the role of the Registered Nurse. We navigate the program’s website, reviewing the program overview and the necessary COM resources to provide updated enrollment procedures and admission requirements into the nursing program. Identification of basic skills needed for nursing, including test taking, time management, and coping strategies are explored.

NE 095: Effective Strategies for Success in the Registered Nursing Program
1.0 Unit. 1.0 lecture hrs/wk. No prerequisite.
This course is designed to help nursing students attain the knowledge, skills, and attitudes necessary to grow and thrive in the College of Marin Registered Nursing Program. Students are introduced to critical thinking, QSEN (Quality, Safety, and Education in Nursing), time management, successful study skills, stress management, and test-taking techniques.

NE 099: Internship in Health Careers
1.5 Units. 0.5 lecture and 3.375 lab hrs/wk. No prerequisite. Corequisite: NE 100.
A career-preparation and internship course for students concurrently enrolled in NE 100. Students learn essential employment skills, including interviewing techniques, prior to working as an intern in a business that corresponds to the NE 100 course topic.

NE 100: Introduction to Health Careers
2.0 Units. 2 lecture hrs/wk. No prerequisite. Can be taken as DENT 100, MEDA 100, or NE 100; credit awarded for only one course.
This course is designed for students interested in pursuing a career in a health profession. It provides an overview of the current health care delivery system, the physical, mental, and emotional demands of the workplace, and the skills needed by the healthcare worker today and in the future. Students learn about qualifications and professional preparation needed for various careers, and analyze the roles and responsibilities in today’s health care environment. The course is designed to help students develop realistic career goals, and to give an appreciation of how the current health care delivery system is influencing individual health professional roles and responsibilities.

NE 101: Level I Nursing Skills Laboratory
1.0 Unit. 3 lab hrs/wk. No prerequisite. Corequisites: NE 138 and 135. Must be enrolled in the COM Registered Nursing Program.
First-year registered nursing students (Level I) learn and practice basic assessment and technical skills fundamental to professional nursing across the lifespan in the safety of a simulated clinical environment. Instruction includes presentation of evidence-based practice and scientific rationales for performance of technical skills, skill demonstrations, and the opportunity for guided/supervised student practice. (CSU)

NE 102: Level II Nursing Skills Laboratory
0.5 Unit. 1.5 lab hrs/wk. No prerequisite. Corequisite: NE 140. To enroll in this course, students must be enrolled in the COM RN Program.
This course provides opportunities for first-year registered nursing students (Level II) to learn and practice intermediate assessment and technical skills fundamental to professional nursing across the lifespan in the safety of a simulated clinical environment. Instruction includes presentation of evidence-based practice and scientific rationales for performance of technical skills, skill demonstrations, and the opportunity for guided/supervised student practice. In addition to the achievement of technical skill competency, emphasis is placed on integrating the use of the nursing process, communication and documentation skills, client care management skills, and critical thinking and problem solving skills through the use of clinical simulations and case scenarios. (CSU)

NE 103: Open Skills Laboratory
0.5 Unit. 1.5 lab hrs/wk. Repeat: 2. No prerequisite. Corequisites: NE 101 and/or 102. Must be enrolled in the COM Registered Nursing Program.
This course provides opportunities for registered nursing students who are enrolled in one of the required first-year skills labs (NE 101 or 102) to have additional supervised practice performing clinical skills that are required for the profession of registered nursing. (CSU)

NE 110: Role Transition: LVN to RN
1.0 Unit. 1.0 lecture hrs/wk. Prerequisite: Admission to LVN to RN Transition. Must be enrolled in the COM Registered Nursing Program.
This course is designed to assist the LVN students to adapt to change and transition as they pursue education to become a registered nurse. Topics include the role of the registered nurse, change theory, a critical thinking model, nursing care planning, leadership and legal responsibilities, and intravenous therapy management and medication administration. Meets the National League of Nursing Accrediting Commission standards. (CSU)
NE 135: Nursing I: Fundamentals of Nursing
4.0 Units. 4 lecture hrs/wk. Prerequisites: ENGL 150; BIOL 120, 224, 240; CHEM 110 or 114 or 115; and NE 90. Corequisite: NE 138. Advisory: CIS 101. Must be enrolled in the COM Registered Nursing Program.

This foundation course for nursing practice presents concepts related to clients within the context of their environments, including growth and development, culture, and health-illness, and to the health care delivery system and the political, economic, and social factors that affect it. The course introduces caring in nursing, critical thinking in applying the nursing process and managing client care, communication, client education, and legal and ethical practice. Students learn how to perform an age-specific health assessment and basic physical examination, to recognize alterations in these assessments, and to engage in therapeutic interventions that promote and maintain clients’ health. Students learn fundamental nursing concepts related to care of immobilized clients, surgical clients, clients with alterations in skin/tissue integrity, and clients with sensory alterations. (CSU)

NE 135L: Nursing I: Fundamentals Clinical Laboratory
2.0 Units. 2 lab hrs/wk. No prerequisites. Corequisites: NE 101 and 135. Must be enrolled in the COM Registered Nursing Program.

This course is the clinical laboratory for NE 135. Students learn to perform an age-specific health assessment and a basic physical examination, to recognize alterations in these assessments, and to engage in activities that promote and maintain clients’ health. Students apply the nursing process to the care of the immobilized client, the surgical client, the client with an alteration in skin/tissue integrity, and the client with a sensory alteration. (CSU)

NE 138: Introduction to Pharmacology and Medication Administration for Nurses
1.0 Unit 1 lecture hrs/wk. Prerequisite: Math 101. Corequisite: NE 135. Must be enrolled in the COM Registered Nursing Program.

This course focuses on the registered nurse’s role in drug therapy. It introduces principles of pharmacology emphasizing drug dosage calculation; explores legal, ethical, cultural, psychological and educational aspects of medication administration; and provides a framework based on the nursing process for the safe preparation and administration of medications to all age groups. The course focuses on principles for the safe preparation and administration of medications by enteral, topical, inhalation, and parenteral routes. (CSU)

NE 140: Nursing II: Medical-Surgical Nursing
3.0 Units. 3 lecture hrs/wk. Prerequisites: NE 135 and 138. Must be enrolled in the COM Registered Nursing Program.

This course builds on nursing concepts presented in Nursing I and prepares students to apply the nursing process to pediatric and adult clients with non-critical/moderately complex medical-surgical conditions. The selected medical-surgical conditions involve alterations in fluid/electrolytes and acid/base balance, oxygenation, nutrition, elimination, and endocrine regulation. Included are concepts of pathophysiology, medical/surgical management, and collaborative care. Emphasis on the nurse’s role in preventing health problems, reducing complications, and maintaining physiological and psychological integrity. (CSU)

NE 140L: Nursing II: Medical-Surgical Clinical Laboratory
2.5 Units. 7.5 lab hrs/wk. No prerequisites. Corequisites: NE 102 and 140. Must be enrolled in the COM Registered Nursing Program.

This course is the clinical laboratory for NE 140. Students apply the nursing process to the care of pediatric and adult clients with non-critical/moderately complex medical-surgical conditions, involving alterations in fluid/electrolytes and acid/base balance, oxygenation, nutrition, elimination and endocrine regulation. Students learn to conduct a comprehensive nursing assessment and to intervene to prevent health problems and reduce complications. Students learn to manage care for two moderately complex clients and to apply risk reduction strategies to protect the client and maintain legal and ethical nursing practice. (CSU)

NE 203: Level III Nursing Skills Laboratory
0.5 Unit. 1.5 lab hrs/wk. Prerequisite: NE 102. To enroll in this course, students must be enrolled in the COM Registered Nursing Program.

This course provides opportunities for second-year registered nursing students (Level III) to engage in critical thinking and problem solving while learning and practicing advanced assessment and technical skills fundamental to professional nursing across the lifespan in the safety of a simulated clinical environment. Includes instruction to provide and reinforce theory and explain the context of the skill, skill demonstrations, and the opportunity for guided student practice. In addition to the achievement of technical skill competency, emphasis is placed on integrating the use of the nursing process, communication and documentation skills, client care management skills, and critical thinking and problem solving skills through the use of clinical simulations and case scenarios. (CSU)

NE 205: Open Skills Laboratory
0.5 Unit. 1.5 lab hrs/wk. Repeat: 2. Prerequisite: NE 203 or concurrent enrollment. To enroll in this course, students must be enrolled in the COM Registered Nursing Program.

This course provides opportunities for registered nursing students who have completed the required first-year skills labs (NE 101 and 102) to have additional supervised practice performing clinical skills that are required for the profession of registered nursing. Students may enroll in NE 205 to review and practice skills during the third and fourth semesters of the registered nursing program. (CSU)

NE 210: Nursing Care of the Childbearing Family
2.0 Units. 2 lecture hrs/wk. Prerequisite: NE 140. Corequisite: NE 210L. Must be enrolled in the COM Registered Nursing Program.

This course presents nursing care for the childbearing family during the prenatal, labor and delivery, postpartum, and neonatal periods. Emphasizes the nurse’s role in promotion of wellness and prevention of complications through health education. Students learn to recognize maternal and fetal high-risk conditions during pregnancy, birth, and after delivery that require collaborative care. Nursing management for childbearing women planning a pregnancy, including contraception and abortion, and some common women’s health disorders are discussed. Included are concepts related to evidence-based practice, to effective management of resources, and to legal and ethical issues within reproductive health. (CSU)
This course provides students with a sound understanding of the pharmacologic properties of drug classes, with special emphasis on chronic pain and grief and loss. Students collaborate with the multidisciplinary health care team in all aspects of care. Students compare and contrast the role of the nurse in hospital care, home health care, rehabilitative care, and long term care. (CSU)

NE 214L: Nursing III: Clinical Laboratory - Advanced Concepts in Mobility, Sensation, and Cognition
2.5 Units. 7.5 lab hrs/wk. No prerequisite. Corequisites: NE 214 and 102 or 203. Must be enrolled in the COM Registered Nursing Program.

This is the clinical laboratory that accompanies NE 214. Students apply nursing concepts to the care of the client and family who are experiencing acute or chronic neurological, orthopedic or immunological problems in the hospital, community and rehabilitative settings. Students further develop clinical reasoning and technical skills to promote health and to recognize and prevent complications, and collaborate with other professionals in health care management, client education, and resolution of legal and ethical issues in medical surgical nursing. (CSU)

NE 216: Nursing III: Advanced Concepts in Cardiovascular Oxygenation and Renal Function
2.0 Units. 2 lecture hrs/wk. Prerequisites: NE 210, 212, or 214. Must be enrolled in the COM Registered Nursing Program.

This course builds on nursing concepts presented in Nursing II and focuses on clients with complex alterations in physiological and psychological integrity and the resulting health consequences. The course presents advanced concepts related to the nursing management and collaborative care of clients across the lifespan with select critical and/or complex cardiovascular, respiratory, and renal problems. Critical care during select life-threatening and emergency situations, including shock, sepsis, and multiple organ dysfunction syndrome, are addressed. This course prepares students within complex client health situations to prioritize and organize care; identify emerging health patterns or complications that require prompt attention; and compare feasible options to resolve clinical problems. (CSU)

NE 216L: Nursing III: Advanced Concepts in Cardiovascular Oxygenation and Renal Function Laboratory
2.5 Units. 7.5 lab hrs/wk. No prerequisite. Corequisite: NE 216; 203 for students enrolled in NE 216L during fall (third semester of program). Students enrolled in NE 216L during spring (fourth semester of program) will have completed NE 203. Must be enrolled in the COM Registered Nursing Program.

This course is the clinical laboratory that accompanies NE 216. Students apply the nursing process to the care of adult and pediatric clients with select critical and/or complex cardiovascular, respiratory, and renal problems; collaborate with other health care professionals in health care management, health education, and resolution of legal and ethical issues of clients across the lifespan; and further develop skill in prioritizing and organizing care, identifying emerging health problems, and resolving clinical problems within complex client health situations. (CSU)

NE 220A: Pharmacology in Nursing
1.0 Unit. 1.125 lecture hrs/wk. Prerequisite: NE 138. Must be enrolled in the COM Registered Nursing Program.

This course provides students with a sound understanding of the pharmacologic properties of drug classes, with special emphasis on
the clinical application of drug therapy through the nursing process and clinical case studies. It focuses on the mechanism of action, indications, dosage, and adverse effects of major drug classes and individual (prototype) drugs. Classifications of medications covered include: analgesics, anti-inflammatory drugs, anesthetics including drugs used in conscious sedation, sedatives, hypnotic drugs, anti-anxiety, antibiotics and miscellaneous drugs; antifungal and antiviral drugs, anti-asthmatic and glucocorticoid. Drugs affecting the gastrointestinal tract, insulin, oral hypoglycemic agents, and thyroid replacement. Vaccines, drugs affecting reproductive system, including female sex hormones and contraceptives. (CSU)

**NE 220B: Pharmacology in Nursing**

1.0 Unit. 1.125 lecture hrs/wk. Prerequisite: NE 138. Must be enrolled in the COM Registered Nursing Program.

This course provides students with a sound understanding of the pharmacologic properties of drug classes, with special emphasis on the clinical application of drug therapy through the nursing process and clinical case studies. Classifications of medications covered include: cardiac glycosides, calcium channel blockers, ace inhibitors, antidyssrhythmics, antihypertensives, diuretics, vasodilators, anticoagulants, thrombolytics, antihyperlipidemics, psychotherapeutics, immunosuppressants and immunomodulators, chemotherapy agents, and anticonvulsants. Drugs affecting Parkinson’s myasthenia gravis, dementia, Alzheimer’s disease, and substances of abuse. (CSU)

**NE 225: Nursing Leadership and Management**

2.0 Units. 2 lecture hrs/wk. Prerequisites: NE 210, 212, 214, 216. Must be enrolled in the COM Registered Nursing Program.

This theoretical foundation for understanding organizational behavior and developing nursing leadership and management skills assists students in the transition from nursing student to graduate Registered Nurse. Focus is on decision making, prioritization, time and stress management, staffing, delegation, team work, conflict management, and cost containment. Legal, ethical, economic, and sociopolitical issues that affect health care delivery and the nursing profession are explored. Professional issues discussed include membership in professional organizations, nurse’s rights, workplace safety, advocacy and political activism, licensure and guidelines for obtaining employment, and strategies for successful transition into practice for the new graduate RN. (CSU)

**NE 225L: Clinical Transition: Clinical Laboratory**

2.5 Units. 7.5 lab hrs/wk. No prerequisite. Corequisite: NE 225. Must be enrolled in the COM Registered Nursing Program.

This clinical laboratory that accompanies NE 225 provides opportunities for students to integrate cumulative nursing knowledge and experience into clinical practice; to organize and manage care for a group of clients; to actively collaborate with clients, families, and health care team members; and to further develop technical skill competencies under the direct supervision of a preceptor and the indirect supervision of a faculty liaison. Particular emphasis is given to the development of leadership/management skills required of a nurse in an entry level position. (CSU)

**NURSING EDUCATION COURSES (NE)**

Please note: The Registered Nursing Program has implemented curriculum changes for the class entering the Program in fall of 2015 and thereafter. The following courses constitute the NEW curriculum.

**NE 180: Fundamentals of Nursing**

3.0 Units. 6 lecture hrs/wk for 8 weeks. Prerequisites: ENGL 150; BIOL 120, 224, 240; CHEM 110; NE 90. Corequisites: NE 180L, 188. Advisory: CIS 110. Students must be enrolled in the COM Registered Nursing Program.

This is a foundational course that provides a framework for professional nursing practice emphasizing the national Quality and Safety Education for Nurses (QSEN) initiative. Basic nursing concepts introduced in this course include professionalism, safety, infection control, cultural competence, health promotion, health assessment, psychosocial concepts, basic care and comfort skills, the nursing process, communication, and client teaching. These concepts are applied to patients across the lifespan. [Replaces NE 135.] (CSU)

**NE 180L: Fundamentals of Nursing Clinical Laboratory**

3.0 Units. 12 clinical hrs/wk for 8 weeks. Prerequisites: background clearance, health clearance, CPR for the Health Care Professional. Corequisites: NE 180, 181, and 188. Students must be enrolled in the COM Registered Nursing Program.

This course is the clinical laboratory to accompany NE 180. Students apply basic nursing concepts including professionalism, safety, infection control, cultural competence, health promotion, health assessment, psychosocial concepts, basic care and comfort skills, communication, and client teaching to the care of clients across the lifespan. Students utilize the nursing process to plan and implement patient-centered care for clients in a variety of healthcare settings. [Replaces NE 135L.] (CSU)

**NE 181: Clinical Application Laboratory I**

0.5 Unit. 2 lab hrs/wk. No prerequisite. Corequisites: NE 188, 180, and 180L. Must be enrolled in the COM Registered Nursing Program.

This course provides opportunities for first-year registered nursing students (Level I) to learn and practice basic assessment and technical skills fundamental to professional nursing across the lifespan in the safety of a simulated clinical environment. Instruction includes presentation of evidence-based practice and scientific rationales for performance of nursing skills, skill demonstrations, and the opportunity for guided/supervised student practice. In addition to the achievement of technical skill competency, emphasis is placed on integrating the use of the nursing process, communication and documentation skills, client care management skills, and critical thinking and problem-solving skills through the use of clinical simulations and case scenarios. [Replaces NE 101.] (CSU)

**NE 182: Clinical Application Laboratory II**

0.5 Unit. 2 lab hrs/wk. Prerequisite: NE 181. Corequisites: NE 185 and 185L. Must be enrolled in the COM Registered Nursing Program.

This course provides opportunities for first-year registered nursing students (Level II) to learn and practice intermediate assessment and technical skills fundamental to professional nursing across the lifespan in the safety of a simulated clinical environment. Instruction includes presentation of evidence-based practice and scientific rationales for performance of technical skills, skill demonstrations, and the opportunity for guided/supervised student practice. In ad-
dition to the achievement of technical skill competency, emphasis is placed on integrating the use of the nursing process, communication and documentation skills, client care management skills, and critical thinking and problem-solving skills through the use of clinical simulations and case scenarios. (CSU)

**NE 185: Medical-Surgical Nursing I**
3.0 Units. 6 lecture hrs/wk for 8 weeks. Prerequisite: NE 180. Corequisites: NE 185L, NE 188. Must be enrolled in the COM Registered Nursing Program.

This course builds on concepts presented in NE 180, focusing on nursing management of patients with recurring and common medical surgical conditions in acute and community settings. It provides the learner with a systematic method of analyzing and prioritizing assessment data, and applies pathophysiologic concepts to the care of select medical surgical patients. [Replaces NE 140.] (CSU)

**NE 185L: Medical Surgical Nursing I Clinical Laboratory**
2.0 Units. 12 clinical hrs/wk for 8 weeks. Prerequisite: NE 180L. Corequisites: NE 181, 185, and 188. Must be enrolled in the COM Registered Nursing Program.

This clinical laboratory accompanying NE 185 builds on concepts presented in NE 180, focusing on the nursing management of adult clients with common and recurring medical surgical conditions. It provides a systematic method of analyzing and prioritizing assessment data, and applies pathophysiologic concepts to the care of medical surgical patients in a variety of health care settings. Students begin to develop clinical judgement and implement therapeutic nursing interventions to promote health and prevent complications. [Replaces NE 140L.] (CSU)

**NE 188: Pharmacology I**
1.0 Unit. 1 lecture hrs/wk. Prerequisite: MATH 101 or 101AB or 101XY or sufficient score on the Math Assessment Test. Corequisite: NE 180. Must be enrolled in the COM Registered Nursing Program.

This foundational course focuses on the basic knowledge, skills, and attitudes required of the Registered nurse for the safe dosage calculation, preparation, and administration of medications to all age groups. Principles of pharmacology, legal and ethical considerations, risk reduction strategies, and accurate drug dosage calculation are emphasized. [Replaces NE 138.] (CSU)

**NE 280: Medical Surgical Nursing II**
2.0 Units. 4 lecture hrs/wk for 8 weeks. Prerequisite: NE 185. Corequisite: NE 280L. Must be enrolled in the COM Registered Nursing Program.

This course builds on concepts presented in NE 185, focusing on nursing management of moderately complex medical surgical clients in the acute care, rehabilitative care, and community settings. Nursing concepts related to neurology and cancer are emphasized. (CSU)

**NE 280L: Medical Surgical Nursing II Clinical Laboratory**
2.0 Units. 12 clinical hrs/wk for 8 weeks. Prerequisite: NE 185L. Corequisites: NE 280, 182, and 288A. Must be enrolled in the COM Registered Nursing Program.

This clinical laboratory accompanying NE 280 applies nursing concepts to the management of moderately complex medical surgical clients in a variety of healthcare settings. Students further develop clinical judgement and implement therapeutic nursing interventions, to promote health and to recognize and prevent complications. (CSU)

**NE 281: Clinical Application Laboratory III**
0.5 Unit. 2 lab hrs/wk. Prerequisite: NE 182. Must be enrolled in the COM Registered Nursing Program.

This course provides opportunities for second-year nursing students (Level III) to apply theory and technical skills fundamental to the performance of professional nursing across the lifespan in the safety of a simulated clinical environment. Includes presentation of indications and rationales for nursing interventions and technical skills, adaptations required for various situations, skill demonstrations, and the opportunity for guided student practice. In addition to the achievement of technical skill competency, emphasis is placed on integrating the nursing process, communication and documentation skills, client care management skills, and critical thinking and problem solving skills through the use of clinical simulations and case scenarios. [Replaces NE 203.] (CSU)

**NE 283A: Maternal Child Nursing A**
2.0 Units. 4 lecture hrs/wk for 8 weeks. Prerequisites: NE 185 and 188. Corequisite: NE 283AL. Must be enrolled in the COM Registered Nursing Program.

This course introduces family-centered and culturally aware nursing care of the childbearing family during the prenatal, intrapartum, postpartum, and neonatal periods. Wellness promotion in the new family is emphasized through patient education of evidence-based self-care and parenting practices. Select women's reproductive health concerns such as family planning, infertility, and sexually transmitted diseases are covered, as are the healthcare concerns of the menopausal woman. (CSU)

**NE 283AL: Maternal Child Nursing A Clinical Laboratory**
2.0 Units. 12 lab hrs/wk for 8 weeks. Prerequisites: NE 185L and 181. Corequisite: NE 283A. Must be enrolled in the COM Registered Nursing Program.

This 96-hour clinical rotation exposes students to a variety of obstetrical-related units in the hospital setting: labor and delivery, postpartum, well baby, intensive care nursery, and antenatal testing. Additional community clinics serving diverse patient populations provide observational experiences in a range of women's reproductive healthcare. The simulation lab allows students to further explore and manage the nursing care of select reproductive and neonate scenarios. [Replaces NE 210.] (CSU)

**NE 283B: Maternal Child Nursing B**
2.0 Units. 4 lecture hrs/wk for 8 weeks. Prerequisite: NE 185 and 188. Corequisite: NE 238BL. Must be enrolled in the COM Registered Nursing Program.

This course focuses on the integration and application of the nursing process as it relates to children and families. Common health issues from infancy to adolescence are examined using the standards of competent practice, QSEN competencies, developmental theory, cultural competency, health promotion, illness prevention, and restorative and end-of-life care. (CSU)
NE 283BL: Maternal Child Nursing B Clinical Laboratory
2.0 Units. 12 lab hrs/wk for 8 weeks. Prerequisites: NE 185L and 181. Corequisite: NE 283B. Must be enrolled in COM Registered Nursing Program.
In this lab course accompanying NE 283B, clinical experiences provide opportunities for students to demonstrate clinical nursing competencies in simulation and in a variety of pediatric settings, incorporating health promotion, illness prevention, and restorative and end-of-life care. (CSU)

NE 284: Mental Health Nursing and Care of the Older Adult
2.0 Units. 4 lecture hrs/wk for 8 weeks. Prerequisites: NE 185 and 188. Corequisite: NE 284L. Must be enrolled in the COM Registered Nursing Program.
This course focuses on mental health concepts related to individuals, families, and communities, emphasizing the nurse-client relationship, commonly occurring mental illnesses, psychopharmacology, and other major treatment modalities. Community mental health issues such as environmental stressors, abuse, violence, substance abuse, and homelessness are emphasized. The course also focuses on the care of older adults, emphasizing promoting healthy aging, managing common geriatric syndromes and chronic illnesses, and addressing end-of-life care. Impacts of an increasing aging population on the health care system, and ethical, legal, and public policy issues in the care of older adults are included. [Replaces NE 212.] (CSU)

NE 284L: Mental Health Nursing and Care of the Older Adult Clinical Laboratory
2.0 Units. 12 lab hrs/wk for 8 weeks. Prerequisites: NE 185L and 181. Corequisite: NE 284. Must be enrolled in the COM Registered Nursing Program.
In this clinical laboratory accompanying NE 284, students apply the nursing process to the care of pediatric and adult clients with select mental disorders. Students collaborate with other health care professionals in management, health education, and resolution of legal and ethical issues in mental health. Students further develop therapeutic communication techniques and approaches for care of clients and families in crisis, and for individuals demonstrating challenging behaviors. Students also apply the nursing process to the care of older adults in acute and community settings, emphasizing promoting healthy aging, managing common geriatric syndromes and chronic illnesses, and providing end-of-life care. [Replaces NE 225L.] (CSU)

NE 285: Medical Surgical Nursing III
2.0 Units. 4 lecture hrs/wk for 8 weeks. Prerequisite: NE 280. Corequisite: NE 285L. Must be enrolled in the COM Registered Nursing Program.
This course builds on concepts presented in NE 280, focusing on the nursing management of unstable, complex patients with multisystem problems. Nursing concepts related to complex multisystem problems including complex respiratory and cardiovascular problems, sepsis and shock, kidney failure, and burns are explored. [Replaces NE 216.] (CSU)

NE 285L: Medical Surgical Nursing III Clinical Laboratory
2.5 Units. 15 lab hrs/wk for 8 weeks. Prerequisite: NE 280L. Corequisites: NE 285, 281, and 288B. Must be enrolled in the COM Registered Nursing Program.
In this clinical laboratory accompanying NE 285, students apply the nursing process to focus on the nursing management of unstable, complex patients with multisystem problems. Students apply advanced medical surgical nursing concepts to further develop prioritization and organizational skills, identify emergent patient care needs, and use clinical judgement to promote optimum patient outcome. [Replaces NE 216L.] (CSU)

NE 286: Professional Role Development
1.0 Unit. 1 lecture hrs/wk. Prerequisite: NE 285. Corequisite: NE 286L. Must be enrolled in the COM Registered Nursing Program.
This course focuses on professional, management, and career skills needed by senior nursing students to make a successful transition to graduate Registered nurse. Professional issues include membership in nursing organizations, political activism, ethical and legal issues, health care economics, and current policy issues that affect health care delivery and the nursing profession. Patient care management skills include staffing and assignments, delegation and supervision, conflict management, quality assurance, and risk management. Career issues include the process for obtaining licensure, guidelines for writing resumes and cover letters, and interview preparation. [Replaces NE 225.] (CSU)

NE 286L: Professional Role Development Clinical Laboratory
2.5 Units. 15 lab hrs/wk for 8 weeks. Prerequisites: NE 285L, 283AL, 284L, 288B, and 281. Corequisite: NE 286. Must be enrolled in the COM Registered Nursing Program.
This course, the clinical laboratory accompanying NE 286, provides experiences that facilitate the transition from student to graduate Registered nurse. It provides opportunities to integrate cumulative nursing knowledge and experience into clinical practice; to manage care for a group of clients; to actively collaborate with clients, families, and health care team members; and to further develop technical skill competencies under the direct supervision of a preceptor and the indirect supervision of a faculty liaison. Particular emphasis is given to the development of leadership/management skills required of a nurse in an entry-level position. [Replaces NE 225L.] (CSU)

NE 288A: Pharmacology II
1.0 Unit. 1 lecture hrs/wk. Prerequisite: NE 188. Must be enrolled in the COM Registered Nursing Program.
This course builds upon concepts presented in NE 188, highlighting the major drug classifications, common prototype medications, and nursing management of drug therapy. Research findings and theory-based knowledge are applied in assessing the needs of clients for medications, safe medication administration, and patient education. Focus is on the basic knowledge, skills, and attitudes required for evidence-based medication administration and monitoring in the major drug categories. Representative medications affecting the following systems are discussed: neurological, gastrointestinal, respiratory, endocrine, cardiovascular, integumentary, renal, and sensory. Lifespan differences and complementary/alternative therapies are described as they affect medication administration. [Replaces NE 220A.] (CSU)
NE 288B: Pharmacology III
1.0 Unit. 1 lecture hrs/wk. Prerequisite: NE 188. Must be enrolled in the COM Registered Nursing Program.

This course builds upon concepts presented in NE 288A, highlighting the major drug classifications, common prototype medications, and nursing management of drug therapy. Research findings and theory-based knowledge are applied in assessing the needs of clients for medications, safe medication administration, and patient education. Focus is on the basic knowledge, skills, and attitudes required for evidence-based medication administration and monitoring in the major drug categories. Representative medications are discussed: antibiotic/antifungal/antiviral, chemotherapy agents, immunomodulators, substances of abuse, psychotherapeutic drugs, vaccines, drugs that modify uterine function, and drugs indicated for bone and joint disorders. Complementary/alternative therapies are described as they affect and interact with medication administration. [Replaces NE 220B.] (CSU)

NURSING EDUCATION NONCREDIT REVIEW COURSES
The following noncredit courses are offered in support of the College of Marin Registered Nursing Program. Please refer to the Registered Nursing Department website for details: www.marin.edu/nursing.

VOCN 6010: Review of Nursing Care and Skills for RN Students
0.0 Unit.

This course offers the RN student additional practice in the class/ clinical/laboratory setting. It is designed to provide additional practice and remediation in topics ranging from assessment, nursing care planning, documentation, communication, medication administration, nursing skills, and organization, to critical thinking and clinical decision making. Students must be enrolled in COM’s RN program, and are recommended to this course by their clinical instructor.

VOCN 6015: Successful RN Preceptor Course
0.0 Unit. 5 lecture hrs/wk.

This course prepares registered nurses to be effective preceptors for fourth-semester nursing students. The course includes content related to roles and responsibilities of the preceptor: supervision and legal issues, communication plan, values clarification, writing behavioral objectives, the advisement and evaluation process; and critical thinking and clinical decision making. Students must be enrolled in COM’s RN program, and are recommended to this course by their clinical instructor.

VOCN 6020: Test of Essential Academic Skills Preparation Course
0.0 Unit. 0.75 lecture and 0.125 TBA hrs/wk.

This course introduces the Test of Essential Academic Skills (TEAS) test plan, describing content areas of reading comprehension; mathematics; science and technical reasoning; and English and English language skills, and discusses test taking skills. The last meeting includes a post assessment test, grading the test, and how to register for the TEAS.

PHILOSOPHY

The aim of philosophy courses is to understand how the great minds of the past and present have perceived and answered the most challenging questions about knowledge and reality and then to develop one’s own philosophy. This discipline encourages the acquisition and development of creative thought processes.

Career Options
Attorney, Communicator, Computer Scientist, Counselor, Educator, Journalist, Minister, Politician, Social Worker, Teacher

A.A.-T. IN PHILOSOPHY

Associate in Arts in Philosophy for Transfer degree (AA-T)
This degree is primarily intended for the student who wants to earn a degree on the way to transferring to a California State University.

To complete the Associate in Arts in Philosophy for Transfer degree, a student must:

1. Complete 60 semester units or 90 quarter units that are eligible for transfer to the California State University, including both of the following:
   - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education – Breadth Requirements.
   - A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district.

2. Complete all courses in the major with a grade of “C” or better, or “P” if the course is taken as ”pass/no pass.”

3. Obtain a minimum grade point average of 2.0.

REQUIREMENTS

| REQUIRED CORE COURSES (6 UNITS): |
|---------------------------------|---|
| PHIL 112  | Introduction to Logic | 3 |
| PHIL 110  | Introduction to Philosophy | 3 |
| Or
| PHIL 111  | Introduction to Ethics | 3 |

List A. Select one (3 units)

| Any course from required core not already used |
|---------------------------------------------|---|
| PHIL 115  | History of Philosophy: Ancient | 3 |
| PHIL 117  | History of Philosophy: Late Modern to Contemporary | 3 |

List B. Select two (6 units)

| Any course from List A not already used |
|----------------------------------------|---|
| HUM 100A  | Introduction to Humanities: Ancient Greece to the Medieval Period | 3 |
| Or
| HIST 111  | Western Civilization I: to 1350 | 3 |

| Any course from List B not already used |
|----------------------------------------|---|
| HUM 100B  | Introduction to Humanities: Renaissance to the Modern Period | 3 |
| Or
| HIST 112  | Western Civilization III: the 19th and 20th Centuries | 3 |

List C. Select one (3 units)

| Any course from List A or List B not already used |
|-----------------------------------------------|---|
| Courses articulated as CSU GE Area C2 or IGETC Area 3B: |

Courses articulated as CSU GE Area C2 or IGETC Area 3B:
PHILOSOPHY COURSES (PHIL)

PHIL 110: Introduction to Philosophy
3.0 Units. 3 lecture hrs/wk. Prerequisite: ENGL 98 or 98SL or English Placement Test or equivalent. PHIL 110 is not a prerequisite for PHIL 111.

This course introduces major thinkers, movements and ideas in the western philosophical tradition. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

PHIL 111: Introduction to Ethics
3.0 Units. 3 lecture hrs/wk. Prerequisite: ENGL 98 or 98SL or English Placement Test or equivalent.

This course introduces students to the major philosophical ethical theories and encourages them to apply these theories to situations in contemporary culture. Students gain an increased understanding of the role that ethical reasoning plays in the maintenance of culture. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

PHIL 112: Introduction to Logic
3.0 Units. 3 lecture hrs/wk. Prerequisite: ENGL 120 or 120SL or English Placement Test or equivalent.

An introduction to the logical analysis and evaluation of arguments. Topics covered include: argument diagramming, categorical logic, sentential logic, and formal and informal fallacies. (CSU/UC) AA/AS Area C or E, CSU Area A-3

PHIL 115: History of Philosophy: Ancient
3.0 Units. 3 lecture hrs/wk. Prerequisite: PHIL 110.

An introduction to ancient Greek philosophy, focusing on the Presocratics, Socrates, Plato, Aristotle, the Cynics, Stoics, Epicureans and Skeptics. (CSU/UC) CSU Area C-2, IGETC Area 3B

PHIL 116: History of Philosophy: Medieval
3.0 Units. 3 lecture hrs/wk. Prerequisite: ENGL 98 or 98SL or English Placement Test or equivalent.

An introduction to the history of Medieval philosophy from St. Augustine to Sir William of Ockham. (CSU/UC) CSU Area C-2, IGETC Area 3B

PHIL 117: History of Philosophy: Late Modern to Contemporary
3.0 Units. 3 lecture hrs/wk. Prerequisite: ENGL 98 or 98SL or English Placement Test or equivalent.

This course deals with the history of philosophy from the end of the eighteenth century to the contemporary period. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

PHIL 118: Aesthetics
3.0 Units. 3 lecture hrs/wk. Prerequisite: ENGL 120 or 120SL or English Placement Test or equivalent.

An introduction to aesthetic theory and the philosophy of art. (CSU/UC) CSU Area C-2, IGETC Area 3B

PHYSICAL EDUCATION

For standard Physical Education courses, see the Kinesiology discipline.

PHYSICAL EDUCATION COURSES (PE)

PE 070: Adapted Aquatics
0.5 Unit. 2 lab hrs/wk. Course is repeatable. Prerequisite: Recommendation of student’s physician, completed medical form, and a student educational plan.

A class for any student who will benefit from a program of aquatic exercise. Swimming skills are not necessary. (CSU/UC) AA/AS Area H

PE 071: Adaptive Fitness and Strength Training
0.5 Unit. 2 lab hrs/wk. Course is repeatable. Prerequisite: Recommendation of student’s health care provider including completed medical form, and a student educational plan.

An aerobic fitness class developed to meet the needs of students with physical disabilities. Students will participate in group exercise activities (sitting or standing) designed to enhance cardiovascular fitness,
strength, flexibility, coordination, and balance. (CSU/UC) AA/AS Area H

PE 072: Adapted General Conditioning
0.5 Unit. 2 lab hrs/wk. Course is repeatable. Prerequisite: Recommendation of student’s physician, completed medical form, and a student educational plan.

In this course, designed for students with physical disabilities, under the direction of the instructor, students develop a personalized fitness program based on their individual needs, including the use of stationary bicycles, treadmills, weights and other adapted equipment. (CSU/UC) AA/AS Area H

PE 074: Adapted Yoga
0.5 Unit. 2 lab hrs/wk. Course is repeatable. Prerequisite: Recommendation of student’s physician, completed medical form, and a student educational plan.

This is a safe yoga, breathing, and relaxation course designed for students with physical disabilities. Instruction includes total body movement, breathing and relaxation techniques. Emphasis is on proper alignment, mind/body connection, and stress reduction techniques. (CSU/UC) AA/AS Area H

PE 075: Adapted Tai Chi
0.5 Unit. 2 lab hrs/wk. Course is repeatable. Prerequisite: Recommendation of student’s physician, completed medical form, and a student educational plan.

This class introduces the art of Tai Chi, specifically the Yang style short form and long form. Designed for students with physical disabilities, movements are adapted to the needs of each student, so that all may participate successfully at their appropriate level. (CSU/UC) AA/AS Area H

PE 076: Adapted Zumba Fitness
0.5 Unit. 2 activity hrs/wk. Course is repeatable. Prerequisite: Recommendation of student’s physician, completed medical form, and a student educational plan.

This class is a fusion of international music and dance (primarily Latin) that creates a dynamic, exciting, and effective total body fitness program yet is low-impact and can be modified for individuals with disabilities and/or who use a chair. While exploring a medley of easy-to-follow dance rhythms and variations, the class is accessible to most everyone, regardless of age or skill level. No dance experience is necessary. (CSU/UC) AA/AS Area H

PE 079: Adapted Awareness Through Movement
0.5 Unit. 2 activity hrs/wk. Course is repeatable. Prerequisite: Recommendation of student’s physician, completed medical form, and a student educational plan.

This class provides group lessons in the Feldenkrais group movement method, where students learn to move with awareness to improve functioning, balance, coordination, posture and well being. The lessons increase the capacity for easier and more effective movement in everyday activities. (CSU/UC) AA/AS Area H

PHYSICS

The study of physics is extensive. It includes such fields as astronomy, optics, nuclear and high-energy physics, acoustics, solid state physics, biophysics, and geophysics. The career physicist may stand on a missile-launching pad, go beneath the sea or ascend into the upper atmosphere. Today, however, nuclear physicists represent the largest single group of full-time employed physicists.

Career Options

A.S.-T. IN PHYSICS

Associate in Science in Physics for Transfer degree (AS-T)
This degree is primarily intended for the student who wants to earn a degree on the way to transferring to a California State University.

To complete the Associate in Science in Physics for Transfer degree, a student must:

1. Complete 60 semester units or 90 quarter units that are eligible for transfer to the California State University, including both of the following:
   - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education – Breadth Requirements.
   - A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district.

2. Complete all courses in the major with a grade of “C” or better, or “P” if the course is taken as "pass/no pass."

3. Obtain a minimum grade point average of 2.0.
PHYS 207B: Electricity and Magnetism
5.0 Units. 4 lecture and 3 lab hrs/wk. Prerequisites: PHYS 108A, and Math 223 or concurrent enrollment. The physics prerequisite must have been completed within the past 5 years.

This course develops both microscopic and macroscopic descriptions of electricity and magnetism. The microscopic viewpoint is described by Maxwell’s four equations, which relate electric and magnetic fields to electric charges and currents, and by Coulomb’s law. The macroscopic description involves simple AC and DC circuit analysis, which includes Ohm’s law and the concepts of resistance, capacitance, inductance, impedance, and electrical resonance. (CSU/UC) CSU Area B-1 and B-3

PHYS 207C: Heat, Light, Sound, and Modern Physics
5.0 Units. 4 lecture and 3 lab hrs/wk. Prerequisites: PHYS 207A, and Math 223 or concurrent enrollment. The physics prerequisite must have been completed within the past 5 years.

This course develops the concepts and laws describing four different but related topics. The major ideas include the first and second laws of thermodynamics, kinetic theory of gases, interference and diffraction of light and sound waves, optical instruments, atomic structure of matter, nuclear physics, and a brief introduction to quantum theory. (CSU/UC) CSU Area B-1 and B-3

POLITICAL SCIENCE

Political science is the study of government and politics. The major in political science is primarily designed for the student who desires a liberal arts education with a political science emphasis and who plans to enter a career in government service or public administration, seeks training for positions in the overseas agencies of the United States government, intends to pursue the study of law, or who wants to specialize in journalism or writing with an emphasis on government.

Career Options
Administrative Assistant, Attorney, Campaign Aide/Manager, City/County Manager, Claims Examiner, Congressional Staff Member, Consumer Protection Specialist, Contract Administrator, Customs Inspector, Diplomat, Economist, Elected Official, Environmental Studies, Equal Opportunity Specialist, Foreign Service Officer, Global Studies, International Relations Specialist, Labor Organizer,
Labor Relations Manager, Law Clerk, Legislative Aide, Lobbyist, Paralegal Assistant, Patent Examiner, Political Scientist, Public Administrator, Public Information Officer, Research Specialist, Teacher, Union Representative, Urban/Regional Planner, Writer/Journalist

Faculty
Yolanda Bellismo, Paul Cheney
Department Phone: 415-485-9630

A.A.-T. IN POLITICAL SCIENCE

Associate in Arts in Political Science for Transfer degree (AA-T)
This degree is primarily intended for the student who wants to earn a degree on the way to transferring to a California State University.

To complete the Associate in Arts in Political Science for Transfer degree (AA-T), a student must:
1. Complete 60 semester units or 90 quarter units that are eligible for transfer to the California State University, including both of the following:
   - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education – Breadth Requirements.
   - A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district. Up to 12 units may be double-counted.
2. Complete all courses in the major with a grade of “C” or better, or “P” if the course is taken as “pass/no pass.”
3. Obtain a minimum grade point average of 2.0.

POLITICAL SCIENCE COURSES (POLS)

POL 100: American Political Institutions
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This course surveys American political institutions, roles, processes and problems at the national, state, and local level. Emphasis is on the political values of our society and how these values are reflected in institutions, processes, and policies. Students learn to question, analyze, and interpret public policy and current events and discover how they, as citizens, can help shape and influence government policy. (CSU/UC) AA/AS Area B, CSU Area D-8, IGETC Area 4, CSU U.S. History, Constitution, and American Ideals

POL 101: Introduction to the Government of the United States
3.0 Units. 3 lecture hrs/wk. No prerequisite. POLS 101 is recommended over POL 100 for majors in prelegal, social sciences, liberal arts, and teaching.
An introduction to political science as a survey of American government. Students learn methods of political analysis and the application of these methods to the study of American government. The course emphasizes national government but provides an understanding of government at the state and local level as well. Students develop insights into the clash of ideas in American politics and how they can influence political outcomes. (CSU/UC) AA/AS Areas B or F, CSU Area D-8, IGETC Area 4, CSU U.S. History, Constitution, and American Ideals

POL 102: Comparative Political Systems
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This course is designed to help students gain knowledge of the world’s diverse political structures and practices. It focuses on specific countries and general concepts used to interpret key political relationships within nations, and to compare political, economic and social systems among nations. (CSU/UC) AA/AS Area B, CSU Area D-8, IGETC Area 4

POL 103: Political Theory
3.0 Units. 3 lecture hrs/wk. No prerequisite.
An introduction to the history of political thought from Plato to the present. Present examples of the theory and practice of politics and the description and analysis of political behavior are related to great political thinkers of the past. New approaches to solve political and social problems are discussed. (CSU/UC) AA/AS Area B, CSU Area D-8, IGETC Area 4
POLS 104: International Relations
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This course is designed to introduce students to the theory and practice of international relations. The course identifies the various players in global politics and describes and explains their behavior and the structure of the international system in which they operate. Included is an examination of not only the traditional subjects of international relations, such as power, nationalism, diplomacy, and war, but also those transnational factors that have come to play a critical role in an increasingly interdependent world, such as immigration, trade and economic/financial activities, the environment, human rights, and terrorism. (CSU/UC) AA/AS Area B, CSU Area D-8, IGETC Area 4

POLS 117: The Middle East: A Political Perspective
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This course surveys the major political developments in the Middle East in their historical and cultural context from the rise of Islam to the present, emphasizing the developments of the post-Cold War period and contemporary politics. The wide range of viewpoints regarding the role of political elites, great powers, oil, the Arab-Israeli conflict, gender politics, and factors impacting the growth of democracy in the Middle East are explored. (CSU/UC) CSU Area D-8

POLS 125: Research Methods and Term Papers in Political Science
3.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: Eligibility for ENGL 150. Can be taken as ECON 125, ETST 125, HIST 125, POLS 125, or SSC 125; credit awarded for only one course.
This class provides students with a detailed understanding of the American presidency for both national and international affairs. This class to share insights. (CSU)

POLS 201: Understanding Globalization
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This course explores the current wave of global political, economic, and social change, and the opportunities and challenges it brings to states, institutions, and individuals. Focus is on what the individual needs to know and understand to be an effective participant in these rapidly-changing global phenomena. (CSU/UC) AA/AS Area B, CSU Area D-7, IGETC Area 4

POLS 203: Understanding Terrorism
3.0 Units. 3 lecture hrs/wk. No prerequisite.
Using lecture, class and group discussion, project based learning, audiovisual materials, and guest speakers, this course is a multidimensional exploration of terrorism from historical, political, ideological, and religious perspectives. (CSU/UC) AA/AS Area B

POLS 210: War, Peace, and the United Nations
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This course introduces the study of diplomacy in international crises, emphasizing the role of the United Nations and other international organizations in processes and politics that prevent war and preserve peace. Students learn to question, analyze, and interpret international news and events to understand the role of negotiation and mediation in international relations. The course also includes optional student participation in the proceedings of a regional Model United Nations. (CSU/UC) AA/AS Area B, CSU Area D-8, IGETC Area 4

POLS 211: Women in American History and Politics
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as POLS 211 or POLS 215; credit awarded for only one course.
This course, a social and political history of women and women’s movements in American society, examines the development of American institutions and ideals with respect to women’s roles and status; analyzes women’s relationship to economic, political, and social processes; explores cultural models of womanhood; and examines how women define themselves and how they have enacted change. Key themes include the diversity of American women and developing a framework for understanding gender in relation to race, ethnicity, class, sexuality, and religion. Includes research in both primary and secondary sources. (CSU/UC) AA/AS Areas B, F, or G; CSU Areas D-4, D-6, and D-8; IGETC Area 4

POLS 212: History and Politics of Modern Asia
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as HIST 212 or POLS 212; credit awarded for only one course.
This course introduces the history and politics of Asia since 1945, including the study of East, South, and Southeast Asia. The course emphasizes the political outcomes of the development of Asia as a consequence of both internal societal influences as well as external political and economic pressures. (CSU/UC) CSU Area D-6 and D-8, IGETC Area 4

POLS 215: Survey of Current Issues
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as ECON 215, POLS 215, or SSC 215; credit awarded for only one course.
This course is an opportunity to critically examine and discuss significant world developments and to attempt to understand the sources of those developments. Student focus on issues of particular interest and share that information with the group. When possible, informed participants in world and national events meet with the class to share insights. (CSU)

POLS 219: The Politics of the United States Presidency
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This class provides students with a detailed understanding of the modern American presidency by examining the theory and realities behind Executive Branch power. Topic covered include basic concepts of American government, the relationships between various branches of government, the role of interest groups, and the legacy of the American presidency for both national and international affairs. The class uses primary as well as secondary sources to contrast historical developments with recent presidential administrations. (CSU/UC) AA/AS Area B, CSU Area D-8, IGETC Area 4

POLS 220: American Foreign Policy
3.0 Units. 3 lecture hrs/wk. No prerequisite.
A survey of the theoretical, historical, and empirical factors involved in the formation of United States foreign policy since World War II, this course focuses on the causes and consequences of America’s role in the world during both the Cold War and post Cold War
periods. Particular attention is paid to contemporary problems such as globalization, climate change, and terrorism, and how these are influenced by the dynamics of America’s history, political culture, and government system. (CSU/UC) AA/AS Area B, CSU Area D-8, IGETC Area 4

PSYCHOLOGY

The course offerings are designed to familiarize students with the facts, theories, and contemporary trends in psychology and human development and how these principles can be incorporated into a meaningful understanding of oneself. For students intending to major in psychology, there are several areas of concentration and career options.

Career Options
Activities Director, Administrator, Advertising Account Executive, Art Therapist, Child Psychologist, Clinical Psychologist, Community Mental Health Worker, Correctional Officer, Counselor, Customer Service Representative, Drug/Alcohol Counselor, Employee Relations Specialist, Employment Interviewer/Counselor, Experimental Psychologist, Industrial Psychologist, Manpower Development Specialist, Market Research Analyst, Marriage, Family and Child Counselor, Minister, Personnel Specialist, Probation/Parole Officer, Program Director, Psychiatric Social Worker, Psychiatric Technician, Psychiatrist, Psychometrist, Public Health Educator, Public Relations Representative, Recreation Specialist/Therapist, Rehabilitation Counselor, Research Assistant, Residential Counselor, Sales Representative, School Psychologist, Special Education, Speech Pathologist/Therapist, Statistician, Training Specialist, Welfare Worker, Youth Organization Leader

Faculty
Shawn Purcell, Robert McCoy, Susan Rahman
Department Phone: 415-485-9630

A.A.-T. IN PSYCHOLOGY

Associate in Arts in Psychology for Transfer
This degree is intended for students who plan to transfer to the California State University (CSU) with a major in psychology. Students who complete the degree will be guaranteed admission to a CSU campus and will be prepared to pursue a bachelor’s degree in a similar major.

The Associate in Arts in Psychology for Transfer (AA-T) offers a breadth of courses in the discipline and allows the students to satisfy the lower division major preparation requirements. The degree introduces students to the theories and practices in psychology. Upon completion of the degree, students will be able to identify and describe the major concepts, theoretical perspectives, empirical findings, and historical trends in psychology. Students will apply the scientific method and critical thinking skills to formulate and evaluate valid hypotheses in the field as well as describe how psychological principles are applied in business, industry, childrearing and social interactions. Furthermore, students will be able to articulate how basic psychosocial factors influence behavior, attitudes, and personal presuppositions.

To complete the Associate in Arts in Psychology for Transfer (AA-T) degree, a student must:
1. Complete 60 semester units or 90 quarter units that are eligible for transfer to the California State University, including both of the following:
   • The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education – Breadth Requirements.
   • A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district. Up to 12 units may be double-counted.
2. Complete all courses in the major with a grade of “C” or better, or “P” if the course is taken as “pass/no pass.”
3. Obtain a minimum grade point average of 2.0.

PSYCHOLOGY COURSES (PSY)

PSY 110: Introduction to Psychology
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This course examines traditional areas of psychological investigation from a scientific perspective. Topics include scientific methodology, human development, personality, psychological measurement, psychopathology, psychotherapy, motivation, perception, social influences on behavior, cognitive processes, learning, and biological basis of behavior. (CSU/UC) AA/AS Area B, CSU Area D-9 or E, IGETC Area 4

PSY 111: Personality Dynamics and Effective Behavior
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This course presents major theoretical and research perspectives on personality description, development, dynamics, and change, and examines how these theories and research findings can be effectively applied in our own lives. Topics include the dimensions of personality traits and the development of tests to measure these traits in individuals; factors influencing the day-to-day functioning of individuals including conscious and unconscious motivations, self-concept, self-esteem, and coping mechanisms; considerations of gender and social and cultural influences; and therapy, growth, and
maturational perspectives on personality. (CSU/UC) AA/AS Area B, CSU Area D-9 or E, IGETC Area 4

**PSY 112: Child and Adolescent Psychology**  
3.0 Units. 3 lecture hrs/wk. No prerequisite.  
This course emphasizes the understanding of children and adolescents through the study of the psychological and developmental changes they undergo. The course examines physiological, social/emotional, cognitive, and personality development from birth through adolescence. (CSU/UC) AA/AS Area B, CSU Area D-9 or E, IGETC Area 4

**PSY 114: The Psychology of Human Development: Lifespan**  
3.0 Units. 3 lecture hrs/wk. No prerequisite.  
This course examines human development from conception through old age. Physical, intellectual, social, and personality development are included. Emphasis is placed on the continuity of development as well as on individual differences. (CSU/UC) AA/AS Area B, CSU Area D-9 or E, IGETC Area 4

**PSY 116: Theories of Personality**  
3.0 Units. 3 lecture hrs/wk. No prerequisite.  
A survey of the major theories of personality. Psychoanalytic, interpersonal, humanistic, behavioral, social-cognitive, and trait theories will be covered. (CSU/UC) AA/AS Area B, CSU Area D-9, IGETC Area 4

**PSY 125: Psychology of Violence**  
3.0 Units. 3 lecture hrs/wk. No prerequisite.  
This course examines the psychological bases of violence against self, intimates, associates, and strangers in such diverse settings as the home, workplace, school, streets, and other public places. Theories explaining violent behavior as the result of biology, of shame and low self-esteem, of failures of attachment, empathy, and guilt, of media violence, and of prejudice and hatred are examined. The roles of prisons, drugs, guns, poverty, racism, sexism, homophobia, and mental illness in precipitating violence are assessed. (CSU)

**PSY 130: Introduction to Sport and Exercise Psychology**  
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as PSY 130 or PE 120; credit awarded for only one course.  
This course examines the psychological theories and techniques that are applied to sport, exercise and other achievement-related situations. The course emphasizes the enhancement of performance and personal growth of athletes, coaches, and exercise participants. Students also learn mental skills that they can transfer from sport and exercise settings to their everyday lives. (CSU)

**PSY 140: Marriage, Family, and Intimate Relationships**  
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as PSY 140 or SOC 140; credit awarded for only one course.  
This course offers students a theoretical and practical understanding of the variety of intimate social and family relationships existing in contemporary society. While the course covers traditional marriage and nuclear family relationships, it also emphasizes other lifestyles, e.g., singles, gay, blended families, etc. (CSU/UC) AA/AS Area B, CSU Area D-7 or E, IGETC Area 4

**PSY 145: Psychology in Modern Life**  
3.0 Units. 3 lecture hrs/wk. No prerequisite.  
This course examines the psychological, physiological, and sociocultural factors involved in personality development, interpersonal relationships, and social processes. The course teaches important psychological principles, concepts, skills, and research, with the goals of improving the quality of our own lives and relationships. It emphasizes knowledge, insights, and skills that students can apply to their own lives, particularly in areas such as life satisfaction, personal satisfaction, careers, relationships, health, and stress management. (CSU) AA/AS Area B, CSU Area D-9 or E

**PSY 150: Introduction to Research Methods**  
3.0 Units. 3 lecture hrs/wk. Prerequisite: SOC 110 or PSY 110 or ANTH 101 or ANTH 102. May be taken as ANTH 150, BEHS 150, PSY 150, or SOC 150; credit awarded for only one course.  
This course introduces the methods, logic, and empirical and analytical strategies behavioral scientists use to study the social world. Students gain knowledge and practical experience in the scientific method, evaluation of evidence, and the research design and development process. Key topics include qualitative and quantitative modes of inquiry, formulating research questions, developing and testing hypotheses, ethics of research, and developing a study design and methodology. (CSU)

**PSY 204: Abnormal Psychology**  
3.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: PSY 110.  
Principles of general psychology applied to the field of psychopathology. A survey of the major diagnostic disorders together with the theories of the cause of mental illness, and of the major psychotherapeutic methods in relation to their practical and theoretical value. This introduction to abnormal psychology is directed toward those with an interest in applied psychology. (CSU/UC) AA/AS Area B, CSU Area D-9, IGETC Area 4

**PSY 205: Introduction to Research Methods and Data Analysis in Psychology**  
3.0 Units. 3 lecture hrs/wk. Prerequisite: PSY 110. Advisory: Math 115 or STAT 115. Can be taken as PSY 205 or SOC 205; credit awarded for only one course.  
This course prepares students for upper-level division work in the psychology and sociology majors. The course examines the following topics: conducting Internet and library research; formulating testable hypotheses; methods of examining processes, causality, the power of social events, and the associations between phenomena; and appropriate selection and use of nonparametric and parametric statistics. (CSU/UC) AA/AS Area B or E, CSU Area D-9 or D-0, IGETC Area 4

**PSY 230: Social Psychology**  
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as PSY 230 or SOC 230; credit awarded for only one course.  
This interdisciplinary course covers sociological and psychological approaches to important social phenomena. The diverse topics include altruism; attitude formation and attitude change; conformity; person perception and social labeling; reference groups; social conflict and conflict resolution; human aggression; intergroup processes; intragroup processes; interpersonal attraction; social networks, statuses and roles; and the social development of the self. (CSU/UC) AA/AS Area B, CSU Area D-7, IGETC Area 4
PSY 251: Biological Psychology
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as PSY 251 or BIOL 251; credit awarded for only one course.

This class explores the basic brain processes underlying the functioning of the human mind. Topics include basic synaptic functioning, psychopharmacology, stress and the immune system, learning and memory, sleep, mood disorders, schizophrenia, language, motor and sensory systems, sexuality, consciousness, endocrine function and interactions. (CSU/UC) AA/AS Area B, CSU Area D-9, IGETC Area 4

PSY 252: Seminar and Fieldwork Experience
3.0 Units. 1.5 lecture and 4.5 lab hrs/wk. Repeat: 1. Prerequisite: PSY 110, 112 or 114 or SOC 110 or concurrent enrollment. May be taken as PSY 252 or BEHS 252; credit awarded for only one course.

This course is designed to give students meaningful participation in a psychologically related community service agency in order to understand the applications of psychological principles, theories, and concepts. With the mutual consent of student and instructor each student is placed in a school, social agency, special education program, mental health agency, or community organization and works under the direct supervision of someone with a degree, credential, or demonstrated expertise in psychology or sociology. (CSU)

REAL ESTATE

The Real Estate Program is designed to serve the individual planning to enter the real estate profession, the person who wishes to improve skills and qualify for the real estate sales and broker's license, and active professionals working on license renewal. Upon completing the Real Estate Program, students are eligible for positions in real estate sales offices, banks, savings and loan corporations, title companies, escrow companies, organizations, and as independent real estate brokers.

Career Options
Appraiser, Escrow Officer, Loan Officer, Mortgage Lender, Property Developer, Property Manager, Real Estate Agent, Real Estate Broker, Real Estate Counselor, Sales Agent

Department Phone: 415-485-9610

A.S. IN REAL ESTATE, OCCUPATIONAL

(Certificate of Achievement also awarded. Skills Certificates in Real Estate Appraisal, Finance, Law, and Property Management also available.)

Courses are offered at both campuses. Students may take classes at either campus and complete requirements for the major. Real estate brokers and sales persons must also pass an examination given by the State of California, Department of Real Estate. Students who complete only the six real estate courses required for the major (Real Estate 115, 116, 117, 210, 212, and 215) are eligible for the Certificate of Achievement. An Associate in Science degree is awarded for satisfactory performance in major courses (six Real Estate courses listed plus Business 101, 107, and 112) as well as completion of general education and graduation requirements. Note: Students are required to complete English 150 for the associate degree. All students should consult a counselor.

REAL ESTATE COURSES (REAL)

REAL 115: Real Estate Principles
3.0 Units. 3 lecture hrs/wk. No prerequisite.

This fundamental real estate course emphasizes the basic concepts and terminology necessary for understanding the complexities of the real estate profession. The Department of Real Estate requires this course and Real Estate Practice (REAL 116), plus one other elective course to be taken prior to sitting for the Real Estate Salesperson's Exam. This course is also one of the eight courses required to sit for the Real Estate Broker's Exam. Specific course content is applicable towards Real Estate Appraiser Licensing (check with real estate instructors for content and subject categories based on Office of Real Estate Appraiser's requirements). (CSU)
REAL 116: Real Estate Practice
3.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: REAL 115.
This course introduces students to the day-to-day practice in a real estate office. It includes understanding agency obligations inherent in real estate practice and provides practice in the basic skills necessary to succeed in a real estate career. This course, plus REAL 115, plus one other elective course, are required for the Real Estate Salesperson’s Exam. This is also one of the eight courses required to sit for the Real Estate Broker’s Exam. (CSU)

REAL 117: Legal Aspects of Real Estate
3.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: REAL 115.
A study of California real estate law covering agency, contracts, disclosures, landlord/tenant disputes, development and the environment, property taxes, common interest subdivisions, escrow and title insurance boundary disputes, and the effects of trusts and bankruptcy on property transactions. This course is one of the acceptable electives for obtaining a Real Estate Sales license and is also one of the eight courses required to sit for the Real Estate Broker’s Exam. (CSU)

REAL 210: Real Estate Finance
3.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: REAL 115.
A study of real estate finance includes lending policies and problems, financing residential and commercial properties, and the Federal and State entities that oversee lending practices. This course is one of the acceptable electives for obtaining a Real Estate Sales license and is also one of the eight courses required to sit for the Real Estate Broker’s Exam. (CSU)

REAL 212: Real Estate Appraisal I
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This introductory course covers the purposes of appraisals, the appraisal process, and the different approaches, methods, and techniques used to determine the value of various property types. This course is one of the acceptable electives for obtaining a Real Estate Sales license and is also one of the eight courses required to sit for the Real Estate Broker’s Exam. (CSU)

REAL 215: Real Estate Economics
3.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: REAL 115.
This course provides the means to interpret economic activities for the mutual benefit of property owners, investors, and real estate professionals. It includes relating business and real estate cycles to forecasting land use and capital growth patterns, the clash of land use controls, and the dynamics of community demographics and property investment alternatives. This course is one of the acceptable electives for obtaining a Real Estate Sales license and is also one of the eight courses required to sit for the Real Estate Broker’s Exam. (CSU)

REAL 217: Advanced Real Estate Appraisal II
3.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: REAL 212.
This course addresses the appraisal of income producing properties and the techniques and methodology used by appraisers to convert cash flows into indicators of value. This course is one of the acceptable electives for obtaining a Real Estate Broker’s License. Specific course content is applicable towards Real Estate Appraiser Licensing (check with real estate instructors for content and subject categories based on Office of Real Estate Appraiser’s requirements). (CSU)

REAL 218: Property Management
3.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: REAL 115.
This course identifies the tools and methods of managing income properties, emphasizing owner/tenant relations, evictions, contracts, cash flows, and employment regulations. It is one of the acceptable electives for obtaining a Real Estate Sales license and is also one of the eight courses required to sit for the Real Estate Broker’s Exam. (CSU)

REAL 219: Escrows
3.0 Units. 3 lecture hrs/wk. Prerequisite: REAL 115.
This course emphasizes the methods and techniques of escrow procedures with an additional focus on the title industry and the complex considerations that can affect title. This course can enhance a student’s ability to seek employment in not just real estate sales or appraisal, but also opens up employment opportunities in the escrow and title industries. This course is one of the acceptable electives for obtaining a Real Estate Sales license or a Real Estate Broker’s License. (CSU)

REAL 220: California Loan Brokering
3.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: REAL 115.
This course introduces the student to the complex laws affecting the loan brokering business. It is designed for those already involved in a real estate career and for those considering a career in the real estate loan marketplace. It is also a valuable course for borrowers so that they can understand the loan process. This course is one of the acceptable electives for obtaining a Real Estate Sales license or a Real Estate Broker’s License. Specific course content is applicable towards Real Estate Appraiser Licensing (check with real estate instructors for content and subject categories based on Office of Real Estate Appraiser’s requirements). (CSU)

SOCIAL SCIENCE
The social science field is interdisciplinary and designed for students who wish to gain a broader understanding of the social sciences than is possible in a major offered by a single discipline. The aim of the social science major is to provide an opportunity for students who wish to build on the foundation of their general education and become familiar with more than one area of social science.

Career Options
Civil Service Worker, Community Organizer, Educator, Environmental Studies, Foreign Service Worker, Journalist, Management Trainer, Public Administrator, Researcher, Social Worker, Statistician, Teacher, Urban Planner

Faculty
Yolanda Bellisimo, Walter B. Turner
Department Phone: 415-485-9630
SOCIAL SCIENCE COURSES (SSC)

SSC 115: Leadership and Governance
1.0 Unit. 1 lecture hrs/wk. No prerequisite.

This course defines leadership and the development of leadership skills, including communication, facilitation, problem solving, and conflict resolution. Critical review of governance structure of the college and the district and comparison to other college governance structures. (CSU)

SSC 115AL: Leadership and Governance Learning Lab
1.0 Unit. 3 lab hrs/wk. Repeat: 3. Prerequisite: SSC 115 or concurrent enrollment.

This course provides appropriate laboratory assignments regarding service on governance committees. This laboratory provides students the opportunity to apply critical thought to work experience situations in leadership and governance positions. Assignments direct students to focus upon planning, implementing, and evaluating their work in college/student organizations and governance committees. (CSU)

SSC 125: Research Methods and Term Papers in Social Science
3.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: Eligibility for ENGL 150. Can be taken as ECON 125, ETST 125, HIST 125, POLS 125, or SSC 125; credit awarded for only one course.

This course focuses on the elements of critical thinking and methods of research in the social sciences and develops skills required to organize such thought and research into effective, college level presentations. Students are encouraged to select areas of research from other courses taken during the semester or from areas of special interest including politics, history, economics, education, women’s studies, ethnic studies, current issues, and issues of community concern. (CSU/UC)

SSC 215: Survey of Current Issues
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as ECON 215, POLS 215, or SSC 215; credit awarded for only one course.

This course is an opportunity to critically examine and discuss significant world developments and to attempt to understand the sources of those developments. Student focus on issues of particular interest and share that information with the group. When possible, informed participants in world and national events meet with the class to share insights. (CSU)

SOCIOLOGY

Sociology explores the patterns in human behavior and tries to make sense out of the many forces in society that shape individual lives. Courses in sociology provide the tools and intellectual frameworks students can use to better understand the society in which they live.

Career Options
Administrator, Adoptions Worker, Affirmative Action Officer, Camp Counselor, Community Outreach Worker, Consumer Research Assistant, Corrections Officer, Criminologist, Crisis Counselor, Demographer, Drug/Alcohol Counselor, Eligibility Worker, Employee Relations Assistant, Employment Interviewer, FBI Agent, Geriatric Specialist, Intake Interviewer, Marriage, Family, and Child Counselor, Penologist, Police Officer, Probation/Parole Officer, Program Director, Psychiatric Social Worker, Recreation Therapist, Rehabilitation Counselor, Research Worker, Residential Counselor, Social Ecologist, Social Service Aide, Social Statistician, Social Worker, Sociologist, Teacher, Volunteer Coordinator, Welfare Worker, Youth Organization Leader

Marco Gonzalez, Susan Rahman
Department Phone: 415-485-9630

A.A.-T. IN SOCIOLOGY

Associate in Arts in Sociology for Transfer
This degree is intended for students who plan to transfer to the California State University (CSU) with a major in sociology. The Associate in Arts in Sociology for Transfer (AA-T) provides students with a breadth of courses in sociology that prepares students in the theory, research, and methodologies of the discipline. The courses satisfy the lower-division major preparation requirements, allowing students to transfer into the sociology major or similar major at the CSU. The study of sociology explores the patterns in human behavior and tries to make sense out of the many forces in society that shape individual lives. Courses in sociology provide the tools and intellectual frameworks students can use to better understand the society in which they live.

To complete the Associate in Arts in Sociology for Transfer (AA-T) degree, a student must:

1. Complete 60 semester units or 90 quarter units that are eligible for transfer to the California State University, including both of the following:
   • The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education – Breadth Requirements.
   • A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district. Up to 12 units may be double-counted.
2. Complete all courses in the major with a grade of “C” or better, or “P” if the course is taken as “pass/no pass.”
3. Obtain a minimum grade point average of 2.0.

Required Electives - choose two (6 Units)
SOCIOLOGY COURSES (SOC)

SOC 110: Introduction to Sociology
3.0 Units. 3 lecture hrs/wk. No prerequisite.
A course designed to develop a sociological perspective; it explores the relationship between individual and group behavior and the nature of societal and institutional influences upon individuals and groups, and the resulting patterns of behavior. The core areas of sociology are covered. (CSU/UC) AA/AS Area B, CSU Area D-0, IGETC Area 4

SOC 112: Modern Social Problems
3.0 Units. 3 lecture hrs/wk. No prerequisite.
Students identify and analyze contemporary forms of deviant behavior generally defined as social problems by members of society. The course includes theoretical considerations of these problems, observations and descriptive interpretations, and field application of the sociological knowledge required in the classroom. (CSU/UC) AA/AS Area B, CSU Area D-0, IGETC Area 4

SOC 114: Global Social Issues
3.0 Units. 3 lecture hrs/wk. No prerequisite.
An opportunity to review and analyze some of the most important social problems of the current age from a global perspective, this course centers upon contemporary descriptions of major social conflicts, international disputes, and natural disasters. The course provides sociological models for theoretical consideration and analysis. Topics may include resource war, religious and political terrorism, nuclear proliferation, poverty, population growth and migrations, sexual exploitation, drug smuggling, ecological pollution, and climate change. (CSU/UC) AA/AS Area B, CSU Area D-7, IGETC Area 4

SOC 130: Race and Ethnicity
3.0 Units. 3 lecture hrs/wk. No prerequisite. May be taken as BEHS 130 or SOC 130; credit awarded for only one course.
This course offers an in-depth examination of race and ethnicity in the United States. Specifically, students gain a greater understanding of the concepts of race and ethnicity and the historic and present-day implications of prejudice, discrimination, and racism in our society. Students examine various theories of racial and ethnic stratification, immigration and the assimilation process, new and changing ethno-racial identities, and dominant-minority group interactions. (CSU)

SOC 140: Marriage, Family and Intimate Relationships
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as SOC 140 or PSY 140; credit awarded for only one course.
This course offers students a theoretical and practical understanding of the variety of intimate social and family relationships existing in contemporary society. While the course covers traditional marriage and nuclear family relationships, it also emphasizes other lifestyles, e.g., singles, gay, blended families, etc. Within the context of each lifestyle, topics such as communication, social roles, sexual behavior, decision making, child rearing, and everyday life interaction are covered. (CSU/UC) AA/AS Area B, CSU Area D-7 or E, IGETC Area 4

SOC 150: Introduction to Research Methods
3.0 Units. 3 lecture hrs/wk. Prerequisite: SOC 110 or PSY 110 or ANTH 101 or ANTH 102. May be taken as ANTH 150, BEHS 150, PSY 150, or SOC 150; credit awarded for only one course.
This course introduces the methods, logic, and empirical and analytical strategies behavioral scientists use to study the social world. Students gain knowledge and practical experience in the scientific method, evaluation of evidence, and the research design and development process. Key topics include qualitative and quantitative modes of inquiry, formulating research questions, developing and testing hypotheses, ethics of research, and developing a study design and methodology. (CSU)

SOC 205: Introduction to Research Methods and Data Analysis in Sociology
3.0 Units. 3 lecture hrs/wk. Prerequisite: SOC 110. Advisory: Math 115 or STAT 115. Can be taken as SOC 205 or PSY 205; credit awarded for only one course.
This course prepares students for upper-level division work in the psychology and sociology majors. The course examines the following topics: conducting Internet and library research; formulating testable hypotheses; methods of examining processes, causality, the power of social events, and the associations between phenomena; and appropriate selection and use of nonparametric and parametric statistics. (CSU/UC) AA/AS Area B or E, CSU Area D-9 or D-0, IGETC Area 4

SOC 230: Social Psychology
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as SOC 230 or PSY 230; credit awarded for only one course.
This interdisciplinary course covers sociological and psychological approaches to important social phenomena. The diverse topics include altruism; attitude formation and attitude change; conformity; person perception and social labeling; reference groups; social conflict and conflict resolution; human aggression; intergroup processes; intragroup processes; interpersonal attraction; social networks, statuses and roles; and the social development of the self. (CSU/UC) AA/AS Area B, CSU Area D-7, IGETC Area 4

SPANISH

A major reason for studying the Spanish language is the enrichment of one's intellectual growth in the context of the rest of the world. In learning Spanish, one also learns about the culture, philosophy, and civilization of another people, thereby broadening understanding of the world. On the practical side, any field of specialization (journalism, medicine, law, business, teaching) is enhanced if one can speak another language. In California, knowledge of a modern language is now required in many jobs that deal with the public such as Civil Service, social work, nursing, and other service-oriented fields.

Department Phone: 415-485-9480

Policy Statement Regarding Sequence of Enrollment in Spanish Language Classes
Although students are advised to enroll in language courses sequentially, they will not be precluded from enrolling in lower level language classes after completion of more advanced courses. Students should be aware, however, that units resulting from the lower level courses may not be accepted at transfer institutions as a part of the required transferring units.

A.A. IN SPANISH
Spanish language courses serve a dual purpose, which is to acquire structural and verbal skills, which satisfy both academic and cultural needs. The program serves both transfer students and those seeking self-enrichment. Students may take classes at either campus to fulfill requirements for the major. Students who complete the requirements listed below, plus additional general education and graduation requirements, will be awarded the associate degree. Note: Students are required to complete English 150 for the associate degree. All students should consult a counselor.

**TOTAL MAJOR UNITS** 18-19

**Skills Certificate in Spanish**
Skills Certificates are an acknowledgement that the student has attained a specified set of competencies within a program. Skills Certificates require less than 18 units and are shorter in duration than the Certificate of Achievement.

The Spanish Skills Certificate provides a way for students to verify that they have reached a level of proficiency in the Spanish language.

**TOTAL CERTIFICATE UNITS** 15

**SPANISH COURSES (SPAN)**

**SPAN 101: Elementary Spanish I**
5.0 Units. 4 lecture and 3 lab hrs/wk. No prerequisite.
A beginning course offering study and practice in speaking, understanding, reading, and writing Spanish, along with exploration of the cultural aspects of the Spanish-speaking world. The three-hour weekly laboratory requirement enhances the student’s verbal and comprehension skills through the use of audiovisual materials. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 6: UC Language other than English

**SPAN 102: Elementary Spanish II**
5.0 Units. 4 lecture and 3 lab hrs/wk. Prerequisite: SPAN 101.
A continuing course offering study and practice in speaking, understanding, reading, and writing Spanish, along with exploration of the cultural aspects of the Spanish-speaking world. The three-hour weekly laboratory requirement enhances the student’s verbal and comprehension skills through the use of audiovisual materials. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B and 6: UC Language other than English

**SPAN 103: Intermediate Spanish III**
5.0 Units. 4 lecture and 3 lab hrs/wk. Prerequisite: SPAN 101 or equivalent.
A beginning course offering students the opportunity to understand and speak Spanish using elementary grammar. The course is designed for students who wish to acquire skills of the spoken language with a minimum of formal grammar. Oral practice in speaking, understanding, and correct pronunciation of Spanish, using audiovisual materials depicting everyday situations. (CSU)

**SPAN 110: Conversational Spanish I**
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: SPAN 110 or equivalent.
A beginning course offering students the opportunity to understand and speak Spanish using elementary grammar. The course is designed for students who wish to acquire skills of the spoken language with a minimum of formal grammar. Oral practice in speaking, understanding, and correct pronunciation of Spanish, using audiovisual materials depicting everyday situations. (CSU)

**SPAN 112: Conversational Spanish II**
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: SPAN 110 or equivalent.
A beginning course offering students the opportunity to understand and speak Spanish using elementary grammar. The course is designed for students who wish to acquire skills of the spoken language with a minimum of formal grammar. Oral practice in speaking, understanding, and correct pronunciation of Spanish, using audiovisual materials depicting everyday situations. (CSU)

**SPAN 114: Conversational Spanish III**
4.0 Units. 3 lecture and 3 lab hrs/wk. Prerequisite: SPAN 112.
A continuing course offering students the opportunity to understand and speak Spanish using elementary grammar. The course is designed for students who wish to acquire skills of the spoken language with a minimum of formal grammar. Oral practice in speaking, understanding, and correct pronunciation of Spanish, using audiovisual materials depicting everyday situations. (CSU)

**SPAN 120: Spanish for Health Care Professionals I**
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This Spanish conversation course is designed for health care professionals and workers who wish to learn Spanish with the goal of applying it in their working environment. No prior knowledge of Spanish is needed. Fulfills continuing education requirements for registered nurses. (CSU)
SPAN 122:  Spanish for Teachers
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This beginning Spanish course is designed to meet the basic needs of teachers who wish to learn Spanish with the goal of communicating with students and parents in their working environment. No prior knowledge of Spanish is required. Fulfills continuing education requirements for teachers and is useful vocationally. (CSU)

SPAN 128A:  Spanish Conversation and Culture Through Film
3.0 Units. 3 lecture hrs/wk. Prerequisite: SPAN 102.
Through film, this course introduces important socio-cultural topics relevant in the Spanish-speaking world (including immigration, political oppression, social resistance, gender, race, music, and dance), providing opportunities for students to develop their speaking skills. Students view a variety of classic and contemporary Spanish films and participate in Spanish conversational activities designed to enable them to apply and expand on grammar concepts and vocabulary covered in Spanish 101 and 102. In addition, students complete final papers and oral presentations in Spanish on a cultural topic of their choice. Films may vary by semester. (CSU/UC) CSU Area C-2, IGETC Area 3B

SPAN 203:  Intermediate Spanish III
5.0 Units. 4 lecture and 3 lab hrs/wk. Prerequisite: Spanish 102.
In-depth study of the language with grammar review, oral practice, composition, and introduction to literature. The language laboratory offers the use of audiovisual materials for improved fluency and accuracy in pronunciation as well as the presentation of cultural and literary topics. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B and 6: UC Language other than English

SPAN 203HB:  Intermediate Spanish for Heritage and Bilingual Speakers
4.0 Units. 4 lecture hrs/wk. Prerequisite: Oral Fluency in Spanish.
An intermediate course tailored to the needs of bilingual students who have had little formal study of the Spanish language. This course focuses on reading, writing and vocabulary as well as cultural aspects of all Spanish-speaking countries. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B and 6: UC Language other than English

SPAN 204:  Intermediate Spanish IV
4.0 Units. 4 lecture hrs/wk. Prerequisite: Spanish 203 or equivalent.
An intermediate course offering students practice in speaking, understanding, reading, and writing Spanish, primarily in relation to the history and culture of the Spanish-speaking world. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3-B and 6: UC Language other than English

SPAN 206:  Spanish for Health Care Professionals II
3.0 Units. 3 lecture hrs/wk. Prerequisite: SPAN 120 or equivalent.
A continuing Spanish conversation course designed for health care professionals and workers who wish to learn Spanish with the goal of applying it in their working environment. Fulfills continuing education requirements for registered nurses. (CSU)

SPAN 208:  Spanish for Teachers
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This beginning Spanish course is designed to meet the basic needs of teachers who wish to learn Spanish with the goal of communicating with students and parents in their working environment. No prior knowledge of Spanish is required. Fulfills continuing education requirements for teachers and is useful vocationally. (CSU)

SPAN 225:  Advanced Spanish I
3.0 Units. 3 lecture hrs/wk. Prerequisite: Spanish 204 or equivalent.
An advanced course offering students practice in speaking, understanding, reading, and writing Spanish based on the civilization and culture of the Spanish-speaking world. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B and 6: UC Language other than English

SPAN 226:  Advanced Spanish II
3.0 Units. 3 lecture hrs/wk. Prerequisite: Spanish 225 or equivalent.
An advanced course offering students further practice in speaking, understanding, reading, and writing Spanish based on the civilization and culture of the Spanish-speaking world. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B and 6: UC Language other than English

SPAN 228C:  Advanced Spanish Conversation and Culture Through Film
3.0 Units. 3 lecture hrs/wk. Prerequisite: SPAN 203.
This course introduces traditional and modern trends in Spanish and Latin American film, and to establish connections between sociocultural and political changes in Spanish-speaking countries and their films—the most artistic and expressive medium of the past century. An intermediate level of Spanish is required, as students will give oral and written presentations in Spanish. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B

SPAN 230A:  Culture and Civilization of Spain and South America
3.0 Units. 3 lecture hrs/wk. Prerequisite: SPAN 102.
Study of language, heritage, culture, traditions, music, art, literature, historic and current events of Spain and South American countries. The course is conducted entirely in Spanish; students are expected to have knowledge of verb tenses and other grammatical structures. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B and 6: UC Language other than English

SPAN 230B:  Culture and Civilization of Mexico and Central America
3.0 Units. 3 lecture hrs/wk. Prerequisite: SPAN 102.
Study of the language, heritage, culture, traditions, music, art, literature, historic and current events of Mexico and Central American countries. The course is conducted entirely in Spanish; students are expected to have knowledge of verb tenses and other grammatical structures. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B and 6: UC Language other than English

SPAN 230C:  Culture and Civilization of Spain
3.0 Units. 3 lecture hrs/wk. Prerequisite: SPAN 102.
Study of the language, heritage, culture, traditions, music, art, literature, historic and current events of Spain. The course is conducted entirely in Spanish; students are expected to have knowledge of verb tenses and other grammatical structures. (CSU/UC) AA/AS Area C, CSU Area C-2, IGETC Area 3B and 6: UC Language other than English
Courses in speech offer a fundamental and valuable skill for all students. Learning to communicate our ideas orally with ease and persuasion is of significant value, whether it is used interpersonally between friends, within decision-making groups, or before large audiences.

Career Options
Communication Analyst, Interpersonal Communications Consultant, Lawyer, Public Relations Representative, Sales, Radio Announcer, Speech Therapist, Speech Writer

Department Phone: 415-485-9348

SPCH COURSES (SPCH)

SPCH 110: Introduction to Speech Communication
3.0 Units. 3 lecture hrs/wk. No prerequisite.
An introductory course in the art of public speaking with an emphasis on building self-confidence through frequent performance experiences. Students provide quality written and oral feedback of peer performances based on the five canons of rhetoric. (CSU/UC) AA/AS Area E, CSU Area A-1, IGETC Area 1C

SPCH 120: Interpersonal Communication
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This course introduces the theories, processes and principles of interpersonal communication, and builds self-confidence through oral communication performance experience. Through research and in-class oral presentations, students examine how human characteristics and the communicative environment affect the way people communicate. Students demonstrate and apply skills through presentations and written reflections. (CSU/UC) AA/AS Area E, CSU Area A-1, IGETC Area 1C

SPCH 122: Public Speaking
3.0 Units. 3 lecture hrs/wk. No prerequisite.
A survey course designed to introduce students to three specific areas of public speaking: informative speaking, persuasive speaking, and entertainment speaking. Emphasis is on analyzing the audience, adapting ideas and evidence in support of a thesis, developing language suitable to the occasion, and practicing delivery to effectively convey the message. The course develops critical listening skills through performance and evaluation. (CSU/UC) AA/AS Area E, CSU Area A-1, IGETC Area 1C

SPCH 128: Intercultural Communication
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This introductory course surveys the basic theories and research in the area of intercultural communication, focusing on the application of this knowledge in understanding and improving human interaction in both domestic and international contexts. Students examine the social, societal, structural and historical dimensions of relations between and among racial, ethnic, and gender groups in contemporary U.S. society and our global community. (CSU/UC) AA/AS Areas C or E, & G, CSU Area D-7, IGETC 4G

SPCH 130: Small Group Communication
3.0 Units. 3 lecture hrs/wk. No prerequisite. Advisory: English 120 or 120SL.
This course offers practical experience in the techniques of leading and participating in small group discussions. Effective small group discussion techniques such as speaking on panels, symposiums, problem-solving groups, conflict resolution within small groups as well as leadership skills and parliamentary procedures are covered. This course is designed for students intending to major in speech (communication), business, international business, education, and all fields of study and certification that require group and team-building skills. (CSU/UC) AA/AS Area E, CSU Area A-1, IGETC Area 1C

SPCH 132: Argumentation and Persuasion
3.0 Units. 3 lecture hrs/wk. No prerequisite.
An argumentation and debate theory course designed to develop critical thinking skills through written and oral arguments. Students create written briefs on current issues. Each brief includes the stock issues of advocacy, an understanding of the stakeholders, their philosophical perspectives, and impacts on changing the status quo. (CSU/UC) AA/AS Area E, CSU Area A-1 or A-3, IGETC Area 1C

SPCH 140: Oral Interpretation of Literature I
3.0 Units. 3 lecture hrs/wk. No prerequisite.
This course introduces the field of oral interpretation of literature, emphasizing awareness and appreciation of prose and poetry, and what happens to the written word when it is read aloud for the listening pleasure of an audience. Recommended for speech and theatre arts majors. (CSU/UC) AA/AS Area C, CSU Area C-2

SPCH 155: Radio and Television Announcing and Performance
3.0 Units. 3 lecture hrs/wk. No prerequisite. Can be taken as SPCH 155 or COMM 155; credit awarded for only one course.
This course prepares students to communicate more effectively through the electronic media. Students explore how to articulate messages, vary pitch and volume to the text and context, pronounce words according to accepted standards, express thoughts and feelings with confidence, understand and interpret the meaning of a message, and communicate ideas from a variety of prompts. (CSU)
STATISTICS

Department Phone: 415-485-9630

STATISTICS COURSES (STAT)

STAT 115: Introduction to Statistics
4.0 Units. 4 lecture hrs/wk. Prerequisite: Math 103 or 103B or 103Y or sufficient score on Math Assessment Test. Credit awarded for either Math 115 or STAT 115, but not both courses.

This course is an introduction to statistics for students in social science and business disciplines. It covers descriptive statistics, probability, hypothesis testing, linear and multiple regression, correlation, sampling, statistical inference and time series analysis. Illustrations are taken from the various social sciences and from business. (CSU/UC) AA/AS Area E, CSU Area B-4, IGETC Area 2

STUDY SKILLS

Department Phone: 415-485-9345

STUDY SKILLS COURSES (STSK)

STSK 050: Understanding Learning Disabilities
0.5 Unit. 0.5 lecture hrs/wk. No prerequisite.

This class explores topics related to the field of learning disabilities, including causes of learning disabilities, effects of learning disabilities, evaluation, accommodations, and other relevant issues.

STSK 053: Basic Math Skills
1.0 Unit. 1 lecture hrs/wk. Course is repeatable. No prerequisite.

This course serves students with basic math computation learning problems. Covers basic math skills, including addition, subtraction, multiplication and division of whole numbers, fractions, and decimals using a variety of resources.

STSK 054: Writing Improvement
1.0 Unit. 1 lecture hrs/wk. Course is repeatable. No prerequisite.

This course, designed for students with language based learning disabilities, helps students write coherent paragraphs, and covers grammar, punctuation, sentence structure, and paragraph organization.

STSK 056: How to Study in College
1.0 Unit. 1 lecture hrs/wk. Course is repeatable. No prerequisite.

This course, specifically for students with learning disabilities, teaches college-level study techniques. Major topics include setting goals, managing time, improving concentration and memory, taking notes, organizing study materials, reading textbooks, dealing with test anxiety, and preparing for and taking essay and multiple choice tests.

STSK 070: Study Skills Workshop: Evaluation
0.5 Unit. 1.65 lab hrs/wk. No prerequisite. Open-entry, open-exit classes.

A laboratory designed to provide individual testing and remediation of academic skills for students defined as having a dysfunction or delay in one or more processes or skills. Provides support for learning disabled students attending academic courses. STSK 70 must be taken by all new students.

STSK 076: Study Skills Workshop: Study Techniques
0.5 Unit. 1.65 lab hrs/wk. Course is repeatable. No prerequisite. Open-entry, open-exit classes.

A laboratory designed to provide individual testing and remediation of academic skills for students defined as having a dysfunction or delay in one or more processes or skills. Provides support for learning disabled students attending academic courses.

STSK 077: Study Skills Workshop: Adapted Computer Learning
0.5 Unit. 1.65 lab hrs/wk. Course is repeatable. No prerequisite. Open-entry, open-exit classes.

A laboratory designed to provide individual testing and remediation of academic skills for students defined as having a dysfunction or delay in one or more processes or skills. Provides support for learning disabled students attending academic courses.

STSK 078: Study Skills Workshop: Acquired Brain Injury
0.5 Unit. 1.65 lab hrs/wk.Repeat: 3. No prerequisite. Open-entry, open-exit class.

A laboratory designed to provide individual testing and remediation of academic skills for students defined as having a dysfunction or delay in one or more processes or skills. Provides support for learning disabled students attending academic courses.

STSK 161: Seminar for Tutors
2.0 Units. 2 lecture hrs/wk. No prerequisite.

This course is offered in conjunction with the Tutoring and Learning Center and is designed to train students to become effective tutors at College of Marin. Students learn about the role of a tutor, effective communication, group tutoring strategies, learning styles, and study skills. (CSU)

STSK 162: Community Action Skills Lab
2.0 Units. 2 lecture hrs/wk. Prerequisite: Enrolled in at least nine units, including two units for STSK 162.

This course is designed to train students to provide peer assistance to EOPS and VEA students in Student Affairs, orientation, EOPS counseling, and Health Services. Topics include peer counseling techniques, working with special student populations, and an overview of assessment and information on all student services. (CSU)
WORK EXPERIENCE EDUCATION

Cooperative Work Experience Education offers the student the opportunity to earn college credit for planned learning activities related to employment. Working students, with the assistance of an instructor-coordinator and the on-job supervisor (employer), set up goals to be accomplished during the school term. This may include, but is not limited to, completing projects, attending group and/or individual meetings with the coordinator, participating in career workshops, learning new job skills, reading material related to human relations on the job, etc. The instructor-coordinator visits each employer during the school term and the cooperating employers are required to provide written evaluation of student’s performance on the job.

Faculty
Sandy Boyd
Department Phone: 415-457-8811, Ext. 8200

Work Experience Information
Employment may be related to student’s planned course of study (Occupational Work Experience Education) or not have this direct relationship (General Work Experience Education).

Students in any field who seek paid, educationally related employment are encouraged to contact the Job Placement Office for information and assistance. Students may attend classes while working (parallel plan) or attend college full time 1 semester and work full time the following semester (alternate semester plan). On the parallel plan students can earn up to 3 (general) or 4 (occupational) units per term; on the alternate plan they may earn up to 8 units while off campus and working full time.

There are limits to the total number of units a student may earn while attending California community colleges. General Work Experience Education is limited to 6 semester units. Occupational Work Experience Education is limited to 16 semester units. A combination of General and Occupational Work Experience is limited to 16 semester units.

Note: Students may not concurrently enroll in Behavioral Science 252 or Psychology 252 and also receive credit for Work Experience Education courses.

Veterans note: Veterans Administration regulations may affect student benefits for these courses. Check with the Veterans’ Office for latest information.

WORK EXPERIENCE COURSES (WE)

WE 298ABCD: Occupational Work Experience
1-4 Units. 5-20 TBA hrs/wk. Repeat: 3. Prerequisite: Enrollment in one other credit course, and be a continuing student. A minimum of five hours of employment per week per unit.

In this academic course, work sites serve as “off-campus classrooms,” extending classroom-based occupational learning to a work site in a field directly related to the student’s educational or occupational goal. The course can help students develop necessary work habits, open doors to new employment experiences, or assist in acquiring skills and knowledge necessary for advancement in their current employment. Specific student units (1–4) are based on the number of hours a student works each week over the semester. (CSU)

WE 299ABC: General Work Experience
1-3 Units. 5-15 TBA hrs/wk. Repeat: 3. Prerequisite: Enrollment in at least seven units of college courses including Work Experience. A minimum of five hours of employment per week per unit.

An academic course in which work sites serve as “off-campus classrooms.” Faculty, employers and students work together to create meaningful work-based educational experiences by developing and achieving specific learning objectives related to their jobs. The course helps students develop necessary work habits, opens doors to new employment experiences, and assists students in acquiring skills and knowledge necessary for advancement in their current employment. (CSU)

NONCREDIT COURSES

College of Marin offers free noncredit courses in the following areas: Basic Skills, Disabled Students Programs and Services, English as a Second Language Noncredit (ESLN; please see ESL category for ESLN course listings), Health and Safety Courses, Nursing Education Vocational (Please see Nursing Education category for course listings) and Vocational.

BASIC SKILLS (ESBS)

ESBS 3010: GED (General Educational Development) Preparation
0.0 Unit.

Do you need a high school diploma for a certain job? Qualification to enter a vocational program? A brush-up to start college? Do you want to show your parents (or kids) that you can do it, or to just feel better about yourself? If so, free help is available. This open-entry GED class lets you enroll at any time during the semester. Pretesting determines your skill levels. An individual study plan focuses on your needs and goals. Instructor assistance and guidance is available at all listed times. Self-paced improvement removes time pressure. Practice testing assures your readiness. The drop-in Learning Lab allows flexible scheduling. Call 415.485.9363 (lab) for further information.
ESBS 3020: Basic Skills
0.0 Unit.
This program offers free instruction to any adult wishing to improve pre-college skills such as reading comprehension, writing, or math. Brush-up for College of Marin's placement tests is also available. The class structure is the same as the GED (High School Equivalency) Preparation course described above. For further information call 415.485.9363.

DISABLED STUDENTS PROGRAMS AND SERVICES (DSPN)

DSPN 5000: Adaptive Movement: Aerobics
0.0 Unit.
This is a dance class designed to meet the needs of disabled adults and physically disabled persons. The class is for beginners and for those who think they can’t dance a step. Various styles of dance will be included and music will accompany the warm-ups and routines. Relaxation and stretching exercises will be a part of each class.

DSPN 5005: Interpersonal Skills and Guidance for the Disabled 1: Stroke Support
0.0 Unit.
Psychologist works individually and in group setting with students to discover avenues to realize students’ best qualities in interpersonal communications and in life situations. Offers special guidance in learning confidence and ways to achieve best potential. Instructor consent required.

DSPN 5010: Interpersonal Skills and Guidance for the Disabled 2: Developmentally Delayed Learners
0.0 Unit.
Psychologist works individually and in group setting with students to discover avenues to realize students’ best qualities in interpersonal communications and in life situations. Offers special guidance in learning confidence and ways to achieve best potential. Instructor consent required.

DSPN 5015: Interpersonal Skills and Guidance for the Disabled 4: Creative Writing Skills
0.0 Unit.
Psychologist works individually and in group setting with students to discover avenues to realize students’ best qualities in interpersonal communications and in life situations. Offers special guidance in learning confidence and ways to achieve best potential. Instructor consent required.

DSPN 5020: Introduction to Aural Rehabilitation: Management of Hearing Loss
0.0 Unit.
This course is offered to help adults with mild to moderate hearing loss learn new ways to cope with impaired hearing. Family members and interested professionals are encouraged to enroll.

DSPN 5025: Community Re-Entry Following Brain Injury Level I
0.0 Unit.
The course focuses on teaching skills that support participants to build connections in the community through increased ability to develop relationships, communicate effectively, manage difficult behaviors, enhance skills and understand limitations.

DSPN 5030: Community Re-Entry Following Brain Injury Level 2
0.0 Unit.
The course focuses on teaching skills that support participants to build connections in the community through increased ability to develop relationships, communicate effectively, manage difficult behaviors, enhance skills and understand limitations.

VOCATIONAL (VOCN)

VOCN 6000: Activity Coordinator State Certification Training
0.0 Unit.
A state-required training course for students interested in working as an “Activity Coordinator” in long term care settings. Topics include psycho-social issues, state and federal regulations, leadership and group dynamics, calendar and program development, medical disorders, dementia, quality of life issues and much more.
