Hi Luz,

I have attached degree and certificate data by ethnicity for several semesters. Please be aware that the numbers represent the number of degrees and certificates awarded not the number of students obtaining a degree or certificate. For example, if a student received two degrees, he/she is counted twice.

Also, below is transfer data by ethnicity from the Chancellor's Office Data Mart (www.cccco.edu) for 2004-2005, 2003-2004, and 2002-2003. Please call if you have questions.

I still need to research the assessment/placement data by ethnicity.

Melody

Note: The Transfer Velocity Cohort is created by evaluating all first time freshmen six years after their entry. Those students who have completed twelve credit units and attempted a transfer level math or English course are included in the Transfer Velocity Cohort. Transfer rates for years three, four, and five are retrospective and cannot be reported until the cohort is finalized at the completion of the sixth year after initial enrollment. Students with multiple college enrollments are reported as members of the Transfer Velocity Cohort for each college attended.

For detail definition of Transfer Velocity Cohort, please [click](#) here or visit www.ccctransfer.org.

For Questions or Comments, please contact ccctransfer@cccoco.edu.

Transfer Velocity Cohort Report Data is updated in May, Aug, and Dec of each year.
