Dear Consultant;

The College of Marin has embarked on a $249.5 million, Measure C Bond Program and many of you have already submitted SOQs in 2005. Due to the elapsed time and understanding that Consulting Companies are subject to changes in operations and personnel the District feels compelled to renew, in an informal manner, their desire to seek Statements of Qualification from Testing & Inspection Firms, Industrial Hygienists and DSA Inspectors for Consulting Services, with experience performing work in their respective discipline and experience in the technical field of California Community Colleges. The services provided will solely be for District's Measure C Bond Capital Improvement Program. The District will rely on the Consultant to provide the best practices, recommendations and guidance in the interests of the District for the Kentfield Campus in Kentfield, CA. and Indian Valley Campus in Novato, CA. on a project by project basis.
