Approval of Agenda and Summaries

- The meeting agenda was approved.
- The meeting summary for 10/21/14 was approved.

Student Equity Planning

Christina and Melody presented handouts of COM student data they had gathered from the Data Mart, Data on Demand, Data Dashboard, and Marin County, and discussed the challenges of gathering and compiling data with COM’s present technology. COM recognizes that technology upgrades are needed and discussions are underway to determine what needs to be done. For the purposes of the Student Equity Plan, that will go to the Board for approval in December the data presently available will have to be used to best advantage. Highlights of the discussion:

- To make best use of the data available, the actual purpose and pertinence of the data needs to first be determined.
- Incomplete data can be used as part of the “plan to plan” that can be discussed in this iteration of the SEP.
- The data gathered may eventually be used to guide policy development, like whether students should take required math and English early in their enrollment.
