

ECONOMICS

Economics programs offer the study of relationships that make up economic systems. These include supply and demand for products and services and the distribution of land, money, and manpower. Economics programs describe and analyze both domestic and foreign economic systems.

C.O.M.

Suggested Transfer Preparation

ECON 101 - ECON 102
 MATH 115 OR STAT 115
 MATH 121 & MATH 122
 Or
 MATH 123 - MATH 124
 ENG 151 OR ENG 155
 BUS 112, 113

Transfer students are strongly advised to meet with a Counselor and complete as many preparatory courses as possible before transferring. Please refer to the following links for articulation agreement updates, revisions, and additional information:

Typical Coursework associated with the study of Economics

Analytical skills, a strong quantitative background, and clarity and precision of expression are qualities developed in the economics major. Additionally, knowledge of the operations of a complex economic system and its institutions provides skills applicable to a wide variety of job responsibilities. In studying Economics you will find yourself developing budgets, performing cost analysis, tabulating figures, creating and evaluating financial reports, relating theory to practice, evaluating policies, generating solutions, explaining ideas/goals, assessing needs, designing projects, using computers, organizing materials, developing ideas, testing ideas, writing reports and justifying a position.
