Artists/Bands	Software Companies
Churches	Symphony/Orchestras
Production Companies	
Movie Studios	

# Typical Coursework associated with the study of Music

Programs in Music are designed to help individuals develop talents and acquire theoretical knowledge for playing musical instruments and singing. They also provide knowledge of music history and composing techniques. These programs prepare people to perform, teach, or work as music therapists or work for the music industry in recording, broadcasting, or marketing. People not interested in music-related careers often study music to increase their appreciation and enjoyment of music.
