

Join us to restore habitat in your National Park

Our volunteers are essential in fighting the spread of invasive plants.

Help us remove invasive plants from native habitats.

We meet at the Bear Valley Visitor Center at 9am every second and last Sunday of the month.

Come as often as you would like. All help is welcome.

Bring a lunch and water! We usually end at 1pm and eat lunch together.

Tools are provided.

There are scheduled dates we do not meet. Email or call ahead to make sure the group is meeting the day you wish to volunteer.

Contact Ellen Hamingson at Ellen_Hamingson@nps.gov or 415-464-5196 with questions or to be placed on the email list. Carpooling options may be available.
