

# COLLEGE OF MARIN

## BEHAVIORAL SCIENCE

Your success in any field will depend largely on your understanding of yourself and others, and your ability to work together. The Behavioral Science major lays the foundation for this understanding. Behavioral Science is an interdisciplinary study of human behavior and encompasses such disciplines as Anthropology, Psychology and Sociology. This course of study is intended to be used as a background for general education that could be used in many careers.

C.O.M.  
Suggested Transfer Preparation

ANTH 101 OR ANTH 110  
ANTH 102 PSY 110  
SOC 110 ENGL 150

Transfer students are strongly advised to meet with a Counselor and complete as many preparatory courses as possible before transferring. Please refer to the following links for articulation updates, revisions and general information.

Police Departments	School Systems
Social Service Agencies	Private Practices
Large Corporations	

# Typical Coursework associated with the study of Behavioral Science

Behavioral Science provides the tools for a scientific analysis of human behavior reinforced by an understanding of the origins and development of society and culture. Human behavior is influenced by many factors, therefore study in the field of behavioral science is interdisciplinary. Including coursework from the fields of Anthropology, History, Psychology and Sociology as well as Statistics, research methods, and computers that help experimentation in the behavioral sciences. Course in the behavioral sciences will help the student to gain an understanding of classic and contemporary theories of society and the individual as a social, historical, economic, political, cultural, and psychological actor or agent of change.

## California Universities offering Behavioral Science Degrees
