

Why choose College of Marin?

At College of Marin you can train for a new career, improve your skills, transfer to a four-year university, and greatly enrich your life.

College of Marin offers:

- Affordable enrollment fees
- Higher education that results in higher earnings
- Job-oriented workforce preparation programs
- Guaranteed transfer to the University of California and California State University systems
- Exceptional faculty
- Individualized attention
- Excellent counseling and support services

Outstanding Faculty

College of Marin faculty members are recognized for their excellence in the classroom. Our instructors have degrees from such institutions as Stanford, Harvard, Yale, Columbia, UC Berkeley, California College of Arts & Crafts, SFSU, Royal College of Music, London, and many other top educational institutions.

Individualized Attention

At College of Marin you will enjoy a high-quality education experience in a supportive setting. Many free services are available, including career and academic counseling, tutorials, and a range of support services designed to help you succeed in achieving your goals.

How To Enroll

You can apply online at www.marin.edu. Application forms also are available in the class schedule, which is published each fall, spring, and summer semester.

Scholarships

Scholarships are awarded annually on the basis of academic achievement and potential. Contact the Foundation Office for more information at 415.485.9382.

Financial Aid Is Available

With millions of dollars available in free money for school, applying for financial aid can be a very rewarding experience. Apply for financial aid by completing a Free Application for Federal Student Aid (FAFSA) by going to www.fafsa.ed.gov. You can also apply for a BOG Fee Waiver to cover the cost of your enrollment fees. Call the Financial Aid Office at 415.485.9409. Se habla español.

About the College of Marin

The College of Marin is one of 109 public community colleges in California accredited by the Western Association of Schools and Colleges. The Kentfield campus is located approximately 11 minutes north of the Golden Gate Bridge at 835 College Ave. in Kentfield. The Indian Valley Campus is located minutes away on a spectacular 333 acre site on Ignacio Blvd. in Novato, CA. Approximately 6,800 students enroll each fall and spring semester. Classes are also offered during the summer. For information call 415-457-8811.

An **Associate in Science degree** (generally a two-year program) or a **Certificate** may be earned in the following disciplines:

- Administration of Justice
- Automotive Collision Repair Technology
- Automotive Technology
- Business
- Business Office Systems
- Computer Information Systems
- Court Reporting
- Registered Dental Assisting
- Early Childhood Education
- Electronics
- Environmental Landscape
- Emergency Medical Technician
- Machine and Metals Technology
- Medical Assisting
- Registered Nursing
- Multimedia Studies
- Phlebotomy
- Real Estate

Machine Technology

The Machine Technology Program is an industry approved training program which prepares students for a career as machinist, toolmaker, instrumentmaker, CNC operator and programmer, and associated machine trade specialties.

“Classes are conveniently scheduled during evening hours”

Students are trained in the theory and operation of lathes, milling machines, grinding machines and related industrial machine tools, as well as in the use of precision hand tools, measuring instruments, and heat treating equipment.

The curriculum includes courses in machine-shop technique, blueprint reading, electronics, metallurgy, technical math, welding, and CNC machining.

Special emphasis is placed on automated manufacturing technologies such as Computer Numerical Control of machine tools and the use of digitally controlled welding equipment.

Upon completion of training, a Certificate of Achievement is awarded and assistance in job placement is provided.

Credits earned toward the Certificate of Achievement may be applied toward the Associate in Science degree, and are transferable toward Baccalaureate Degree credit at the California State University.

Retraining for the 21st Century

Machine trade specialists are employed in every sector of our manufacturing economy. Industry projections indicate a continual need for highly trained machinists in the auto, aerospace, computer, home appliance, and recreation equipment industries.

We maintain an extensive data base of local and regional employment opportunities, and graduates of our program are employed throughout the Bay Area. The work is challenging, personally rewarding, and among the highest paid of the crafts.

State-Of-The-Industry Training

Located on the Indian Valley Campus in Novato, our machine shop is a modern, well equipped training laboratory with both conventional and digitally controlled machine tools equipped with advanced CAD-CAM software.

Our instructors are industry trained and the course curriculum is monitored by an industry panel to assure adherence to current industry standards.

Constant review and upgrading of program content and equipment insures a program which is relevant to today's manufacturing marketplace.

A Supporting Training Environment

Students in our program work in a supportive environment emphasizing hand-on skill development and practical applications of theoretical principles.

Language support services are available for those with limited English skills, and financial aid assistance in the form of grants, scholarships, loans and work study is available to students who qualify.

A Career to Consider

We encourage the participation of students at all skill levels; machine trade professionals wishing to upgrade their skills, as well as students newly entering the profession.

Classes are conveniently scheduled during evening hours, and individual course offerings are available for those who are exploring Machine Technology as a possible career-change option.
